Intensive readings in English concerning interpretive issues in the study of Chinese cultural history. Instruction Mode: Lecture Grading Option: Letter

EALC 532 Proseminar in Korean Cultural History

Units: 4 Introduction to Korean cultural and social history through intensive reading of the English-language literature on Korean history and culture. Instruction Mode: Lecture Grading Option: Letter

EALC 533 Proseminar in Japanese Cultural History

Units: 4 Intensive readings, chronologically arranged, in interpretive issues in the study of Japanese cultural history. Readings in English. Instruction Mode: Lecture Grading Option: Letter

EALC 534 Modernity and Cultural Representation in Korea

Units: 4 Max Units: 12 Terms Offered: FaSp In-depth introduction to the cultural history, including emerging trends and new methodologies within modern Korean literary and cultural studies. Instruction Mode: Lecture Grading Option: Letter

EALC 535 Proseminar in Chinese Visual Culture

Units: 4 Max Units: 12 Terms Offered: FaSp Chinese visual culture through the complex interface of art and thought. Examines architectural layout, pictorial representation, decorative motif as part of cultural production that intertwines with intellectual trends. Instruction Mode: Lecture Grading Option: Letter

EALC 536 Studies in Modern Japanese History

Units: 4 (Enroll in HIST 534)

EALC 537 Structure of the Korean Language

Units: 4 Description and theoretical analysis of phonology, morphology and syntax of modern Korean; comprehensive view of the properties of the Korean structure. *Prerequisite:* EALC 470. Instruction Mode: Lecture Grading Option: Letter

EALC 541 Seminar: Japan

Units: 4 Social, economic, political, and cultural problems in modern Japan. Bibliographic and reference materials. *Prerequisite:* HIST 436. Instruction Mode: Lecture Grading Option: Letter

EALC 543 Seminar: Japanese Literature

Units: 4 Readings in original texts in the works of selected major writers; lectures dealing with intellectual and cultural backgrounds of the periods and the authors. *Prerequisite:* EALC 520, EALC 522. Instruction Mode: Lecture Grading Option: Letter

EALC 545 Japanese Literary Criticism and Theory

Units: 4 Max Units: 12 Terms Offered: FaSp Representative theories of literature; history of classical and modern literary criticism. *Prerequisite:* EALC 520 or EALC 522

Instruction Mode: Lecture Grading Option: Letter

EALC 547 Structure of the Japanese Language

Units: 4 Descriptive analysis of phonetic, phonological, and grammatical structure of Japanese. Conducted in English. *Prerequisite:* EALC 470. Instruction Mode: Lecture Grading Option: Letter

EALC 551 Seminar: China

Units: 4 Individual research and seminar reports on selected phases of Chinese traditional civilization. Instruction Mode: Lecture Grading Option: Letter

EALC 553 Seminar: Chinese Literature

Units: 4 Max Units: 12 Terms Offered: FaSp Research in different genres of Chinese literature, traditional and modern. Instruction Mode: Lecture Grading Option: Letter

EALC 555 Chinese Literary Criticism and Theory

Units: 4 Classical and modern literary theories and criticism; comparisons with literary theory and criticism in the West. Instruction Mode: Lecture Grading Option: Letter

EALC 556 Seminar on Women and the Family in China

Units: 4 An introduction to the current state of research on women and the family in China, and training in feminist analytic approaches for further work in the China field of other areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-556

EALC 557 Structure of the Chinese Language

Units: 4 Descriptive analysis of phonology, morphology, and syntax of modern Chinese. Conducted in English. *Prerequisite:* EALC 404. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-557

EALC 558 History of the Chinese Language

Units: 4 Evolution of the Chinese language from the earliest time to the present; lectures and the reading of texts. Conducted in English. *Prerequisite:* EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 560 Comparative Syntax of East Asian Languages

Units: 4 Max Units: 12.0 Terms Offered: FaSp Descriptive-comparative study of the Chinese, Japanese and Korean languages with an emphasis on their structures, range of properties, similarities and dissimilarities. *Prerequisite:* EALC 537 or EALC 547 or EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 561 Topics and Issues in East Asian Linguistics

Units: 4 Max Units: 12.0 Descriptive and theoretical analysis of the grammars of Chinese, Japanese, and Korean; emphasis on comparative studies of these languages and English. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-561

EALC 562 Teaching of the East Asian Languages

Units: 4 Materials and methods in teaching

East Asian languages; application of methods and techniques of foreign/second language teaching to East Asian language teaching. *Prerequisite:* EALC 537 or EALC 547 or EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 565 Bibliography and Research Methods in Chinese Studies

Units: 4 An introduction to reference works and research methods in all fields on sinology; works in Chinese, Japanese and Western languages. Instruction Mode: Lecture Grading Option: Letter

EALC 570 Narratives of Desire in Modern Chinese Literature

Units: 4 Terms Offered: FaSp The study of prominent fiction women writers from the first half of the 20th century in English and original translations. Open to graduate students only. *Prerequisite:* EALC 553. Instruction Mode: Lecture Grading Option: Letter

EALC 575 Literary and Artistic Movements in Modern China

Units: 4 Terms Offered: FaSp Introduction to literary and artistic movements in 20th century China. Open to graduate students only. Instruction Mode: Lecture Grading Option: Letter

EALC 580 Readings in East Asian Linguistics

Units: 4 Max Units: 12.0 Terms Offered: FaSp Survey of some representative works in generative grammar since the mid '60s, including those that deal with similar phenomena in the contexts of more recent theoretical frameworks as well as non-generative grammatical works on Chinese, Japanese, and Korean. Instruction Mode: Lecture Grading Option: Letter

EALC 588a Directed Readings

Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 588b Directed Readings

Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 593 Teaching Practicum for East Asian Studies

Units: 2 Max Units: 04 Terms Offered: FaSp Enhances the teaching experience of teaching assistants in East Asian studies through a collaborative study of relevant pedagogical principles, resources, and techniques. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 594b Master's Thesis

Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

EALC 594z Master's Thesis

Units: 0 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

EALC 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered:
FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered:
FaSpSm Special topics in East Asian Languages and Cultures. Instruction Mode: Lecture Grading Option: Letter

EALC 610 Seminar: Buddhism and the Literary Arts in Japan

Units: 4 Seminar on the impact of Buddhism on the literary tradition of medieval Japan. Selected topics. Instruction Mode: Lecture Grading Option: Letter

EALC 620 Seminar in East Asian Linguistics

Units: 4 Max Units: 12.0 Terms Offered:
FaSp Detailed theoretical discussions and empirical studies of the issues and development in East Asian linguistics. Instruction Mode: Lecture Grading Option: Letter

EALC 650 Research Seminar in Chinese Documents

Units: 4 An introduction to the different genres of documents for the study of Chinese civilization, and training in their use. Instruction Mode: Lecture Grading Option: Letter

EALC 700 Professionalization Seminar for Advanced Graduate Students

Units: 2 Max Units: 04 Terms Offered: FaSp Familiarizes advanced graduate students with topics relevant to academic work in East Asian humanities, including research planning, dissertation writing, publishing, and conference presentation. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.

Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

EALC 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

East Asian Studies**EASC 150gp East Asian Societies**

Units: 4 Terms Offered: FaSp Main patterns of change in modern China, Japan, and Korea; historical framework and the insights of geography, economics, political science, and other disciplines. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 160gmp China and the World

Units: 4 Terms Offered: FaSp Advanced-level introduction to China and its relations with the wider world in historic and contemporary perspective. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 360 Global East Asia

Units: 4 Max Units: 12 Terms Offered: Sp Maymester Study Abroad Program to China or Japan with a focus on globalization. Instruction Mode: Lecture Grading Option: Letter

EASC 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EASC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Interdisciplinary examination of various areas of East Asian studies. Instruction Mode: Lecture Grading Option: Letter

EASC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 591 Interdisciplinary Seminar

Units: 4 Max Units: 8.0 Terms Offered: Irregular An examination of a broad topic in the study of China, Korea, or Japan. Guest speakers, student reports, papers. Readings in English and the appropriate Asian language(s). Instruction Mode: Lecture Grading Option: Letter

EASC 592 Proseminar on Issues and Trends in Contemporary East Asia

Units: 4, 2 years Terms Offered: Fa Introduction to graduate level study of policy issues and major trends in contemporary China, Japan, and Korea; contributions of various academic disciplines. Instruction Mode: Lecture Grading Option: Letter

EASC 593x Understanding East Asia: An Introduction for Professional School Students

Units: 3 Terms Offered: Sp Historical, social, political and cultural survey of China, Japan and Korea with focus on topics of particular relevance for business practitioners and other professionals. Instruction Mode: Lecture Grading Option: Letter

EASC 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in East Asian Area Studies. Instruction Mode: Lecture Grading Option: Letter

Economics**ECON 101 Free People, Free Thought and Free Markets**

Units: 4 Terms Offered: FaSpSm (Enroll in PHIL 101)

ECON 203g Principles of Microeconomics

Units: 4 Terms Offered: FaSp Behavior of firms and consumers, functions of the price system, competition and monopoly, labor markets, poverty, government regulation, international trade, and the environment. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 205g Principles of Macroeconomics

Units: 4 Terms Offered: FaSp Unemployment, inflation and output determination and links. Effects of government taxation and spending on

growth, investment, saving, consumption, and trade. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 238xg Political Economy and Social Issues

Units: 4 Terms Offered: Fa Contending politico-economic perspectives in modern Western thought: conservatism, liberalism, radicalism, and their relevance for contemporary policy issues including government and markets, class, race, gender, poverty and inequality. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 303 Intermediate Microeconomic Theory

Units: 4 Terms Offered: FaSp Decision-making by business firms, consumer preferences and behavior, uncertainty, competition, monopoly, labor and resource markets, efficient resource allocation, externalities, and government policy. *Prerequisite:* ECON 203; MATH 118gx or MATH 125; *Corequisite:* ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 304 Mathematical Microeconomics

Units: 4 Terms Offered: FaSp Explores the theoretical framework of how economic agents make choices and what the implications of these choices are; presentation and application of analytical tools. *Prerequisite:* ECON 203g and (MATH 118gx or MATH 125g) Instruction Mode: Lecture Grading Option: Letter

ECON 305 Intermediate Macroeconomic Theory

Units: 4 Terms Offered: FaSp The determinants of aggregate income, employment, and inflation; economic fluctuations; fiscal and monetary policy; financial markets; the national debt. *Prerequisite:* ECON 203 and ECON 205; MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 317 Introduction to Statistics for Economists

Units: 4 Terms Offered: FaSp Introduction to statistical methods appropriate for analyzing economic data: probability theory, random variables and probability distributions, sampling, estimation, statistical inference. *Prerequisite:* MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 318 Introduction to Econometrics

Units: 4 Terms Offered: FaSp Application of statistical methods to economic data: estimating economic relationships using regression analysis, testing hypotheses involving economic behavior, forecasting economic variables. *Prerequisite:* ECON 317 Duplicates Credit in former ECON 414 Instruction Mode: Lecture Grading Option: Letter

ECON 319 Advanced Introduction to Econometrics

Units: 4 Terms Offered: FaSp Understanding, evaluating and interpreting econometric

papers that use linear regression methods and an emphasis on matrix algebra, calculus and mathematical proofs. *Prerequisite:* ECON 317 and MATH 125g and MATH 225 Duplicates Credit in ECON 318 Instruction Mode: Lecture Grading Option: Letter

ECON 322 Economic History and Modernization of the Middle East

Units: 4 Terms Offered: Irregular Economic history of the Middle East from the rise of Islam to the modern era. Roles of law, religion. Processes of institutional transformation, stagnation, modernization. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 330 The Political Economy of Institutions

Units: 4 Social functions served by the rules, laws, regulations, and customs that constrain human activity. Processes whereby such institutions adapt, or fail to adapt, to changing circumstances. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 332 Contracts, Organizations and Institutions

Units: 4 Contract law and economic organization, determinants of firm boundaries, transaction cost economics, agency theory, incomplete contracting, business strategy, bureaucracy, institutional environment, politics and property rights. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 338 Political Economy and Social Issues

Units: 4 Terms Offered: Sp Contending politico-economic perspectives in modern Western thought and culture; absolutist, liberal, democratic, Marxist, anarchist, and other traditions, topics and issues. *Prerequisite:* ECON 205. Duplicates Credit in former ECON 121x.

ECON 339 Philosophy of Economics

Units: 4 (Enroll in PHIL 339)

ECON 340 Economics of Less Developed Countries

Units: 4 Causes of economic underdevelopment: historical, institutional, structural, ideological, technological, cultural. Patterns and theories of development. Role of government, international trade, and education in economic growth. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 342 Economic Development of the Middle East

Units: 4 Terms Offered: FaSp Contemporary economic problems of the Middle East: comparative and historical perspectives on issues of institutions, investment, oil, trade, migration, finance, inequality, labor and capital markets. *Prerequisite:* ECON 203; *Recommended Preparation:* ECON 205 and ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 343 Economic Development of East Asia

Units: 4 Contemporary economic problems of East Asian countries: management, labor,

technology, trade, investment. Determinants of their high growth rates in the late 20th century. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 344 Economic Development of Sub-Saharan Africa

Units: 4 Terms Offered: FaSpSm Contemporary economic problems of sub-Saharan African economies: policies and endowments. Focus on issues of poverty, agriculture, health, macroeconomy and political economy. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 346 Economics of Transition and Development: China

Units: 4 Terms Offered: FaSpSm A focus on the Chinese economy, its reform and transition to a market economy, its relation with East Asian countries and integration into the world economy. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 348g Current Problems of the American Economy

Units: 4 Terms Offered: Fa A comprehensive investigation of problems stemming from changing composition of the work force, urban decline, new technologies, inequalities, ethnic relations, government deficits. Prospects for continued growth. *Prerequisite:* ECON 203 or ECON 205. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 350 The World Economy

Units: 4 Terms Offered: SpSm International cooperation and conflict in the world economy. Global economic problems of growth and development, trade and finance, migration, economic stability, and the environment. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 351x Microeconomics for Business

Units: 4 Terms Offered: FaSpSm Development and business applications of: theory of the firm; theory of the consumer; intertemporal decisions; decisions under risk; market failures; industrial and enterprise structure. Not for major credit for: economics, economics/mathematics, social sciences (economics) majors. *Prerequisite:* MATH 118 or MATH 125 or MATH 126 or MATH 226; *Corequisite:* ECON 352x Duplicates Credit in former ECON 251. Instruction Mode: Lecture Grading Option: Letter

ECON 352x Macroeconomics for Business

Units: 4 Terms Offered: FaSpSm Theoretical development and significance to business and markets of economic growth; inflation; unemployment; monetary and fiscal policy; business cycles; savings and investment; exchange rates. *Recommended Preparation:* introductory economics course, high school math, and algebra. *Corequisite:* ECON 351x Duplicates Credit in former ECON 252x. Instruction Mode: Lecture Grading Option: Letter

ECON 357 Money, Credit, and Banking

Units: 4 The money, bond, stock, and other financial markets; portfolio choice; determinants of asset prices and interest rates; inflation; interactions between financial markets and government policies. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 360 Public Finance

Units: 4 Role of the government; income and corporate taxation; direct versus indirect taxation; optimal tax structure; public goods; public sector pricing; public debt and macroeconomic stability. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 361 Understanding Financial Crises

Units: 4 Terms Offered: FaSp Key facts and basic mechanisms concerning financial crises and related topics (bank runs, sovereign default decision, currency collapse). *Prerequisite:* ECON 203g and ECON 205g Instruction Mode: Lecture Grading Option: Letter

ECON 366 Urban Economics

Units: 4 Urban trends and problems, including changing urban form and function, urban public finance, housing, renewal, poverty, race, transportation, and the environment. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 369 Economics of European Integration

Units: 4 Terms Offered: FaSp The challenges of policy coordination among independent political entities, starting from the aftermath of German unification (and the ramifications it had in a fixed exchange rate system) to the recent national debt crisis that followed the great recession. *Prerequisite:* ECON 203g and ECON 205g Instruction Mode: Lecture Grading Option: Letter

ECON 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ECON 395 Economic Policy Issues

Units: 4 Selected policy dilemmas, including welfare reform, urban renewal, government budget deficits, regulation and deregulation, environmental problems, immigration, and global development. Lectures by leading authorities and weekly discussion sessions. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 401 Mathematical Methods in Economics

Units: 4 Terms Offered: Fa Introduction to quantitative methods for analyzing economic equilibria; comparative statics and dynamics. Utility theory, consumer behavior, and profit maximization. Model formulation in micro and macroeconomics. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 404 Games and Economics

Units: 4 Analysis of strategic economic interactions. Topics include bargaining, insurance, patents, voting, environmental depletion, strategic trade, learning, reputation, strikes, corporate takeovers, and the provision of public goods. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 405 Neuroeconomics

Units: 4 Introduction to the methodology used in experimental neuroeconomics and discussion of neural correlates of decision-making. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 410 Economics of Health and Healthcare

Units: 4 Terms Offered: FaSp Detailed discussion of economic models, including models of health, addiction, demand for healthcare and demand for insurance. *Prerequisite:* ECON 303 Instruction Mode: Lecture Grading Option: Letter

ECON 415 Behavioral Economics

Units: 4 Examination of the traditional and behavioral theories of decision-making and the state of the art in the field. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 419 Advanced Econometrics

Units: 4 Terms Offered: FaSpSm Analysis of binary dependent variable models, panel data analysis, program evaluations, IV analysis, basics of time series and forecasting. *Prerequisite:* (ECON 303 and ECON 305 and ECON 317 and ECON 318) and (MATH 125g or MATH 126 or MATH 225 or MATH 226) Instruction Mode: Lecture Grading Option: Letter

ECON 420 Experimental Economics

Units: 4 Examination of economic theories and patterns of behavior useful in building new theories. *Prerequisite:* ECON 303; *Recommended Preparation:* ECON 317. Instruction Mode: Lecture Grading Option: Letter

ECON 432 Economics of Happiness

Units: 4 What is happiness? How does it vary by socio-economic status and over the life cycle? This course will develop insight into the nature and determinants of subjective well-being. *Prerequisite:* ECON 303; *Recommended Preparation:* ECON 305. Instruction Mode: Lecture Grading Option: Letter

ECON 433 Empirical Economics Research

Units: 4 Terms Offered: FaSp Analysis of economic variables; investigation of empirical economics to estimate or test for relationships using various forms of data. *Prerequisite:* ECON 303, ECON 305, ECON 317 and ECON 318. Instruction Mode: Lecture Grading Option: Letter

ECON 434 Economic Analysis of Law

Units: 4 Common law and property; rationing of justice, resource allocation between prevention and enforcement; division of decision making between public and private sectors. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 450 International Trade

Units: 4 Determinants and economic consequences of international trade patterns; effects of trade restrictions and trading blocs; trade negotiations and arrangements. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 451 The Politics of International Trade

Units: 4 (Enroll in IR 430)

ECON 452 International Finance

Units: 4 Consequences of trade deficits; theories of capital and currency markets, exchange rate regimes, and international monetary coordination. *Prerequisite:* ECON 305. Instruction Mode: Lecture Grading Option: Letter

ECON 457 Financial Markets

Units: 4 General equilibrium analysis of economies with financial markets; decision making under uncertainty; methods of risk reduction; portfolio theory and valuation of securities; efficiency of security markets. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 471 Economics of Labor Markets and Human Capital

Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 472 Economics of Medical Care

Units: 4 Health as an investment in human capital; analysis of the demand for and supply of health services and manpower; health insurance; cost-effectiveness analysis; market structures and the pricing of medical services. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 474 Economic Consulting and Applied Managerial Economics

Units: 4 Terms Offered: FaSp Economic consulting and managerial economic methods applied in real world problems. Economic methods to analyze issues of intellectual property, environmental damage, trademark infringement, brand value, and consumer demand. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 480 Economics of Industrial Organization

Units: 4 Pricing and resource allocation in imperfectly competitive markets; monopoly regulation, collusion, cartels, mergers and antitrust; patents and development incentives; industry case studies. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 487 Resource and Environmental Economics

Units: 4 Management and extraction of renewable and non-renewable natural resources; environmental externalities and regulation of air, water, and land pollution; market incentives versus direct regulation. *Prerequisite:* ECON 303. Instruction Mode:

Lecture Grading Option: Letter Crosslisted as ENST-487

ECON 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Supervised individual research. Instruction Mode: Lecture Grading Option: Letter

ECON 495 Honors Thesis

Units: 4 Individual research supervised by a faculty adviser. Successful completion required for departmental honors degree. Instruction Mode: Lecture Grading Option: Letter

ECON 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in economic theory, history, or policy. Instruction Mode: Lecture Grading Option: Letter

ECON 500 Microeconomic Analysis and Policy

Units: 4 Terms Offered: FaSp Theories of the household and the firm; product and factor markets; perfect and imperfect competition; welfare criteria. Instruction Mode: Lecture Grading Option: Letter

ECON 501 Macroeconomic Analysis and Policy

Units: 4 Terms Offered: FaSp Theories of aggregate economic activity; design and use of macroeconomic models; stabilization and control of inflation, unemployment, and growth. Instruction Mode: Lecture Grading Option: Letter

ECON 502 Mathematical Methods in Dynamic Economics

Units: 4 Terms Offered: SpSm Movement of economic systems over time; differential and difference equations; introduction to the optimal control of economic processes; dynamic programming and optimal strategies; selected applications. *Prerequisite:* ECON 401. Instruction Mode: Lecture Grading Option: Letter

ECON 504 Game Theory with Economic and Financial Applications

Units: 4 Terms Offered: FaSp Students will cover large ground in applying game theory to economic and financial markets and interactions in a diverse set of examples like reputation, herding, bubbles and crashes, auctions, strategic information revelation and information accumulation in markets. We will witness the wide range of applications that is amenable to game theoretical analysis. *Prerequisite:* ECON 303 and ECON 404 and MATH 544L and MATH 547 Instruction Mode: Lecture Grading Option: Letter

ECON 513 Practice of Econometrics

Units: 4 Terms Offered: FaSpSm Application of econometric tools using standard econometric software packages for microcomputers; empirical applications to selected economic problems of estimation and inference. Instruction Mode: Lecture Grading Option: Letter

ECON 515 Time Series Analysis

Units: 4 Terms Offered: FaSp Understanding and implementing models commonly used in time series econometrics. Emphasis is placed on intuition and application. Assists students understanding how to use time series data to

test hypotheses and serve as an introduction to the ideas and techniques of forecasting. *Prerequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 521 Open Economy Macroeconomics

Units: 4 Terms Offered: FaSp The balance of payments, macroeconomic policy in an open economy, exchange rate determination, exchange rate systems, currency crises, international financial arrangements and monetary history. *Prerequisite:* ECON 501 Instruction Mode: Lecture Grading Option: Letter

ECON 523 Economic History and Development

Units: 4 Historical trends in developed and developing societies in various aspects of modernization such as human resources, capital, technology, resource allocation, income distribution, international relations. Instruction Mode: Lecture Grading Option: Letter

ECON 527 Theory of Value: Classical Origins and Neoclassical Critique

Units: 4 Terms Offered: FaSpSm Classical economic theory; its precursors, main contributors, extensions and critics; focus upon the writings and ideas of Smith, Say, Malthus, Ricardo, Mill and Marx. Instruction Mode: Lecture Grading Option: Letter

ECON 533 Capstone Research Seminar

Units: 2 Terms Offered: FaSp Provides Masters students with a centerpiece of their graduate experience whereby they are able to experience first-hand turning the theory of their studies into practice under the guidance of an experienced faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 537 Contracts, Organizations and Institutions

Units: 4 Information, property rights, bargaining, transaction costs, incentives, free-riding and contracting in organizations; the nature of cooperation; bureaucracies. Instruction Mode: Lecture Grading Option: Letter

ECON 538 Values and Social Analysis

Units: 4 Factors that make values an essential feature of human society; how values develop, change, and are abandoned; role of values in economic development. Instruction Mode: Lecture Grading Option: Letter

ECON 541 Economic Development

Units: 4 Development, underdevelopment and the problems thereof; agriculture, industry, trade, population, human capital, capital formation; structural, technological, environmental and institutional changes; political economy of the state. Instruction Mode: Lecture Grading Option: Letter

ECON 570 Big Data Econometrics

Units: 4 Terms Offered: FaSp Provides an introduction to the theory and practice of causal econometrics in modern settings of large-scale data. *Prerequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 580 Antitrust Economics and Competition Policy

Units: 4 Terms Offered: FaSp Efficiency, market failure, government regulation, some basics for antitrust economics, competition policy analysis and collusion and agreements among competitors. *Prerequisite:* ECON 500 or ECON 513. Instruction Mode: Lecture Grading Option: Letter

ECON 584 Economic Consulting and Applied Econometrics

Units: 4 Economic consulting and applied econometric methods applied to real world problems including issues of intellectual property, environmental damage, trademark infringement, brand value and consumer demand. Instruction Mode: Lecture Grading Option: Letter

ECON 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 593x Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students in Economics. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 595 Research Seminar in Spatial Economics and Data Sciences

Units: 4 Terms Offered: FaSp Original spatial analysis research; integrate economics, data creation, and spatial analytics. Instruction Mode: Lecture Grading Option: Letter

ECON 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in economics as developed by the instructor. Instruction Mode: Lecture Grading Option: Letter

ECON 600 Economics of Choice

Units: 4 Reviews the normative and positive theories of choice drawing upon recent theoretical and empirical work in cognitive and evolutionary psychology, artificial intelligence, linguistics and economics. *Prerequisite:* ECON 500. Instruction Mode: Lecture Grading Option: Letter

ECON 601 Microeconomic Theory I

Units: 4 Optimization of the consumer and the firm; duality and imputed value; perfect and imperfect competition in product and factor markets. *Prerequisite:* ECON 401; *Recommended Preparation:* ECON 500. Duplicates Credit in former ECON 503. Instruction Mode: Lecture Grading Option: Letter

ECON 602 Macroeconomic Theory I

Units: 4 Aggregate demand, supply and government policy; theories of economic growth and business cycles; static and dynamic implications of government policies. *Prerequisite:* ECON 401. Duplicates Credit in former ECON 505. Instruction Mode: Lecture Grading Option: Letter

ECON 603 Microeconomic Theory II

Units: 4 Terms Offered: Sp General equilibrium theory; existence, uniqueness, and stability; welfare economics; social choice; dynamic models and uncertainty; special topics. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 604 Game Theory

Units: 4 Strategies and equilibrium concepts; dynamic and repeated games; incomplete information and learning in games. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 605 Macroeconomic Theory II

Units: 4 Terms Offered: Sp Macroeconomic theory based on the concepts of optimal growth and intertemporal equilibrium; overlapping generations models; recent developments in macroeconomic theory. *Prerequisite:* ECON 601 and ECON 602. Instruction Mode: Lecture Grading Option: Letter

ECON 606 Behavioral Theories of Decision-Making

Units: 4 Examination of behavioral theories used to describe and predict choices made in both an individual decision-making setting and strategic environments. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 607 Topics in Dynamic Optimization

Units: 4 Theory and numerical methods for dynamic optimization and control; selected applications in economic analysis and econometrics. *Prerequisite:* ECON 502 and knowledge of FORTRAN. Instruction Mode: Lecture Grading Option: Letter

ECON 608 Advanced Neuroeconomics

Units: 4 Advanced methodology of neuroeconomics including neural activity, memory, value and reward systems, emotions, and risk. *Prerequisite:* ECON 503. Instruction Mode: Lecture Grading Option: Letter

ECON 609 Econometric Methods

Units: 4 Terms Offered: FaSp Review of statistical methods of estimation and inference, linear regression with multicollinearity and serial correlation; multivariate regression and simultaneous equations. *Prerequisite:* ECON 611. Duplicates Credit in former ECON 511. Instruction Mode: Lecture Grading Option: Letter

ECON 610 Quantitative Analysis in Macroeconomics

Units: 4 Terms Offered: Sp Dynamic economics, applied general equilibrium models, computational and calibration tools, discrete-state dynamic programming, log-linearization of Euler equations. *Prerequisite:* ECON 602, ECON 605. Instruction Mode: Lecture Grading Option: Letter

ECON 611 Probability and Statistics for Economists

Units: 4 Terms Offered: FaSp Introduction to probability theory and statistical inference to prepare students for graduate courses in econometrics and economic theory; probability, random variables, distributions, estimation, testing, asymptotics. *Prerequisite:* MATH 226. Duplicates Credit in former ECON 514. Instruction Mode: Lecture Grading Option: Letter

ECON 612 Econometric Theory

Units: 4 Inference and prediction, generalized and restricted least squares, specification analysis, multivariate and seemingly unrelated regressions, simultaneous equations techniques, dynamic models, instrumental variable estimation. *Prerequisite:* ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 613 Economic and Financial Time Series I

Units: 4 Terms Offered: Fa Simultaneous equation models, dynamic structural econometric models, vector autoregressions, causality, forecasting, univariate and multivariate nonstationary time series, tests for unit roots, cointegration, autoregressive conditional heteroscedasticity models, time series models with changes in regime. *Prerequisite:* ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 614 Economic and Financial Time Series II

Units: 4 Terms Offered: Sp Stock returns, predictability and volatility, random walk and variance-bounds tests, estimation of capital asset, multifactor, and derivative pricing models, term structure of interest rates. *Prerequisite:* ECON 604. Instruction Mode: Lecture Grading Option: Letter

ECON 615 Applied Econometrics

Units: 4 Terms Offered: Fa Use of quantitative models to describe and forecast economic activity; estimation and application of such models to selected policy problems.

Prerequisite: ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 616 Experimental Economics

Units: 4 Laboratory methods for testing economic theory; experimental comparison of alternative market and non-market institutions; identification of behavioral responses to alternative regulations. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 620aL Experimental Methods I

Units: 4 Terms Offered: FaSp Experimental methods of and design of computer-based experiments. Use of standard software for data collection in individual decision-making experiments and games. *Prerequisite:* ECON 601 *Recommended Preparation:* ECON 616 Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ECON 620bL Experimental Methods II

Units: 4 Terms Offered: FaSp Experimental methods relying on non-choice data. Design methods of experiments that record information in decision-making and physiological data of emotions. *Prerequisite:* ECON 620aL and ECON 601 *Recommended Preparation:* ECON 616 Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ECON 625 Economic Analysis of Social Networks

Units: 4 Terms Offered: FaSp Mathematical tools for the study of social and economic networks. *Prerequisite:* ECON 609 *Recommended Preparation:* ECON 615 Instruction Mode: Lecture Grading Option: Letter

ECON 633 Law and Economics

Units: 4 Terms Offered: Sp (Enroll in LAW 633)

ECON 634 Political Economy of Institutions

Units: 4 The functions of laws, rules, customs, conventions, and other restrictions on economic and social activity. Theories of institutional evolution. *Prerequisite:* ECON 500 or ECON 601. Duplicates Credit in former ECON 534. Instruction Mode: Lecture Grading Option: Letter

ECON 636 Health Economics I

Units: 4 Terms Offered: Fa Techniques of microeconomic analysis to inform health policy. Topics include: demand for health, medical care, and insurance, risk selection, medical innovation. *Recommended Preparation:* ECON 601, ECON 611 Duplicates Credit in former PMEP 534 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PMEP 534

ECON 639 Contemporary Economic Policy: Theory and Practice

Units: 4 History and analysis of the fundamental continuing policy issues: recession, inflation, public debt, regulation, international competition, energy resources and environmental issues, welfare and income distribution. *Prerequisite:* ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter

ECON 641 Empirical Analysis of Economic Development

Units: 4 Terms Offered: FaSp Theory and empirics of the sources of and barriers to economic development and the micro underpinnings of macroeconomic dynamics of growth, inequality, and productivity. *Prerequisite:* ECON 601, ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 642 Poverty, Human Resources and Economic Development

Units: 4 Terms Offered: FaSpSm Household production models and intra-household models of behavior and their empirical implementation, focus on poverty, human resource investments and their interaction with public policies. *Prerequisite:* ECON 501, ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 644 Economic Development Programming and Policy Planning

Units: 4 Model construction and application to policy and planning: open economy macroeconomics, trade and investment, institutions, technology, income inequality, environment, policy reforms, political economy. *Prerequisite:* ECON 501 or ECON 602; ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 645 Economic Growth

Units: 4 Terms Offered: Fa Surveys theoretical and empirical developments in growth macroeconomics. To equip students to undertake frontier research and policy work to reduce global income inequality. *Prerequisite:* ECON 602. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ECON 650 International Trade Theory

Units: 4 General equilibrium theory applied to theory and practice of commercial policy, economic growth, and trade. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 651 International Monetary Theory

Units: 4 Balance of payments concepts and measures; price theory and the foreign exchange market; international monetary systems; adjustment mechanisms; speculation and official intervention. *Prerequisite:* (choose two): ECON 500 or ECON 501 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 652 Economics of Financial Markets II

Units: 4 Terms Offered: Sp Financial market equilibrium and partial equilibrium asset pricing in discrete and continuous time; properties of equilibria with and without complete markets; theory of option prices; Black-Scholes pricing formula; term structure of interest rates; hedging strategies and managing market risk using options, futures and swaps; hedging exchange-rates risks. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 653 Empirical International Economics

Units: 4 Empirical treatment of advanced

topics in international finance including the determination of real and nominal exchange rates; stabilization policies in developing currencies and currency crisis models. Econometric methods in analyzing foreign exchange data and in forecasting. *Prerequisite:* ECON 501, ECON 513; *Recommended Preparation:* ECON 625, ECON 651. Instruction Mode: Lecture Grading Option: Letter

ECON 659 Economics of Financial Markets I

Units: 4 Terms Offered: Fa Equilibrium model of finance economy; absence of arbitrage; complete and incomplete markets; asset pricing theory; representative agent pricing. Capital Asset Pricing Model, martingale property of security prices. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 661 Topics in Macroeconomics

Units: 4 Terms Offered: FaSp Current areas of research in macroeconomics: Structural Change; Inequality and Macroeconomics. *Prerequisite:* ECON 602 and ECON 605. Instruction Mode: Lecture Grading Option: Letter

ECON 663 Financial and Monetary Macroeconomics

Units: 4 Terms Offered: FaSp Macroeconomic models of financing and nominal rigidities. Focuses on the ways through which the financial system or financing constraints can affect macroeconomic fluctuations. *Prerequisite:* ECON 601 and ECON 602 and ECON 605 and ECON 611. Instruction Mode: Lecture Grading Option: Letter

ECON 671 Economics of Labor and Human Capital

Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 673 Program Evaluation

Units: 4 This course first proposes various means of evaluating an economic program. It then applies the tools to specific problems. *Prerequisite:* ECON 500 or ECON 601; ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 680 Industrial Organization

Units: 4 Decision making, economic behavior and organization in firms; types of competition and market structure; property rights, nonprofit decision making. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 681 Economics of Regulated Industries

Units: 4 Theories and methods of government regulation; effects of regulation on various industries; behavior of regulatory agencies. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 687 Urban Economics

Units: 4 Terms Offered: Fa, Sp Economic models will be used to understand the main facts observed in cities in the developed and developing world. Special attention will be paid to empirical hypothesis testing and developing an urban economics research agenda. Students will be exposed to new data sets being collected using Smart Phones and other novel technologies that have greatly expanded our ability to test relevant hypotheses. *Prerequisite:* ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter

ECON 688 Empirical Industrial Organization

Units: 4 Econometric analysis of industrial organization issues including industry regulation and deregulation, collusions and pricing in differentiated oligopolistic markets, entry and exit, auction mechanisms, contractual relationships. *Prerequisite:* ECON 601, ECON 603; *Recommended Preparation:* ECON 600, ECON 603, ECON 612, ECON 615, ECON 680. Instruction Mode: Lecture Grading Option: Letter

ECON 690 Seminar in Economic Theory

Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in economic theory presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 691 Seminar in Econometrics

Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in econometrics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 692 Seminar in Economic Development

Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in international, regional, and urban development economics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 693 Seminar in Applied Economics and Public Policy

Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in applied microeconomics, macroeconomics and public policy presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 694 Seminar in Dynamic Economics

Units: 2 Max Units: 8.0 Terms Offered: FaSp Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 695 Internship in Mathematical Finance

Units: 4 Terms Offered: Sm Internship for students in the Mathematical Finance master's program. Practical training in real market environments. Real-world first-hand experience in implementing trading

strategies. Application of mathematical finance to real financial markets. Instruction Mode: Lecture Grading Option: Letter

ECON 696 Empirical Microeconomics Seminar

Units: 2 Max Units: 8.0 Terms Offered: FaSp Presentations on current research in empirical microeconomics by outstanding scholars from leading economics departments and faculty at USC. Registration Restriction: Open only to Economics Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 700 Research on Frontier Economics

Units: 2 Max Units: 08 Terms Offered: FaSpSm Examination of various frontier research topics of economics through critical discussions of research papers that study the most recent economic research agendas. Instruction Mode: Lecture Grading Option: Letter

ECON 715 Advanced Topics in Econometrics

Units: 4 Time-series methods; aggregation; structural models and methods such as factor analysis and multiple indicator models; various special topics. *Prerequisite:* ECON 612 and ECON 613. Instruction Mode: Lecture Grading Option: Letter

ECON 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Counseling

EDCO 030x The Process of Paraprofessional Counseling for Young Adults

Units: 2 Terms Offered: Sp Explores the theoretical processes involved in paraprofessional counseling with specific application to issues faced by young adults.

Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 324m Asian American Psychology

Units: 4 Terms Offered: Sp Psychological issues of Asian Americans such as cultural identity, intergenerational conflict, stereotypes, interracial dating and marriage, educational achievement, and mental health. Instruction Mode: Lecture Grading Option: Letter

EDCO 503 Ethical and Legal Issues in Counseling

Units: 3 Terms Offered: Sp Examination of current legal, ethical, and other professional issues in the practice of counseling and psychotherapy. *Prerequisite:* EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDCO 504 Behavior Management in the Classroom

Units: 3 Terms Offered: Sp Analysis of student behavior in school settings. Emphasis is on a problem-solving functional approach to behavioral changes. Instruction Mode: Lecture Grading Option: Letter

EDCO 505 Counseling and Collaborative Consultation in the School Setting

Units: 3 Terms Offered: Sp Theory and practice of collaborative consultations provided by school counselors and school psychologists to improve student achievement and the learning environment. Instruction Mode: Lecture Grading Option: Letter

EDCO 506 Development, Administration and Evaluation of Pupil Personnel Services

Units: 3 Terms Offered: Fa Develop skills in the evaluation and management of pupil personnel services programs in the public schools for comprehensive support of student learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDCO 541 Theories in Counseling

Units: 3 Terms Offered: FaSp Theory, research, and practice of psychological counseling. *Corequisite:* EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDCO 574 School Counseling Practicum

Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Supervised practice in school counseling. *Prerequisite:* EDCO 503, EDCO 541. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 575 School Counseling Field Experience

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Supervised field experience in applying knowledge and skills within a K–12 school setting. *Prerequisite:* EDCO 574. Instruction Mode: Lecture Grading Option: Credit/No Credit

Higher and Postsecondary Education

EDHP 500 Foundations of Higher, Adult, and Professional Education

Units: 3 Terms Offered: Fa Contemporary issues in higher, adult, and professional education in the United States; analytic

perspectives from various disciplines (history, philosophy, sociology); implications for policy and practice. Instruction Mode: Lecture Grading Option: Letter

EDHP 502 Administration of Higher, Adult, and Professional Education

Units: 3 Terms Offered: Sp Policies and theories for governance and management. Relations between historical and contemporary organizational processes in postsecondary education. Critique and applications of current research. Instruction Mode: Lecture Grading Option: Letter

EDHP 503 Curriculum, Teaching, and Learning in Higher, Adult, and Professional Education

Units: 3 Terms Offered: Sp Curriculum, teaching, and learning strategies for general, vocational, and professional education; planning for lifelong learning; theories, policies, and practices for higher, adult, and professional education. Instruction Mode: Lecture Grading Option: Letter

EDHP 551 Applied Educational Ethnography

Units: 3 Terms Offered: Fa Research for improving leadership in higher, adult, and professional education. Ethnographically motivated field designs, observations, focused and unstructured interviews and unobtrusive techniques. Instruction Mode: Lecture Grading Option: Letter

EDHP 552 The Politics of Difference

Units: 3 Explores strategies for restructuring institutions of higher education to improve student support and achievement among historically marginalized groups. Instruction Mode: Lecture Grading Option: Letter

EDHP 560 Feminist Theory

Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

EDHP 563 Student Affairs Work in College

Units: 3 Terms Offered: Fa Principles, services, and organizational patterns of student affairs programs and services for two-year, four-year and professional higher education institutions. Instruction Mode: Lecture Grading Option: Letter

EDHP 565 Intervention Strategies in College Student Development

Units: 3 Terms Offered: Sp Exploration of current campus issues such as violence, diversity and academic remediation, and their related intervention strategies (policy-based, programmatic, and counseling-based). Instruction Mode: Lecture Grading Option: Letter

EDHP 580 The Community College

Units: 3 Terms Offered: SpSm The community college movement; history; aims; curriculum; types of administrative organization; teaching procedures; relation to lower and higher institutions; profiles of faculty and students; evaluation. Instruction Mode: Lecture Grading Option: Letter

EDHP 587 Fieldwork in Higher, Adult, and Professional Education

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Structured participation in supervised teaching or

administrative activities. Assignments matched with student's goals, training, experience. *Recommended Preparation:* EDHP 563, EDHP 565. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593a Master's Seminar

Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593b Master's Seminar

Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 657 Leadership and Management in Student Affairs

Units: 3 Terms Offered: Sp Delivery of student services and programs in higher education, organizational behavior, management systems, administrative procedures, and alternative leadership styles. Registration Restriction: Open only to USC Rossier School of Education PASA students. Instruction Mode: Lecture Grading Option: Letter

EDHP 679 Legal Issues in the Administration of Higher Education

Units: 3 Terms Offered: Sm Analysis of legal issues related to the administration of higher education; emphasis on relations with students, faculty, staff, alumni, and campus communities. *Prerequisite:* EDHP 500 or appropriate experience. Instruction Mode: Lecture Grading Option: Letter

EDHP 687 Student Development in Higher Education

Units: 3 Terms Offered: Sp Theories of college student development and application of developmental models to program design, interventions, outreach, and research programs. Instruction Mode: Lecture Grading Option: Letter

Educational Policy, Planning and Administration

EDPA 308 Politics and American Education

Units: 4 Terms Offered: FaSp Historical study of political, legislative, judicial decisions that have shaped American education; interaction of educators, courts, legislative bodies; emphasis on in-depth analysis of current issues. Instruction Mode: Lecture Grading Option: Letter

EDPA 612 Qualitative Methods in Educational Research

Units: 3 Terms Offered: SpSm Overview of the assumptions, methods and techniques of qualitative educational research; discussion and application of analytical tools derived from anthropology, sociology, history, and related social sciences. Instruction Mode: Lecture Grading Option: Letter

Educational Psychology and Technology

EDPT 310 Parental Influences on Children's Educational Development

Units: 4 Terms Offered: FaSp Basic principles and theories of child development and learning with emphasis on parent-child, parent-school, and child-school relationships. Instruction Mode: Lecture Grading Option: Letter

EDPT 502 Learning and Individual Differences

Units: 3 Terms Offered: FaSpSm Theory and research in learning, development, and individual differences, and social psychology related to education or training contexts. Instruction Mode: Lecture Grading Option: Letter

EDPT 540 Introduction to Educational Measurement and Evaluation

Units: 3 Terms Offered: FaSp Survey of theories, concepts, and procedures for assessing intellectual and non-intellectual characteristics and for evaluating individual and program performances. Instruction Mode: Lecture Grading Option: Letter

EDPT 550 Statistical Inference

Units: 3 Terms Offered: FaSpSm Application of statistical techniques in education; emphasis on underlying principles and concepts coupled with selected inferential techniques using desk-top computer software. Instruction Mode: Lecture Grading Option: Letter

EDPT 570 Language and Cultural Diversity in Learning

Units: 3 Terms Offered: Fa Analysis of current research and theory regarding the influences of language and culture on learning and cognition, with a special focus on academic achievement and instructional transactions. Instruction Mode: Lecture Grading Option: Letter

EDPT 576 Technology in Contemporary Education and Training

Units: 3 Terms Offered: FaSp Development and scope of instructional technology and its role in modern educational and training systems; overview of instructional development; innovation and trends in the

field. Instruction Mode: Lecture Grading Option: Letter

EDPT 642 Measurement Theory

Units: 3 Terms Offered: Fa Mathematical concepts and psychometric theory underlying test construction and interpretation; emphasis on current research in the area. *Prerequisite:* EDPT 652. Instruction Mode: Lecture Grading Option: Letter

EDPT 652 Multiple Regression

Units: 3 Terms Offered: Sp Applied multiple regression analysis using Stata. *Recommended Preparation:* Introductory Statistics. Instruction Mode: Lecture Grading Option: Letter

EDPT 654 Multivariate Statistical Techniques

Units: 3 Terms Offered: FaSpSm Multivariate statistical procedures in the analysis of behavioral inquiries; particular emphasis on multivariate analysis of variance. *Prerequisite:* EDPT 652. Instruction Mode: Lecture Grading Option: Letter

EDPT 655 Advanced Research Methods in Education

Units: 3 Terms Offered: Sp Focuses on principles of research design in education including literature synthesis, formulation of research problem and questions, selection of methodology and integration of research proposal. *Prerequisite:* EDPT 550. Instruction Mode: Lecture Grading Option: Letter

Education

EDUC 140m Mind, Belief and Behavior: Learning in a Diverse World

Units: 4 Terms Offered: FaSpSm Examination of current research about learning and motivation in the context of human diversity. Instruction Mode: Lecture Grading Option: Letter

EDUC 200 Introduction to the Teaching Profession

Units: 2 Identification and discussion of current issues and trends in schools and the teaching profession. Introduction to the development of a professional portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 204L Sociological Foundations of Education

Units: 3 Terms Offered: FaSp Introduction to the sociological foundations of education through focused study of schools, teacher-student relations, and classroom processes as they relate to social stratification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 205L Child Development and Learning in Schools

Units: 3 Terms Offered: FaSp Introduction to processes of development and learning in school aged children, with an emphasis on school contexts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 210 Breaking the Code of College Success

Units: 2 Terms Offered: FaSpSm Examination and application of research-

based self-regulation and learning strategies to increase performance outcomes in any academic subject. Duplicates Credit in EDPT 110 Instruction Mode: Lecture Grading Option: Letter

EDUC 392 Undergraduate Research Methods

Units: 2 Terms Offered: Sp (Enroll in AMST 392)

EDUC 409 Foundations of Language Education

Units: 3 Terms Offered: FaSp Overview of research and current theories in bilingual, second language, and foreign language instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 410 The Teaching of Reading and Writing

Units: 4 Terms Offered: FaSp Analysis of reading/writing processes; methods/materials for teaching literacy in elementary schools; issues in biliteracy and instruction; classroom observation/participation in small-group instruction. Admission to the major. Instruction Mode: Lecture Grading Option: Letter

EDUC 411 Foundation of TESOL

Units: 4 Terms Offered: FaSp Introduction to the ways in which sociocultural context, language systems and acquisition influence English language learning and teaching. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 412 Instructional Methods in TESOL

Units: 4 Terms Offered: FaSp Introduction to approaches in Teaching English to Speakers of Other Languages and methods for teaching reading, writing, listening, speaking, along with a practical fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 413 Methods and Models of Instruction for Language Minority Students

Units: 2 Terms Offered: FaSp Curriculum materials and teaching strategies for use in successfully teaching language minority students in both elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 415 Content to Pedagogy: Mathematics in the Elementary School

Units: 2 Terms Offered: FaSp Bridging college level mathematics content and elementary school curricula to design developmentally appropriate mathematics instruction. *Concurrent Enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 416 Content to Pedagogy: Art in the Elementary School

Units: 2 Terms Offered: Sp Transformation of content in art to curriculum in the elementary classroom. *Corequisite:* EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 417 Content to Pedagogy: From Science Content to Science Curriculum

Units: 2 Terms Offered: FaSp An overview of the goals and content of science

instruction at the elementary level coupled with appropriate science curricular and pedagogical models. *Concurrent Enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 418 Content to Pedagogy: From Social Sciences to Social Studies

Units: 2 Terms Offered: FaSp Content, concepts, methods, and values for integrating the social sciences in the social studies. *Concurrent Enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 419 Content to Pedagogy: P.E. for Elementary Students

Units: 2 Terms Offered: Sp Transformation of content in Physical Education to curriculum in the elementary classroom. *Corequisite:* EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 421 Global Issues: Impact on Educational Outcomes

Units: 4 Terms Offered: FaSpSm Situates U.S. education within the global context and examines the impact of global issues on national and international schooling in the 21st Century. Instruction Mode: Lecture Grading Option: Letter

EDUC 422 Education for Social Change

Units: 4 Terms Offered: FaSp Examines access to schooling and quality education across student difference indexed by race, class and gender. Promotes understanding of U.S. public schooling for equitable outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 423 Unrealized Promise and Hope for Education in 21st Century

Units: 4 Terms Offered: FaSpSm Investigates the promise of education and often-failed outcomes through the lens of literacy/language. Focuses on literacy to promote student agency for successful educational attainment. *Recommended Preparation:* Freshman Seminar on a topic in education Instruction Mode: Lecture Grading Option: Letter

EDUC 424a Curriculum and Methods in Elementary Education

Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. *Concurrent Enrollment:* EDUC 425a. Instruction Mode: Lecture Grading Option: Letter

EDUC 424b Curriculum and Methods in Elementary Education

Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. *Concurrent Enrollment:* EDUC 425b. Instruction Mode: Lecture Grading Option: Letter

EDUC 425a Observation and Directed Teaching in Elementary Schools

Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). *Concurrent Enrollment:* EDUC 424a. Instruction Mode: Lecture Grading Option: Letter

EDUC 425b Observation and Directed Teaching in Elementary Schools

Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). *Concurrent Enrollment:* EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 426 Educational Inquiry

Units: 4 Terms Offered: FaSp Introduction to the skills and knowledge required to be competent consumers and producers of education research. Students will be asked to design an educational study. Instruction Mode: Lecture Grading Option: Letter

EDUC 427 Vectors that Influence Early Childhood Development

Units: 4 Terms Offered: FaSp Investigating early childhood issues from professional perspectives: historian, journalist, premedical, and law. Instruction Mode: Lecture Grading Option: Letter

EDUC 428 The Effects of Curriculum and Institution on Early Childhood

Units: 4 Terms Offered: FaSp The study of research, philosophy, and pedagogy that informs political, parents, community members, schools and their curriculum. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 429 Early Childhood and Contemporary Society

Units: 4 Terms Offered: FaSp Consequences of "corporate world" on developing expectations of young children as consumers and scholars, an emphasis on films, television, and toys that effect intellectual growth. Instruction Mode: Lecture Grading Option: Letter

EDUC 430 Early Childhood: Action Research Focus

Units: 4 Terms Offered: FaSp Selecting an instructional or developmental problem of young children to investigate through an action research design. Instruction Mode: Lecture Grading Option: Letter

EDUC 431 Education Policy in the United States

Units: 4 Terms Offered: Sp Analysis of key issues in education policy. Understanding the policymaking process, including policy design, implementation and analysis. Instruction Mode: Lecture Grading Option: Letter

EDUC 432 Inequality in Education

Units: 4 Terms Offered: Fa Exploration of the role of education in causing or ameliorating opportunity gaps. Social stratification and its effects. Instruction Mode: Lecture Grading Option: Letter

EDUC 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EDUC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in education. Specific topics to be determined at the time

seminar is offered. Instruction Mode: Lecture
Grading Option: Letter

EDUC 500 The Counseling Process

Units: 3 Theoretical foundations, models, values, and assumptions underlying psychological counseling; cross-cultural perspectives, ethical and legal considerations. *Concurrent Enrollment:* EDUC 507. Duplicates Credit in former EDCO 500. Instruction Mode: Lecture Grading Option: Letter

EDUC 501 Instruction for Teaching English as a New Language

Units: 3 Terms Offered: FaSpSm Teaching linguistically and culturally responsively to linguistic minority students. Topics include learning theories, sociocultural contexts of language development, and assessment of language and non-language competencies. Open only to MAT and MAT (online) students. Registration Restriction: Open only to MAT and TESOL students. Duplicates Credit in EDUC 543ab. Instruction Mode: Lecture Grading Option: Letter

EDUC 502a Teaching Science in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching science to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 502b Teaching Science in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching science to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Duplicates Credit in EDUC 539. Instruction Mode: Lecture Grading Option: Letter

EDUC 503 Learning and Motivation

Units: 3 Terms Offered: FaSpSm Design and advancement of learning and motivation outcomes in various environments through a systematic examination and application of current research. Instruction Mode: Lecture Grading Option: Letter

EDUC 504 Foundations of Literacy Development and Instruction

Units: 2 Terms Offered: FaSpSm Application of a balanced, integrated, interactive perspective to teaching reading in an elementary classroom. Foundational skills needed in the developmental phase of learning to read. Open only to MAT Multiple Subject and Multiple Subject (online) students. Registration Restriction: Open only to MAT Multiple Subject students. Instruction Mode: Lecture Grading Option: Letter

EDUC 505 Integrating Literacy in Secondary Content Instruction

Units: 2 Terms Offered: FaSpSm Facilitation, mediation and intervention in the development of literacy and language

integrated within the content areas.

Connection between language and literacy to developing content knowledge. Open only to MAT Single Subject, Single Subject (online), TESOL and TESOL (online) students.

Instruction Mode: Lecture Grading Option: Letter

EDUC 506 New Media Literacies in High Needs Schools

Units: 2 Terms Offered: FaSpSm Instructional procedures and resources for encouraging secondary students' interests in communications, cultural studies, media production, and literacy education. Open only to MAT Single Subject, Single Subject (online), TESOL and TESOL (online) students. Instruction Mode: Lecture Grading Option: Letter

EDUC 507 Professional Identity, Law and Ethics for Counselors

Units: 3 History of the field of counseling and professional identity development for counselors are addressed. Examination of current legal, ethical, and other professional issues in counseling. *Concurrent Enrollment:* EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDUC 508 Creating Communities of Interest

Units: 2 Terms Offered: FaSpSm Framing the graduate experience for master's students. Establishing a professional foundation and philosophy as educators. Instruction Mode: Lecture Grading Option: Letter

EDUC 509a Teaching Mathematics in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching mathematics to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (On Line). Instruction Mode: Lecture Grading Option: Letter

EDUC 509b Teaching Mathematics in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching mathematics to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (On Line). Duplicates Credit in EDUC 545. Instruction Mode: Lecture Grading Option: Letter

EDUC 510 Theories of Language Learning and Teaching

Units: 3 Terms Offered: FaSpSm Application of learning theories to the design of second language instruction and student assessment to promote motivation, investment, self-regulation and engagement among language learners. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages Instruction Mode: Lecture Grading Option: Letter

EDUC 511 Introduction to Counseling

Units: 3 Terms Offered: Fa The role of the school counselor. An overview of key elements in increasing access to and equity

for primary and secondary education for all students. Instruction Mode: Lecture Grading Option: Letter

EDUC 512 Reading and Writing Methods for Secondary Teaching

Units: 2 Terms Offered: Fa Analysis of reading/writing processes; methods for teaching literacy in grades 9–12; issues in biliteracy and instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 513a Teaching English Language Arts in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching English to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 513b Teaching English Language Arts in Secondary Classrooms

Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching English to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Duplicates Credit in EDUC 535. Instruction Mode: Lecture Grading Option: Letter

EDUC 514 School Counseling Seminar

Units: 3 Terms Offered: Sp Current issues and problems in school counseling; emphasis is on K–12 learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 515 Theories of Marriage and Family Therapy

Units: 3 Major psychotherapeutic orientations relating to family systems, marital relationships, and communications theory applied to the family unit. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter

EDUC 516 Framing the Social Context of High Needs Schools

Units: 3 Terms Offered: FaSpSm Introduction to the Master of Arts in Teaching Program. Relationship between the actions of the teacher and student learning in the classroom and school context. Open only to MAT and MAT (online) students. Duplicates Credit in EDUC 517ab. Instruction Mode: Lecture Grading Option: Letter

EDUC 518 Application of Theories of Learning to Classroom Practice

Units: 3 Terms Offered: FaSpSm Learning theories and instructional practices for teaching. Procedures involved in curriculum development, planning, evaluation, and practical application. Open only to MAT and MAT (online) students. Registration Restriction: Open only to Multiple Subject Teaching, Multiple Subject Teaching (online), Single Subject (Music Education), Single Subject Teaching, and Single Subject

Teaching (online). Instruction Mode: Lecture
Grading Option: Letter

EDUC 519 Human Differences

Units: 3 Equity and diversity in learning environments. Issues in teaching special populations. Beliefs about how people learn. Inclusive environment for special populations in the general classroom. Open only to MAT and MAT (online) students. Registration Restriction: Open only to Single Subject (Music Education), Multiple Subject Teaching, Multiple Subject Teaching (online), Single Subject Teaching, and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 520 Counseling for College and Career Readiness I

Units: 2 Terms Offered: Fa Theoretical foundations of individual and systemic characteristics that impact college and career choices. Consideration of economic, political, social, and policy issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 521 Assessment and Instruction for Diverse Language Learners

Units: 3 Terms Offered: FaSpSm Assessment practices and strategies in English language instruction with special attention to learner differences (social, cultural, physical, intellectual) that influence academic performance. Open only to MAT TESOL and TESOL (online) students. Registration Restriction: Open only to Teaching English to Speakers of Other Languages and Teaching English to Speakers of Other Languages (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 522 Challenges in Urban Education: Accountability

Units: 3 Terms Offered: Sp Issues related to accountability theory and practice in urban education settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 523 Challenges in Urban Education: Diversity

Units: 3 Terms Offered: Fa Diversity issues in urban educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 524 Challenges in Urban Education: Leadership

Units: 3 Terms Offered: Sp Theories, principles, and concepts of leadership in urban K–12 schools and institutions of higher education. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 525 Challenges in Urban Education: Learning

Units: 3 Terms Offered: Fa Theory and research in learning, motivation, and instruction for diverse educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 527 Assessment in the Language Classroom

Units: 2 Terms Offered: Sm Introduces students to relevant research in language assessment, reviews concepts of reliability and validity and examines assessment practices in the classroom. Instruction Mode: Lecture Grading Option: Letter

EDUC 528 Course Proposal Project

Units: 2 Terms Offered: Sm Using a framework of course development, students present a course proposal, linking the theoretical, methodological and practical principles gained from all course work in the program. Instruction Mode: Lecture Grading Option: Letter

EDUC 529 Political and Academic Issues Affecting Gifted Students

Units: 3 Terms Offered: FaSpSm Examination of the political and academic issues affecting gifted and high-ability students. Psychosocial reasons contributing to achievement and underachievement. Institutional and personal factors inhibiting potential. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students

Units: 3 Terms Offered: FaSpSm Recognizing the talent and potential of gifted and high ability students. How gifted education can be generalized to affect the education of all students. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 531 Student Disability Issues in Higher Education

Units: 3 Terms Offered: Fa History of the disability movement; current research on the success of students with disabilities in higher education; legal and management issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 532 Inquiry Methods I

Units: 3 Terms Offered: Sp Logic and methods of quantitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 533 School Leadership: Theory and Practice

Units: 3 Terms Offered: Fa Theories and principles of leadership and the application of principles to solve authentic problems in elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 535 Teaching Secondary English and Language Arts

Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching English in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 536 Inquiry Methods II

Units: 3 Terms Offered: Sp Logic and methods of qualitative data analysis in the examination of educational issues and the

framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 537 Leading with the Community and Culture in Context

Units: 3 Terms Offered: Sp Creating a positive culture of learning to promote student success. Strategies to engage diverse communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 538 Entrepreneurial School Leadership

Units: 2 Terms Offered: Fa Entrepreneurial opportunities in education. Developing the skills and knowledge for entrepreneurial leadership to improve educational outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 539 Teaching Secondary Science

Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching science in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 541a Teaching Social Studies in Secondary Classrooms

Units: 3 Strategies, methods, and materials for teaching social studies to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (On Line). Duplicates Credit in former EDUC 534. Instruction Mode: Lecture Grading Option: Letter

EDUC 541b Teaching Social Studies in Secondary Classrooms

Units: 3 Strategies, methods, and materials for teaching social studies to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (On Line). Duplicates Credit in former EDUC 542b. Instruction Mode: Lecture Grading Option: Letter

EDUC 544 Measurement Procedures for Counselors

Units: 3 Educational and psychological instruments; psychometric concepts and the rationale for the use of psychological instruments in the counseling relationship. Duplicates Credit in former EDCO 544. Instruction Mode: Lecture Grading Option: Letter

EDUC 545 Teaching Secondary Mathematics

Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching mathematics in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 546 Psychopathology for Marriage and Family Therapy

Units: 3 Theories of psychological impairment emphasizing diagnosis of child and family dysfunction. Practice in utilizing DSM-IV classification of case studies. Duplicates Credit in former EDCO 546.

Instruction Mode: Lecture Grading Option: Letter

EDUC 547 Career Development: Theory and Process

Units: 3 Theories and process of career development; principles of career and leisure planning and counseling applicable throughout life. Duplicates Credit in former EDCO 548. Instruction Mode: Lecture Grading Option: Letter

EDUC 548 Data-Driven Leadership for Schools

Units: 3 Terms Offered: Sm Analyzing, interpreting, and using data to increase effectiveness of instruction and programs, improve student learning, and reduce or eliminate the achievement gap. Instruction Mode: Lecture Grading Option: Letter

EDUC 549 Supervising Instruction for Optimal Learning

Units: 3 Terms Offered: Sm Application of adult learning theory to evaluate instruction. Appropriate professional development to improve student achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 550 Multimedia Literacy

Units: 3 Terms Offered: FaSpSm Applying new technology in the classroom. Exploration of the use of multimedia tools to increase literacy. Examination of multiple forms of technology to facilitate learning. Open only to MAT and Gifted Education Certificate students. Instruction Mode: Lecture Grading Option: Letter

EDUC 551 Teaching Physical Education

Units: 1 Terms Offered: FaSpSm Instructional approaches for integrating physical education content across the elementary curriculum. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 552 Literacies in the Content Area

Units: 3 Terms Offered: FaSpSm Literacy and language within content areas. Developing reading, writing, speaking and listening skills for real audiences. Academic language. Instruction Mode: Lecture Grading Option: Letter

EDUC 553 Psychopharmacology and the Effects of Substance Abuse

Units: 3 Terms Offered: Sp Focus on the effects of psychotropic medication, alcohol, and other substances on behavior. The professional and ethical issues for marriage and family therapists. Instruction Mode: Lecture Grading Option: Letter

EDUC 554 Visual and Performing Arts in Elementary Subjects

Units: 2 Terms Offered: FaSpSm Instructional approaches for integrating visual and performance arts content across the elementary curriculum. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 555 STEM Education in Secondary Classrooms

Units: 3 Terms Offered: FaSpSm Developing innovative practices in designing inquiry-based lesson plans to facilitate integrating the STEM disciplines as a foundation for

teaching. Instruction Mode: Lecture Grading Option: Letter

EDUC 556 Integrating English Language Arts and Social Studies

Units: 5 Terms Offered: FaSpSm Strategies and methods for integrating English language arts in social studies classrooms. Reinforces the concept of social studies as a conduit to further student learning. Open only to MAT Multiple Subject and Multiple Subject (online) students. Duplicates Credit in EDUC 567. Instruction Mode: Lecture Grading Option: Letter

EDUC 557 Civics Education

Units: 3 Terms Offered: FaSpSm Uses of pedagogical practices for increasing student engagement in the study of history and civics. Becoming critical thinkers, problem solvers, and effective citizens. Instruction Mode: Lecture Grading Option: Letter

EDUC 558 Culture Learning in Schools: Latino

Units: 3 History, values, beliefs, and the demography of Spanish-speaking people; implications for the American classroom. Conducted in English. No previous knowledge of Latino culture is needed. Registration Restriction: Open only to USC Rossier School of Education students. Instruction Mode: Lecture Grading Option: Letter

EDUC 559 Discourse Analysis and Technology in STEM Classrooms

Units: 3 Terms Offered: FaSpSm Using multiple assessment strategies and technology to assess mathematical and scientific thinking and performance. Instruction Mode: Lecture Grading Option: Letter

EDUC 560 Primary Language Instruction in a Bilingual Setting

Units: 3 Terms Offered: Fa Bilingual programs, their goals, personnel, teaching methods, and materials. Instruction Mode: Lecture Grading Option: Letter

EDUC 561 TESOL Instruction and Methods of Teaching A

Units: 3 Overview of approaches and methods in TESOL, topics include curriculum and lesson planning, lesson sequencing and delivery and methods for teaching reading, writing, speaking and listening. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages. Instruction Mode: Lecture Grading Option: Letter

EDUC 562 Teaching English to Speakers of Other Languages Pedagogy II

Units: 3 Introduction to microcomponents of effective teaching, including curriculum and lesson planning, lesson sequencing and delivery, and creating a classroom environment conducive to English language learning. Instruction Mode: Lecture Grading Option: Letter

EDUC 563 Teaching from a Comparative and International Perspective

Units: 3 Terms Offered: FaSpSm Examines the social context of schooling from a comparative and international perspective, connections between cultural beliefs and

societal values; issues of social stratification and marginalization. Instruction Mode: Lecture Grading Option: Letter

EDUC 564 Teacher Leadership

Units: 2 Terms Offered: FaSpSm Strategies of leadership that lead from influencing learning in the classroom to influencing learning across an entire school. Becoming an instructional leader. Instruction Mode: Lecture Grading Option: Letter

EDUC 565a Social Foundations of TESOL

Units: 2 Terms Offered: FaSp Sociocultural contexts of English language learning, and awareness of language variation as a vehicle for developing and articulating one's personal praxis in TESOL. Duplicates Credit in EDUC 506 Instruction Mode: Lecture Grading Option: Letter

EDUC 565b Social Foundations of TESOL

Units: 3 Terms Offered: FaSp Teaching linguistically and culturally responsively to English language learners. Topics include sociolinguistic theories, sociocultural contexts of language development, and multifaceted assessment of learner competencies. *Prerequisite:* EDUC 565a. Duplicates Credit in EDUC 501 Instruction Mode: Lecture Grading Option: Letter

EDUC 566 Teaching Mathematics and Science

Units: 4 Terms Offered: FaSpSm Instructional approaches for integrating mathematics and science with other content areas in elementary and secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 567 English and Language Arts in Elementary Social Studies

Units: 4 Terms Offered: FaSpSm Integrating English and language arts development with learning in elementary social studies classrooms. Factors affecting the teaching and learning of social studies and language arts. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 568a Guided Practice

Units: 3 Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students. Open only to MAT students. Duplicates Credit in former EDUC 568. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 568b Guided Practice

Units: 3 Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students. Open only to MAT students. Duplicates Credit in former EDUC 568. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 569a Capstone Portfolio in Learning and Instruction

Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 569b Capstone Portfolio in Learning and Instruction

Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 570 Research Methods and Data Analysis

Units: 3 Terms Offered: FaSpSm Various research designs and their appropriateness for addressing different research questions. Threats to validity and other challenges in research. Basic statistical methods and their use. *Recommended Preparation:* beginning statistics course. Instruction Mode: Lecture Grading Option: Letter

EDUC 572a Teaching in an International and Intercultural Context

Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 572b Teaching in an International and Intercultural Context

Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 573 Introduction to Special Education

Units: 3 Terms Offered: FaSpSm Effective and appropriate educational settings for students with disabilities. Legal and professional responsibilities. Components for an inclusive classroom. Instruction Mode: Lecture Grading Option: Letter

EDUC 574 Collaboration, Families and Case Management

Units: 3 Terms Offered: FaSpSm Planning and implementing effective educational services for students receiving special education services. Potential interventions for family support. Coordination of services. Instruction Mode: Lecture Grading Option: Letter

EDUC 575 Assessment and Curriculum for Students with Disabilities

Units: 3 Terms Offered: FaSpSm Developing effective educational interventions for students with disabilities. Formal and informal assessment. Curriculum strategies. Instruction Mode: Lecture Grading Option: Letter

EDUC 576 Establishing and Maintaining an Effective Classroom Ecology

Units: 3 Terms Offered: FaSpSm Environmental and personal factors affecting student achievement. Intervention methodologies. Creating an effective learning environment. Instruction Mode: Lecture Grading Option: Letter

EDUC 577 Guided Practice: Mild/Moderate Disabilities

Units: 3 Terms Offered: FaSpSm Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students with mild/moderate disabilities. Instruction Mode: Lecture Grading Option: Letter

EDUC 578 Integrating the Arts into the Secondary Curriculum

Units: 3 Terms Offered: FaSpSm Methods for integrating the arts into secondary classroom instruction. Critical and creative thinking, aesthetic education. Instruction Mode: Lecture Grading Option: Letter

EDUC 579 Media Selection and Evaluation

Units: 2 Terms Offered: FaSpSm Selection and evaluation of media and technologies in support of instructional design based on a survey of current research and recommendations. Instruction Mode: Lecture Grading Option: Letter

EDUC 580 Transforming STEM Education into Teaching Science

Units: 3 Terms Offered: FaSpSm The convergence of science, technology, engineering, and mathematics (STEM) as a foundation for teaching science. Instruction Mode: Lecture Grading Option: Letter

EDUC 581 STEM Education from a Project-Based Learning Approach

Units: 3 Terms Offered: FaSpSm Model-based reasoning and inquiry as a means of integrating STEM disciplines. Instruction Mode: Lecture Grading Option: Letter

EDUC 582 Assessment and Evaluation

Units: 2 Terms Offered: FaSpSm Overview of the concepts and procedures for assessment and evaluation of individual and overall performance in various learning environments. Instruction Mode: Lecture Grading Option: Letter

EDUC 583 Counseling through the Lifespan

Units: 3 Developmental issues and life events from infancy to old age and their effect upon individuals, couples, and family relationships. Instruction Mode: Lecture Grading Option: Letter

EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms

Units: 3 Terms Offered: FaSpSm The role of creativity in STEM education. Theories and approaches to facilitating creative and innovative thinking. Instruction Mode: Lecture Grading Option: Letter

EDUC 585 Action Research Project

Units: 3 Terms Offered: FaSpSm Design and implementation of a STEM-based project. Instruction Mode: Lecture Grading Option: Letter

EDUC 586 Design of Learning Environments

Units: 3 Terms Offered: FaSpSm Design of learning environments through application of design principles; project-based practice in aligning instructional design, media selection, and the features of learning spaces.

Instruction Mode: Lecture Grading Option: Letter

EDUC 587 Master's Studio A

Units: 2 Terms Offered: FaSpSm Students propose and design a capstone project that applies knowledge and skills learned throughout the program and prepare a coursework portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 588 Master's Studio B

Units: 4 Terms Offered: FaSpSm Students implement the capstone project and submit a portfolio that integrates program coursework. Instruction Mode: Lecture Grading Option: Letter

EDUC 589 Human Lifespan Development

Units: 3 Terms Offered: FaSpSm Fundamentals of human physical, motor, mental, social, and emotional development, spanning the prenatal period through late adulthood. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter

EDUC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 591 Diversity: Power, Equity and Inclusion

Units: 3 Terms Offered: FaSpSm Appraises practices that maintain power; creates strategies to empower individuals and marginalized groups by intervening to achieve equitable outcomes in education, professions and communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 592a Applied Linguistics for TESOL

Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 571. Instruction Mode: Lecture Grading Option: Letter

EDUC 592b Applied Linguistics for TESOL

Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 571. Instruction Mode: Lecture Grading Option: Letter

EDUC 593a Master's Seminar

Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 593b Master's Seminar

Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCO

593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

EDUC 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

EDUC 595 Instructional Design

Units: 3 Terms Offered: FaSpSm Formulation and design of effective instruction; emphasis on analysis of media characteristics and instrumentation requirements. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter

EDUC 596 English Language Learning Design, Teaching and Technology

Units: 3 Terms Offered: FaSp Students collaboratively design and deliver synchronous and asynchronous online language learning opportunities. Students become versatile with adapting content, technical aspects of video-conferencing and interactional dynamics Duplicates Credit in the former EDUC 540a and EDUC 540b Instruction Mode: Lecture Grading Option: Letter

EDUC 599 Special Topics

Units: 1, 2, 3, 4 Max Units: 9.0 Terms Offered: FaSpSm Selected topics in various areas of education. Instruction Mode: Lecture Grading Option: Letter

EDUC 600 Counseling for College and Career Readiness II

Units: 2 Terms Offered: Fa Planning and implementing theoretical foundations of college and career counseling. The application of contextually relevant strategies for assisting in college and career choices. Instruction Mode: Lecture Grading Option: Letter

EDUC 601 Seminar in Social Psychology

Units: 4 Max Units: max 8 Terms Offered: Fa (Enroll in PSYC 512)

EDUC 602 Self-concept and Motivation

Units: 4 (Enroll in PSYC 602)

EDUC 603 Framing Organizational Change and Leadership

Units: 4 Terms Offered: Fa Students identify and research problems of practice particularly pertinent in urban learning. The presentation of problems of practice requires the use of sound evidence-based research. Instruction Mode: Lecture Grading Option: Letter

EDUC 604 National Perspective on School Leadership

Units: 1 Terms Offered: Sm Students will examine the cultural, political, and economic issues pertinent to urban education within the national context to prepare them to be effective school leaders. Instruction Mode: Lecture Grading Option: Letter

EDUC 605 Framing Educational Leadership

Units: 1 Terms Offered: FaSm Critical analysis and creative expression applied to problems of practice. Supported and unsupported assertions. Evidence-based decision-making. The quality of evidence used to support arguments. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 607 Role of School Counselors in Student Learning and Motivation

Units: 3 Terms Offered: FaSpSm The process of identifying and assessing learning and motivational issues in schools, the application of research-based interventions, and the evaluation of effectiveness of these interventions. Instruction Mode: Lecture Grading Option: Letter

EDUC 608 School Connectedness, Climate, and Classroom Management

Units: 2 Terms Offered: Fa Prevention, education, and training for achievement. Data collection for assessment and evaluation of school climate, crisis and classroom management conducive to learning and success. Instruction Mode: Lecture Grading Option: Letter

EDUC 609 Academic Advising in Postsecondary Education

Units: 3 Terms Offered: Fa Contemporary issues in academic advising in postsecondary education. Examines and analyzes relevant theories, policies, and practices related to academic advising. Instruction Mode: Lecture Grading Option: Letter

EDUC 610 Higher Education Administration in China

Units: 3 Terms Offered: Sm Examination of student affairs and higher education administration practices in the People's Republic of China. Course concludes with a trip to China. Instruction Mode: Lecture Grading Option: Letter

EDUC 611 Athletic Administration

Units: 3 Terms Offered: Sp Analysis and discussion of critical issues in intercollegiate athletics. Student-athlete academic and social accountability; challenges of NCAA policies; commercialization, marketing, and fundraising in college athletics. Instruction Mode: Lecture Grading Option: Letter

EDUC 612 Application of Human Development Theory in School Counseling

Units: 3 Terms Offered: FaSpSm A theoretical perspective of human development across the lifespan. Issues and challenges faced by school counselors. Instruction Mode: Lecture Grading Option: Letter

EDUC 613 Gender Issues in Athletic Administration

Units: 3 Terms Offered: Sp Overview of Title IX and gender issues in institutions of higher education and implications for public schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 614 Research and Assessment in Higher Education

Units: 3 Terms Offered: Sm Theory and practice of outcomes assessment,

program evaluation, and research design in postsecondary educational administration. Instruction Mode: Lecture Grading Option: Letter

EDUC 615 Ethics in Athletic Administration

Units: 3 Terms Offered: Fa Ethical concerns in intercollegiate athletics. Review, analysis, and discussion of ethical and moral conduct in sports. Relevance of social justice to ethical behaviors. Instruction Mode: Lecture Grading Option: Letter

EDUC 616 Higher Education Capstone

Units: 3 Terms Offered: FaSp Capstone seminar course focused on the future of student affairs and higher education. Registration Restriction: Open only to master students in Postsecondary Administration and Student Affairs Instruction Mode: Lecture Grading Option: Letter

EDUC 617 The Student Athlete in Higher Education

Units: 3 Terms Offered: Fa Examination of student athletes in higher education. Effective strategies for counseling and advising college student athletes; issues and challenges of athletic amateurism. Instruction Mode: Lecture Grading Option: Letter

EDUC 618 School Counseling Professional Portfolio

Units: 2 Terms Offered: Fa Preparation of an electronic resource portfolio that addresses a field based practice. The culminating experience for the M.Ed., School Counseling program. Instruction Mode: Lecture Grading Option: Letter

EDUC 619 Framing Educational Leadership in a Global Context

Units: 4 Terms Offered: Sm Globalization as a distinct phenomenon. Assessment of impact of globalization on educational systems and institutions. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship

Units: 2 Terms Offered: Sm The genesis and facilitation of creative ideas in educational practice. The transformation of creativity into innovation and entrepreneurship. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 621 Measurement and Evaluation for School Counselors

Units: 3 Terms Offered: Fa The use of formal and informal assessments to improve student achievement and well-being. Use of assessment data for intervention and evaluation. Instruction Mode: Lecture Grading Option: Letter

EDUC 622 Educational Theory and Instructional Design

Units: 2 Terms Offered: Fa Theories and elements of learning. Application in educational settings. Methodology for course development and evaluation. Emphasis on strategies, tools, and use of technology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DHYG-513

EDUC 623 Understanding Research That Informs Leadership

Units: 3 Terms Offered: Fa Understanding, interpreting, and applying education research. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 624 Educational Organizations: Governance and Finance I

Units: 2 Terms Offered: Fa Overview of economic concepts of education. Linkages between economic growth, development, and education. Impact of globalization. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 625a Induction Plan and Assessment of Candidate Competence

Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential. Duplicates Credit in former EDUC 595 Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 625b Induction Plan and Assessment of Candidate Competence

Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential. Duplicates Credit in former EDUC 596. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 626 Fostering Entrepreneurship in Educational Systems

Units: 2 Terms Offered: Fa The role of entrepreneurship in education and conditions that support entrepreneurship within an educational organization. How social entrepreneurship partnerships improve educational outcomes. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 627 Education Performance Problems: Role of Learning

Units: 3 Terms Offered: Sp Contemporary perspectives on learning and motivation. Strategies and tools for identifying, diagnosing, and solving learning and motivational challenges and opportunities. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 628 Educational Organizations: Governance and Finance II

Units: 2 Terms Offered: Sp Diversification and differentiation of educational institutions globally. The finances of higher education. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 629 Consulting Practicum Context Analysis

Units: 3 Terms Offered: Sm Preparation, design, and analysis of an education-related problem. *Prerequisite:* EDUC 723 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 630 Organizations and Policy: Current Issues

Units: 4 Terms Offered: FaSp Study of contemporary issues in educational organizations, policy and change in K–12 and higher education with an explicit focus on the improvement of urban education. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 631 Locating Educational Performance Problems

Units: 3 Terms Offered: Sp Development and implementation of strategies for locating, solving and evaluating solutions to performance problems in educational organizations. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 632 Technology in Higher Education

Units: 2 Terms Offered: Sm The integration of technology in higher education and the relationship to quality of teaching, access to learners, and cost-effectiveness for universities and colleges. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DHYG-514

EDUC 633 Child and Elder Abuse and Domestic Violence

Units: 2 A review of laws governing mandated reporting of child and elder abuse, the procedures involved, as well as etiology, effects, and treatment interventions. Instruction Mode: Lecture Grading Option: Letter

EDUC 634 Couples Counseling

Units: 3 Examines relational development and change, strategies for intervention with couples, and selected issues in couples relationship functioning. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter

EDUC 635 Psychotherapy with Children and Adolescents

Units: 3 Training in unique diagnostic considerations in working with children and adolescents. Exposure to empirically supported treatment modalities for children and adolescents. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Duplicates Credit in former EDCO 554. Instruction Mode: Lecture Grading Option: Letter

EDUC 636 Perspectives on Human Sexuality

Units: 3 The physiological-psychological and socio-cultural variables associated with sexual identity and sexual behavior with an emphasis upon sexual dysfunctions. *Prerequisite:* EDUC 507. Duplicates Credit in former EDCO 516. Instruction Mode: Lecture Grading Option: Letter

EDUC 637 Group Counseling: Theory and Process

Units: 3 Theory, research, and practice of group counseling. Includes laboratory experience. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Duplicates Credit in former EDCO 542. Instruction Mode: Lecture Grading Option: Letter

EDUC 638 Cross-Cultural Counseling: Research and Practice

Units: 3 An examination of the cultural, socioeconomic, and language factors that may affect culturally differentiated populations; alternative crosscultural counseling approaches. Duplicates Credit in former EDCO 551. Instruction Mode: Lecture Grading Option: Letter

EDUC 639 Approaches and Strategies for Language Teaching

Units: 4 Terms Offered: FaSp Overview of approaches, models and strategies in language teaching, topics include lesson planning, and implementation of the lesson for language and content area instruction. Duplicates Credit in EDUC 561 Instruction Mode: Lecture Grading Option: Letter

EDUC 640 The Research University in the 21st Century

Units: 4 Terms Offered: FaSp An examination of the current transformation of the American research university with a focus on key issues that confront academics who work in research universities. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 641 Human Capital and School Organization

Units: 3 Terms Offered: Fa School leadership, organization, management and development of school personnel. Capitalizing on school resources to meet school goals. Instruction Mode: Lecture Grading Option: Letter

EDUC 642 Controversies in Learning and Instruction

Units: 4 Terms Offered: FaSp An introduction to learning research and theory, issues in learning and educational psychology situated in the context of diverse, urban settings. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 643 Advancing Community Support through Social Media

Units: 2 Terms Offered: Fa Use of social media to communicate school vision. Incorporating objectives, strategies, assessment, and accountability measures in communication plans. Instruction Mode: Lecture Grading Option: Letter

EDUC 644 Practicum in Counseling

Units: 3 Max Units: 6.0 Supervised clinical work with clients, including adults, couples, children, and families. *Prerequisite:* EDUC 500, EDUC 507, EDUC 546, EDCO 541. Duplicates Credit in former EDCO 560. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 645a Fieldwork in Counseling

Units: 3 Supervised field experience in a clinical setting. *Prerequisite:* EDUC 644. Duplicates Credit in former EDCO 561. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 645b Fieldwork in Counseling

Units: 3 Supervised field experience in a clinical setting. *Prerequisite:* EDUC 644. Duplicates Credit in former EDCO 561.

Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 646a Marriage and Family Therapy Capstone: Leadership Project

Units: 1 Terms Offered: FaSp An evidencebased leadership project, designed to enhance fieldwork site functioning. Includes needs assessment, literature review, project design, implementation, and evaluation. Instruction Mode: Lecture Grading Option: Letter

EDUC 646b Marriage and Family Therapy Capstone: Leadership Project

Units: 1 Terms Offered: FaSp An evidencebased leadership project, designed to enhance fieldwork site functioning. Includes needs assessment, literature review, project design, implementation, and evaluation. Instruction Mode: Lecture Grading Option: Letter

EDUC 647 School Leadership Seminar

Units: 2 Terms Offered: Sp Planning, design, and development of an action research plan for school improvement using multiple measures of project assessment. Instruction Mode: Lecture Grading Option: Letter

EDUC 648a Apprenticeship in School Administration and Leadership

Units: 2 Terms Offered: FaSp Supervised field experience in administrative areas of K–12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 648b Apprenticeship in School Administration and Leadership

Units: 2 Terms Offered: FaSp Supervised field experience in administrative areas of K–12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 649 Teaching Practice to Support Language Learners

Units: 4 Terms Offered: FaSp Introduces components of effective teaching, including lesson and unit planning, creating a classroom environment conducive to learning, and classroom management strategies. Duplicates Credit in EDUC 562 Instruction Mode: Lecture Grading Option: Letter

EDUC 650 Ways of Seeing: Applying Social Science and Critical Theories to Education

Units: 4 Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to Urban Education Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 651 Introduction to Qualitative Research Methods

Units: 3 Terms Offered: FaSpSm Introduces qualitative methodologies, qualitative data collection and analysis techniques, support in drafting research proposals, and paradigms on how to critically think about inquiry. Instruction Mode: Lecture Grading Option: Letter

EDUC 652 Inquiry Methods III

Units: 3 Terms Offered: FaSpSm Logic and

methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. *Prerequisite:* EDUC 532 and EDUC 536 Registration Restriction: Open only to Organizational Change and Leadership students Instruction Mode: Lecture Grading Option: Letter

EDUC 653 Advanced Qualitative Research

Units: 3 Terms Offered: Sp Interactive seminar that explores the theoretical underpinnings and practicalities of interviews, portraiture, focus groups, life histories, and cultural biographies. *Recommended Preparation:* introductory statistics. Instruction Mode: Lecture Grading Option: Letter

EDUC 654 Advanced Qualitative Research Methods II

Units: 3 Terms Offered: FaSpSm Designed to follow Advanced Qualitative Research, focuses on data analysis in the qualitative research tradition, writing and publishing from qualitative data. Instruction Mode: Lecture Grading Option: Letter

EDUC 655 Social Foundations of Language Education

Units: 4 Terms Offered: FaSp Candidates engage in systematic study of the social aspects of language learning and their significance for structuring learning opportunities for diverse students in language classrooms. Duplicates Credit in EDUC 565a and EDUC 565b Instruction Mode: Lecture Grading Option: Letter

EDUC 656 Applied Linguistics for English Language Educators

Units: 3 Terms Offered: FaSp Introduction to systems of English language and language in use. Contrasts systems of English to other languages to identify issues of interest for language teachers. Duplicates Credit in EDUC 592a, EDUC 592b, the former EDUC 571 Instruction Mode: Lecture Grading Option: Letter

EDUC 657 Social Foundations of Research

Units: 3 Terms Offered: Fa Foundations in social science research with exposure to broad cross-section of research methods, design, and analytical techniques. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 658 Hierarchical Linear Models

Units: 3 Terms Offered: Fa Application of two- and three-level multilevel models in educational settings, fixed and random effects, growth models. *Recommended Preparation:* a working understanding and knowledge of regression analysis and related Stata software. Instruction Mode: Lecture Grading Option: Letter

EDUC 659 Introduction to Causal Inference in Educational Settings

Units: 3 Terms Offered: Sm An introduction to quasi- and non-experimental methods researchers use to strengthen causal linkages between educational policies and reforms, and student, teacher, and other outcomes. *Recommended Preparation:* EDUC 658 Instruction Mode: Lecture Grading Option: Letter

EDUC 660a Clinical Practice Seminar in Language Teaching

Units: 2 First of two-course series focused on helping students translate theory to practice. Designed for students completing fieldwork required for the teaching credential. *Recommended Preparation:* Completion of CTC basic skills and subject matter competency test required to begin student teaching Instruction Mode: Lecture Grading Option: Letter

EDUC 660b Clinical Practice Seminar in Language Teaching

Units: 2 Terms Offered: FaSp Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. *Prerequisite:* EDUC 660a Instruction Mode: Lecture Grading Option: Letter

EDUC 661 Equity in College and Career Access

Units: 3 Terms Offered: Fa Focus on College and Career Readiness using an equity lens with a foundation in the relevant theories, conceptual frameworks and issues. *Recommended Preparation:* EDUC 609 Registration Restriction: Open only to EDCN and MFTH students Instruction Mode: Lecture Grading Option: Letter

EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools

Units: 4 General introduction to curriculum and instruction (pedagogy) affecting teaching and learning across disciplines, grade levels, and different social contexts of schooling. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 671 Contexts for Educational Equity, Access, and Agency

Units: 3 Terms Offered: FaSpSm Examines how environmental, pedagogical, and curricular choices can be cultivated with greater knowledge of culture, gender, orientation, race, learning differences and language. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 672 Integrated Language Development Across the Curriculum

Units: 3 Understanding of language development and the connection between language and learning in school, across all curricular areas. Registration Restriction: MAT Students Only Duplicates Credit in EDUC 501 Instruction Mode: Lecture Grading Option: Letter

EDUC 673 Applications of Curriculum and Pedagogy, Part A

Units: 4 Candidates apply content-area knowledge utilizing a repertoire of pedagogical practices responsive to the needs and interests of diverse learners. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 674 Identifying and Teaching to Student Differences

Units: 3 Building on EDUC 671, course proceeds with greater focus on learner behavior, ability, and language to access

strategies to differentiate, scaffold, and assess learning. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 675 Literacy Development and Instruction in Elementary Education

Units: 3 Literacy development and instruction, with a focus on the importance of literacy for academic success and civic participation. Registration Restriction: MAT Students Only Duplicates Credit in EDUC 504 Instruction Mode: Lecture Grading Option: Letter

EDUC 676 Literacy Development and Instruction in Secondary Education

Units: 3 Prepares prospective secondary teachers to integrate literacy instruction within their content area by creating authentic opportunities for learners to develop literacy skills. Registration Restriction: Open only to MAT students Duplicates Credit in EDUC 505 Instruction Mode: Lecture Grading Option: Letter

EDUC 677 Applications of Curriculum and Pedagogy, Part B

Units: 4 Building on EDUC 673, prepares candidates to apply curricular principles to lesson development and determine how content should be delivered to maximize learning. Registration Restriction: MAT Students Only Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 678 Applying Knowledge and Strategies for Teaching All Students

Units: 2 Building on EDUC 673, prepares candidates to apply curricular principals to lesson development and determine how content should be delivered to maximize learning. Registration Restriction: MAT Students Only Instruction Mode: Lecture Grading Option: Letter

EDUC 679 Blended Learning Experiences for Students in Urban Schools

Units: 2 Design, implement, and evaluate technology-rich learning environments to customize and individualize learning opportunities and assessments for K-12 students. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 681 Research, Policy and Practice in Urban Education

Units: 4 Terms Offered: FaSpSm Development of urban education through the social, historical and political lens as it shapes and influences education research and policy. Instruction Mode: Lecture Grading Option: Letter

EDUC 682 Introduction to Quantitative Research Methods in Education

Units: 3 Terms Offered: FaSpSm Basic concepts of quantitative/statistical methods common in education research, emphasizing applications with data. Introduces sampling, types of validity, statistical inference, bivariate analysis, internal/external validity. Instruction Mode: Lecture Grading Option: Letter

EDUC 683 Proseminar in Urban Education Policy

Units: 1 Max Units: 03 Terms Offered:

FaSpSm Introduction to faculty and their research; provides professional development on a variety of topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 684 Research Synthesis

Units: 3 Terms Offered: FaSpSm Skill development in rigorous literature reviewing practices, systematic research synthesis methods and meta-analytic techniques in social science. *Recommended Preparation:* Social foundations and quantitative methods Instruction Mode: Lecture Grading Option: Letter

EDUC 687 Capstone Seminar

Units: 3 Terms Offered: Fa Synthesize institutional, public and non-public sources of data to write and orally present an enrollment management plan for both campus and external stakeholders. Registration Restriction: Open only to Enrollment Management and Policy students Instruction Mode: Lecture Grading Option: Letter

EDUC 688 Institutions, Organizations, and Equity in Education

Units: 3 Terms Offered: Sp Examine how sociologists and organizational theorists conceptualize institutions, stasis, and change. Learn to apply these perspectives to pressing issues of educational equity. Instruction Mode: Lecture Grading Option: Letter

EDUC 689 Fiscal Support and Expenditure in Higher Education

Units: 3 Terms Offered: Sp Analyses of private and public financial support and expenditure patterns; includes recent trends in state and federal legislation related to higher education. Instruction Mode: Lecture Grading Option: Letter

EDUC 690 Framing and Enrollment Management

Units: 3 Terms Offered: Sm Identify and research enrollment management practices while developing academic literacy skills. Students will understand roles and responsibilities in Enrollment Management offices. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 691 Admission Policy and Practice

Units: 3 Terms Offered: Fa Examines admission policy within the contexts of history, social class, professional practice, and the interplay of institutions and society. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 692 Role of Diversity in Admissions

Units: 3 Terms Offered: Fa Addresses college access, the manifestations of diversity through the admission process, and a primer on the role of identities, demographics, and intersectionality within them. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 693 Institutional Positioning in Student Recruitment

Units: 3 Terms Offered: Sm Explores

market research, demand, pricing, value, segmentation, positioning, consumer-centric communication, and the characteristics of a market-oriented enrollment management unit. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 694 Legal Issues in Enrollment Management

Units: 3 Terms Offered: Sp Examines legal issues in enrollment management and addresses the intersection of law and policy, including implications for decision-making by higher education officials. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 695 Organizations and Leadership in Education

Units: 3 Terms Offered: Sm Emphasizes models of educational organizations and how they are influenced by the contexts and problems they experience, with emphasis on leadership, change management, and governance. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 696 Financial Aid in Enrollment Management

Units: 3 Terms Offered: Sp Examines institutional budgets, the role of tuition, influences on the price of higher education, and the purpose and processes of applying for and packaging financial aid. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 697 Research, Planning, and Accountability

Units: 3 Terms Offered: Fa Develop a research perspective related to understanding and solving complex problems and strategic planning in enrollment management. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 698 Enhancing Student Retention

Units: 3 Terms Offered: Fa Examines how student characteristics are associated with persistence and graduation, how rates vary with institutional type, and the institutional role in student success. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 700 Research and Practice in the Preparation of Teachers

Units: 3 Research on the preparation of teachers for diverse populations. Measures of teacher quality and student achievement. Existing practices in teacher education from multiple perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 701 Pedagogy in Teacher Education

Units: 3 A critical examination of pedagogical practices in teacher education. The design of pedagogical approaches and programs for diverse and underserved

students in urban schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 702 Curriculum, Teacher Preparation, and Student Learning

Units: 3 The process and role of curriculum in a variety of urban settings, teacher preparation, and professional growth. The philosophical and psychological foundations of curriculum development. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 703 Examining Literacy Theories and Practice

Units: 3 Literacy theories as practiced in urban, teacher education and professional development settings using an inquiry approach to examine best practice. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 704 Evaluation and Assessment in Teacher Education

Units: 3 Terms Offered: Fa Evaluation and assessment in the context of public schools, teacher preparation and professional growth in urban settings. Policy implications of data-based decision making and program implementation. Instruction Mode: Lecture Grading Option: Letter

EDUC 705 Survey Design and Analysis

Units: 3 Terms Offered: FaSpSm Design, collection, and analysis of survey data; survey analysis techniques including classical test theory, item response theory, differential item functioning, scaling, linking. Instruction Mode: Lecture Grading Option: Letter

EDUC 706 Proseminar in Higher Education

Units: 3 Critical issues in urban higher education from historical and philosophical perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 707 Administration in Higher Education

Units: 3 Terms Offered: Fa Administrative issues in higher education. Academic leadership related to undergraduate and graduate education. Quality standards and assessment. How administrators create efficiency, effectiveness, performance, and change. Instruction Mode: Lecture Grading Option: Letter

EDUC 708 Advanced Student Development Theory

Units: 3 Terms Offered: Fa Examination of traditional and emergent student development theories. Instruction Mode: Lecture Grading Option: Letter

EDUC 709 Finance in Higher Education

Units: 3 Local, national, and global economic and policy environments and their effect on institutional policies and practices. Instruction Mode: Lecture Grading Option: Letter

EDUC 710 Assessment, Organizational Learning and Performance

Units: 3 The role of assessment in higher education. An analysis of the purpose and value of particular assessment approaches and instruments, in particular those addressing classroom learning and

institutional effectiveness. Instruction Mode: Lecture Grading Option: Letter

EDUC 711 Social Factors Influencing Learning and Motivation

Units: 3 Social psychological principles and research techniques applied to educational problems; school environment, group behavior, teacher effectiveness, teacher-student interaction, behavioral change. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 712 Advanced Study of Motivation: Theory, Research and Application

Units: 3 Terms Offered: Fa Analysis of motivational principles; diagnosis and solutions to motivation gaps in learning environments; and motivation and efficacy theories and principles. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 713 Human Lifespan Development

Units: 3 Terms Offered: FaSpSm An examination of issues related to the development of diverse students and the development of environments that promote motivated behavior. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 714 Measurement and Evaluation for Decision-Making

Units: 3 Terms Offered: Sm Collecting, analyzing, and using quantitative data to solve problems of practice and in evaluating educational institutions, programs, and policies. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 715 Current Research in Learning

Units: 3 Current research in the application of learning theories, and the applicability of this research across a variety of contexts. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 716 Instructional Leadership

Units: 3 Terms Offered: Sm Examines the role of instructional leaders in improving student performance; current issues in curriculum design and implementation; and effective instructional leadership approaches for school improvement. Open only to doctoral students. Duplicates Credit in former CTSE 688. Instruction Mode: Lecture Grading Option: Letter

EDUC 717 Resourcing Schools for Equity and Excellence

Units: 3 Terms Offered: Fa Applying economic theory to the study of education. Application of market theory to education, partnerships, allocation of resources and the examination of educational enterprises. Registration Restriction: Open only to doctoral students. Duplicates Credit in former EDPA 615. Instruction Mode: Lecture Grading Option: Letter

EDUC 718 Maximizing Human Resources in Education

Units: 3 Terms Offered: Sm Strategically understanding the management of human capital to ensure high student performance. How to attract and retain top quality teachers.

Open only to doctoral students. Duplicates Credit in former EDPA 610. Instruction Mode: Lecture Grading Option: Letter

EDUC 719 Education Policy and Politics

Units: 3 Terms Offered: Fa Major issues facing educators in the 21st century. Emphasis on how educational policy can focus on incentives for schools to improve student learning. Registration Restriction: Open only to doctoral students. Duplicates Credit in former EDPA 613. Instruction Mode: Lecture Grading Option: Letter

EDUC 720 Leadership for Principals

Units: 3 Terms Offered: Sm The role of the principal as an instructional leader with a focus on improving student achievement. Open only to doctoral students. Duplicates Credit in former EDPA 600. Instruction Mode: Lecture Grading Option: Letter

EDUC 721 Seminar in the Superintendency

Units: 3 Terms Offered: Sm The role of the superintendent in establishing a focus on student achievement and holding school sites accountable. How superintendents support student learning through leadership. Registration Restriction: Open only to doctoral students. Duplicates Credit in former EDPA 618. Instruction Mode: Lecture Grading Option: Letter

EDUC 723 Evaluating and Assessing Educational System Outcomes

Units: 3 Terms Offered: Sm Evaluating impact. Examination of key assessment theories; planning and implementation of learning and program effectiveness. *Prerequisite:* EDUC 631. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 724 Creating Policy Alternatives for Educational Settings

Units: 3 Terms Offered: Sm Effective policy-making and constructing alternatives. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 725 Analyzing Organizational Change and Its Effectiveness

Units: 3 Terms Offered: Fa Designed to help leaders apply research about learning and motivation to the strengthening of organizational performance in organizations around the world. Instruction Mode: Lecture Grading Option: Letter

EDUC 726 Making Choices: Deciding Among Policy Alternatives

Units: 3 Terms Offered: Fa Models of decision making including cost-benefit analysis, risk-benefit analysis, and decision analysis. Ethical considerations and the political environment. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 727 Implementing Policy in Educational Systems

Units: 3 Terms Offered: Sp Effective policy-making. Human and financial resources to support implementation. Targeting resources to support implementation to attain policy goals. *Prerequisite:* EDUC 726. Registration

Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter

EDUC 728 Global Trends: Emerging Ideas, Emerging Markets

Units: 3 Terms Offered: Sp Examination of a range of emerging markets in education. Global efforts of institutions of higher education to access new markets through collaborations and offshore endeavors. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 729 Assessing Policy Impact in Educational Settings

Units: 3 Terms Offered: Sp Theory and practice of educational policy evaluation. Limits of rationality and the political forces that shape policy. Preparation of an evaluation design. *Prerequisite:* EDUC 727 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 730 Using Communication to Facilitate Organizational Change

Units: 2, 3 Terms Offered: FaSpSm Addresses communication strategies that leaders use to facilitate positive change in their organization. Reinforces written, non-verbal, and verbal communication skills through leadership situations. Registration Restriction: Open only to Organizational Change and Leadership majors Instruction Mode: Lecture Grading Option: Letter

EDUC 731 Economics of Organizational Change and Learning Environments

Units: 3 Terms Offered: FaSpSm Leadership, problem solving, communication, research, reflection, and professional dispositions will concurrently expand. Candidates will acquire the knowledge and skills to identify and implement economic change. Instruction Mode: Lecture Grading Option: Letter

EDUC 732 Building Capacity for Organizational Change

Units: 3 Terms Offered: FaSpSm Focuses on learning issues related to building organizational capacity for change through leadership and development of personnel within an organization. Instruction Mode: Lecture Grading Option: Letter

EDUC 733 Analyzing Data and Identifying Solutions

Units: 3 Terms Offered: Sp Designed to help students interpret study data and construct evidence-based solutions for real-time organizational problems of practice. *Prerequisite:* EDUC 629 Registration Restriction: Open only to USC Rossier School of Education students Duplicates Credit in EDUC 725 Instruction Mode: Lecture Grading Option: Letter

EDUC 764a Consulting Project

Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764b Consulting Project

Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode:

Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764c Consulting Project

Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764d Consulting Project

Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764z Consulting Project

Units: 0 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 791 Proposal for Doctoral Dissertation

Units: 1 Terms Offered: FaSpSm Preparation of initial dissertation proposal. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 792 Critique of Research in Education

Units: 3 Terms Offered: FaSp A survey and critical analysis of selected research and literature. Open to students admitted to the EdD only. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Expanded

EDUE 560 Identity and Diversity

Units: 3 Explore the historical and contemporary foundations of hierarchies

and relationships of power, sociocultural diversity of experiences and sociopolitical resistance within higher education.

Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Instruction Mode: Lecture Grading Option: Letter

EDUE 563 History of Higher Education

Units: 3 Terms Offered: Fa Examination of roles and functions of higher education from historical and contemporary perspectives, with a focus on equity and urban education. Registration Restriction: Open only to USC Rossier School of Education PASA students Duplicates Credit in EDHP 500 and EDUC 508 Instruction Mode: Lecture Grading Option: Letter

EDUE 571 Research Methods and Applied Educational Ethnography

Units: 3 Terms Offered: Sp Explore the use of quantitative, qualitative and mixed methods research to explore problems/opportunities of practice in higher education. Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Duplicates Credit in EDHP 551 and EDUC 570 Instruction Mode: Lecture Grading Option: Letter

EDUE 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 700 Foundations in Urban Education

Units: 3 Terms Offered: Fa Explores urban P-20 education through social, historical, and political lenses and how research and policy shape professional practice in Los Angeles and the United States. Instruction Mode: Lecture Grading Option: Letter

EDUE 701 Foundations in Leadership in Education

Units: 3 Terms Offered: Fa Provides foundational knowledge about leadership theory and practice to support students' development as critically conscious leaders who take action to address inequities in urban contexts. *Concurrent Enrollment:* EDUE 700 Duplicates Credit in EDUC 524 Instruction Mode: Lecture Grading Option: Letter

EDUE 702 Foundations in Learning

Units: 3 Terms Offered: Sp Supports the development of critically conscious leaders who facilitate learning in urban contexts by understanding how culture, identity and power influence learners' opportunities to learn. *Prerequisite:* EDUE 700 and EDUE 701 Duplicates Credit in EDUC 525 Instruction Mode: Lecture Grading Option: Letter

EDUE 703 Power, Diversity and Equity

Units: 3 Terms Offered: Sp Explores power, diversity and equity through the social, historical, and political lenses as these constructs shape and impact education (P-20) research, policy and professional practice. *Prerequisite:* EDUE 700 Duplicates Credit in EDUC 523 Instruction Mode: Lecture Grading Option: Letter

EDUE 704 Leadership Enactment

Units: 3 Terms Offered: Sm Provides students with the opportunity to acquire or deepen knowledge and skills related to acting as a critically conscious leaders who address existing educational inequities. *Prerequisite:* EDUE 700 and EDUE 701 Instruction Mode: Lecture Grading Option: Letter

EDUE 705 Communicating as Leaders

Units: 3 Terms Offered: Fa Develops critically conscious leaders' ability to communicate effectively and in innovative ways with multiple audiences in multiple formats including scholarly, internal and external communications. *Prerequisite:* EDUE 700 and EDUE 701 and EDUE 702 and EDUE 703 and EDUE 704 Instruction Mode: Lecture Grading Option: Letter

EDUE 718 Leading for Instructional Improvement

Units: 3 Terms Offered: Sm Improves K-12 practitioners' instructional leadership capacity, addressing power and its impact on creating and perpetuating educational inequities for historically marginalized and minoritized children and adults. Instruction Mode: Lecture Grading Option: Letter

EDUE 722 Gaps in Educational Opportunities PreK-20

Units: 3 Terms Offered: Sm Prepares educational leaders to enact leadership within urban P-20 teaching and learning environments by examining curriculum and instruction from historical, social and political standpoints. Instruction Mode: Lecture Grading Option: Letter

EDUE 723 Curriculum and Instructional Leadership

Units: 3 Terms Offered: Fa Social, political, economic and scholarly factors determining curriculum and instructional design and implementation and implications for formal and informal leaders in P-20 contexts are explored. *Prerequisite:* EDUE 722 Instruction Mode: Lecture Grading Option: Letter

EDUE 724 Culturally Responsive Educational Leadership

Units: 3 Terms Offered: Sm Prepares education leaders to enact culturally responsive change in order to transform teaching, learning, and educational practices in their urban professional context. *Prerequisite:* EDUE 723 Instruction Mode: Lecture Grading Option: Letter

EDUE 725 Inter-Disciplinary Curriculum, Instruction and Assessment P-20

Units: 3 Terms Offered: FaSpSm Educational leaders utilize spatial data and technologies to study their leadership trajectories across urban P-20 settings and bring inter-disciplinary approaches to curriculum, instruction, and assessment. *Prerequisite:*

EDUE 724 Instruction Mode: Lecture Grading Option: Letter

EDUE 726 Research Methods 1

Units: 3 Terms Offered: Fa Explores the historically complex relationship between education research, education (in)equity and personal practice, and will highlight the possibilities of research to foster justice in education. Instruction Mode: Lecture Grading Option: Letter

EDUE 727 Research Methods 2

Units: 3 Terms Offered: Sp Building on Research Methods 1, students learn to implement a research design by conducting pilot studies to answer quantitative and qualitative research questions. *Prerequisite:* EDUE 726 Instruction Mode: Lecture Grading Option: Letter

EDUE 780a Dissertation in Practice

Units: 3 Terms Offered: Sp Supports students to prepare a literature review, overview of methodology and other contextual writing for their dissertations in practice and prepare for the qualifying exam. *Prerequisite:* EDUE 726 and EDUE 727 Duplicates Credit in EDUC 792 Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 780b Dissertation in Practice

Units: 2 Terms Offered: Sm Builds on EDUE 780a as students finalize their literature reviews, overview of methodology and other contextual writing for the dissertation in practice and qualifying exam. *Prerequisite:* EDUE 726 and EDUE 727 and EDUE 780a Duplicates Credit in EDUC 794a and EDUC 794b Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 784a Dissertation in Practice, Data Analysis

Units: 2 Terms Offered: FaSp Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 726 and EDUE 727 and EDUE 780a and EDUE 780b Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784b Dissertation in Practice, Data Analysis

Units: 2 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784a Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784c Dissertation in Practice, Data Analysis

Units: 2 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784b Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784d Dissertation in Practice, Data Analysis

Units: 2 Terms Offered: FaSpSm Builds

students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784c Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784z Dissertation in Practice, Data Analysis

Units: 0 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784d Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

Electrical Engineering**EE 101 Introduction to Digital Logic**

Units: 3 Terms Offered: FaSp Boolean algebra; number systems; Boolean function synthesis; binary arithmetic; codes; combinational logic devices; sequential circuits; state machine design and implementation. Duplicates Credit in former EE 154. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-110

EE 105 Introduction to Electrical Engineering

Units: 4 Terms Offered: Fa Electrical engineering overview: communications, computers, circuits, components, signals, electromagnetics, microelectronics; data encoding and compression, USPS and UPC product codes, DVDs, semiconductor devices, and integrated circuits. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 109L Introduction to Embedded Systems

Units: 4 Terms Offered: Fa Information representations, embedded programming, digital and serial I/O, analog-to-digital conversion, and interrupt mechanisms. Elementary analog, logic, and state-machine design. *Corequisite:* EE 155L or CSCI 103L Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 141L Applied Linear Algebra for Engineering

Units: 4 Introduction to linear algebra with engineering applications. Weekly laboratory exercises using MATLAB. Duplicates Credit in former EE 241 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 155L Introduction to Computer Programming for Electrical Engineers

Units: 4 Terms Offered: Fa Introduction to solving engineering problems using computational methods. Survey of various programming languages and their strengths and weaknesses. Program structure, input/output, conditionals, loops, functions, arrays. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 202L Linear Circuits

Units: 4 Terms Offered: FaSpSm Lumped circuit elements; network equations; zero-input and zero-state responses; sinusoidal steady-state analysis; impedance; resonance; network functions; power

concepts; transformers; Laplace transforms.

Prerequisite: PHYS 152L *Corequisite:* MATH 245. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 250L Distributed Systems for the Internet of Things

Units: 4 Introduction to hardware, operating systems, signal processing and control, network protocols, mobile applications, databases, cloud computing, machine learning, and security for the Internet of Things. *Prerequisite:* EE 109L and EE 155L *Recommended Preparation:* Experience with DIY electronics, Linux, and programming in a distributed, networked environment Registration Restriction: Open only to students with at least a sophomore standing Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 301L Linear Systems

Units: 4 Terms Offered: FaSp Representation and analysis of linear time-invariant systems primarily for the continuous time case. Convolution, Fourier series and transform, Laplace transform, controls and communications applications. *Prerequisite:* EE 202L. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 322 Introduction to Digital Audio

Units: 3 Terms Offered: Fa Fundamentals of sound, acoustics and digital audio signal processing. Instruction Mode: Lecture Grading Option: Letter

EE 326Lx Essentials of Electrical Engineering

Units: 4 Network analysis and theorems; transient analysis; transformers; semiconductor physics and circuits; power amplifiers, modulation and demodulation, and pulse, digital, and switching circuits. Introduction to instrumentation. *Prerequisite:* PHYS 152L, MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 330 Electromagnetics I

Units: 3 Terms Offered: FaSp Basic static and dynamic electromagnetic field theory and applications; electrostatics, magnetostatics, Maxwell's equations, energy flow, plane waves incident on planar boundaries, transmission lines. *Prerequisite:* EE 202L, MATH 445, PHYS 152L. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 337L Engineering Nano-Systems

Units: 3 Terms Offered: Sp Methods to control and exploit the phenomena of nanoscience, and the integration of nano-technology into systems. Development of fundamental concepts through a series of experimental modules. *Prerequisite:* PHYS 152. Duplicates Credit in former EE 238L. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 338 Physical Electronics

Units: 4 Semiconductor device characteristics and applications. Physical models of electronic conduction in solids, p-n junctions, bipolar and field effect transistors and other solid-state devices. *Prerequisite:* EE 202L and PHYS 152L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 348L Electronic Circuits

Units: 4 Terms Offered: FaSp Basic analog and digital circuit design using Bipolar Junction Transistors, Field Effect Transistors and integrated circuits. *Corequisite:* EE 338. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 351 Programming and Multimedia on the World Wide Web

Units: 3 Terms Offered: FaSpSm (Enroll in CSCI 351)

EE 352L Computer Organization and Architecture

Units: 3 Computer organization and architecture. Concepts include: computer evolution and performance, system busses, cache memory, internal and external memory, input/output, operating system support, computer arithmetic. *Prerequisite:* CSCI 104. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-352

EE 354L Introduction to Digital Circuits

Units: 4 Digital system design and implementation; synchronous design of datapath and control; schematic/ Verilog-based design, simulation, and implementation in Field Programmable Gate Arrays; timing analysis; semester-end project. *Prerequisite:* EE 109L Duplicates Credit in former EE 254 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 355x Software Design for Electrical Engineers

Units: 4 Object-oriented programming techniques, basic data structures, and elementary complexity analysis for the modeling, simulation, and solution of engineering problems. *Prerequisite:* EE 155L Credit Restriction: Not available for credit for CSCI, CSBM, CSBA, or CECs majors Duplicates Credit in former CSCI 355x Instruction Mode: Lecture, Lab Grading Option: Letter

EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science

Units: 4 Terms Offered: FaSp Introduction to concepts of randomness and uncertainty: probability, random variables, statistics. Applications to digital communications, signal processing, automatic control, computer engineering and computer science. *Prerequisite:* MATH 225 or MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 370 Electromagnetics for Engineering Systems

Units: 4 Electromagnetic plane-wave propagation and interactions with simple media, transmission/reception of wireless signals in complex environments. Optimization design methods for system applications. *Prerequisite:* PHYS 172L or PHYS 162L Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

EE 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

Instruction Mode: Lecture Grading Option: Letter

EE 415 Introduction to MEMS

Units: 3 (Enroll in AME 455)

EE 422x Electromagnetic Systems Design

Units: 3 Terms Offered: FaSp Applied electromagnetics for large- and small-scale electromechanical systems. Comprehensive design project. Capstone design experience. *Prerequisite:* EE 330. Instruction Mode: Lecture Grading Option: Letter

EE 423Lx Loudspeaker and Sound-System Design

Units: 3 Terms Offered: Sp Project-based design of loudspeaker transducers, filters, and enclosures. Measurement of transfer functions, acoustical performance, distortion, Thiele-Small parameters, and power handling. Listening evaluations. Capstone design experience. *Prerequisite:* EE 301 or AME 302; PHYS 152; *Recommended Preparation:* EE 330. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME-423

EE 434Lx Digital Signal Processing Design Laboratory

Units: 4 Experiments and design project in digital signal processing (e.g., real-time DSP, acoustics, video) including: systems specification, preliminary analysis, trade-off studies, implementation, presentation. Capstone design experience. *Prerequisite:* EE 483. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 436 Introduction to Condensed Matter Physics

Units: 4 Terms Offered: Irregular, Sp (Enroll in PHYS 440)

EE 438L Processing for Microelectronics

Units: 3 Applications and electrical evaluation of selected processes used in electronic microfabrication. *Prerequisite:* EE 338. Duplicates Credit in former MASC 438L. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MASC-438

EE 439 Principles of Semiconductor Processing

Units: 3 (Enroll in MASC 439)

EE 443 Introduction to Power Systems

Units: 4 Components of power systems; analysis techniques in electrical power generation transmission and utilization; and environmental and economic considerations in system operations and planning. *Prerequisite:* EE 370 Instruction Mode: Lecture Grading Option: Letter

EE 444 Power Systems Technology

Units: 4 Terms Offered: Fa Comprehensive assessment of the technical, environmental, and regulatory challenges that affect the future delivery and utilization of electric power. Case-study analysis. *Prerequisite:* EE 202L Instruction Mode: Lecture Grading Option: Letter

EE 445 Introduction to Robotics

Units: 4 (Enroll in CSCI 445)

EE 447Lx Mixed Signal Electronic Circuits

Units: 4 Application of solid-state electronic

devices to the design of linear and mixed-signal systems. Laboratory experiments and projects involving the design of electronic hardware. Capstone design experience. *Prerequisite:* EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 448L Communication Electronics
Units: 4 Terms Offered: FaSp Analysis, design, and experimental evaluation of transistor-level communication circuits and micro-systems. Transmission lines, impedance matching, noise, distortion, tuned amplifiers, mixers, oscillators, phase-locked loops. *Prerequisite:* EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 450 Introduction to Computer Networks
Units: 4 Terms Offered: FaSpSm Network architectures; layered protocols, network service interface; local, wide area, wireless networks; Internet protocols; link protocols; addressing; routing; flow control; software defined network; multimedia networks. Registration Restriction: Open only to junior, senior and graduate students Duplicates Credit in CSCI 353 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as CSCI 450

EE 451 Parallel and Distributed Computation
Units: 4 Introduction to parallel programming techniques, models and optimization strategies; Application mapping to multi-core, accelerator, GPU and cloud platforms; High Performance Computing and Data Science applications. *Prerequisite:* EE 355x or CSCI 201L *Recommended Preparation:* High-level programming Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI 452

EE 452L Game Hardware Architectures
Units: 3 Terms Offered: Fa Architectural principles underlying modern game console hardware design; introduction to the programming techniques, optimization strategies, and hardware insights to create powerful games. *Prerequisite:* EE 352. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-452

EE 453 Computing Platforms and Paradigms
Units: 4 Microarchitecture performance, storage technologies, FPGA and GPU architecture, and cloud-based architectures combining heterogeneous processing resources. Programming paradigms including CUDA, MapReduce and OpenMP. *Prerequisite:* EE 250L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa Design flow, tools, and issues related to System/Network-on-Chip (S/Noc) design for real-time embedded systems with applications in mobile, cloud, aerospace, and medical electronics. *Prerequisite:* EE 354. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI 454

EE 455x Introduction to Programming Systems Design
Units: 4 (Enroll in CSCI 455)

EE 457 Computer Systems Organization
Units: 4 Terms Offered: FaSpSm Register Transfer level machine organization; performance; arithmetic; pipelined processors; exceptions, out-of-order and speculative execution, cache, virtual memory, multi-core multi-threaded processors, cache coherence. *Prerequisite:* EE 354 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as CSCI 457

EE 459Lx Embedded Systems Design Laboratory
Units: 3 Terms Offered: Sp Specification, design, implementation, testing and documentation of a digital system project using embedded processors, programmable logic, analog I/O interfaces and application specific hardware. Capstone design experience. *Prerequisite:* EE 354L Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

EE 467 Introduction to Communication Systems
Units: 3 Analog and digital communication systems. (De)modulation and (de) multiplexing of AM/FM/PM, noise, digital data formats, error rates, and spectral analysis. Review of wireless, networking, and optical systems. *Prerequisite:* EE 301. Instruction Mode: Lecture Grading Option: Letter

EE 470 Electromagnetics II
Units: 3 Dynamic field theory and elementary solutions to Maxwell's equations. Introduction to propagation and radiation of electromagnetic fields. *Prerequisite:* EE 330. Instruction Mode: Lecture Grading Option: Letter

EE 471 Applied Quantum Mechanics for Engineers
Units: 4 Introductory quantum mechanics and applications. Schrodinger equation, atomic and molecular processes, time-dependent perturbation theory. Applications to lasers, solid-state demos and gaseous devices. *Prerequisite:* EE 470 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 471

EE 472 Introduction to Lasers and Laser Systems
Units: 3 Terms Offered: Fa Electric dipole transitions; traveling wave and resonant amplifiers; laser pumping and rate equations; threshold, frequency, and power output of lasers; holography; laser communication systems. *Corequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHYS-472

EE 473L Lasers and Optics Laboratory
Units: 3 Terms Offered: Sp Introductory design/research laboratory in lasers and optics, which typically includes fiber optics, photonics, electro-optics, optical sensors, optical communication, optical signal processing and computing. *Corequisite:* EE 470. Instruction Mode: Lab Required, Lecture Grading Option: Letter Crosslisted as PHYS-473

EE 474 Introduction to Photonics
Units: 3 Terms Offered: Sp Photonic system requirements; waveguide modes and dispersion; optical fiber modes, loss and dispersion; principles of operation of lasers, optical amplifiers, detectors and modulators; noise. *Prerequisite:* EE 330, EE 338. Instruction Mode: Lecture Grading Option: Letter

EE 475 Wireless Communication Technology
Units: 3 Terms Offered: FaSpSm Fundamentals of wireless communication from a device point of view. Lab experiments and design project. *Recommended Preparation:* EE 467 Instruction Mode: Lecture Grading Option: Letter

EE 476 Chemical Engineering Materials
Units: 4 Terms Offered: Fa (Enroll in CHE 476)

EE 477L MOS VLSI Circuit Design
Units: 4 Terms Offered: FaSpSm Analysis and design of digital MOS VLSI circuits including area, delay and power minimization. Laboratory assignments including design, layout, extraction, simulation and automatic synthesis. *Prerequisite:* EE 338 or EE 354L Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 479 Analog Integrated Circuit Design
Units: 4 Terms Offered: Sp MOSFET and BJT operation and models; elementary amplifier configurations; biasing and references; frequency response; feedback; operational amplifiers. *Prerequisite:* EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 481L Control Systems Laboratory
Units: 3 Terms Offered: Sp (Enroll in AME 443)

EE 482 Linear Control Systems
Units: 3 Terms Offered: FaSpSm Analysis of linear control systems; continuous and sampled-data systems, various stability criteria; frequency response and root locus compensation techniques. *Prerequisite:* EE 301 or graduate standing. Duplicates Credit in AME 451. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 483 Introduction to Digital Signal Processing
Units: 4 Terms Offered: FaSp Fundamentals of digital signal processing covering: discrete time linear systems, quantization, sampling, Z-transforms, Fourier transforms, FFTs and filter design. *Prerequisite:* EE 301L *Recommended Preparation:* Familiarity with MATLAB Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 484x Communication System Design
Units: 3 Terms Offered: Sp Design and analysis of analog and digital communication systems. System models, requirements, development, performance analysis and component selection techniques. Comprehensive system design project. Capstone design experience. *Prerequisite:* EE 364, EE 475; *Recommended Preparation:* EE 467. Instruction Mode: Lecture Grading Option: Letter

EE 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EE 492a Undergraduate Project

Units: 2 For the undergraduate degree.
Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 492b).
Instruction Mode: Lecture Grading Option: In Progress to Letter

EE 492b Undergraduate Project

Units: 2 For the undergraduate degree.
Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 492b).
Prerequisite: EE 492a Instruction Mode: Lecture Grading Option: Letter

EE 494a Undergraduate Thesis

Units: 2 For the undergraduate degree.
Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: In Progress/ Letter

EE 494b Undergraduate Thesis

Units: 2 For the undergraduate degree.
Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). *Prerequisite:* EE 494a Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

EE 496 Capstone Design

Units: 4 Capstone design project for the undergraduate degree. Project topics vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

EE 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester from current developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter

EE 500 Neural Learning and Computational Intelligence

Units: 4 Computational intelligence techniques that include neural systems, deep learning, adaptive pattern classification, fuzzy function approximation, simulated annealing and evolutionary computing, and hybrid systems. *Recommended Preparation:* EE 483, EE 503 or equivalent, EE 510 Instruction Mode: Lecture Grading Option: Letter

EE 501 Solid State

Units: 4 Terms Offered: Sp (Enroll in MASC 501)

EE 502 Advanced Solid State

Units: 3 (Enroll in MASC 502)

EE 503 Probability for Electrical and Computer Engineers

Units: 4 Terms Offered: FaSp Rigorous coverage of probability, discrete and continuous random variables, functions of multiple random variables, covariance, correlation, random sequences, Markov chains, estimation, and introduction to statistics. Duplicates Credit in EE 464 and EE 465. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 504L Solid-State Processing and Integrated Circuits Laboratory

Units: 3 Laboratory oriented with lectures keyed to practical procedures and processes. Solid-state fabrication and analysis fundamentals; basic device construction techniques. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 505 Analog, Mixed-Signal, and RF Integrated-Circuit Tape-Out

Units: 3 Terms Offered: Sm Complete systematic tape-out flow including schematic design, simulation, layout, and post-layout verification of analog, mixed-signal, or radio-frequency integrated circuits. *Prerequisite:* EE 536a Instruction Mode: Lecture Grading Option: Letter

EE 506 Semiconductor Physics

Units: 4 Terms Offered: FaSp Semiconductor bonds, crystallography, band structure assumptions, group theory, band structure results, k.p. method, quantum wells, wires and dots, superlattices, amorphous, organic semiconductors, defects, statistics, surfaces. *Prerequisite:* MASC 501 and EE 471 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 506

EE 507 Micro- and Nano-Fabrication Technology

Units: 3 Physical basis of technologies for the fabrication of micro- and nano-scale devices. Thin-film deposition, etching, and material modification processes; patterntransfer methods. *Recommended Preparation:* graduate standing in engineering, physics, or chemistry Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 507

EE 508 Nano-Fabrication Lithography

Units: 3 Physical basis of lithography methods for nano-scale devices. Photon-, electron-, and ion-based systems, advanced processes; resolution enhancement techniques; directed self assembly. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 508

EE 509 Electromagnetics for Semiconductor Photonics

Units: 3 Overview of electromagnetics needed to understand and design photonic devices. Includes discussion of waveguides and resonant cavities and an introduction to photonic crystals. Instruction Mode: Lecture Grading Option: Letter

EE 510 Linear Algebra for Engineering

Units: 4 Terms Offered: FaSp Introduction to linear algebra and matrix theory and their underlying concepts; applications to engineering problems; mathematically rigorous and foundational to other classes in communication, control, and signal processing. *Recommended Preparation:* EE 141L and MATH 445 or equivalent (calculus, undergraduate linear algebra, matrix theory) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 511 Simulation Methods for Stochastic Systems

Units: 1 Project-oriented investigation of simulation methods used for the analysis and design of complex stochastic systems whose operation and performance are affected by

random events. *Recommended Preparation:* MatLab programming experience.

Corequisite: EE 503; Instruction Mode: Lecture Grading Option: Letter

EE 512 Stochastic Processes

Units: 3 Probability theory and stochastic processes, including renewal theory, Markov chains, Brownian motion, martingales, and stochastic calculus. Applications in communication networks, queuing theory and financial systems. *Prerequisite:* EE 503 and (EE 441 or EE 510 or EE 518) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 513 Solid State Energy Devices

Units: 3 Design and operation of solar photovoltaic energy converters, thermovoltaic energy converters, thermoelectric energy converters, and solid state light emitters; their roles in renewal and conservation of energy. *Recommended Preparation:* EE 338. Instruction Mode: Lecture Grading Option: Letter

EE 514 Quantum Error Correction

Units: 4 A comprehensive introduction to quantum error correction and decoherence control, from the basics to the cutting edge, enabling students to delve into current research topics. *Recommended Preparation:* EE 520 Instruction Mode: Lecture Grading Option: Letter

EE 515 High-Voltage Technology

Units: 3 High voltage engineering basic concepts; theoretical, design, and practical aspects of overvoltages, travelling-waves, insulation, and aging; breakdown mechanisms; insulation coordination. Instruction Mode: Lecture Grading Option: Letter

EE 516 High-Voltage DC Transmission Systems

Units: 4 AC/DC conversion processes, converter technologies, and design; harmonics, controls, and protection; AC/DC interactions and system performance; modeling, application, and installation; current-source versus voltage-source converters. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 517 Statistics and Data Analysis for Engineers

Units: 4 Terms Offered: FaSpSm Statistics and data analysis emphasizing computation and problem solving: confidence intervals, hypothesis tests, bootstrap and Monte Carlo estimation, regression, Bayesian and statistical learning techniques. *Prerequisite:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 518 Mathematics and Tools for Financial Engineering

Units: 4 Students will build a mathematical background for studying financial engineering. Emphasis is on analysis, proofs and examples. Mathwork's financial toolbox will be introduced. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 519 Speech Recognition and Processing for Multimedia

Units: 3 Terms Offered: Fa Speech production, acoustics, perception, synthesis,

compression, recognition, transmission. Coding for speech, music, and CD-quality. Feature extraction. Echo cancellation. Audio, visual synchronization. Multimedia, internet use. *Prerequisite:* EE 483. Instruction Mode: Lecture Grading Option: Letter

EE 520 Introduction to Quantum Information Processing

Units: 3 Terms Offered: FaSpSm Introduces the basics of quantum computation and quantum information theory: quantum bits and registers, unitary gates, algorithms, error correction, and quantum cryptography. *Recommended Preparation:* EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture Grading Option: Letter

EE 521 Power Systems Analysis and Design

Units: 4 Power system planning, studies, and design; time-domain modeling and analysis of power-system networks; power flow, stability, fault, and economic dispatch analysis; symmetrical components. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 522 Immersive Audio Signal Processing

Units: 3 Terms Offered: Sp Fundamentals of digital audio signal processing, room acoustics, and psychoacoustics. Algorithms for real-time implementation of immersive audio systems for integrated media applications. *Prerequisite:* EE 483 Instruction Mode: Lecture Grading Option: Letter

EE 523 Advanced Biomedical Imaging

Units: 3 (Enroll in BME 525)

EE 524 Transients in Power Systems

Units: 3 Overvoltages during faults, voltage recovery, arcing faults, restrikes, theory of switching surges. Systems grounding, traveling waves, lightning and surge protection, insulation coordination. *Prerequisite:* EE 443. Instruction Mode: Lecture Grading Option: Letter

EE 525 Power System Protection

Units: 4 Theory of system and equipment protection, characteristics of relays, relay coordination, and system considerations. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 526 Renewable Energy in Power Systems

Units: 4 Renewable energy sources and their integration in electrical networks. Power-flow control from highly variable resources. Cost analysis and planning. Instruction Mode: Lecture Grading Option: Letter

EE 527 Net-Centric Power-System Control

Units: 3 Terms Offered: FaSpSm Control and stability of large-scale systems such as the electric power grid. Integration with information networks. *Recommended Preparation:* EE 482. *Corequisite:* EE 521; Instruction Mode: Lecture Grading Option: Letter

EE 528 Power Electronics

Units: 4 Terms Offered: Fa Fundamentals of switched-mode power converters operating under steady-state and transient conditions. Feedback control systems. Magnetic circuit

design. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 529 Optics

Units: 4 Geometrical optics, electromagnetic wave propagation, reflection and refraction at interfaces, imaging with lenses and mirrors, optics of the eye, optical instruments (microscopes/telescopes/cameras), and polarization. *Recommended Preparation:* EE 470 or graduate standing Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 530 Optical Materials, Instruments and Devices

Units: 3 Anisotropic materials and devices; properties of metals; design and theory of selected optical instruments; properties of electrooptic, acoustooptic, and spatial light modulators; optical detectors. *Prerequisite:* EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 531 Nonlinear Optics

Units: 3 Theory of nonlinear optical susceptibility and application to self-focusing, harmonic generation, and parametric interactions. Raman and Brillouin scattering. Coherent spectroscopy. *Prerequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 532 Wireless Internet and Pervasive Computing

Units: 3 Terms Offered: Fa Wireless Internet access technologies, 3G cellular systems, WAP and PKI protocols, mobile computing devices, network security for mobile E-commerce, software and middleware for pervasive, cluster, grid, and Internet computing. *Prerequisite:* EE 450; *Recommended Preparation:* EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 533 Network Processor Design and Programming

Units: 3 Terms Offered: Sp Understanding of network processor architecture, applications, and other relevant issues. Program network processor and test under realistic network environment. Design and deploy custom network processor. *Prerequisite:* EE 457; *Recommended Preparation:* EE 450. Instruction Mode: Lecture Grading Option: Letter

EE 534 Materials Characterization

Units: 3 (Enroll in MASC 534)

EE 535 Wireless Communications

Units: 4 Terms Offered: FaSpSm The mobile communication channel; techniques used to combat the channel; cellular communications; multiple-access techniques; example mobile communication systems. *Prerequisite:* EE 503 *Recommended Preparation:* Basic electromagnetic theory, digital communications systems; EE 510 *Corequisite:* EE 511 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 536a Mixed-Signal Integrated Circuit Design

Units: 2 MOSFET operation and models; elementary amplifier configurations; biasing and references; frequency response; noise; feedback; operational amplifiers; frequency compensation; non-linearity and mismatch;

passive and active filters. *Prerequisite:* EE 448 or EE 479. Instruction Mode: Lecture Grading Option: Letter

EE 536b Mixed-Signal Integrated Circuit Design

Units: 4 Terms Offered: Sp Non-linear integrated circuits, data-converter architectures and implementations, comprehensive design project. *Prerequisite:* EE 536a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 537 Modern Solid-State Devices

Units: 4 Terms Offered: Fa Integrated-circuit technologies for mixed-signal communication and data systems. Constituent device models and their limitations. Contemporary research topics. *Prerequisite:* EE 338 Instruction Mode: Lecture Grading Option: Letter

EE 538 Bio-Inspired and Nanoscale Integrated Computing

Units: 2 Terms Offered: FaSp Quantum Dot Cellular Automata, Spin-wave Architectures, Molecular Computing, DNA Computing, Carbon Nanotubes, and Medical Nanorobotics. *Prerequisite:* EE 451 or EE 457 or EE 477L *Recommended Preparation:* Familiarity with cellular biology Instruction Mode: Lecture Grading Option: Letter

EE 539 Engineering Quantum Mechanics

Units: 4 Terms Offered: Fa Quantum mechanics for engineering majors who work with solid-state devices, quantum electronics, and photonics. Schroedinger equation, perturbation theory, electronic and optical processes. *Recommended Preparation:* Experience with linear algebra, Newtonian mechanics, Maxwell's equations, and MATLAB Instruction Mode: Lecture, Quiz Grading Option: Letter Crosslisted as MASC 539

EE 540 Introduction to Quantum Electronics

Units: 4 Fundamentals of light amplification; laser amplifiers and oscillators; atomic pumping; maser and laser systems; definitions of coherence; measurements in quantum electronics. *Prerequisite:* EE 470 *Recommended Preparation:* Quantum Mechanics at the level of EE 471 or (PHYS 438a and PHYS 438b) Instruction Mode: Lecture Grading Option: Letter

EE 541 Radio Frequency Filter Design

Units: 3 Terms Offered: Fa Theory and realization of passive and transconductancebased active filters for radio frequency communications. Distributed and quasi-distributed passive filters. Circuit testing via scattering parameters. *Prerequisite:* EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 542 Internet and Cloud Computing

Units: 3 Terms Offered: Fa Principles and technologies of server clusters, virtualized datacenters, Grids/P2P, Internet clouds, social networks, Internet of Things (IoT), and their innovative applications. *Recommended Preparation:* EE 450 or EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 543aL Digital Control Systems

Units: 3 Terms Offered: Fa Design, analysis,

and implementation of digital control systems using microcomputers; Z-transform methods; frequency domain and state space approach; computational aspects; sampling and quantization. *Prerequisite:* EE 482. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-553A

EE 543bL Digital Control Systems

Units: 1 Modeling of real processes; design and implementation of digital control systems in the controls laboratory. *Prerequisite:* EE 543a. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lab Required Grading Option: Letter Crosslisted as AME-553B

EE 544 Radio Frequency Systems and Hardware

Units: 3 Terms Offered: Sp Elements of radio frequency communication systems: modulation/demodulation strategies, transmission-channel impairments, performance criteria, hardware (low-noise amplifiers, mixers, oscillators), digital back-end, contemporary case studies. *Prerequisite:* EE 301, EE 348, EE 364. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 545 Robotics

Units: 3 Terms Offered: FaSp (Enroll in CSCI 545)

EE 546 Mathematics of High-Dimensional Data

Units: 4 Terms Offered: Irregular Modern developments in data representation/analysis, nonconvex optimization, high-dimensional probability, sketching, clustering, low-rank models, inverse problems, applications in imaging, machine learning, computer vision and neuroscience. *Prerequisite:* EE 510 and EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 548 Analytical Methods in Robotics

Units: 3 (Enroll in AME 548)

EE 549 Nanotechnology for Materials, Electronics, and Circuits

Units: 4 Nanotechnology for advanced nanomaterials, nanoelectronics devices, and circuits, including the rigorous treatment of electronic band structures of carbon nanotubes, graphene, and two-dimensional materials. Instruction Mode: Lecture Grading Option: Letter

EE 550 Data Networks: Design and Analysis

Units: 4 Applications of stochastic modeling and optimization techniques to communication network design and analysis. Data link control; performance models; multi-access channels; routing and flow control. *Prerequisite:* EE 450 and EE 503 *Recommended Preparation:* Probability analysis and general mathematical analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 551 Principles of Radar

Units: 3 Terms Offered: Irregular Signal propagation, reflections from targets; radar equation; detection of scintillating targets; resolution; ambiguity functions; clutter rejection; tracking radars. *Prerequisite:* EE

364 and EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 552 Asynchronous VLSI Design

Units: 3 Terms Offered: FaSp Asynchronous channels and architectures; implementation design styles; controller synthesis; hazards, and races; Petri-nets; performance analysis, and optimization; globally asynchronous locally synchronous design. *Prerequisite:* EE 477. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-552

EE 553 Computational Solution of Optimization Problems

Units: 3 Terms Offered: Sp Computer algorithms for system optimization. Search techniques, gradient methods, parameter optimization in control systems. Optimization with constraints; linear and nonlinear programming. Random search techniques. *Prerequisite:* EE 441 or EE 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 553

EE 554 Real Time Computer Systems

Units: 3 Terms Offered: Sp Structure of real-time computer systems; analog signals and devices; scheduling, synchronization of multiprocessors; reliability, availability; serial/parallel computations; real-time operating systems and languages; design examples. *Prerequisite:* EE 457. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-554

EE 555 Broadband Network Architectures

Units: 3 Terms Offered: FaSpSm Broadband network architectures and services, technologies for high-speed access and core networks, optical infrastructure for layered network architectures, high performance switch and router architectures. *Prerequisite:* EE 450 and EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 556 Stochastic Systems and Reinforcement Learning

Units: 4 Terms Offered: Sp Stochastic system models, Dynamic programming, Linear quadratic control, Kalman filtering and estimation, System identification, approximate dynamic programming methods, adaptive control, reinforcement and online learning. *Prerequisite:* EE 503 *Recommended Preparation:* EE 512 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE 556

EE 557 Computer Systems Architecture

Units: 4 Terms Offered: FaSp Computer architecture from a design perspective: Pipelined processors, speculative execution, VLIW, vector processors, GPU/GPGPU, memory technology and systems, interconnection networks, shared-memory and message-passing multiprocessors, chip multiprocessors. *Prerequisite:* EE 457 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 557

EE 558 Optical Fiber Communication Systems

Units: 3 Terms Offered: FaSp State-of-the-art optical fiber communication systems. Emphasis on optoelectronic-device and

communication-systems issues necessary to provide high-speed and/or networked optical communications. *Recommended Preparation:* EE 338; basic knowledge of optics, semiconductor, and communications concepts. Instruction Mode: Lecture Grading Option: Letter

EE 559 Mathematical Pattern Recognition

Units: 3 Terms Offered: Sp Distribution free classification, discriminant functions, training algorithms; statistical classification, parametric and nonparametric techniques; artificial neural networks. *Corequisite:* EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 559

EE 560L Digital System Design

Units: 4 ASIC design, FPGAs, VHDL, verilog, test benches, simulation, synthesis, timing analysis, post-synthesis simulation, FIFOs, handshaking, memory interface, PCI bus protocol, CAD tools, design lab exercises. *Prerequisite:* EE 457 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 561 Foundations of Artificial Intelligence

Units: 3 Terms Offered: FaSp (Enroll in CSCI 561)

EE 562 Random Processes in Engineering

Units: 4 Random vectors, sequences, and functions. Linear transformations, second moment theory, spectral densities, narrowband processes, Gaussian processes, correlation detection, linear minimum mean square error estimation. *Prerequisite:* EE 503 and (EE 441 or EE 510) Duplicates Credit in former EE 562a Instruction Mode: Lecture Grading Option: Letter

EE 563 Estimation Theory

Units: 3 Terms Offered: Fa Parameter estimation and state estimation technique including: least squares, BLUE, maximum-likelihood, maximum a posteriori, Kalman-prediction, Kalman-filtering and Kalman smoothing and extended Kalman filtering. *Prerequisite:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 564 Digital Communication and Coding Systems

Units: 4 Digital modulations. Optimal reception. Performance analysis. Classical and modern codes. Viterbi, forward-backward, and iterative decoding. Practical designs for channels with memory or nonlinearities. Example systems. *Prerequisite:* EE 503 and (EE 441 and EE 510) *Recommended Preparation:* Basic computer skills (simple programs and plotting) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 565 Information Theory and Its Application to (Big) Data Sciences

Units: 4 Terms Offered: FaSp Entropy and mutual information. Variable and fixed-length, lossless and lossy compression. Universal compression. Text and multimedia compression. Channel capacity. Error-correcting codes. Erasure and Gaussian channels. *Prerequisite:* EE 503 Duplicates Credit in former EE 565a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 566 Optical Information Processing

Units: 3 Terms Offered: Sp Coherent and incoherent optical transforming, imaging and two-dimensional information processing systems; optical image processing, spatial frequency response and filtering; optical and digital holography. *Recommended Preparation:* continuous-time Fourier transforms, linear systems, signals/function Instruction Mode: Lecture Grading Option: Letter

EE 567 Communication Systems

Units: 3 Terms Offered: FaSpSm Analysis of communication systems operating from very low to optical frequencies. Comparison of modulation and detection methods. System components description. Optimum design of communication systems. *Recommended Preparation:* EE 441 or EE 510 *Corequisite:* EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 569 Introduction to Digital Image Processing

Units: 4 Terms Offered: Sp Image sampling, 2-D image transform, image enhancement, geometric image modification, morphologic processing, edge detection, texture analysis, image filtering and restoration. *Recommended Preparation:* EE 503, C/C++ or Matlab programming ability Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570a Advanced Electromagnetic Theory

Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. *Recommended Preparation:* EE 470 (or equivalent); working knowledge of vector algebra, vector calculus, differential equations, and complex variables Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570b Advanced Electromagnetic Theory

Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. *Prerequisite:* EE 570a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 571a Microwave Networks

Units: 3 Microwave network theory for transmission lines and waveguides, discontinuities, impedance transformers, resonators, multi-junction networks, periodic structures, nonreciprocal and active devices. *Prerequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 571b Microwave Networks

Units: 3 Parameter matrices, approximate design procedures for distributed networks from lumped networks, coupled lines, equivalent coupled-line circuits, Kuroda's identities, and capacitance matrix transformations. *Prerequisite:* EE 571a. Instruction Mode: Lecture Grading Option: Letter

EE 572a Plasma Dynamics

Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb

interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 572b Plasma Dynamics

Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 573a Antenna Analysis

Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, aperture radiation, methods of moments, geometrical and physical optics, reflectors, arrays. *Prerequisite:* EE 470. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 573b Antenna Analysis

Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, aperture radiation, methods of moments, geometrical and physical optics, reflectors, arrays. *Prerequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 574 Computer Vision

Units: 3 Terms Offered: Fa (Enroll in CSCI 574)

EE 575 Computational Differential Geometry for Engineers

Units: 3 Differential geometry of curves and surfaces, vectors, tensors, manifolds, curvature, Lie groups, Riemannian geometry, numerical PDEs, heat and Laplace equation, Applications to computer vision, machine learning, signal and image processing. *Recommended Preparation:* Good background in calculus and familiarity with Matlab or C++ Instruction Mode: Lecture Grading Option: Letter

EE 576 Integrated Memory Devices and Technologies

Units: 3 Physical operation and implementation of modern solid-state memory structures. Emerging advanced memory technologies. *Recommended Preparation:* Understanding of basic semiconductor device physics and fabrication technology is useful, but is not required. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 577a VLSI System Design

Units: 3 Terms Offered: FaSp Integrated circuit fabrication; circuit simulation; basic device physics; simple device layout; structured chip design; timing; project chip; MOS logic; system design silicon compilers. *Prerequisite:* EE 477. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 577b VLSI System Design

Units: 3 Terms Offered: FaSp VLSI design project; chip level design issues: power and clock distribution, packaging, I/O; design techniques; testability; chip fabrication and test. *Prerequisite:* EE 477. Instruction Mode: Lecture Grading Option: Letter

EE 578 Reflector Antennas

Units: 3 Introduction to the analytical and

numerical techniques used in the analysis and design of modern reflector antenna systems, including physical optics, asymptotic techniques, shaping and feeds. *Prerequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 579 Wireless and Mobile Networks Design and Laboratory

Units: 3 Terms Offered: Sp Mobile ad hoc networks: ad hoc and geographic routing, resource discovery, medium access control, IP-mobility, mobility modeling, wired/wireless networks. Lab: wireless LAN measurement, mobile-IP, ad hoc routing. *Prerequisite:* CSCI 551 or EE 550 or EE 555; *Recommended Preparation:* programming, network simulation. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-575

EE 580 System Verification

Units: 4 Functional/timing/power verification of complex systems. Simulation-based, formal/semi-formal/assertion languages and tools (SystemVerilog, UVM, UPF, etc.) FPGA prototyping, hardware acceleration, statistical modeling and machine learning. Instructor permission required. *Recommended Preparation:* EE 457 and EE 477L; scripting using Python, OOP using C++; algorithms, statistics and probability Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

EE 581 Mathematical Foundations for System Design: Modeling, Analysis, and Synthesis

Units: 4 Fundamental techniques underlying the methodologies for system design, from integrated circuits to cyber-physical systems. Design flows, fundamental classes of models, and verification and synthesis techniques. *Recommended Preparation:* Exposure to the fundamentals of calculus or discrete mathematics, some background in programming, and an inclination to formal reasoning Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI 593

EE 582 CMOS:Nano Neuromorphic Circuits

Units: 4 Design and simulation of CMOS and nano electronic circuits modeling brain cells, including neurons and glial cells; low-power design; simulation laboratory. *Prerequisite:* EE 348L *Recommended Preparation:* EE 477L or EE 479 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as BME 582

EE 583 Statistical Signal Processing

Units: 3 Characterization of discrete-time random processes. Parametric and non-parametric spectral estimation, adaptive filtering, signal subspace methods, independent components analysis, non-Gaussian signal processing. *Prerequisite:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 584 Chaotic Systems

Units: 3 Terms Offered: Fa Logistic map, chaotic bifurcation, strange attractors, and fractals. Conservative dynamical systems and measure preserving transformations. Ergodicity. Kolmogorov-Sinai entropy.

Chaotic/stochastic realization. Chaos in feedback. *Prerequisite:* EE 562a, EE 562b. Instruction Mode: Lecture Grading Option: Letter

EE 585 Linear System Theory

Units: 3 Terms Offered: FaSpSm Analysis of linear dynamical systems by state-space techniques; controllability, observability, stability, passivity. Application of feedback control and network synthesis. *Prerequisite:* EE 441 or EE 510 Duplicates Credit in AME 541 Instruction Mode: Lecture Grading Option: Letter

EE 586L Advanced DSP Design Laboratory

Units: 4 Terms Offered: Sp Real-time adaptive signal processing design projects using special purpose DSP processors. Suitable project areas include acoustics, speech, arrays, image compression and biomedical signal processing. Permission of instructor required. *Prerequisite:* EE 483 *Recommended Preparation:* At least one 500-level DSP course Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 587 Nonlinear and Adaptive Control

Units: 3 Terms Offered: Fa Nonlinear systems, Lyapunov Stability, Parameter Identification, direct and indirect adaptive control for linear and nonlinear systems. Design analysis, stability, robustness and applications. Backstepping, feedback linearization. *Prerequisite:* EE 482, EE 585. Instruction Mode: Lecture Grading Option: Letter

EE 588 Optimization for the Information and Data Sciences

Units: 4 Convex sets, functions, and optimization problems. Basic convex analysis and theory of convex programming. Novel, efficient first-order algorithms. Applications in the information and data sciences. *Prerequisite:* EE 510 *Recommended Preparation:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 591 Magnetic Resonance Imaging and Reconstruction

Units: 3 Terms Offered: FaSp Principles of magnetic resonance imaging. Spin physics, Fourier-based acquisition and reconstruction, generation of tissue contrast, fast imaging, artifact correction, advanced image reconstruction. *Prerequisite:* EE 483; *Recommended Preparation:* EE 441 and EE 503. Familiarity with MATLAB is required. Instruction Mode: Lecture Grading Option: Letter

EE 592 Computational Methods for Inverse Problems

Units: 3 Terms Offered: FaSpSm Vector-space methods for solving inverse problems.

Existence and uniqueness of solutions; conditioning and regularization; iterative algorithms; constrained optimization; applications in signal and image processing. *Prerequisite:* EE 483 and (EE 441 or EE 510) *Recommended Preparation:* EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 593 Robust Multivariable Control

Units: 3 Terms Offered: Fa Sensitivity and complementary sensitivity matrices; uncertainty representation; singular values; Bode plots. Parameterization of internally stabilizing controllers. Algebraic Riccati Equations. Modern Wiener-Hopf and H-infinity designs. *Prerequisite:* EE 482 and EE 585 Instruction Mode: Lecture Grading Option: Letter

EE 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 595 Software Design and Optimization

Units: 4 Software strategies for applications constrained by power consumption, memory space and verification time; assignments incorporate key elements of planning, modeling, design simulation and testing. *Recommended Preparation:* Strong programming skills, (OOP and scripting), knowledge of algorithms, statistics and probability theory Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

EE 596 Wavelets and Graphs for Signal Processing and Machine Learning

Units: 4 Multirate signal processing, wavelets and filter banks. Overcomplete and sparse signal representations. Graph signal processing. Applications to compression, sensing, time-frequency analysis, and machine learning. *Prerequisite:* EE 483 and (EE 441 or EE 510) Instruction Mode: Lecture Grading Option: Letter

EE 597 Wireless Networks

Units: 4 Terms Offered: FaSp Introduction to wireless networking technologies; fundamental architectural and design principles used at all protocol layers; optimization, performance evaluation and implementation using mathematical analysis, simulations, and experiments. *Prerequisite:* EE 450 and EE 503 *Recommended Preparation:* EE 467 or equivalent; familiarity with Matlab and C programming Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 598 Electrical Engineering Research Seminar

Units: 1 Max Units: 2.0 Introduction to research in electrical engineering. Topics

vary by semester. May be repeated for up to one unit of credit for MS students, two units of credit for PhD students. Registration Restriction: Open only to Master's and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 599 Special Topics

Units: 2, 3, 4 Max Units: 9.0 The course content will be selected each semester to reflect current trends and developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter

EE 601 Advanced Semiconductor Device Physics

Units: 4 Terms Offered: Sp Fundamentals and limitations of nanoscale electronic and photonic semiconductor components. Engineering classical, mesoscale, and quantum electron and photon dynamics in advanced devices. *Recommended Preparation:* EE 471 or EE 539 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as MASC 601

EE 603 System Identification

Units: 4 Terms Offered: FaSp (Enroll in CE 603)

EE 606 Nonequilibrium Processes in Semiconductors

Units: 3 Non-equilibrium processes in modern semiconductor devices. Carriers lifetime and trapping; luminescence; hot carrier and high field effects. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC-606

EE 607 Microelectromechanical Systems

Units: 3 Terms Offered: FaSp Exploration of the technology methods and physical principles of MEMS, and survey various MEMS of current interest. *Recommended Preparation:* Knowledge of microfabrication, electromagnetic fields and waves, and mechanics Instruction Mode: Lecture Grading Option: Letter

EE 608L Microelectromechanical Systems Laboratory

Units: 3 Terms Offered: Fa Lab fabrication and analysis of several MEMS applications, including diaphragm-based sensors and actuators, microfluidic components, and deformable mirror array. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 612 Science and Practice of Nanotechnology

Units: 3 Terms Offered: Fa In-depth discussions of important topics in nanotechnology, including both the implementation and the underlying theory. *Prerequisite:* EE 330 or EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 619 Advanced Topics in Automatic Speech Recognition

Units: 3 Terms Offered: FaSpSm Advanced topics in automatic speech recognition, speaker recognition, spoken dialogue, conversational multimedia interfaces. *Recommended Preparation:* EE 519 and CSCI 544 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 620 Advanced Topics in Applied Stochastic Models

Units: 3 Terms Offered: FaSp (Enroll in ISE 620)

EE 632 Integrated Communication Systems

Units: 4 Analysis and design of integrated communication circuits at transistor and system levels. Communication concepts, transceiver architectures, low-noise amplifiers, mixers, oscillators, phase-locked loops, power amplifiers. *Prerequisite:* EE 479 Instruction Mode: Lecture Grading Option: Letter

EE 635 Advanced Wireless Communications

Units: 3 Fundamentals of advanced wireless systems, including multi-antenna, cognitive, and cooperative systems as well as exploration of current standards in wireless networks in use today. *Prerequisite:* EE 535; *Recommended Preparation:* basic programming course. Instruction Mode: Lecture Grading Option: Letter

EE 637L Current and Future Computing Devices and Technology

Units: 4 State-of-the-art computing devices; current trends in device technologies; future directions. *Prerequisite:* EE 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 638 Applications of Machine Learning for Medical Data

Units: 4 Application of machine learning models and algorithms to medical applications, learning from data and classification of disorders. Overview of health data, collection with sensors, body area networks, brain image data and other publicly available medical applications data. *Prerequisite:* EE 660 or CSCI 561 or INF 552 Instruction Mode: Lecture Grading Option: Letter

EE 642 Advanced Geometrical Optics

Units: 3 First order design of optical systems; origin of aberrations and their effects on wave propagation and imaging based on geometrical and physical optics. *Prerequisite:* EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 645 Uncertainty Modeling and Stochastic Optimization

Units: 3 (Enroll in CE 645)

EE 648 Network Economics and Games

Units: 3 Economics of networks; game theory, mechanism design and auctions in networks; spectrum sharing mechanisms in communications; pricing of differentiated services; network security. *Prerequisite:* EE 450 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 649 Stochastic Network Optimization

Units: 3 Terms Offered: FaSpSm Optimization of wireless and ad-hoc mobile networks; opportunistic scheduling, flow control; back-pressure routing; queue stability; energy-delay and utility-delay trade-offs. *Prerequisite:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 650 Advanced Topics in Computer Networks

Units: 3 Terms Offered: Irregular Protocol modeling; flow and congestion control, dynamic routing, distributed implementation; broadcast communication media and multiple access protocols; local networks, satellite networks, terrestrial radio networks. *Prerequisite:* EE 450 and EE 503; *Recommended Preparation:* EE 550 or CSCI 551. Instruction Mode: Lecture Grading Option: Letter

EE 652 Low-Power Wireless Networks

Units: 3 Terms Offered: Fa Implementation of low-power wireless protocols for medium access, scheduling, multi-hop routing, congestion control, localization, synchronization, IP stack for the Internet of Things. Wireless sensor network applications. *Prerequisite:* EE 450; *Recommended Preparation:* CSCI 402, strong programming skills, and experience with Linux. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-652

EE 653 Advanced Topics in Microarchitecture

Units: 3 Current research topics related to microprocessor architecture. Dynamically/statically scheduled processors, multithreading, chip multiprocessors, systems on a chip. Power, performance, complexity, dependability issues. Impact of technology. *Prerequisite:* EE 557. Instruction Mode: Lecture Grading Option: Letter

EE 657 Parallel and Distributed Computing

Units: 3 Terms Offered: FaSpSm Scalable multiprocessor systems and clusters, virtual machine, service oriented architecture, network-based computing, peer-to-peer, grid and cloud based storage and computing, case studies. *Prerequisite:* EE 557; *Recommended Preparation:* EE 450. Instruction Mode: Lecture Grading Option: Letter

EE 658 Diagnosis and Design of Reliable Digital Systems

Units: 3 Terms Offered: Fa Fault models; test generation; fault simulation; self-checking and self-testing circuits; design for testability; fault tolerant design techniques; case studies. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-658

EE 659 Interconnection Networks

Units: 3 Terms Offered: Sp Theory, design and analysis of interconnection networks for multiprocessor systems. Study of direct and indirect topologies, deadlock-free routing, flow control, network interfaces, optical interconnects. *Prerequisite:* EE 557. Instruction Mode: Lecture Grading Option: Letter

EE 660 Machine Learning from Signals: Foundations and Methods

Units: 3 Terms Offered: Fa Supervised, semisupervised, and unsupervised machine learning; classification and regression. Model complexity, assessment, and selection; performance (error) on unseen data. *Prerequisite:* EE 503 and EE 559 and (EE

441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 664 Advanced Topics in Communication Theory

Units: 3 Modern communication theory for heterogeneous networks. Novel methods for communication network analysis and design. New theoretical tools: e.g. interference alignment, polar codes, and sparse approximation. *Prerequisite:* EE 564 *Recommended Preparation:* EE 535 and EE 565a, EE 565b. Instruction Mode: Lecture Grading Option: Letter

EE 665 Advanced Topics in Information Theory

Units: 3 Terms Offered: Fa Multi-terminal and network information theory. Network coding. Coding for special applications such as data storage. Applications of information theory to computational biology and data analytics. *Prerequisite:* EE 565 Instruction Mode: Lecture Grading Option: Letter

EE 669 Multimedia Data Compression

Units: 3 Terms Offered: FaSpSm Lossless compression, audio/speech coding, vector quantization, fractal compression, JPEG and JPEG-2000, video compression techniques and MPEG standards, video transmission over wired and wireless networks. *Recommended Preparation:* EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 674a Advanced Topics in Computer Vision

Units: 3 Terms Offered: Irregular (Enroll in CSCI 674a, CSCI 674b)

EE 674b Advanced Topics in Computer Vision

Units: 3 Terms Offered: Irregular (Enroll in CSCI 674a, CSCI 674b)

EE 675 Data Analysis and Control Techniques for Neurotechnology Design

Units: 4 Terms Offered: Sp Data analysis, machine learning and control-theoretic mathematical tools used in studying the brain and designing neurotechnologies such as brain-machine interfaces. *Prerequisite:* EE 503 *Recommended Preparation:* EE 441 Instruction Mode: Lecture Grading Option: Letter

EE 676 Advanced Computer Vision

Units: 4 (Enroll in CSCI 677)

EE 677 VLSI Architectures and Algorithms

Units: 3 VLSI models; measures of area, volume and time; mapping algorithms; systolic arrays; area time tradeoffs; applications to signal and image processing problems. *Recommended Preparation:* EE 457 and CSCI 570 Instruction Mode: Lecture Grading Option: Letter

EE 680 Computer-Aided Design of Digital Systems I

Units: 3 Terms Offered: Sp Synthesis; partitioning; placement; routing of digital circuits; integrated circuit design methods; simulation at the switch, gate, register transfer and system levels. *Prerequisite:* EE 581; *Recommended Preparation:* EE 577a. Instruction Mode: Lecture Grading Option: Letter

EE 681 Computer-Aided Design of Digital Systems II

Units: 3 Theory and techniques for design and analysis of digital logic; specification, formal models; hardware-descriptive languages; formal verification, high level synthesis; logic synthesis. Instruction Mode: Lecture Grading Option: Letter

EE 682 Law and Intellectual Property for Engineers

Units: 3 Terms Offered: Sp Detailed introduction to the modern American legal system with a special focus on intellectual-property doctrines. *Recommended Preparation:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 690 Directed Research

Units: 1, 2, 3, 4 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Electrical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Endodontics**ENDO 501 Clinical Endodontics**

Units: 1 Diagnosis and treatment procedures for basic clinical endodontics, including management of endodontic emergencies; relationship of endodontics to the various dental disciplines. Instruction Mode: Lecture Grading Option: Letter

ENDO 502 Advanced Endodontics

Units: 1 Theoretical principles for the treatment of advanced endodontic cases; alternative methods of endodontic therapy; introduction to interspecialty cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 521 Preclinical Endodontics

Units: 3 Theoretical principles of endodontic therapy related to pulpal and periapical disease; training in procedures of localizing, preparing, and filling the root canal of human teeth. Instruction Mode: Lecture Grading Option: Letter

ENDO 562a Clinic: Concentrated Early Endodontics

Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562b Clinic: Concentrated Early Endodontics

Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562c Clinic: Concentrated Early Endodontics

Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562d Clinic: Concentrated Early Endodontics

Units: 1 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: Letter

ENDO 563a Clinic: Endodontic Therapy

Units: 0, 1, 2 Clinical experience emphasizing diagnosis, treatment planning, and endodontic patient management. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 563b Clinic: Endodontic Therapy

Units: 0, 1, 2 Clinical experience emphasizing diagnosis, treatment planning, and endodontic patient management. Instruction Mode: Lecture Grading Option: Letter

ENDO 610 Clinical Advanced Endodontics

Units: 2 In-depth discussion of endodontic surgery, retreatment, and hemisection cases; includes clinical experience in advanced endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 701a Seminar: Biological Basis of Endodontic Therapy

Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701b Seminar: Biological Basis of Endodontic Therapy

Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701c Seminar: Biological Basis of Endodontic Therapy

Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701d Seminar: Biological Basis of Endodontic Therapy

Units: 1 Investigation of the theoretical

and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 702 Seminar: Advanced Clinical Endodontics

Units: 2 Course designed to train students in the management of simple and complex endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 703a Seminar: Review of Endodontic Literature

Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703b Seminar: Review of Endodontic Literature

Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703c Seminar: Review of Endodontic Literature

Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703d Seminar: Review of Endodontic Literature

Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 704a Seminar: Surgical Endodontics

Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 704b Seminar: Surgical Endodontics

Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 705a Seminar: Endodontic Case Presentation

Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 705b Seminar: Endodontic Case Presentation

Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 710 Seminar: Endodontic Practice Management

Units: 2 Organizing, staffing, and evaluation of an endodontic practice. Modes and patterns of management including use of auxiliaries. Emphasis on endodontist-general practitioner relationship; legal aspects of dental practice. Instruction Mode: Lecture Grading Option: Letter

ENDO 711 Alternatives in Endodontics

Units: 4 Alternative endodontic techniques presented by guest clinicians. Emphasis on endodontics and its relationship with periodontal, restorative, and surgical

disciplines. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761a Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761b Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761c Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761d Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761e Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 761f Clinic: Advanced Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture
Grading Option: Letter

ENDO 790 Directed Research: Endodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Principles of planning, organizing, and executing a clinical or educational research project. Instruction Mode: Lecture
Grading Option: Credit/No Credit

Environmental Engineering

ENE 200 Environmental Engineering Principles

Units: 4 Terms Offered: FaSpSm Analysis of water, air and land pollution, including hazardous waste; engineering of mitigation measures; water and wastewater treatment systems. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg) and (MATH 126g or MATH 129) and (PHYS 151Lg or PHYS 161Lg) *Recommended Preparation:* CE 110 *Corequisite:* CHEM 105bL or CHEM 115bL Instruction Mode: Lecture
Grading Option: Letter

ENE 201 Introduction to Applied Environmental Science and Engineering

Units: 4 Gateway to BS in Civil Engineering (Environmental Engineering), BS, Environmental Engineering, and Minor in Environmental Engineering. Fundamental concepts of environmental science and engineering. Pollution control and

remediation for air, water and soil. Pollution remediation for developing countries.

Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ENST-201

ENE 215 Energy Systems and Environmental Tradeoffs

Units: 4 Terms Offered: Fa Energy fundamentals; critical issues facing energy extraction, cultivation, transformation, transportation, consumption and disposal; environmental impacts. *Prerequisite:* PHYS 151Lg Instruction Mode: Lecture
Grading Option: Letter

ENE 300 Contaminant Transport in the Environment

Units: 4 Terms Offered: Fa Fundamentals of the physical mechanisms controlling solute transport in environmental flows. *Prerequisite:* MATH 245 and (PHYS 151Lg or PHYS 161Lg) and (CE 309 or ENE 410) *Recommended Preparation:* Knowledge of environmental engineering principles on the level of ENE 200 Instruction Mode: Lecture
Grading Option: Letter

ENE 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture
Grading Option: Letter

ENE 400 Quantitative Sustainability

Units: 4 Terms Offered: Fa Concepts of quantitative sustainable design and engineering decision-making; economic and environmental sustainability assessments linked to design decisions under uncertainty; design of engineered technologies. *Prerequisite:* ENE 215 Instruction Mode: Lecture
Grading Option: Letter

ENE 410 Environmental Fluid Mechanics

Units: 3 Equation of motion; continuity, momentum, energy principles; dimensional analysis, similitudes; groundwater flows; transports in conduits and channels; mixing, dispersion in environments; manifold diffusers; hydraulic transients. *Prerequisite:* MATH 226g or MATH 229 Duplicates Credit in CE 309 and AME 309 Instruction Mode: Lecture
Grading Option: Letter

ENE 426 Particulate Air Pollutants: Properties/Behavior/Measurement

Units: 3 Particulate air pollutants, their measurement and instrumentation methods, and their effects on the environment and human health; optical properties and visibility degradation. *Prerequisite:* ENE 200 or ENE 400. Duplicates Credit in former ENE 526. Instruction Mode: Lecture,
Discussion
Grading Option: Letter

ENE 428 Air Pollution Fundamentals

Units: 4 Terms Offered: Sp Quantitative overview of air pollution and the physical and chemical processes that describe its behavior. *Prerequisite:* MATH 245 and PHYS 151Lg and (CHEM 105bL or CHEM 115bL) *Recommended Preparation:* Environmental engineering principles on the level of ENE 200 Instruction Mode: Lecture,
Discussion
Grading Option: Letter

ENE 429 Air Pollution Control

Units: 3 Terms Offered: Sp Emission

surveys; engineering controls of aerosols and gaseous contaminants at emission sources, disposition of contaminants. Field trips.

Prerequisite: ENE 428; CE 309 or ENE 410. Instruction Mode: Lecture
Grading Option: Letter

ENE 443 Environmental Chemistry

Units: 3 (Enroll in CE 443)

ENE 453 Water Quality Control

Units: 3 (Enroll in CE 453)

ENE 463L Water Chemistry and Analysis

Units: 3 (Enroll in CE 463)

ENE 465 Water Supply and Sewerage System Design

Units: 4 Terms Offered: Sp (Enroll in CE 465)

ENE 486 Design of Solid and Hazardous Waste Engineering Systems

Units: 3 Terms Offered: Fa Engineering design of solid and hazardous waste facilities such as waste minimization, secured landfill, and hazardous waste treatment. *Prerequisite:* ENE 200 Instruction Mode: Lecture
Grading Option: Letter

ENE 495 Seminars in Environmental Engineering

Units: 1 Terms Offered: FaSp Hazardous waste management, biodegradation of environmental pollutants, groundwater problems, waste minimization, energy resources, and air pollution control. Instruction Mode: Lecture
Grading Option: Letter

ENE 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Course content to be selected each semester from recent developments in environmental engineering and related fields. Instruction Mode: Lecture
Grading Option: Letter

ENE 502 Environmental and Regulatory Compliance

Units: 3 Federal and state environmental laws; environmental impact assessment techniques; permitting for industrial facility construction and operation. *Prerequisite:* graduate standing. Instruction Mode: Lecture
Grading Option: Letter

ENE 503 Microbiology for Environmental Engineers

Units: 3 (Enroll in CE 503)

ENE 504 Solid Waste Management

Units: 3 (Enroll in CE 504)

ENE 505 Energy and the Environment

Units: 4 Terms Offered: FaSp The environmental impacts of energy extraction, cultivation, transformation, transportation, and consumption. Instruction Mode: Lecture
Grading Option: Letter

ENE 506 Ecology for Environmental Engineers

Units: 3 Terms Offered: Fa The role of environmental engineering in maintaining stability of freshwater, marine, and terrestrial ecosystems; macroscopic plant and animal forms as indicators of water quality. Instruction Mode: Lecture
Grading Option: Letter

ENE 510 Water Quality Management and Practice

Units: 3 Terms Offered: Fa Surface and ground water quality and resources management; water pollution in aquatic environment; water/wastewater infrastructure systems and management. Instruction Mode: Lecture Grading Option: Letter

ENE 512 Environmental Fluid Mechanics

Units: 3 Terms Offered: FaSp Environmental fluid mechanics (air and surface/ground water); flow kinematics; viscous/inviscid flow; boundary layer theory; steady/unsteady groundwater flows; turbulence; Reynolds equations; contaminant transport *Recommended Preparation:* undergraduate fluid mechanics (e.g., CE-309 or ENE-410 or AME-309) Instruction Mode: Lecture Grading Option: Letter

ENE 514a Advanced Sanitary Engineering Design

Units: 3 (Enroll in CE 514a, CE 514b)

ENE 514b Advanced Sanitary Engineering Design

Units: 3 (Enroll in CE 514a, CE 514b)

ENE 516 Hazardous Waste Management

Units: 3 Standards and regulations for the management of hazardous waste: identification, transportation, monitoring, storage, treatment, and disposal practices. Instruction Mode: Lecture Grading Option: Letter

ENE 517 Industrial and Hazardous Waste Treatment and Disposal

Units: 3 (Enroll in CE 517)

ENE 518 Environmental Systems Engineering and Management

Units: 3 Evaluating, implementing and managing effective environmental systems to prevent pollution, conserve energy and resources, reduce risks and achieve sustainability in business and industries. Instruction Mode: Lecture Grading Option: Letter

ENE 523 Physiochemical Processes in Environmental Engineering

Units: 4 Terms Offered: Fa (Enroll in CE 523)

ENE 527 Climate Change and Atmospheric Aerosols

Units: 4 Terms Offered: Fa Climate change; climate science fundamentals; Earth's energy balance and atmosphere; greenhouse gas dynamics; fundamentals of airborne particles; climate-aerosol interactions; particle-radiation and particle-cloud interactions. *Recommended Preparation:* ENE 428 Registration Restriction: Open only to seniors and graduate students Instruction Mode: Lecture Grading Option: Letter, Discussion Crosslisted as CE 527

ENE 535 Air Pollution Management: Exposure, Health Effects and Risk

Units: 3 Terms Offered: Sp Pollutant sampling; occupational, community, and personal exposures; receptor modeling; data analysis; health effects of air pollutants. Instruction Mode: Lecture, Discussion Grading Option: Letter

ENE 553 Biological Processes in Environmental Engineering

Units: 3 (Enroll in CE 553)

ENE 560 Environmental Aspects of Oil and Gas Production

Units: 3 Environmental aspects of drilling for and producing oil and gas, and the necessary safety practices. Attention is given to the urban areas. Instruction Mode: Lecture Grading Option: Letter

ENE 562 Aquatic Chemistry

Units: 3 Terms Offered: FaSp Quantitative prediction of chemical speciation in aquatic systems, including acid-base chemistry, precipitation/dissolution, complexation, and oxidation/reduction. Applications to water treatment. *Prerequisite:* CE 453 *Recommended Preparation:* CHEM 105aLg or CHEM 115aLg and CHEM 105bL or CHEM 115bL; MATH 245 and PHYS 151Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 562

ENE 563 Chemistry and Biology of Natural Waters

Units: 3 (Enroll in CE 563)

ENE 580 Applied Environmental Engineering Biotechnology

Units: 3 Fundamentals of bioremediation processes; bioremediation technologies for decontamination of air, water, and soil; global applications of bioremediation techniques. Instruction Mode: Lecture Grading Option: Letter

ENE 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 596 Chemical Reactions in the Atmosphere

Units: 3 Terms Offered: Fa Chemical reactions and scavenging processes important in urban air pollution. Effects of solar irradiation on vehicle exhaust gases, oxides of nitrogen and sulfur. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-596

ENE 599 Special Topics

Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp Course content will be selected each semester to reflect current trends and developments in the field of environmental engineering. Instruction Mode: Lecture Grading Option: Letter

ENE 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

English**ENGL 105x Creative Writing for Non-Majors**

Units: 4 Max Units: 8.0 Terms Offered: FaSp Introductory workshop in writing poetry, short fiction and nonfiction for love of the written and spoken word. Instruction Mode: Lecture Grading Option: Letter

ENGL 170g The Monster and the Detective

Units: 4 Terms Offered: FaSp Cultural images of disorder and chaos, and of the search for order and reason, from the eighteenth century to the present. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 172g The Art of Poetry

Units: 4 Introduction to the pleasures and power of poetry, exploring elements drawn from high-points of English poetry, and the lives and works of major poets. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 174g Reading the Heart: Emotional Intelligence and the Humanities

Units: 4 A study of emotional intelligence through literature, history and the arts with a focus on anger, happiness, love and empathy. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 176g Los Angeles: the City, the Novel, the Movie

Units: 4 An exploration of the culture, vibrancy, heritage, mythology, variety, and pathology of a city that was born in hopes and captured the world's imagination. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General

Education in Category V: Arts and Letters
Instruction Mode: Lecture, Discussion
Grading Option: Letter

ENGL 230g Shakespeare and His Times

Units: 4 Close study of Shakespeare's plays and poems to introduce his language, stagecraft, literary "genius," social and literary contexts, precursors and rivals, and legacy. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 250gm The African Diaspora

Units: 4 Terms Offered: FaSp (Enroll in AMST 250)

ENGL 261g English Literature to 1800

Units: 4 Terms Offered: FaSpSm Intensive reading of major writers to 1800. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 262g English Literature since 1800

Units: 4 Terms Offered: FaSpSm Intensive reading of major writers, 1800–1950. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 263g American Literature

Units: 4 Terms Offered: FaSpSm Intensive reading of representative writers. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 270g Studying Narrative

Units: 4 Terms Offered: FaSpSm Introduction to major forms, styles and theories of narrative, with attention to characterization, plot, genres, ethics, empathy, perspective, audience and social conditions. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 280g Introduction to Narrative Medicine

Units: 4 Study of literary modes of narrative and their uses in medical understanding, character formation, social identity, and relations between mind and body. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 285m African American Popular Culture

Units: 4 Terms Offered: Sp (Enroll in AMST 285)

ENGL 290 Cultural Studies: Theories and Methods

Units: 4 Terms Offered: FaSpSm Introduction to the theories, methods, and history of cultural studies, with coverage of contemporary debates over censorship and the politics of authorship, seriality and originality. Instruction Mode: Lecture Grading Option: Letter

ENGL 297g Introduction to the Genre of Nonfiction

Units: 4 Terms Offered: FaSpSm Study of forms of nonfiction writing, focusing on

craft and process: how it works and how to read, write and write about it. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 298g Introduction to the Genre of Fiction

Units: 4 Terms Offered: FaSpSm An introduction to the close reading of fiction and the understanding of the genre as an aesthetic and historical phenomenon. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 299g Introduction to the Genre of Poetry

Units: 4 Terms Offered: FaSp Historical survey of the traditions of lyric poetry from Shakespeare to the contemporary, examining the genre's multiple forms of literary, visual, and aural expression. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 300 Advanced Expository Writing

Units: 2, 3, 4 Intensive practice intended to develop a high level of competence in writing expository prose. Duplicates Credit in former ENGL 400 Instruction Mode: Lecture Grading Option: Letter

ENGL 301 The Rhetoric of Written Composition

Units: 4 Theories of rhetoric as they apply to written composition, with emphasis upon pedagogical applications. The course is designed for but not limited to prospective teachers of English. Duplicates Credit in former ENGL 401 Instruction Mode: Lecture Grading Option: Letter

ENGL 302 Writing Narrative

Units: 4 Terms Offered: FaSpSm Introduction to the techniques and practice of writing narrative in fiction and literary non-fiction. Instruction Mode: Lecture Grading Option: Letter

ENGL 303 Introduction to Fiction Writing

Units: 4 Terms Offered: FaSp Introduction to the techniques and practice of writing prose fiction. Instruction Mode: Lecture Grading Option: Letter

ENGL 304 Introduction to Poetry Writing

Units: 4 Terms Offered: FaSp Introduction to the techniques and practice of writing poetry. Instruction Mode: Lecture Grading Option: Letter

ENGL 305 Introduction to Nonfiction Writing

Units: 4 Terms Offered: FaSp Introduction to the techniques and practice of lyric essay, memoir, personal narrative, and scientific, medical, nature, culinary and travel writing. Instruction Mode: Lecture Grading Option: Letter

ENGL 309 The English Language

Units: 4 Instruction in the major grammatical systems of the English language, with particular emphasis on their relevance to language activities in the elementary classroom. Duplicates Credit in former

ENGL 409 Instruction Mode: Lecture
Grading Option: Letter

ENGL 310 Editing for Writers

Units: 4 Practical course in relations between editing and the creative process in fiction, poetry, and exposition. Instruction Mode: Lecture Grading Option: Letter

ENGL 311 History and Grammar of Modern English

Units: 4 Terms Offered: FaSp History and grammar of modern English as described by current linguistics; comparison with traditional grammar; application of grammar to stylistic analysis. Duplicates Credit in former ENGL 410 Instruction Mode: Lecture Grading Option: Letter

ENGL 312 Analysis of Written Persuasion

Units: 4 Terms Offered: FaSp Persuasive discourse, including structure, intention, and figurative language; analysis of texts in various humanistic, scientific, and socio-scientific disciplines. Duplicates Credit in former ENGL 412 Instruction Mode: Lecture Grading Option: Letter

ENGL 341 Women in English Literature before 1800

Units: 4 English poetry, plays, novels and discursive prose by and about women from 1375 to 1800. Duplicates Credit in former ENGL 469 Instruction Mode: Lecture Grading Option: Letter

ENGL 342g Women in English and American Literature after 1800

Units: 4 Women as writers and as subjects, with special emphasis on feminist and liberationist traditions and on changing female images after 1800. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 470 Instruction Mode: Lecture Grading Option: Letter

ENGL 343m Images of Women in Contemporary Culture

Units: 4 Terms Offered: FaSp Representations of women and gender relations in contemporary literature and mass culture, using the tools of feminist, literary, and political theory. Duplicates Credit in former ENGL 476 Instruction Mode: Lecture Grading Option: Letter

ENGL 344gm Sexual/Textual Diversity

Units: 4 Terms Offered: FaSp Questions of gay and lesbian identity, expression and experience in a variety of literary and cultural forms; emphasis on sexual politics, equality and difference. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 478 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 344

ENGL 350g Literature of California

Units: 4 Novels, stories, essays, poems, and plays written in and about California from the Gold Rush to the present. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 351 Periods and Genres in American Literature

Units: 4 Max Units: 08 Terms Offered: FaSp A concentrated reading and criticism

of the works of one period or one genre of American literature; for example, colonial literature, the American Renaissance, American poetry, American drama. Duplicates Credit in former ENGL 451 Instruction Mode: Lecture Grading Option: Letter

ENGL 352g Bookpacking

Units: 4 Max Units: 08 Terms Offered: SpSm Literary travel using novels to explore regional culture and unify the study of literature, history, geography, politics and social studies. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 355g Anglo-American Law and Literature

Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Examination of legal problems and concepts in English and American literature. *Recommended Preparation:* CORE 102 or ARLT 100; WRIT 150. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 360 Modern Poetry

Units: 4 Study of poetry written in English from 1900 to 1945, with special emphasis on American modernists of the first two decades. *Recommended Preparation:* ENGL 262g, ENGL 263g Duplicates Credit in former ENGL 452 Instruction Mode: Lecture Grading Option: Letter

ENGL 361g Contemporary Prose

Units: 4 Study of prose written in English since 1945, principally fiction of the past two decades. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 455 Instruction Mode: Lecture Grading Option: Letter

ENGL 362 Contemporary Poetry

Units: 4 Study of poetry written in English since 1945, with special emphasis on the last two decades. Duplicates Credit in former ENGL 456 Instruction Mode: Lecture Grading Option: Letter

ENGL 363 Contemporary Drama

Units: 4 Selected British, Irish, and American drama from the post World War II period (1945 to the present). Duplicates Credit in former ENGL 463 Instruction Mode: Lecture Grading Option: Letter

ENGL 363g Contemporary Drama

Units: 4 Selected British, Irish, and American drama from the post World War II period (1945 to the present). Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 463 Instruction Mode: Lecture Grading Option: Letter

ENGL 364 The Modern Novel

Units: 4 Terms Offered: FaSp Studies of the narrative experiments and innovations in fiction following the realist novel; emphasis on gender, empire and class and the pluralities of "modernisms." Duplicates Credit in former ENGL 467 Instruction Mode: Lecture Grading Option: Letter

ENGL 371g Literary Genres and Film

Units: 4 Terms Offered: FaSpSm Literary

studies in the relationship between fiction and drama and their adaptation as films. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 471 Instruction Mode: Lecture Grading Option: Letter

ENGL 372 Literature and Related Arts

Units: 4 Terms Offered: FaSp An examination of how literature and related arts intersect in a particular cultural milieu. Selected topics. Duplicates Credit in former ENGL 472 Instruction Mode: Lecture Grading Option: Letter

ENGL 373g Literature and Society

Units: 4 Terms Offered: FaSp Theoretical and applied studies of literature in English as social activity and cultural production; its expression of, and influence upon, social values, concepts, and behavior. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 473 Instruction Mode: Lecture Grading Option: Letter

ENGL 374m Literature, Nationality and Otherness

Units: 4 Terms Offered: FaSp English literature written about or in the British colonies and their post-colonial nations, including African, Asian, Pacific, and American countries. Emphasis on texts by other than British and United States authors. Completion of general education literature requirement highly recommended. Duplicates Credit in former ENGL 474 Instruction Mode: Lecture Grading Option: Letter

ENGL 375 Science Fiction

Units: 4 Terms Offered: FaSp Investigation of the scope and possibilities of British and American science fiction as a genre, with some attention to its historical development. Instruction Mode: Lecture Grading Option: Letter

ENGL 376g Comics and Graphic Novels

Units: 4 Terms Offered: FaSpSm Introduction to issues in visual and popular culture, focused on critical and historical interpretation of words and images in comic books and graphic novels. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 379 History of Literary Criticism

Units: 4 Terms Offered: FaSp Philosophies of literary criticism from Plato to the end of the 19th century; the relationship between literary criticism and its contemporary literature. Duplicates Credit in former ENGL 479 Instruction Mode: Lecture Grading Option: Letter

ENGL 380 Modern Literary Criticism: Theory and Practice

Units: 4 Terms Offered: FaSp Analysis of philosophies and methods of modern schools of criticism; writing critical essays. Duplicates Credit in former ENGL 480 Instruction Mode: Lecture Grading Option: Letter

ENGL 381 Narrative Forms in Literature and Film

Units: 4 Terms Offered: FaSp Critical

approaches to narrative form in literature and film; readings and films from several genres and periods, emphasis on gender, ethnic, and cultural studies. Duplicates Credit in former ENGL 481 Instruction Mode: Lecture Grading Option: Letter

ENGL 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENGL 392 Visual and Popular Culture

Units: 4 Terms Offered: FaSp Course in the theory and practices of "popular culture," highlighting modern and contemporary culture, film, video and popular music, as well as narrative forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 395 Junior Honors Seminar

Units: 4 Terms Offered: Sp Selected subjects; offered in spring only and restricted to honors students. Instruction Mode: Lecture Grading Option: Letter

ENGL 402 Narrative Composition

Units: 4 Max Units: 08 Intermediate practical workshop concentrating on the creation of narrative in fiction and literary nonfiction. *Prerequisite:* ENGL 302 or ENGL 305 *Recommended Preparation:* ENGL 261g, ENGL 262g, ENGL 263g Instruction Mode: Lecture Grading Option: Letter

ENGL 404 The Writer in the Community

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Apprenticeship with experienced writer-teachers, providing students with a pedagogical framework and practical experience for teaching creative writing in schools and community settings. Instruction Mode: Lecture Grading Option: Letter

ENGL 405 Fiction Writing

Units: 4 Max Units: 8.0 Terms Offered: FaSp A practical course in composition of prose fiction. *Prerequisite:* ENGL 303 or ENGL 305. Instruction Mode: Lecture Grading Option: Letter

ENGL 406 Poetry Writing

Units: 4 Max Units: 8.0 Terms Offered: FaSp A practical course in poetry writing. *Prerequisite:* ENGL 304. Instruction Mode: Lecture Grading Option: Letter

ENGL 407 Advanced Fiction Writing

Units: 4 Max Units: 8.0 Terms Offered: FaSp *Prerequisite:* ENGL 405. Instruction Mode: Lecture Grading Option: Letter

ENGL 408 Advanced Poetry Writing

Units: 4 Max Units: 8.0 Terms Offered: FaSp *Prerequisite:* ENGL 406. Instruction Mode: Lecture Grading Option: Letter

ENGL 420 English Literature of the Middle Ages (1100–1500)

Units: 4 Terms Offered: FaSp Selected studies in major figures, genres, and themes of Middle English literature to Malory, with special emphasis on Chaucer. *Prerequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 421 English Literature of the 16th Century

Units: 4 Selected studies in the non-

dramatic literature of Renaissance England, with emphasis on Sidney, Spenser, and Shakespeare. *Prerequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 422 English Literature of the 17th Century

Units: 4 Selected studies of prose and poetry in the age of Bacon, Donne, Jonson, Herbert, Browne, Marvell, and Milton. *Prerequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 423 English Literature of the 18th Century (1660–1780)

Units: 4 Selected studies in poetry, prose, and fiction of such writers as Defoe, Dryden, Fielding, Richardson, Pope, Swift, and Johnson. *Prerequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 424 English Literature of the Romantic Age (1780–1832)

Units: 4 Selected studies in major writers, including Blake, Austen, Wordsworth, Coleridge, Byron, Mary Shelley, P.B. Shelley, and Keats. *Prerequisite:* ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 425 English Literature of the Victorian Age (1832–1890)

Units: 4 Selected studies in the prose and poetry of such figures as Tennyson, Dickens, the Brontës, the Brownings, Hopkins, Arnold, Ruskin, and Newman. *Prerequisite:* ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 426 Modern English Literature (1890–1945)

Units: 4 Studies in English literary modernism, including the prose of Conrad, Joyce, and Woolf and the poetry of Pound, Eliot, Yeats, and Auden. *Prerequisite:* ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 430 Shakespeare

Units: 4 Terms Offered: FaSp Major history plays, comedies, and tragedies. Instruction Mode: Lecture Grading Option: Letter

ENGL 440 American Literature to 1865

Units: 4 Terms Offered: FaSp American poetry and prose to the Civil War with special attention to Irving, Cooper, Poe, Hawthorne, Emerson, Thoreau, Melville, and Whitman. *Corequisite:* ENGL 263. Instruction Mode: Lecture Grading Option: Letter

ENGL 441 American Literature, 1865 to 1920

Units: 4 Terms Offered: FaSp American poetry and prose with special attention to Twain, James, Dickinson, Henry Adams, Crane, and Dreiser. *Corequisite:* ENGL 263. Instruction Mode: Lecture Grading Option: Letter

ENGL 442 American Literature, 1920 to the Present

Units: 4 Terms Offered: FaSp American poetry, fiction, and drama since World War I with special attention to Eliot, Frost, Hemingway, Fitzgerald, O'Neill, Stevens, Faulkner, and Nabokov. *Corequisite:* ENGL

263. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-442

ENGL 444m Native American Literature

Units: 4 Terms Offered: FaSp Survey of Native American literature, including oral traditions and print genres, such as short story, poetry, novel, and autobiography, from 1700 to the present. *Recommended Preparation:* ENGL 263. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-444

ENGL 445m The Literatures of America: Cross-Cultural Perspectives

Units: 4 Introduction to African- American, Chicano, Asian American, and Native- American literatures — and to the literary diversity of American cultures. Instruction Mode: Lecture Grading Option: Letter

ENGL 446 African-American Poetry and Drama

Units: 4 Survey of black poetry and plays in America from the Emancipation to the present, with special emphasis on the new poets and dramatists of the current "Black revolution." Instruction Mode: Lecture Grading Option: Letter

ENGL 447m African-American Narrative

Units: 4 Development of the novel in African-American literature beginning with the anti-slavery fiction of William W. Brown and his pre-Emancipation contemporaries and concluding with the emerging novelists of the late sixties. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-447

ENGL 448m Chicano and Latino Literature

Units: 4 Terms Offered: FaSp (Enroll in AMST 448)

ENGL 449m Asian American Literature

Units: 4 Terms Offered: FaSp (Enroll in AMST 449)

ENGL 454 Aesthetic Philosophy and Theory

Units: 4 (Enroll in COLT 454)

ENGL 461 English Drama to 1800

Units: 4 Terms Offered: FaSp Representative plays, especially those of the Elizabethan, Jacobean, and Restoration periods. *Corequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 462 British and American Drama 1800–1950

Units: 4 Terms Offered: FaSp Representative plays of England, Ireland, and the United States, especially those written after 1890. *Corequisite:* ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 465 The English Novel to 1800

Units: 4 Theory and practice of fiction in works of writers such as Defoe, Richardson, Fielding, Sterne, Burney, and Smollett. *Corequisite:* ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 466 The 19th Century English Novel

Units: 4 Theory and practice of fiction in works of major writers such as Austen, Dickens, Thackeray, George Eliot, Meredith, and Hardy. *Corequisite:* ENGL 262.

Instruction Mode: Lecture Grading Option: Letter

ENGL 475 Politics and the Novel

Units: 4 (Enroll in COLT 475) Instruction Mode: Lecture Grading Option: Letter

ENGL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ENGL 491 Senior Seminar in Literary Studies

Units: 4 Terms Offered: FaSpSm Selected problems in literary history and criticism. Instruction Mode: Lecture Grading Option: Letter

ENGL 492 Narrative Studies Capstone Seminar

Units: 4 Individual research, reading, writing and project development as a senior capstone experience in the study of narrative. Registration Restriction: Open only to seniors in Narrative Studies Instruction Mode: Lecture Grading Option: Letter

ENGL 495 Senior Honors Seminar

Units: 4 Terms Offered: Fa Advanced seminar involving extensive reading, research, and discussions. Selected subjects; offered in Fall only and restricted to Honors students. Instruction Mode: Lecture Grading Option: Letter

ENGL 496 Senior Honors Thesis

Units: 4 Terms Offered: Sp Seminar in workshop form to accompany completion of Senior Honors Thesis. Bi-weekly meetings to complete thesis according to contract. *Prerequisite:* ENGL 491. Instruction Mode: Lecture Grading Option: Letter

ENGL 497 Senior Seminar in Early Modern Studies

Units: 4 Terms Offered: Sp Intensive engagement with current research, problems, and methodologies in Early Modern discourses and cultures. Required capstone seminar for interdepartmental minor in early modern studies. Open only to seniors; open only to early modern studies minors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-497, AHIS-497

ENGL 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Studies in the works of one or more authors, or in the development of a theme or genre. Instruction Mode: Lecture Grading Option: Letter

ENGL 501 History of Literary and Cultural Theory

Units: 4 The assumptions and practices of major theorists and theoretical schools from Plato to literary modernism. Instruction Mode: Lecture Grading Option: Letter

ENGL 502 Contemporary Literary and Cultural Theory

Units: 4 The assumptions and practices of major post-modern theorists and theoretical schools. Instruction Mode: Lecture Grading Option: Letter

ENGL 503 Theories of History, Ideology and Politics

Units: 4 The principal ways in which history,

ideology, and politics have informed the study of literary and cultural discourse. Instruction Mode: Lecture Grading Option: Letter

ENGL 504 Theories of Race, Class, and Gender

Units: 4 The principal methods and assumptions by which race, class, and gender have been studied in reference to literary and cultural discourse. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-504

ENGL 507 Rhetoric and Language

Units: 4 Examination of critical and linguistic theories; may include the changing structures of English discourse, cognitive poetics, and discourse analysis. Instruction Mode: Lecture Grading Option: Letter

ENGL 508 History, Theories and Practice of Cultural Studies

Units: 4 Max Units: 12.0 Terms Offered: FaSp Looking at specific case histories, this course introduces students to the basic methods, theories and activities in cultural studies. Instruction Mode: Lecture Grading Option: Letter

ENGL 510 Medieval English Literatures and Cultures

Units: 4 Max Units: 12.0 Investigations of chivalry and romance, allegory, drama, popular literature in the Middle Ages, the reception of medieval literature, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 520 Renaissance English Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in poetry and patronage, the popular tradition in literature and drama, the social and sexual dynamics of comedy, historical and cultural uses of genres, among other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 530 Restoration and 18th Century British Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in prose, poetry, drama, and culture of the period 1660–1800. Instruction Mode: Lecture Grading Option: Letter

ENGL 535 Literatures and Cultures of the Romantic Period

Units: 4 Max Units: 12.0 Studies in British literature and culture, from the 1790s to 1830s, including gender and genre, authorship and authenticity, "romance" and revolution, forms of belief and doubt, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 536 Literatures and Cultures of the Victorian Period

Units: 4 Max Units: 12.0 Studies in British literature and society, 1837–1901, including gender and genre, industrialism, science and technology, empire and race, new forms of media and narrative, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 540 19th Century British Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in the Romantics and Victorians, gender and genre,

the new woman and the novel, authorship and the marketplace, science, imperialism, the crisis of narrative, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 550 20th Century British Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in literary modernism, critical scrutiny and moral seriousness, poetry and politics, the Irish revival, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 560 Early American Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in the literature of discovery, exploration and conquest, the Puritan migration, literary genres in Colonial America, history and myth of American origins, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 563 Poetry and Prose Into Drama

Units: 4 Terms Offered: Fa (Enroll in THTR 501)

ENGL 570 18th Century American Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in the rhetoric, literature, and language of the pre-revolutionary and revolutionary periods, narrative and polemical writing, the American Enlightenment, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 580 19th Century American Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in canonic and non-canonic literature in the American Renaissance, cultural nationalism, the consequences of race, immigration, expansion, urbanization, science, and the marketplace, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 591 20th Century American Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in rural and urban fictions, modernism, the shift from imagism and symbolism to confessional poetry, recovered writers, hemispheric traditions, literature and kindred arts, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 592 Contemporary British and American Literatures and Cultures

Units: 4 Max Units: 12.0 Studies in contemporary women and ethnic writers, "extra-literary" forms (journalism, autobiography), the theatre of the absurd, post-modern fabulations, and other modes and issues since World War II. Instruction Mode: Lecture Grading Option: Letter

ENGL 593 Practicum in Teaching English and Narrative Studies

Units: 2 Max Units: 08 Terms Offered: FaSpSm Practical principles for development

of effective teaching within the disciplines of English, Creative Writing, and Narrative Studies. Intended for teaching assistants in English. Registration Restriction: Open only to English and Creative Writing majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 595 Literary Studies Across Cultures

Units: 4 Max Units: 12.0 Studies in Empire and Commonwealth literatures, post-colonialism, American hemispheric connections, African-American literary discourse, Asian American writers, dialects and the folk, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Thematic, theoretical, or experimental studies in British and American literatures and cultures. Duplicates Credit in former ENGL 699. Instruction Mode: Lecture Grading Option: Letter

ENGL 600 Publication in Humanities Journals

Units: 4 Max Units: 8 Terms Offered: FaSp Development of academic strategies for preparing articles for publication in scholarly journals. Aspects of publication will include abstracts, introductions, argumentation, style and footnotes. Instruction Mode: Lecture Grading Option: Letter

ENGL 601 Introduction to Literary Editing and Publishing

Units: 4 Terms Offered: Fa Comprehensive introduction to the MA degree and its range of study, focusing on elements of the craft of editing and the literary marketplace. Instruction Mode: Lecture Grading Option: Letter

ENGL 602 Writers in the World: Text and Context

Units: 4 Terms Offered: Sp Editing and publishing within the tradition of literary and cultural influences upon a wide range of authors, readers, and genres. Instruction Mode: Lecture Grading Option: Letter

ENGL 603 The Editorial Experience: The Craft of Publication

Units: 4 Terms Offered: Fa An intensive workshop in applied English, coordinating literary analysis with editing and publication, including relationships with authors; academic and trade presses; journals; editing, and design. Instruction Mode: Lecture Grading Option: Letter

ENGL 604 The Nonfiction Experience: A Literary-Editorial Focus

Units: 4 Max Units: 8 Terms Offered: Fa
Topics on literary and popular forms: profile portrait; science writing; food writing; place and travel; memoir; and personal essay; with venues for publication. Instruction Mode: Lecture Grading Option: Letter

ENGL 605 The History of Rhetoric

Units: 4 Max Units: 12.0 Studies in European and American rhetoric and their contexts. Instruction Mode: Lecture Grading Option: Letter

ENGL 607 Digital Publishing and Literary Writing for New Media

Units: 4 Terms Offered: Sp Discussion of literary texts combined with hands-on digital practice in composition, design, and fabrication for electronic publication, including formal, technical, and philosophical issues. Instruction Mode: Lecture Grading Option: Letter

ENGL 608 Publishing on Both Sides of the Transom

Units: 4 Terms Offered: Sp Editorial and publishing workshop with an intensive hands-on student project following the progress of a single piece of writing from manuscript to print. Instruction Mode: Lecture Grading Option: Letter

ENGL 609a Internship in Editing and Publishing: Eloquence and Ethics

Units: 2 Terms Offered: Fa Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 609b Internship in Editing and Publishing: Eloquence and Ethics

Units: 2 Terms Offered: Sp Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. *Prerequisite:* ENGL 609a Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 610 Theory and Criticism

Units: 4 Max Units: 12.0 Studies in meaning and meaning-making, form, comparative theory, theories of history and culture, theory in the classroom, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 612 History of the Book and Material Bibliography

Units: 4 Max Units: 12 Terms Offered: FaSp Book history and the use of primary source material in literary research. Grading Option: Letter

ENGL 620 Literature and Interdisciplinary Studies

Units: 4 Max Units: 12.0 Issues and theory of studying literature in relation to history, science, politics, psychology, religion, sociology, media, the visual arts, and other disciplines. Instruction Mode: Lecture Grading Option: Letter

ENGL 630 Studies in Gender

Units: 4 Max Units: 12.0 History and ideology of gender studies, feminist theory, gay and lesbian discourse, and other studies in feminisms and masculinities in relation to

literature. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-630

ENGL 640 Individual Writers

Units: 4 Max Units: 12.0 Studies in major and minor, canonic and non-canonic writers. Instruction Mode: Lecture Grading Option: Letter

ENGL 650 Multicultural Literary Studies

Units: 4 Max Units: 12.0 Theories of race and ethnicity, cultural imperialism, discourse of power and class, literatures of the Americas, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 660 Studies in Genre

Units: 4 Max Units: 12.0 History, transformation, and theory of genre; studies in epic, lyric, drama, comedy, tragedy, the novel, biography, essay, and other forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 678 Seminar in Film Theory and Medium Specificity

Units: 4 Max Units: max 8 (Enroll in CTCS 678)

ENGL 679 Seminar in Genre and/or Narrative Theory

Units: 4 Max Units: max 8 (Enroll in CTCS 679)

ENGL 693 Graduate Nonfiction Form and Theory

Units: 4 Max Units: 16 Terms Offered: FaSp Study of conventional and experimental works of creative nonfiction, from memoir to poetry, criticism and scholarship, focusing on issues of form, ethics, style and audience. Registration Restriction: Open only to English and Creative Writing doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 694 Graduate Nonfiction Writing Workshop

Units: 4 Max Units: 16 Terms Offered: FaSp Intensive practicum in advanced level nonfiction writing, intended to develop high level creative compositional ability. Registration Restriction: Open only to doctoral students in English and Creative Writing Instruction Mode: Lecture Grading Option: Letter

ENGL 695 Graduate Fiction Form and Theory

Units: 4 Max Units: max 16 Terms Offered: FaSp Seminar. Studies in fiction form and function or critical theory. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 696 Graduate Poetry Writing Workshop

Units: 4 Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level poetry writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to doctoral English students Instruction Mode: Lecture Grading Option: Letter

ENGL 697 Graduate Fiction Writing Workshop

Units: 4 Max Units: max 16 Terms Offered:

FaSp Intensive practicum in advanced level fiction writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to English doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 698 Graduate Poetry Form and Theory

Units: 4 Max Units: 16 Terms Offered: FaSp Seminar. Studies in poetry form and function or critical theory. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 700x Theories and Practices of Professional Development I

Units: 2 Terms Offered: FaSp A structured environment in which to craft a research project, write a dissertation prospectus, and define areas of professional expertise. *Recommended Preparation:* passage of screening exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 701x Theories and Practices of Professional Development II

Units: 2 Terms Offered: Fa This two-credit course helps ABD students craft their professional identities and placement materials as they make the transition from graduate school to their academic position. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Engineering**ENGR 100a Engineering Honors Colloquium**

Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100b Engineering Honors Colloquium

Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100c Engineering Honors Colloquium

Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100d Engineering Honors Colloquium

Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 101 Introduction to Engineering

Units: 3 Terms Offered: Fa Gateway to the majors and minors in engineering. Introduction to engineering disciplines. Historical and current trends in engineering; ethical and societal factors in engineering solutions. Hands-on design experiences; USC laboratory tours. Instruction Mode: Lecture Grading Option: Letter

ENGR 102 Engineering Freshman Academy

Units: 2 Introduction to the profession of engineering. Ethical, political and societal consequences of engineering innovations and the impact of engineering on everyday life. Team projects and guest lectures. Open to freshmen only. Instruction Mode: Lecture Grading Option: Letter

ENGR 150L Engineering Science and Systems: From Humans to Robots

Units: 3 Terms Offered: Fa Hands-on multidisciplinary engineering course that uses robotics as a theme to cover material from all areas of engineering. Laboratory; programming; team projects; end-of-semester exhibition. Open only to freshmen. *Recommended Preparation:* Basic programming experience (e.g., C, C++, C#, Java, Python). Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ENGR 301 Technical Entrepreneurship

Units: 3 (Enroll in BUAD 301)

ENGR 305 Engineering Biology Matters

Units: 3 Terms Offered: Fa Engineering students will learn biological phenomena in the context of engineering principles and explore biological mechanisms and processes as analogies for designing engineered systems. *Recommended Preparation:* CHEM 105a, MASC 110. Instruction Mode: Lecture Grading Option: Letter

ENGR 345 Principles and Practices of Global Innovation

Units: 3 Terms Offered: Sp Learner-centered, cross-cultural, technology-enabled approaches to principles and industrial practices leveraging cultural diversity to inspire innovations for competitive global markets. Requires an extended semester of 22 weeks, including 2-week overseas project in early summer. Instruction Mode: Lecture Grading Option: Letter

ENGR 395ax Cooperative Education Work Experience

Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395bx Cooperative Education Work Experience

Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395cx Cooperative Education Work Experience

Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395dx Cooperative Education Work Experience

Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 400 Engineering Honors Project

Units: 1, 2, 3 Max Units: 12.0 Terms Offered: FaSpSm Supervised interdisciplinary studies and projects. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 401x Communicating Science and Engineering to Children

Units: 3 Max Units: 6.0 Terms Offered: FaSp Engineering students communicate their knowledge, collaborate constructively with peers, and inspire underserved children to develop a curiosity and persistence for science and engineering. Registration Restriction: Open only to junior and senior engineering students. Instruction Mode: Lecture Grading Option: Letter

ENGR 410 Social Media for Scientists and Engineers

Units: 2 Terms Offered: FaSp An introduction to the various ways in which

social media and science are intersecting in a compelling manner; new technologies and online communities are powerful tools that are changing the ways in which scientists are engaging one another (inreach) and general audiences (outreach). Instruction Mode: Lecture Grading Option: Letter Crosslisted as ITP 410

ENGR 461 Engineering Economics and Technology Development

Units: 4 Terms Offered: Sp Introduction to the theory and practice of engineering economics in the context of technology development. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

ENGR 471a Interdisciplinary Capstone Design

Units: 2 Terms Offered: Fa A culminating experience in applying technical skills they have acquired in their engineering course work to solve a design problem sponsored by an external customer. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 471b Interdisciplinary Capstone Design

Units: 2 Terms Offered: Sp A culminating experience in applying technical skills they have acquired in their engineering coursework to solve a design problem sponsored by an external customer. *Prerequisite:* ENGR 471a Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 493x Dean's Seminar in Entrepreneurship

Units: 2 Terms Offered: Sp Overview of starting and developing a new business. Discussions with successful business leaders and entrepreneurs. Not available for students admitted to the Entrepreneur Program. Open only to seniors or graduate students in business or engineering. Registration Restriction: Open only to seniors or graduate students in Business or Engineering. Duplicates Credit in former BUAD 493x. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Current developments in the field of engineering. Instruction Mode: Lecture Grading Option: Letter

ENGR 501x Engineering Writing and Communication for Master's Students

Units: 3 Terms Offered: FaSp Academic and discipline-specific writing skills. Emphasis on structure of discourse and writing process. Presentation and oral communication skills also addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 502x Writing Skills for Engineering PhD Students

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Writing of engineering curriculum- and research-related projects for PhD students. Focus is on conference papers, dissertations and proposals, journal articles,

and other forms. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 503x Oral Communication Skills for Engineering PhD Students

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Academic and professional presentation skills for PhD students. Preparation for qualifying exams, conference paper presentations, and other forms of oral communication. Use of visual aids and poster displays included. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 504x Fellowship Proposal Writing for Engineering PhD Students

Units: 2 Terms Offered: FaSp Preparation of essays and other materials for research fellowship applications. Open only to PhD engineering students. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 509 Patent Law for Scientists and Engineers

Units: 3 Terms Offered: Sp Tools for engineering and science graduate students to make informed decisions about obtaining and enforcing patent protection for their future inventions: validity, infringement, unenforceability. *Recommended Preparation:* EE 682 or ISE 565. Instruction Mode: Lecture
Grading Option: Letter

ENGR 555 Invention and Technology Development

Units: 3 (Enroll in ISE 555) Grading Option: Graded CR/NC.

ENGR 595a Professional Writing and Communication for Internships

Units: 1 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 595b Professional Writing and Communication for Internships

Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595a Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 595c Professional Writing and Communication for Internships

Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595b Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 595d Professional Writing and Communication for Internships

Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595c Registration Restriction: Open only to graduate engineering students Instruction

Mode: Lecture
Grading Option: Credit/No Credit

ENGR 595z Professional Writing and Communication for Internships

Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595d Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 596 Internship in Engineering

Units: 1 Max Units: 3.0 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 597x Internship in Engineering with Professional Writing and Communication

Units: .5 Terms Offered: FaSpSm Practical work experience; professional communication and writing skills. Registration Restriction: Open only to master students in engineering Credit Restriction: Not available for graduate credit Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 598 Professional Internship Experiences

Units: 0 Terms Offered: FaSpSm Part-time or full-time practical work experience in a particular field of study. The internship must be located at an off-campus facility. *Prerequisite:* ENGR 597x Registration Restriction: Open only to master students in engineering Instruction Mode: Lecture
Grading Option: Credit/No Credit

ENGR 599 Special Topics

Units: 2, 3, 4 Current developments in the field of engineering; topics to be selected each semester. Instruction Mode: Lecture
Grading Option: Letter

Environmental Studies

ENST 100g Introduction to Environmental Studies

Units: 4 Terms Offered: FaSp Gateway to the majors and minors in Environmental Studies. Provides students with an overview of how government agencies and societal institutions address (or fail to address) the interrelated social and scientific aspects of environmental problems and policies. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture
Grading Option: Letter

ENST 150gx Environmental Issues in Society

Units: 4 Terms Offered: Fa Exploration of the major social, political, economic, religious, and philosophical disagreements that exist between scholars, leaders, and citizens concerning today's most serious environmental issues and problems. Satisfies New General Education in C Social

Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion
Grading Option: Letter
Crosslisted as IR-150

ENST 201 Introduction to Applied Environmental Science and Engineering

Units: 4 (Enroll in ENE 201)

ENST 255 American Environmentalism

Units: 4 (Enroll in GEOG 255)

ENST 270 Introduction to Environmental Law and Politics

Units: 4 Terms Offered: Sp (Enroll in POSC 270)

ENST 298aL Introduction to Scientific Diving

Units: 2 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. *Recommended Preparation:* background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required
Grading Option: Letter
Crosslisted as ARCG 298a

ENST 298bL Introduction to Scientific Diving

Units: 2 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. *Prerequisite:* ENST 298a *Recommended Preparation:* background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required
Grading Option: Letter
Crosslisted as ARCG 298b

ENST 310 Sustainable Fisheries Management

Units: 4 Terms Offered: Sp Examination of scientific, social, political, and economic factors of fisheries management, engaging students in key issues of coastal and marine sustainability. *Prerequisite:* ENST 100g *Recommended Preparation:* Any introductory Biology course Instruction Mode: Lecture
Grading Option: Letter

ENST 320a Water and Soil Sustainability; Energy and Air Sustainability

Units: 4 Terms Offered: Fa Overview of issues related to water and soil sustainability including science, policy and business aspects. *Recommended Preparation:* ENST 100. Duplicates Credit in former ENST 420. Instruction Mode: Lecture
Grading Option: Letter

ENST 320b Water and Soil Sustainability; Energy and Air Sustainability

Units: 4 Terms Offered: Sp Overview of issues related to water and soil sustainability including science, policy and business aspects. *Recommended Preparation:* ENST 100. Duplicates Credit in former ENST 430. Instruction Mode: Lecture
Grading Option: Letter

ENST 323 Politics of Global Environment

Units: 4 (Enroll in IR 323)

ENST 335 Science, Health and the Environment

Units: 4 Terms Offered: Sp Exploration of environmentally transmitted human

diseases; understanding the human/pathogen/environment nexus that leads to disease in human populations; disease transmission reduction. *Prerequisite:* BISC 103Lgx or BISC 120Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 335

ENST 344 Environmental Ethics

Units: 4 Terms Offered: Sp Explores issues concerning behavior of humans towards the nonhuman world. Examines a wide spectrum of ethical issues. *Prerequisite:* ENST 100 or ENST 150 Instruction Mode: Lecture Grading Option: Letter

ENST 345 Conservation of Natural Resources

Units: 4 (Enroll in GEOG 345)

ENST 347 Environmental Law

Units: 4 (Enroll in POSC 347)

ENST 352 Conservation Biology

Units: 4 Terms Offered: Sp (Enroll in BISC 352)

ENST 360 Environmental Disasters

Units: 4 (Enroll in GEOG 360)

ENST 370 Marine and Coastal Environmental Policy

Units: 4 Terms Offered: Sp Survey of major environmental policies both international and domestic as they relate to fisheries, shipping, pollution, seaports and coastal management. *Recommended Preparation:* ENST 100, ENST 387. Instruction Mode: Lecture Grading Option: Letter

ENST 387 Economics for Natural Resources and the Environment

Units: 4 Terms Offered: Fa An introduction to the economic tools and issues that affect natural resource use and environmental management. Instruction Mode: Lecture Grading Option: Letter

ENST 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENST 396 Directed Governmental and Political Leadership Internship

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 (Enroll in POSC 395)

ENST 400 Environmental Engineering Principles

Units: 3 (Enroll in ENE 400)

ENST 410 Water and Energy Management in the Asia-Pacific Region

Units: 4 Terms Offered: Sp An exploration of how the essential resources of water and energy are managed in the Asia-Pacific region and the implications of such management. *Prerequisite:* ENST 320a, ENST 320b . Instruction Mode: Lecture Grading Option: Letter

ENST 412 Oceans, Climate, and the Environment

Units: 4 Terms Offered: FaSp (Enroll in GEOL 412)

ENST 422 Ecological Security and Global Politics

Units: 4 (Enroll in IR 422)

ENST 427 The Global Environment

Units: 4 Terms Offered: FaSpSm (Enroll in BISC 427)

ENST 432 Environment and Governance: International and National Policy

Units: 4 Terms Offered: Sm Exposes students to policy makers and major institutions that work closely with local decision makers towards developing environmental policy framework. Instruction Mode: Lecture Grading Option: Letter

ENST 436 Environmental Politics

Units: 4 (Enroll in POSC 436)

ENST 440 Environmental Risk Assessment

Units: 4 Terms Offered: Sp Assesses various potential environmental risks and examines how science, government, business, and industry measure and prepare for environmental risks. *Recommended Preparation:* ENST 100. Instruction Mode: Lecture Grading Option: Letter

ENST 442 Global Climate Change: Policy and Society

Units: 4 Terms Offered: Sp Examines climate change policy at the international, national, state, and local levels, and explores the role civil society plays in climate change politics. *Prerequisite:* ENST 320b or POSC 270 Instruction Mode: Lecture Grading Option: Letter

ENST 445 Earth Climate: Past, Present, and Future

Units: 4 Terms Offered: Fa Examination of the tools used to reconstruct past climate change and a thorough discussion of past climate changes on earth with an emphasis on the recent past. *Prerequisite:* MATH 118 or MATH 125 and ENST 320b; *Recommended Preparation:* any introductory GEOL course. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GEOL-445

ENST 456L Conservation Genetics

Units: 4 Terms Offered: Sp (Enroll in BISC 456)

ENST 466 Business and Environmental Sustainability

Units: 4 (Enroll in MOR 466)

ENST 470 Environmental Hydrogeology

Units: 4 Terms Offered: FaSpSm (Enroll in GEOL 470)

ENST 480 Integrated Ecosystem Management in Micronesia

Units: 4 Terms Offered: SpSm Field studies in ecosystem management tools used to investigate complex environmental problems in Micronesia. Historical, cultural, and scientific topics, direct observations of biological, physical, and chemical conditions. *Corequisite:* ENST 298a. Instruction Mode: Lecture Grading Option: Letter

ENST 483 Tropical Coastal Zone Sustainability

Units: 4 Terms Offered: Sm Field skills and management tools to investigate environmental problems in coastal zones; cultural and scientific topics; collection and analysis of environmental data. *Recommended Preparation:* ENST 100g Instruction Mode: Lecture Grading Option: Letter

ENST 485 Role of the Environment in the Collapse of Human Societies

Units: 4 Terms Offered: Sm Field studies in the roles of environmental problems in the collapse of ancient civilizations and analogous problems facing contemporary populations in those same places. *Recommended Preparation:* ENST 100. Instruction Mode: Lecture Grading Option: Letter

ENST 487 Resource and Environmental Economics

Units: 4 (Enroll in ECON 487)

ENST 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ENST 492 Directed Environmental Policy and Science Internship

Units: 2, 4 Max Units: 4 Terms Offered: FaSp Provides opportunities for professional development in environmental policy and science and prepares students for career or graduate school in environmental-related fields. Students are placed in internships and guided before and during the internship period. Students gain practical experience and learn how government and nongovernmental organizations pursue and implement environmental policy and science work. Registration Restriction: Open only to Juniors and Seniors in Environmental Science and Health, and Environmental Studies majors Instruction Mode: Lecture Grading Option: Letter

ENST 495 Senior Seminar in Environmental Studies

Units: 4 Terms Offered: Sp Students form multidisciplinary teams and are asked to study and resolve a major environmental problem facing a particular region or target population. Instruction Mode: Lecture Grading Option: Letter

ENST 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics dealing with environmental issues and problems. Instruction Mode: Lecture Grading Option: Letter

ENST 500 Interdisciplinary Approaches to Environmental Studies

Units: 4 Terms Offered: Fa Students will develop advanced skills to address complex environmental issues that society faces today. Different approaches for studying environmental processes and resources will be examined. Instruction Mode: Lecture Grading Option: Letter

ENST 501 Environmental Science I

Units: 2 Terms Offered: Fa Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. *Corequisite:* ENST 502. Instruction Mode: Lecture Grading Option: Letter

ENST 502 Environmental Science Seminar I

Units: 1 Terms Offered: Fa A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology.

Instruction Mode: Lecture Grading Option: Letter

ENST 503 Environmental Science II

Units: 2 Terms Offered: Sp A continuation of ENST 501. Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. *Prerequisite:* ENST 501; *Corequisite:* ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 504 Environmental Science Seminar II

Units: 1 Terms Offered: Sp A continuation of ENST 502. A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Instruction Mode: Lecture Grading Option: Letter

ENST 505a Advanced Environmental Science Seminar

Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 505b Advanced Environmental Science Seminar

Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 510 Statistics for Environmental Analysis

Units: 4 This course introduces graduate students to the various quantitative techniques and methodological approaches used in pollution control, natural resources management, and environmental protection. Instruction Mode: Lecture Grading Option: Letter

ENST 520 Environmental Law and Policy

Units: 4 Terms Offered: Sp Introduces students to the central issues, concepts, and theories in environmental law and policy and analyzes present environmental laws and regulations. Instruction Mode: Lecture Grading Option: Letter

ENST 530 Environmental Risk Analysis

Units: 4 Terms Offered: Fa Analyzes various potential environmental risks and examines how science, government, and business measure and prepare for environmental risks. Instruction Mode: Lecture Grading Option: Letter

ENST 536 The Landscape Planning Process

Units: 3 (Enroll in ARCH 536)

ENST 540 California Coastal Zone Science and Policy

Units: 4 Terms Offered: Sp Science and policy issues used to characterize and manage California coastal resources. Key issues include: coastal pollution, public health, ecosystem management, and marine reserves. *Recommended Preparation:* ENST 500. Instruction Mode: Lecture Grading Option: Letter

ENST 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the

degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENST 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

ENST 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 595 Graduate Seminar in Environmental Studies

Units: 4 Terms Offered: Sp Addresses the obstacles to environmental policymaking and management by examining the interrelationships between science, technology, and social science. *Recommended Preparation:* ENST 500, ENST 501, ENST 502, ENST 503, ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Subjects specifically relevant to an environmental studies field, sometimes conducted as intensive short courses. Instruction Mode: Lecture Grading Option: Letter

Design

DES 102 Design Fundamentals

Units: 4 Terms Offered: FaSp Introduction to the basic elements and processes of visual communication and design. Instruction includes studio projects, lectures and readings. Various media used. Duplicates Credit in former FADN 102 Instruction Mode: Lecture Grading Option: Letter

DES 105 Art and Design Studio I

Units: 4 Terms Offered: FaSp (Enroll in ART 105)

DES 106 Art and Design Studio II

Units: 4 Terms Offered: FaSp (Enroll in ART 106)

DES 110 Drawing for Art and Design

Units: 4 Terms Offered: FaSpSm (Enroll in ART 110)

DES 123xg The Design Challenge: Exploring the Design Process

Units: 4 Terms Offered: FaSpSm An overview of the creative design process and introduction to techniques to solve visual problems. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

DES 202 Design II

Units: 4 Terms Offered: FaSp Exploration of essential elements of traditional and digital design, including color and image-text integration, editing information, typography

and sequencing. *Prerequisite:* DES 102 or FADN 102 *Corequisite:* DES 203 or FADN 203 Duplicates Credit in former FADN 202 Instruction Mode: Lecture Grading Option: Letter

DES 203 Digital Tools for Design

Units: 2 Terms Offered: FaSp Exploration of the processes of germination, ideation and application/execution in design integrated with computer usage. *Corequisite:* DES 202 Duplicates Credit in former FADN 203 Instruction Mode: Lecture Grading Option: Letter

DES 213 Digital Tools in 3D Design

Units: 2 Terms Offered: FaSp 3D digital modeling, rendering, digital capture and production methods for product, package and environmental design. *Prerequisite:* FADN 102 or DES 102 Instruction Mode: Lecture Grading Option: Letter

DES 230 3D Design: Materials and Tools

Units: 4 Terms Offered: FaSp Introduction to the study of 3-D Design. Includes a wide investigation of materials, tools, and techniques specific to dimensional design as they apply to package, product, and environmental design. *Prerequisite:* ACAD 176 or DES 102 or FADN 102 or ART 140 Duplicates Credit in former FADN 230 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 230

DES 302 Design III

Units: 4 Terms Offered: FaSp Advanced exploration of typography and image-text integration, including collaborative projects, pre-press and proofing techniques, narrative concepts and information architecture. *Prerequisite:* DES 202 or FADN 202 Duplicates Credit in former FADN 302 Instruction Mode: Lecture Grading Option: Letter

DES 303 Web Design

Units: 2 Terms Offered: FaSp A workshop-based course that focuses on software applications in design and web design. *Prerequisite:* ACAD 177 or DES 203 or FADN 203 Duplicates Credit in former FADN 303 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 303

DES 313 Graphic Design in Fashion

Units: 4 Terms Offered: FaSpSm An intensive studio and lecture course focusing on the applications of graphic design in fashion and related fields. *Prerequisite:* DES 102 or FADN 102 *Recommended Preparation:* DES 203 Duplicates Credit in former FADN 313 Instruction Mode: Lecture Grading Option: Letter

DES 314 Illustration for Art and Design

Units: 2 Terms Offered: FaSp (Enroll in ART 314)

DES 322 Publication Design

Units: 4 Terms Offered: FaSp Application of layout, typography, design principles and image making in the design and production of books, magazines, zines and digital books. *Prerequisite:* (DES 202 or FADN 202) and (DES 203 or FADN 203) *Recommended Preparation:* DES 332a Instruction Mode: Lecture, Lab Grading Option: Letter

DES 323g Design Theory

Units: 4 Terms Offered: FaSp A comprehensive study of visual communication focusing on graphic design from 1900 to the present. An introduction to design thinking, language and principles including political and cultural implications. Satisfies New General Education in Category A: The Arts Duplicates Credit in former FADN 323 Instruction Mode: Lecture Grading Option: Letter

DES 330 3D Design: Objects and Space

Units: 4 Terms Offered: FaSp A continuation of FADN 230 to produce finished models and prototypes of package, product and environmentally-based designs in actual and virtual space. *Prerequisite:* DES 230 or FADN 230 Duplicates Credit in former FADN 330 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 330

DES 332a Typography

Units: 2 Terms Offered: FaSp The study of visual communication through the use of letterforms from historical tradition to contemporary experimental rebellion. Duplicates Credit in former FADN 332a Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 332a

DES 332b Typography

Units: 2 Terms Offered: FaSp Continuation of DES 332a. *Prerequisite:* DES 332a or FADN 332a Duplicates Credit in former FADN 332b Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 332b

DES 333 New York Design Study Tour

Units: 2 Terms Offered: Sp Historical and contemporary aspects of the New York design world, including a one-week trip to New York City to visit design firms, studios and museums. Airfare and accommodations extra. By application only. Duplicates Credit in former FADN 333 Instruction Mode: Lecture Grading Option: Letter

DES 402 Advanced Design Projects

Units: 4 Max Units: 12 Terms Offered: FaSp Advanced information design within a flexible curriculum. Emphasis on team-oriented projects. *Prerequisite:* DES 302 or FADN 302 Duplicates Credit in former FADN 402 Instruction Mode: Lecture Grading Option: Letter

DES 413 Professional Practice in Design

Units: 4 Terms Offered: FaSp A summation of one's practice, with a focus on transitioning to a career as a professional designer. *Prerequisite:* DES 402 or FADN 402 Registration Restriction: Open only to Seniors in the Roski School of Art and Design Instruction Mode: Lecture Grading Option: Letter

DES 418 Independent Studies in Design

Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. *Recommended Preparation:* appropriate 300-level course work Instruction Mode: Lecture Grading Option: Letter

DES 419 Professional Internship in the Arts

Units: 2 Max Units: 4 Terms Offered: FaSpSm (Enroll in ART 419)

DES 432 Special Projects in Design

Units: 2 Terms Offered: FaSp Students work on projects for outside clients, and receive instruction in professional practices, advanced design techniques, and sophisticated technology. By invitation or portfolio review only. Only open to upper division students. *Prerequisite:* DES 302 or FADN 302 Duplicates Credit in former FADN 432 Instruction Mode: Lecture Grading Option: Letter

DES 433 International Design Study Tour

Units: 2 Terms Offered: FaSp An immersive experience in the design culture of a global city or region that includes a short (two-week or less) international trip. Instruction Mode: Lecture Grading Option: Letter

DES 494a Senior Thesis

Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Registration Restriction: Open only to senior Design majors Instruction Mode: Lecture Grading Option: In Progress/Letter

DES 494b Senior Thesis

Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. *Prerequisite:* DES-494a Registration Restriction: Open only to senior Design majors Instruction Mode: Lecture Grading Option: In Progress/Letter

DES 499 Special Topics

Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

DES 503 Contemporary Issues in Design

Units: 4 Terms Offered: Fa An analytic seminar of topics, ideas and concepts in the contemporary design world. Instruction Mode: Lecture Grading Option: Letter

DES 513 Visiting Designers Forum

Units: 2 Max Units: 04 Terms Offered: Fa Professional practice of design featuring formal presentations by visiting designers. Instruction Mode: Lecture Grading Option: Letter

DES 514 Designers in Residence Forum

Units: 2 Max Units: 04 Terms Offered: Sp Seminar in the professional practice of design featuring formal presentations and mentoring opportunities by designers in residence. Instruction Mode: Lecture Grading Option: Letter

DES 520 Individual Studies

Units: 2 Max Units: 06 Terms Offered: FaSp Investigation of creative problems through various design media. Instruction Mode: Lecture Grading Option: Letter

DES 523 Design Theory

Units: 4 Terms Offered: FaSp A critical examination of issues, theories, movements and practices that are relevant to the contemporary professional designer.

Instruction Mode: Lecture Grading Option: Letter

DES 530 Design Studio Co-Lab

Units: 2 Max Units: 06 Terms Offered: FaSp A critical examination of contextual issues, theories, movements and ideas that are relevant to the contemporary design practice in collaboration with a professional client. Instruction Mode: Lecture Grading Option: Letter

DES 540 Design Pedagogy

Units: 4 Terms Offered: Sp A critical examination and application of the issues, theories, and ideas that support the studio practice and teaching of contemporary design. Instruction Mode: Lecture Grading Option: Letter

DES 543 Design Study Tour

Units: 2 Terms Offered: FaSp Historical and contemporary aspects of urban design with visits to design firms, studios and museums in selected cities across the United States. Airfare and accommodations extra. Instruction Mode: Lecture Grading Option: Letter

DES 550 Advancement

Units: 2 Terms Offered: Sm A preparatory workshop to prepare students advancing to candidacy. *Recommended Preparation:* Completion of 24 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Letter

DES 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 591 Field Internship Experience

Units: 2 Terms Offered: FaSpSm Supervised internship in a design firm, or with an independent designer, on projects and research specific to design practice. *Recommended Preparation:* Completion of first year of courses Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. *Recommended Preparation:* 30 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Master's thesis *Prerequisite:* DES 594a *Recommended Preparation:* 30 units of coursework Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594z Master's thesis

Units: 0 Terms Offered: FaSpSm Credit upon acceptance of master's thesis. Registration

Restriction: Open only to master students
Instruction Mode: Lecture Grading Option:
Credit/No Credit

DES 599 Special Topics

Units: 2, 3, 4 Max Units: 08 Terms Offered:
FaSpSm Selected topics in the various
specialty areas within design at the graduate
level. Topic will vary from semester to
semester. Instruction Mode: Lecture Grading
Option: Letter

Finance and Business Economics

FBE 206 The Power of Personal Finance

Units: 2 Terms Offered: FaSp Develop
knowledge and skills in areas of money
management, budgeting, financial goal
attainment, insurance, credit cards, and
investments. Instruction Mode: Lecture
Grading Option: Letter

FBE 299 Special Topics

Units: 2, 4 Max Units: 4 Terms Offered:
FaSpSm Introduction to current
developments in finance and business
economics. Instruction Mode: Lecture
Grading Option: Letter

FBE 324 The Financial System

Units: 4 Terms Offered: Fa Financial
intermediaries in the flow of funds; aggregate
financial asset analysis; money markets
and interest rates; government debt and its
economic effects. *Prerequisite:* (BUAD
351 and BUAD 352) or (ECON 203g and
ECON 205g) or (ECON 351x and ECON
352x) Registration Restriction: Open only
to sophomore, junior and senior students
Instruction Mode: Lecture Grading Option:
Letter

FBE 391 Real Estate Finance and Investment

Units: 4 Terms Offered: FaSp Introduction
to income-producing real estate from the
perspective of finance, market analysis,
capital markets, development and
investment. Includes focus on analytical
techniques and computer applications.
Prerequisite: BUAD 215 or BUAD 306.
Duplicates Credit in former FBE 365.
Instruction Mode: Lecture Grading Option:
Letter

FBE 400x Introduction to Real Estate Finance and Development

Units: 4 Terms Offered: Fa Case analysis
examining economic and financial aspects of
real estate decisions for non-business majors.
Focuses on dynamics of financing, markets
and the development process. Duplicates
Credit in former FBE 200x. Instruction
Mode: Lecture Grading Option: Letter

FBE 402 Government and Business

Units: 4 American mixed capitalism, welfare,
market failure, and the role of government
in business; regulation and the public
utilities, antitrust policy, and current topics
in regulation-deregulation. Instruction Mode:
Lecture Grading Option: Letter

FBE 403 Introduction to the Legal Environment of Business

Units: 4 Terms Offered: FaSp Legal
principles of business: litigation process,
constitutional law, torts, product liability,
crimes, contracts, sales and leases,
intellectual property, international law,

agency, employment law, and ethics.
Duplicates Credit in the former BUAD 403.
Instruction Mode: Lecture Grading Option:
Letter

FBE 416 Managerial Economics

Units: 4 Application of microeconomic
theory to problems of the firm, quantification
of demand and cost relationships; pricing
policies. *Prerequisite:* BUAD 311; and
BUAD 351 or ECON 203 or ECON 351.
Instruction Mode: Lecture Grading Option:
Letter

FBE 421 Financial Analysis and Valuation

Units: 4 Terms Offered: FaSp This course
develops and uses tools of financial analysis
to evaluate the performance and assess the
value of individual companies in an industry
context. *Prerequisite:* BUAD 215 or BUAD
306. Instruction Mode: Lecture Grading
Option: Letter

FBE 423 Introduction to Venture Capital and Private Equity

Units: 4 Terms Offered: FaSp Introduction
to venture capital and private equity. Topics
include fundraising, valuation of new firms
and venture capital securities, and exiting
investments through public offerings.
Prerequisite: BUAD 215 or BUAD 306.
Instruction Mode: Lecture Grading Option:
Letter

FBE 427 Real Estate Law

Units: 4 Terms Offered: FaSp Principles of
law regarding real property transactions;
buyer-seller, debtor-creditor, landlord-tenant
relationships; environmental law and land
use control; investments and syndication.
Instruction Mode: Lecture Grading Option:
Letter

FBE 428 Principles of Employment Law

Units: 4 Terms Offered: FaSpSm Survey of
current employment law topics including
employment discrimination arising within
modern workplaces. Legal and business
strategies for managing diversity for
organizational success. Instruction Mode:
Lecture Grading Option: Letter

FBE 429 International Business Law

Units: 4 Terms Offered: FaSp Introductory
course on the legal and regulatory
environment of international business
transactions. Instruction Mode: Lecture
Grading Option: Letter

FBE 431 Financial Policies and Corporate Governance

Units: 4 Terms Offered: FaSp Presentation
of the theory and institutional details of
corporate finance, with emphasis on debt
and dividend policies, governance/voting
rights, and security issuance and retirement.
Prerequisite: BUAD 215 or BUAD 306.
Instruction Mode: Lecture Grading Option:
Letter

FBE 432 Corporate Financial Strategy

Units: 4 Terms Offered: FaSp Linkage
between financial theory and policy and
corporate strategy, the role of financial
managers in developing corporate strategy;
applications of concepts and techniques
using cases. *Prerequisite:* BUAD 215 or
BUAD 306. Instruction Mode: Lecture
Grading Option: Letter

FBE 433 Corporate Governance and CEO Pay

Units: 4 Terms Offered: Sp Explores how
value is created (or destroyed) through
incentive compensation and corporate
governance. Focus on bonuses, stock options,
executive compensation, and financing
policies. *Prerequisite:* BUAD 215 or BUAD
306. Instruction Mode: Lecture Grading
Option: Letter

FBE 435 Applied Finance in Fixed Income Securities

Units: 4 Terms Offered: Sp Emphasis
on hedging tools necessary for portfolio
managers. Introduction of all securities
available in fixed income and provision of
tools to analyze investments. *Prerequisite:*
BUAD 215 or BUAD 306. Instruction Mode:
Lecture Grading Option: Letter

FBE 436 Financial Management of Multinational Corporations

Units: 4 International scope and dimension
of financial planning; working capital
management; financing and investment
decisions of multinational corporations.
Prerequisite: BUAD 215 or BUAD 306.
Instruction Mode: Lecture Grading Option:
Letter

FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms

Units: 4 Terms Offered: Fa Internal financial
management of developing firms. Cash
flow analysis; capital budgeting; sources
of financing; risk analysis; measurement
of profits; and mergers and acquisitions.
Prerequisite: BUAD 215 or BUAD 306.
Instruction Mode: Lecture Grading Option:
Letter

FBE 440 Trading and Exchanges

Units: 4 Terms Offered: Sp Theories,
practices, and technologies of trading
at exchanges and in dealer networks.
Sources of liquidity, volatility, profitability,
and institutional change. Domestic
and international public policy issues.
Prerequisite: BUAD 215 or BUAD 306.
Instruction Mode: Lecture Grading Option:
Letter

FBE 441 Investments

Units: 4 Terms Offered: FaSp Theories
and applications of investment decision-
making; the behavior of security prices,
portfolio theory, asset pricing models,
market efficiency, bond valuation and term
structure, derivative securities. *Prerequisite:*
BUAD 215 or BUAD 306. Instruction Mode:
Lecture Grading Option: Letter

FBE 443 Introduction to Forecasting and Risk Analysis

Units: 4 Introduction to econometric tools
and versions of Capital Asset Pricing Models
to estimate financial risk, stock market risk
premium and to project economic activity.
Prerequisite: BUAD 215 or BUAD 306
and BUAD 310. Instruction Mode: Lecture
Grading Option: Letter

FBE 453a Advanced Practicum in Investment Management

Units: 4 Terms Offered: Fa Application of
investment management techniques in a
laboratory setting. Stock selection, asset

allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. *Prerequisite:* BUAD 215x or BUAD 306 *Corequisite:* FBE 421 or FBE 441 Registration Restriction: Open only to students admitted to the Marshall Undergraduate Student Investment Fund program Instruction Mode: Lecture Grading Option: Letter

FBE 453b Advanced Practicum in Investment Management

Units: 4 Application of advanced investment management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Open only to senior business majors. Instruction Mode: Lecture Grading Option: Letter

FBE 458 Law of Forming, Financing and Managing Businesses

Units: 4 Terms Offered: FaSpSm Law and ethics of agency, partnerships, corporations, limited liability companies, governmental regulation, mergers, creditor rights, secured transactions, bankruptcy, securities regulation and antitrust. Instruction Mode: Lecture Grading Option: Letter

FBE 459 Financial Derivatives

Units: 4 Terms Offered: Fa A rigorous introduction to the pricing and corporate use of financial derivatives — futures, options, forwards, and swaps — on stocks, exchange rates, bonds, and commodities. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 460 Mergers, Acquisitions and Restructuring

Units: 4 Terms Offered: FaSpSm Practical understanding of the major strategic, economic, financial, human resources, and governance issues of mergers, acquisitions, and restructuring. *Prerequisite:* BUAD 215x or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 462 International Trade, Finance and Commercial Policy

Units: 4 Terms Offered: FaSp Commercial policies, treaty relationships, examination of policies influencing world trade and finance, the international financial system, exchange rates. *Prerequisite:* (ECON 203g and ECON 205g) or (BUAD 351 and BUAD 352) or (ECON 351x and ECON 352x) Registration Restriction: Open only to sophomores, juniors, and seniors Instruction Mode: Lecture Grading Option: Letter

FBE 465 Real Estate Analysis and Computer Modeling

Units: 2 Terms Offered: FaSp Real estate valuation. Three approaches to valuation: Market comparison, income, and cost. Highest and best use analysis. State of the art real estate software. *Prerequisite:* FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 466 Management of Real Estate Development: Feasibility Studies

Units: 4 Terms Offered: Sp By means of a significant real-world case study chosen each term, the development process is examined from the interrelated perspectives of finance,

market analysis, and design and construction technology. Team-generated development proposals are proposed and presented in a consulting environment that includes industry participants. *Prerequisite:* FBE 391 and FBE 470 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 470 Advanced Real Estate Analysis

Units: 4 Terms Offered: FaSp Mixed lecture/case approach covering market analysis, asset valuation, ownership structure, negotiation, asset management, corporate real estate, portfolio management, and affordable housing, appraisal and advanced financial modeling. *Prerequisite:* FBE 391. Duplicates Credit in former FBE 465. Instruction Mode: Lecture Grading Option: Letter

FBE 489 Real Estate Capital Markets

Units: 4 Terms Offered: Fa Topics in real estate capital markets including markets for debt and equity; residential and commercial mortgages and mortgage-backed securities; REITs; institutional sources of capital. *Prerequisite:* FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 491 Real Estate Finance Colloquium

Units: 2 Terms Offered: FaSp The roles of economics and finance in real estate. Lessons from history, the origin of real estate bubbles, how real estate markets work. Instruction Mode: Lecture Grading Option: Letter

FBE 495x Practicum in Business Issues (Internship)

Units: 1 Max Units: 12.0 Terms Offered: FaSpSm Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Open only to undergraduate students in Finance and Business Economics certificate. Registration Restriction: Open only to undergraduate students in Finance and Business Economics certificate. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 498x Business Field Project (Undergraduate)

Units: 1, 2 Terms Offered: FaSpSm Individual or team projects studying the business practices, needs, and opportunities of an entity. May include international research and travel and oral and written presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of finance and business economics; topics to be selected each semester. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 501 Investment Banking Fundamentals

Units: 1.5 Terms Offered: FaSpSm The role of an investment banking associate. Students will effectively function as a junior banker through a sell-side merger and acquisition (M & A) process. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 506a Quantitative Methods in Finance

Units: 1.5 Terms Offered: Sm The development of single and bivariate mathematical and statistical methods used in modern finance and economics and applications of these methods. Duplicates credit in FBE 506. Registration Restriction: Open only MS in Finance students Duplicates Credit in former FBE 506 Instruction Mode: Lecture Grading Option: Letter

FBE 506b Quantitative Methods in Finance

Units: 1.5 Terms Offered: Fa The development of multivariate mathematical and statistical methods used in modern finance and economics and applications of these methods. *Prerequisite:* FBE 506a Registration Restriction: Open only to MS in Finance students Duplicates Credit in former FBE 506 Instruction Mode: Lecture Grading Option: Letter

FBE 515 Deals

Units: 3, 4 (Enroll in LAW 815)

FBE 523 Venture Capital and Private Equity

Units: 3 Terms Offered: FaSp Advanced analysis of the economics of the private equity markets. Consider and value private securities in venture capital, initial public offerings, and leveraged buyouts. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 524 Money and Capital Markets

Units: 3 Terms Offered: Fa Review of financial institutions and markets, the determinants of interest rates, the impact of government regulation and policy on the financial system. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 525 Financial Institution Management, Strategy and Valuation

Units: 3 Terms Offered: Fa Application of economic and financial analytic techniques to the managerial problems of financial institutions and implications for financial firm strategy and valuation. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 526 Macroeconomic Analysis for Business

Units: 3 Terms Offered: Sp The economic environment of business: American economic and social goals and policies and their impact on business; growth, stability, and the new priorities; international forces influencing business. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms

Units: 3 Terms Offered: FaSp Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and

acquisitions. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 529 Financial Analysis and Valuation

Units: 3 Terms Offered: FaSp An applications-oriented course to develop the financial and accounting tools required to do financial planning valuation and assessment of financial performance. *Prerequisite:* GSBA 521b or GSBA 548 Duplicates Credit in FIM 529 Instruction Mode: Lecture Grading Option: Letter

FBE 531 Corporate Financial Policy and Corporate Governance

Units: 1.5, 3 Terms Offered: FaSp Advanced analysis of the determinants of corporate capital structure and payout policies, allocation and value of corporate control, and security issuance and retirement. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 532 Corporate Financial Strategy

Units: 3 Terms Offered: FaSpSm Linkage between financial theory and policy and corporate strategy; the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 533 CEO Pay, Corporate Governance, and the Politics of Finance

Units: 3 Terms Offered: Sp Explores how value is created (or destroyed) in organizations, focusing on compensation and incentive systems and the causes and consequences of government (and populist) intervention. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 535 Applied Finance in Fixed Income Securities

Units: 1.5, 3 Terms Offered: FaSp The basic principles underlying fixed income securities and how these principles apply to the practical aspects of fixed income management. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 540 Hedge Funds

Units: 3 Terms Offered: FaSp Introduction to the investment strategies used by hedge funds, the quantitative tools and business plans used to implement them. *Prerequisite:* GSBA 521b or GSBA 548. *Recommended Preparation:* statistics and calculus. Instruction Mode: Lecture Grading Option: Letter

FBE 543 Forecasting and Risk Analysis

Units: 3 Terms Offered: FaSm Application of econometric tools and versions of capital asset pricing models to estimate financial risk and stock market risk premia for portfolio management. *Prerequisite:* FBE 506b or GSBA 506b or GSBA 524 or (GSBA 516 and GSBA 545) Instruction Mode: Lecture Grading Option: Letter

FBE 550 High Yield Bond Investing - Managing Credit Risk

Units: 1.5 Terms Offered: FaSp Review

the structure of the high yield bond market. Develop a practical approach to assess credit risk and understand how deals are structured and priced. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 553a Applied Portfolio Management

Units: 3 Terms Offered: Fa Application of portfolio management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. *Prerequisite:* GSBA 521b or GSBA 548. *Corequisite:* FBE 555. Instruction Mode: Lecture Grading Option: Letter

FBE 553b Applied Portfolio Management

Units: 3 Terms Offered: Sp Application of advanced portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. *Prerequisite:* FBE 553a Instruction Mode: Lecture Grading Option: Letter

FBE 554 Trading and Exchanges

Units: 3 Terms Offered: Sp Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 555 Investment Analysis and Portfolio Management

Units: 3 Terms Offered: FaSp Analysis and management of common stocks and fixed income securities; development of modern portfolio theory and the efficient market hypothesis; organization of securities markets. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 557 Business Law and Ethics

Units: 3 Terms Offered: FaSpSm Business law of traditional and e-contracts, UCC, crimes, torts, employment, ethics, social responsibility, intellectual property, digital law, e-commerce, accountants' liability, property, estates, and government regulation. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 558 Law for Structuring, Financing, and Managing Businesses

Units: 3 Terms Offered: FaSp Legal environment of agency law, general and limited partnerships, limited liability companies, corporate formation and financing, corporate governance, securities law, acquisitions, bankruptcy, and business ethics. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 559 Management of Financial Risk

Units: 3 Terms Offered: FaSp Analysis of commodity, futures, and options contracts;

theoretical and empirical approaches; spot and futures price relationships, speculation and hedging strategies; market efficiency. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 560 Mergers and Acquisitions

Units: 3 Terms Offered: Sp Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 563 Global Trade and Finance

Units: 3 Terms Offered: Sp Impact of trade globalization in goods, services and financial securities on business decisions; special attention to foreign currency markets, foreign investments and international portfolios investments. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 564 International Financial Management

Units: 3 Terms Offered: Sm Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 565 Economics of Urban Land Use: Feasibility Studies

Units: 3 Terms Offered: Sp Economic, market and financial analysis related to feasibility of real estate development; theory and case analysis. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 570 Advanced Topics in Real Estate Finance

Units: 3 Terms Offered: Fa Current topics in real estate finance including sources of equity and debt, the role of capital markets, REITs, conduits, portfolio analysis, and acquisition of distressed assets. Cases and analytic methods. *Prerequisite:* GSBA 521b or GSBA 548; *Recommended Preparation:* FBE 591. Instruction Mode: Lecture Grading Option: Letter

FBE 571 Introduction to Financial Analysis: Practicum

Units: 3 Terms Offered: FaSp This introductory financial analysis (tools, techniques) practicum, emphasizes practical application of asset valuation and portfolio management techniques for those with little previous experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 572 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 572 Intermediate Financial Analysis: Practicum

Units: 3 Terms Offered: Sp This practicum emphasizes asset valuation, including applications of tools and inputs (including economics, accounting, and quantitative

techniques) in asset valuation for those with prior experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 573 Advanced Financial Analysis: Practicum

Units: 3 Terms Offered: Sp This is an advanced practicum emphasizing portfolio management skills, including applied strategies (tools, inputs) in equity and fixed-income management for those with extensive prior experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 572. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 588 Advanced Real Estate Law

Units: 3 Terms Offered: Sm Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in RED 562 Instruction Mode: Lecture Grading Option: Letter

FBE 589 Mortgages and Mortgage-Backed Securities and Markets

Units: 3 Terms Offered: Fa Valuation and analysis of residential and commercial mortgages and mortgage-backed securities and related markets. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 591 Real Estate Finance and Investment

Units: 3 Terms Offered: FaSp Analysis of investment in and financing of real estate assets including projections, valuation, deal structure, contracts, portfolio and tax and entity considerations. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 592 Field Research in Finance or Business Economics

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 593 Independent Research in Finance or Business Economics

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students

Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 595 Internship in Finance or Business Economics

Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) Graded CR/NC. *Recommended Preparation:* Completion of required MBA, MAcc, MBT, or MS Finance course work Registration Restriction: Open only to master students in accounting and business majors Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 596 Research Practicum in Finance or Business Economics

Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Finance and Business Economics Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 597 Consulting Project in Finance or Business Economics

Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSp Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. *Recommended Preparation:* Completion of required MBA, MAcc, MBT, or MS Finance course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 598 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 599 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 621 Research Forum

Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Finance and Business Economics. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 630 Fundamentals of Corporate Finance

Units: 1.5 Terms Offered: Sp Core theory and empirical evidence in corporate finance. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 631a Advanced Corporate Finance

Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. A: financial intermediation, investment-cash flow sensitivity, internal capital markets, diversification, and business groups. *Prerequisite:* FBE 630 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 631 Instruction Mode: Lecture Grading Option: Letter

FBE 631b Advanced Corporate Finance

Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. B: mergers and divestitures, product market competition, corporate governance, and finance and development. *Prerequisite:* FBE 630 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 631 Instruction Mode: Lecture Grading Option: Letter

FBE 633 Fundamentals of Asset Pricing

Units: 1.5 Terms Offered: Sp Financial Economics course that focuses on core theory and empirical evidence in asset pricing. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 634 Advanced Asset Pricing

Units: 3 Terms Offered: Fa Continuous time finance and advanced empirical methods. *Prerequisite:* FBE 633 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 652 Financial Economics I

Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on corporate finance theory and evidence. Instruction Mode: Lecture Grading Option: Letter

FBE 653 Financial Economics II

Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on contingent claims and continuous time models. Instruction Mode: Lecture Grading Option: Letter

FBE 654 Ph.D. Seminar-Empirical Research Methods in Finance

Units: 3 Terms Offered: Irregular Empirical financial research methods are introduced. Applications are discussed and critiqued. Special attention is given to new statistical methods and to identifying fruitful research programs. Instruction Mode: Lecture Grading Option: Letter

FBE 655 Financial Economics III

Units: 3 Terms Offered: Sp Doctoral-level seminar in financial economics; concentration on the theory of corporate governance and incentives in organizations. Instruction Mode: Lecture Grading Option: Letter

FBE 670 Selected Topics in Finance Research

Units: 1.5 Max Units: 6 Terms Offered: FaSp Selected topics in finance research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 699 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary finance and/or business economics. Registration Restriction: Open to doctoral students only. Instruction Mode: Lecture Grading Option: Letter

Food Industry Management**FIM 410 Leadership in the Food Industry**

Units: 2 Terms Offered: Sp An integrated approach for executives in the food industry to understand different leadership styles, tools, and dynamics while working to further define and improve their own leadership skills. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 481 Marketing Management in the Food Industry

Units: 4 Terms Offered: Sp An integrated approach to marketing new and existing products and services within a strategic food industry management context. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 482 Communication Management in the Food Industry

Units: 4 Terms Offered: Sp Development of communication skills required to write well, to speak dynamically and persuasively, to cultivate relationships using interpersonal communication skills, and to implement organizational strategies. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 485 Financial Analysis and Valuation in the Food Industry

Units: 2 Terms Offered: Sp Theory and practice of financial analysis and valuation in the food industry. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 497 Strategic Management in the Food Industry

Units: 4 Terms Offered: Sp Introduction to the concepts, tools, and principles of strategy formulation and competitive analysis as applied to food industry management decision-making. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 529 Financial Analysis and Valuation in the Food Industry

Units: 2 Terms Offered: Fa The practical application and integration of finance and accounting concepts to valuing investment projects and companies in the food industry. Registration Restriction: Open only to students in the MS in Food Industry Leadership program. Duplicates Credit in FBE 529 Instruction Mode: Lecture Grading Option: Letter

FIM 550 Perspectives on the Food Industry

Units: 1 Terms Offered: Fa Current issues,

new technologies, trends, government policy, emerging technologies and business models facing upstream, midstream, and downstream firms in the food industry. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

FIM 554 Leading Change in the Food Industry

Units: 1 Terms Offered: Sp Significant models of change processes; how and why they are used. Change management tools including organizational culture diagnosis, force field analysis, and social network analysis. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 554 Instruction Mode: Lecture Grading Option: Letter

FIM 560 Decision Making in the Food Industry

Units: 1 Terms Offered: Sm Evaluate the nature, causes, and consequences of deviations from "optimal" choice. Leverage psychological insights about how the brain works to make better decisions. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 560 Instruction Mode: Lecture Grading Option: Letter

FIM 564 Innovation in the Food Industry

Units: 1 Terms Offered: Sm Frameworks for innovating strategically to strengthen critical thinking skills to develop creative and innovative business solutions. Discover and create growth opportunities in the food industry. Registration Restriction: Open only to MS in Food Industry Leadership students Duplicates Credit in MOR 564 Instruction Mode: Lecture Grading Option: Letter

FIM 567 Influence and Power in the Food Industry

Units: 1 Terms Offered: Sm Explore frameworks to effectively wield power and influence. Develop individual competencies that enhance personal impact effectively and ethically. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 567 Instruction Mode: Lecture Grading Option: Letter

Units: 1 Terms Offered: Fa Evaluate the negotiation process via analytical frameworks and develop negotiation skills experientially to achieve business solutions within the food industry. Registration Restriction: Open only to Master of Science in Food Industry Leadership students Duplicates Credit in MOR 569 Instruction Mode: Lecture Grading Option: Letter

FIM 571 Leadership in the Food Industry

Units: 1 Terms Offered: Sm Analyze leadership styles and examine leadership behaviors and demands. Assess personal approach to leadership within the food industry. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 571 Instruction Mode: Lecture Grading Option: Letter

FIM 574 Food Industry for the Future

Units: 1 Terms Offered: Sp Societal trends, innovative technologies, and novel business models, which provide various possibilities for food industry transformation. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 564 Instruction Mode: Lecture Grading Option: Letter

FIM 591 Food Industry Leadership Capstone Project

Units: 3 Terms Offered: Sp Integrative team projects addressing unstructured business situations for actual clients. Application of analytical tools and critical thinking methods spanning multiple disciplines. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

Fixed Prosthodontics**FPRO 520 Preclinical Fixed Prosthodontics (ISP)**

Units: 2 Basic fundamentals of fixed prosthodontics; preparation for clinical procedures in posterior PFM's, posterior mandibular FPD's and in restoring endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 521 Preclinical Fixed Prosthodontics I

Units: 3 Fundamentals and principles of posterior prosthodontic procedures, including diagnosis, biomechanic principles, and construction of fixed prosthodontic restorations. Instruction Mode: Lecture Grading Option: Letter

FPRO 522 Preclinical Fixed Prosthodontics II

Units: 3 Fundamentals of aesthetic restorations; fabrication of posterior and anterior porcelain-fused-to-metal restorations and anterior porcelain jacket crown; restoration of endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 561a Clinic: Fixed Prosthodontics I

Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561b Clinic: Fixed Prosthodontics I

Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561c Clinic: Fixed Prosthodontics I

Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561d Clinic: Fixed Prosthodontics I

Units: 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: Letter

FPRO 562a Clinic: Fixed Prosthodontics II

Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 562b Clinic: Fixed Prosthodontics II

Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: Letter

FPRO 601 Advanced Fixed Prosthodontics

Units: 4 Critical review and evaluation of the fixed prosthodontic literature; guided experience in the laboratory and clinical phases of fixed prosthodontic therapy. Instruction Mode: Lecture Grading Option: Letter

French

FREN 012x French 120 Language Practicum

Units: 1 Terms Offered: FaSpSm English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* FREN 120 Credit Restriction: Not available for credit Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 015x French 150 Language Practicum

Units: 1 Terms Offered: FaSpSm English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* FREN 150 Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 020x Course in Reading French

Units: 2 Terms Offered: FaSpSm For graduate students who wish help in meeting the French reading requirement for the PhD degree. Synoptic presentation of French grammar. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 120 French I

Units: 4 Terms Offered: FaSpSm Introduction to current French. Oral practice, listening and reading comprehension; grammar necessary for simple spoken and written expression. *Prerequisite:* No previous experience or appropriate placement score. Instruction Mode: Lecture Grading Option: Letter

FREN 150 French II

Units: 4 Terms Offered: FaSpSm Continuation of FREN 120. *Prerequisite:* FREN 120 or appropriate placement score. Instruction Mode: Lecture Grading Option: Letter

FREN 220 French III

Units: 4 Terms Offered: FaSpSm Continuation of FREN 150. Review of structural patterns of French; selected cultural and literary readings; conversation and composition. *Prerequisite:* FREN 150 or appropriate placement score. Instruction Mode: Lecture Grading Option: Letter

FREN 235x Intermediate Conversational French: Culture, Society, and Communication

Units: 2 Terms Offered: FaSp Designed for non-majors/minors interested in maintaining and developing French language competency. Builds vocabulary, ease of communication, and cultural knowledge through discussion of contemporary topics. *Prerequisite:* FREN 220. Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 236x Professional Communication in French

Units: 2 Terms Offered: FaSp Professional communication skills and cultural competency as preparation for working in an international environment. *Prerequisite:* FREN 220. Instruction Mode: Lecture Grading Option: Letter

FREN 250 French IV

Units: 4 Terms Offered: FaSpSm Introduction to French literature through the study of texts and audiovisuals organized around a central theme; develops close-reading techniques and discursive skills; reviews French grammar. *Prerequisite:* FREN 220 or French placement exam. Instruction Mode: Lecture Grading Option: Letter

FREN 300 French Grammar and Composition

Units: 4 Terms Offered: FaSpSm Grammatical structure and vocabulary building with practical application to written composition. *Prerequisite:* FREN 250. Instruction Mode: Lecture Grading Option: Letter

FREN 305 Global Women's Narratives

Units: 2 Max Units: 04 Terms Offered: FaSp Experiential learning course organized around Francophone women's narratives, theory of narrative and testimony, and practice and publishing of interviews with women across global contexts. Instruction Mode: Lecture Grading Option: Letter

FREN 309 Voices of Change: Writers, Filmmakers and Artists of Contemporary Senegal

Units: 4 Terms Offered: Sp Study and research into the role of culture in social and political change in Senegal. Emphasis on history, theories and practices of African cultural identity. Taught in French. *Prerequisite:* FREN 250 Instruction Mode: Lecture Grading Option: Letter

FREN 310 Media French

Units: 4 Terms Offered: FaSpSm Analysis of French media. Practice in sustained conversation. Emphasis on spoken sentence patterns. *Prerequisite:* FREN 250. Instruction Mode: Lecture Grading Option: Letter

FREN 315 Inside the Courts: the French Legal Language and Culture

Units: 4 Terms Offered: Sp Broaden understanding of differences between American and French cultures; acquire specialized vocabulary; develop ability to address legal issues in writing and orally. Taught in French. *Prerequisite:* FREN 300 Instruction Mode: Lecture Grading Option: Letter

FREN 318 Global Cyphers: Hip Hop Circles Around the World

Units: 4 Terms Offered: Irregular History and practices of hip hop popular culture in France. Emphasis on the African diaspora, transnationalism, and contemporary dynamics of race and post/colonialism. Taught in English. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 318

FREN 320g The French New Wave and its Legacy

Units: 4 Terms Offered: FaSp Film-making in France from the earliest experiments to current trends. Emphasis on the political, social, historical context of French films. Taught in English. Reading knowledge of French recommended. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

FREN 330 Critical Writing in French

Units: 4 Terms Offered: FaSpSm Advanced composition through critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics. *Prerequisite:* FREN 300. Instruction Mode: Lecture Grading Option: Letter

FREN 340g Italian and French Cinema and Society

Units: 4 Terms Offered: Fa (Enroll in ITAL 340)

FREN 347g Race, Gender and Power in Francophone Literature

Units: 4 Terms Offered: FaSpSm Study of post-colonialism as a ferment for literary creation in the literature of French expression from Africa, the Caribbean and Canada. Conducted in French. *Corequisite:* FREN 330 Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

FREN 351 Introduction to Research in French and Francophone Cultures

Units: 4 Terms Offered: FaSp Introduction to research methods through the study of a specific topic in French and/or Francophone literature and culture. *Corequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 360 Business and Technical French

Units: 4 Specific vocabulary and formulae used in international commerce. Attention given to developing vocabulary and standard forms appropriate to individual career objectives. *Recommended Preparation:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 368 French Foreign Policy: 1945 to the Present

Units: 4 Terms Offered: FaSpSm (Enroll in IR 368)

FREN 370gm Equality and Difference around the Enlightenment

Units: 4 Terms Offered: FaSpSm 18th - and 20th century debates around the idea of equality and the notion of difference. Relevance of the Enlightenment to contemporary discussions of identity, citizenship, and human rights. Conducted in English. Satisfies New General Education in

Category B: Humanistic Inquiry Instruction
Mode: Lecture Grading Option: Letter

FREN 373g Remembering Loss, Writing Memory

Units: 4 Terms Offered: FaSp An exploration into how genocides and episodes of mass violence have been thought about, remembered and expressed in France and the Francophone world. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

FREN 375gmw Global Narratives of Illness and Disability

Units: 4 Terms Offered: Fa Study of difference as represented through French, Francophone and related narratives of disability and illness, with attention to race and gender. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizens in a Diverse World Instruction Mode: Lecture Grading Option: Letter

FREN 382 Paris Avant-Gardes

Units: 4 Exploration of experimental artistic collaborations between poets, novelists, art critics and artists of the Paris Avant-gardes in 19th and 20th century. Taught in French. Paris Semester. *Prerequisite:* FREN 330; *Corequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 383 French Women Writers

Units: 4 Terms Offered: FaSp Major figures and their roles in French society and contributions to French literature. Conducted in French. *Corequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-383

FREN 389 Islam in France

Units: 4 (Enroll in IR 389)

FREN 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

FREN 392 Seminar in Literary and Cultural Studies

Units: 4 Max Units: 8.0 Terms Offered: FaSp Selected topics in French and Francophone literature and culture. Conducted in French. *Corequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 393 Seminar in French Thought and Theory

Units: 4 Max Units: 08 Terms Offered: FaSp Introduction to important trends in recent French philosophy, political and social theory, psychoanalysis, ethnology, semiotics, and media studies. Emphasis to be determined by department. Conducted in English. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 393

FREN 401 Studies in Early Modernity

Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the early modern period (pre-1789). *Prerequisite:* FREN 330 Instruction Mode: Lecture Grading Option: Letter

FREN 402 Studies in Modernity

Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the modern period (post-1789). *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 403 Studies in Colonialism and Postcolonialism

Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of colonialism and postcolonialism in French and Francophone contexts. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 404 Studies in an Author

Units: 4 Terms Offered: FaSp Close readings in works of a single influential French or Francophone author. Focused study of style, creative developments, historical context. Conducted in French. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 410 Actualités Françaises

Units: 4 Terms Offered: Sp Present day French life through readings in French periodicals and viewing of French films and art exhibits. Non-majors prepare assignments in English. Conducted in French. Spring semester in Paris only. *Recommended Preparation:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 432 French Theatre

Units: 4 Terms Offered: Sp (Paris Semester only) A survey of French theatre from the 17th century to the present. Students read plays ranging from classical comedy and tragedy to modern movements. Live theatre performances will supplement class work. Taught in French. *Prerequisite:* FREN 330; *Recommended Preparation:* familiarity with French history since the Renaissance. Instruction Mode: Lecture Grading Option: Letter

FREN 445 Studies in Gender, Feminism and Sexuality

Units: 4 Terms Offered: FaSp Major feminist thinkers and writers viewed from the perspective of the evolution of gender and sexuality in contemporary France. Conducted in French. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-445

FREN 446 Contemporary French Thought

Units: 4 Max Units: 8 Terms Offered: FaSp Readings in structuralism, post-structuralism, feminism, and deconstruction. Conducted in French. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 448m France and Islam

Units: 4 Terms Offered: FaSp Historical and theoretical analyses of the complex history of Western perceptions of Islam, focusing on France. Taught in French. *Prerequisite:* FREN 330 *Recommended Preparation:* REL 137 for Religion majors and minors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES 448, REL 448

FREN 449 Studies in French Civilization

Units: 4 Terms Offered: Sp (Paris Semester only) An analysis of the prestige of

Paris, past and present, based upon close examination of literary texts and graphic materials, and visits to sites and monuments. *Recommended Preparation:* FREN 300. Instruction Mode: Lecture Grading Option: Letter

FREN 464 Colloquium: French Civilization

Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics such as the press, educational institutions, French cinema today, and French colonial history. Conducted in French. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

FREN 499 Special Topics

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Selected topics in French. *Prerequisite:* FREN 330. Instruction Mode: Lecture Grading Option: Letter

FREN 501 Early Modernities

Units: 4 Terms Offered: FaSp Broad introduction to French culture from the late Middle Ages through the 18th century; investigation of works of literature, philosophy, and visual culture. Instruction Mode: Lecture Grading Option: Letter

FREN 503 Modernities

Units: 4 An intellectual genealogy of French modernity and modernism through the examination of canonical literary texts and theories. Instruction Mode: Lecture Grading Option: Letter

FREN 504 Studies in Francophone Literature and Thought

Units: 4 Topics in Francophone literature and intellectual history of Africa, Asia and the Americas. Emphasis on colonial history and political and aesthetic concerns. Instruction Mode: Lecture Grading Option: Letter

FREN 520 Studies in Diaspora and Transnationalism

Units: 4 Introduction to contemporary literature and thought on the dynamics of diaspora, transnationalism, and globalization. Instruction Mode: Lecture Grading Option: Letter

FREN 530 Studies in a Genre

Units: 4 Studies one of the genres in French literature (including novel, poetry, drama, and essay) in any historical period or periods. Instruction Mode: Lecture Grading Option: Letter

FREN 540 Studies in French Literature and Philosophy

Units: 4 Examines literary and philosophical works side by side in any historical period or periods in France. Instruction Mode: Lecture Grading Option: Letter

FREN 550 Studies in Literature and Other Media

Units: 4 Survey-like review of the interaction between verbal and other artistic media such as print, music, dance, theater, and painting and the visual arts. Instruction Mode: Lecture Grading Option: Letter

FREN 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree.
Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 592 Practicum in Teaching French

Units: 2 Terms Offered: Fa Introduction to the approaches and techniques of teaching French as a second language. Open only to master's and PhD students who will be assistant lecturers in French. Registration Restriction: Only open to Master and PhD students who will be Assistant Lecturers in French. Instruction Mode: Lecture Grading Option: CR/NC

FREN 603 Seminar on an Author

Units: 4 Examines the work of a significant French author along with its critical and theoretical assessments. Instruction Mode: Lecture Grading Option: Letter

FREN 604 Topics in Contemporary French Thought

Units: 4 Examines French thought from 1960 to the present day. Instruction Mode: Lecture Grading Option: Letter

FREN 695 Topics and/or Themes in French Literature

Units: 4 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

FREN 696 Topics and/or Themes in Francophone Literature

Units: 4 Max Units: 12.0 Advanced seminar with varying focus on the Francophone literature and culture of West Africa, North Africa, the Caribbean, Quebec and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter

FREN 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

FREN 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

FREN 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

FREN 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

FREN 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Freshman Seminars**FSEM 100 Freshman Seminar**

Units: 2 Max Units: 4.0 Terms Offered: FaSp

A seven-to-eleven week course offered for incoming freshmen; limited to 18 students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FSEM 101 Freshman Seminar

Units: 2 Max Units: 4.0 Terms Offered: FaSp
A seven-to-eleven week course offered for incoming freshmen; limited to 18 students. Letter graded. Instruction Mode: Lecture Grading Option: Letter

FSEM 180 First Year College Seminar

Units: 2 Max Units: 4.0 Terms Offered: FaSp
A thematic seminar for entering students in the USC Dornsife College of Letters, Arts and Sciences, exploring an area of academic study, research, or creative work. Instruction Mode: Lecture Grading Option: Credit/No Credit

Geriatric Dentistry**GDEN 710 Knowledge Assessment for GDEN Students**

Units: 1 Terms Offered: Sm Review of topics explored in the previous courses of the program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. *Prerequisite:* OFPM 722 and OFPM 725 and GDEN 713 and GDEN 715 Registration Restriction: Open only to Geriatric Dentistry students Duplicates Credit in GDEN 716 Instruction Mode: Lecture Grading Option: Letter

GDEN 711a Case Portfolio Preparation for GDEN Students

Units: .5 Terms Offered: FaSpSm
Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711b Case Portfolio Preparation for GDEN Students

Units: .5 Terms Offered: FaSpSm
Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711c Case Portfolio Preparation for GDEN Students

Units: .5 Terms Offered: FaSpSm
Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711d Case Portfolio Preparation for GDEN Students

Units: .5 Terms Offered: FaSpSm
Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of

multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711e Case Portfolio Preparation for GDEN Students

Units: .5, Terms Offered: FaSpSm
Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 712a Capstone Research Project for GDEN Students

Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 733 Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729a Instruction Mode: Lecture Grading Option: Letter

GDEN 712b Capstone Research Project for GDEN Students

Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712a Duplicates Credit in OFPM 729b Instruction Mode: Lecture Grading Option: Letter

GDEN 712c Capstone Research Project for GDEN Students

Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712b Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729c Instruction Mode: Lecture Grading Option: Letter

GDEN 712d Capstone Research Project for GDEN Students

Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712c Duplicates Credit in OFPM 729d Instruction Mode: Lecture Grading Option: Letter

GDEN 713 Common Systemic Conditions in Older Patients

Units: 2 Terms Offered: FaSpSm Lectures on topics pertinent to the aging patient that highlight the differences between aging physiologic changes and disease-caused conditions most common to this demographic. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 714 Topics in Gerontology

Units: 2 Terms Offered: FaSpSm
Gerontology topics for dentists including clinical assessment tools for aging patients, policy issues, myths, social supports, and consent and communication issues in the

clinical setting. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 715 Geriatric Dentistry Issues

Units: 2 Terms Offered: FaSpSm Common geriatric dentistry topics including epidemiology of oral diseases, common dental diseases, their management and prevention protocols for older adult patients. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 716 Knowledge Assessment for GDEN Certificate Students

Units: 1 Terms Offered: Sm Review of topics explored in the certificate program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. Open only to certificate in Geriatric Dentistry students. (Duplicates credit in GDEN 710) *Prerequisite:* GDEN 711a and GDEN 711b and GDEN 713 and GDEN 714 and GDEN 715 and OFPM 722 and OFPM 725 Registration Restriction: Open only to certificate in Geriatric Dentistry students. Duplicates Credit in GDEN 710 Instruction Mode: Lecture, Quiz Grading Option: Letter

GDEN 722 Internal Medicine and Systemic Disease for Dental Residents

Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 722)

GDEN 725 Epidemiology, Nutrition and Aging for Dental Residents

Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 725)

GDEN 730 OFPM Case Portfolio Preparation for Dental Residents

Units: .5 Max Units: 01 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with orofacial pain and oral lesions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter

GDEN 731 GDEN Case Portfolio Preparation for Dental Residents

Units: .5 Max Units: 01 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter

GDEN 732 Case Portfolio Defense for GDEN Students

Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric

patients with complex medical conditions through online conferences in preparation, development and in person defense of portfolio of multiple cases. *Prerequisite:* GDEN 730 and GDEN 731 or (GDEN 711a and GDEN 711b and GDEN 711c and GDEN 711d) Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711e Instruction Mode: Lecture Grading Option: Letter

GDEN 733 Research Methodology

Units: 2 Terms Offered: FaSpSm A coordinated approach to understanding, critically assessing and applying the principles of scientific inquiry through the study of clinically relevant, discipline specific literature. Instruction Mode: Lecture Grading Option: Letter

Geography

GEOG 255 American Environmentalism

Units: 4 Terms Offered: FaSm Geographic and historic approach to the growth of environmental awareness in the United States from Colonial times to the present. Extensive use of case materials. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-255

GEOG 257g Environment and Ethics

Units: 4 Terms Offered: SpSm Examination of ethical issues in environmental context: systematic analysis of problems associated with protection and use of selected environments. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOG 345 Conservation of Natural Resources

Units: 4 Terms Offered: Fa Interaction between resource conservation and people based on recent advances, current developments, and future resource utilization. Special attention to the western United States. Field trips. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-345

GEOG 360 Environmental Disasters

Units: 4 Terms Offered: Sp Evaluates the causes, effects, and responses to international environmental disasters. Emphasis is on contemporary case studies in a theoretical context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-360

GEOG 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GEOG 431 California's Changing Landscapes

Units: 4 Terms Offered: Sp Type study of a region; distribution of physical and cultural phenomena; delimitation into natural regions; analysis of human-environment interaction in regions of the state. Field trips. Instruction Mode: Lecture Grading Option: Letter

GEOG 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max

12 Terms Offered: FaSp Individual research and readings.

GEOG 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

GEOG 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Seminar in selected topics in geography. Instruction Mode: Lecture Grading Option: Letter

GEOG 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOG 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOG 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOG 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOG 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOG 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Earth Sciences

GEOL 105Lg Planet Earth

Units: 4 Terms Offered: FaSpSm Geologic structure and evolution of planet earth. Principles of plate tectonics, rocks and minerals, processes of mountain building, continent and ocean formation, earthquakes, volcanism, development of landforms by running water and glaciers. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 107Lg Oceanography

Units: 4 Terms Offered: FaSp Physical, chemical, and geological character of the oceans and ocean basins. Origin of the oceans. Ocean processes and agents. Economic value of the oceans. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 108Lg Crises of a Planet

Units: 4 Terms Offered: FaSpSm Impact of civilization on planet earth, and impact of earth's natural evolution on society: earthquakes, volcanism, landslides, floods, global warming, acid rain, groundwater depletion and pollution; mineral and fossil fuel depletion, formation of the ozone hole. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 115L Exploring California's National Parks

Units: 4 Terms Offered: FaSpSm Overview of basic geologic principles and California geology taught through California's National Parks; additional focus on park history, policy, economics, and geologic hazards affecting parks. Lecture, 3 hours; laboratory, 2 hours. One all-day and one three-day field trip to a National Park required. Instruction Mode: Lecture, Required Lab Grading Option: Letter

GEOL 125Lg Earth History: A Planet and Its Evolution

Units: 4 Terms Offered: FaSpSm Basic principles of physics, chemistry, biology, and mathematics used in evaluating clues written in the rock record, and the processes that have shaped our planet. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 126Lg The History of Life on Earth: A View from the Museum

Units: 4 Terms Offered: FaSp Topically-driven exploration of evolution, environmental change, and the history of life on Earth via the fossil record with the Natural History Museum of Los Angeles as a laboratory. How the changing Earth and life co-evolved through time. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 130Lg The Nature of Scientific Inquiry

Units: 4 Terms Offered: FaSp Examination of the scientific process: what constitutes science; evolution of ideas about the nature of space, time, matter, and complexity; paradigm shifts in the biological and earth sciences. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 145g Lies, Damn Lies and Statistics

Units: 4 Terms Offered: FaSp Quantitative reasoning tools to form reliable judgments from quantitative evidence, discerning truth from lies, science from pseudoscience. Application to contemporary scientific and social issues. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 150Lg Climate Change

Units: 4 Terms Offered: FaSp Exploration of factors that influence climate and the scientific basis for concern about rising greenhouse gases, the threat to human society known as global warming. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 157Lg The Logic of Climate Change: From Data to Deeds

Units: 4 Terms Offered: Sp Quantitative underpinnings of the scientific case for man-made climate change. Analysis of climate data, examination of potential causes, attribution of causes, and civilizational consequences. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 160Lg Introduction to Geosystems

Units: 4 Terms Offered: FaSpSm Survey of natural geological/ environmental processes (systems) and variability active near the earth's surface in the region that houses most life (the biosphere). Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 165g Metals and Life on Earth

Units: 4 Terms Offered: Fa The role of metals in life, from the origin of life to modern environmental problems. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 240Lg Earthquakes

Units: 4 Terms Offered: FaSpSm Causes of earthquakes and nature of large faults; earthquake hazard and risk; world's great earthquakes; understanding the Richter scale. *Concurrent Enrollment:* MDA 140. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 241Lg Energy Systems

Units: 4 Terms Offered: FaSpSm Energy resources from a global perspective, including fossil fuels, nuclear, and renewable energy. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 290L Special Laboratory

Units: 1 Terms Offered: FaSp Laboratory component for GEOL 105, GEOL 107, GEOL 108, GEOL 125, GEOL 130, GEOL 150, or GEOL 240 for students with equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 305L Introduction to Engineering Geology

Units: 4 Terms Offered: Sp Principles of geology with emphasis on structural geology, hydrogeology and geological hazards; basic

geologic considerations in civil engineering practice; introduction to mineralogy and petrology. Field trip required. Duplicates Credit in GEOL 105 and GEOL 108. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 315L Minerals and Earth Systems

Units: 4 Terms Offered: Fa Minerals and their formation in Earth geosystems; includes discussions of mineral properties, crystal structures, uses and bio geochemical importance. *Recommended Preparation:* any introductory GEOL course. *Corequisite:* CHEM 105a or CHEM 115a; Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 316L Petrologic Systems

Units: 4 Terms Offered: Sp Formation and identification of igneous, metamorphic and sedimentary rocks; interpretation of tectonic and environmental settings based on rock type and chemistry. *Prerequisite:* GEOL 315. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 320L Surficial Processes and Stratigraphic Systems

Units: 4 Terms Offered: Fa Processes of erosion, sediment transport, and deposition that shape the land surface; landscape response to tectonism; recognition and interpretation of depositional environments in the stratigraphic record. *Corequisite:* GEOL 315. Duplicates Credit in former GEOL 334L, GEOL 451L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 321L Structural Geology and Tectonics

Units: 4 Terms Offered: Sp Field and theoretical aspects of rock deformation, analysis of structural systems, and stress and strain; orogenic belts and plate tectonics; introduction to field techniques and construction of geologic maps. *Recommended Preparation:* GEOL 320. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 351L Climate Systems

Units: 4 Terms Offered: FaSp Introduces systems behavior in the context of climate dynamics. Modules of instruction geared to climate system application to real world problems. *Prerequisite:* MATH 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 387ag Undergraduate Team Research

Units: 2 Terms Offered: FaSpSm Introduction to scientific inquiry, field research opportunities, and history of physical sciences; strategies, research methodologies, and writing skills for proposals, abstracts, papers, and professional development. *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture Grading Option: Letter

GEOL 387bg Undergraduate Team Research

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 387cg Undergraduate Team Research

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

GEOL 390 Special Problems

Units: 1, 2, 3, 4 Supervised individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GEOL 412 Oceans, Climate, and the Environment

Units: 4 Terms Offered: FaSp Fundamentals of climate including atmosphere and ocean. Topics include radiative energy balance, ocean-atmosphere linkages and approaches to study climate while building quantitative and qualitative skills. *Recommended Preparation:* GEOL 107Lg or GEOL 150Lg or GEOL 160Lg *Corequisite:* MATH 125g and (CHEM 105ALg or CHEM 103Lgx) Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 412, BISC 412

GEOL 425L Data Analysis in the Earth and Environmental Sciences

Units: 4 Terms Offered: Fa Introduction to mathematical methods giving insight into earth and environmental data. Topics include probability and statistics, timeseries analysis, spectral analysis, inverse theory, interpolation. *Recommended Preparation:* MATH 126, familiarity with matrix algebra. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 427 The Global Environment

Units: 4 Terms Offered: FaSpSm (Enroll in BISC 427)

GEOL 432L Introduction to Field Techniques

Units: 2 Terms Offered: FaSpSm Introduction to field techniques used in a variety of Earth Science disciplines. Field and digital techniques for map making including use of GIS, GPS, and digital tablets. Field analyses of rocks and rock structures. Map interpretation and digital processing of field data. Includes weekly labs and some weekend field trips. *Recommended*

Preparation: GEOL 316L, GEOL 320L, GEOL 321L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 433L Paleontology and Evolution in Deep Time

Units: 4 Terms Offered: Fa Origin and evolution of life; Precambrian life; evolutionary history of major groups during the Phanerozoic; mass extinctions; deep time and evolutionary processes. *Recommended Preparation:* any introductory GEOL course. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 440L Geophysics and Geoengineering

Units: 4 Terms Offered: Sp Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction seismics, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trip. *Prerequisite:* MATH 126; *Corequisite:* PHYS 135b or PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 441 Seismic Exploration Geophysics

Units: 4 Terms Offered: FaSp Seismic wave theory, ray theory, reflection, refraction, data processing, signal enhancement, field instrumentation and techniques on land and at sea; geological interpretation of seismic data. One field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 445 Earth Climate: Past, Present, and Future

Units: 4 (Enroll in ENST 445)

GEOL 450L Geosystems

Units: 4 Terms Offered: Fa Geosystems, such as mantle convection, active faults, climate, and the carbon cycle, will be studied using numerical models and concepts such as chaos, universality, emergence, and intermittency. *Prerequisite:* MATH 125; *Recommended Preparation:* MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 460L Geochemistry

Units: 4 Terms Offered: Fa Composition, origin, and evolution of the earth; principles of physical chemistry applied to aqueous systems; reaction-diffusion modeling and problems in sedimentary geochemistry; global (bio)geochemical cycles and environmental problems. *Prerequisite:* CHEM 105b or CHEM 115b and MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 465L Field Geology

Units: 4 Max Units: 8.0 Terms Offered: SpSm Ten days to four weeks of field study in an area of geological complexity, with preparatory instruction. *Recommended Preparation:* introductory earth science course, e.g., GEOL 105), GEOL 315. One or more of GEOL 316, GEOL 320. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 470L Environmental Hydrogeology

Units: 4 Terms Offered: FaSpSm Concepts in hydrogeology and application to environmental problems. Topics include

groundwater and surface water hydrology, chemistry, and contamination. Includes labs, guest lectures, and field trips. *Recommended Preparation:* GEOL 105, GEOL 160. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENST-470

GEOL 474 Ecosystem Function and Earth Systems

Units: 4 (Enroll in BISC 474)

GEOL 483 Geobiology and Astrobiology

Units: 4 Terms Offered: Sp (Enroll in BISC 483)

GEOL 485L Tectonic Geomorphology

Units: 4 Terms Offered: FaSp Focuses on the analysis of landforms that develop and evolve in tectonically active settings through the interplay of tectonics, climate, and surface processes. *Recommended Preparation:* GEOL 320L, GEOL 321L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GEOL 491x Earth Sciences Internship

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8 Terms Offered: FaSpSm Local, national, and international internships providing earth sciences experience in a professional setting. Registration Restriction: Not available for graduate credit. Department permission required Instruction Mode: Lecture Grading Option: Letter

GEOL 494x Senior Thesis

Units: 2 Terms Offered: FaSp Writing of a thesis under individual faculty supervision. Instruction Mode: Lecture Grading Option: Letter

GEOL 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Instruction Mode: Lecture Grading Option: Letter

GEOL 500 Marine Paleoecology

Units: 3, 2 years Terms Offered: Sp Principles of marine paleoecology; interrelationships between marine organisms and their environment in geologic time. *Recommended Preparation:* GEOL 577. Instruction Mode: Lecture Grading Option: Letter

GEOL 501 Paleobiology

Units: 3 Terms Offered: Fa Concepts and methods for functional morphologic analysis of fossil marine invertebrates. Systematics theory and methodology, macro evolution, and broad biotic trends in the Phanerozoic. *Recommended Preparation:* GEOL 433. Instruction Mode: Lecture Grading Option: Letter

GEOL 505 Introductory Graduate Seminar in Earth Sciences

Units: 2 Terms Offered: Fa Lectures by Earth Sciences faculty about current research; introduction of new graduate students to the breadth of current research; applying for research funding; practicing effective research presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 510L Advanced Stratigraphic Field Methods

Units: 3 Terms Offered: Fa Stratigraphic field methods and computer-assisted data analysis. Field trips incorporating vertical and lateral facies analysis; collection of paleocurrent, fabric, paleomagnetic, photogeologic and compaction data. *Recommended Preparation:* GEOL 320L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 511L Depositional Systems

Units: 3 Analysis of depositional systems, including conceptual methods of lithostratigraphy, biostratigraphy, chronostratigraphy, and paleoecology; description of major depositional environments. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 512 Introduction to Chemical and Physical Oceanography

Units: 4 Terms Offered: Fa (Enroll in OS 512)

GEOL 514 Marine Geology

Units: 3 Terms Offered: Fa Origin and characteristics of ocean basins; marine sedimentary environments; shoreline classification and character; evolution of oceanic features. Instruction Mode: Lecture Grading Option: Letter

GEOL 515 Introduction to Atmospheric Science

Units: 3 Terms Offered: Fa Elementary physical principles underlying the behavior of Earth's atmosphere. Dry and moist thermodynamics, radiative transfer, conservation laws, fundamental dynamical balances, instability theory, cloud physics. *Recommended Preparation:* PHYS 161, PHYS 304. Instruction Mode: Lecture Grading Option: Letter

GEOL 520 Biosedimentology

Units: 3 Terms Offered: FaSpSm Ancient and recent bioturbation and microbial structures and their utilization in stratigraphic, paleoenvironmental, paleoecological, sedimentological and geochemical studies. *Recommended Preparation:* GEOL 320L and GEOL 433L Instruction Mode: Lecture Grading Option: Letter

GEOL 521L Advanced Structural Geology

Units: 3 Terms Offered: FaSp Advanced field and theoretical aspects of rock deformation, strain and stress analyses, and evolution of structural systems. Includes lab, field trip(s), and class project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 525 The Science of Climate Change

Units: 4 Terms Offered: Sp Introduction to the fundamental aspects and the factors that influence ocean and atmospheric behavior, and how the earth's climate has varied in the past. Instruction Mode: Lecture Grading Option: Letter

GEOL 530 Modern Perspectives on Crustal Dynamics

Units: 3, 2 years Terms Offered: Sp Deformation mechanisms, strength and structure of the crust. Fractal scaling in structures and dynamic processes. Geodetic measurement of crustal deformation and

spatio-temporal patterns of seismicity.

Instruction Mode: Lecture Grading Option: Letter

GEOL 531 Plate Interactions: Geological Aspects

Units: 3, 2 years Terms Offered: Sp Principles and geometrics of plate tectonics; geologic characteristics of modern plate boundaries of divergent, convergent, transform type; ocean basin and orogen development from worldwide examples. Field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 532 Advanced Geologic Mapping

Units: 3 Terms Offered: Fa Principles of mapping geologically complex terranes of different structural style. Fieldwork will be coordinated with seminar review of diverse structural phenomena. Field trips. *Recommended Preparation:* GEOL 321, GEOL 465. Instruction Mode: Lecture Grading Option: Letter

GEOL 533L Continental Margin Arcs

Units: 3 Evolution of continental margin arcs, magmatic systems within arcs. Arcs as tectonic elements and "differentiation factories" leading to formation and removal of continental material. *Recommended Preparation:* GEOL 316, GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 534L Mechanics of Lithospheric Deformation

Units: 3 Terms Offered: Fa The mechanical description of deformational processes at both crustal and lithospheric scales, and the interpretation of geological and geophysical data in terms of these processes. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 535L Microstructures and Deformation Mechanisms

Units: 3, 2 years Terms Offered: Fa Examination of deformation mechanisms and resulting microstructures in rocks; chemical and textural equilibrium; physical and chemical processes during fluid flow; prophyroblast-matrix relationships; interpretation of kinematic indicators. Laboratory. *Prerequisite:* GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 536 Principles of Geomagnetism and Paleomagnetism

Units: 3, 2 years Terms Offered: Sp Historic geomagnetic field behavior, secular variation, rock magnetism, paleomagnetic techniques, magnetic polarity time scale, apparent-polar-wander paths, and applications to stratigraphic and geotectonic studies. *Recommended Preparation:* GEOL 440. Instruction Mode: Lecture Grading Option: Letter

GEOL 537 Rock Mechanics

Units: 3, 2 years Terms Offered: Sp Elasticity, fracture, and flow properties of rocks and minerals; effects of temperature, pressure, petrology, fractures, and interstitial fluids. Experimental techniques and geological applications. Instruction Mode: Lecture Grading Option: Letter

GEOL 538 Tectonic Evolution of Western North America

Units: 3, 2 years Terms Offered: Sp Geosynclinal and orogenic development of western North America from the Precambrian to present, in the light of plate tectonics concepts. Field trips. *Recommended Preparation:* GEOL 321. Instruction Mode: Lecture Grading Option: Letter

GEOL 540 The Mantle System

Units: 3 Terms Offered: Sp Dynamics and structure of the deep earth and its relationship to earth evolution. *Recommended Preparation:* GEOL 440 and GEOL 534. Instruction Mode: Lecture Grading Option: Letter

GEOL 545 Modeling and Numerical Techniques for Marine Scientists

Units: 4 Terms Offered: Sp (Enroll in BISC 545)

GEOL 550 Chemical Equilibrium and Disequilibrium in Geology

Units: 3, 2 years Terms Offered: Sp Phase equilibria; phase diagrams; thermodynamics of aqueous and solid solutions; irreversible thermodynamics; kinetics, diffusion, and metasomatism, with applications to problems in petrology and geochemistry. *Prerequisite:* GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 551 Introduction to Seismology

Units: 3, 2 years Terms Offered: Fa Basic elements of seismology for the study of the earth's interior and the tectonic process, utilizing observations of seismic waves. Instruction Mode: Lecture Grading Option: Letter

GEOL 552 Advanced Seismology

Units: 3 Advanced methods of theoretical seismology for studying the generation of seismic waves from natural and artificial sources and the propagation through realistic earth models. Instruction Mode: Lecture Grading Option: Letter

GEOL 553 Physics of Earthquakes

Units: 3, 2 years Terms Offered: Fa Basic physics of earthquakes and seismicity. Continuum elasticity; fracture mechanics; laboratory friction; damage rheology; physics of critical phenomena; spatio-temporal seismicity patterns; analysis of complex data sets. *Recommended Preparation:* GEOL 537 and/or GEOL 551. Instruction Mode: Lecture Grading Option: Letter

GEOL 555 Paleooceanography

Units: 3 Mesozoic and Cenozoic paleooceanography; analytical approaches applied to water mass history, paleocirculation, paleoproductivity, nutrient cycling, and paleotemperature reconstruction. Lecture, readings, and research project. *Recommended Preparation:* GEOL 412 or GEOL 512 and GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 556 Active Tectonics

Units: 3 Terms Offered: Sp Aspects of deformation and associated seismicity at active plate margins around the world. Includes review of plate tectonics, seismology, geodesy, paleomagnetism, geodynamics, - Quaternary dating

techniques, tectonic geomorphology, paleoseismology, and seismic hazard assessment. Two weekend field trips required. *Prerequisite:* GEOL 321.

Recommended Preparation: GEOL 530, GEOL 531 Instruction Mode: Lecture Grading Option: Letter

GEOL 557 Numerical Modeling of Earth Systems

Units: 3 Terms Offered: Fa The quantitative modeling of ordinary and partial differential equations as they arise in geology, geophysics, climate modeling and related fields with practical, numerical focus.

Recommended Preparation: GEOL 425, GEOL 534, and GEOL 540. Instruction Mode: Lecture Grading Option: Letter

GEOL 558 Inverse Theory in the Earth Sciences

Units: 3 Terms Offered: FaSp Short review of probability theory, and extensive coverage of linear inverse theory, including seismic imaging. Non-linear inverse problems and factor analysis. *Recommended Preparation:* GEOL 425. Instruction Mode: Lecture Grading Option: Letter

GEOL 560 Marine Geochemistry

Units: 3, 2 years Terms Offered: Sp Principles of chemical sedimentology and aquatic chemistry; diagenesis, authigenesis, and the geochemical cycle. *Prerequisite:* GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 564 Isotope Geochemistry

Units: 3, 2 years Terms Offered: Sp Variations in the isotopic composition of elements in the earth's crust with applications to geological problems, including geochronology, geothermometry, ore genesis, and crustal evolution. Instruction Mode: Lecture Grading Option: Letter

GEOL 566 Geochemistry Seminar

Units: 1, 2, 3, 4 Current topics in geochemistry. Instruction Mode: Lecture Grading Option: Letter

GEOL 567 Stable Isotope Geochemistry

Units: 3 Theoretical basis; nuclide nomenclature, partition function ratios, mechanisms and rates of isotope exchange; mass spectrometry and extraction techniques; application of stable isotopes to geologic problems. Instruction Mode: Lecture Grading Option: Letter

GEOL 568L Metamorphic Petrology

Units: 3, 2 years Terms Offered: Fa An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 569L Igneous Petrology

Units: 3, 2 years Terms Offered: Fa Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 575 Organic Geochemistry

Units: 3 Terms Offered: Sp Advanced course on the fundamentals and frontiers of organic

geochemistry. Topics include biomarker and isotope geochemical approaches to reconstructing past marine, terrestrial environmental change. *Recommended Preparation:* CHEM 105a, CHEM 105b, CHEM 322a, CHEM 322b, GEOL 150, GEOL 412, or equivalent background. Instruction Mode: Lecture Grading Option: Letter

GEOL 577L Micropaleontology

Units: 3, 2 years Terms Offered: Fa Microscopic fossils, especially foraminifera, their classification, the common genera, morphology, evolutionary trends; laboratory and field techniques. *Recommended Preparation:* GEOL 433. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 588L Quantitative Analysis for Biological and Earth Sciences

Units: 4 Terms Offered: Sp (Enroll in BISC 588.)

GEOL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 593 Practicum in Teaching the Liberal Arts

Units: 2 Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 599 Special Topics

Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Irregular Special topics in the earth sciences. Field trip required when appropriate to the topic. *Prerequisite:* second-year graduate standing normally required. Instruction Mode: Lecture Grading Option: Letter

GEOL 601 Seminar in Sedimentary Geology

Units: 1, 2, 3 Max Units: 6.0 Terms Offered: Sp Analysis and discussion of current topics in sedimentary geology; topics will be chosen by students and faculty to focus on areas of recent advances. Instruction Mode: Lecture Grading Option: Letter

GEOL 609 Seminar in Earthquake Physics

Units: 2 Max Units: 6.0 Terms Offered: FaSp Current research on the physics governing earthquakes and faults, including results from continuum and fracture mechanics, statistical physics, lab experiments, and seismological observations. Instruction Mode: Lecture Grading Option: Letter

GEOL 650 Recent Advances in Paleontology

Units: 3 Selected review of recent ideas in paleobiology, evolution, and paleoecology related to examining the current frontiers in paleontology. Instruction Mode: Lecture Grading Option: Letter

GEOL 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

German

GERM 020x Course in Reading German

Units: 2 For graduate students who wish help in meeting the German reading requirement for the PhD degree. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 025x Course in Reading German

Units: 2 Continuation of 020x. Reading selections appropriate to candidate's major field. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 101 German I

Units: 4 Introduction to modern German. Oral practice, listening and reading comprehension. Basic structures necessary for simple spoken and written expression.

Instruction Mode: Lecture Grading Option: Letter

GERM 102 German II

Units: 4 Continuation of German I. Introduction to German culture. *Prerequisite:* GERM 101. Instruction Mode: Lecture Grading Option: Letter

GERM 201 German III, Conversation and Composition

Units: 4 Intermediate German. Increasing emphasis on listening and speaking skills and a review of basic structures of German. Discussion of cultural aspects. *Prerequisite:* GERM 102. Instruction Mode: Lecture Grading Option: Letter

GERM 221 Conversational German IV

Units: 4 Conversational German in a variety of topical settings and vocabulary domains. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 310 Business German I

Units: 4 Terms Offered: Sp Introduction to German business language structure including correspondence and oral communication. In German. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 311 Business German II

Units: 4 Terms Offered: Fa Continuation of GERM 310. Terminology and style of commercial and legal texts, analyzed and applied in oral and written work. In German. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 320 Composition and

Conversation on Contemporary Affairs
Units: 4 Practice in oral and written German, emphasizing contemporary cultural and social developments in the German-speaking countries of Europe. In German. *Prerequisite:* GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 325 Composition and Conversation in Cultural History

Units: 4 Practice in oral and written German, emphasizing the cultural history of the German-speaking countries of Europe. In German. *Prerequisite:* GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 330 Introduction to Literary Studies

Units: 4 Review of essential literary terms, concepts, and critical methods through analysis and discussion of selected primary and secondary works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 335 Applied German Drama

Units: 4 Max Units: 8.0 Works of a German playwright in their social and cultural context, leading to a dramatization of one of the works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 340 German Prose Fiction from Goethe to Thomas Mann

Units: 4 Examines German prose fiction from the late 18th to the early 20th centuries, with particular emphasis on how narrative texts are constructed. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 346 German Folklore and Popular Culture

Units: 4 Survey and analysis of folklore and cultural phenomena, including tales, legends, and myths; folk and popular music; beliefs and customs. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 351 Colloquium on Drama

Units: 4 German drama from the 18th century, with emphasis on modernism (since Büchner) and the 20th century avant garde styles: Expressionist, Epic, Grotesque, Documentary, and Sprechtheater. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 352 Colloquium on Poetry

Units: 4 Definition and analysis of lyric genre through a study of major poets, such as Goethe, Schiller, Heine, Rilke, and Hofmannsthal; poetic traditions from the 17th century to the present. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 353 Colloquium on Prose

Units: 4 Study of German prose from the 18th century to the present; emphasis on narrative and thematic perspectives in relation to social change and on modernism since Kafka. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 360g 20th Century German Prose: Texts and Films

Units: 4 Aesthetic and historical analysis of major German 20th century novels, complemented by brief study of cinematic adaptation of each text. Texts in English; films with subtitles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 370 Literature and Culture in Vienna at the Turn of the Century

Units: 4 Literature, culture, and society in Vienna 1890–1925; works by figures such as Schnitzler, Hofmannsthal, Kafka, Musil, Kraus, Schönberg, Kokoschka, Freud, Wittgenstein, and others. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 372g Literature and Culture in Berlin in the 1920s

Units: 4 Literature, culture, and society through works by figures such as Kaiser, Toller, Brecht/Weill, Piscator, Th. Mann, Doebelin, Lukacs, Heidegger, etc. Films: Caligari, Metropolis, Berlin, M, Blue Angel. In English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 375g The German Exile Experience

Units: 4 Terms Offered: FaSp Surveys the work of German intellectuals, writers, artists, and scientists in U.S. exile during the time of the Nazi government in the 1930s and 1940s. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual

studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERM 410 Profile of German Literature I

Units: 4 Survey of major trends in German literature within their historical and cultural contexts from the beginnings to the Baroque period. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 420 Profile of German Literature II

Units: 4 Survey of major trends, figures, and authors in German literature and culture of the 18th and 19th centuries within the European context. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 430 Age of Goethe

Units: 4 Background and significance of the period; lyrics, major dramatic and prose works from 1770–1832; Storm and Stress; Classicism; Goethe and Schiller. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 440 Women's Literature in Germany I

Units: 4 Reading and analysis of medieval texts from German-speaking countries, written by and about women: science, love, poetry, letters, drama, mysticism, romance. Conducted in German. Instruction Mode: Lecture Grading Option: Letter

GERM 460 Expressionism to the Present

Units: 4 Representative authors and works since 1910; World War I, Expressionism, New Objectivity, World War II; literature after 1945: East and West, Swiss and Austrian. Instruction Mode: Lecture Grading Option: Letter

GERM 465 Germany East and West

Units: 4 Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 466 The German Speaking Nations

Units: 4 Focus on the culture, history, and society of Austria, East and West Germany, and Switzerland. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 470 Advanced Composition and Stylistics

Units: 4 Development of competence in written expression; fundamentals of style in expository writing. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GERM 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected topics or regions. Instruction Mode: Lecture Grading Option: Letter

GERM 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

Gerontology

GERO 200 Gerontology: The Science of Adult Development

Units: 4 Terms Offered: FaSp Introduction to adult development through the lifespan; biological, psychological, and social processes; gerontology as a career for the future. Instruction Mode: Lecture Grading Option: Letter

GERO 310 Physiology of Aging

Units: 4 Terms Offered: Fa Effects of normative aging processes on homeostatic mechanisms and how these changes relate to development of disorder and disease in later life. Instruction Mode: Lecture Grading Option: Letter

GERO 315g A Journey into the Mind

Units: 4 Terms Offered: Sp Introduction to the brain and mind. A unique multimedia approach to stress how knowledge about the mind is gained from scientific and clinical investigations. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture Grading Option: Letter

GERO 320g Psychology of Adult Development

Units: 4 Terms Offered: FaSpSm How psychologists study thinking, memory, emotions, personality, and behavior, and how people change in these throughout adulthood to old age. *Recommended Preparation:* PSYC 100Lg Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

GERO 321 Introduction to Psychology and Aging

Units: 4 Terms Offered: FaSp An introduction to the core curriculum in the study of Gerontology. Research perspectives on adult development and aging; methodological issues; personality and relationship issues; general mental and emotional components of aging; research methods. Duplicates Credit in GERO 320g Instruction Mode: Lecture Grading Option: Letter

GERO 330 Society and Adult Development

Units: 4 Terms Offered: FaSp How social relationships affect adults of different ages; the changing contract across generations; interaction of culture, race, family and social values with adult development. Instruction Mode: Lecture Grading Option: Letter

GERO 340 Policy, Values, and Power in an Aging Society

Units: 4 Terms Offered: FaSp How Americans' political values affect public policy. Studies of landmark legislation to explore the social contract between generations and role of governments in social welfare. Instruction Mode: Lecture Grading Option: Letter

GERO 350 Administrative Problems in Aging

Units: 2 or 4 Terms Offered: Fa Analysis of the skills, approaches and issues involved in the planning, development, and implementation of programs directed

at meeting the needs of older persons.

Instruction Mode: Lecture Grading Option: Letter

GERO 353g Social and Behavioral Foundations of Health and Aging

Units: 4 Terms Offered: Fa Explore social and behavioral foundations of health, longevity, and medicine, in the context of an increasingly diverse and long-lived population. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture

GERO 380m Diversity in Aging

Units: 4 Exploring diversity in the older population and variability in the human aging process. Instruction Mode: Lecture Grading Option: Letter

GERO 385 Transitions in Adulthood

Units: 2 or 4 An exploration of the critical issues and transitions in the adult years, including careers, relationships, parenthood, and major turning points for personal development. Instruction Mode: Lecture Grading Option: Letter

GERO 390 Special Problems

Units: 1-4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERO 402 Housing for the Elderly: Policy, Programs, and Design

Units: 2 An overview of housing policies, programs and design for the elderly, including analysis and evaluation of past, current and proposed government programs. Instruction Mode: Lecture Grading Option: Letter

GERO 411L Physiology, Nutrition, and Aging

Units: 2 or 4 Explores nutritional needs and the physiological, psychological, and sociological relationships to nutrition. Laboratory experiments in assessment and evaluation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 412L Exercise and Aging: Principles and Programs

Units: 2 or 4 Physiological, psychological, and sociological aspects of exercise. Laboratory involvement in assessment and evaluation of fitness. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 414 Neurobiology of Aging

Units: 4 Terms Offered: Fa Age-related changes in nervous system structure and function; relationship of brain changes to changes in cognitive function and perception; Alzheimer's and Parkinson's diseases. Lecture and discussion. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

GERO 415 Neuroaffective Disorders of Aging

Units: 4 Terms Offered: Sp Methods of studying, evaluating, and treating cognitive, psychiatric, and behavioral problems associated with medical conditions of old age. Instruction Mode: Lecture Grading Option: Letter

GERO 416 Health Issues in Adulthood

Units: 4 Terms Offered: Sp Physiological, psychological, and social health problems of adults as they are impacted by health choices throughout life. Instruction Mode: Lecture Grading Option: Letter

GERO 417 Imaging of Human Aging in Health and Disease

Units: 4 Terms Offered: Sp An introduction to the use of imaging techniques to study human senescence and its related diseases. Instruction Mode: Lecture Grading Option: Letter

GERO 435m Women and Aging: Psychological, Social and Political Implications

Units: 4 Terms Offered: FaSpSm Problems and resources of the middle-aged and older woman in a changing society; including discrimination, stereotypes, employment, social interaction, etc. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-434

GERO 437 Social and Psychological Aspects of Death and Dying

Units: 2 or 4 Terms Offered: FaSp Introduction and critical survey of the current issues, concepts, and research of the social and psychological aspects of death and dying. Instruction Mode: Lecture Grading Option: Letter

GERO 440 Biodemography of Aging

Units: 4 Consideration of the biological and social-cultural factors that govern the evolution of life spans and the life of humans and selected animal models *Prerequisite:* BISC 120 or BISC 121 *Recommended Preparation:* recommended preparation: statistics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 440

GERO 452 Economic Issues and the Aged

Units: 2 or 4 Analysis of economic factors associated with the aged; implications for individuals, society, and the economy; lifecycle economics, retirement, income maintenance, and social security. Instruction Mode: Lecture Grading Option: Letter

GERO 461 Seminar in Molecular and Computational Biology

Units: 2 Terms Offered: FaSpSm (Enroll in BISC 461) Grading Option: Letter

GERO 470 Aging and Business

Units: 4 Terms Offered: Fa An introduction to the dynamic roles of business in an aging society focusing on workplace issues, marketing to mature consumers, and careers for business gerontologists. Instruction Mode: Lecture Grading Option: Letter

GERO 475 Ethical Issues in Geriatric Health Care

Units: 4 Biomedical ethical issues that are encountered in working with geriatric patients. Examination of ethical theory and the application of theory to clinical settings. Instruction Mode: Lecture Grading Option: Letter

GERO 481 Case Management for Older Adults

Units: 4 Terms Offered: Fa Overview of the concepts, characteristics, skills, and clinical issues of case management in a variety of

settings serving older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 483 Global Health and Aging

Units: 4 Terms Offered: Fa Overview of the impact aging populations will have on global institutions from a variety of perspectives. Examination of public health policy issues. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HP-483

GERO 488 Food, Culture, Disease and Longevity in Italy and in the Mediterranean

Units: 4 Terms Offered: SpSm Examines the historical, political, economic, social, and artistic past of food in the Mediterranean, particularly in Italy from Roman times to the present. Instruction Mode: Lecture Grading Option: Letter

GERO 490x Directed Research

Units: 1-8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

GERO 491 Practicum

Units: 2-8 Max Units: 8.0 Terms Offered: FaSpSm Supervised experience in one or more community agencies. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 492 Senior Seminar

Units: 4 Terms Offered: Sp An in-depth integration of major research and professional themes in the study of human development and aging. Instruction Mode: Lecture Grading Option: Letter

GERO 493p Longevity and Death among Ancient and Modern European Populations (Italy)

Units: 2 Terms Offered: SpSm The discoveries of ancient humans and bodies that have been preserved illuminate the connection between diet, health, and disease. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 494 Emotion-Cognition Interactions and Aging

Units: 4 Terms Offered: Sm Covers the paradox of emotion in aging, as well as how stress and emotion influence cognition and the brain across the lifespan. Instruction Mode: Lecture Grading Option: Letter

GERO 495 Practicum in Geriatric Care

Units: 4 Terms Offered: FaSpSm Supervised experience in a geriatric health care setting which allows students to put theories and ideas into practice. Graded CR/NC. Lecture, discussion, and fieldwork. Instruction Mode: Lecture Grading Option: Letter

GERO 496 Introduction to Clinical Geriatrics

Units: 4 Medical problems of older adults emphasizing common geriatric syndromes, chronic illness, and alternative approaches to primary health care of older persons and their families. Upper division standing. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture

GERO 497a Honors Seminar

Units: 2 Terms Offered: FaSpSm Advanced

study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research.

Prerequisite: standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 497b Honors Seminar

Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. *Prerequisite:* standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 497c Honors Seminar

Units: 2-4 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. *Prerequisite:* standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 498 Nutrition, Genes, Longevity and Diseases

Units: 4 Terms Offered: Sm Examines the role of nutrition and genes and the impact each has on longevity and diseases, particularly diseases related to aging. Offered in Genoa, Italy. Instruction Mode: Lecture Grading Option: Letter

GERO 499 Special Topics

Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontology. Instruction Mode: Lecture Grading Option: Letter

GERO 500 Perspectives on a Changing Society: An Introduction to Aging

Units: 4 Terms Offered: Fa Analysis of physical, mental, and social age-related changes as well as implications of population aging trends for individuals and society. Instruction Mode: Lecture Grading Option: Letter

GERO 501 Applied Legal and Regulatory Issues in Aging

Units: 4 Terms Offered: Fa Analysis of shifting legal and regulatory issues affecting the delivery of aging services. Instruction Mode: Lecture Grading Option: Letter

GERO 502 Marketing and Shifts in Consumer Decision Making

Units: 4 Terms Offered: Fa Branding, marketing, and consumer behavior through examination of established, transitioning and emerging aging services and organizations. Instruction Mode: Lecture Grading Option: Letter

GERO 504 Current Issues in Aging Services Management

Units: 4 Terms Offered: Sp Basic skills needed for an executive working in an aging services environment. Recommended for entry level administrators and managers. Instruction Mode: Lecture Grading Option: Letter

GERO 505 Housing and Community Policies and Programs

Units: 4 Terms Offered: FaSp Examination of the behavioral and social consequences of design and the environment to create a more

satisfying physical environment for both frail and active older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 506 Technological Innovations in Aging (Gerontechnology)

Units: 4 Terms Offered: Sp Reflections on shifts in preferences for aging in place and the market ramifications of innovations in science and technology on older consumers and service providers. Instruction Mode: Lecture Grading Option: Letter

GERO 507 End of Life Care

Units: 4 Terms Offered: Sp Examination of programs related to end of life care. Cultural competencies in working with a diverse population on end of life issues. Instruction Mode: Lecture Grading Option: Letter

GERO 508 The Mind and Body Connection through the Lifespan

Units: 4 Terms Offered: FaSpSm An introduction to mind-body processes involved in healthy aging. Examines the interplay of emotions, beliefs, and behaviors in shaping health-relevant biological processes. Instruction Mode: Lecture Grading Option: Letter

GERO 509 Mindful Aging: Spirituality, Gratitude, and Resilience

Units: 4 Terms Offered: Sp Fosters vital imaginative connections to transform one's understanding and experience of the aging process from within, in order to re-envision the aging process as a spiritual journey. Instruction Mode: Lecture Grading Option: Letter

GERO 510 Physiology of Development and Aging

Units: 4 Terms Offered: Sp Examination of lifespan physiology of human development, growth, and aging; major emphasis in the physiology of the later years and implications for health maintenance. Instruction Mode: Lecture Grading Option: Letter

GERO 511 Fundamentals of Clinical Nutrition Screening and Assessment

Units: 4 Terms Offered: Sp Examines tools and resources used to evaluate the nutrition status of individuals across the lifespan including biochemical, anthropometric and subjective global assessment. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 512 Communicating Nutrition and Health

Units: 2 Terms Offered: Fa Overview of current understanding of the dietary and nutritional needs of individuals across their lifespan. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 513 Fundamentals of Nutrition: Macronutrients

Units: 3 Terms Offered: Fa A study of the principles of human nutrition throughout the life cycle. Current topics and controversies in nutrition and health are discussed. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 515L Food Production and Food Service Management

Units: 4 Terms Offered: FaSp A study of principles and procedures for food systems including techniques of food preparation, development, modification and evaluation of recipes, menus and products. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 517L Advanced Therapeutic Nutrition

Units: 4 Terms Offered: Fa Application of nutrition science, physiology, biochemistry, and metabolism to evaluate critically ill patients and plan nutrition intervention and monitoring. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 518 Current Topics in Clinical Nutrition

Units: 4 Terms Offered: Sp Discuss various factors that affect nutrition and aging. Topics include allergies in nutrition, food toxins, weight factors, and prevention and treatment of multiple organ systems. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 519 Recent Advances in Neurobiology and Endocrinology of Aging

Units: 2 or 4 Theories of the biology of aging and the effects of age on functional integrity of the total organism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC-519

GERO 520 Life Span Developmental Psychology

Units: 2 or 4 Terms Offered: FaSm Behavior from adulthood to old age; study of major components of behavior such as perception, cognitive processes, personality, intergenerational relationships, sexuality, and life styles. Instruction Mode: Lecture Grading Option: Letter

GERO 522 Counseling Older Adults and Their Families

Units: 2 or 4 Terms Offered: Sp Theory and application of assessment and intervention techniques with older adults and their families. Topics include: treatment modalities, psychopathology, ethical and legal issues, brain disorders. Instruction Mode: Lecture Grading Option: Letter

GERO 530 Life Span Developmental Sociology

Units: 4 Terms Offered: Sp Life span perspective on the sociological theories of marriage and the family, inter-generational relationships, work and retirement, and other forms of social organization. Instruction Mode: Lecture Grading Option: Letter

GERO 540 Social Policy and Aging

Units: 4 Terms Offered: Fa Major legislation and programs; examination and analysis of policy-making and political processes affecting development and implementation of programs for older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 541 Health Care Delivery Models: Comparative Approaches

Units: 4 Examination of current trends and future prospects of finance and reimbursement systems. Topics include major legislation and programs such as Medicare and Medicaid. Instruction Mode: Lecture Grading Option: Letter

GERO 550 Administration and System Management in Programs for Older Adults

Units: 4 Terms Offered: Sp Application of theories of administration and system management to public and volunteer programs and services for older adults including residential institutions and community programs. Instruction Mode: Lecture Grading Option: Letter

GERO 551 Applied Policy Skills in Aging

Units: 4 Terms Offered: Sp An overview and application of techniques and approaches used in the definition and analysis of policy problems in aging. *Prerequisite:* GERO 540. Instruction Mode: Lecture Grading Option: Letter

GERO 552 Human Resources and Aging

Units: 4 Terms Offered: FaSp Addresses legal issues and liability arising out of the employer-employee relationship, and how to identify and act proactively to minimize such risk. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GERO 554 Evaluation: Incorporating Evidence-Based Practices

Units: 4 Terms Offered: Sp Examination of the evaluation of health and service delivery in aging services industries. Instruction Mode: Lecture Grading Option: Letter

GERO 555 Integrating Gerontology: A Multidisciplinary Approach

Units: 4 Terms Offered: Sp Aging (commonalities and distinctions) as addressed by biologists, psychologists, and sociologists. Topics include research perspectives, normative aging, functional decline and disability, and aging and society. Instruction Mode: Lecture Grading Option: Letter

GERO 557 Geriatric Care Management

Units: 4 Terms Offered: Sp Overview of concepts, issues, and approaches to geriatric care management. Includes analysis and practice of a variety of care management clinical skills. Instruction Mode: Lecture Grading Option: Letter

GERO 560 Micronutrients, Health, and Longevity

Units: 4 Terms Offered: FaSpSm Explores the basis of nutrition needs for vitamins, major minerals and trace minerals including nutrient interaction and their role in health and longevity. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 561 Introduction to Aging and Normal Changes with Aging

Units: 4 Terms Offered: FaSp Introduces medical and health care professionals to the interdisciplinary field of gerontology. Examines the world's changing demography;

effects of aging on physical, psychological and social changes; aging process, ethical issues, aging stereotypes. Instruction Mode: Lecture Grading Option: Letter

GERO 562 Diseases of Aging with Emphasis on Cardiovascular Disease and Diabetes

Units: 4 Terms Offered: FaSp An introduction to the diseases of aging with an emphasis on cardiovascular disease and diabetes. Instruction Mode: Lecture Grading Option: Letter

GERO 563 Geropsychology

Units: 4 Terms Offered: FaSp Understanding geropsychology and cognition in advanced age; psychosocial theories of aging and psychodynamic models. Instruction Mode: Lecture Grading Option: Letter

GERO 564 Multiple Chronic Conditions and Older Adults

Units: 4 Terms Offered: FaSp Complexities of treating older persons with multiple chronic diseases and conditions. Instruction Mode: Lecture Grading Option: Letter

GERO 565 Novel Technologies in Aging and Assisted Living

Units: 4 Terms Offered: FaSp Focuses on the understanding of technology use with older adults. Examines telemedicine and e-health technologies as well as ethical considerations. Instruction Mode: Lecture Grading Option: Letter

GERO 566 Cognitive Decline: Alzheimer's Disease and Dementia and Advances in Imaging

Units: 4 Terms Offered: FaSp Covers cognitive decline for people with Alzheimer's Disease or other forms of dementia. Imaging technology to identify and find treatment options. Instruction Mode: Lecture Grading Option: Letter

GERO 567 Prevention of Chronic Diseases through Nutrition, Physical Activity and Lifestyle Changes

Units: 4 Terms Offered: FaSp Nutrition, psychical engagement and social interaction. Interventions, assessments, screening protocols and guidelines for nutrition in older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 568 Adaptive Age-Friendly Environments and Injury Prevention

Units: 4 Terms Offered: FaSpSm Covers adaptive, age-friendly environment and injury prevention for older adults. Adaptations in household safety, assistive technology, ergonomics and universal design principles. Instruction Mode: Lecture Grading Option: Letter

GERO 569 Healthcare Leadership and Administration

Units: 1 Terms Offered: FaSpSm Application of basic management concepts in a healthcare setting; achieving patient care goals and objectives via team caregiving. Instruction Mode: Lecture Grading Option: Letter

GERO 574 Leadership and Management in Senior Living

Units: 3 Terms Offered: FaSpSm Management and leadership in senior living

organizations. Managerial techniques as well as leadership styles will be analyzed and reviewed. Instruction Mode: Lecture Grading Option: Letter

GERO 575 Marketing Senior Living

Units: 3 Terms Offered: FaSpSm Current practices in marketing senior living and associated services. Examines behaviors and preferences of older adults and their families. Explores new media platforms. Instruction Mode: Lecture Grading Option: Letter

GERO 576 Finance and Senior Living

Units: 3 Terms Offered: FaSpSm Unique aspects of senior living financial structures, revenue management and accounting principles. Instruction Mode: Lecture Grading Option: Letter

GERO 577 Food Service and Senior Living

Units: 2 Terms Offered: FaSpSm Addresses the food services components of senior living. Covers pricing, menu design and nutrition. Instruction Mode: Lecture Grading Option: Letter

GERO 578 Revenue Management for Senior Living

Units: 2 Terms Offered: FaSpSm Understanding of revenue sources for senior living. Develop skills and approaches to managing sustainable strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 579 Branding Senior Living

Units: 2 Terms Offered: FaSpSm Marketing models aimed to provide services for senior living. Analyze various institution's models for marketing, communicating and technological influence to brand a facility. Instruction Mode: Lecture Grading Option: Letter

GERO 585 The Aging Family

Units: 2 or 4 Terms Offered: Sm Family processes and structure in families with aged persons will be reviewed, including marital and family therapy and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 589 Case Studies in Leadership and Change Management

Units: 4 Terms Offered: Fa Examination of case studies of issues affecting the aging services industries and the role industry leaders play in reacting to change. Instruction Mode: Lecture Grading Option: Letter

GERO 590 Directed Research

Units: 1-12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 591 Field Practicum

Units: 1-12 Max Units: 12.0 Terms Offered: FaSpSm Supervised experiential learning in one or more organizations that serve older adults; includes a regularly scheduled seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 592 Multidisciplinary Research Seminar in Aging

Units: 2 Max Units: 8.0 Terms Offered: FaSp Multidisciplinary perspectives on

current research in gerontology, including physiology, neurobiology, health and medicine, psychology, sociology, and public policy. Topics will change each semester. Instruction Mode: Lecture Grading Option: Letter

GERO 593 Research Methods

Units: 4 Terms Offered: Fa An introduction to research methods and their application to gerontology including problem formation, research design, data collection, descriptive and analytic statistics, interpretation, and report preparation. Instruction Mode: Lecture Grading Option: Letter

GERO 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 599 Special Topics

Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontological study. Instruction Mode: Lecture Grading Option: Letter

GERO 600 Geroscience: Molecular and Cellular Biology

Units: 4 Terms Offered: Fa Emphasizes the molecular and cellular biology of aging and age-related pathology and other aspects of basic aging research, including evolutionary biology, demography, epidemiology and bioinformatics. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 601 Molecular Genetics of Aging

Units: 4 Terms Offered: Sp Explores concepts of molecular and genetic regulation of healthy aging, lifespan, and age-related diseases. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 602a Seminar on Discoveries in Biogerontology

Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 602b Seminar on Discoveries in Biogerontology

Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 603 Research Integrity

Units: 2 Terms Offered: Fa Explores scientific integrity, mentoring, scientific record keeping, authorship, peer review, animal and human experimentation, conflict of interest, data ownership and intellectual

property, and genetic technology. Instruction Mode: Lecture Grading Option: Letter

GERO 605 Research and Journal Club Presentation Workshop

Units: 2 Terms Offered: Fa Intensive training in journal club and research talk presentations for graduate students in the Biology of Aging PhD program. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 606 Bioinformatics

Units: 2 Terms Offered: FaSp A bioinformatics lab using a published RNA-seq data set as a testbed for students to learn coding principles, genomic biology and applied genomic statistics. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Grading Option: Letter

GERO 610 The Aging Society

Units: 4 Terms Offered: Sp The interaction of demographic and economic processes, with emphasis on how the contemporary nature of these interactions influence public policy response to an aging population. Instruction Mode: Lecture Grading Option: Letter

GERO 613 Health and Aging

Units: 4 Terms Offered: Sp Examination of changes in health related to age, changes in health in populations over time, and the key health issues facing older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 614L Laboratory Rotations in the Biology of Aging

Units: 4 Max Units: 12 Terms Offered: FaSpSm Mandatory organized laboratory rotation. Allows students to participate in laboratory activities. Designed to help select dissertation advisor and research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

GERO 616 Mass Spectrometry

Units: 2 Terms Offered: FaSp Introduction to mass spectrometry and its application to gerontology. Problem formation; research design and data collection; descriptive and analytical statistics; interpretation and report preparation. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Letter

GERO 620 Psychology of Aging

Units: 4 Terms Offered: Fa Overview of topics in the psychology of aging. Includes research and theory bearing on cognitive, personality, adaptive, and social processes throughout the adult life span. Open only to doctoral students. *Recommended Preparation:* undergraduate course work in psychology. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

GERO 626 Current Research in Alzheimer's Disease and Related Dementias

Units: 2 Terms Offered: FaSp Lectures from researchers at the forefront of research in Alzheimer disease and related disorders. Registration Restriction: Open only to

doctoral students Instruction Mode: Lecture
Grading Option: Letter

GERO 628 Theories of Aging

Units: 4 An examination of the nature and adequacy of existing explanations of aging. Focus will be on psychological, sociological, and biological paradigms, and on the epistemology of theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-628

GERO 640 Data Analysis Strategies

Units: 4 Terms Offered: FaSpSm Hands-on experience in developing and testing hypotheses using various types of databases, data management and analysis strategies and written presentation of findings.

Recommended Preparation: GERO 593.
Instruction Mode: Lecture Grading Option: Letter

GERO 645 Politics and Policy Processes in an Aging Society

Units: 4 Terms Offered: Fa Dynamics of the policy-making process in the context of aging policy in the United States; focus on the political system and its social dynamics. Instruction Mode: Lecture Grading Option: Letter

GERO 655 Research Training Grant Proposal Development in Gerontology

Units: 4 Terms Offered: Fa Integrative grant writing and development of collaborative, interdisciplinary projects in gerontology as studied by biomedical, psychological, and social scientists. Instruction Mode: Lecture Grading Option: Letter

GERO 666 Free Radical Chemistry, Biology, and Medicine

Units: 4 Terms Offered: Fa Explores the chemical and physical chemical nature of free radicals and related reactive species. Examines the roles of antioxidants and how they work. *Recommended Preparation:* Course work in biology and chemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSCI-633

GERO 690 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Directed research for PhD candidates. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 790 Research

Units: 1-12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

General Education Seminar

GESM 110g Seminar in the Arts

Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 111g Seminar in the Arts

Units: 4 Terms Offered: FaSp The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Offered by a USC professional school. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen Duplicates Credit in GESM 110 Instruction Mode: Lecture Grading Option: Letter

GESM 120g Seminar in Humanistic Inquiry

Units: 4 Terms Offered: FaSpSm Interpretation and analysis of works of the imagination, exploring language, thought, and cultural traditions in relation to one another. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 121g Seminar in Humanistic Inquiry

Units: 4 Terms Offered: FaSp Critical appreciation of various forms of human expression, evaluating works of literature, philosophy, and the arts to enable informed opinions about ideas and values. Offered by a professional school. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen Duplicates Credit in GESM 120 Instruction Mode: Lecture Grading Option: Letter

GESM 130g Seminar in Social Analysis

Units: 4 Terms Offered: FaSpSm Individual and collective human action as it shapes and is shaped by economic organizations, political institutions, and broad social and cultural settings. Satisfies New General

Education in Category C: Social Analysis Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 131g Seminar in Social Analysis

Units: 4 Terms Offered: FaSp The causes and consequences of social phenomena; quantitative and qualitative methods of the social sciences; how people behave and influence the world through cultural forms. Offered by a professional school. Satisfies New General Education in Category C: Social Analysis Duplicates Credit in GESM 130 Instruction Mode: Lecture Grading Option: Letter

GESM 140g Seminar in the Life Sciences

Units: 4 Terms Offered: FaSpSm Scientific understanding of a full range of living systems from molecules to ecosystems, prokaryotes to humans, past and present. (Satisfies GE-D, Life Sciences). Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 141g Seminar in the Life Sciences

Units: 4 Terms Offered: FaSp Scientific understanding of living systems from molecules to ecosystems; how data is generated and interpreted; how scientific discovery spurs technological growth and impacts society. Offered by a professional school. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen Duplicates Credit in GESM 140 Instruction Mode: Lecture Grading Option: Letter

GESM 150Lg Seminar in the Physical Sciences

Units: 4 Terms Offered: FaSpSm Analysis of natural phenomenon through quantitative description and synthesis; the processes by which scientific knowledge is obtained, evaluated, and placed in social context. (Satisfies GE-E, Physical Sciences) Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GESM 151Lg Seminar in the Physical Sciences

Units: 4 Terms Offered: FaSp Natural phenomena analyzed through quantitative description and synthesis to demonstrate how scientific knowledge is obtained, evaluated and made socially relevant. A separate lab is required. Offered by a professional school. Registration Restriction: Open only to freshmen Duplicates Credit in GESM 150 Instruction Mode: Lecture, Required Lab Grading Option: Letter

GESM 160g Seminar in Quantitative Reasoning

Units: 4 Terms Offered: FaSpSm Analysis and manipulation of data and information related to quantifiable objects, symbolic elements, or logic; formal reasoning, abstract representation, and empirical analysis. (Satisfies GE-F, Quantitative Reasoning). Satisfies New General Education in Category F: Quantitative Reasoning Registration

Restriction: Open only to freshmen.
Instruction Mode: Lecture Grading Option: Letter

GESM 161g Seminar in Quantitative Reasoning

Units: 4 Terms Offered: FaSp Logical or statistical inference, probability, or mathematical analysis used as tools to evaluate hypotheses, claims, questions, or problems within a formal mode of thought. Offered by a professional school. Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to freshmen Duplicates Credit in GESM 160 Instruction Mode: Lecture Grading Option: Letter

General Practice Residency

GPR 601 Hospital Dentistry I

Units: 1 Terms Offered: FaSpSm Residents learn the nature of performing dentistry within a hospital setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 603a Dental Ethics

Units: .5, Terms Offered: FaSpSm Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603b Dental Ethics

Units: .5, Terms Offered: Fa Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603c Dental Ethics

Units: .5, Terms Offered: Sp Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603d Dental Ethics

Units: .5, Terms Offered: SpSm Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 604a Practice Management

Units: .5, Terms Offered: FaSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604b Practice Management

Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604c Practice Management

Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604d Practice Management

Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 605a Review of General Dentistry Literature

Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605b Review of General Dentistry Literature

Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605c Review of General Dentistry Literature

Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605d Review of General Dentistry Literature

Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 611a Emergency Medicine

Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611b Emergency Medicine

Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611c Emergency Medicine

Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611d Emergency Medicine

Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 622 Forensic Dentistry

Units: 1 Terms Offered: FaSpSm Introduction to Forensic Odontology. Residents to learn the principles of Dental Forensics. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 701 Treating Medically Compromised Dental Patients

Units: 1 Terms Offered: FaSpSm Residents learn of various medical problems, how they relate to dental treatment and how to manage patients with various medical problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 702 General Dentistry Overview

Units: 1 Terms Offered: FaSpSm Residents demonstrate the most appropriate and ideal restorative treatment utilizing various dental materials. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705a Periodontal Treatment Procedures

Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705b Periodontal Treatment Procedures

Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705c Periodontal Treatment Procedures

Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705d Periodontal Treatment Procedures

Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 706a Treatment Planning

Units: 1 Terms Offered: Sm Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706b Treatment Planning

Units: 1 Terms Offered: Fa Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706c Treatment Planning

Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706d Treatment Planning

Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 710a Oral and Maxillofacial Surgery

Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710b Oral and Maxillofacial Surgery

Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases

as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710c Oral and Maxillofacial Surgery

Units: 1 Terms Offered: FaSpSm
More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710d Oral and Maxillofacial Surgery

Units: 1 Terms Offered: FaSpSm
More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 711a Implantology

Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 711b Implantology

Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 722 Occlusion, TMJ Dysfunction, Orofacial Pain

Units: 1 Terms Offered: FaSpSm Residents review the important role that Occlusion plays in General Dentistry and neuromuscular problems of the head and neck. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733a Advanced and Maxillofacial Prosthodontics

Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733b Advanced and Maxillofacial Prosthodontics

Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733c Advanced and Maxillofacial Prosthodontics

Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733d Advanced and Maxillofacial Prosthodontics

Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

Global Policy, Planning and Development

GPPD 500a Global Policy Challenges and Solutions

Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 500b Global Policy Challenges and Solutions

Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments
Prerequisite: GPPD 500a Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 510 Economic Foundations for Public Policy

Units: 3 Microeconomic foundations; analysis of public sector problems; markets; producer and consumer theory; private and social efficiency. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 520 Leadership in Public-Private Partnerships

Units: 2 Issues across public/private partnerships; leadership and followership in cross-sector settings; organizational and institutional designs; problem solving, negotiation and conflict resolution. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 530 Art and Craft of Public Policy Analysis

Units: 1 Foundations of public policy as a profession, and develops basic skills in policy analytic reasoning, policy design, normative analysis and ethics, and argumentation. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 540 Comparative Institutions and Policy Context

Units: 3 Theoretical and empirical foundations on how institutions affect policy performance; comparative institutional analysis and framework; approaches to organizing public action. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 550 Quantitative Methods for Public Policy

Units: 3 Economic theory and statistical inference methods to estimate the relationship between economic, social and political variables; foundations of data-based argumentation, specifically in regards to public policy in an international context. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 560 Methods for Policy Evaluation

Units: 3 Methods utilized in the analysis of public policy choices; ex ante and ex post analysis; cost-benefit analysis; decision and risk analysis; applied social science methods. Registration Restriction: Open only to Master of Global Public Policy majors. Instruction Mode: Lecture Grading Option: Letter

GPPD 570 Institutions and Policy Processes

Units: 3 Policy formulation and implementation in a comparative context and in the context of an East-West dichotomy. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 580 Policy Challenges in International Development

Units: 3 Overview of the overarching issues of problem definition of "development" and the policy implications of new ideas for development as it faces a new set of challenges in an increasingly globalized, complex, and interconnected world. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600a Public Policy Capstone

Units: 1 Terms Offered: Sp Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600b Public Policy Capstone

Units: 2 Terms Offered: Sm Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors. Instruction Mode: Lecture Grading Option: Letter

Greek

GR 120 Greek I

Units: 4 Terms Offered: FaSp Essentials of classical Greek grammar and vocabulary. Instruction Mode: Lecture Grading Option: Letter

GR 150 Greek II

Units: 4 Terms Offered: FaSp Essentials of classical Greek grammar and vocabulary, continued. Basic reading skills. *Prerequisite:* GR 120. Instruction Mode: Lecture Grading Option: Letter

GR 220 Greek III

Units: 4 Terms Offered: FaSp Reading Greek literature. Introduction to reading and translation of classical Greek prose and poetry. Extensive grammar review. *Prerequisite:* GR 150. Instruction Mode: Lecture Grading Option: Letter

GR 345 Greek Tragic Poets

Units: 4 Selected plays of Aeschylus, Sophocles, and Euripides. Instruction Mode: Lecture Grading Option: Letter

GR 353 Plato

Units: 4 Readings from the Republic or other dialogues. Instruction Mode: Lecture
Grading Option: Letter

GR 354 Greek Historians

Units: 4 Selections from such representative historians as Herodotus and Thucydides.
Instruction Mode: Lecture Grading Option: Letter

GR 355 Aristophanes

Units: 4 A study of at least three comedies.
Instruction Mode: Lecture Grading Option: Letter

GR 362 Homer and the Greek Epic

Units: 4 Selections from the Iliad and/or Odyssey. Problems of oral composition and transmission. Instruction Mode: Lecture
Grading Option: Letter

GR 365 Greek Lyric Poetry

Units: 4 Readings from Archilochus, Sappho, Alcaeus, Pindar, and other lyric poets.
Prerequisite: GR 220. Instruction Mode: Lecture
Grading Option: Letter

GR 375 Plutarch

Units: 4 Readings of selected works by the Greek author Plutarch. *Prerequisite:* GR 220.
Instruction Mode: Lecture Grading Option: Letter

GR 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: FaSp
Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture
Grading Option: Letter

GR 450 Readings in Greek Literature

Units: 4 Max Units: 12.0 Readings in various authors and genres of Greek literature.
Prerequisite: 300-level Greek course. Instruction Mode: Lecture
Grading Option: Letter

GR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture
Grading Option: Letter

GR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture
Grading Option: Letter

Graduate Studies**GRSC 596 Internship for Curricular Practical Training**

Units: 1 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Graduate standing. Instruction Mode: Lecture
Grading Option: Credit/No Credit

GRSC 610 The Innovation Process: Development, Diffusion and Leadership

Units: 4 Terms Offered: Fa Exploration of general principles and evolution of innovation, theoretical perspectives on the innovation process, organizing and

leadership for innovation, and practical tools for innovation development, diffusion, market acceptance, and business planning. Instruction Mode: Lecture
Grading Option: Letter

GRSC 615 Disciplinary Perspectives on Innovation

Units: 4 Terms Offered: Fa A deeper understanding of the innovation process via a survey of various disciplines' approaches to the subject. Instruction Mode: Lecture
Grading Option: Letter

GRSC 791 Directed Research

Units: 2 Terms Offered: FaSpSm Directed Studies in Academic Innovation. Instruction Mode: Lecture
Grading Option: Credit/No Credit

GRSC 800a Studies for the Qualifying Examination

Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. Instruction Mode: Lecture
Grading Option: Credit/No Credit

GRSC 800b Studies for the Qualifying Examination

Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. *Prerequisite:* GRSC 800a Instruction Mode: Lecture
Grading Option: Credit/No Credit

GRSC 800z Studies for the Qualifying Examination

Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. *Prerequisite:* GRSC 800b Instruction Mode: Lecture
Grading Option: Credit/No Credit

GRSC 810 Studies for Master's Examination

Units: 0 Terms Offered: FaSpSm
Prerequisite: completion of all course work for the master's degree. Permission of the Graduate School. Instruction Mode: Lecture
Grading Option: Non-Graded

GRSC 850a The Professoriate: Preparing for the Future

Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture
Grading Option: Non-Graded

GRSC 850b The Professoriate: Preparing for the Future

Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture
Grading Option: Credit/No Credit

Graduate School of Business Administration**GSBA 501 The Role of the Manager**

Units: 3 Terms Offered: FaSp Fundamental roles of a manager and skill sets necessary to

performing these roles. Open only to online MBA students. Registration Restriction: Open only to online MBA students. Instruction Mode: Lecture
Grading Option: Letter

GSBA 502 Management Communication for Leaders

Units: 3 Terms Offered: Fa Integrates leadership theory and practice with communication skills to improve individual, team, and organizational performance. Emphasizes interpersonal, presentation, and writing skills; teamwork; and value-based leadership. Duplicates Credit in GSBA 523, GSBA 542 and the former GSBA 502ab. Open only to master's students. Instruction Mode: Lecture
Grading Option: Letter

GSBA 503 Contemporary Issues in Competitive Global Strategy

Units: 1.5 Terms Offered: Sp Concepts and tools that help frame strategic issues in a multi-industry and global context. Craft strategies, position businesses and assets, and define firm boundaries. Registration Restriction: Open only to master's degree students Duplicates Credit in the former GSBA 580b and GSBA 582a Instruction Mode: Lecture
Grading Option: Letter

GSBA 504a Operations Management

Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture
Grading Option: Letter

GSBA 504b Operations Management

Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture
Grading Option: Letter

GSBA 505 Fundamentals of Business

Units: 10 Terms Offered: FaSpSm Fundamentals of financial accounting, microeconomics, statistics, analytics and communication. *Prerequisite:* GSBA 501. Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 510, GSBA 511, GSBA 516, GSBA 524, and GSBA 545. Instruction Mode: Lecture
Grading Option: Letter

GSBA 506a Applied Managerial Statistics

Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

GSBA 506b Applied Managerial Statistics

Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques.

Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture Grading Option: Letter

GSBA 507 Organizational Behavior

Units: 2 Terms Offered: Sp Study of human thought, motives, and behaviors in business settings. Explore how organizational structures and decisions can help to determine how human beings will respond. Registration Restriction: Open only to master students Duplicates Credit in GSBA 522a, GSBA 522b, GSBA 532, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 509 Marketing Management

Units: 1.5 Terms Offered: Fa Development of analytical, strategic, and planning skills. Application within an integrated strategic framework to the development of a comprehensive marketing plan for a product, service, and/or organization. Registration Restriction: Open only to master students Duplicates Credit in the former GSBA 509ab, GSBA 528 and GSBA 546 Instruction Mode: Lecture Grading Option: Letter

GSBA 510 Accounting Concepts and Financial Reporting

Units: 1.5, 2, 3 Terms Offered: Fa Information systems for public reporting and for management decision-making; theory of asset and income measurement; interpretation and uses of accounting data and financial statements; analysis of cases. Instruction Mode: Lecture Grading Option: Letter

GSBA 511 Microeconomics for Management

Units: 1.5, 3 Terms Offered: Fa Microeconomic theory with business applications; consumer demand, production theory, cost theory, and market theory; decision-making within the firm under different market and regulatory environments. Instruction Mode: Lecture Grading Option: Letter

GSBA 513 Interpersonal and Team Communication

Units: 1 Terms Offered: Sp Develop interpersonal effectiveness and leadership capacity when working within, across and outside an organization. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523T and GSBA 542 Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 514 Leadership Communication Styles and Strategies

Units: 1 Terms Offered: Sm In-depth focus on managerial communication motivation and styles. Implications of leadership communication strategy and practice. Evaluate strategies and emerging tools to facilitate collaboration. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523T, GSBA 542 Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 515 Communicating Professional Presence

Units: 1 Terms Offered: Sp Acquire the skills necessary to exhibit the elusive quality

of professional presence. Exhibit credible competence. Handle impromptu speaking. Presentation messaging. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523T, GSBA 542 Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 516 Essentials of Data Analysis and Modeling

Units: 1.5 Terms Offered: Fa Data collection, data analysis, and critical understanding of the role of data in making business decisions. Ways to quantify uncertainty and model decision problems. Duplicates Credit in GSBA 506a, GSBA 506b and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 518 Accounting Control Systems

Units: 3 Terms Offered: FaSpSm Accumulation and interpretation of accounting data by management; profit planning; analysis of operations; systems for control of production and distribution costs; cost and profit centers for decentralized control. *Recommended Preparation:* GSBA 510 Duplicates Credit in ACCT 509, ACCT 535, GSBA 536 Instruction Mode: Lecture Grading Option: Letter

GSBA 519a Strategic Formulation for Competitive Advantage

Units: 1.5 Terms Offered: FaSm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529 and GSBA 540. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 519b Strategic Formulation for Competitive Advantage

Units: 1.5 Terms Offered: FaSm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529 and GSBA 540. Instruction Mode: Lecture Grading Option: Letter

GSBA 520 Business Fundamentals for Non-Business Professionals

Units: 3, 4 Terms Offered: FaSp An overview of concepts, tools and principles of business management to develop a general management point of view. Open only to non-business graduate students. Registration Restriction: Open only to non-business graduate students. Instruction Mode: Lecture Grading Option: Letter

GSBA 521a Corporate Finance

Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. *Recommended Preparation:* GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521. Instruction Mode: Lecture Grading Option: Letter

GSBA 521b Corporate Finance

Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. *Recommended*

Preparation: GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521. Instruction Mode: Lecture Grading Option: Letter

GSBA 522a Managerial Perspectives

Units: 1.5 Terms Offered: FaSp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Graded IP. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: In Progress to Letter

GSBA 522b Managerial Perspectives

Units: 1.5 Terms Offered: FaSp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 523 Communication for Management

Units: 2, 3 Terms Offered: FaSp Internal and external communication, research methods; reports for decision-making; oral presentations and briefings; strategies to assure communication; field studies. Duplicates Credit in GSBA 502, GSBA 542 and the former GSBA 502ab. Instruction Mode: Lecture Grading Option: Letter

GSBA 523T Communication for Accounting and Tax Professionals

Units: 3 Communication strategies to ensure effective communication to internal and external business audiences at all levels; business writing and presentations; electronic communication; communicating ethics in business. Open only to accounting, business taxation, law/business, and taxation majors. Duplicates Credit in GSBA 502, the former GSBA 502b, GSBA 523 and GSBA 542. Instruction Mode: Lecture Grading Option: Letter

GSBA 524 Data Science for Business

Units: 2, 3 Terms Offered: Fa Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Registration Restriction: Open only to master students Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 516, GSBA 545 Instruction Mode: Lecture Grading Option: Letter

GSBA 525 Introduction to Management and Strategy

Units: 1 Terms Offered: Fa Introduction to the concepts, tools, and first principles of strategy formulation and competitive analysis. Registration Restriction: Open only to MBA, PM students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 527 Structured Analysis for Unstructured Problems

Units: 1 Terms Offered: Fa Development and application of critical thinking principles and creative problem-solving skills to solve difficult business and societal problems.

Instruction Mode: Lecture Grading Option: Letter

GSBA 528 Marketing Management

Units: 3 Terms Offered: FaSpSm Marketing is treated as a managerial decision-making process. Emphasis is given to understanding the concepts, tools, and techniques that comprise a comprehensive marketing strategy. Registration Restriction: Open only to master students Duplicates Credit in GSBA 509, the former GSBA 509ab, and GSBA 546 Instruction Mode: Lecture Grading Option: Letter

GSBA 529 Strategic Formulation for Competitive Advantage

Units: 3 Terms Offered: FaSpSm Analyses of environments and competition, the bases of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. *Recommended Preparation:* completion of first year courses Registration Restriction: Online registration open only to graduate Business Administration students Duplicates Credit in GSBA 519a, GSBA 519b and GSBA 540 Instruction Mode: Lecture Grading Option: Letter

GSBA 533 Organizational Behavior and Leadership

Units: 1.5 Terms Offered: FaSp Maximize organizational effectiveness through managing team and individual processes. Topics may include ethics, decision making, motivation, power and influence, organizational culture and change, negotiation. Registration Restriction: Open only to graduate students Duplicates Credit in GSBA 507, GSBA 522a, GSBA 522b, GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 534 Operations Management

Units: 2, 3 Terms Offered: FaSpSm Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of the firm. *Recommended Preparation:* GSBA 506b or GSBA 524 or GSBA 516 and GSBA 545. Duplicates Credit in GSBA 504a, GSBA 504b. Instruction Mode: Lecture Grading Option: Letter

GSBA 535 Opportunity Recognition and Implementation

Units: 9.5 Terms Offered: FaSpSm Thematic exploration of entrepreneurship and key aspects of new venture development. Contract law, analytics, negotiations, and communication. *Prerequisite:* GSBA 505 Registration Restriction: Open only to Marshall Online MBA students Duplicates Credit in BAEP 549, BAEP 550, BAEP 551, GSBA 550a and GSBA 550b. Instruction Mode: Lecture Grading Option: Letter

GSBA 536 Accounting for Management Decision Making

Units: 2 Terms Offered: Sp The development, presentation and understanding of accounting information useful to managers. Techniques and best practices which, combined with accounting information, support enhanced management decision-making. Registration Restriction: Open only to master students Duplicates Credit in ACCT 509, ACCT 535,

GSBA 518, GSBA 537 Instruction Mode: Lecture Grading Option: Letter

GSBA 537 Managing Inside the Firm

Units: 9.5 Terms Offered: FaSpSm Thematic exploration of managerial accounting, employment law, operations management and organizational behavior. Application of analytics and communication to optimize internal operations. *Prerequisite:* GSBA 505 Registration Restriction: Open only to online MBA students Duplicates Credit in GSBA 504, GSBA 504a, GSBA 504b, GSBA 518, GSBA 522a, GSBA 522b, GSBA 532, GSBA 533, GSBA 534, GSBA 536, GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 538 Managing Outside the Firm

Units: 9.5 Terms Offered: FaSpSm Thematic exploration of operations management, corporate finance, marketing, and microeconomics. Coordinating production processes, marketing strategies, and corporate financial plans in order to maximize growth. *Prerequisite:* GSBA 505, GSBA 509 Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 509, GSBA 509a, GSBA 509b, GSBA 511, GSBA 521a, GSBA 521b, GSBA 528, GSBA 534, and GSBA 548. Instruction Mode: Lecture Grading Option: Letter

GSBA 539 Business Environment and Leadership

Units: 9.5 Terms Offered: FaSpSm Thematic exploration of finance, macroeconomics, international business, corporate strategy, and marketing strategy. *Prerequisite:* GSBA 505. Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 519a, GSBA 519b, GSBA 521a, GSBA 521b, GSBA 529, GSBA 540, GSBA 548, GSBA 580a, and GSBA 580b. Instruction Mode: Lecture Grading Option: Letter

GSBA 540 Contemporary Issues in Competitive Strategy

Units: 1.5 Terms Offered: FaSp Introduces the role industry and competitive analysis serves in an organization. Topics covered include global competition, innovation, the use of standards, competence, and building organizational capabilities to sustain competitive advantage. Duplicates Credit in GSBA 519a, GSBA 519b and GSBA 529. Instruction Mode: Lecture Grading Option: Letter

GSBA 541 Foundations of Your Professional Value

Units: .5 Terms Offered: Fa Foundational knowledge to discover, identify and leverage the professional value each person brings to today's job market. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 542 Communication for Management

Units: 1.5 Terms Offered: Fa Internal and external communication, research methods, reports for decision-making, oral presentations and briefings, strategies to assure communication; field studies. Duplicates Credit in GSBA 502, GSBA 523,

GSBA 523T and the former GSBA 502ab. Instruction Mode: Lecture Grading Option: Letter

GSBA 543 Managerial Perspectives

Units: 3 Terms Offered: Sp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and growth. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 522a, GSBA 522b, GSBA 533 Instruction Mode: Lecture Grading Option: Letter

GSBA 544 The Firm in the Global Economy

Units: 1.5 Terms Offered: Fa The economic environment of business and the forces influencing the firm. Duplicates Credit in GSBA 549 Instruction Mode: Lecture Grading Option: Letter

GSBA 545 Data Driven Decision Making

Units: 1.5 Terms Offered: Fa Data analysis technologies for business decision making; principles and techniques of statistical inference for business problem solving; foundations of data-driven regression and time series analytics. Duplicates Credit in GSBA 506ab and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 546 Strategic Marketing Management

Units: 2 Terms Offered: Sp Principles of marketing in a global marketplace. Skills and knowledge required to effectively conduct comprehensive and insightful analyses and develop effective marketing strategies. Registration Restriction: Open only to master students Duplicates Credit in GSBA 509 and GSBA 528 Instruction Mode: Lecture Grading Option: Letter

GSBA 548 Corporate Finance

Units: 2, 3 Terms Offered: FaSpSm Modern theory of corporate investment and financing decisions. Online registration open only to Business and Accounting majors. Registration Restriction: Online registration open only to business and accounting students. Duplicates Credit in GSBA 521a and GSBA 521b. Instruction Mode: Lecture Grading Option: Letter

GSBA 549 The Firm in the National and International Economy

Units: 3 Terms Offered: Sp The economic environment of business and international forces influencing the firm. Duplicates Credit in former GSBA 526 and GSBA 544. Instruction Mode: Lecture Grading Option: Letter

GSBA 550a Entrepreneurship

Units: .5 Terms Offered: Fa Fundamentals of entrepreneurship. Understanding the new venture creation process. Duplicates Credit in BAEP 549 and BAEP 550 and BAEP 551 and the former GSBA 586. Instruction Mode: Lecture Grading Option: Letter

GSBA 550b Entrepreneurship

Units: 1 Terms Offered: Sp Fundamentals of entrepreneurship. Understanding the new venture creation process. *Prerequisite:* GSBA 550a. Duplicates Credit in BAEP

549 and BAEP 550 and BAEP 551 and the former GSBA 586. Instruction Mode: Lecture Grading Option: Letter

GSBA 552 Problem Solving and Decision Making: An Integrative Approach

Units: 2 Terms Offered: Fa An integrative, multi-disciplined and immersion-based approach to addressing unstructured business situations and imperfect data using a variety of analytical tools and critical thought processes. Instruction Mode: Lecture Grading Option: Letter

GSBA 554 Digital Strategies for Sustainability in Global Markets

Units: 3 Terms Offered: Sp Designing and executing business strategies for sustainability (environmental, economic, social/cultural) enabled by digital technologies. Emerging market contexts; team consulting project; international travel. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

GSBA 555 Management and Organization of the Creative Industries

Units: 3 Terms Offered: Sp How creative industries (motion pictures, television, publishing, radio, music, arts, games) operate and are organized. Critical discussion of pressing issues that these industries face. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

GSBA 560 The Perspective of Top Management

Units: 2 Terms Offered: Fa Using cases, students are introduced to top management issues of executive leadership, environmental and strategic analysis, use of financial statements, organizational assessment and design, technology management and decision support systems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 561 Evaluating Market Performance

Units: 9 Terms Offered: Fa Evaluation of the firm by the market forces that affect its success; financial accounting and reporting; competitive market analysis; external communication; microeconomics; labor, customer and financial markets, statistical and decision analysis, financial and organization measures of effectiveness. Instruction Mode: Lecture Grading Option: Letter

GSBA 562 Management of Operations

Units: 11 Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Instruction Mode: Lecture Grading Option: Letter

GSBA 562a Management of Operations

Units: 1 Terms Offered: Fa Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Duplicates Credit in GSBA

562. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 562b Management of Operations

Units: 10 Terms Offered: Sp Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Duplicates Credit in GSBA 562. Instruction Mode: Lecture Grading Option: Letter

GSBA 563 Technology and Information Systems Management

Units: 6 Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Instruction Mode: Lecture Grading Option: Letter

GSBA 563a Technology and Information Systems Management

Units: 2 Terms Offered: Sp Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Duplicates Credit in GSBA 563. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 563b Technology and Information Systems Management

Units: 4 Terms Offered: Sp Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Duplicates Credit in GSBA 563. Instruction Mode: Lecture Grading Option: Letter

GSBA 564 Functional Strategies and Implementation

Units: 2 Terms Offered: Sm Developing functional strategies and interdependence to achieve organizational goals; negotiations, conflict resolution; communication strategies; organizational effectiveness; implementation and change strategies; self-assessment and individual presentations. Instruction Mode: Lecture Grading Option: Letter

GSBA 570 The Role of the Senior Executive

Units: 2 Terms Offered: Fa Introduction to strategic management; executive leadership; environmental analysis; international context; financial growth strategies; social, legal and macroeconomic issues; role of CEO with boards, media and other publics; business ethics, strategic planning project. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 571 Environmental Analysis: Establishing Competitive Advantage

Units: 9 Terms Offered: Fa Development of strategic planning processes; analysis of economic, social, political environment; forecasting; futures research; macroeconomics; international economics;

technological developments; multinational management simulation; field projects. Instruction Mode: Lecture Grading Option: Letter

GSBA 572 Strategic Planning for Growth

Units: 11 Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Instruction Mode: Lecture Grading Option: Letter

GSBA 572a Strategic Planning for Growth

Units: 3 Terms Offered: Fa Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Duplicates Credit in GSBA 572. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 572b Strategic Planning for Growth

Units: 8 Terms Offered: Sp Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Duplicates Credit in GSBA 572. Instruction Mode: Lecture Grading Option: Letter

GSBA 573 Managing Strategic Change and Implementation

Units: 6 Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Instruction Mode: Lecture Grading Option: Letter

GSBA 573a Managing Strategic Change and Implementation

Units: 5 Terms Offered: Sp Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Duplicates Credit in GSBA 573. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 573b Managing Strategic Change and Implementation

Units: 1 Terms Offered: Sm Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Duplicates Credit in GSBA 573. Instruction Mode: Lecture Grading Option: Letter

GSBA 574 The Executive of the Future

Units: 2 Terms Offered: Sm Forecasting future environments; the role of the executive in the future, changing organizations; executive development; personal development goal setting. Instruction Mode: Lecture Grading Option: Letter

GSBA 580 The Global Context of Business - PRIME

Units: 2 Terms Offered: Sp Impact of political, economic, and cultural factors on business performance and industry structure in a global context. PRIME. Requires international travel. Registration Restriction: Open only to full time MBA students Duplicates Credit in GSBA 580c, GSBA 582b, and the former GSBA 582 Instruction Mode: Lecture Grading Option: Letter

GSBA 581 Technology Innovation and Management

Units: 1.5 Terms Offered: Sm The synergistic use of technology innovation and management to improve organizational performance, enhance competitiveness, and create leadership opportunities. Duplicates Credit in former GSBA 581a and former GSBA 581b Instruction Mode: Lecture Grading Option: Letter

GSBA 582 The Global Context and International Business

Units: 1.5 Terms Offered: Sp Impact of political, economic, social/cultural and institutional factors on business performance and industry structure in a global context. GLOBE. Requires international travel. *Recommended Preparation:* MBA.PM core courses Registration Restriction: Open only to MBA.PM students Duplicates Credit in GSBA 582b and GSBA 580c Instruction Mode: Lecture Grading Option: Letter

GSBA 584a International Business Consulting Project

Units: 3 Terms Offered: SpSm IBEAR team consulting projects addressing international business problems. Projects culminate in written and oral presentations to corporate clients. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 584b International Business Consulting Project

Units: 2 Terms Offered: SpSm Continuation of a. Instruction Mode: Lecture Grading Option: Letter

GSBA 588 Capstone: Futurethon Challenge

Units: .5 Terms Offered: Fa Apply multidisciplinary business skills to ideate and create sustainable, systems-changing solutions that can affect our local society. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 592 Field Research in Business

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max

Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. *Recommended Preparation:* completion of required MBA, MAcc., or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 593 Independent Research in Business

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4, Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master's students. Registration Restriction: Open only to masters students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 595 Internship in Business

Units: 0.5, 1, 1.5, 2 Max Units: 9.0 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) *Recommended Preparation:* Completion of required MBA, MAcc., or MBT course work. Registration Restriction: Open only to master students in Accounting and Business majors Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 596 Research Practicum in Business

Units: 0.5-2, Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member on an ongoing research project. *Recommended Preparation:* completion of courses required for the MBA, MAcc., MBT, or PhD Registration Restriction: Open only to masters and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 597 Consulting Project in Business

Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 598 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business administration. Graded CR/NC. Registration Restriction: Online registration open to only graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 599 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business administration. Emphasis on cross-disciplinary inquiry. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

GSBA 602 Selected Issues in Economic Theory I

Units: 3 Terms Offered: Fa Methodology and research perspectives of economics; contribution of the economics paradigm to accounting, management, finance, marketing, and decision sciences. *Recommended Preparation:* admission to doctoral program in business administration or department approval. Instruction Mode: Lecture Grading Option: Letter

GSBA 604 Regression and Generalized Linear Models for Business Applications

Units: 3 Terms Offered: Sp Theory and application of linear regression models; role of substantive theory in statistical model building; model specification, estimation, diagnostic checking; the general linear hypothesis. Instruction Mode: Lecture Grading Option: Letter

GSBA 610 Seminar in Business Research

Units: 3 Max Units: 9.0 Terms Offered: Irregular Critical analysis of research studies in the functional areas of business; practice in formulating and conducting research; presentation of original research of publishable quality (may be repeated for credit up to 9 units). Instruction Mode: Lecture Grading Option: Letter

GSBA 611 Seminar in Research Methodology

Units: 3 Terms Offered: FaSpSm Conceptual foundations of research methodology; survey and research design; measurement theory; advanced techniques of statistical investigation; data analysis using computer packages; preparation of research reports. Instruction Mode: Lecture Grading Option: Letter

GSBA 612 Selected Issues in Economic Theory II

Units: 3 Terms Offered: Sp Further investigation of selected topics in methodology and research perspectives of economics. Topics vary in response to new developments and current trends in the field. *Prerequisite:* GSBA 602. Instruction Mode: Lecture Grading Option: Letter

GSBA 625 Designing and Running Experiments

Units: 3 Terms Offered: Fa Introduction to design and implementation of experiments. Single and multiple factors, fully crossed and fractional factorial designs, repeated measures, measurement, manipulations, subject choice, demand effects. Open only to PhD students. Instruction Mode: Lecture Grading Option: Letter

GSBA 690 Tutorial on the Research Process

Units: 3 Max Units: 9.0 Terms Offered: Sp Gain an understanding of the research process, identify/generate a research question, collect and organize data, predict results, and critically write and present the results. *Recommended Preparation:* GSBA first year PhD course work. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum

units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Geriatric and Special Patient Dentistry

GSPD 504 Dental Treatment of the Geriatric and Special Patient

Units: 2 Social, psychological, economic and health factors which influence dental care for the geriatric and special patient populations; specific considerations and modifications of conventional dental treatment. Instruction Mode: Lecture Grading Option: Letter

GSPD 562a Clinic: Geriatric Dentistry

Units: 0 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562b Clinic: Geriatric Dentistry

Units: 0 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562c Clinic: Geriatric Dentistry

Units: 1 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: Letter

GSPD 563a Clinic: Special Patient Care

Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563b Clinic: Special Patient Care

Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563c Clinic: Special Patient Care

Units: 1 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: Letter

GSPD 610 Clinical Gerontology

Units: 1 Clinical application of principles of geriatric dentistry. Evaluation, treatment planning, and clinical care of elderly patients

at residential and skilled-nursing care facilities. Instruction Mode: Lecture Grading Option: Letter

GSPD 612 Special Patient Care Clinic

Units: 1 Clinical experience in the evaluation, diagnosis, treatment planning and management of oral problems in special needs patients. Instruction Mode: Lecture Grading Option: Letter

Human Behavior

HBHV 310 Interactional Skills in Dental Hygiene

Units: 1 Training in the application of behavioral and communication skills. Instruction Mode: Lecture Grading Option: Letter

HBHV 501 Behavioral Skills in Dentistry

Units: 1 Introduction to key personal, interpersonal, and professional factors that shape the doctor-patient relationship; ways interactional skills influence the effectiveness, durability, and satisfaction of the doctor-patient relationship. Instruction Mode: Lecture Grading Option: Letter

HBHV 502 Interactional Skills

Units: 1 Introduction to purpose, objectives, and principles of clinical interviewing. Instruction Mode: Lecture Grading Option: Letter

HBHV 504 Patient Education and Management

Units: 1 Management of difficult patients; psychology and behavioral treatment of pain; patient education of treatment planning; smoking cessation program. Instruction Mode: Lecture Grading Option: Letter

HBHV 550 Communications in Clinical Dentistry

Units: 1 Verbal and nonverbal communication in clinical dentistry; clinical experience in use of manual, verbal, and non-verbal communication skills during a traumatic injection procedure. Instruction Mode: Lecture Grading Option: Letter

HBHV 561a Clinic: Behavioral Dentistry

Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561b Clinic: Behavioral Dentistry

Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561c Clinic: Behavioral Dentistry

Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561d Clinic: Behavioral Dentistry

Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode:

Lecture Grading Option: In-progress to Letter Grade

HBHV 561e Clinic: Behavioral Dentistry

Units: 1 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: Letter

HBHV 601 Understanding Stress in Dental Practice

Units: 2 Investigation of the approaches to understanding and managing stress, especially the stress issues in dentistry. Instruction Mode: Lecture Grading Option: Letter

Human Biology

HBIO 200Lg The Human Animal

Units: 4 Foundations of the human species. Examination of scientific evidence from Darwinian theory, primate behavior, fossils, and the behavior of modern people. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former ANTH 200. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ANTH 200

HBIO 202Lg Nutrition for Life

Units: 4 Terms Offered: FaSpSm To develop an understanding of Nutrition, especially as it pertains to optimal health and prevention of diseases. A study of macro and micro nutrients. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in EXSC 202L Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 203L Individualized Exercise Prescription

Units: 2 Terms Offered: FaSp Principles and theories related to exercise prescription; programs of weight-training, circuit-training, aerobics, flexibility, high and low-intensity training guidelines; safeguards and effectiveness. Duplicates Credit in former EXSC 203L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 205Lgx The Science of Sport

Units: 4 Terms Offered: FaSpSm The physiological and nutritional basis of human performance. Factors that facilitate and limit athletic achievement. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former EXSC 205Lgx. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 250g The Pharmacology of Performance Enhancing Drugs

Units: 4 Terms Offered: Sp Evaluation of drugs, nutritional supplements, and ergogenic aids that are purported to enhance human athletic performance to promote weight and fat loss. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in former EXSC 250. Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 300 Evolution, Ecology, and Culture

Units: 4 Terms Offered: FaSpSm The roles

of biology, culture, and the environment in shaping human society, integrating evolutionary biology and cultural theory. Duplicates Credit in former ANTH 300. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 300

HBIO 301L Human Anatomy

Units: 4 Terms Offered: FaSp Major organ systems; functional implications of their relationships; gross and microscopic examination with an emphasis on practical skills in recognizing, dissecting, and differentiating anatomical structures. Duplicates Credit in former EXSC 301L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 302L Nutrition and Metabolism

Units: 4 Terms Offered: Fa Gastrointestinal physiology and energy metabolism as it relates to macronutrient intake. Theories and principles of nutrition and their impact on metabolic regulation. *Prerequisite:* BISC 220 or BISC 221. Duplicates Credit in former EXSC 200. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 306 Primate Social Behavior and Ecology

Units: 4 Terms Offered: FaSpSm Behavior and ecology of living nonhuman primates, with an emphasis on field studies of apes and monkeys. Topics include aggression, communication, reproduction, and cognition. *Recommended Preparation:* HBIO 200. Duplicates Credit in former ANTH 306. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 306

HBIO 308 Origins and Evolution of Human Behavior

Units: 4 Examination of the evidence for and against evolutionary bases of a range of human behaviors. Topics include sex differences, human reproductive strategies, race, IQ, human ecology. Duplicates Credit in former ANTH 308. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 308

HBIO 310 Sociopsychological Aspects of Sport and Physical Activity

Units: 4 Terms Offered: FaSp Examination of the individual in a social environment related to sport and physical activity; personality, motivation, attitude, and group behavior viewed in physical activity contexts. Duplicates Credit in former EXSC 310. Instruction Mode: Lecture Grading Option: Letter

HBIO 320 Muscle Physiology

Units: 4 Terms Offered: Sp Analysis of the skeletal muscular system (anatomy, physiology, biochemistry, and development) and its functional properties under both normal and pathological conditions. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 300 Instruction Mode: Lecture Grading Option: Letter

HBIO 350 Nutrition and Homeostasis

Units: 4 Terms Offered: Sp Theories and principles of regulation of vitamin/mineral metabolism as it relates to homeostasis of organ systems. *Prerequisite:* HBIO 302 or CHEM 350 or BISC 330 or BISC 312

Duplicates Credit in former EXSC 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 360 Nutrition and Disease

Units: 4 Terms Offered: Fa Principles of diet therapy for the prevention and treatment of human disease. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 370 Genetics and Disease

Units: 4 Terms Offered: FaSpSm An overview of the genetic underpinning of human health and disease. Inheritance of mendelian diseases, common diseases, developmental diseases and cancer; prenatal testing, genetic counseling and genetic therapies. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 400L Motor Control and Learning

Units: 4 Terms Offered: FaSp Theories of control and learning applied to motor performance; variables affecting performance in exercise, games, sports and dance. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 400 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 401L Physiology and Biomechanics of Movement

Units: 4 Terms Offered: Sp Terminology, structure and function of muscle, bone and endocrine systems; Effects of exercise and training on those systems. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 403L Forensic Science of the Bones

Units: 4 Terms Offered: FaSpSm Comprehensive study of forensic anthropology; emphasis on identification of human remains and creation of biological profiles including age, sex, time and manner of death, etc. *Prerequisite:* HBIO 301L *Recommended Preparation:* HBIO 200Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 405 Evolutionary Medicine

Units: 4 Terms Offered: Fa Evolutionary, cultural, and environmental factors in the emergence and existence of diseases; a Darwinian examination of illness in the human species. *Prerequisite:* BISC 120Lg or BISC 121Lg *Recommended Preparation:* HBIO 200Lg Duplicates Credit in former ANTH 405 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 405

HBIO 406 Theory and Method in Human Evolutionary Biology

Units: 4 Terms Offered: FaSpSm Historical and theoretical approaches to major issues in the field of human evolutionary biology. Capstone course in which students will undertake an original independent research project. *Prerequisite:* HBIO 200. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 406

HBIO 407L Endocrinology and Metabolism

Units: 4 Terms Offered: Sp Regulation of

metabolic pathways and endocrinology in health and metabolic diseases. *Prerequisite:* HBIO 302. Duplicates Credit in former EXSC 406L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 408L Biomechanics

Units: 4 Terms Offered: Fa Kinematic and kinetic analysis of human motion. Emphasis on performance enhancement and injury prevention. *Prerequisite:* MATH 108 and PHYS 135a Duplicates Credit in former EXSC 408 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 409 Metabolic Diseases

Units: 4 Terms Offered: FaSp Examination of the etiology, prevention, and treatment of metabolic disorders such as diabetes mellitus and obesity that are major threats to public health. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

HBIO 420L Applied Human Physiology

Units: 4 Terms Offered: FaSp The physiology of the respiratory, cardiovascular, renal, musculoskeletal, digestive, endocrine, and nervous systems in humans, with application to human health and pathology. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 405 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 435 Neurobiology of Feeding Behavior and Obesity

Units: 4 Terms Offered: Fa Neurobiological systems that control feeding behavior and energy balance with an emphasis on the determinants of obesity. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

HBIO 439L Human Performance and Bioenergetics

Units: 2 or 4 Terms Offered: FaSp Application of physiology, biomechanics and perceptual-motor principles to the study of skill acquisition and human performance. *Prerequisite:* HBIO 408. Duplicates Credit in former EXSC 439L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 441L Prevention of Athletic Injuries

Units: 4 Terms Offered: Fa Application of scientific principles to conditioning, protecting, and rehabilitating the athlete. *Prerequisite:* HBIO 301. Duplicates Credit in former EXSC 441L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 442L Evaluation and Rehabilitation of Athletic Injuries

Units: 4 Terms Offered: Sp Application of scientific principles to evaluating and rehabilitating athletic injuries. *Prerequisite:* HBIO 301. Duplicates Credit in former EXSC 442L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 491L Laboratory Experience in Kinesiology

Units: 2, 4 Terms Offered: FaSpSm Practical laboratory experience in basic and applied exercise physiology, biochemistry, and/or biomechanics. Emphasizing development of

laboratory techniques. *Prerequisite:* HBIO 203, HBIO 301, HBIO 302, HBIO 320. Duplicates Credit in former EXSC 491. Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Human and Evolutionary Biology. Instruction Mode: Lecture Grading Option: Letter

Health Care Decision Analysis

HCDA 501 Fundamentals of Healthcare Insurance Design

Units: 3 Terms Offered: Sm Introduction to insurance payer types, functions, actuarial pricing methods, network design and business operations impacting the provision of health benefits and reimbursement for medical products and services. Instruction Mode: Lecture Grading Option: Letter

HCDA 502 Comparative International Healthcare Systems

Units: 3 Terms Offered: Sp Health coverage and funding across seven industrial countries, with examination of variances and similarities in stated policy and outcomes by region and population mix. Instruction Mode: Lecture Grading Option: Letter

HCDA 503 Competitive Health Care Intelligence and Pricing

Units: 3 Analysis and techniques to evaluate marketplace opportunities and value and pricing determinations for medical products; considers product launch and positioning strategies, intelligence gathering, and decision-making. *Recommended Preparation:* HCDA 501 and undergraduate degree in pharmacy, medicine, other health care, economics and administrative sciences or related disciplines; enrollment in a related MS or PhD program. Instruction Mode: Lecture Grading Option: Letter

HCDA 506 Foundations of Insurance and Global Access

Units: 3 Terms Offered: Fa Basic overview focused on the coverage, payment, reimbursement and access to healthcare and pharmaceuticals across a global landscape including the US, EU, and the big five countries of Asia-Pacific. Instruction Mode: Lecture Grading Option: Letter

HCDA 507 Foundations of Product Development and Commercialization

Units: 3 Terms Offered: Sp Basic introduction focused on the pathways and principles for managing new health technology discovery, funding, development, Food and Drug Administration (FDA) approval, and commercial market launch. Instruction Mode: Lecture Grading Option: Letter

HCDA 510 Business Implications of Health Care Reform

Units: 3 Coverage, access and reimbursement changes from health care reform; individual and mandated benefits, medical loss ratio, health care exchanges and impact of comparative effectiveness review. Instruction Mode: Lecture Grading Option: Letter

HCDA 515 Medical Decision Analysis and Modeling

Units: 3 Quantitative methods of evaluating business, policy, pharmaceuticals, medical care resource allocations. Budget Impact Models, Decision Trees, Sensitivity Analysis tradeoffs between treatment strategies, interventions, risks, outcomes. Instruction Mode: Lecture Grading Option: Letter

HCDA 520 Health Economic and Outcomes Methodology

Units: 3 Comprehensive review of core biostatistics principles and applications through practical problem solving approach and case studies. Statistical methods, data validation and outcomes research, clinical trials. Instruction Mode: Lecture Grading Option: Letter

HCDA 525 Healthcare Literature Analysis and Applications

Units: 3 Review and critique of health economics, P&T and outcomes literature. Core biostatistical measures used to deconstruct and evaluate published research through case studies. *Recommended Preparation:* HCDA 520. Instruction Mode: Lecture Grading Option: Letter

HCDA 530 Total Product Development: Benchmark to Launch

Units: 3 Systematic review from discovery to market assessment, bio-targeting through clinical trial design. Profile past and current launch strategies, pharmacovigilance, regulatory and filing requirements. Instruction Mode: Lecture Grading Option: Letter

HCDA 540 Executive Leadership and Healthcare Marketing

Units: 3 Critical principles of leadership, communication, best practice marketing presentations, project management techniques, business innovations and strategy. Use of case studies, team projects, real world examples.

HCDA 550 Healthcare Innovation: Creativity to Value

Units: 3 Systematically review creativity and innovation techniques across healthcare industry, examine breakthrough genomic and biopharmaceutical processes and thinking, evaluate novel therapeutic and economic measures transforming outcomes. Instruction Mode: Lecture Grading Option: Letter

HCDA 553 Advanced Pricing Strategies

Units: 3 Positioning products in global markets; market share targets, payer value, life cycle and launch techniques, tools for formulary positioning and reimbursement. Instruction Mode: Lecture Grading Option: Letter

HCDA 560 Managing Effective Partnerships and Mergers

Units: 3 M&A and partnering in the health care industry; law, due diligence, contracts, research alliances, structured agreements, global partners, and tactical business strategies. Instruction Mode: Lecture Grading Option: Letter

HCDA 570 Asia Pacific: Access, Delivery and Reimbursement

Units: 3 In-depth review China, India,

Japan, Korea, Taiwan. Analyzing regional pharmaceutical industry, research, manufacturing, partnerships, licensing, trials. Compare insurance, pricing, access, reimbursement for drugs, healthcare services. Instruction Mode: Lecture Grading Option: Letter

HCDA 580 Seminars in Healthcare Decision Analysis

Units: 3 Weekly seminar and literature series, review and discuss policy, biopharmaceuticals, insurance, global healthcare access issues. Student lead discussions, expert guest speakers, group projects, critical thinking. Instruction Mode: Lecture Grading Option: Letter

HCDA 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in Healthcare Decision Analysis. Instruction Mode: Lecture Grading Option: Letter

Hebrew

HEBR 120 Hebrew I

Units: 4 Terms Offered: FaSpSm Focuses on the acquisition of proficiency and communicative skills in speaking, reading, writing, and comprehension as well as cultural literacy. Instruction Mode: Lecture Grading Option: Letter

HEBR 150 Hebrew II

Units: 4 Terms Offered: FaSpSm A continuation of Hebrew I. Offers a higher level of skill development in reading, writing and conversation. *Prerequisite:* HEBR 120 Instruction Mode: Lecture Grading Option: Letter

HEBR 220 Hebrew III

Units: 4 Terms Offered: Fa Continuation of Hebrew II; stress on grammar, composition, and conversation. *Prerequisite:* HEBR 315. Instruction Mode: Lecture Grading Option: Letter

HEBR 315 Modern Hebrew Language (Hebrew IV)

Units: 4 Terms Offered: Sp Examines Hebrew in depth and introduces students to Modern Hebrew literature through major poems, novels and films from the 20th and 21st centuries. *Prerequisite:* HEBR 220

Instruction Mode: Lecture Grading Option: Letter

History

HIST 100gm The American Experience

Units: 4 Terms Offered: FaSpSm Patterns of American development from Colonial times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former HIST 200gm. Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 101gp State and Society in the Ancient World

Units: 4 Terms Offered: FaSpSm Achievements of the near East, Greece, and Rome with emphasis on the development of ideas, arts, and institutions which have influenced modern man. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CLAS 101

HIST 102gm The Worlds of Medieval Europe

Units: 4 Terms Offered: FaSp The social, political, religious, intellectual and cultural landscapes of Europe and the Mediterranean, c. 300 to c. 1400. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 103g The Emergence of Modern Europe

Units: 4 Terms Offered: Fa Political, intellectual, and cultural developments in Europe, 1300–1815. Renaissance and Reformation; absolute monarchy, scientific changes, and Enlightenment; French Revolution and Napoleon. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 104gp Modern Europe

Units: 4 Terms Offered: Sp The Enlightenment, French Revolution, industrialization, Darwinism, socialism, nationalism, technological revolutions, mass culture, imperialism, race, fascism, communism, world wars, genocide, migration, the Cold War, terrorism. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 105g The Korean Past

Units: 4 A topical and chronological study of the major political, social, and intellectual forces that have shaped the history of Korea. Satisfies New General Education in Category

B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

HIST 106g Chinese Lives: An Introduction to Chinese History

Units: 4 Terms Offered: FaSp Study of the lives of selected individuals who have helped to shape Chinese politics and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 107gp Introduction to the History of Japan

Units: 4 Terms Offered: FaSp Japan from the earliest times to the present; social, cultural, and political dimensions. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 108g Histories of South Asia

Units: 4 History of South Asia from the tenth century to the present day; examines imperialism, capitalism, nationalism, and immigration. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 109g The Latin American Experience

Units: 4 Introduction to Latin American history and cultures, providing tools to grasp the importance of the region within the larger Americas and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 180gw The Middle East

Units: 4 Terms Offered: FaSpSm Introduction to the history and the study of the Middle East from ancient to modern times. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as MDES 180

HIST 185g A Survey of Armenian History

Units: 4 Terms Offered: FaSp Introduction to Armenian history and its connections with the region and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 195 Selected Themes and Topics in History

Units: 4 Terms Offered: Irregular Study of special historical themes and topics through readings, lectures, discussions, and supervised writings. Instruction Mode: Lecture Grading Option: Letter

HIST 201 Approaches to History

Units: 4 Terms Offered: FaSp Methods

and theories of historical interpretation of evidence; uses of archives; modes of presenting the past to the public. Required of all history majors. Duplicates Credit in former HIST 300. Instruction Mode: Lecture Grading Option: Letter

HIST 210gw How to Be An American: Global Histories of U.S. Citizenship

Units: 4 Terms Offered: FaSp History of United States citizenship from its origins to the present day, with particular attention to relationship between law and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 211gp Race in America

Units: 4 Examines the origins of the idea of race and how this idea influenced the development of the United States from the colonial period to the present day. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 215g Business and Labor in America

Units: 4 Terms Offered: Fa Expansion of business enterprise from colonial merchants to modern corporations; evolution of the labor force from artisans to skilled and unskilled industrial workers. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 220gp Murder on Trial in America

Units: 4 Examination of high-profile murders and murder trials in order to explore major social, political, and cultural issues from the colonial period to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

HIST 225g Film, Power, and American History

Units: 4 Terms Offered: Sp U.S. motion pictures as both a response to and comment upon major events, problems, and themes in 20th century America. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 235g War and the American Experience

Units: 4 Terms Offered: Fa Comparative historical analysis of the American experience of war: war decision-making processes; evolution of strategy and tactics; the political, economic, and social effects of war. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 237gp Fascism

Units: 4 Historical analysis of Fascism, focusing on fascist movements and ideas in twentieth-century Italy and Germany

and their spread around Europe and the world. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 240gp The History of California

Units: 4 Terms Offered: Fa A thematic approach to California history from precontact to present; focus on peoples, environment, economic, social, and cultural development, politics, and rise to global influence. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 245gmp How Sex Changed: US History, 1870-the Present

Units: 4 An investigation of the nature of femininities and masculinities over the course of U.S. history; topics such as women's rights, birth control, abortion and gay/lesbian liberation. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 250 Climate Change: Science, History and Solutions

Units: 4 History and science of anthropogenic climate change; climate dynamics; carbon cycle; climate modeling; fossil fuel economy; climate denial and political tactics; group research of solutions. Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 260g Dramatizations of Korean History

Units: 4 Terms Offered: FaSp Analysis and interpretation of popular depictions of Korean history. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

HIST 265gw Racism, Sexism, and the Law

Units: 4 Terms Offered: FaSp Study of laws concerning marriage, inheritance, slavery, immigration and the allocation of public space and how they have organized historical constructions of race and sex. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 266gp Business and East Asian Culture, 1800-Present

Units: 4 Terms Offered: Sp Business history of East Asia (China, Japan, Korea, Taiwan, and Hong Kong) as related to culture, politics, and society. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction

Mode: Lecture, Discussion Grading Option: Letter

HIST 268g Kings, Courts, and Clerics: Foundations of East Asian Political Culture

Units: 4 Terms Offered: FaSp Rulership and society in classical China and Japan; influence of these norms in the region today. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 270 Queens, Witches, Courtesans: Women and Power in Renaissance Europe

Units: 4 Exploration of the lives of women who defied the ideals of "wife, mother, widow" and examination of how gender and power were negotiated. Instruction Mode: Lecture Grading Option: Letter

HIST 271g Telling Native American Stories

Units: 4 Terms Offered: Sp An exploration of the history of Native America peoples and the ways they understood and explained the changes in their lives from 1492 to 1840. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 272g Women and Gender in the Ancient and Spanish Americas

Units: 4 A history of gender in the Ancient and Spanish Americas, focusing on the ways women participated in the livelihood, politics and rituals of their communities. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 273g Colonial Latin America

Units: 4 Terms Offered: Sp Introduction to Colonial Latin America; native American peoples, themes, issues, and evolution of Spanish and Portuguese colonial rule to ca. 1800. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 275g The Worlds of the Silk Road

Units: 4 Terms Offered: Sp Exploration of the two millennia of economic exchanges and cross cultural interaction between Asia and Europe. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 278gp Ottomans and Empire: Anatolia, the Middle East, and the Mediterranean World

Units: 4 Terms Offered: FaSp Overview of the history of the Ottomans and their imperial subjects. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 301 Religions of Ancient Egypt and the Near East

Units: 4 (Enroll in REL 302)

HIST 302 From Sappho to Stonewall: Lesbians in History

Units: 4 The cultural, social and personal meanings of same-sex relations between women in Europe and the United States, from archaic Greece to the 1960s. Instruction Mode: Lecture Grading Option: Letter

HIST 303 Barbarians, Romans, and Christians

Units: 4 Terms Offered: Other Exploration of the dynamic transformation of the social, political, religious, and intellectual landscape of the Mediterranean during Late Antiquity, c. 200 – c. 700 AD. Instruction Mode: Lecture Grading Option: Letter

HIST 304 Archaeology of Egypt and the Near East

Units: 4 (Enroll in REL 394)

HIST 305 Women and Gender in Pre-Modern Europe

Units: 4 Terms Offered: FaSp Social, cultural and political contexts of women's spiritualities in Europe from the Paleolithic to the Reformation. Topics include: goddess-worship; Christian and Jewish contexts; male attitudes. Duplicates Credit in former HIST 270 Instruction Mode: Lecture Grading Option: Letter

HIST 306 The Early Middle Ages

Units: 4 Survey of European civilization in the Early Middle Ages. Instruction Mode: Lecture Grading Option: Letter

HIST 308 Britain and Ireland to 1200 C.E.

Units: 4 Terms Offered: Fa Anglo-Saxon and Celtic societies from the Iron Age to the Norman Invasions. Topics include: King Arthur, epics, sagas, Christianization, kingship, women, economic development and Vikings. Duplicates Credit in former HIST 430. Instruction Mode: Lecture Grading Option: Letter

HIST 309 Britain and Ireland, 1100–1500 C.E.

Units: 4 Terms Offered: Other English and Irish culture, economics, and politics during the expansion of the Norman-English kingdom, the colonization of Ireland, and subsequent development toward the English nation-state. Instruction Mode: Lecture Grading Option: Letter

HIST 310 Medieval Iran: Society and Culture

Units: 4 Terms Offered: FaSp (Enroll in MDES 312)

HIST 311 Warfare, State, and Society in the Ancient World

Units: 4 (Enroll in CLAS 338)

HIST 312 The Age of the French Revolution and Napoleon

Units: 4 Terms Offered: Fa Europe in the Old Regime; causes and course of the French Revolution; rise of Napoleon; revolutionary impact on Europe, 1715–1815. Instruction Mode: Lecture Grading Option: Letter

HIST 313 France and the French from Napoleon to Mitterand

Units: 4 Terms Offered: Irregular Social, cultural, and political history of France from 1789 to the present. Instruction Mode: Lecture Grading Option: Letter

HIST 314 Rome Through its Monuments from Antiquity to the Middle Ages

Units: 4 Urban history of Rome from its beginnings through the 14th century focusing on select sites in the city. Instruction Mode: Lecture Grading Option: Letter

HIST 315 Origins of Free Market Thought in Early Modern Europe

Units: 4 (Enroll in PHIL 314)

HIST 316 The Renaissance

Units: 4 Terms Offered: Irregular The flowering of arts, literature, and learning at the end of the Middle Ages. Instruction Mode: Lecture Grading Option: Letter

HIST 317gmp Native Americans in American Public Life

Units: 4 Terms Offered: Sp (Enroll in ANTH 316gmp)

HIST 319 The Quest for the Individual in Early Modern Europe

Units: 4 (Enroll in PHIL 311)

HIST 320p Law, Slavery, and Race

Units: 4 (Enroll in LAW 320p)

HIST 322 Anti-Semitism, Racism and Other Hatreds

Units: 4 Terms Offered: FaSp (Enroll in JS 315g)

HIST 323 The Holocaust in 20th Century Europe

Units: 4 Terms Offered: Sp The origins and development of anti-Jewish persecution in Germany, resulting in the systematic mass murder of Europe's Jews during World War II. Instruction Mode: Lecture Grading Option: Letter

HIST 325 Early Modern Britain

Units: 4 Terms Offered: Other A survey of one of the most pivotal eras in British history: reform, regicide, and revolutions; new ideas, new religions, and new worlds. Instruction Mode: Lecture Grading Option: Letter

HIST 326 The Victorians

Units: 4 Britain in the 19th century, politics, industrialization, and imperialism, change and continuity in social and cultural aspects, especially class, gender, and race relations. Duplicates Credit in the former HIST 433. Instruction Mode: Lecture Grading Option: Letter

HIST 327 Twentieth Century Britain

Units: 4 The rise and decline of modern Britain as a global political and economic force, social and cultural change, emergence of a multiracial and multiethnic society. Duplicates Credit in the former HIST 434. Instruction Mode: Lecture Grading Option: Letter

HIST 328 Ptolemaic Egypt

Units: 4 Terms Offered: FaSp (Enroll in CLAS 378)

HIST 329 Madness and Society in the Modern Age

Units: 4 The shifting place of insanity and "the mad" in Europe and the United States from the French Revolution to the anti-psychiatry movement. Instruction Mode: Lecture Grading Option: Letter

HIST 330 Drugs: A Global Cultural History

Units: 4 Terms Offered: Irregular Drugs, addiction, intoxication, recreation and their role in culture and the health sciences in history Instruction Mode: Lecture Grading Option: Letter

HIST 331 The British Empire: 1588–1834

Units: 4 Terms Offered: Sp Emergence of the British Empire, emphasizing colonies in the Americas; the development of imperial economy, imperial wars, slavery and abolitionism. Instruction Mode: Lecture Grading Option: Letter

HIST 332 British Empire from the Mid-19th Century

Units: 4 Terms Offered: Other Political and economic development of the British Empire since Victoria; rise of the British Commonwealth. Instruction Mode: Lecture Grading Option: Letter

HIST 333 Korea: The Modern Transformation

Units: 4 Terms Offered: Sp Examination of selected topics on Korea's transition to the modern era; focus on the traditional roots of 20th century developments. Instruction Mode: Lecture Grading Option: Letter

HIST 334 History of the Samurai

Units: 4 Terms Offered: FaSpSm Development of the Japanese samurai from the 6th to the 16th centuries. *Recommended Preparation:* a course in East Asian history. Instruction Mode: Lecture Grading Option: Letter

HIST 335 History of Japan to 1550

Units: 4 Terms Offered: Irregular Growth of Japanese civilization from the mythological "age of the gods" through the feudal "age of the samurai"; foundations of a great Asian power. Instruction Mode: Lecture Grading Option: Letter

HIST 336 History of Japan, 1550–1945

Units: 4 Terms Offered: Irregular Development of Japan as a modern world power; tradition and change in Japanese life; impact of Western culture, politics, and diplomacy from 1550 to 1945. Instruction Mode: Lecture Grading Option: Letter

HIST 337 Japan since 1945

Units: 4 Terms Offered: Irregular Survey of the impact of World War II, American occupation, and rapid economic growth on Japan's politics, society, economy, and culture; Japan as a post-modern nation. Instruction Mode: Lecture Grading Option: Letter

HIST 338 China to 960 A.D.

Units: 4 Terms Offered: Irregular The origins of China's distinctive civilization; cultural and political ferment in the late Chou; the greatness of Han and T'ang. Instruction Mode: Lecture Grading Option: Letter

HIST 339 China, 960–1800 A.D.

Units: 4 Terms Offered: Irregular Politics and culture under the Sung; Mongols, Manchus, and other invaders; the golden autumn of a great civilization. Instruction Mode: Lecture Grading Option: Letter

HIST 340 History of China since 1800

Units: 4 Terms Offered: Sp Western impact and dynastic decline; problems of the Chinese Republic; nationalism and communism. Instruction Mode: Lecture Grading Option: Letter

HIST 341 American Social History

Units: 4 Terms Offered: Irregular The social history of the American peoples from Colonial times until the 20th century, to include industrialization, urbanization, women, families, workers, immigration, ethnicity, racism, radicalism. Instruction Mode: Lecture Grading Option: Letter

HIST 343 Work, Leisure, and Violence in Industrializing America

Units: 4 Terms Offered: Irregular Rise of industrial America from 18th to 20th centuries: changing work ethics, rise of factories, women workers, mass leisure, consumer culture, urban and industrial violence. Instruction Mode: Lecture Grading Option: Letter

HIST 344 The Vietnam War, 1945–1975

Units: 4 Terms Offered: Other Analysis of causes, conduct, and consequences of war in Southeast Asia; of participants' experiences; and of post-war debate. Instruction Mode: Lecture Grading Option: Letter

HIST 345 Men and Women in United States History from the 1920s to the Present

Units: 4 Investigation of the roles and relationships of men and women in American society and culture from the era of the "flapper" to the era of the "yuppie." Instruction Mode: Lecture Grading Option: Letter

HIST 346 American Intellectual History

Units: 4 Terms Offered: Sp Study of major American ideas and values as reflected in philosophy, political and economic thought, religion, and social movements. Instruction Mode: Lecture Grading Option: Letter

HIST 347 Urbanization in the American Experience

Units: 4 Terms Offered: Irregular The American city in interdisciplinary perspective; emphasis on growth and change in relation to architecture, urban planning, demography, and ethnic politics. Instruction Mode: Lecture Grading Option: Letter

HIST 348 The Dynamics of American Capitalism

Units: 4 Terms Offered: Irregular Economic growth and institutional change in American capitalism from the Colonial era to the present. Instruction Mode: Lecture Grading Option: Letter

HIST 349 Colonial North America 1600–1760

Units: 4 Terms Offered: Fa Colonial history of United States area, Canada, and Caribbean to 1760; Indians, European migration, plantation complexes, Puritan colonies, African slave migration, creole culture, borderlands, wars for empire. Instruction Mode: Lecture Grading Option: Letter

HIST 351 The American Revolution

Units: 4 Terms Offered: Fa Origins, course and consequences of the American Revolution; the post-war establishment of the Constitution. Instruction Mode: Lecture Grading Option: Letter

HIST 352gp The American Civil War

Units: 4 Terms Offered: Irregular The causes, course, campaigns, and consequences of the American Civil War, 1861–1865. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

HIST 353m Race and Racism in the Americas

Units: 4 (Enroll in AMST 353)

HIST 354 Mexican Migration to the United States

Units: 4, 2 years Terms Offered: Fa Mexican migration from the 1850s to the present, emphasizing labor migrants to the United States. Instruction Mode: Lecture Grading Option: Letter

HIST 355 The African-American Experience

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode:

Lecture Grading Option: In-progress to Credit/No Credit

HIST 594b Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 594z Master's Thesis

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 595x Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: Fa Basic principles of history pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first semester teaching assistants in history. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 602 Seminar in Ancient History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 605 Seminar in Medieval European History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 608 Seminar on Premodern Europe

Units: 4 Max Units: 8.0 Directed research on topics from late antiquity to the 18th century. Students will work with both their faculty advisers and the course instructor. Instruction Mode: Lecture Grading Option: Letter

HIST 610 Seminar in Early Modern European History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems concerning the 17th and 18th centuries. Instruction Mode: Lecture Grading Option: Letter

HIST 615 Seminar in Modern European History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems dealing with Europe since 1789. Instruction Mode: Lecture Grading Option: Letter

HIST 617 Seminar in Russian History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 620 Research Seminar on Modern Visual Culture

Units: 4 Terms Offered: Fa A research seminar focusing on Western visual culture since the mid-18th century. *Recommended Preparation:* HIST 520. Instruction Mode: Lecture Grading Option: Letter

HIST 630 Seminar in Japanese History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 635 Seminar in Chinese History

Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. *Prerequisite:* HIST 340. Instruction Mode: Lecture Grading Option: Letter

HIST 650 Seminar on Women's and Family History

Units: 4 Max Units: 8.0 Terms Offered: Sp Readings, discussions, and directed research on women's and family histories. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-650

HIST 655 Seminar in Western American History

Units: 2 or 4 Max Units: 8.0 Selected topics in the history of the American frontier and the West. Instruction Mode: Lecture Grading Option: Letter

HIST 660 Research Seminar on Transpacific Studies

Units: 4 Terms Offered: FaSp (Enroll in AMST 622)

HIST 670 Illness and Healing in the Modern World

Units: 4 Terms Offered: Sp Illness and healing in Europe and the Americas since 1492, especially the changing clinical and cultural definitions and responses to disease and ailments. Instruction Mode: Lecture Grading Option: Letter

HIST 673 Seminar in Early North American History

Units: 4 Max Units: 8.0 Primary research on issues related to the history of the colonial and early national periods with an emphasis on areas that became the United States. Instruction Mode: Lecture Grading Option: Letter

HIST 675 Seminar in 19th Century United States History

Units: 4 Max Units: 8.0 Terms Offered: Sp Research in historical problems of the Antebellum, Civil War, and Post-Civil War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 680 Seminar in 20th Century United States History

Units: 4 Max Units: 8.0 Terms Offered: Fa Directed research in historical problems of the Reform, World War I, interwar, World War II, and Post-War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 700 Historical Explanation and Research Design

Units: 4 Designed for all doctoral candidates in their last year of course work, this practicum helps students define a dissertation topic and produce a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode:

Lecture Grading Option: In-progress to Credit/No Credit

HIST 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Health Care Management**HMGT 510 The Dynamics of Health Care Leadership**

Units: 4 A five-day residential provides an intensive, multi-faceted learning experience in leadership, communication, managed care, systems thinking, and the health care environment. Instruction Mode: Lecture Grading Option: Letter

HMGT 512 Information Technology and Patient Engagement

Units: 2 Terms Offered: FaSpSm Strategic management and utilization of healthcare information technology in the delivery of healthcare; patient engagement and the use of technology to facilitate participation in their own care. Registration Restriction: Open only to Executive Master of Health Administration students. Instruction Mode: Lecture Grading Option: Letter

HMGT 520 Leading People and Health Care Organizations

Units: 4 Terms Offered: Fa An exploration of contemporary work force issues and skills development in organizational design, performance measurement, teamwork, conflict resolution, leadership, and change management. Instruction Mode: Lecture Grading Option: Letter

HMGT 525 Managed Care Operations

Units: 4 Focuses on managerial, operational, and organizational aspects of managed care for integrated delivery systems, health plans, and medical groups. Instruction Mode: Lecture Grading Option: Letter

HMGT 540 Health Economics, Financing and Reimbursement

Units: 2 Terms Offered: Fa Provides a framework for the economic analysis of health care issues and provides students with an opportunity to apply economic methods to a number of actual health care problems. Instruction Mode: Lecture Grading Option: Letter

HMGT 545 Systems Thinking and the Analysis of Data

Units: 4 Quality improvement and statistical tools for health managers. Covers analyzing

processes; collecting and analyzing operational data; drawing valid conclusions from data. Instruction Mode: Lecture Grading Option: Letter

HMGT 550 Law, Regulation, and Ethics

Units: 4 An intensive introduction to business and health care law, ethics and regulation; gives executives practical knowledge regarding legal consideration in business transactions. Instruction Mode: Lecture Grading Option: Letter

HMGT 560 Customer-Focused Health Care Organization

Units: 2 Strategies for gaining and using customer-derived data in planning, marketing and managing health care organizations. Instruction Mode: Lecture Grading Option: Letter

HMGT 565 Managing the Organization's Financial Health

Units: 4 Terms Offered: Fa Executives confront and solve problems requiring use of accounting, finance, and management control principles; provides core financial skills for non-finance professionals. Instruction Mode: Lecture Grading Option: Letter

HMGT 570 Strategic Management

Units: 4 Terms Offered: Sm Provides skill development and application in the integrative discipline of strategic management including assessment, strategy formulation, implementation and control. Instruction Mode: Lecture Grading Option: Letter

HMGT 575 Managing and Improving Health

Units: 4 Terms Offered: Sp Methods for monitoring and improving the health of populations. Topics include outcomes management, risk-adjustment, development and implementation of practice guidelines. Instruction Mode: Lecture Grading Option: Letter

HMGT 600 Managing Risk

Units: 2 Terms Offered: FaSp Overview of reimbursement models in clinical and institutional settings; legal, financial and clinical assumption of risk pursuant to new and evolving federal and state statutory and regulatory provisions. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 601 Operations Management for Accountability

Units: 4 Terms Offered: FaSp Hospital operations in the inpatient/outpatient setting; special emphasis on the growing requirement to more effectively manage across the continuum of care while assuming greater accountability in the delivery of care. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 602 Operational Efficiency Processes in Health Care Organizations

Units: 2 Terms Offered: FaSp Improving productivity and efficiency of health care organizations combining the application of key operational analysis principles to improve quality, speed and productivity

in the delivery of health care. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMG 603 Developing and Monitoring of Quality and Patient Safety Outcomes

Units: 2 Terms Offered: Sm Overview of contemporary methods used to develop and monitor patient quality and safety outcomes; develop skill in data collection and analysis of clinical care outcomes; focus on operationalizing outcomes that matter to payers, organizations, and clinicians. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

Health Promotion and Disease Prevention Studies

HP 101 Current Issues in Medical Education and Healthcare

Units: 2 Terms Offered: Sp Current critical issues in healthcare delivery; strategies to succeed in medical school and as physicians. Instruction Mode: Lecture Grading Option: Letter

HP 200 Introduction to Health Promotion and Disease Prevention

Units: 4 Terms Offered: Fa Introduction to strategies for promoting health and wellness. Includes self monitoring of health risk behavior, goal setting, and behavior changes. Instruction Mode: Lecture Grading Option: Letter

HP 230 Nutrition and Health

Units: 4 Terms Offered: FaSp Nutrition as it relates to health promotion across the lifespan and disease prevention. Discussion of nutrients, factors affecting food choices, food safety and global nutrition issues. Instruction Mode: Lecture Grading Option: Letter

HP 270 Introduction to Global Health

Units: 4 Terms Offered: Fa Introduction to concepts of global health and disease control. Issues of globalization, global governance, emerging diseases, infectious disease treatment, and outbreak challenges. Instruction Mode: Lecture Grading Option: Letter

HP 290 Introduction to Research Apprenticeship

Units: 2 Max Units: 8.0 Terms Offered: FaSp Individual research apprenticeship in health related fields under supervision of a departmental faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

HP 299 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Special topics in Health Promotion and Global Health. Instruction Mode: Lecture Grading Option: Letter

HP 300 Theoretical Principles of Health Behavior

Units: 4 Terms Offered: FaSp Overview and analysis of predictors and consequences of health-related behaviors; theoretical viewpoints and strategies for behavior change. *Prerequisite:* PSYC 100. *Recommended Preparation:* HP 200;

Instruction Mode: Lecture Grading Option: Letter

HP 320 Biological and Behavioral Basis of Disease

Units: 4 Terms Offered: FaSp Examination of the major systems of the human body; disease processes and behavioral risk factors. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

HP 340Lg Health Behavior Statistical Methods

Units: 4 Terms Offered: FaSp Intermediate statistics for health behavior studies; topics include descriptive statistics, hypothesis testing, correlation and regression, and use of computer software in data analysis. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

HP 345 Health Issues in Entertainment Media

Units: 4 Terms Offered: FaSpSm Study of major chronic illnesses and their risk factors as a foundation for discussions about the portrayal of health and illness in entertainment media. Duplicates Credit in the former CNTV 345. Instruction Mode: Lecture Grading Option: Letter

HP 350L Health Behavior Research Methods

Units: 4 Terms Offered: FaSp Introduction to the design, conduct and evaluation of health behavior research studies; quantitative and qualitative approaches to research and analysis. *Recommended Preparation:* HP 340. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HP 365gmw Culture, Lifestyle, and Health

Units: 4 Terms Offered: FaSp Comparison of national and international differences in health status as influenced by cultural practices and lifestyles within geographic, economic, and political environments. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in HP 400m Instruction Mode: Lecture Grading Option: Letter

HP 370g Introduction to Epidemiology: Methods and Applications

Units: 4 Examines the primary goals and methods of epidemiology, the study of factors that influence health and disease in individuals and populations. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

HP 401 Cultural Competence in Medicine

Units: 4 Terms Offered: Fa Systematic development of specific professional skills for providing effective, culturally sensitive health services to diverse populations. *Recommended Preparation:* ANTH 101. Instruction Mode: Lecture Grading Option: Letter

HP 402 Maternal and Child Health

Units: 4 Terms Offered: Sp Health issues of women of childbearing age from pre-pregnancy through the postpartum period, and of children from their development

in utero through early adolescence.

Recommended Preparation: PSYC 100.

Instruction Mode: Lecture Grading Option: Letter

HP 403 Behavioral Medicine

Units: 4 Terms Offered: Sp Examines behavioral risk factors for illness, health-enhancing and health-compromising behaviors, stress/coping in promoting health and preventing illness, and behavioral management of chronic illness. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 404 Religion and Health

Units: 4 Terms Offered: Fa Differential relationships of religiosity and spirituality with health and risk behaviors, physical and mental health outcomes, coping skills and well-being across cultures and religions. Instruction Mode: Lecture Grading Option: Letter

HP 405 Sexually Transmitted Diseases: A Global Public Health Priority

Units: 4 An overview of the magnitude and impact of STDs including prevention, diagnosis, and treatment of common STDs, STD/HIV interrelationship, global burden, trends, public health challenges, and STD/HIV prevention and control strategies and programs worldwide. Instruction Mode: Lecture Grading Option: Letter

HP 408 Environmental Health in the Community

Units: 4 Survey of occupational and environmental health. Introduction to epidemiology, exposure assessment, toxicology, policy development, risk assessment, and effects of urban development on health. Instruction Mode: Lecture Grading Option: Letter

HP 409 Environmental Impacts on the Brain

Units: 4 An examination of the physical and chemical factors in the environment that contribute to neurodevelopmental disorders, cognitive function and neurodegeneration. Instruction Mode: Lecture Grading Option: Letter

HP 410 Issues in Prevention and Cessation of Drug Abuse

Units: 4 Terms Offered: Sp Examination of factors related to drug abuse behaviors; overview and assessment of drug abuse prevention and cessation programs; relapse prevention programs. *Recommended Preparation:* HP 300. Instruction Mode: Lecture Grading Option: Letter

HP 411 Drug Intervention Program Design and Evaluation

Units: 4 Terms Offered: Sp Strategies for drug abuse prevention and intervention; introduction to techniques and research methods used in designing, conducting, and evaluating drug abuse prevention programs. *Recommended Preparation:* HP 410. Instruction Mode: Lecture Grading Option: Letter

HP 412 Health Promotion and Prevention Policy

Units: 4 Terms Offered: Sp Overview of health promotion and drug prevention policy at local, state, and federal levels; methods

for evaluating policy effectiveness and cost effectiveness. Instruction Mode: Lecture Grading Option: Letter

HP 420m Gender and Minority Health Issues

Units: 4 Terms Offered: Fa Examines the nature and roots of health disparities among women, men, and different ethnic and age groups; methods for reducing such disparities; strategies for prevention services. Instruction Mode: Lecture Grading Option: Letter

HP 421 Violence as a Public Health Issue

Units: 4 Terms Offered: Fa Patterns and prevalence of violence; psychosocial, environmental, and biological influences on violent behavior; youth gangs; drugs and violence; family violence; and prevention and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

HP 422 AIDS in Society

Units: 4 Terms Offered: Sp Provides a broad examination of issues in HIV/AIDS, including behavioral, social, biological, clinical and ethical dimensions of the pandemic in the U.S. and elsewhere. Instruction Mode: Lecture Grading Option: Letter

HP 430 Obesity and Health

Units: 4 Terms Offered: Fa Examination of causes and consequences of obesity, with emphasis on health risks of type II diabetes and cardiovascular disease. *Recommended Preparation:* HP 230. Instruction Mode: Lecture Grading Option: Letter

HP 431 Behavior and Education Strategies for Nutrition and Fitness

Units: 4 Terms Offered: Sp Examination of dietary intake and exercise behaviors as they relate to health and illness; methods for measuring diet and exercise. *Recommended Preparation:* HP 430. Instruction Mode: Lecture Grading Option: Letter

HP 432 Clinical Nutrition

Units: 4 Terms Offered: Irregular Metabolism of carbohydrates, fats and protein; introduction to vitamins, minerals and dietary modifications in various pathological conditions. *Prerequisite:* CHEM 105a; *Recommended Preparation:* HP 230. Instruction Mode: Lecture Grading Option: Letter

HP 433 Advanced Topics in Nutrition

Units: 4 Terms Offered: Sp In-depth discussion of vitamins and minerals and their role in human nutrition; introduction to the role of vitamins and minerals in selected pathological conditions. *Prerequisite:* HP 432. Instruction Mode: Lecture Grading Option: Letter

HP 434 Physical Activity and Health

Units: 4 Terms Offered: FaSpSm Examination of the health impacts of physical inactivity; participation rates across subgroups; physical activity determinants; and interventions, programs, and policies to promote physical activity. *Recommended Preparation:* HP 200. Instruction Mode: Lecture Grading Option: Letter

HP 440 Happiness, Well-Being, and Health

Units: 4 Terms Offered: Sp Explores human

strengths that promote happiness/well-being and whether they influence physical health; mind-body relationships; and strategies for promoting hope, resilience, and quality of life. *Recommended Preparation:* HP 200, PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 441 Health Promotion in the Workplace

Units: 4 Terms Offered: Fa Covers phases of worksite health promotion; research, design, implementation and evaluation; concerns regarding escalating medical costs and the role of health promotion in offering solutions. Instruction Mode: Lecture Grading Option: Letter

HP 442 Chronic Disease Epidemiology

Units: 4 Terms Offered: Sp Overview of causative factors and demographic distributions of the major chronic diseases in the western world; epidemiologic concepts and research designs. *Recommended Preparation:* HP 320. Instruction Mode: Lecture Grading Option: Letter

HP 443 Communicating Better Health: What Works and Why

Units: 4 Terms Offered: Sp (Enroll in COMM 443)

HP 446 Poisons, People, and Politics

Units: 4 Terms Offered: Fa Case studies of toxic exposures and investigation of the role of government, scientists, labor and industry in protecting against health threats caused by toxic exposures. Instruction Mode: Lecture Grading Option: Letter

HP 448 Global Environmental Changes and Health

Units: 4 Terms Offered: FaSpSm Discussion of global environmental changes, including climate change, air pollution, water pollution, radiation, and their impacts on human health. Instruction Mode: Lecture Grading Option: Letter

HP 450 Traditional Eastern Medicine and Modern Health

Units: 4 Terms Offered: Fa Overview of traditional Eastern approaches toward health and disease; relevance to modern health issues, emphasizing a comparison between traditional Chinese and modern Western medicine. *Recommended Preparation:* fundamentals of medicine. Instruction Mode: Lecture Grading Option: Letter

HP 460 Adolescent Health

Units: 4 Terms Offered: Fa Survey of the development of healthy and the prevention of health-risk behaviors during adolescence. Prevention and promotion techniques will be explored emphasizing cultural differences. Instruction Mode: Lecture Grading Option: Letter

HP 465 Health Status of Indigenous Peoples of America

Units: 4 Terms Offered: FaSpSm Survey of indigenous people's health, including health conditions, special cultural and ethical considerations, the Indian health system, and the politics of indigenous health. Instruction Mode: Lecture Grading Option: Letter

HP 470 Case Studies in Global Health

Units: 4 Terms Offered: Sp Case study

examination of programs and organizational structure underlying current international efforts addressing problems related to infection disease, chronic disease, global environmental change, emergencies and emerging disease epidemics. *Prerequisite:* HP 270. Instruction Mode: Lecture Grading Option: Letter

HP 480 Internship in Health Promotion and Disease Prevention

Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Field placement in a community agency such as a county health services agency, a not for profit voluntary agency or a health care setting. *Prerequisite:* completion or concurrent registration in required core courses. Instruction Mode: Lecture Grading Option: Credit/No Credit

HP 483 Global Health and Aging

Units: 4 Terms Offered: Fa (Enroll in GERO 483)

HP 485 Global Health: Obesity and Nutrition

Units: 4 Terms Offered: FaSpSm Overview of the epidemiology of obesity and related diseases and the etiology of obesity, including genetic, biological, behavioral, environmental and sociocultural correlations. Instruction Mode: Lecture Grading Option: Letter

HP 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. *Recommended Preparation:* HP 350. *Corequisite:* HP 340; Instruction Mode: Lecture Grading Option: Letter

HP 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Lecture and discussion focused on specific topics within health promotion and disease prevention. Course topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Human Resource Management

HRM 500 Human Resource Strategy

Units: 2 Terms Offered: FaSpSm Explores the strategic role that human resources management plays in providing organizations with sustained competitive advantages by unlocking the productive potential of employees' human and social capital. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 505 Organizational Culture and Employee Outcomes

Units: 2 Terms Offered: FaSpSm Prepares students to create, foster, and manage organizations in which people thrive and perform at their best in order to retain talent and reduce costs in a sustainable way. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 510 Leadership in Human Resources

Units: 2 Terms Offered: FaSpSm Focuses on developing the critical social intelligence skills needed to lead people and change

through increased self-awareness, understanding of interpersonal differences, and greater influence. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 515 Organization Design

Units: 2 Equips students with a deeper understanding of how to design and develop organizations to increase performance and effectiveness and includes sections on strategy, work, and management processes. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 520 Talent Management

Units: 2 Terms Offered: FaSpSm Examines talent management processes that impact employee experience and engagement and explores ways to improve data driven decision making processes including workforce and succession planning. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 525 Total Rewards

Units: 2 Terms Offered: FaSpSm Provides a comprehensive look at the employee rewards strategies that human resource practitioners promote and manage including compensation, performance management, benefits, and non-monetary rewards. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 530 Learning and Development

Units: 2 Terms Offered: FaSpSm Prepares students to identify, design, and implement effective learning and development interventions and strategies that drive results and enhance organizational competitiveness. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 535 Employee Relations

Units: 2 Terms Offered: FaSpSm Applies practical approaches to building positive employee and labor relations and solving related problems through increased employee motivation, effectiveness, and retention. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 540 Human Resources Analytics

Units: 2 Terms Offered: FaSpSm Examines and emphasizes strategies and techniques to enable improved organizational and human capital decisions by directing the organizational analytics for more actionable insights. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 545 Management of Diverse and Global Human Resources

Units: 2 Terms Offered: FaSpSm Analyzes

global diversity in today's environment, fostering a broad understanding of diversity and inclusion and the impact of diversity, inclusion, and inclusive behaviors on organizations. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 550 Change Management and Organization Development

Units: 2 Terms Offered: FaSpSm Identifies the common challenges in organizational change management and explores the limitations and opportunities of different models of organizational change. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 555 Anticipating the Future of Human Resources

Units: 2 Terms Offered: FaSpSm Explores the forces and emerging trends that are reshaping work, the workforce and workplace – and how to address these transformational changes and be effective as a Human Resources leader. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

Integrated Design, Business and Technology

IDSN 505 Intensive

Units: 0.5, 1, 1.5, 2 Max Units: 06 Terms Offered: FaSpSm Optional short-term, primarily residential, learning experience paired with an event/activity. Intensive experience aligns with and extends the cross-disciplinary nature of the program. *Recommended Preparation:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 510 Integrative Practices Residential

Units: 2 Terms Offered: FaSp One-week campus residential. Introduction to program themes, content, concepts, theories, and processes. Opportunity to build skills and meet cohort, with an emphasis on team building. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 515 Professional Practices Residential

Units: 2 Max Units: 04 Terms Offered: FaSpSm One-week off-campus residential. Applied, intensive workshop format focused on solutions for real-world problems with input from industry experts. *Recommended Preparation:* IDSN 510, IDSN 520, IDSN 525, IDSN 530, IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 520 Design Essentials

Units: 3 Overview of design language, process and product. Build fluency in applying core visual principles and design-

based problem-solving techniques. Explore historical and contemporary design issues.

Recommended Preparation: IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 525 Business Essentials

Units: 3 Overview of general business and management concepts and techniques that builds theoretical and analytical fluency and identifies and examines leadership and managerial challenges. *Recommended Preparation:* IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 530 Technology Essentials

Units: 3 Overview of core information technology concepts, methods, and frameworks. Develop aptitude in using tools, applications and systems; learn basic programming languages and methodologies. *Recommended Preparation:* IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 540 Processes and Perspectives

Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary, and shared approaches to products, services, projects, systems, organizational development. Topics include creative and user-focused perspectives, feasibility analytics, lean startup techniques. *Recommended Preparation:* IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 545 Integrative Project

Units: 2 Max Units: 06 Terms Offered: FaSpSm Faculty-mentored project. Demonstrate individual and simultaneous skills and competency across fields and within cross-functional, cross-disciplinary teams. *Recommended Preparation:* IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 550 Opportunity and Uncertainty

Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary, and shared approaches to recognizing/analyzing opportunities, identifying/framing problems, and developing/iterating solutions. Techniques gleaned from entrepreneurship, creative practices, critical thinking methods, ethnography, systems theory. *Recommended Preparation:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 560 Narrative and Storytelling

Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary, and shared approaches to exploring visual, written, and spoken storytelling using digital modalities. Topics include communication theory, narrative structures and content creation.

Recommended Preparation: IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 570 Decisions and Solutions

Units: 4 Terms Offered: FaSpSm Generate portfolio of solutions for a given "problem." Explore solutions and decisions, mechanisms for reducing uncertainty and risk. Includes quantitative and qualitative techniques. *Recommended Preparation:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 575 International Experience

Units: 2 Max Units: 04 Terms Offered: Sp International study experience and trip focusing on a primary subject area of the USC Iovine and Young Academy. Registration Restriction: Open only to IDSN students Instruction Mode: Lecture Grading Option: Letter

IDSN 585 Capstone

Units: 3 Faculty-mentored, applied project with individual and team components. Implement a prototype solution to a problem. Deploy relevant tools, methods, and processes learned throughout the program. *Recommended Preparation:* All prior required courses (excluding concurrent courses) Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units, which may be applied to the degree, to be determined by the department. Graded CR/NC. Registration Restriction: Open only to IDSN majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 599 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: Irregular Selected topics in design, business and technology. Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

Media Arts and Practice

Note: Instructor availability for a particular course or section cannot be guaranteed.

IML 104 Introduction to Digital Studies

Units: 2 Terms Offered: FaSpSm An introduction to the expressive range of screen languages in their cultural, historical, and technological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 140 Workshop in Multimedia Authoring

Units: 2 Terms Offered: FaSpSm Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 201 The Languages of Digital Media

Units: 4 Terms Offered: FaSpSm An in-depth investigation of the close interrelationships among technology, culture and communication to form a solid foundation for digital authoring. Duplicates Credit in former IML 101. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 202 Media Arts and Practice Studio I

Units: 4 Terms Offered: Fa Intermediate laboratory exploring the foundations of visual culture through a series of critical design prompts. Emphasis on the creative process, project documentation and the development of a personal design methodology. *Prerequisite:* IML 201 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 102 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 203 Media Arts and Practice Studio II

Units: 4 Terms Offered: Sp Intermediate laboratory exploring computational systems through a series of critical design prompts. Emphasis on digital representation, time-based processes, abstract data and the relationship between humans and computers. *Prerequisite:* IML 202 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 103 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 230 Fundamentals of Media Design

Units: 4 Terms Offered: FaSp Introduction to the methods of visual design with respect to digital media authorship. Exploring the creative process through various conceptual workflows and hands-on techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 288 Critical Thinking and Procedural Media

Units: 4 Terms Offered: FaSp Investigation of the potentials of computational media to define new aesthetics, modes of representation and structures of communication. Duplicates Credit in IML 388 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 295Lm Race, Class and Gender in Digital Culture

Units: 4 Terms Offered: FaSp Critical analysis of the categories of race, class and gender within the diverse digital spaces of contemporary culture, from video games to the digital divide. Instruction Mode: Lecture, Lab Required Grading Option: Letter

IML 300 Reading and Writing the Web

Units: 4 Terms Offered: FaSp An introduction to a broad range of technical and theoretical issues surrounding the production of web-based content. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 309 Integrative Design for Mobile Devices

Units: 4 Terms Offered: FaSp Hands-on investigation of opportunities and challenges offered by mobile interaction within both cultural and ideological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 310 Professionalism for Media Arts

Units: 2 Terms Offered: FaSpSm Development of documentation and archival strategies, with an emphasis on techniques of personal and professional representation. *Prerequisite:* IML 300 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 320 Designing and Writing for Transmedia Narratives

Units: 4 Terms Offered: FaSp Creating a story that uses three or more digital platforms (video, social media, games, comics, et cetera) with strategies drawn from entertainment, art and activism. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 328 Sonic Media Art

Units: 2 Terms Offered: FaSp Survey of audio culture and sound technologies, focusing on developing sonic literacy and creating artwork using sound as a primary modality. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 335 Digital Narrative Design I

Units: 2 Terms Offered: FaSp An introduction to audio and video techniques for digital storytelling across various platforms. Students will create multiple short-form projects using contemporary tools and technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 340 Remixing the Archive

Units: 4 Max Units: 8 Terms Offered: FaSp An intermediate level course which approaches archived material from multiple perspectives, in order to develop new avenues of expression, education, and research. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 346 Methods in Digital Research

Units: 2 Terms Offered: FaSpSm Emphasizing rigorous multimedia research and authorship strategies, this course prepares students to undertake large-scale digital projects. *Prerequisite:* IML 104 or IML 201 Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 354 Introduction to 3-D Modeling

Units: 2 Terms Offered: FaSp An introduction to the history, theory and critical context of 3-D spatial representation, as well as foundational authoring skills in modeling interactive 3-D spaces. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 365 Future Cinema

Units: 4 Terms Offered: FaSp Examination of the history of cinematic experimentation to provide a framework for understanding contemporary virtual reality, augmented reality, interactive installations and large-scale urban screens. Instruction Mode: Lecture Grading Option: Letter

IML 385 Design Fiction and Speculative Futures

Units: 4 Terms Offered: FaSp The history, theory and methods of design fiction, focusing on design videos and physical prototypes as tools for exploring contemporary social, political and ethical life. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 400 Creative Coding for the Web

Units: 4 Terms Offered: FaSp Analysis and development of scholarly media projects using diverse web authoring strategies, technologies and documentation. *Prerequisite:* IML 300. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 404 Tangible and Spatial Computing

Units: 4 Terms Offered: FaSp Exploration of extended human computer interaction, including new forms of haptic, sonic and other sense modalities, through physical computing and spatial interfaces. *Prerequisite:* IML 288 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 419 Emotion in Digital Culture

Units: 4 Terms Offered: FaSp Project-based course examining emotion in relation to technology, digital culture and the human experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 420m New Media for Social Change

Units: 4 Max Units: 8.0 Terms Offered: FaSp Creating real social change through multimedia, working in collaboration with a local nonprofit organization. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 422 Information Visualization

Units: 4 Terms Offered: FaSp Visualizing information through diverse media platforms, with a focus on critical analysis and hands-on visualization. Duplicates Credit in the former IML 222 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 428 Exploring and Creating Sonic Environments

Units: 4 Terms Offered: FaSp Exploration of spatial sound practices, focusing on sound installation art, sonic visualization and audio storytelling techniques. *Prerequisite:* IML 328 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 430 Visual Communication and Experience Design

Units: 4 Terms Offered: FaSp Studio course focused on visual design, UX/UI design and the creative process. Emulating design agencies and working with clients and creative briefs. *Prerequisite:* IML 230 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 435 Digital Narrative Design II

Units: 4 Terms Offered: FaSp Exploration of advanced techniques in digital audio and video storytelling. Emphasis on nonlinearity, computer graphics, sound design and networked media. *Prerequisite:* IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 436 Hypercinemas Studio

Units: 4 Terms Offered: FaSp A hands-on exploration of emerging cinematic technologies, situated within a historical context through both theoretical and practical analysis. *Prerequisite:* IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 440 Interdisciplinary Honors Thesis

Units: 4 Terms Offered: FaSp Production of an interdisciplinary digital thesis project. *Prerequisite:* IML 346 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 441 Thesis Project I

Units: 2 Terms Offered: Fa Exploration of theoretical and practical concerns of advanced digital media authorship. *Prerequisite:* IML 346 and IML 203 Registration Restriction: Open only to Media Arts and Practice majors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 444 Thesis Project II

Units: 2 Terms Offered: Sp Production of a digital thesis project. *Prerequisite:* IML 441. Registration Restriction: Open only to Media Arts and Practice majors. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 450 Critical Play and Documentary Games

Units: 4 Terms Offered: FaSp Investigation of the history and theory of games designed to prompt social change, with a hands-on component in the creation of documentary game projects. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 454 Advanced Techniques of Spatial Representation

Units: 4 Terms Offered: FaSp Studio class exploring spatial perception and advanced techniques of 3-D representation, stereoscopy, panorama, projection mapping, modeling for real-time environments, parametric modeling, and 3-D fabrication. *Prerequisite:* IML 354 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 456 Nature, Design and Media

Units: 2 Terms Offered: FaSp Investigation of the impact of natural patterns on digital media design. Explores the relationships among chaos, harmony, beauty, proportion, spirituality, holistic systems and shaped experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 458 The Embedded Story: Designing Digital Landscapes and Languages

Units: 2 Terms Offered: FaSp Exploration of the imagined territories where language and landscape originate, converge and are transformed. Students will collaborate to create media in cross-platform environments. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 466 Digital Studies Symposium

Units: 2 Terms Offered: FaSp Lectures, presentations, and readings introducing cutting-edge digital media innovations and applications. Analysis of the critical and creative challenges of contemporary digital media practices. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 475 Media Arts Research Lab

Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm A hands-on mentored research lab experience within the context of media art and in association with a real-world project. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 477 Embodied Storytelling and Immersive Docu-Narratives

Units: 4 Terms Offered: FaSp Examination of art, media, and theatre, to create an immersive, installation-based intervention utilizing the embodied 360-degree docu-narrative form. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 481 Mixed Realities: Histories, Theories and Practices

Units: 4 Terms Offered: FaSp A comprehensive orientation to mixed reality, delving into its theories and histories while grounding students in a hands-on introduction to current tools and techniques. *Recommended Preparation:* IML 288, IML 354, or experience with programming and 3-D design programs Instruction Mode: Lecture, Lab Grading Option: Letter

IML 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. *Prerequisite:* IML 104 or IML 201 Instruction Mode: Lecture Grading Option: Letter

IML 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in multimedia literacy. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 500 The Praxis of Sonic and Visual Media

Units: 4 Terms Offered: FaSpSm An introduction to digital authorship at the graduate level, with a focus on the potential of multimedia scholarship and networked dissemination. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

IML 501L Digital Media Authorship and the Archive

Units: 4 Terms Offered: FaSpSm An in-depth examination of emergent technologies in their cultural and historic contexts, with an equal emphasis on production and analysis. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

IML 502 Techniques of Information Visualization

Units: 4 Terms Offered: FaSp Critical and practical analysis of scholarly data visualization using diverse platforms. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 520 Non-Fiction Cinematic Practice I

Units: 2 Terms Offered: Fa An introduction to video in academic scholarship. Acquisition and editing of images and sound through a series of short, non-fiction media projects. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 521 Non-Fiction Cinematic Practice II

Units: 2 Terms Offered: Sp Deepening skills in audio/video storytelling methods through a semester-long, non-fiction media project. *Prerequisite:* IML 520 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 535 Tactical Media Strategies

Units: 4 Terms Offered: FaSp Integrating hardware, software and interactivity to explore new forms of expression. Emphasis on critical tactics (culture hacking, creative misuse) aimed at activism and social change. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 543 Transdisciplinary Media Design Practicum

Units: 4 Max Units: 8 Terms Offered: FaSp Collaboration of artists and designers with non-art professionals to develop cross-disciplinary, media-based creative interventions. *Recommended Preparation:* CTIN 503 and CTIN 541. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 555 Digital Pedagogies

Units: 4 Terms Offered: FaSp An exploration of varied pedagogical approaches and strategies informed by critical engagement with digital media and networked technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 575 Graduate Media Arts Research Lab

Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm A hands-on mentored graduate research lab experience within the context of media art and in association with a real-world project. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 585 Creative Critical Writing Workshop

Units: 2 Max Units: 4 Terms Offered: FaSpSm A writing workshop to explore innovative forms for critical writing, media-rich writing and video that borrow from creative nonfiction, the lyric essay, poetic/vernacular criticism. Instruction Mode: Lecture Grading Option: Letter

IML 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 599 Special Topics

Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Detailed investigation of new or emergent practices in digital media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

IML 600 Historical Approaches to Media Arts and Culture

Units: 4 Terms Offered: FaSp Introduction to the historical specificities of "old" media (painting, print, photography, film, video, television) and to consequences of the convergences produced by "new" media forms. Duplicates Credit in former CNTV 600. Instruction Mode: Lecture Grading Option: Letter

IML 601 Seminar in Media and Design Studies

Units: 4 Terms Offered: FaSp Creation of a work of digital culture, informed by cultural theory, and planned using current design methods and practices. Duplicates Credit in former CNTV 601. Instruction Mode: Lecture Grading Option: Letter

IML 602 Practice of Media Arts

Units: 4 Max Units: 8 Terms Offered: FaSp Introduction to a range of technologies and media types, while identifying and

developing a specialization in one or more areas of practice. Duplicates Credit in former CNTV 602. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 603 Media Arts and Practice Colloquium/Professional Seminar

Units: 1 Max Units: 2 Terms Offered: FaSp Orientation to the profession, opportunities, presentation and analysis of recent developments and applications in Media Arts and Practice. Duplicates Credit in former CNTV 603. Instruction Mode: Lecture Grading Option: Credit/No Credit

IML 604 Theories of Media Arts and Practice

Units: 4 Terms Offered: FaSp Develops an anti-essentialist theory of technology adequate to the digital age that serves as a conceptual and critical framework for developing a contemporary technological imagination. Duplicates Credit in former CNTV 604. Instruction Mode: Lecture Grading Option: Letter

IML 605 Cinema to Post-Cinema and Beyond: History, Theory, Practice

Units: 4 Terms Offered: FaSp Introduction to contemporary media theory, with attention to posthumanism, networks, and the post-cinematic, and a demonstration of these concepts in media art. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794a Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794b Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794c Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794d Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794z Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Interdisciplinary — Developmental Dentistry**INDD 501 Applied Growth and Development**

Units: 1 Clinical relevance of chronological and biological assessment of maturation related primarily to diagnosis and prognosis. Instruction Mode: Lecture Grading Option: Letter

INDD 650a Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650b Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650c Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650d Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650e Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650f Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 651a Experience in Dental Teaching

Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651b Experience in Dental Teaching

Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651c Experience in Dental Teaching

Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651d Experience in Dental Teaching

Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 652 Externship

Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be

approved by Associate Dean for Student and Academic Life. Instruction Mode: Lab Grading Option: Credit/No Credit

INDD 690a Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690b Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690c Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690d Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690e Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690f Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary Major Program

INDS 100 Topical and Multidisciplinary Seminars

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Small group investigation from an interdisciplinary perspective. Instruction Mode: Lecture Grading Option: Letter

INDS 101 Directed Research and Tutorials

Units: 1, 2, 3, 4 Terms Offered: FaSp Research and study with L.A.S. Faculty Associates and other faculty. Instruction Mode: Lecture Grading Option: Letter

INDS 102 Field Study

Units: 1, 2, 3, 4 Terms Offered: FaSp In-service experience in a variety of off-campus institutions under the supervision of an L.A.S. Faculty Associate. Instruction Mode: Lecture Grading Option: Letter

INDS 300 Topical and Multidisciplinary Seminars

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp See INDS 100 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 301 Directed Research and Tutorials

Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 101 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 302 Field Study

Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 102 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 400 Topical and Multidisciplinary Seminars

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp See INDS 100 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 401 Directed Research and Tutorials

Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 101 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 402 Field Study

Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 102 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 494 Senior Thesis

Units: 1, 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSp Writing the IDM senior thesis under the supervision of a faculty qualifying exam committee. Instruction Mode: Lecture Grading Option: Letter

Informatics

INF 250 Introduction to Data Informatics

Units: 4 Fundamentals of data informatics: representation of data and knowledge, role of a data scientist, data storage/processing/ analytics, machine learning, big data, and data visualization. *Recommended Preparation:* A basic understanding of engineering and/or technology is recommended. *Corequisite:* ITP 115 Instruction Mode: Lecture Grading Option: Letter

INF 351 Foundations of Data Management

Units: 4 Data modeling, data storage, indexing, relational databases, key-value/ document store, NoSQL, distributed file system, parallel computation and big-data analytics. *Prerequisite:* INF 250 and ITP 115 *Recommended Preparation:* Programming experience (e.g., Python or Java) Instruction Mode: Lecture Grading Option: Letter

INF 352 Applied Machine Learning and Data Mining

Units: 4 Foundational course focusing on the understanding, application, and evaluation of machine learning and data mining approaches in data intensive scenarios. *Prerequisite:* INF 250 and MATH 208x Instruction Mode: Lecture Grading Option: Letter

INF 429 Security and Privacy

Units: 4 Basic concepts in information security and privacy; implications of security and privacy breaches; security and privacy policies, threats, and protection mechanisms; security and privacy laws, regulations, and

ethics. Instruction Mode: Lecture Grading Option: Letter

INF 454 Data Visualization and User Interface Design

Units: 4 Design of systems for data visualization; user interface design for exploring and interacting with data. *Prerequisite:* INF 250 Instruction Mode: Lecture Grading Option: Letter

INF 510 Principles of Programming for Data Science

Units: 4 Programming in Python for retrieving, searching and analyzing data from the Web. Learning to manipulate large data sets. Instruction Mode: Lecture, Lab Grading Option: Letter

INF 519 Foundations and Policy for Information Security

Units: 4 Threats to information systems; technical and procedural approaches to threat mitigation; policy specification and foundations of policy for secure systems; mechanisms for building secure security services; risk management. *Recommended Preparation:* Background in computer security preferred. Recommended previous courses of study include computer science, electrical engineering, computer engineering, management information systems, and/or mathematics. Instruction Mode: Lecture Grading Option: Letter

INF 520 Foundations of Information Security

Units: 3 Threats to information systems; technical and procedural approaches to threat mitigation; secure system design and development; mechanisms for building secure security services; risk management. *Recommended Preparation:* Background in computer security preferred. Recommended previous courses of study include computer science, electrical engineering, computer engineering, management information systems, and/or mathematics. Instruction Mode: Lecture Grading Option: Letter

INF 521 Application of Cryptography to Information Security Problems

Units: 3 Application of cryptography and cryptanalysis for information assurance in secure information systems. Classical and modern cryptography. Developing management solutions. *Recommended Preparation:* Previous degree in computer science, mathematics, computer engineering, or informatics; understanding of number theory and programming background are helpful. Instruction Mode: Lecture Grading Option: Letter

INF 522 Policy: The Foundation for Successful Information Assurance

Units: 3 Policy as the basis for all successful information system protection measures. Historical foundations of policy and transition to the digital age. Detecting policy errors, omissions and flaws. *Recommended Preparation:* Background in computer security, or a strong willingness to learn. Recommended previous courses of study include degrees in computer science, electrical engineering, computer engineering, management information systems, and/

or mathematics. Instruction Mode: Lecture
Grading Option: Letter

INF 523 Computer Systems Assurance

Units: 4 Assurance that an information system will behave as expected; assurance approaches for fielding secure information systems; case studies *Prerequisite:* INF 519 *Recommended Preparation:* Prior degree in computer science, electrical engineering, computer engineering, management information systems, and/or mathematics. Some background in computer security preferred. Instruction Mode: Lecture, Discussion Grading Option: Letter

INF 524 Distributed Systems and Network Security

Units: 3 Fundamentals of information security in the context of distributed systems and networks. Threat examination and application of security measures, including firewalls and intrusion detection systems. *Prerequisite:* INF 521; *Recommended Preparation:* Prior degree in computer science, mathematics, computer engineering, or informatics. It is recommended that students have a working understanding of communication networks and computer architecture, and some programming facility. Instruction Mode: Lecture Grading Option: Letter

INF 525 Trusted System Design, Analysis and Development

Units: 4 Analysis of computer security and why systems are not secure. Concepts and techniques applicable to the design of hardware and software for Trusted Systems. *Prerequisite:* INF 519 Instruction Mode: Lecture Grading Option: Letter

INF 526 Secure Systems Administration

Units: 4 The administrator's role in information system testing, certification, accreditation, operation and defense from cyber attacks. Security assessment. Examination of system vulnerabilities. Policy development. *Prerequisite:* CSCI 530 *Recommended Preparation:* Previous degree in computer science, mathematics, computer engineering, informatics, and/or information security undergraduate program. Also, it is highly recommended that students have successfully completed course work involving policy and network security. Instruction Mode: Lecture, Lab Grading Option: Letter

INF 527 Secure Systems Engineering

Units: 3 The process of designing, developing and fielding secure information systems. Developing assurance evidence. Completion of a penetration analysis. Detecting architectural weaknesses. Case studies. *Prerequisite:* INF 525; *Recommended Preparation:* Previous degree in computer science, mathematics, computer engineering, or informatics; moderate to intermediate understanding of the fundamentals of information assurance, and distributed systems and network security. Knowledge and skill in programming. Instruction Mode: Lecture Grading Option: Letter

INF 528 Computer Forensics

Units: 4 Preservation, identification,

extraction and documentation of computer evidence stored on a computer. Data recovery; File System Analysis; Investigative Techniques and Methodologies; Forensic Reports and Presentations. Instruction Mode: Lecture, Lab Grading Option: Letter

INF 529 Security and Privacy in Informatics

Units: 4 Covers societal implications of information privacy and how to design systems to best preserve privacy. *Recommended Preparation:* General familiarity with the use of common Internet and mobile applications. Instruction Mode: Lecture Grading Option: Letter

INF 549 Introduction to Computational Thinking and Data Science

Units: 4 Introduction to data analysis techniques and associated computing concepts for non-programmers. Topics include foundations for data analysis, visualization, parallel processing, metadata, provenance, and data stewardship. *Recommended Preparation:* Mathematics and logic undergraduate courses Instruction Mode: Lecture Grading Option: Letter

INF 550 Data Science at Scale

Units: 4 Fundamentals of big data informatics techniques. Data lifecycle; the data scientist; machine learning; data mining; NoSQL databases; tools for storage/processing/analytics of large data set on clusters; in-data techniques. *Recommended Preparation:* A basic understanding of engineering principles and programming language is desirable. Instruction Mode: Lecture Grading Option: Letter

INF 551 Foundations of Data Management

Units: 4 Terms Offered: FaSp Function and design of modern storage systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. *Recommended Preparation:* Understanding of networks and databases; experience with probability, statistics, and programming Duplicates Credit in INF 559 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 537

INF 552 Machine Learning for Data Science

Units: 4 Terms Offered: FaSp Practical applications of machine learning techniques to real-world problems. Uses in data mining and recommendation systems and for building adaptive user interfaces. Instruction Mode: Lecture Grading Option: Letter

INF 553 Foundations and Applications of Data Mining

Units: 4 Data mining and machine learning algorithms for analyzing very large data sets. Emphasis on Map Reduce. Case studies. *Recommended Preparation:* INF 551 and INF 552. Probability, linear algebra, basic programming, and machine learning Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 541

INF 554 Information Visualization

Units: 4 Terms Offered: Fa Graphical depictions of data for communication, analysis, and decision support. Cognitive

processing and perception of visual data and visualizations. Designing effective visualizations. Implementing interactive visualizations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 560

INF 555 Interaction Design and Usability Testing

Units: 4 Understand and apply user interface theory and techniques to design, build and test responsive applications that run on mobile devices and/or desktops. *Recommended Preparation:* Knowledge of data management, machine learning, data mining, and data visualization Instruction Mode: Lecture Grading Option: Letter

INF 556 User Experience Design and Strategy

Units: 4 Terms Offered: FaSp The practice of User Experience Design and Strategy principles for the creation of unique and compelling digital products and services. *Recommended Preparation:* Basic familiarity with web development and/or graphic design using a digital layout tool Instruction Mode: Lecture, Discussion Grading Option: Letter

INF 557 Foresight for Engineers

Units: 3 Terms Offered: FaSp Applying specialized engineering skillsets to exploring/conceiving of solutions to future challenges; use of techniques for systematically imagining/analyzing diverse possible future paths for engineering products. *Recommended Preparation:* Interest in technology innovation, technology policy/strategy and management, or entrepreneurship. Instruction Mode: Lecture Grading Option: Letter

INF 558 Building Knowledge Graphs

Units: 4 Terms Offered: Fa Foundations, techniques, and algorithms for building knowledge graphs and doing so at scale. Topics include information extraction, data alignment, entity linking, and the Semantic Web. *Prerequisite:* (INF 551 or CSCI 585) and (INF 552 or CSCI 567) *Recommended Preparation:* INF 553 and Experience programming in Python Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 563

INF 559 Introduction to Data Management

Units: 3 Function, design, and use of modern data management systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. *Recommended Preparation:* Understanding of engineering principles, basic programming skills, familiarity with Python Duplicates Credit in INF 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 559

INF 560 Data Science Professional Practicum

Units: 4 Terms Offered: Sp Student teams working on external customer data analytic challenges; project/presentation based; real client data, and implementable solutions for delivery to actual stakeholders; capstone to degree. *Recommended Preparation:* Knowledge of data management, machine

learning, data mining, and data visualization
Instruction Mode: Lecture Grading Option: Letter

INF 561 Engineering Data Analytics
Units: 3 Terms Offered: FaSp (Enroll in ISE 529)

INF 562 Integration of Medical Imaging Systems
Units: 3 (Enroll in BME 527)

INF 563 Medical Diagnostics, Therapeutics and Informatics Application
Units: 3 Terms Offered: Sp (Enroll in BME 528)

INF 570 Foundations of Communication Informatics
Units: 3 Modeling behavior and understanding network structures using graph theory and game theory. Using massive data to analyze group behavior. *Recommended Preparation:* Minimum one year of calculus and background in matrix operations.
Instruction Mode: Lecture Grading Option: Letter

INF 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

INF 599 Special Topics
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: 08 Course content to be selected each semester from recent developments in informatics. Instruction Mode: Lecture Grading Option: Letter

Interdisciplinary — Basic Science

INTB 504 Human Craniofacial Development and Genetics
Units: 3 Principles of human embryology and genetics; craniofacial developmental biology; molecular genetics, cytogenetics, clinical orofacial genetics, genetic counseling; bioethics. Instruction Mode: Lecture Grading Option: Letter

INTB 521 Basic and Medical Microbiology
Units: 2 Fundamentals of microbial structure, growth and physiology; major bacterial, viral and fungal diseases, symptoms, course, control and treatment; emphasis on diseases related to dental management. Instruction Mode: Lecture Grading Option: Letter

INTB 601 Advances in Oral Biology
Units: 2 Review of basics of scientific methodology; comparison between and indications for scientific studies and case reports; critical review of current dental literature. Instruction Mode: Lecture Grading Option: Letter

INTB 603 Systematic Approach to Scientific Writing
Units: 2 Study of dental research publication and review of writing principles; focus on logical arrangement of information, avoidance of common writing flaws, attainment of syntactical fluency. Instruction Mode: Lecture Grading Option: Letter

INTB 604 Clinics in Craniofacial Malformations
Units: 2 Diagnosis, treatment, and rehabilitation of craniofacial malformations; principles of health care of craniofacial malformation patients. Includes hospital clinical observation. Instruction Mode: Lecture Grading Option: Letter

INTB 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650e Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650f Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651b Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651c Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651d Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching

experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean, Academic Affairs. Instruction Mode: Lab Grading Option: Credit/No Credit

INTB 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdepartmental Medicine

INTD 500 Ethics and Accountability in Biomedical Research
Units: 1 Terms Offered: Sm The purpose of this course is to engage current (and potential) research trainees in discussions about the responsible conduct of science. The course is designed as an option for meeting current federal regulations which require that all predoctoral and postdoctoral fellows paid from federal contracts and grants have a component of ethical training. Instruction

Mode: Lecture Grading Option: Credit/No Credit

INTD 501 Recent Advances in Vision Science

Units: 1 Max Units: 4.0 Terms Offered: FaSp Recent advances in the understanding of the ocular surface are reported and discussed; students will learn how to read papers critically, develop speaking skills to explain a research paper and attend a three-day workshop on NIH proposal development and scientific manuscript preparation. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 504 Molecular Biology of Cancer

Units: 4, 2 years Terms Offered: Sp Epidemiology, pathobiology, carcinogenesis, tumor biology and heterogeneity; retroviruses, oncogenes, cell cycle control, genetics of cancer, tumor immunology; treatment strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 504, CBG 504, MICB 504

INTD 522 Infection and Host Responses

Units: 4 Terms Offered: Sp Overview of microbes, their life cycles and the host response they elicit, evade or exploit, including the manipulation and the malfunction of the immune system. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MICB-522

INTD 531 Cell Biology

Units: 4 Terms Offered: Fa Current perspectives on major research areas in cell biology. Emphasis will be on in-depth examination of cellular structures, regulatory processes, intra-cellular routing and targeting, and cell/environmental interactions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-531, CNB-531, MICB-531, MPTX-531, PATH-531, PHBI-531, PSCI-531

INTD 535 Continuing Introduction to Clinical Medicine for MD/PhD Students

Units: 1 Terms Offered: FaSp Course for MD/PhD students in PhD years designed to allow maintenance and improvement of clinical skills prior to re-entry in clinical rotations in the Year III medical curriculum. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 537 The Structure of Scientific Revolutions in Molecular Biology

Units: 1 Terms Offered: Irregular A course in how scientists make breakthrough discoveries and whether there are predictable ingredients for significant changes in perception of the living system. *Recommended Preparation:* one year in cell and molecular biology. Registration Restriction: Open only to graduate-level students in any of the biological sciences. Instruction Mode: Lecture Grading Option: Letter

INTD 549 Protein Chemistry — Structure and Function

Units: 4 Terms Offered: Sp Chemistry of peptides and proteins; protein structure and folding; molecular basis of protein action. *Recommended Preparation:* general biochemistry. Registration Restriction: Open only to graduate students. Instruction Mode:

Lecture Grading Option: Letter Crosslisted as BIOC-549

INTD 550 Introduction to Pathology

Units: 4 Terms Offered: Fa Normal histology and introduction to basic pathological concepts. Provides a solid and basic understanding of normal structures and how they relate to function. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-550

INTD 551 Pathobiology of Disease

Units: 4 Terms Offered: Sp Relationship between histopathological and clinical manifestations of disease and their underlying molecular mechanisms. Topics include inflammatory, developmental, environmental, degenerative, and neoplastic disease processes. *Prerequisite:* INTD 550. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-551

INTD 555 Biochemical and Molecular Bases of Disease

Units: 4 Biochemical and molecular abnormalities in disease states. *Prerequisite:* general biochemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-555, PATH-555

INTD 561 Molecular Biology

Units: 4 Terms Offered: Fa Biochemistry and molecular biology of replication, transcription, RNA processing, translation, and regulation of gene expression with emphasis on multicellular eukaryotic organisms and comparisons to prokaryotes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-561, CBY-561, CNB-561, MICB-561, MPTX-561, PATH-561, PHBI-561, PSCI-561

INTD 567 Molecular and Cellular Neurobiology

Units: 4 (Enroll in NSCI 531)

INTD 570 Current Topics in Cellular Homeostasis

Units: 2 Max Units: 08 Terms Offered: Sp Weekly research lectures by leading investigators in the field of homeostatic response to injury such as cell death, inflammation, fibrosis and regeneration. Duplicates Credit in former PATH 575 Instruction Mode: Lecture Grading Option: Letter

INTD 571 Biochemistry

Units: 4 Terms Offered: Sp Physical-chemical basis of life processes: protein structure and enzyme function; synthesis and metabolism of carbohydrates, lipids, amino acids, and nucleotides. *Prerequisite:* open to qualified students. Duplicates Credit in former BIOC 441. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-571, CBY-571, CNB-571, MICB-571, MPTX-571, PATH-571, PHBI-571, PSCI-571

INTD 572 Medical Physiology I

Units: 4 Terms Offered: Fa Mammalian organ systems operation during health, and pathophysiologic analysis of related diseases with focus on muscle, respiratory, cardiovascular and renal systems. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students

in biomedical science Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 572, CNB 572, MICB 572, MPHY 572, MPTX 572, PATH 572, PHBI 572, PM 572

INTD 573 Medical Physiology II

Units: 4 Terms Offered: Sp Mammalian organ systems operation during health, and pathophysiologic analysis of related diseases with focus on neuroscience, immunology, metabolism, endocrine, reproduction, GI and liver. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students in biomedical science Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 574, CNB 573, MPHY 573, MPTX 573, PATH 573, PHBI 573, PM 573

INTD 574 Medical Biology Seminar

Units: 1 Max Units: 16 Terms Offered: FaSp Selected topics in systems biology and disease. Registration Restriction: Open only to Systems Biology and Disease PhD students Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 575 Interdisciplinary Research Presentations

Units: 1 Max Units: 12.0 Terms Offered: FaSp Broad Topics on Biomedical Research, Human Diseases and Career Development. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

INTD 577 Writing in the Biomedical and Biological Sciences

Units: 1 Terms Offered: Sp Writing instruction for graduate students focusing on grant proposals and scientific papers. Includes both writing and providing critiques of classmates' work. Lectures and discussion. Open only to doctoral students in the school of Medicine. Registration Restriction: Open only to doctoral students in the school of Medicine. Instruction Mode: Lecture Grading Option: Letter

INTD 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students in the school of medicine Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 600 Student Research Presentation

Units: 1 Max Units: 12.0 Terms Offered: FaSp Students prepare and present their own research to an audience of faculty and peers. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 620 Medical Students Elective Program

Units: 0 Opportunities for medical students as preceptors in research laboratories or in field medical service under guidance of

sponsors approved by faculty committees.
Instruction Mode: Lecture Grading Option:
Credit/No Credit

INTD 621a Introduction to Clinical Medicine (ICM) for THE

Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 621b Introduction to Clinical Medicine (ICM) for THE

Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 622L Pre-clinical System Block for Health, Technology and Engineering

Units: 3, 4, 5, 6, 7, 8, 9 Terms Offered: FaSp A three to- nine week block of lectures and laboratories focused on particular body system (e.g., cardiovascular, renal, etc.). Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 630 Viral Oncology

Units: 2 Terms Offered: Fa Broad aspects of RNA and DNA viral oncology from epidemiology to molecular genetics. Duplicates Credit in former PATH 630. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-631

INTD 650 Stem Cell Biology and Medicine

Units: 4 Terms Offered: FaSpSm Basic principles, available embryonic and adult stem cells, principles of organogenesis and regeneration, animal models, delivery of engineered tissues to patients, promise and limitations of stem cells. Open to master's and PhD students on the Health Sciences Campus and to medical and post-doctoral fellow trainees only. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-650

INTD 685 Bioinformatics in Genome Analysis

Units: 4 Terms Offered: Sm Basic programming concepts for computational genomic analysis. Instruction Mode: Lecture Grading Option: Letter

INTD 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Registration Restriction: Open only to

doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Practice Dynamics

INTP 501 Behavioral Strategies in Dentistry

Units: 2 Improvement of time and stress management and effectiveness in working with others; establishment of goals in dentistry; effective presentation of ideas. For Advanced Standing Program for International Dentists. Instruction Mode: Lecture Grading Option: Letter

INTP 502a Human Relations in Dental Practice

Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. Instruction Mode: Lecture Grading Option: Letter

INTP 502b Human Relations in Dental Practice

Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. Instruction Mode: Lecture Grading Option: Letter

INTP 503a Evaluation of Scientific Information in Clinical Practice

Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTP 503b Evaluation of Scientific Information in Clinical Practice

Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. Instruction Mode: Lecture Grading Option: Letter

INTP 650 Dental Research Participation

Units: 1, 2, 3, 4, 5, 6 Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTP 651 Experience in Dental Teaching

Units: 1, 2, 3, 4, 5, 6 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTP 652 Externship

Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTP 690 Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Dental clinical and/or basic science research

under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Restorative Dentistry

INTR 503 Preclinical Diagnosis and Treatment Planning

Units: 2 Interdisciplinary course focusing on diagnosis and treatment planning through didactic course work and workshops which will include data collection/assessment, diagnosis and treatment planning methodologies, and specialty considerations. Instruction Mode: Lecture Grading Option: Letter

INTR 524a Clinical Practice

Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524b Clinical Practice

Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524c Clinical Practice

Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524d Clinical Practice

Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524e Clinical Practice

Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524f Clinical Practice

Units: 3 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: Letter

INTR 550a Introduction to Clinical Dentistry

Units: 0, 1 Clinical operatory preparation; asepsis and sterilization; preventive dentistry; introduction to physical evaluation, extra- and intra-oral examinations, treatment sequencing, dental specialty areas; includes clinical assisting. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 550b Introduction to Clinical Dentistry

Units: 0, 1 Clinical operatory preparation; asepsis and sterilization; preventive dentistry; introduction to physical evaluation, extra- and intra-oral examinations, treatment sequencing, dental specialty areas; includes

clinical assisting. Instruction Mode: Lecture
Grading Option: Letter

INTR 551a Clinical Diagnosis and Treatment Planning

Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 551b Clinical Diagnosis and Treatment Planning

Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 551c Clinical Diagnosis and Treatment Planning

Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 551d Clinical Diagnosis and Treatment Planning

Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 551e Clinical Diagnosis and Treatment Planning

Units: 1 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture
Grading Option: Letter

INTR 553a Clinic: Diagnosis and Treatment Planning

Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 553b Clinic: Diagnosis and Treatment Planning

Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 553c Clinic: Diagnosis and Treatment Planning

Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 553d Clinic: Diagnosis and Treatment Planning

Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 553e Clinic: Diagnosis and Treatment Planning

Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

INTR 553f Clinic: Diagnosis and Treatment Planning

Units: 2 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture
Grading Option: Letter

INTR 652 Externship

Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690a Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690b Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690c Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690d Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690e Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTR 690f Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

Interdisciplinary — Surgical Sciences

INTS 651a Experience in Dental Teaching

Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture
Grading Option: Letter

INTS 651b Experience in Dental Teaching

Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture
Grading Option: Letter

INTS 651c Experience in Dental Teaching

Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture
Grading Option: Letter

INTS 651d Experience in Dental Teaching

Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture
Grading Option: Letter

INTS 652 Externship

Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lab
Grading Option: Credit/No Credit

INTS 690a Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTS 690b Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture
Grading Option: Credit/No Credit

INTS 690c Directed Dental Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture

International Relations

IR 100gx The United States and World Affairs

Units: 4 The changing character of contemporary international political issues from the Cold War to the future and U.S. foreign policy options for the future; exploration of competing perspectives. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter

IR 101gxw International Relations

Units: 4 Basic concepts of world affairs for non-majors. Development of competency to understand and critically evaluate global relations and international events, stressing empirical approaches. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 210gw International Relations: Introductory Analysis

Units: 4 Terms Offered: FaSp Comprehensive introduction to contending theoretical and analytical approaches; development of critical, evaluative, cognitive, and analytical competencies regarding historical and contemporary issues. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 211g International Relations: Approaches to Research

Units: 4 Terms Offered: FaSpSm Introduction to theoretically oriented research approaches and designs; emphasis on the logic of argumentation. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 212 Historical Approaches to International Relations

Units: 4 Terms Offered: FaSp Introduction to historical research methods, with an emphasis on historical texts and modes of discourse. Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 213 The Global Economy

Units: 4 Terms Offered: FaSp Economic and political concepts necessary to the understanding of the modern global economy. Topics include international trade, foreign investment and migration. Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 302 International Relations of the Great Powers in the Late 19th and 20th Centuries

Units: 4 Introductory analysis of the interactions of the great powers during the period; initial focus on Europe, with expansion to include global relations. Instruction Mode: Lecture Grading Option: Letter

IR 303 Leadership and Diplomacy

Units: 4 The role of leaders, diplomatic leadership and creativity in statecraft, providing a deep understanding of the theoretical and practical dimensions of diplomacy. Instruction Mode: Lecture Grading Option: Letter

IR 304 National Intelligence and the Shaping of Policy

Units: 4 The focus is intelligence to improve the making of policy, with attention to collection; overt and covert, operations; domestic intelligence; and oversight in democracies. Instruction Mode: Lecture Grading Option: Letter

IR 305w Managing New Global Problems

Units: 4 Examines strategies for managing global issues in the post Cold War period. Explores ways that international institutions, national governments and non-state actors work separately and together to provide order and control over complex international issues areas. Issues that will receive attention could include financial and monetary relations, trade and foreign investment, preservation of the environment, the spread of weapons of mass destruction, population and migration, terrorism and ethnic strife. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 306 International Organizations

Units: 4 The emergence of international organizations as a permanent feature in world politics; role of the United Nations organization as well as regional international organizations. Instruction Mode: Lecture Grading Option: Letter

IR 307 Contemporary International Politics

Units: 4 Max Units: 8.0 Analysis of recent events, forces, and conditions in the international political system. Instruction Mode: Lecture Grading Option: Letter

IR 308w Economic Globalization

Units: 4 Globalization makes national borders and regulations increasingly obsolete. Analyzes the economic foundation of globalization, its consequences and efforts to manage it. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 309 Global Governance

Units: 4 Introduction to global governance structure and institutions. Exploration of the appropriate role for states, international organizations, civil society and individuals within the global governance structure. Instruction Mode: Lecture Grading Option: Letter

IR 310 Peace and Conflict Studies

Units: 4 Interdisciplinary study of the pursuit of peace, including causes of wars, arms races, conflict resolution, peace movements, nonviolent resistance, and peace with justice. Instruction Mode: Lecture Grading Option: Letter

IR 311 Research Design and Methods

Units: 4 Exploration of critical scholarship on research design, including case selection,

hypothesis testing, and field research techniques. Instruction Mode: Lecture Grading Option: Letter

IR 312 Introduction to Data Analysis

Units: 4 Introduction to statistical analysis with R, with applications to the study of International Relations: data manipulation, hypothesis testing, regression, causality, text analysis, visualization, and network analysis. *Recommended Preparation:* IR 211g and IR 212 plus a course in research design such as IR 311 Instruction Mode: Lecture Grading Option: Letter

IR 313 Religions and Political Violence

Units: 4 An introduction to debates about the intersection of religion and conflict in politics and international affairs; theoretical, classical, and contemporary issues. Instruction Mode: Lecture Grading Option: Letter

IR 315 Ethnicity and Nationalism in World Politics

Units: 4 Ethnic identity and nation formation in the global society of states; nation-states; conflict or political accommodation within multinational states; impact of dispersed nations on interstate relations. Instruction Mode: Lecture Grading Option: Letter

IR 316 Gender and Global Issues

Units: 4 An examination of the role women have played in world politics focusing on issues of war and peace, the environment and the global economy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-316

IR 317 The Political Economy of Africa

Units: 4 Africa remains the world's poorest region. Why? Since when? Will it remain so? This course discusses tentative answers drawn from a number of disciplines. Instruction Mode: Lecture Grading Option: Letter

IR 318 Violent Conflict

Units: 4 Origins and evolution of violent conflict among humans; modern efforts to end conflict; recent research in archaeology, anthropology, biology, economics, political science and psychology. Instruction Mode: Lecture Grading Option: Letter

IR 319 Human Security and Humanitarian Intervention

Units: 4 Explore causes of human security threats, challenges to state sovereignty, and actions to address failed states, conflicts and protect people through humanitarian intervention. Instruction Mode: Lecture Grading Option: Letter

IR 320 Technology and International Relations

Units: 4 Impact of technological advances to global security and development. Focus on surveillance and cyber conflict; nuclear weaponry, aviation and UAVs missiles and BMD; submarines and ASW. Instruction Mode: Lecture Grading Option: Letter

IR 322 Financing Development in Mexico

Units: 4 Examines the role of investment in Mexican economic development focusing on both traditional sources of loans, grants and investment as well as less traditional

modes of finance. Instruction Mode: Lecture
Grading Option: Letter

IR 323 Politics of Global Environment

Units: 4 Examines the politics of managing the global environment. The nature of ecosystems, common problems, population and resource utilization problems along with biodiversity and global governance are emphasized. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ENST-323

IR 324 Multinational Enterprises and World Politics

Units: 4 Political implications of interactions between different types of multinational enterprises and all levels of U.S. government, other industrial nations, and less-developed countries. Instruction Mode: Lecture
Grading Option: Letter

IR 325 North-South Relations in the Global Economy

Units: 4 Analysis of inequality in relations between developed and developing states; contending views on the causes and legacies of imperialism; development strategies and aid. Instruction Mode: Lecture
Grading Option: Letter

IR 326 U.S. Foreign Economic Policy

Units: 4 The U.S. economy and political-economic institutions in comparative perspective; economic diplomacy and policy; role of trade barriers, exchange rates, foreign aid, energy, foreign investment. Instruction Mode: Lecture
Grading Option: Letter

IR 327 International Negotiation

Units: 4 Practicum in negotiation skills. Diagnosis of situations and identification of strategies through case studies and personal exercises. Instruction Mode: Lecture
Grading Option: Letter

IR 328 The Evolving Global Economic Architecture-Capital Mobility

Units: 4 Exploration of the evolving global economic architecture of the past seventy years; overview of the possible future contours of economic and political globalization. Recommended preparation: Macro- and Micro-economics. Instruction Mode: Lecture
Grading Option: Letter

IR 329 The Global Finance and Monetary Regime

Units: 4 The international financial and monetary regime, its evolution and the problems facing it today. Instruction Mode: Lecture
Grading Option: Letter

IR 330 Politics of the World Economy

Units: 4 Exploration of questions and concepts in international economics and politics, especially as they relate to flows of trade, capital, people, and problems across borders. Instruction Mode: Lecture
Grading Option: Letter

IR 331 The Global Economy 2030

Units: 4 Terms Offered: Fa Examination of key ideas from economics, demography and technology. Guest lecturers illuminate possible conditions of the global economy in 2030. Instruction Mode: Lecture
Grading Option: Letter

IR 332 Money, Guns and Oil

Units: 4 Introduction to the relationship

between economics, security, and U.S. foreign policy. Topics covered: U.S. grand strategy, China's rise, energy security, resource competition, and the resource curse. Instruction Mode: Lecture
Grading Option: Letter

IR 333 China in International Affairs

Units: 4 Economic reform, the open door, and China's changing role in the international system. Relations with the United States, Japan, and other key powers in Asia. Tensions between the interests of American business and the human rights community over China policy. Instruction Mode: Lecture
Grading Option: Letter

IR 337 The Impact of Remittances on Development in Mexico

Units: 4 Examines the nature of remittances and their effects. Can remittances promote development? Explores policy making focused on improving the quality of remittance expenditures in Mexico. *Recommended Preparation:* working ability with Spanish. Instruction Mode: Lecture
Grading Option: Letter

IR 339 Public Health and International Relations

Units: 4 Examination of threats to global security, state sovereignty and population health posed by infectious diseases, natural disasters, war and civil conflict. Instruction Mode: Lecture
Grading Option: Letter

IR 340 The Political Economy of China

Units: 4 Sources, consequences, challenges to China's economic growth, including rural and urban economies, entrepreneurship, central and local governments, inequality, trade, investment, finance, demographics, and the environment. Instruction Mode: Lecture
Grading Option: Letter

IR 341 Foreign Policy Analysis

Units: 4 Basic concepts and analytical approaches in the study of decision-making at the international level. This is a case-based class, requiring participation of students in interactive discussions of decision forcing and retrospective foreign policy cases. Instruction Mode: Lecture
Grading Option: Letter

IR 342 The Politics and Strategy of Weapons of Mass Destruction

Units: 4 Causes and effects of use and spread of nuclear, biological and chemical weapons; responses to WMD, including deterrence, preventive war, and non-proliferation policies and negotiations. Instruction Mode: Lecture
Grading Option: Letter

IR 343 U.S. Foreign Policy since World War II

Units: 4 Analysis of U.S. foreign policy since 1945 as a basis for understanding significant new trends. Explanation of contemporary issues in U.S. relations with other nations. Instruction Mode: Lecture
Grading Option: Letter

IR 344 The Global South in World Politics

Units: 4 Origin, concepts, realities and ideals of the non-aligned movement, focusing on the role of the United States in the developing world. Instruction Mode: Lecture
Grading Option: Letter

IR 345 Russian and Post-Soviet Foreign Policy

Units: 4 Overview of Tsarist and Soviet experience as background to detailed examination of the political, economic and ideological forces behind contemporary Russian foreign policy. Instruction Mode: Lecture
Grading Option: Letter

IR 346 Communism and Post-Communism: Eastern Europe and the Balkans

Units: 4 Analysis of communism and post-communism in East-Central Europe, including economic transitions, nationalism, inter-and intra-state conflict, NATO and EU enlargement. Instruction Mode: Lecture
Grading Option: Letter

IR 349 International Law and Politics

Units: 4 Exploration of international law and international politics, including sovereignty, war, international tribunals, the environment, and human rights. Instruction Mode: Lecture
Grading Option: Letter

IR 350 Power and Authority in the Middle East

Units: 4 (Enroll in MDES 345)

IR 351 Insurgency and Counterinsurgency

Units: 4 Terms Offered: Sp Theories of insurgency and counterinsurgency emphasizing works of notable guerrilla writers and the Western experience of putting theory into practice. Instruction Mode: Lecture
Grading Option: Letter

IR 358 The Asia Pacific in World Affairs

Units: 4 The cultural, political, economic, and social aspects of the Asia Pacific's rise to prominence in world affairs. Reasons for the "successes" of many Asian economies and the environmental and social problems accompanying their rapid transformation. The difficulties of interaction in complex cultural situations illustrated by participation in a computer-assisted simulation. Instruction Mode: Lecture
Grading Option: Letter

IR 359 The United States and the Middle East

Units: 4 Terms Offered: FaSp (Enroll in MDES 340)

IR 360 International Relations of the Pacific Rim

Units: 4 Political, economic and security relations among the countries in East Asia and the Pacific with the emphasis on the role of the United States, China and Japan. Instruction Mode: Lecture
Grading Option: Letter

IR 361 South and Southeast Asia in International Affairs

Units: 4 The historical, cultural, and political reasons for Asia's dramatic transformation into a powerful engine of world economic growth. The secondary consequences of economic growth for environmental protection, gender relations, ethnicity, and military tension. Instruction Mode: Lecture
Grading Option: Letter

IR 362 The International Relations of the Contemporary Middle East

Units: 4 Introduction to problems and issues in the Middle East today: religio-ethnic rivalries, conflicting nationalisms and

ideologies, the Arab- Israeli conflict, Middle East oil. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-362

IR 363 Middle East Political Economy

Units: 4 Examination of general economic development issues: population, agriculture, industrialization, trade, oil, etc. Several Mideast case study countries are then explored in depth. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-363

IR 364 The Political Economy of Latin American Development

Units: 4 The main economic development themes and strategies in Latin America over the past century. The interplay between domestic and international variables, and the resulting dynamic changes. Instruction Mode: Lecture Grading Option: Letter

IR 365 Politics and Democracy in Latin America

Units: 4 Examines Latin America's experience with democracy emphasizing events since the 1980s. Analyzes the roles of interest groups, ideology, domestic politics, bureaucratic processes, perceptions and analogical reasoning. Instruction Mode: Lecture Grading Option: Letter

IR 366 Mexico and its Relations with the United States

Units: 4 Analysis of Mexico and U.S.-Mexico relations, both historically and in the present day, to understand better the challenges in this key bilateral relationship. Instruction Mode: Lecture Grading Option: Letter

IR 367 Africa in International Affairs

Units: 4 General overview of main historical, political, and economic issues as they affect Africa, focusing on nationalism, development, and superpower competition in Africa. Instruction Mode: Lecture Grading Option: Letter

IR 368 French Foreign Policy: 1945 to the Present

Units: 4 Terms Offered: FaSpSm Introduction to historical, thematic perspectives of French foreign policy since 1945 including review of external and internal constraints influencing foreign policy. (Paris semester only). Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 368

IR 369 Post-War European Relations

Units: 4 European interstate conflict and cooperation since 1945; history of Western European integration during the Cold War; the European Union in post-Cold War Europe. Instruction Mode: Lecture Grading Option: Letter

IR 370 Global Governance and Health: From Global to Local

Units: 4 Terms Offered: Sm Addressing global health challenges at multiple governance levels ranging from global to national to local. Instruction Mode: Lecture Grading Option: Letter

IR 371 Global Civil Society: Non-State Actors in World Politics

Units: 4 Examination of diplomatic and moral relationships between sovereign

states and transnational non-state actors, both benevolent (humanitarian groups and philanthropies) and malevolent (mercenaries, pirates and terrorists). Instruction Mode: Lecture Grading Option: Letter

IR 374 Model Europe: Comparative Public Policy in France and the European Union

Units: 4 Terms Offered: Sm IR Analysis of contemporary challenges to the European Union policy-making in the areas of governance and citizenship, the environment, energy, economics and security. Instruction Mode: Lecture Grading Option: Letter

IR 376 U.S.-Japan Encounters: War, Trade, and Culture

Units: 4 The significance of U.S.-Japan relations is addressed through historical and policy analysis of America, Japan, and the Asia-Pacific region. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-376

IR 380 Conducting Research on Climate Change, Conflict and Natural Resources

Units: 4 Terms Offered: Sp Analyzes and trains students to conduct independent research on the politics of natural resources. Training takes places in the field at a UC Natural Reserve. Instruction Mode: Lecture, Lab Grading Option: Letter

IR 381 Introduction to International Security

Units: 4 Key concepts in international security studies; historical evolution of international warfare and diplomacy; contemporary international security issues. Instruction Mode: Lecture Grading Option: Letter

IR 382w Order and Disorder in Global Affairs

Units: 4 Modern and post-modern perspectives on changes in the inter-state system, relations among cultures and civilizations, the conditions of ecologically sustainable human development. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 383 Conflict Mediation & Negotiation

Units: 4 Focuses on the international politics of resolving crises. Application of theories of conflict and negotiation in a UN Security Council Simulation. Instruction Mode: Lecture Grading Option: Letter

IR 384 Asian Security Issues

Units: 4 Introduction to key security trends in the Asia-Pacific region, emphasizing strategic competition between U.S., Russia, and China; regional military capabilities; rise of neutrality politics. Instruction Mode: Lecture Grading Option: Letter

IR 385 European Foreign Policy and Security Issues

Units: 4 In-depth analysis of foreign policy events and cases in Europe in the 20th century; focus on security issues. Instruction Mode: Lecture Grading Option: Letter

IR 386 Terrorism and Counterterrorism

Units: 4 Terms Offered: FaSpSm Examination of terrorism and responses to

terrorism, including how societies understand and deal with terrorism; focus on ethical and normative issues. Instruction Mode: Lecture Grading Option: Letter

IR 387 Strategic Studies

Units: 4 Strategic theory and its application to national security and warfare from Western and non-Western perspectives. Topics include strategic culture, political decision-making, cyber operations, and non-state challenges. Instruction Mode: Lecture Grading Option: Letter

IR 388 Immigration in Spain: Issues and Controversies

Units: 4 Terms Offered: Sm Analyzes immigration in Spain within a comparative context of the European Union, focusing on challenges in the areas of economics, demography, politics and citizenship rights. Instruction Mode: Lecture Grading Option: Letter

IR 389 Islam in France

Units: 4 (Paris Semester only) Historical overview of interactions between Muslims and Europeans. Islam: origins, history and circumstances that led to its revival. France's immigration policy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 389

IR 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

IR 391 Directed International Relations Field Study

Units: 2, 4 Max Units: 8.0 Intensive internship experience in international relations professional areas with academic research component (may be repeated for credit different semesters). Instruction Mode: Lecture Grading Option: Letter

IR 392 Supervised Undergraduate Research Experience

Units: 2 Max Units: 4 Collaborative research projects under faculty supervision. Regular skills training and professionalization workshops. Instruction Mode: Lecture Grading Option: Letter

IR 393 Policy Writing for National Security Affairs

Units: 4 Intensive policy writing related to national and insecurity issues with emphasis on research and writing in varying formats typical in the policy world. *Prerequisite:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

IR 401 The United Nations and World Order

Units: 4 The contribution of the United Nations to world order, focusing on its history, principal organs, relationships with global actors, and prospects for reform. Instruction Mode: Lecture Grading Option: Letter

IR 402 Theories of War

Units: 4 Causes of war; means of prevention and consequences of war. Instruction Mode: Lecture Grading Option: Letter

IR 403 Transnational Diplomacy and Global Security

Units: 4 Explores emerging "diplomatic" relations between nation-states and transnational (non-state) entities, such as non-governmental organizations (NGOs), in the development of global peace and security policies. *Recommended Preparation:* IR 303. Instruction Mode: Lecture Grading Option: Letter

IR 404 International Relations Policy Task Force

Units: 4 Addresses unfinished question of public policy. Provides experience in interviewing and field research, oral presentation and collective discussion and deliberation. Open to juniors and seniors only. Instruction Mode: Lecture Grading Option: Letter

IR 405 Cultural Heritage, Religion, and Politics in the Middle East

Units: 4 Terms Offered: Fa (Enroll in REL 402) Instruction Mode: Lecture Grading Option: Letter

IR 406 Ethics and World Politics

Units: 4 Exploration of the relationship between ethics and politics. Special focus on religion, violence and human rights in international relations Instruction Mode: Lecture Grading Option: Letter

IR 407 Chinese Foreign Policy

Units: 4 The domestic and international sources of Chinese foreign policy; political, military, and economic issues in China's relations with its neighbors. Instruction Mode: Lecture Grading Option: Letter

IR 408 Global Democratization

Units: 4 Exploration of the global experience with democracy. Meaning of the term "democracy," explanations of the rise and fall of democracy, its current trends and future challenges. Instruction Mode: Lecture Grading Option: Letter

IR 410 The History of Modern International Relations

Units: 4 Explores modern international relations history, focusing on the role of the U.S. in the global politics. Provides training in historical research methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-422

IR 412 Applied Data Science for International Relations I

Units: 2 Terms Offered: Fa Introduction to statistical computing and data visualization in R. Focus on visualization of descriptive statistics; create publication-ready figures for actual faculty research projects. *Prerequisite:* IR 210 and IR 211 Instruction Mode: Lecture Grading Option: Letter

IR 413 Applied Data Science for International Relations 2

Units: 2 Terms Offered: Sp Intermediate statistical computing and data visualization in R. Focus on the graphical presentation of complex statistical relationships. Students create publication-ready figures for actual faculty research projects. *Prerequisite:* IR 210 and IR 211 and (IR 412 or IR 307) Instruction Mode: Lecture Grading Option: Letter

IR 422 Ecological Security and Global Politics

Units: 4 Should environmental issues be treated as threats to security? Survey of recent literature explores global environmental politics using a security framework. *Recommended Preparation:* environmental studies course work. Instruction Mode: Lecture Grading Option: Letter

IR 423 Forced Migration and Conflict

Units: 4 Examines displacement, politics and violent conflict in the international system. Students engage academic debates on forced migration and volunteer with an LA-based organization serving refugees. Instruction Mode: Lecture Grading Option: Letter

IR 424w Citizenship and Migration in International Politics

Units: 4 Changing notions of citizenship in the context of history, and of economic, political and sociological theories of international migration; diaspora and migration case studies. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 425 The New Triangle: China, the U.S. and Latin America

Units: 4 China's rise in the international political economy raises policy research questions, including an analysis of how this trend relates to U.S and Latin American relations. *Recommended Preparation:* micro and macro economics. Instruction Mode: Lecture Grading Option: Letter

IR 426 Trade Politics in the Western Hemisphere

Units: 4 Focus on the dynamic process of trade integration that has occurred since the mid-1980s in the Western Hemisphere. Instruction Mode: Lecture Grading Option: Letter

IR 427 Seminar on Economics and Security

Units: 4 Introduction to important economic issue areas that are understood as security-related in the contemporary world: food, trade, debt, etc. Instruction Mode: Lecture Grading Option: Letter

IR 428 China's Political Economy

Units: 4 Critical issues surrounding China's economic rise and the implications for international relations; the unique strengths and vulnerabilities of China's political-economic model; prospects for change. *Recommended Preparation:* IR 210 and a course from International Relations, Political Science, or History with a strong China component. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON-451

IR 430 The Politics of International Trade

Units: 4 Economic approaches and political processes are used to explain observed international trade policy choices. Topics covered include globalization, regionalism, labor standards, the environment and sanctions. *Recommended Preparation:* micro and macro economics. Instruction Mode: Lecture Grading Option: Letter

IR 431 Commercial and Financial Globalization-Trends, Challenges

Units: 4 Factors determining the feasibility, desirability and limits of economic globalization; the dynamics triggered by the Global Financial Crisis and the backlash against Globalization. Instruction Mode: Lecture Grading Option: Letter

IR 437 Comparative Genocide

Units: 4 An interdisciplinary treatment of the tragic phenomenon of genocide. Subject matter includes historical cases and analysis of contemporary global efforts toward prevention. Instruction Mode: Lecture Grading Option: Letter

IR 438 Nationalism and Ethnic Conflict after Communism

Units: 4 Explores origins and nature of ethnic strife among post-socialist states (ethnicity and national revival, modern histories of East-Central Europe and Russia, problems and conflict resolution). Instruction Mode: Lecture Grading Option: Letter

IR 439 Political Economy of Russia and Eurasia

Units: 4 Interaction of politics and economics in the former Soviet Union and its component republics; the historical planned economy, the politics of reform and the political economy of former Soviet foreign relations. Instruction Mode: Lecture Grading Option: Letter

IR 440 America's Pacific Century: Dialogues between the U.S. and Asia

Units: 4 Terms Offered: Sp A hands-on analysis of the contemporary U.S. foreign policy towards East Asia through lectures, interviews, and policy paper writing, including an exchange visit to Singapore. Instruction Mode: Lecture Grading Option: Letter

IR 441 Comparative Analysis of Foreign Policy

Units: 4 Comparative analysis of foreign policy determinants and decision-making; empirical emphasis. Instruction Mode: Lecture Grading Option: Letter

IR 442 Japanese Foreign Policy

Units: 4 Economic, political, territorial, and security issues; foreign policy decision-making; relations with major powers and neighboring states. Instruction Mode: Lecture Grading Option: Letter

IR 443 Formulation of U.S. Foreign Policy

Units: 4 Critical discussion of alternative approaches explaining the formulation and implementation of U.S. foreign policy: domestic politics, organizational processes, group dynamics, individual personality and perception. Instruction Mode: Lecture Grading Option: Letter

IR 444w Theories of Global Society

Units: 4 Why the world is organized into sovereign nation-states. The challenges to nation-states in the 21st century from globalization, democratization, revolution, technology, and new forms of cultural identity. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 445 U.S. Defense and Foreign Policy: Nonproliferation and Weapons of Mass Destruction

Units: 4 Policies and programs aimed at stopping the spread of weapons of mass destruction. Presentations by executive/legislative officials involved in formulation and implementation of non-proliferation. Instruction Mode: Lecture Grading Option: Letter

IR 446 The Role of Norms and International Security

Units: 4 The role of ideas, beliefs and norms in understanding state behavior and US foreign policy, from traditional security concepts to modern soft power. Instruction Mode: Lecture Grading Option: Letter

IR 449 International Courts and the Globalization of Law

Units: 4 Research-based analysis of dramatic development of international courts, exploring causes for their development, autonomy and political relations with states, compliance, effects on international relations. Instruction Mode: Lecture Grading Option: Letter

IR 454 The International Political Economy of Development

Units: 4 Provides a critical introduction to scholarship on international political economy (IPE), the interaction of states and markets in a global context. Instruction Mode: Lecture Grading Option: Letter

IR 455 The Political Economy of Autocracy

Units: 4 Survey of autocracy, the world's most common form of government: its political economy, the role of elections, parties, repression, propaganda and civil resistance. Instruction Mode: Lecture Grading Option: Letter

IR 463 Islam and Arab Nationalism

Units: 4 Historical, sociological and political processes that have shaped the emergence of and relationship between Arab nationalism and political Islam since the early 20th century. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-463

IR 464 US-Middle East Foreign Policy Issues

Units: 4 U.S. and Middle East perspectives on Middle Eastern affairs after the creation of the state of Israel. Instruction Mode: Lecture Grading Option: Letter

IR 465 Contemporary Issues in United States-Latin America Relations

Units: 4 Examines major issues in the relationship between the United States and the countries of Latin America and the Caribbean, including trade and financial questions, security, immigration, the environment, narcotics, etc. Major bilateral relations (especially with Mexico, Brazil, and the Caribbean Basin countries) are emphasized, as are regional and multilateral relationships. Instruction Mode: Lecture Grading Option: Letter

IR 466 Contemporary Issues in Latin American Politics

Units: 4 Focus on current politics in Latin America. Address a range of themes:

electoral democracy, citizenship, political inclusion, human rights, corruption, economic inequality. Instruction Mode: Lecture Grading Option: Letter

IR 468 European Integration

Units: 4 Research on the European Union's role in European international relations; internal EU developments since 1985 as an actor in the world economy. Instruction Mode: Lecture Grading Option: Letter

IR 470 Comparative Regionalism

Units: 4 Analysis of the factors that provide different forms of regional arrangements in different parts of the world (e.g. NAFTA, EU, ASEAN). *Prerequisite:* IR 210. Instruction Mode: Lecture Grading Option: Letter

IR 483 War and Diplomacy: The U.S. in World Affairs

Units: 4 Perspective on recent American foreign policy; a case study of conflicting literature on the origins, development and legacy of the Cold War. Instruction Mode: Lecture Grading Option: Letter

IR 484 American Religion, Foreign Policy and the News Media

Units: 4 (Enroll in JOUR 484)

IR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

IR 491x Field Study

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Local, national, and international internships. Instruction Mode: Lecture Grading Option: Letter

IR 494 Honors Thesis Seminar

Units: 4 Preparation and oral defense of senior honors thesis before supervising faculty and fellow honors students. *Recommended Preparation:* IR 311. Instruction Mode: Lecture Grading Option: Letter

IR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics in various special areas within international relations, which may vary from semester to semester or within semesters. Instruction Mode: Lecture Grading Option: Letter

IR 512 Linkage Politics

Units: 4 (Enroll in POSC 512)

IR 553 Political Economy of Global Telecommunication and Information

Units: 4 (Enroll in COMM 553)

IR 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

Persian**IRAN 120 Persian I**

Units: 4 Introduction to contemporary Persian (Farsi). Oral practice, listening and reading comprehension, grammar and vocabulary necessary for simple spoken and written expression. Duplicates Credit in former MDES 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 150 Persian II

Units: 4 Continuation of Persian I. *Prerequisite:* IRAN 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 220 Persian III

Units: 4 Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. *Prerequisite:* IRAN 150. Duplicates Credit in former MDES 220. Instruction Mode: Lecture Grading Option: Letter

IRAN 250 Persian IV

Units: 4 Continuing Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. *Prerequisite:* IRAN 220. Duplicates Credit in former MDES 250. Instruction Mode: Lecture Grading Option: Letter

IRAN 320 Advanced Persian I

Units: 4 Terms Offered: FaSp Advanced verbal and written expression in Persian, including deeper understanding of Persian culture. *Prerequisite:* IRAN 250. Duplicates Credit in former MDES 320. Instruction Mode: Lecture Grading Option: Letter

IRAN 325 Business Persian

Units: 4 Terms Offered: FaSp Business Persian is an intermediate level course designed to develop communicative skills, written expression and reading comprehension on intermediate business contents. *Prerequisite:* IRAN 220 Instruction Mode: Lecture Grading Option: Letter

IRAN 350 Advanced Persian II

Units: 4 Terms Offered: FaSp Continuation of Advanced Persian I. *Prerequisite:* IRAN 320. Duplicates Credit in former MDES 350. Instruction Mode: Lecture Grading Option: Letter

Industrial and Systems Engineering**ISE 105 Introduction to Industrial and Systems Engineering**

Units: 2 Terms Offered: FaSp A combination of plant tours, laboratory experiences, and lecture are used to introduce the philosophy, subject matter, aims, goals, and techniques of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 150 Solving Engineering Problems via Computer Programming

Units: 3 Terms Offered: Sp Engineering examples are used as a platform to introduce computer programming skills for problem solving; critical thinking skills. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 220 Probability Concepts in Engineering

Units: 3 Terms Offered: FaSp Techniques for handling uncertainties in engineering design: discrete and continuous random variables; expectations, probability distributions and transformations of random variables; limit theorems; approximations and applications.

Prerequisite: MATH 126. Instruction Mode: Lecture Grading Option: Letter

ISE 225 Engineering Statistics I

Units: 3 Terms Offered: Sp Sampling distributions; parameter estimation, hypothesis testing; analysis of variance; regression; nonparametric statistics.

Prerequisite: ISE 220. Instruction Mode: Lecture Grading Option: Letter

ISE 232L Manufacturing Processes

Units: 3 Terms Offered: Fa Basic manufacturing processes including casting, machining, forming and welding; current trends in manufacturing processes including polymer, ceramic and composite material processing, and electronic device fabrication; introduction to numerical control and computer integrated manufacturing.

Recommended Preparation: MASC 110 or CHEM 105a or CHEM 115a. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 310L Facilities and Logistics

Units: 4 Terms Offered: FaSp Facilities layout and design: material handling and transportation; site selection and sourcing; supply chain management. *Prerequisite:* ISE 330 and ISE 460. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 315L Engineering Project Management

Units: 3 Terms Offered: FaSp Techniques for planning, budgeting, scheduling, obtaining resources, monitoring and control of projects in a corporate environment. Use of software to evaluate performance and assess risks. *Prerequisite:* ISE 225 and ISE 330. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 327 Six Sigma and Lean Operations

Units: 3 Standardized methodology for problem solving, basic and advanced statistical tools for root cause identification and solution confirmation, key principles for quality management and organizational excellence. *Prerequisite:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 330 Introduction to Operations Research: Deterministic Models

Units: 3 Terms Offered: Fa Introduction to linear programming; transportation and assignment problems; dynamic programming; integer programming; nonlinear programming. *Prerequisite:* MATH 225. Instruction Mode: Lecture Grading Option: Letter

ISE 331 Introduction to Operations Research: Stochastic Models

Units: 3 Terms Offered: Sp Stochastic processes; Markov chains; queueing theory and queueing decision models; probabilistic inventory models. *Prerequisite:* ISE 220; *Recommended Preparation:* ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 335L Supply Chain Design

Units: 3 Terms Offered: FaSp Design of Supply Chains. Product, distribution, transportation and site selection. Analysis and optimization of supply chain networks. *Prerequisite:* ISE 330 and ISE 460

Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 344 Engineering Team Management

Units: 3 Examine team formation and team dynamics including organizational behavior, group dynamics, psychology, and business management, all in the context of engineering development; decision-making and negotiation. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

ISE 350 Principles of Systems Engineering

Units: 3 Terms Offered: FaSp Systems as complex collaborative ensembles of interconnected components. Theory and practice of requirements, design, implementation, testing, deployment, operation, and disposal. Case studies from real projects. *Prerequisite:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 370L Human Factors in Work Design

Units: 4 Terms Offered: Fa Physiological systems and psychological characteristics; ergonomics; anthropometry; effects of the physical environment on humans; occupational safety and health; work methods. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 375L Facilities Design

Units: 3 Terms Offered: FaSp Design of facilities for operations and distribution. Product, process flow, material handling, and facility location techniques that lead to making good decisions for facilities layouts. *Prerequisite:* ISE 331 and ISE 460. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 382 Database Systems: Concepts, Design and Implementation

Units: 4 Terms Offered: FaSp Data models for industry applications. Modeling and designing robust databases. Implementing and querying databases with SQL. Innovations in database applications. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ITP 383

ISE 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ISE 404 Business and Intellectual Property Law for Engineers

Units: 3 (Enroll in CE 404)

ISE 410 Planning and Scheduling

Units: 3 Terms Offered: FaSp Production planning, forecasting, scheduling, and inventory; computer integrated decision systems in analysis and control of production systems. *Prerequisite:* ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 422L Configuring Enterprise Resource Planning Systems

Units: 4 (Enroll in ITP 422)

ISE 426 Statistical Quality Control

Units: 3 Terms Offered: Fa Quantitative aspects of statistical quality control (process control, acceptance sampling by attribute and

by variable, rectifying inspection), quality assurance and the management of QC/QA functions. *Prerequisite:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 435 Discrete Systems Simulation

Units: 3 Terms Offered: FaSp Model design to simulate discrete event systems with basic input and output analysis using high order languages, applied to industrial systems analysis and design problems. *Prerequisite:* CSCI 101 and ISE 225. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 440 Work, Technology, and Organization

Units: 3 Terms Offered: Sp Impact of technology on work and organizational design; effects of automation; design of improvement programs; information infrastructures; teams; individual behavioral outcomes. Upper division standing. Instruction Mode: Lecture Grading Option: Letter

ISE 460 Engineering Economy

Units: 3 Terms Offered: FaSpSm Utilizing principles of economic analysis for choice of engineering alternatives and engineering systems. Pre-tax and after-tax economy studies. Upper division standing. Instruction Mode: Lecture, Discussion Grading Option: Letter

ISE 470 Human/Computer Interface Design

Units: 3 Terms Offered: Sp Essentials of human factors and computer interface for the design, development, implementation, and evaluation of integrated media systems. Instruction Mode: Lecture Grading Option: Letter

ISE 482 Engineering Database Applications

Units: 3 (Enroll in ITP 482)

ISE 487Lx Enterprise Data Analytics

Units: 4 Terms Offered: Fa (Enroll in ITP 487)

ISE 488x Managing Supply Chains with Advanced Planning and Optimization

Units: 3 (Enroll in ITP 488)

ISE 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ISE 495ax Senior Design Project

Units: 2 Terms Offered: FaSp Preparation and development of the senior project proposal. Open only to industrial and systems engineering majors. *Prerequisite:* ISE 225 and ISE 460 and DSO 435 or ISE 382. Instruction Mode: Lecture Grading Option: Letter

ISE 495bx Senior Design Project

Units: 2 Terms Offered: FaSp Group work on an industrial engineering design problem in an organization. Open only to industrial and systems engineering majors. *Prerequisite:* ISE 435 and ISE 370 or ISE 470. Registration Restriction: Open only to Industrial and Systems Engineering majors. Instruction Mode: Lecture Grading Option: Letter

ISE 499 Special Topics

Units: 2, 3, 4 Course content to be selected each semester from recent developments in industrial and systems engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

ISE 500 Statistics for Engineering Managers

Units: 3 Terms Offered: FaSpSm Framing engineering management situations with statistical methods. Experiments, distributions, regression, ANOVA, hypothesis. Registration Restriction: Open only to fifth-year seniors and master's students Instruction Mode: Lecture Grading Option: Letter

ISE 502 Construction Business

Units: 4 Terms Offered: FaSp (Enroll in CE 502)

ISE 505 Modeling for Health Policy and Medical Decision Making

Units: 3 Terms Offered: Fa Modeling techniques used to inform decisions in public health, disease control, and hospital operations. *Recommended Preparation:* Basic probability; advanced undergraduates are encouraged to take the class and should obtain instructor permission to attend Instruction Mode: Lecture Grading Option: Letter

ISE 506 Lean Operations

Units: 3 Terms Offered: FaSp Study of lean principles and practices as applied to various industries. Duplicates Credit in the former SAE 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SAE 551

ISE 507 Six-Sigma Methods and Applications

Units: 3 Terms Offered: FaSpSm Comprehensive study of Six Sigma and Lean metrics, methods, and systems with their applications to manufacturing, services, quality improvement and management. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-507

ISE 508 Health Care Operations Improvement

Units: 3 Terms Offered: Sp Improving operations, patient flow, quality and processes. Students will become familiar with methods for implementing change in health care settings such as hospitals or clinics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-508

ISE 509 Practicum in Health Care Systems

Units: 3 Terms Offered: FaSp Performance improvement projects within hospitals are undertaken by small teams collaborating with hospital staff. Study of tools to improve and optimize operations. *Recommended Preparation:* Spreadsheet use and general familiarity with the healthcare industry; engineering statistics at the level of ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 510 Advanced Computational Design and Manufacturing

Units: 3 Terms Offered: Sp Study advanced concepts behind computational representations, algorithms, and

mathematical foundations, and their applications in computeraided design and manufacturing. Develop hands-on computational skills in team projects. *Recommended Preparation:* bachelor's degree in industrial engineering; programming experience, C++ preferred Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 510

ISE 511L Mechatronic Systems Engineering

Units: 3 Terms Offered: Fa Use of mechanical, electrical, and computer engineering, math, and computer science to design of high performance and sophisticated products and processes and systems involving mechatronic. *Recommended Preparation:* bachelor's degree in engineering or physical sciences, and preliminary knowledge of programming in C Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 504

ISE 512 Software Management and Economics

Units: 3 Terms Offered: Fa (Enroll in CSCI 510)

ISE 513 Inventory Systems

Units: 3 Terms Offered: Sp Deterministic and stochastic demand systems with static/dynamic models. Practice in inventory management, computerized procedures, materials requirements planning, just-intime production, Kanban systems. Instruction Mode: Lecture Grading Option: Letter

ISE 514 Advanced Production Planning and Scheduling

Units: 3 Terms Offered: FaSm Advanced concepts in production planning and scheduling including resource allocation, lot sizing, flow shop and job shop scheduling, workforce scheduling and assembly line balancing. *Recommended Preparation:* prior knowledge of operations research and probability theory. Instruction Mode: Lecture Grading Option: Letter

ISE 515 Engineering Project Management

Units: 3 Terms Offered: FaSpSm Applying industrial and systems engineering skills to problems drawn from industry, while working in teams of 3-4 students. Teach project management skills and provide direct experience in managing and executing a group project. Instruction Mode: Lecture Grading Option: Letter

ISE 517 Modern Enterprise Systems

Units: 3 Terms Offered: FaSp Managing the process design, interfaces and resources of service and manufacturing systems, based on the state of their processes. Instruction Mode: Lecture Grading Option: Letter

ISE 520 Optimization Theory and Algorithms: Numerical Optimization

Units: 3 Terms Offered: Fa Numerical methods for multidimensional, non-linear optimization algorithms, simple and quadratic programming *Recommended Preparation:* Multivariate Calculus, Linear Algebra, Computer Programming Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 521

ISE 525 Design of Experiments

Units: 3 Terms Offered: FaSp Planning data collection to investigate relationships between product/process design choices (materials, temperatures, etc.) and performance, empirical modeling to predict performance, identification of the best design choices. *Recommended Preparation:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 527 Quality Management for Engineers

Units: 3 Terms Offered: FaSp Principles of quality management, quality philosophies and frameworks, quality leadership and strategic planning, process management, and performance measurements. Instruction Mode: Lecture Grading Option: Letter

ISE 528 Advanced Statistical Aspects of Engineering Reliability

Units: 3 Advanced statistical methods applied to reliability engineering. Experimental design analysis and interpretation of multifactor reliability problems. Instruction Mode: Lecture Grading Option: Letter

ISE 529 Predictive Analytics

Units: 3 Terms Offered: FaSp Analytics for supervised and unsupervised statistical learning. Generalized linear models, discriminant analysis, support vector machines. Nonparametric classification, trees, ensemble methods, k-nearest neighbors. Principal components, clustering. *Recommended Preparation:* ISE 225 and equivalent working knowledge of a computer language Instruction Mode: Lecture Grading Option: Letter Crosslisted as INF 561

ISE 530 Optimization Methods for Analytics

Units: 3 Terms Offered: FaSp Linear Programming, Integer Programming, quadratic and nonlinear programming. *Recommended Preparation:* Calculus III, Linear Algebra and Computer Programming Instruction Mode: Lecture Grading Option: Letter

ISE 532 Network Flows

Units: 3 Terms Offered: Sp Tree, path, flow problems, formulation and solution techniques. Methods for minimal cost flows. Applications. *Prerequisite:* ISE 330 or ISE 536. Instruction Mode: Lecture Grading Option: Letter

ISE 533 Integrative Analytics

Units: 3 Terms Offered: Sp The three pillars of analytics (predictive, prescriptive, and validation) together under one framework. Use of statistics, learning enabled optimization. Based on publicly available data sets. *Prerequisite:* ISE 529 and ISE 530 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ISE 536 Linear Programming and Extensions

Units: 3 Terms Offered: Fa Linear programming models for resource allocation; simplex and revised simplex methods; duality; sensitivity; transportation problems; selected extensions to large scale, multiobjective, and special structured models. *Prerequisite:* MATH 225 or EE 441.

Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-536

ISE 538 Performance Analysis Using Markov Models

Units: 3 Terms Offered: FaSp Random variables, stochastic processes, birth and death processes, continuous- and discrete-time Markov chains with finite and infinite number of states, renewal phenomena and queuing systems. Instruction Mode: Lecture Grading Option: Letter

ISE 539 Stochastic Elements of Simulation

Units: 3 Terms Offered: Sp Simulation techniques combined with probabilistic analysis for solving problems in inventory theory, queuing theory, financial engineering, decision analysis, and other fields having a stochastic element. *Corequisite:* ISE 538. Instruction Mode: Lecture Grading Option: Letter

ISE 543 Case Studies in Systems Engineering

Units: 3 Terms Offered: FaSp (Enroll in SAE 543)

ISE 544 Management of Engineering Teams

Units: 3 Terms Offered: FaSp Design and management of engineering teams. Group decision-making, motivation, leadership, infrastructural requirements, performance measurement, team diversity, conflict, and integration. Instruction Mode: Lecture Grading Option: Letter

ISE 545 Technology Development and Implementation

Units: 3 Terms Offered: Fa Principles and practices of technology development and implementation, with application to products and systems in manufacturing and services. Instruction Mode: Lecture Grading Option: Letter

ISE 549 Systems Architecting

Units: 3 Terms Offered: FaSp (Enroll in SAE 549)

ISE 551 Foundations of Data Management

Units: 3 Terms Offered: FaSp (Enroll in INF 551)

ISE 554 Innovation and the Engineering Enterprise

Units: 3 Examination of innovation in engineering enterprises including human behavior and human resources, organizational development, engineering management, business structures, financing the enterprise and intellectual property. Instruction Mode: Lecture Grading Option: Letter

ISE 555 Invention and Technology Development

Units: 3 This project-oriented course elaborates on the process of engaging creative thought, tools and techniques for invention, and issues involved in bringing inventions to the production phase. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as ENGR-555

ISE 556 Stochastic Systems and Reinforcement Learning

Units: 4 Terms Offered: Sp (Enroll in EE 556)

ISE 560 Analysis of Algorithms

Units: 4 (Enroll in CSCI 570)

ISE 561 Economic Analysis of Engineering Projects

Units: 3 Terms Offered: FaSpSm Economic evaluations of engineering systems for both government and private industry; quantitative techniques for evaluating non-monetary consequences; formal treatment of risk and uncertainty. *Prerequisite:* ISE 500; *Recommended Preparation:* an undergraduate course in engineering economy. Instruction Mode: Lecture Grading Option: Letter

ISE 562 Decision Analysis

Units: 3 Terms Offered: FaSp Decision making under risk conditions; utility theory; sufficient statistics; conjugate prior distributions; terminal and pre-posterior analysis; Bayesian statistics versus classical statistics. Instruction Mode: Lecture Grading Option: Letter

ISE 563 Financial Engineering

Units: 3 Terms Offered: Sp Concepts underlying the economic analysis of engineering projects; applications to call and put options; utility theory and mathematical optimizations models; and simulation. *Recommended Preparation:* ISE 220 or an equivalent course in probability. Instruction Mode: Lecture Grading Option: Letter

ISE 564 Performance Analysis

Units: 3 Measurement systems for performance analysis. Determination of performance metrics, analytical models, case studies. Cross-industry comparisons, measures for manufacturing and service systems, information and knowledge workers. Instruction Mode: Lecture Grading Option: Letter

ISE 565 Law and Finance for Engineering Innovation

Units: 3 Students will identify, formulate and resolve legal, financial and ethical issues affecting innovation in engineering organizations including legal structures, financing and intellectual property rights. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-580

ISE 566 Financial Accounting Analysis for Engineering

Units: 3 Terms Offered: Sp Identification, formulation, and solution of financial accounting problems in engineering enterprises. Legal context of financial decisions, process cost determination and allocation, financial reports, and reporting systems. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ISE 567 Collaborative Engineering Principles and Practice

Units: 3 Terms Offered: Sp Scientific principles and industrial practices defining how a team of stakeholders should collaboratively work together to reach agreement on complex engineering tasks. Open only to graduate students in

engineering. Registration Restriction: Open only to graduate students in engineering.

Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-567

ISE 568 Machine Learning

Units: 3 Terms Offered: Fa (Enroll in CSCI 567)

ISE 570 Human Factors in Engineering

Units: 3 Terms Offered: Fa Psychological and physiological characteristics of humans; how they limit engineering design of machines and human-machine systems. Instruction Mode: Lecture Grading Option: Letter

ISE 573 Work Physiology

Units: 3 Survey of metabolic processes in the performance of physical work, study of individual and environmental factors affecting these processes.

ISE 574 Probabilistic Reasoning

Units: 3 Terms Offered: Fa (Enroll in CSCI 573)

ISE 576 Industrial Ecology: Technology-Environment Interaction

Units: 3 Concepts and methods to analyze the environmental impacts of industrial systems, including lifecycle assessment, material flow analysis, design for environment and sustainable consumption. Instruction Mode: Lecture Grading Option: Letter

ISE 580 Performance Analysis with Simulation

Units: 3 Terms Offered: FaSp Introduction to modeling and analysis of stochastic systems, with an emphasis on discrete-event simulation of non-Markovian systems. *Recommended Preparation:* Probability and statistics, including hypothesis testing and introductory computer programming. Instruction Mode: Lecture Grading Option: Letter

ISE 581 Negotiation For Engineering Management

Units: 3 Terms Offered: Sp Decision making techniques for the engineering manager including negotiation principles, contract negotiation, dispute resolution, auctions, bidding, voting and coalition formation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-581

ISE 582 Web Technology for Industrial Engineering

Units: 3 Terms Offered: Fa A fast-paced, project-based introduction to designing and implementing interactive Web applications. Emphasizes skills for building engineering and market research applications requiring information gathering, analysis, representation. *Prerequisite:* ISE 382. Instruction Mode: Lecture Grading Option: Letter

ISE 583 Enterprise Wide Information Systems

Units: 3 Terms Offered: FaSp The role of enterprise resource planning systems (ERPs) in an organization and the task of implementing and managing the IS function. Instruction Mode: Lecture Grading Option: Letter

ISE 585 Strategic Management of Technology

Units: 3 Terms Offered: FaSp Management skills and tools for technology intensive enterprises. Life cycle analysis of technology from planning through exploitation, obsolescence and renewal. Instruction Mode: Lecture Grading Option: Letter

ISE 587 Risk Analysis

Units: 4 (Enroll in PPD 587)

ISE 589 Port Engineering: Planning and Operational Analysis

Units: 4 Terms Offered: SpSm (Enroll in CE 589)

ISE 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 599 Special Topics

Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Fa Course content will be selected each semester to reflect current trends and developments in the field of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 610 Advance Design of Experiments and Quality Engineering

Units: 3 Terms Offered: Fa Advanced planning for data collection in order to investigate relationships between product/process design choices and performance; empirical modeling to predict performance; identification of the best design.

Recommended Preparation: Undergraduate course in Engineering Statistic, including distributions, confidence intervals, ANOVA and Regression. Instruction Mode: Lecture Grading Option: Letter

ISE 620 Foundations of Stochastic Processes

Units: 3 Terms Offered: Sp An introductory PhD course on stochastic processes, covering such topics as conditional expectation, renewal processes, and discrete and continuous time Markov chains. *Recommended Preparation:* A course in probability. Some knowledge of real analysis. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ISE 630 Foundations of Optimization

Units: 3 Terms Offered: Sp Convex sets, convex functions, structures of optimization problems, Lagrangian and conjugate duality. First and second order optimality conditions;

applications in engineering and management. *Recommended Preparation:* Calculus III and Linear Algebra. Instruction Mode: Lecture Grading Option: Letter

ISE 631 Linear Programming

Units: 3 Terms Offered: Fa Doctoral course in optimization, the foundation for subsequent courses in mathematical programming. For first-year Ph.D. students and M.S. students who intend to pursue a Ph.D. *Recommended Preparation:* One year of calculus and one semester of linear and matrix algebra Instruction Mode: Lecture Grading Option: Letter

ISE 632 Network Flows and Combinatorial Optimization

Units: 3 Terms Offered: Sp Combinatorial optimization, particularly graph problems. Shortest paths, max flow, minimum cost flows, spanning trees, matroids, submodular functions. Bipartite and general matchings, polyhedral combinatorics, total unimodularity. *Prerequisite:* ISE 536; *Recommended Preparation:* familiarity with the theory of linear programming and with mathematical proofs; knowledge of linear algebra. Duplicates Credit in ISE 532. Instruction Mode: Lecture Grading Option: Letter

ISE 633 Large Scale Optimization and Machine Learning

Units: 3 Terms Offered: Fa Large scale optimization algorithms that arise in modern data science and machine learning applications. Stochastic Optimization, Accelerated Methods, Parallelization, Online Optimization, Randomized Linear Algebra *Recommended Preparation:* Linear Algebra and Probability Instruction Mode: Lecture Grading Option: Letter

ISE 637 Equilibrium Programming

Units: 3 Terms Offered: FaSp Built on the methodology of constrained optimization, a graduate level course on equilibrium programming cast in the framework of finite-dimensional variational inequality and complementarity problems. *Prerequisite:* ISE 520 and ISE 536. Instruction Mode: Lecture Grading Option: Letter

ISE 638 Stochastic Optimization

Units: 3 Terms Offered: FaSp Stochastic linear and integer programming, multi-stage stochastic programming, application, models and algorithms. *Recommended Preparation:* A first graduate course in optimization and the ability to program in a high level language are essential. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-638

ISE 645 Uncertainty Modeling and Stochastic Optimization

Units: 3 Terms Offered: Sp (Enroll in CE 645)

ISE 651 Seminar in Industrial and Systems Engineering

Units: 1 Max Units: 4.0 Terms Offered: FaSp Current research, guest speakers in the field; review papers; guidance in preparing research proposals and special projects. Open only to fifth-year seniors and master's students. Registration Restriction: Open only to Fifth Year Seniors and Master's Students.

Duplicates Credit in the former ISE 650abc. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 670 Advanced Analysis of Algorithms

Units: 3 Terms Offered: Fa (Enroll in CSCI 670)

ISE 671 Randomized Algorithms

Units: 3 Terms Offered: Sp (Enroll in CSCI 671)

ISE 690 Directed Research

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Industrial and Systems Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Italian**ITAL 012x Italian 120 Language Practicum**

Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* ITAL 120 Credit Restriction: Not available for credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 015x Italian 150 Language Practicum

Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* ITAL 150 Credit Restriction: Not available for credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 020x Course in Reading Italian

Units: 2 For graduate students who wish help in meeting the Italian reading requirement for the PhD degree. Synoptic presentation of Italian grammar. Emphasis on development

of reading skills. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ITAL 120 Italian I

Units: 4 Terms Offered: FaSpSm
Introduction to current Italian. Oral practice, hearing and reading comprehension; grammar necessary for simple spoken and written expression. *Prerequisite:* Italian placement exam. Instruction Mode: Lecture
Grading Option: Letter

ITAL 150 Italian II

Units: 4 Terms Offered: FaSpSm
Continuation of Italian I. *Prerequisite:* ITAL 120 or Italian placement exam. Instruction Mode: Lecture
Grading Option: Letter

ITAL 175 Accelerated Italian for Speakers of Spanish and Other Romance Languages

Units: 4 Terms Offered: FaSp Accelerated
Introduction to written and spoken Italian for students with a high level of proficiency in Spanish or another Romance Language. Students completing this course may enroll in the third semester of the basic language sequence ITAL 220. *Prerequisite:* SPAN 220 or FREN 220 or PORT 220 Duplicates Credit in ITAL 120, ITAL 150 Instruction Mode: Lecture
Grading Option: Letter

ITAL 220 Italian III

Units: 4 Terms Offered: FaSpSm
Continuation of Italian II. Review of structure of the language, drill in aural and reading comprehension, practice in oral expression. *Prerequisite:* ITAL 150 or Italian placement exam. Instruction Mode: Lecture
Grading Option: Letter

ITAL 224 Italian Composition and Conversation

Units: 4 Terms Offered: FaSpSm Practice
in composition and conversation; organized around a set of themes; develops close-reading techniques and discursive skills; reviews Italian grammar. *Prerequisite:* ITAL 220 or Italian placement exam. Instruction Mode: Lecture
Grading Option: Letter

ITAL 235x Intermediate Conversational Italian

Units: 2 Terms Offered: FaSp Designed
for students interested in maintaining and developing Italian language competency. Builds and reinforces vocabulary, idioms, communication skills and knowledge of Italian cultural aspects through discussion of contemporary topics. *Prerequisite:* ITAL 220. Registration Restriction: Not open to Italian majors Credit Restriction: Not available for Italian major credit Instruction Mode: Lecture
Grading Option: Credit/No Credit

ITAL 320 Critical Writing in Italian

Units: 4 Terms Offered: FaSpSm Advanced
composition through critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics. *Prerequisite:* ITAL 224. Instruction Mode: Lecture
Grading Option: Letter

ITAL 340g Italian and French Cinema and Society

Units: 4 Terms Offered: Fa Analysis of the
global impact of cinema from the silent era to the 1990s; tracing the development of French and Italian cinematography

and their effect on different cultures and periods; trends and genres such as commedia all'italiana, horror, spaghetti western, feminism and postcolonialism. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion
Grading Option: Letter Crosslisted as FREN 340

ITAL 345 Contemporary Italy

Units: 4 Italian literature and arts in Italy
following World War II. Conducted in English. Instruction Mode: Lecture
Grading Option: Letter

ITAL 347 Italy Today: Youth, Family and Migration

Units: 4 Terms Offered: FaSp Contemporary
social, political and economic issues through readings of recent Italian literature onsite. Conducted in English. Instruction Mode: Lecture
Grading Option: Letter

ITAL 350g Gender and Sexuality in Renaissance Italy

Units: 4 Terms Offered: FaSp Readings of
major texts of Italian literature of the 15th and 16th centuries, including works by Petrarch, the Humanists, Lorenzo de' Medici, Ariosto, Machiavelli, Castiglione and Tasso. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture
Grading Option: Letter

ITAL 352 The Holocaust in Italian Fiction and Film

Units: 4 Terms Offered: FaSp The
transformation of the Italian Jewish community before, during and after World War II, through an examination of modern novels, essays and films. Taught in English. Instruction Mode: Lecture
Grading Option: Letter

ITAL 360g Italian Cinema

Units: 4 Terms Offered: FaSp Survey
of Italian cinema in its relation to social transformation, from the silent era to the present. Weekly screenings, lectures, and discussions. Conducted in English. Satisfies New General Education in Category A: The Arts Duplicates Credit in former ITAL 446 Instruction Mode: Lecture
Grading Option: Letter

ITAL 380 Italian Women Writers

Units: 4 Selected poetry, prose, and drama
by outstanding Italian women authors and their role in Italian society from the Middle Ages to 20th century. Taught in Italian. *Recommended Preparation:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 381 Storytelling in the Italian Tradition

Units: 4 Terms Offered: FaSp Reading and
close textual scrutiny of major short stories from Boccaccio's Decameron to the present. Conducted in English. Duplicates Credit in former ITAL 462. Instruction Mode: Lecture
Grading Option: Letter

ITAL 382g Dante

Units: 4 Terms Offered: FaSp Analysis of
the Divina Commedia and other works. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ITAL 450

Instruction Mode: Lecture
Grading Option: Letter Crosslisted as COLT 449

ITAL 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual
studies. No more than one registration permitted. Instruction Mode: Lecture
Grading Option: Letter

ITAL 392 Seminar in Literary and Cultural Studies

Units: 4 Terms Offered: FaSp Selected topics
in Italian literature and culture. Conducted in English. Instruction Mode: Lecture
Grading Option: Letter

ITAL 393 Seminar in Italian Thought

Units: 4 Terms Offered: FaSp Introduction
to important trends in recent Italian philosophy, political and social theory, and media studies. Emphasis to be determined by the department. Conducted in English. Instruction Mode: Lecture
Grading Option: Letter

ITAL 401 Studies in Early Modernity

Units: 4 Max Units: 8 Terms Offered: FaSp
Study and analysis of representative works and major intellectual, cultural, and artistic trends from the early modern period (pre-1800). Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 402 Studies in Modernity

Units: 4 Max Units: 8.0 Terms Offered: FaSp
Study and analysis of representative works and major intellectual, cultural, and artistic trends from the modern period (post-1800). Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 403 Studies in Colonialism and Postcolonialism

Units: 4 Max Units: 8.0 Terms Offered: FaSp
Study and analysis of colonialism and postcolonialism in Italian contexts. *Prerequisite:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 440 Futurism and Fascism in Italy

Units: 4 Literature, theatre, visual arts, and
politics, from the Futurist Avant-Garde through the reign of Mussolini. *Recommended Preparation:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 461 Italian Theatre

Units: 4 Terms Offered: FaSp Italian
dramatic literature from the earliest written documents to the present. Reading and close textual scrutiny of plays by major dramatists from the Renaissance to the present. Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture
Grading Option: Letter

ITAL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Individual research and readings. Instruction Mode: Lecture
Grading Option: Letter

ITAL 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Special topics
in Italian literature, culture, and society. Conducted in Italian. *Prerequisite:* ITAL 224. Instruction Mode: Lecture
Grading Option: Letter

ITAL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture
Grading Option: Credit/No Credit

ITAL 592 Practicum in Teaching Italian

Units: 2 Terms Offered: Fa Introduction to the approaches and methods of teaching Italian as a second language. Instruction Mode: Lecture
Grading Option: CR/NC

Information Technology Program

All ITP courses are open to non-engineering majors. The "x" designation indicates that engineering students require prior departmental approval to count 100-level and above ITP courses for major credit.

ITP 101 Introduction to Business**Information Technologies**

Units: 2 Business technologies. Operating systems. Networks. Application software. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 104L Web Publishing

Units: 2 Terms Offered: FaSp Web publishing using HTML, CSS and other Web technologies. Concepts and theory of Web site creation, page layout and production. Introduction to advanced topics. Instruction Mode: Lecture, Lab
Required Grading Option: Letter

ITP 109 Introduction to Java Programming

Units: 2 Terms Offered: FaSp Introduction to object-oriented software design for business problems. Creation of console applications, windowed applications, and interactive Web applets. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 115 Programming in Python

Units: 2 Terms Offered: FaSp Python's high level data structures and clear syntax make it an ideal first language with powerful applications to science, business, finance, math, and the web. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 125L From Hackers to CEOs:**Introduction to Information Security**

Units: 2 Terms Offered: FaSp Introductory course in computer security. Fundamentals of information security management. Threats to information integrity. Ethical hacking concerns and practice. Policies and Procedures. Instruction Mode: Lecture, Lab
Required Grading Option: Letter

ITP 165 Introduction to C++ Programming

Units: 2 Terms Offered: FaSp Fundamentals of C++ syntax and semantics, including function prototypes, overloading, memory management, abstract data types, object creation, pointers to class members, and I/O streams. *Prerequisite:* any high-level programming language. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 168 Introduction to MATLAB

Units: 2 Terms Offered: FaSp Fundamentals of MATLAB: a high-performance numeric computation and visualization environment. Overview of linear algebra and matrix

manipulation; using 2-D and 3-D plotting routines; programming in MATLAB; basic numerical analysis. *Recommended Preparation:* MATH 118 or MATH 125
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 190 Tools for Digital Graphics

Units: 2 Digital tools for image creation, editing, composition, layout, web page development, professional page layout, and printing with color accuracy. Duplicates Credit in former ITP 090
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 211 Power-Tools for Visual Communication

Units: 2 Fundamentals of visual communication; storyboarding, still and moving image creation and modification; special effects; use of standard software tools for effective visual communication. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 215L Introduction to 3D Modeling, Animation, and Visual Effects

Units: 2 Terms Offered: FaSp An applied introduction to the techniques used for modeling, animating, texturing, lighting, rendering, and creating 3D content for games, cinematics, visual effects, animation, and visualizations. *Recommended Preparation:* knowledge of any 2D paint, drawing or CAD program
Instruction Mode: Lecture, Lab
Required Grading Option: Letter

ITP 228 Computer-Aided Modeling for 3D Product Design

Units: 2 Think, plan, and create in three-dimensional space using 3D printing technology and 3D modeling techniques for prototyping. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 230x Video Game Quality Assurance

Units: 4 Terms Offered: FaSp Survey game software development through quality assurance and in-depth analysis of the development cycle with a focus on bug testing systems and methodologies. Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 249 Introduction to Data Analytics

Units: 4 Terms Offered: Fa Introduction to data analytics. Basics of databases, applied statistics, data visualization. Leverage data to make critical business decisions. Duplicates Credit in former ITP 250 and former ITP 251
Instruction Mode: Lecture
Grading Option: Letter

ITP 256 Blockchain

Units: 4 Terms Offered: FaSp Explore blockchain technology, a secure and immutable way to record transactions. Learn the workings of cryptocurrencies and explore their impact on financial services, business and contracting. Instruction Mode: Lecture
Grading Option: Letter

ITP 265 Object-Oriented Programming

Units: 4 Terms Offered: FaSp Continuation of the fundamentals of programming; problem solving skills within the object-oriented programming paradigm.

Prerequisite: ITP 115 or ITP 165
Instruction Mode: Lecture
Grading Option: Letter

ITP 280 Video Game Production

Units: 4 Terms Offered: FaSp History of video games; overview of game genres; phases of video game development (concept, preproduction, production, post-production); roles of artists, programmers, designers, and producers. Instruction Mode: Lecture, Lab
Grading Option: Letter
Crosslisted as CSCI-280

ITP 301 Front-End Web Development

Units: 4 Terms Offered: FaSp Concepts and technologies used to create front-end for web applications. Introduction to programming and client-side web development. User-driven website manipulation and animation. *Prerequisite:* ITP 104L
Instruction Mode: Lecture
Grading Option: Letter

ITP 302 Advanced Web Publishing

Units: 4 Terms Offered: FaSp Advanced topics in Web Publishing including HTML5, CSS3, CSS Pre-processors, CSS frameworks, static site generators and content management systems, responsive web design and web accessibility. *Prerequisite:* ITP 104L
Instruction Mode: Lecture
Grading Option: Letter

ITP 303 Full-Stack Web Development

Units: 4 Modern web development techniques and technologies used to create web applications from ground up. Topics include front-end, back-end, and web servers. *Prerequisite:* ITP 265 or CSCI 103L
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 304 Back-End Web Development

Units: 4 Terms Offered: FaSp Concepts and technologies used to create database-driven websites. Database design and implementation. Server-side development to connect web applications to databases. *Prerequisite:* ITP 301
Duplicates Credit in former ITP 300
Instruction Mode: Lecture
Grading Option: Letter

ITP 305 Intermediate 3D Modeling and Procedural Asset Pipelines

Units: 4 Terms Offered: Sp Intermediate modeling techniques and procedural asset creation workflows for cinematics, games, animation, design, modeling, texturing, visualization and augmented/virtual reality. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L
Instruction Mode: Lecture
Grading Option: Letter

ITP 307 Multimedia for Designers and Entrepreneurs II

Units: 4 (Enroll in ACAD 307)

ITP 308 Computer-Aided Design for Bio-Mechanical Systems

Units: 3 Concepts of computer-aided design in 2-dimensions and 3-dimensions. Creating advanced parts using extrusions, surfaces, and equation driven sketches. Forming assemblies, and sub-assemblies, for motion analysis *Recommended Preparation:* MATH 245, strength of materials knowledge
Instruction Mode: Lecture, Lab
Grading Option: Letter
Crosslisted as BME 308, ACAD 308

ITP 310 Design for User Experience

Units: 4 Terms Offered: FaSp Fundamental concepts, techniques, practices, workflows, and tools associated with the practice of user experience and interaction design in web and mobile applications. Duplicates Credit in former ITP 140 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 311

ITP 315x 3D Character Rigging and Animation

Units: 4 Terms Offered: Fa Explore the performance methodologies and advanced rigging processes used to bring life to 3D characters for games, cinematics and performance animation. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Credit Restriction: Not available for major credit in Electrical and Computer Engineering Instruction Mode: Lecture Grading Option: Letter

ITP 320 Enterprise Information Systems

Units: 4 Terms Offered: FaSp The role Information Systems play in an organization. Integration of Business Processes by using Enterprise Resource Planning Systems (ERP). Instruction Mode: Lecture Grading Option: Letter

ITP 322 Using GIS Technology for Social Impact

Units: 2 Terms Offered: FaSp Using geographic information systems to forward a social cause by compiling geographic data, creating and using maps, and analyzing the results; building a social impact technology product or business. Instruction Mode: Lecture Grading Option: Letter

ITP 325 Ethical Hacking and Systems Defense

Units: 3 Terms Offered: FaSp Hacking from a defense perspective. Hacker ethics and laws. Penetration testing. Vulnerability assessment. Securing workstations, servers, and networks. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 341 Android App Development

Units: 4 Terms Offered: FaSp App development for the Android open-source platform utilizing core mobile device functionalities, third-party API integration, and backend services. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 341

ITP 342 iOS App Development

Units: 4 Terms Offered: FaSp Introduction to the Swift programming language, various frameworks, and design patterns needed to develop applications for iOS mobile devices such as iPhones and iPads. *Prerequisite:* ITP 265 or CSCI 103 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 342

ITP 343 Mobile Development for Content and Media

Units: 1 Creating media-focused mobile applications. Topics include recording/playback, audio synthesis, stream mixing, and positional audio. *Corequisite:* ITP 342.

Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-343

ITP 344 Advanced iOS App Development

Units: 4 Terms Offered: FaSp App development for iOS devices using advanced functionalities including background data processing, network services and push notifications. *Prerequisite:* ITP 342 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 344

ITP 345 Advanced Android App Development

Units: 4 Terms Offered: FaSp Develop sophisticated applications for the Android open-source platform using advanced functionality including background threading, broadcast receivers, sensors and low-level interaction events. *Prerequisite:* ITP 341 Instruction Mode: Lecture Grading Option: Letter

ITP 348 Introduction to Physical Computing

Units: 4 Terms Offered: FaSp Design of electronic devices that interact with the physical world; electronic interfaces; development of software algorithms; micro-controller implementation. *Prerequisite:* ITP 109 or ITP 115 or ITP 165 *Recommended Preparation:* Students must have completed a course in object-oriented programming Registration Restriction: Not open to Electrical Engineering majors Duplicates Credit in former ITP 148 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 350 Technologies and Practices for Analytics

Units: 4 Overview of the process of data analysis. Reporting, visualization and prediction. Practical applications of analytics through case studies. *Prerequisite:* ITP 250x and ITP 251 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 351

ITP 356 Blockchain: Decentralized Applications

Units: 4 Terms Offered: FaSp Blockchain technology; transactions without the need for a trusted third-party; and decentralized applications on public blockchains. *Prerequisite:* ITP 256 Instruction Mode: Lecture Grading Option: Letter

ITP 357 Enterprise Network Design

Units: 3 Network technologies. Strategies for managing thousands of systems. Routers and managed switches. Integrated operating systems (IOS). Windows and Linux networking. Subnets. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 360 Advanced Visual Effects and Compositing

Units: 4 Terms Offered: Fa Advanced techniques for visual effects creation including node-based digital compositing, multi-pass rendering, match-moving, camera tracking, and seamless coordination of live action and 3D content. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Instruction Mode: Lecture Grading Option: Letter

ITP 365 Managing Data in C++

Units: 4 Terms Offered: FaSp Data structures in C++ including vectors, linked lists, stacks, queues, trees, hash tables, graphs, and parallelism. *Prerequisite:* ITP 265 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 365

ITP 366 Blockchain: Advances and Use Cases

Units: 4 Terms Offered: FaSp Latest advances in blockchain and distributed ledger technologies. Critical analysis of new projects, proposals and protocols. The promise and technical feasibility of use cases. *Prerequisite:* ITP 256 Instruction Mode: Lecture Grading Option: Letter

ITP 368 Programming Graphical User Interfaces

Units: 4 Terms Offered: FaSp Programming applications with dynamic graphical user interfaces. Topics include events, controls, resources, data bindings, styles and user experience. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 368

ITP 370 Information Security Management

Units: 3 Terms Offered: Sp Management techniques for security projects. Security team management. Laws and regulations for information security. Disaster recovery. Security Audits. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 375 Digital Forensics

Units: 3 Terms Offered: Fa Forensic science techniques. Digital evidence preservation and presentation. Processes and methodologies for digital analysis. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 380 Video Game Programming

Units: 4 Terms Offered: FaSp Underlying concepts and principles required for programming video games (topics include vectors, transformations, 3-D math, geometric primitives, matrices). *Prerequisite:* CSCI 104 or ITP 365. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-380

ITP 382 Mobile Game Development

Units: 4 Terms Offered: Sp Application of techniques used to develop games for mobile devices. Sprites, mobile input, mobile graphics and monetization. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 382

ITP 383 Database Systems: Concepts, Design and Implementation

Units: 4 Terms Offered: Sp (Enroll in ISE 382) Instruction Mode: Lecture Grading Option: Letter

ITP 387 Cloud Architecture and Applications

Units: 4 Survey of "Infrastructure as a Service" and online application development. Concepts include online storage, computation, virtualization, messaging, and monetization. *Prerequisite:* CSCI 104 or

ITP 365 Instruction Mode: Lecture Grading
Option: Letter Crosslisted as ACAD 387

ITP 388 Developing Connected Devices

Units: 4 Terms Offered: FaSp Design and development of production-ready connected devices; PCB design; micro-controller logic; interfacing with the connected world. *Prerequisite:* ITP 348 Registration Restriction: Not open to Electrical Engineering majors Instruction Mode: Lecture Grading Option: Letter

ITP 392 Designing and Producing Video Games

Units: 4 Terms Offered: FaSp Roles of designers and producers in the video game industry. Managing development, facilitating teams, coordinating with stakeholders. Creation of budgets, pitches, and game design documents. *Prerequisite:* ITP 230 or ITP 280 Duplicates Credit in former ITP 391a, former ITP 391b, former ITP 393 Instruction Mode: Lecture Grading Option: Letter

ITP 404 Advanced Front-End Web Development

Units: 4 Terms Offered: Fa The technologies, techniques, conventions and best practices used in contemporary front-end web development. *Prerequisite:* ITP 301 or ITP 303 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 404

ITP 405 Advanced Back-End Web Development

Units: 4 Terms Offered: Sp Topics include Model-View-Controller (MVC) pattern, RESTful APIs, Object Relational Mapping (ORM), testing, and Node.js, an asynchronous server-side alternative using JavaScript. *Prerequisite:* ITP 303 or ITP 304 or ACAD 276 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 405

ITP 407 Multimedia for Designers and Entrepreneurs III

Units: 4 (Enroll in ACAD 407)

ITP 410 Social Media for Scientists and Engineers

Units: 2 Terms Offered: FaSp (Enroll in ENGR 410)

ITP 411 Multimedia and Video Production

Units: 3 Terms Offered: FaSp Visual communication and storytelling are essential skills, especially in the digital age. Overview of techniques and software to create, edit, and deliver compelling images and video. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 415 3-D Design and Prototyping

Units: 2 Explore the range of 3-D printing and prototyping technologies, and their application in modern industrial, design, and creative fields. *Prerequisite:* ITP 215L Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 421x Advanced Programming for Enterprise Information Systems

Units: 3 Object Oriented Programming for Enterprise information systems. Working with classes, objects, database tables, SQL. Designing reports and Graphical user

interfaces. Leveraging service oriented architecture. *Prerequisite:* ITP 320; *Recommended Preparation:* object oriented programming. Instruction Mode: Lecture Grading Option: Letter

ITP 422 Configuring Enterprise Resource Planning Systems

Units: 4 Business process integration is the core advantage of using ERP systems. Analyze, configure, and test business processes for a company from the ground up. *Prerequisite:* ITP 320 Duplicates Credit in former ITP 322 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 422

ITP 425 Web Application Security

Units: 4 Web application security techniques. eCommerce vulnerabilities. Online fraud. Solutions to spam and identity theft. *Prerequisite:* ITP 301 or ITP 325 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 425

ITP 435 Professional C++

Units: 4 Terms Offered: FaSp Applications of advanced concepts in C++ including lambda expressions, templates, secure coding, parallel programming, writing performant code, CMake and continuous integration. *Prerequisite:* CSCI 104L or ITP 365 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 435

ITP 439 Compiler Development

Units: 4 Terms Offered: Sp Practical applications of techniques used to develop a programming language compiler. *Prerequisite:* ITP 365 or CSCI 104L Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 439

ITP 442 Mobile App Project

Units: 4 Capstone course for Mobile App Development minor. Work in project teams to develop new mobile app from start to finish. Meet with client, create app design, develop, test, and demonstrate app to client. *Prerequisite:* ITP 341 or ITP 342 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 442

ITP 445 Macintosh, OSX, and iOS Forensics

Units: 3 Digital forensics. Digital evidence. Apple. Mac. Macintosh. OSX. iOS. iPhone. iPad. *Prerequisite:* ITP 375. Instruction Mode: Lecture Grading Option: Letter

ITP 446 Cyber Breach Investigations

Units: 3 Terms Offered: Fa Cyber breaches. Data theft. Enterprise data analysis. Network forensic analysis. Server forensics. *Prerequisite:* ITP 375. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 447 Mobile Device Security and Forensics

Units: 3 Terms Offered: Sp Mobile device security. Mobile device forensics. Android. Blackberry. Windows phone. Symbian. *Prerequisite:* ITP 375. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 448 Cyber Litigation Support

Units: 3 Terms Offered: Sp Civil Litigation. Digital and Electronic Evidence. Electronic Discovery. eDiscovery. Electronically Stored Information. *Prerequisite:* ITP 375

Instruction Mode: Lecture, Lab Grading
Option: Letter

ITP 449 Applications of Machine Learning

Units: 4 Hands-on approach to the fundamental modeling techniques and machine learning algorithms that enable students to build robust predictive models of real-world data and test their validity. *Prerequisite:* ITP 115 and ITP 249 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 449

ITP 454x Enterprise Resource Planning, Design, and Implementation

Units: 3 Process and requirements to implement an Enterprise Resource Planning System (ERP). Set up server, implement ERP system, then transfer and configure database for case company. *Prerequisite:* ITP 320 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 456 Blockchain: Capstone

Units: 4 Terms Offered: FaSp Use decentralized blockchain technology to propose a use case of trustless peer-to-peer transactions. *Prerequisite:* ITP 356 and ITP 366 Instruction Mode: Lecture Grading Option: Letter

ITP 457 Network Security

Units: 4 Network policy and mechanism, firewalls, malicious code; intrusion detection, prevention, response; cryptographic protocols for privacy; risks of misuse, cost of prevention, and societal issues. *Prerequisite:* ITP 357. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 460 Web Application Project

Units: 4 Terms Offered: Sp Skills to plan, analyze, build, and launch professional Web sites with actual clients. Includes project management, documentation, technology assessment, security, UI, Q/A, and various methodologies. *Prerequisite:* ITP 303 or ITP 304 or ACAD 276 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 460

ITP 466 Building the High Tech Startup

Units: 4 Teach students the basic technologies and processes involved in building web and mobile startups. Students will be introduced to the different aspects of building a web startup including online business models, Product management, Agile development processes, technology platforms and operations, customer development and online marketing. Instruction Mode: Lecture Grading Option: Letter

ITP 468 Connected Devices Project

Units: 4 Capstone course for the Minor in Making and Connected Devices. Team-based interacting with real-world clients, designing a hardware system, developing firmware, and manufacturing a product. *Prerequisite:* ITP 348 and ITP 228 Registration Restriction: Not open to Electrical Engineering majors Instruction Mode: Lecture Grading Option: Letter

ITP 470 Information Technology Practicum

Units: 1, 2, 3, 4 Terms Offered: FaSpSm Independent technology project related to specific topics under the direction of a

faculty member. *Recommended Preparation:* appropriate 300-level course work to topic of study *Registration Restriction:* Not open to graduate students. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 475 Advanced Digital Forensics

Units: 4 Terms Offered: Sp Advanced forensic techniques. Live image analysis. Network level forensic investigation. Server forensic techniques. Deposition and trial. *Prerequisite:* ITP 375 *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 476 Technologies for Interactive Marketing

Units: 4 Technologies, concepts and strategies in the emerging online advertising ecosystem. Strategies and tactics to drive traffic to a website and measure efficacy. Students will work with a real client and budget to craft and execute an online marketing plan. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter Crosslisted as ACAD 476

ITP 477 Software Based Engineering Design of Roadways

Units: 3 Orient students to the InRoads software and familiarize them with its capabilities to support engineering design of roadways. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 479 Cyber Law and Privacy

Units: 3 Cyber legal issues, search and seizure, 4th amendment and digital evidence, private searches, case law relating to search and seizure. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 480 Information Technology Internship

Units: 1, 2, 3, 4 Max Units: 08 Practical experience in applying information technology skills in real-world settings. Supervised internship at companies and start-ups. Balancing academic rigor with corporate challenges and deadlines. *Recommended Preparation:* knowledge of chosen function area *Registration Restriction:* Not open to graduate students *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

ITP 482 Engineering Database Applications

Units: 3 Planning and implementation of engineering information systems that interface with a large database. Emphasis is placed on web-based data entry and retrieval. *Prerequisite:* (CE 108 or EE 155L or ITP 115 or ITP 165 or ITP 168 or ISE 150 or CSCI 102L or CSCI 103L) and (DSO 435 or ISE 382) *Instruction Mode:* Lecture, Lab *Grading Option:* Letter Crosslisted as ISE 482

ITP 484 Multiplayer Game Programming

Units: 3 Techniques for developing networked multiplayer games. Topics include Internet protocols, network topology, data streams, object sharing, client prediction, latency, and back-end databases. *Prerequisite:* ITP 380 *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 485 Programming Game Engines

Units: 4 Terms Offered: FaSp Techniques for building the core components of a game engine; 2-D/3-D graphics, collision

detection, artificial intelligence algorithms, shading, programming input devices.

Prerequisite: ITP 380. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter Crosslisted as CSCI-487

ITP 486 Securing and Auditing Enterprise Resource Planning Systems

Units: 3 Management and technical issues related to the security of ERP systems. Students will audit ERP systems and apply appropriate security controls. *Prerequisite:* ITP 320. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter Crosslisted as ISE-486

ITP 487 Enterprise Data Analytics

Units: 4 Terms Offered: Fa Methodology to store, organize, cleanse, harmonize and stage enterprise data for analytics. Report, visualize, slice and dice, forecast and predict trends. *Prerequisite:* ITP 249 or ITP 320 *Instruction Mode:* Lecture *Grading Option:* Letter Crosslisted as ISE 487

ITP 488 Managing Supply Chains with Advanced Planning & Optimization

Units: 3 Drivers and obstacles to the process of coordinating the flow of material/information along the logistics chain. Optimize the supply network, from raw materials to sales. Not available for major credit in engineering except toward undergraduate and graduate programs offered by the Epstein Department of Industrial and Systems Engineering. *Prerequisite:* ITP 320 *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 489 In-Memory Data Modeling and Analytics

Units: 4 Terms Offered: Sp Examines the design, architecture, and capabilities of in-memory databases and their application to real-time analytics. *Prerequisite:* ITP 249 or ITP 320 *Instruction Mode:* Lecture *Grading Option:* Letter

ITP 491 Level Design and Development for Video Games

Units: 4 Theories and practices of defining, prototyping, testing, and refining a video game level, development of game level documents, and the tools for managing the development process. *Prerequisite:* ITP 230 or ITP 280 *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 496 The Startup Launchpad Lab

Units: 2 A real world, hands-on learning experience on what it's like to actually start a high-tech company. Students will work in teams to design, prototype and implement version 1.0 of a high tech web or mobile startup. *Prerequisite:* BAEP 452 and ITP 466 and ITP 476 *Corequisite:* BAEP 496 *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

ITP 499 Special Topics

Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: max 8 Recent developments in computers and data processing. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

Journalism

JOUR 190 Introduction to Journalism

Units: 2 Survey of all media and outlets

including print, broadcasting, public relations and online journalism, plus analysis of what it means to be a professional journalist.

Instruction Mode: Lecture *Grading Option:* Letter

JOUR 200w The Power and Responsibility of the Press

Units: 4 Explores the role of journalism and social media in society - its influence on government, technology, business, national security, sports, science and entertainment. Satisfies Global Perspective in Category G: Citizenship in a Diverse World *Instruction Mode:* Lecture *Grading Option:* Letter

JOUR 201 Culture of Journalism: Past, Present and Future

Units: 4 Understanding key moments, debates and ideas that have shaped journalism in the United States from the Revolutionary War period through today. Examination of the social, cultural, political and technological aspects of journalism and its impact on the profession and public service. *Instruction Mode:* Lecture, Lab *Grading Option:* Letter

JOUR 205 Journalism Practicum

Units: 1, 2 Max Units: 04 Terms Offered: FaSpSm Field experience in journalism, public relations, or related field. *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

JOUR 206 Reporting and Writing Practicum

Units: 1 Max Units: 02 Report, write and distribute in-depth stories for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting. *Registration Restriction:* Only open to journalism majors *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

JOUR 207 Reporting and Writing I

Units: 3 Provides students with foundational skills to report, write and produce journalism content across multiple platforms, including broadcast, digital and text. *Concurrent Enrollment:* JOUR 206 and JOUR 321 *Registration Restriction:* Open only to Journalism majors *Instruction Mode:* Lecture *Grading Option:* Letter

JOUR 208 Media Law and Ethics

Units: 2 Introduction to the basics of the U.S. legal system and contemporary case law and ethics; impact of the Web on the practice of journalism; understanding essential legal frameworks and the rights and responsibilities of journalists. *Instruction Mode:* Lecture *Grading Option:* Letter

JOUR 210x Basics of News Production for Non-Majors

Units: 2 Max Units: 6.0 Terms Offered: FaSp Introduction to television, radio, and/or digital news production. Examination of issues in journalism. *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

JOUR 307 Reporting and Writing II

Units: 3 Report, write, produce and distribute in-depth stories produced off beats on multiple platforms for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage

communities through field reporting and emerging digital tools. *Prerequisite:* JOUR 207 and JOUR 321 *Concurrent Enrollment:* JOUR 206 and JOUR 320 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 310 Investigative Reporting

Units: 4 Reportorial and analytical skills and techniques required for portraying and evaluating contemporary newsworthy events; lectures, discussions. *Prerequisite:* JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 311 Multi-Platform Editing

Units: 4 Copyediting, headline writing, Search Engine Optimization and other production skills for preparation of content across platforms. Social responsibility and ethical framework also components of this course. *Prerequisite:* JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 320 Introduction to Coding for Storytelling

Units: 2 Introduction to basic web technologies; conceive, design, code and produce an advanced multimedia story package. *Prerequisite:* JOUR 207 and JOUR 321 *Concurrent Enrollment:* JOUR 307 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 321 Visual Journalism

Units: 2 Video for digital platforms, principles of photography, design for web and mobile platforms. Introduction to principles of digital news design, interactivity and presentation in interactive storytelling. *Concurrent Enrollment:* JOUR 207 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

Units: 4 In-depth multimedia reporting on social, economic and political processes of global impact; combining intense fieldwork and specialized background knowledge. Instruction Mode: Lecture Grading Option: Letter

JOUR 484 American Religion, Foreign Policy and the News Media

Units: 4 Exploration of the influence of American religion on foreign policy from Colonial Era to present; how the news media, reporting on international stories, shapes public opinion. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 484, REL 484

JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology

Units: 2 Exploration and experimentation of emerging technologies through the lens of journalism and hands-on prototyping Instruction Mode: Lecture Grading Option: Letter

JOUR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

JOUR 492 Advanced Coding for Storytelling

Units: 2 Focuses on advanced coding techniques for the creation of dynamic, interactive, multimedia and data-driven news stories on the web. *Prerequisite:* JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 493 Comics and Graphic Storytelling

Units: 4 Focus on comics as a medium to tell a broad range of stories and speak to diverse kinds of audiences. Develop a core vocabulary for thinking about comics as a medium and analyze how artists have drawn on that vocabulary in a range of contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 493

JOUR 494 Python Coding for Data Journalism

Units: 2 Python coding language to gather, parse and analyze data for investigative news reporting. Instruction Mode: Lecture Grading Option: Letter

JOUR 495 Journalism for Mobile and Emerging Platforms

Units: 2 Create video, audio and graphic news and information using mobile and emerging technology, such as phones, tablets and laptops, for non-broadcast platforms; understand ethical and legal issues related to journalists working on mobile and emerging platforms. Instruction Mode: Lecture Grading Option: Letter

JOUR 496 Interactive Media Design for Publishing

Units: 4 Design, test and distribute engaging news and publishing apps. Learn concepts

of interactive design, color, type, UX, and more for digital mobile/tablet platforms. Instruction Mode: Lecture Grading Option: Letter

JOUR 497 Data Visualization and Interactive Tools

Units: 2 Present your data in tables, charts, graphs, maps, and complex multimedia pieces using readily available interactive tools. Instruction Mode: Lecture Grading Option: Letter

JOUR 498 Honors Seminar

Units: 2 Terms Offered: Sp Intensive study of a subject of contemporary relevance or of professional importance to journalists and public relations practitioners. Registration Restriction: Admission to Honors Program Instruction Mode: Lecture Grading Option: Letter

JOUR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 500 Introduction to Newswriting and English-Language Reporting

Units: 2 Provides students whose first language is not English fundamental skills to report and write journalism content, enhancing ability to succeed in rigorous graduate journalism program. Instruction Mode: Lecture Grading Option: Letter

JOUR 505 The Practice: Journalism's Evolution as a Profession

Units: 1 Terms Offered: Sm Analyzes the history, ethics and evolution of journalism; Students will be introduced to key innovations and innovators in journalism history as well as multimedia platforms. Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 510 Special Assignment Reporting

Units: 2 Beat reporting with a deep dive into research, source development, and writing/reporting skills. Focus on current trends, history, major actors and key issues. Instruction Mode: Lecture Grading Option: Letter

JOUR 512 Advanced Interpretive Writing

Units: 2 Terms Offered: Fa Analysis and writing of editorials, essays, Op-Ed page articles, profiles, and other shorter forms of journalism, combined with study of historic practitioners of those forms. Instruction Mode: Lecture Grading Option: Letter

JOUR 513 Advanced Newswriting and Reporting

Units: 2 Terms Offered: Fa Reportorial and analytical skills and techniques required in searching out and evaluating newsworthy events. Research and publication of stories. Instruction Mode: Lecture Grading Option: Letter

JOUR 517 Advanced Investigative Reporting

Units: 4 Terms Offered: Sp Advanced reportorial and analytical skills and techniques required for evaluating newsworthy events. Group research and publication of stories on important current

topics. Instruction Mode: Lecture Grading Option: Letter

JOUR 519 Advanced Writing and Reporting for Magazine and the Web

Units: 4 Focus on reporting and writing for magazine and the web, learning fundamental production skills, and pitching stories in the freelance market Instruction Mode: Lecture Grading Option: Letter

JOUR 520 Advanced Broadcast Newswriting

Units: 3 Writing for broadcast, preparation and presentation. Responsibility and ethics of broadcast newswriting. Form and content of broadcast news presentation. Similarities and differences between media. Instruction Mode: Lecture Grading Option: Letter

JOUR 521 Documentary Pre-Production

Units: 2 Terms Offered: Sm Pre-production of video documentary including selection of topic, diversity, ethical and legal problems, research and reporting techniques, interviewing, writing, balanced presentation, visual and audio literacy. Instruction Mode: Lecture Grading Option: Letter

JOUR 522 Video Documentary Production

Units: 4 Terms Offered: Sp Production of video documentary including research and reporting techniques, writing, interviewing, field work, editing, legal issues, economics, aesthetics, balanced presentation, ethics, diversity and production problems. Instruction Mode: Lecture Grading Option: Letter

JOUR 523 Public Radio Reporting

Units: 2 Terms Offered: Fa Reporting for public radio-style news: writing, newsgathering, editing, vocal delivery. Techniques applicable for broadcast or Web audio stories. Open only to journalism majors. Registration Restriction: Open only to Journalism majors. Instruction Mode: Lecture Grading Option: Letter

JOUR 524 Advanced Broadcast Reporting

Units: 4 Terms Offered: Sp Reporting, production and writing for broadcast and other video platforms; practical experience; role of the video broadcast journalist; similarities and differences between media. *Recommended Preparation:* JOUR 552 Instruction Mode: Lecture Grading Option: Letter

JOUR 525 Public Radio Documentary

Units: 4 Terms Offered: Sp Advanced production techniques for public radio-style reports: writing, sound, editing, narrative voice. Techniques applicable for broadcast features or Web audio documentaries. Instruction Mode: Lecture Grading Option: Letter

JOUR 526 Advanced Broadcast News Production

Units: 3 Terms Offered: Fa Production of television news programs; preparation and treatment of form and content; procedures, problems and practice in planning and producing broadcast news materials. Instruction Mode: Lecture Grading Option: Letter

JOUR 528 Summer Digital Journalism Immersion

Units: 3 Terms Offered: Sm A journalism immersion experience that orients and familiarizes students with the best practices and standards of cutting-edge multimedia, multi-platform fact gathering, reporting and storytelling. Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 531L Fall Digital Journalism Immersion

Units: 3 Terms Offered: Fa Students write, report, produce, code, promote (through social media), and publish/air cross-platform stories in a converged news environment. Open only to Journalism majors. *Prerequisite:* JOUR 528 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

JOUR 533 Web Journalism and Editorial Site Management

Units: 2 Report, edit, and manage a major news Website while operating its content management system; understand best standards and practices in online site management. Instruction Mode: Lecture Grading Option: Letter

JOUR 539 Introduction to Investigative Reporting

Units: 2 Terms Offered: Fa Focus on basic investigative reporting; understand its history, how to access records, identify sources, use computer assisted reporting, report in a fair and ethical manner. Instruction Mode: Lecture Grading Option: Letter

JOUR 540 International Journalism Seminar I

Units: 3 Historical perspective of foreign correspondence; examination of the working conditions, problems and consequences of reporting from abroad. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PR 540

JOUR 542 Foreign Affairs Reporting

Units: 3 News stories analyzed, researched, and critiqued for validity and background; projects to include editorials, news stories, magazine articles or broadcast reports. Instruction Mode: Lecture Grading Option: Letter

JOUR 545 International Internships in the Media

Units: 1 Terms Offered: Sm Intensive field experience at international news media and public relations organizations. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as PR 545

JOUR 546 News, Numbers and Introduction to Data Journalism

Units: 2 Terms Offered: Sm An overview of the basic quantitative analysis tools and techniques essential to give perspective to a journalistic story or to put it in context. Instruction Mode: Lecture Grading Option: Letter

JOUR 547 Navigating the Media Marketplace

Units: 1 Terms Offered: Fa Explores

the economics of the news industry and prepares students to navigate the journalism job market through practical exercises, practice interviews and cover letter-writing. Instruction Mode: Lecture Grading Option: Letter

JOUR 552 Television Reporting and Production

Units: 2 Terms Offered: Sm Writing, reporting and producing content for video and digital platforms; similarities and differences between media; application of audio-visual and digital equipment. Instruction Mode: Lecture Grading Option: Letter

JOUR 553 Coding and Programming for Storytelling

Units: 2 Terms Offered: Fa Sketch, design and code a website from scratch, using HTML, CSS and jQuery plug-ins to tell a rich multimedia story. Open only to journalism majors. Registration Restriction: Open only to Journalism majors. Instruction Mode: Lecture Grading Option: Letter

JOUR 555 Advanced Coding for Creative Storytelling

Units: 4 Focuses on advanced coding techniques for the creation of dynamic, interactive, multimedia and data-driven news stories on the web. *Prerequisite:* JOUR 553 Instruction Mode: Lecture Grading Option: Letter

JOUR 556 Online Journalism Seminar

Units: 3 Terms Offered: Sp Writing and reporting for the Internet and other technology platforms; computer-assisted reporting; multimedia storytelling. Instruction Mode: Lecture Grading Option: Letter

JOUR 560 Seminar in Mass Communication Law

Units: 2 Terms Offered: Sm Analysis of major elements of mass communication law, legal issues in contemporary mass communication, and the impact of legal trends on professional journalists. Instruction Mode: Lecture Grading Option: Letter

JOUR 561 Fundamentals of Data Journalism Reporting

Units: 2 Execute data-driven projects and add context to news stories with advanced quantitative analysis tools and techniques. Instruction Mode: Lecture Grading Option: Letter

JOUR 570 Journalism Ethics Goes to the Movies Seminar

Units: 2 Understand ethical issues facing journalists as dramatized in the movies. Develop an ethical structure to use as journalists and consumers of news in the complex world of social media and the Internet. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 571 21st Century Sports Storytelling

Units: 3 Seminar in how to report and write sports: news, previews, profiles, features, columns. Instruction Mode: Lecture Grading Option: Letter

JOUR 572 Reporting on Entertainment and Popular Culture

Units: 3 Terms Offered: Fa Reporting about entertainment, popular culture and their impact on American society; survey of past media coverage and current practices. Instruction Mode: Lecture Grading Option: Letter

JOUR 574 Sports and Society

Units: 3 Develop and refine print and multimedia skills to work as a sports journalist. Gain perspective, context and background in how sports intersect with society. Instruction Mode: Lecture Grading Option: Letter

JOUR 575 Converged Media Center

Units: 2, 4 Terms Offered: Sp Advanced multimedia news production; preparation and treatment of form and content; procedures, problems, ethics, and practice in operating a daily, 24-7 news outlet. Instruction Mode: Lecture Grading Option: Letter

JOUR 576 The Image of the Journalist in Popular Culture Seminar

Units: 3 or 4 Laws designed to preserve and promote business competition, with heavy emphasis on the federal antitrust laws. Instruction Mode: Lecture Grading Option: Numeric

LAW 754 Antitrust and Intellectual Property Law

Units: 2, 3, 4 Covers the interface between antitrust law and intellectual property law. Instruction Mode: Lecture Grading Option: Numeric

LAW 756 Law Firms and In-House Law Departments

Units: 3 Examines the current status and possible future trajectories of large law firms and in-house law departments. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 757 Sex, Gender and the Law

Units: 1, 2, 3, 4 Terms Offered: FaSp Explores law's response to questions of sex discrimination and gender identity and expression, with emphasis upon legal issues facing transgender and intersex persons. Instruction Mode: Lecture Grading Option: Numeric

LAW 760a Interdisciplinary Law Journal Staff

Units: 1 or 2 Terms Offered: FaSp Source-checking and preliminary editing of articles and comments for publication in the Interdisciplinary Law Journal. For third-year students serving as staff members on the Journal. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LAW 760b Interdisciplinary Law Journal Staff

Units: 1 or 2 Terms Offered: FaSp Source-checking and preliminary editing of articles and comments for publication in the Interdisciplinary Law Journal. For third-year students serving as staff members on the

Journal. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 761 Interdisciplinary Law Journal Writing

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSp Students will write journal notes as members of the Interdisciplinary Law Journal. Instruction Mode: Lecture Grading Option: Numeric

LAW 762a Interdisciplinary Law Journal Editing

Units: 1, 2, 3 Terms Offered: FaSp Supervision and final editing of articles and comments for publication in the Interdisciplinary Law Journal. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LAW 762b Interdisciplinary Law Journal Editing

Units: 1, 2, 3 Terms Offered: FaSp Supervision and final editing of articles and comments for publication in the Interdisciplinary Law Journal. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 763 Federal Courts: The Federal System II

Units: 3, 4, 5 Terms Offered: FaSpSm Problems of adjudication in a federal system. Allocation of authority between federal and state courts and among Congress, the Executive and the Courts; choice of federal and state law; jurisdiction of federal courts and significant rules of practice. Instruction Mode: Lecture Grading Option: Numeric

LAW 764 International Business Transactions

Units: 3 or 4 Survey of legal aspects of international trade and investment transactions, including tax considerations. Instruction Mode: Lecture Grading Option: Numeric

LAW 766 Writing for Publication Seminar

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Special seminars to provide a forum for students who wish to produce a paper for academic publication to receive guidance and feedback. Instruction Mode: Lecture Grading Option: Numeric

LAW 767a Law Review Staff I

Units: 1 or 2 Writing, source-checking, and preliminary editing of articles and comments for publication in the Southern California Law Review. For second-year students serving as staff members on the Review. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LAW 767b Law Review Staff I

Units: 1 or 2 Writing, source-checking, and preliminary editing of articles and comments for publication in the Southern California Law Review. For second-year students serving as staff members on the Review. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 768 Law Review Writing

Units: 1, 2, 3, 4 Max Units: 4.0 Writing, source-checking and preliminary editing of articles and comments for publication in the Southern California Law Review. Instruction Mode: Lecture Grading Option: Numeric

LAW 769a Law Review Editing

Units: 1, 2, 3 Terms Offered: FaSp Supervision of research and writing, and final editing of articles and comments for publication in the Southern California Law Review. For officers of the Review. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LAW 769b Law Review Editing

Units: 1, 2, 3 Terms Offered: FaSp Supervision of research and writing, and final editing of articles and comments for publication in the Southern California Law Review. For officers of the Review. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 770 Technology Transactions

Units: 2, 3 Provides students with the foundation for advising clients on transactions involving patents, trade secrets and other technology-related rights. Instruction Mode: Lecture Grading Option: Numeric

LAW 771 Intellectual Property and Technology Law Clinic I

Units: 2, 3, 4, 5 Terms Offered: Fa Provides law students with the ability to represent clients (under the supervision of the professor) in cutting-edge issues of intellectual property and technology law. *Corequisite:* LAW 772 or LAW 841. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 772 Intellectual Property

Units: 2 or 3 The protection of intellectual property and encouragement of creativity. Explores copyright, trademarks, patents, and selected state law theories. Instruction Mode: Lecture Grading Option: Numeric

LAW 773 Internet Law

Units: 2, 3, 4 Terms Offered: Fa Integration of cyberspace and the Internet into existing legal structures. Topics include: First Amendment issues; intellectual property, privacy and child protection; criminal activity and governance and jurisdictional activities. Instruction Mode: Lecture Grading Option: Numeric

LAW 775 Immigration Law

Units: 2, 3, 4, 5 The development of immigration law to its present state. Instruction Mode: Lecture Grading Option: Numeric

LAW 776 Immigration Clinic I

Units: 2, 3, 4, 5 Terms Offered: FaSpSm Students represent clients before Immigration and Customs Enforcement, the Immigration Court, and certain law enforcement agencies in cases including applications for relief under the Violence Against Women Act, for asylum, and for relief against deportation. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 777 Administrative Law and Regulatory Policy

Units: 1, 2, 3, 4 Legal principles subject to judicial control and the alternative ways in which agencies can be organized to serve their purposes. Instruction Mode: Lecture Grading Option: Numeric

LAW 778 Sales Transactions

Units: 2, 3, 4 Analysis of the buying and selling of goods both in domestic and international transactions with a heavy focus on Article 2 of the Uniform Commercial Code. Registration Restriction: Open only to USC Gould School of Law students
Instruction Mode: Lecture Grading Option: Numeric

LAW 779 Regulated Industries

Units: 2, 3, 4 Provides students with an understanding and an appreciation of regulated industries. Instruction Mode: Lecture Grading Option: Numeric

LAW 780 Intellectual Property and Technology Law Clinic II

Units: 2, 3, 4, 5 Terms Offered: FaSpSm Continuation of LAW 771. Instruction Mode: Lecture Grading Option: Numeric

LAW 781 Externship I

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Terms Offered: FaSpSm A judicial externship allows a student to gain hands-on legal experience in legal settings. Students will be assigned to a legal services program, government agency, or state or federal judge under faculty supervision. Registration Restriction: Open only to Law students
Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 782 Externship II

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Terms Offered: FaSp Advanced externship. Registration Restriction: Open only to law students
Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 783 General Counsel Practicum

Units: 1, 2 Max Units: 8.0 Students will work under the direction of an experienced attorney in a general counsel's office. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 784 Theories of International Law

Units: 2, 3, 4 Explores theories of international law, examining classical and modern ideas of international legal obligations. Students develop their own intellectual structures for explaining international norms. Instruction Mode: Lecture Grading Option: Numeric

LAW 786 Core Competencies for Litigators

Units: 3 An introduction to the various approaches and techniques litigators use when interviewing, counseling, negotiating, and analyzing facts. Instruction Mode: Lecture Grading Option: Numeric

LAW 787 International Sales of Goods

Units: 2, 3, 4 Instruction Mode: Lecture Grading Option: Numeric

LAW 790 Legal Externship Seminar

Units: 1 Max Units: 04 Designed to support student learning at externship field placements, and support student growth in becoming ethical, professional, confident and successful law students and attorneys. Registration Restriction: Open only to law students
Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 791 Law and Society

Units: 2, 3, 4 Examines where the law comes from, how it operates in society, and how it shapes and is shaped by competing social economic, and political institutions. Instruction Mode: Lecture Grading Option: Numeric

LAW 792 Law and Philosophy

Units: 2, 3, 4 Max Units: 8.0 Examination of the best scholarly work currently done by legal, moral and political philosophers. Open only to law students. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 793 Law and Economics Seminar

Units: 1, 2, 3, 4 Max Units: 8.0 Key concepts and cutting-edge research in law and economics. Workshops with leading scholars from around the country. Instruction Mode: Lecture Grading Option: Numeric

LAW 796 Immigration Clinic II

Units: 2, 3, 4, 5 Terms Offered: Sp Continuation of LAW 776. Enrollment restricted to law students. *Prerequisite:* LAW 776. Instruction Mode: Lecture Grading Option: Numeric

LAW 797 Public Policy in Law: Analysis and Advocacy

Units: 1, 2, 3, 4 Focuses on contemporary policy problems, identifies relevant legal issues and utilizes multidisciplinary techniques found in law, political science, economics and history to formulate positions. Instruction Mode: Lecture Grading Option: Numeric Crosslisted as PPD 797

LAW 798 Law, Mental Health and Ethics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Focuses on one or two topics per year at the intersection of law, mental health and ethics and explores them from an interdisciplinary perspective. Instruction Mode: Lecture Grading Option: Numeric

LAW 801 Venture Capital and Emerging Companies

Units: 2, 3 Introduces students to the unique legal and financial aspects of the venture capital industry and the skills needed to represent entrepreneurs and venture capital investors. Registration Restriction: Open only to Law majors
Instruction Mode: Lecture Grading Option: Numeric

LAW 802 Psychology for Lawyers

Units: 2, 3 Exposes students to the psychological research on cognitive errors and biases that threaten to compromise a lawyer's performance. Also examines ethical issues and professional happiness. Instruction Mode: Lecture Grading Option: Numeric

LAW 804 Information Privacy Law

Units: 2 Surveys the legal framework concerning information privacy in the U.S., including developments in constitutional, tort, contract, property and statutory law to address emerging privacy threats. Registration Restriction: Open only to law students
Instruction Mode: Lecture Grading Option: Numeric

LAW 808 Medical-Legal Community Partnership Seminar and Practicum

Units: 1, 2, 3, 4 Max Units: 05 Medical and

law students, in conjunction with public policy advocates, work together to identify and improve health outcomes for vulnerable populations. Registration Restriction: Open only to USC Gould School of Law students
Instruction Mode: Lecture Grading Option: Numeric

LAW 809 Deposition Strategies and Techniques

Units: 2, 3 Emphasizes strategies and tactics in asking and objecting to questions at a deposition in a civil case. Students will conduct mock depositions. Instruction Mode: Lecture Grading Option: Numeric

LAW 810 Patent Law

Units: 3, 4 Terms Offered: Sp Patent laws, litigation, and the process of prosecuting the patent application. The concept of invention and ownership of rights under patents. Instruction Mode: Lecture Grading Option: Numeric

LAW 811 Health Law and Policy

Units: 2, 3, 4 Explores the statutes and regulations that govern the health care system and the policies that shape its development. Instruction Mode: Lecture Grading Option: Numeric

LAW 812 Patent Litigation

Units: 3 Terms Offered: Fa Provides students with a deep immersion into federal court litigation, with a focus on effective oral and written advocacy in the context of patent litigation. Instruction Mode: Lecture Grading Option: Numeric

LAW 813 Arbitration in the United States

Units: 3 Introduces students to the range of issues addressed by the Federal Arbitration Act and state arbitration laws. Instruction Mode: Lecture Grading Option: Numeric

LAW 814 Current Issues in Alternative Dispute Resolution

Units: 1 Examines the current issues and topics that practitioners face when seeking to resolve conflicts with the help of ADR. Instruction Mode: Lecture Grading Option: Numeric

LAW 815 Deals

Units: 3, 4 Examines the collaboration between business people aiming to accomplish a goal and lawyers translating their business objectives into contract language to achieve the goal. Instruction Mode: Lecture Grading Option: Numeric Crosslisted as FBE 515

LAW 816 Dealmaking in the Entertainment Industry

Units: 1, 2 Examines the major components of deals in the entertainment industry, and provides students the opportunity to learn real-world negotiating skills in the process. Instruction Mode: Lecture Grading Option: Numeric

LAW 817 International Arbitration

Units: 3 Examines methods of dispute resolution used in other countries and compares them to those employed in the United States. Registration Restriction: Open only to Law students
Instruction Mode: Lecture Grading Option: Numeric

LAW 818 Entrepreneurial Opportunities in Online Dispute Resolution

Units: 3 Presents the theoretical groundwork of online dispute resolution (ODR) and prepares students to be successful neutrals in ODR settings. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 819 ADR Ethics

Units: 1, 2 Provides law students, lawyers and professional neutrals with an in-depth examination of the rules guiding our behavior in various dispute resolution processes. Registration Restriction: Open only to law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 820 Pretrial Advocacy

Units: 3 or 4 Examines conceptual and practical aspects of interviewing, counseling, negotiation, settlement, drafting, and formal advocacy in the handling of legal cases. Instruction Mode: Lecture Grading Option: Numeric

LAW 821 Trial Advocacy

Units: 3 or 4 Terms Offered: FaSp Examines decision-making by counsel in the litigation of cases. Emphasis is given to decisions involving tactics and strategies and their implications for the functioning of legal institutions and substantive doctrine. Extensive use of simulated trial practice exercises. Instruction Mode: Lecture Grading Option: Numeric

LAW 822 Alternative Dispute Resolution Clause Drafting

Units: 1 Explores a variety of contract provisions, and teaches students the important drafting skills necessary to achieve a client's goal. Instruction Mode: Lecture Grading Option: Numeric

LAW 823 Statutory Interpretation

Units: 2 or 3 Examines the change and evolution of law to discover its political roots and the ways policy making branches work to make and implement law. Instruction Mode: Lecture Grading Option: Numeric

LAW 824 Arbitration Advocacy

Units: 1, 2 Helps students understand the basic approaches to preparing and presenting cases in the arbitration context. Registration Restriction: Open only to Law School students. Instruction Mode: Lecture Grading Option: Numeric

LAW 825 International Arbitration Competition

Units: 1, 2, 3 Max Units: 6 Covers basic aspects of international commercial arbitration and prepares a USC Law School team for participation in the Willem C. Vis International Commercial Arbitration Moot. Instruction Mode: Lecture Grading Option: Numeric

LAW 826 Employment Dispute Mediation

Units: 1, 2 Provides hands-on experience in mediation of the complex issues of disability, wage and hour, sex and sex harassment, age, race, religion, and national origin. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 827 Counseling the Startup Company

Units: 2, 3, 4 Terms Offered: Sp Role of the attorney in startup firms: business plan, employment agreements, lease, stock option plan, financing documents and distribution and strategic partnership arrangements. Instruction Mode: Lecture Grading Option: Numeric

LAW 828 Mediation Advocacy

Units: 3 Introduces students to the process of mediation, explores the philosophical approaches to mediation and different styles of mediating, develops a working knowledge of the stages of mediation, and cultivates students' skills to become effective advocates throughout each stage of the process. Instruction Mode: Lecture Grading Option: Numeric

LAW 829 Cross-Cultural Dispute Resolution

Units: 2 Brings an international perspective to understanding the impact of culture in the most commonly used international and domestic dispute resolution practices (negotiation, mediation, and arbitration). Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 830 Law Firm Economics and the Public Interest

Units: 1 Introduces students to the tools needed to work in a large law firm pro bono practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 831 International Business Negotiations

Units: 2 Simulated negotiation of an international transaction; will address legal and related business issues that commonly arise in international deals. Registration Restriction: Open only to law students Instruction Mode: Lecture Grading Option: Numeric

LAW 832 Special Education Dispute Resolution

Units: 2 Surveys the continuum of options available to, and emerging issues considered by, contemporary special education dispute resolution professionals. Instruction Mode: Lecture Grading Option: Numeric

LAW 833 Labor Arbitration

Units: 2 Introduces students to the National Labor Relations Act, collective bargaining and the labor arbitration process. Students also prepare labor arbitration briefs. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 834 Veterans Legal Practicum

Units: 4 Max Units: 08 Allows students to hone their legal skills while representing veterans of the United States Armed Forces in administrative proceedings. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 835 Transactional Due Diligence

Units: 1 Prepares students to handle due diligence projects at the level of a first-year or second-year transactional associate

through hands-on, practical training.

Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 837 Diversity: Legal and Social Perspectives

Units: 2, 3 Examine legal and social perspectives on the concept of diversity. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 838 Patent Drafting and Prosecution

Units: 3 Students learn how to prepare and prosecute U.S. patent applications, as well as an overview of design and foreign patent prosecution. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 839 Copyright Law in Practice

Units: 2, 3, 4 Study of federal copyright law, analysis of property rights and interests created thereunder. Manner in which these rights can be exploited in the various entertainment media. *Prerequisite:* LAW 772 or LAW 841 Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 840 Copyright and Fictional Characters

Units: 2, 3, 4 Involves the treatment of fictional characters by the courts and in new media and the fundamental copyright concepts that have shaped that treatment. Instruction Mode: Lecture Grading Option: Numeric

LAW 841 Copyright, Trademark and Related Rights

Units: 3 An introductory survey of statutory and case law, and underlying policy issues, concerning copyright, trademark and certain related legal rights. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 842 Partnership Taxation

Units: 2, 3, 4 Instruction Mode: Lecture Grading Option: Numeric

LAW 843 Tax Policy Seminar

Units: 2, 3, 4 Students will write and present papers discussing topics in tax policy. Instruction Mode: Lecture Grading Option: Numeric

LAW 844 Prepare for Trial Like a Master

Units: 1 Allows students to practice trial techniques and covers cutting-edge techniques in trial preparation. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 845 Negotiation Skills

Units: 2, 3 Develops students' negotiating skills through role plays, reflection and instructor feedback. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 846 Mathematical Modeling of Law and Society

Units: 2, 3, 4 Explores the use of mathematical modeling as a way of describing the dynamic relationships between legal regulation and the social behavior that

law regulates. Instruction Mode: Lecture
Grading Option: Numeric

LAW 847 Refugee and Forced Migration Law

Units: 2, 3, 4 Examines refugee law and forced migration, including the causes and consequences of forced migration and the responses to forced migration. Instruction Mode: Lecture Grading Option: Number

LAW 849 International Human Rights Clinic I

Units: 4, 5 Students work under close faculty supervision on cases and projects that involve the application of international law to address human rights violations. Instruction Mode: Lecture Grading Option: Numeric

LAW 850 International Human Rights Clinic II

Units: 4 or 5 Continuation of the International Human Rights Clinic.
Prerequisite: LAW 849. Instruction Mode: Lecture Grading Option: Numeric

LAW 851 Topics in Criminal Law and Criminology

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Selected topics in criminal law or criminology. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 853 Divorce and Family Mediation

Units: 2 Learn the practice and theory required to navigate many family law issues, including divorce, property, custody and immigration disputes. Instruction Mode: Lecture Grading Option: Numeric

LAW 854 Legal Design Lab

Units: 3 Max Units: 09 Students work in teams to develop innovative ways of addressing shortcomings in our legal systems to improve access, quality, efficiency and global integration and prosperity. Registration Restriction: Open only to law students Instruction Mode: Lecture Grading Option: Numeric

LAW 855 Topics in Maritime and Admiralty Law

Units: 2, 3, 4 Max Units: 6.0 Terms Offered: FaSp Taught in honor of James Ackerman, USC Law graduate of 1948, this class examines selected topics in maritime and admiralty law. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 857 Legal Design Challenge

Units: 2 Students develop a proposal in response to the call for solutions to global supply chains problems from the Hague Institute for the Internationalisation of Law. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 858 Law and Psychology

Units: 2, 3, 4 Examines the psychological factors that hinder the making of accurate factual findings. Registration Restriction: Open only to law students Instruction Mode: Lecture Grading Option: Numeric

LAW 859 Communications Law: Internet, Television and Other Media

Units: 2, 3, 4 Terms Offered: FaSpSm Concentrates on the regulation of broadcast television, cable television, telephone, and spectrum management. Instruction Mode: Lecture Grading Option: Numeric

LAW 860 International Criminal Law

Units: 4 Covers the prosecution, trial and punishment of individuals suspected of crimes considered among the most serious violations of international humanitarian and human rights law. Instruction Mode: Lecture Grading Option: Numeric

LAW 861 International Law Seminar

Units: 2, 3 Max Units: 6.0 Terms Offered: Sp Investigation of selected problems of international law. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 862 Iraqi Refugee Assistance Project Seminar

Units: 1, 2, 3, 4 Max Units: 8.0 Formally instructs students on U.S. and international refugee law and policy regarding the Iraqi refugee humanitarian crisis. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 863 International Negotiations and Mediation

Units: 2, 3, 4 Introduction to negotiation and mediation from an international perspective. Development of essential skills for effective client representation in negotiation and mediation. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 864 Sovereign Debt

Units: 1, 2, 3, 4 Examines the legal regimes that exist to address the problems that arise when a sovereign cannot pay back what it owes. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 865 Legislative Policy Practicum

Units: 3 Provides students with an opportunity to participate in realworld advocacy on juvenile justice issues. Instruction Mode: Lecture Grading Option: Numeric

LAW 866 Counterterrorism, Privacy and Civil Liberties

Units: 2, 3, 4 Terms Offered: FaSpSm Explores the spectrum of interrelated legal and policy issues known as "homeland security" since the events of September 11, 2001. Instruction Mode: Lecture Grading Option: Numeric

LAW 867 Corporate Fraud

Units: 2, 3, 4 Terms Offered: FaSpSm Introduces law students to the real world issues of major civil and criminal corporate fraud. Instruction Mode: Lecture Grading Option: Numeric

LAW 869 Family Law Mediation Clinic

Units: 2, 4 Teaches the skills and substantive area of the law necessary to successfully mediate cases in the Edelman Children's courthouse in Monterey Park. *Prerequisite:* LAW 630 Registration Restriction: Open

only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 870 Legal Writing Fellows

Units: 1, 2, 3, 4 Max Units: 7.0 Terms Offered: FaSpSm Assist in teaching writing and advocacy. Responsibilities include helping prepare lesson plans and drafting writing assignments and sample answers; leading class exercises; and judging first-year moot court practice rounds. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 871 First Amendment

Units: 2, 3, 4 Terms Offered: FaSp Freedom of expression (political speech, symbolic expression, obscenity, commercial speech, defamation), rights of access to the media, religious protection and prohibition of establishment of religion. Instruction Mode: Lecture Grading Option: Numeric

LAW 872 Advanced Legal Writing and Advocacy: Appellate Advocacy

Units: 1, 2, 3, 4 Terms Offered: FaSp Students will research, write, and rewrite an appellate brief and may work on motions and oral advocacy as well. Instruction Mode: Lecture Grading Option: Numeric

Units: 3 Terms Offered: FaSpSm An overview and critical analysis of current practices of information organization, cataloguing, access and reference services, including a conceptual understanding of these skills. Registration Restriction: Open only to Library and Information Science students Instruction Mode: Lecture Grading Option: Letter

LIM 504 Research Methods in Library and Information Management

Units: 3 An overview of research methods in information management including the conceptualization of research problems, literature reviews, research design, sampling, measurement, data collection and data analysis. Open only to MMLIS students. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 510 Academic Librarianship

Units: 3 An examination of current research and future trends in academic librarianship, emphasizing the necessary partnership among information culture and technology, academic research and instruction. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 511 Instructional Strategies for Information Professionals

Units: 3 An overview of research in learning emphasizing the role of academic librarians as instructors and facilitators of information navigation. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 512 Instructional Technologies for Educators

Units: 3 An overview and critical analysis of past and current instructional technologies used primarily in academic libraries. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 513 Multicultural Information Perspectives

Units: 3 An examination of critical issues, theories and research in educating and serving diverse populations with an emphasis on social, cultural and linguistic imperatives. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 520 Library Information Systems Analysis and Design

Units: 3 The analysis and design of information systems from the perspectives of information theory, technology, retrievability, storage and shelf life, copyright, privacy and related issues. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504.

Instruction Mode: Lecture Grading Option: Letter

LIM 521 Database Management Systems for Information Professionals

Units: 3 An overview of and instruction in the skills required to build library and archival relational databases including data integrity, security, maintenance and extraction. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 522 Metadata and Taxonomies

Units: 3 An overview of developing and assessing metadata for digital resources including the different types of metadata schema, data dictionaries, taxonomies and emerging metadata standards. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 523 Information Delivery in the Digital Environment

Units: 3 An inventory and description of digital competencies, assessments and techniques followed by instruction, practice and testing of these competencies in simulated situations. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 530 Library Resource Management

Units: 3 An overview and assessment of planning, design, allocation and implementation of library finance and resource distribution in a variety of settings. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 531 Global Perspectives in Librarianship

Units: 3 An investigation of the theory and practice of librarianship in the context of international approaches to knowledge creation, research, learning, information discovery and presentation. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 532 The Social Context of Information

Units: 3 An examination of information in the context of social networks, media, and other cultural structures that inform teaching, learning and research. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 533 Operations Research in Libraries

Units: 3 Overview of theory and best practices in operations research and how it can be applied in a broad range of library and other information-focused settings. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 534 Library Fundraising and Development

Units: 3 An overview of fundraising and development including the internal organization of the fundraising and

development enterprise, the cultivation of donors and related issues. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 550 Information Behaviors, Ethics and Policy

Units: 3 A study of information behaviors, policies and ethics including social networks, the interactive effects of information on users, users on information. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 551 Advanced Research Methods in Library and Information Management

Units: 3 Building on LIM 504, this course provides advanced research methods and analytical techniques and the application of these skills to complex library issues. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 552 Strategic Information and Competitive Analysis

Units: 3 Terms Offered: FaSpSm Searching sophisticated for-fee and free sources of information unique to particular industry client groups, synthesizing and translating information ethically to critical intelligence. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Open only to MMLIS students. Registration Restriction: Open only to MMLIS students. Instruction Mode: Lecture Grading Option: Letter

LIM 553 Corporate and Business Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in corporate librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 554 Science Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in science librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 555 Social Science Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in social science librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 556 Health Sciences Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in health sciences librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 557 Cinematic Arts Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in cinematic arts librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 558 Art and Museum Librarianship

Units: 3 An examination and critical analysis of resources, research and literature in art and museum librarianship including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 559 Marketing and Communications Strategies for Libraries

Units: 3 An introduction to essential marketing concepts such as brand platform, value proposition and message development and their application in a library environment. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 560 Rare Books and Manuscripts

Units: 3 An overview of the organization, management, public and technical service operations and outreach involved in the development and operation of rare and special collections. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 561 Library Program Development and Evaluation

Units: 3 An overview of library program development and evaluation with an emphasis upon linking student learning outcomes to library programs. Qualitative and quantitative methods are covered. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 562 Library and Information Technology Management

Units: 3 Terms Offered: FaSpSm Overview of management of library information technologies including computer networks, design, architecture, cloud technologies, data management, and technology planning as well as emerging technologies. *Prerequisite:* GSBA 502 and LIM 500 and LIM 501 and LIM 502 and LIM 503 and LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 591 Research and Professional Applications

Units: 2 Max Units: 10.0 Terms Offered: FaSpSm Apply concepts learned during the MMLIS program and investigate research questions and professional problems of concern to employers, their institutions and the profession at large. Open only to Library and Information Science majors. Registration Restriction: Open only to Library and Information Science majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 598 Capstone in Library and Information Management

Units: 3 Student-driven research or project-based experience that integrates the knowledge from course work and applies it to current issues in the field. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 599 Special Topics in Library and Information Management

Units: 3 Selected topics reflecting current trends and recent developments in library and information management. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

Linguistics**LING 110Lg In a Word**

Units: 4 Terms Offered: FaSp Words as a gateway to the human mind. How words are stored, comprehended and retrieved. How words are constructed. Words and concepts. Words and social constructs. The processing and the acquisition of words in normal and atypical children and adults. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Grading Option: Letter

LING 115gw Language and Society

Units: 4 Terms Offered: FaSp Discourse patterns among diverse social groups in institutional and interpersonal settings; interrelationships among language practices and gender, socioeconomic status, ethnicity; social structures and cultural values as reflected in language policies and practices. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 125 Hindi I

Units: 4 Terms Offered: Fa Introduction to current Hindi. Oral practice, listening and reading comprehension; grammar necessary for simple spoken and written expression. Instruction Mode: Lecture Grading Option: Letter

LING 155 Hindi II

Units: 4 Terms Offered: Sp Continuation of LING 125. Reading of simple Hindi prose, practice in pronunciation, the grammar essential for reading comprehension and writing. *Prerequisite:* LING 125. Instruction Mode: Lecture Grading Option: Letter

LING 210g Introduction to Linguistics

Units: 4 Empirical study of the sounds and structures of human language; syntax and semantics; language change; linguistic universals. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 255 Hindi III

Units: 4 Terms Offered: Fa Continuation of LING 155; intensive work in listening

comprehension, oral communication, reading and writing short essays; introduction of readings and periodicals related to Hindi culture and civilization. *Prerequisite:* LING 155. Instruction Mode: Lecture Grading Option: Letter

LING 265x Hindi IV

Units: 4 Terms Offered: Sp Reading of modern Hindi authors, review of grammar, composition, oral conversation, and collateral reading. *Prerequisite:* LING 255. Instruction Mode: Lecture Grading Option: Letter

LING 275Lg Language and Mind

Units: 4 Terms Offered: FaSp Language within cognitive science: speech physiology and acoustics, language acquisition, reading, language disorders, perception and mental representation of words, linguistic diversity and computer analysis of speech. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as PSYC-275

LING 285Lg Human Language and Technology

Units: 4 Study of human linguistic competence and technologies that simulate it. Grammar, parsing, text generation; semantics, pragmatics, sense disambiguation; phonetics, speech synthesis, speech recognition. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

LING 295g The Ancient Near East: Culture, Archaeology, Texts

Units: 4 An investigation of the peoples of the ancient Near East, focusing upon the writings which they produced, their languages and scripts, and their archaeological remains. *Concurrent Enrollment:* MDA 140. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

LING 301 Introduction to Phonetics and Phonology

Units: 4 Terms Offered: Fa A survey of topics in phonetics and phonology. *Prerequisite:* LING 210. Duplicates Credit in former LING 401a. Instruction Mode: Lecture Grading Option: Letter

LING 302 Introduction to Syntax and Semantics

Units: 4 Terms Offered: Fa A survey of topics in syntax and semantics. *Prerequisite:* LING 210. Duplicates Credit in former LING 402a. Instruction Mode: Lecture Grading Option: Letter

LING 303 Logic and Meaning in Natural Language

Units: 4 Terms Offered: FaSp Introduction to meaning in natural language and the methods from logic applied to its study. *Prerequisite:* LING 210. Instruction Mode: Lecture Grading Option: Letter

LING 307 Introduction to Speech-Language Pathology

Units: 4 Terms Offered: FaSp Introduces the breadth of possible communication disorders with a particular focus on the duties of the professionals who assist people with these disorders. Explores both the diagnostic criteria and common interventions for disorders such as Language Impairment, stuttering, swallowing, and dementia. *Recommended Preparation:* LING 210 Instruction Mode: Lecture Grading Option: Letter

LING 322g Language Contact and Language Acquisition

Units: 4 Terms Offered: Sp The emergence of new languages, spoken and signed, in socio-historical situations, where linguistic input is degraded and insufficient to support the ordinary language acquisition process. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

LING 325g Language and Number

Units: 4 Terms Offered: FaSp Analysis of the formal properties of linguistic expressions of number with the goal of understanding the structures that underlie language and numerical reasoning. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 374 Language and Society in East Asia

Units: 4 (Enroll in EALC 374)

LING 375 Sociolinguistics

Units: 4 Linguistic and cultural pluralism in the U.S.; distributional and structural characteristics of selected urban and minority dialects; the relationship between dialects and "media standard." *Prerequisite:* LING 210. Instruction Mode: Lecture Grading Option: Letter

LING 380 Languages of the World

Units: 4 Introduction to the world's linguistic diversity; number of languages spoken and where; grammatical structure and social function of selected languages. Instruction Mode: Lecture Grading Option: Letter

LING 385L Human Language as Computation

Units: 4 Terms Offered: Fa Study of language as a complex natural system that requires elaborate mental computation. *Prerequisite:* LING 285Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

LING 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

LING 401 Advanced Phonology

Units: 4 Advanced study of topics in phonology. *Prerequisite:* LING 301. Duplicates Credit in former LING 401b. Instruction Mode: Lecture Grading Option: Letter

LING 402 Advanced Syntax

Units: 4 Terms Offered: Sp Advanced study

of topics in syntax. *Prerequisite:* LING 210, LING 302. Duplicates Credit in former LING 402b. Instruction Mode: Lecture Grading Option: Letter

LING 403 Advanced Semantics

Units: 4 Topics in the theory of meaning in natural language *Prerequisite:* LING 302. Duplicates Credit in former LING 201. Instruction Mode: Lecture Grading Option: Letter

LING 405 Child Language Acquisition

Units: 4 Universal characteristics of child language; stages of acquisition of phonology, syntax, semantics; processes and dimensions of development; psychological mechanisms; communicative styles. Duplicates Credit in former LING 395. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-405

LING 406 Psycholinguistics

Units: 4 Experimental and theoretical aspects of how spoken and written language is produced and understood, learned during childhood, and affected by brain damage. *Prerequisite:* LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-406

LING 407 Atypical Language

Units: 4 Analysis of atypical language and language pathologies throughout the lifespan and their relevance to current linguistic and cognitive science theory. *Prerequisite:* LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-407

LING 409 Linguistic Structure of English

Units: 3 An overview of the syntactic, semantic, pragmatic structures of English as they relate to the theoretical literature on language acquisition. Instruction Mode: Lecture Grading Option: Letter

LING 410 Second Language Acquisition

Units: 4 Theories of second language acquisition in children and adults; comparison of first and second language acquisition including psychological, social, and individual factors. *Prerequisite:* LING 210. Duplicates Credit in former LING 396. Instruction Mode: Lecture Grading Option: Letter

LING 411x Linguistics and Education

Units: 4 Practical classroom approaches to children's language; relationships between writing, reading, and speaking; social and regional dialects; traditional, structural, and generative-transformational grammars. Instruction Mode: Lecture Grading Option: Letter

LING 412 Language and Law

Units: 4 Principles of semantics; analysis of speech acts including informing, promising, threatening, warning; linguistic analysis of consumer contracts and advertisements; readability studies. Instruction Mode: Lecture Grading Option: Letter

LING 415 Phonetics

Units: 4 Familiarization with the articulation and transcription of speech sounds. Also vocal tract anatomy, acoustics, speech technology, non-English sounds, perception.

Includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

LING 433 Children's Learning and Cognitive Development

Units: 4 (Enroll in PSYC 433)

LING 450 New Horizons in Forensic Speaker Identification

Units: 4 Overview of methods used to identify voices on the basis of their characteristic speech patterns. Instruction Mode: Lecture Grading Option: Letter

LING 465 Philosophy of Language

Units: 4 (Enroll in PHIL 465)

LING 466 Word and Phrase Origins

Units: 4 Introduction to historical-comparative word study; history of ideas concerning language relationships; types of semantic change; hidden metaphors in English word-stock. Instruction Mode: Lecture Grading Option: Letter

LING 480 Linguistic Structures

Units: 4 Analysis of grammatical structures of an individual language. Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 485 Field Methodology

Units: 4 Elicitation techniques and methodological principles; recording and analysis of phonological, syntactic, and semantic structures; practical approaches to procedures used in urban, rural, and "primitive" settings. Instruction Mode: Lecture Grading Option: Letter

LING 486 Natural Language Processing

Units: 4 Introduction to modern neural network approaches to natural language processing, based on Deep Learning. Recursive and recurrent neural networks; backpropagation; Ngram models. *Prerequisite:* LING 285Lg Instruction Mode: Lecture Grading Option: Letter

LING 487 Speech Synthesis and Recognition

Units: 4 Introduction to speech synthesis and speech recognition technologies from both a phonetics point of view and a computational point of view. *Prerequisite:* LING 285Lg Instruction Mode: Lecture Grading Option: Letter

LING 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

LING 497 Honors Thesis

Units: 4 Terms Offered: FaSp Writing of the honors thesis. Registration is restricted to honors students. Instruction Mode: Lecture Grading Option: Letter

LING 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Investigation of selected topics in linguistics. Instruction Mode: Lecture Grading Option: Letter

LING 501a Experimental Methods in Linguistics

Units: 3 Univariate and bivariate statistical methods with applications to linguistic research; introduction to statistical computer packages. *Prerequisite:* LING 501a. Duplicates Credit in former LING 601.

Instruction Mode: Lecture Grading Option: Letter

LING 501b Experimental Methods in Linguistics

Units: 3 The application of advanced multivariate statistical methods to linguistic research. *Prerequisite:* LING 501a. Duplicates Credit in former LING 601. Instruction Mode: Lecture Grading Option: Letter

LING 505a Seminar in Linguistics

Units: 1 Exploration of the professional world of linguistics for first semester graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 505b Seminar in Linguistics

Units: 1 Preparation and presentation of M.A./Ph.D. screening papers; discussion of student research. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 505c Seminar in Linguistics

Units: 1 Colloquium for presentation and discussion of student research paper. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 512 Linguistic Variation and Language Changes

Units: 3 Terms Offered: Fa Linguistic relationships among various correlates of variation: social, psychological, and chronological. Focus on dialectal, registral, and historical variation; the constraints of production and perception in different modes and situations. Instruction Mode: Lecture Grading Option: Letter

LING 513 Spanish Morphology and Phonology

Units: 3 Terms Offered: FaSp (Enroll in SPAN 513)

LING 514 Spanish Syntax

Units: 3 Terms Offered: FaSp (Enroll in SPAN 514)

LING 515 Spanish Grammar in Discourse

Units: 3 Terms Offered: FaSp (Enroll in SPAN 515)

LING 527 Second Language Acquisition

Units: 3 Terms Offered: Sp Concepts and issues in theoretical approaches to the study of non-primary language acquisition; e.g., linguistic and processing universals, language transfer, language learnability, fossilization. Instruction Mode: Lecture Grading Option: Letter

LING 530 Generative Syntax

Units: 3 Introduction to syntax; transformational-generative syntax. Instruction Mode: Lecture Grading Option: Letter

LING 531a Phonology

Units: 3 Terms Offered: Fa Traditional views of phonology; generative phonology; current developments in phonological research and theory. Instruction Mode: Lecture Grading Option: Letter

LING 531b Phonology

Units: 3 Terms Offered: Sp Traditional views of phonology; generative phonology; current developments in phonological research and

theory. Instruction Mode: Lecture Grading Option: Letter

LING 532 Current Issues in Syntactic Theory

Units: 3 Original literature, focusing whenever possible on issues in comparative syntax and their implications for universal grammar. Course complements LING 530. Instruction Mode: Lecture Grading Option: Letter

LING 533 Language Universals and Typology

Units: 3 Introduction to language universals and typology. Instruction Mode: Lecture Grading Option: Letter

LING 534 Logic and the Theory of Meaning

Units: 3 An introduction to logic in preparation for advanced work in semantics and linguistic theory. Instruction Mode: Lecture Grading Option: Letter

LING 535 Syntax and Grammatical Theory

Units: 3 Terms Offered: Sp Principles and comparison of modern theories of grammar with special reference to syntax. Instruction Mode: Lecture Grading Option: Letter

LING 536 Semantics

Units: 3 Terms Offered: Sp Current linguistic approaches to the semantics of natural language; analysis of concepts of meaning and reference. Instruction Mode: Lecture Grading Option: Letter

LING 537 Advanced Syntax

Units: 3 Max Units: 9.0 Topics in advanced formal syntax; current literature leading to open questions in research; survey of important and controversial issues of current theoretical relevance. Instruction Mode: Lecture Grading Option: Letter

LING 538 Selected Topics in Romance Syntax

Units: 3 Max Units: 9.0 Terms Offered: Sp Overview of selected topics in Romance Syntax within a comparative perspective and their contribution towards the understanding of a general theory of grammar. Instruction Mode: Lecture Grading Option: Letter

LING 539 Japanese/Korean Syntax and Theoretical Implications

Units: 3 Max Units: 9.0 Critical discussion of selected papers and dissertations on Japanese/Korean syntax and consideration of their theoretical implications. Instruction Mode: Lecture Grading Option: Letter

LING 540 Field Methods in Linguistics

Units: 3 Max Units: 6.0 Terms Offered: Sp Recording and analysis of a living language as employed by a native speaker of that language. Instruction Mode: Lecture Grading Option: Letter

LING 541 Field Methods in Second Language Acquisition

Units: 3 Research design and methodology; data collection, coding, and analysis; ethical considerations. Instruction Mode: Lecture Grading Option: Letter

LING 542 Historical Linguistics

Units: 3, 2 years Terms Offered: Sp Principles of language change; the

comparative method; structural and social factors in language change. Instruction Mode: Lecture Grading Option: Letter

LING 546 Comparative Indo-European Linguistics

Units: 3 Analysis of the phonological, morphological, and syntactic structures of Proto-Indo-European, and its development in the various branches of Indo-European. Instruction Mode: Lecture Grading Option: Letter

LING 547 Morphology

Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Introduction to morphology: words versus sentences, the grammar of words, the various notions of "lexicon," the architecture of the phonological component. This course is in preparation for advanced work in linguistic theory. Instruction Mode: Lecture Grading Option: Letter

LING 548 Lexical Semantics

Units: 3 Terms Offered: Sp Languages group meaning elements together in different ways to form words. Consideration of how to identify these elements and how speakers map them into lexico-syntactic units. Instruction Mode: Lecture Grading Option: Letter

LING 550 Advanced English Linguistics

Units: 3 The analysis of problems in the grammatical description and history of English. Instruction Mode: Lecture Grading Option: Letter

LING 555 Comparative Germanic Linguistics

Units: 3 Nature and relationship of changes that led to the differentiation of the individual Germanic languages. Instruction Mode: Lecture Grading Option: Letter

LING 557 Structure of the Chinese Language

Units: 4 (Enroll in EALC 557)

LING 561 Topics and Issues in East Asian Linguistics

Units: 4 Max Units: max 12 (Enroll in EALC 561)

LING 573 Sociolinguistics

Units: 3 Theoretical approaches to language in social context; discourse analysis, ethnography of communication, variation theory. Instruction Mode: Lecture Grading Option: Letter

LING 574 Advanced Sociolinguistics

Units: 3 Max Units: 9.0 Current issues in sociolinguistic theory. Instruction Mode: Lecture Grading Option: Letter

LING 576 Psycholinguistics

Units: 3 Theories of acquisition; sentence and discourse processing; language and thought. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-576

LING 579 Child Language Development

Units: 3 Terms Offered: Sp Acquisition of grammatical, discourse, and conversational competence; strategies and structures. Instruction Mode: Lecture Grading Option: Letter

LING 580 General Phonetics

Units: 3 Terms Offered: Sp Familiarization with articulation, transcription, production,

and acoustic analysis of the speech sounds found in the world's languages. Also speech technology, perception, and disorders. Includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

LING 581 Topics in Advanced Phonology

Units: 3 Max Units: 9.0 Topics in advanced formal phonology; theoretical issues in the interface of phonology with other areas of linguistics; literature study on themes of current theoretical relevance. *Recommended Preparation:* LING 531a, LING 531b. Instruction Mode: Lecture Grading Option: Letter

LING 582 Experimental Phonetics

Units: 3 Terms Offered: FaSp Source-filter theory, acoustic correlates of speech sounds, vocal tract and auditory physiology, coarticulation and motor coordination, speech technology including synthesis and recognition, experimental design and statistics, and speech perception. *Prerequisite:* LING 580. Instruction Mode: Lecture Grading Option: Letter

LING 585 Computational Linguistics

Units: 3 Using hands-on and research techniques, study of the role of linguistic knowledge and the procedures that implement it in computational systems that process natural language. Instruction Mode: Lecture Grading Option: Letter

LING 586 Advanced Psycholinguistics

Units: 3 Max Units: 9.0 Current issues in psycholinguistic theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-586

LING 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 593x Practicum in Teaching the Liberal Arts: Linguistics

Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 595 Directed Readings

Units: 1, 2, 3, 4 Terms Offered: FaSpSm Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

LING 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Research trends as reflected primarily in the current periodical literature. Instruction Mode: Lecture Grading Option: Letter

LING 602 Seminar in Experimental Methods in Linguistics

Units: 3 Topics in quantitative methods in linguistics research, e.g., covariance structure analysis, multi-dimensional scaling, log linear model, metaanalysis. Instruction Mode: Lecture Grading Option: Letter

LING 610 Seminar in Linguistic Theory
Units: 3 Max Units: 12.0 Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter

LING 615 Seminar in Linguistics Structures

Units: 3 Max Units: 12.0 Terms Offered:
Fa Analysis of the synchronic or diachronic phonology, morphology, and syntax of individual languages. Instruction Mode: Lecture Grading Option: Letter

LING 627 Seminar in Second Language Acquisition

Units: 3 Max Units: 12.0 Terms Offered:
FaSp Readings in second language acquisition as the framework for a discussion and research-oriented seminar. Instruction Mode: Lecture Grading Option: Letter

LING 631 Seminar in Phonological Theory

Units: 3 Max Units: 12.0 Terms Offered: Fa
Instruction Mode: Lecture Grading Option: Letter

LING 632 Seminar in Phonetics

Units: 3 Max Units: 12.0 Terms Offered:
FaSp Readings in phonetic theory and current research as the framework for a discussion-oriented class. *Prerequisite:* LING 580. Instruction Mode: Lecture Grading Option: Letter

LING 635 Seminar in Syntax

Units: 3 Max Units: 12.0 Terms Offered:
FaSp Instruction Mode: Lecture Grading Option: Letter

LING 636 Seminar in Semantics

Units: 3 Max Units: 12.0 Terms Offered: Fa
Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHIL-636

LING 645 Seminar in Language Change

Units: 3 Max Units: 12.0 Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter

LING 675 Seminar in Sociolinguistics

Units: 3 Max Units: 12.0 Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter

LING 676 Seminar in Psycholinguistics

Units: 3 Max Units: 12.0 Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-676

LING 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on

acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Materials Science

MASC 110L Materials Science

Units: 4 Terms Offered: FaSp Chemical bonding and structure in crystalline, amorphous, and molecular solids; tendency and mechanisms for chemical change; homogeneous and heterogeneous equilibria. *Prerequisite:* high school chemistry. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 310 Materials Behavior and Processing

Units: 4 Terms Offered: FaSp Principles of mechanical behavior and processing of materials. Relationships between mechanical properties, microstructure and processing methods. Composites and nonmetallics included. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 312

MASC 334L Mechanical Behavior of Materials

Units: 4 Terms Offered: Fa (Enroll in CE 334L)

MASC 350L Nanostructured Materials: Design, Synthesis and Processing

Units: 4 Terms Offered: Fa Structure, properties, synthesis, processing and design of metallic, ceramic, polymeric, electronic, photonic, composite, nanophase and biomaterials; nanostructures, microfabrication and smart materials. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg or MASC 110L) and PHYS 152L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 438L Processing for Microelectronics

Units: 3 (Enroll in EE 438)

MASC 439 Principles of Semiconductor Processing

Units: 3 Principles relevant to semiconductor processing are covered. Topics include bulk and epitaxial crystal growth, photolithography, evaporation, sputtering, etching, oxidation, alloying, and ion implantation. *Prerequisite:* MASC 110, EE 338. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 439

MASC 440 Materials and the Environment

Units: 3 Terms Offered: Sp Interactions of metals, alloys and composite materials with liquid and gaseous corrosive environments; corrosion protection by alloying and application of inhibitors and metallic or organic coatings. Instruction Mode: Lecture Grading Option: Letter

MASC 471 Applied Quantum Mechanics for Engineers

Units: 4 (Enroll in EE 471)

MASC 472 Polymer Science and Engineering

Units: 4 Terms Offered: Fa (Enroll in CHE 472)

MASC 475 Physical Properties of Polymers

Units: 4 Terms Offered: Sp (Enroll in CHE 475)

MASC 476 Chemical Engineering Materials

Units: 4 Terms Offered: Fa (Enroll in CHE 476)

MASC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester to reflect current trends and developments in the field of materials science. Instruction Mode: Lecture Grading Option: Letter

MASC 501 Solid State

Units: 4 Terms Offered: Sp Atomic electronic states, molecular bonding, crystal structures, diffraction, reciprocal lattice, Brillouin zones, crystal binding, lattice vibrations, specific heat, anharmonic effects, energy bands, metals, conductivity. *Prerequisite:* EE 471 or EE 539 *Recommended Preparation:* Graduate level mathematical methods (such as vector analysis, linear algebra, complex variables, transforms, ordinary and partial second order differential equations, etc.) for engineers Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 501

MASC 502 Advanced Solid State

Units: 3 Terms Offered: Fa Semiconductors, dielectrics and metals, thermoelectric effects, magnetism, magnetic resonance and superconductivity. *Prerequisite:* MASC 501. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-502

MASC 503 Thermodynamics of Materials

Units: 4 Terms Offered: Fa Classical thermodynamics, chemical potential, pure phases and mixtures; interphase relationships; binary and ternary solutions; free energy and activity; galvanic cell, electrochemical potential and Pourbaix diagram. Instruction Mode: Lecture Grading Option: Letter

MASC 504 Diffusion and Phase Equilibria

Units: 4 Terms Offered: Sp Phase equilibria, phase diagrams, diffusion, planar defects, nucleation and growth, spinodal decomposition, phase transformation. *Prerequisite:* MASC 503 Instruction Mode: Lecture Grading Option: Letter

MASC 505 Crystals and Anisotropy

Units: 3 Terms Offered: Fa Stereographic projection; Laue back reflection method; crystal orientation; line and planar crystalline defects; tensors; susceptibility; permeability and permittivity; stress and strain; piezoelectricity; elasticity. Instruction Mode: Lecture Grading Option: Letter

MASC 506 Semiconductor Physics

Units: 4 Terms Offered: FaSp (Enroll in EE 506)

MASC 507 Micro- and Nano-Fabrication Technology

Units: 3 (Enroll in EE 507)

MASC 508 Nano-Fabrication Lithography

Units: 3 (Enroll in EE 508)

MASC 511 Materials Preparation

Units: 3 Principles and techniques of materials preparation; purification, crystal growth from liquid and vapor phases, sintering. *Prerequisite:* MASC 504. Instruction Mode: Lecture Grading Option: Letter

MASC 512 Thin Film Science and Technology

Units: 3 Terms Offered: Fa Science and technology of thin films; historical developments and motivation to achieve thin films, synthesis techniques, materials characterization, physical properties, and applications of thin films. *Recommended Preparation:* Upper Division/Graduate-level preparation in thermodynamics/quantum mechanics/solid state physics Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MASC 514L Processing of Advanced Semiconductor Devices

Units: 3 Terms Offered: Fa Statistical design of experiments, vapor deposition of thin film dielectrics, plasma etching, advanced lithography, in-situ sensors, process monitoring, quality control, assurance/reliability. *Prerequisite:* EE 504. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 520 Mathematical Methods for Deep Learning

Units: 4 Terms Offered: Sp Understanding deep learning: for PhD students in engineering, physical and life sciences and computer science with mathematical background. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 520, PTE 520

MASC 523 Principles of Electrochemical Engineering

Units: 3 Electrochemical techniques; mass, charge, and heat transfer; electrochemical thermodynamics and electrode kinetics; electrochemical reactors; optimization; materials and corrosion; experimental modeling of industrial processes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-523

MASC 524 Techniques and Mechanisms in Electrochemistry

Units: 3 Modern electrochemistry; in-situ techniques; in-situ probes of the near-electrode region; ex-situ emersion techniques; cyclic voltammetry, electrooxidation, electrochemical reduction, reactive film formation, enzyme electrochemistry. Instruction Mode: Lecture Grading Option: Letter

MASC 534 Materials Characterization

Units: 3 Terms Offered: Fa Characterization of solids by optical microscopy, electron microscopy, (TEM, SEM) and elemental and structural analysis (EPMA, ESCA, AES, SIMS, HEED, LEED, SED). Instruction

Mode: Lecture Grading Option: Letter Crosslisted as EE-534

MASC 535L Transmission Electron Microscopy

Units: 4 Transmission electron microscopy and techniques. Specimen-electron beam interaction, electron diffraction and image formation. X-ray microanalysis. Laboratory involves hands-on training on the transmission electron microscope. *Recommended Preparation:* MASC 505. Duplicates Credit in former MASC 536L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 539 Engineering Quantum Mechanics

Units: 3 (Enroll in EE 539)

MASC 548 Rheology of Liquids and Solids

Units: 3 (Enroll in CHE 548)

MASC 551 Mechanical Behavior of Engineering Materials

Units: 4 Terms Offered: FaSp Mechanical properties of materials; macroscopic mechanical behavior related to structure and microstructure of the material; elementary dislocation theory related to basic strengthening mechanisms; fatigue and fracture; nanomaterials. *Recommended Preparation:* Undergraduate introduction to chemistry and the equivalent of MASC 310 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 551

MASC 559 Creep

Units: 3 Terms Offered: Sp Behavior of engineering materials at elevated temperatures; thermal stresses; creep mechanisms; interpretation of creep data; methods of predicting long-term strains. Duplicates Credit in former AME 559 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 559

MASC 560 Fatigue and Fracture

Units: 3 Terms Offered: Sp Behavior of materials under cyclic and static fatigue; plastic instability; life-time predictions; brittle and ductile fracture; crack propagation and plastic blunting. Duplicates Credit in former AME 560 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 560

MASC 561 Dislocation Theory and Applications

Units: 4 Terms Offered: Sp Elasticity theory; types, sources, motion, interaction of dislocations; stress fields and strain energies; partial dislocations and stacking faults; principles of work-hardening. *Recommended Preparation:* The equivalent of MASC 310, MASC 505 and MASC 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 561

MASC 562 Failure Analysis

Units: 3 Terms Offered: Sp Apply fundamental Materials Science concepts to "real-world" material/product failures. Identify causes of material failures using analytical methodology/tools. Develop practical solutions to prevent future failures. *Recommended Preparation:* Undergraduate materials or materials selection courses Instruction Mode: Lecture Grading Option: Letter

MASC 564 Composites Processing

Units: 3 Terms Offered: Sp Science underlying processes used to manufacture composite parts. Scope - constituent materials, processing challenges, defect control strategies, and bases for material and process selection/design. *Recommended Preparation:* Undergraduate course work in materials science and/or background in polymer processing; read 4 recent issues of Composites World (free on-line publication) Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MASC 570 Introduction to Photovoltaic Solar Energy Conversion

Units: 3 Introduction to the physical principles, implementation materials, devices, and manufacturing costs of solar cells and panels for photovoltaic conversion of solar radiation to electricity. Instruction Mode: Lecture Grading Option: Letter

MASC 575 Basics of Atomistic Simulation of Materials

Units: 3 Terms Offered: Fa Building a parallel computer from components; molecular dynamics method; computation of structural, thermodynamics and transport properties; simulation projects. *Prerequisite:* Undergraduate course in thermodynamics or statistical physics; *Recommended Preparation:* Fortran, Unix/Linux. Instruction Mode: Lecture Grading Option: Letter

MASC 576 Molecular Dynamics Simulations of Materials and Processes

Units: 3 Terms Offered: Sp Molecular dynamics method for atomistic simulations of materials and processes, simulations using parallel computing, correlation functions for structural and dynamical properties plus simulation project. *Prerequisite:* MASC 575. Instruction Mode: Lecture Grading Option: Letter

MASC 583 Materials Selection

Units: 4 Terms Offered: Fa Materials selection in relationship to design and fabrication, economic considerations, methodology of selection, performance parameters; case studies. *Recommended Preparation:* Undergraduate level course in materials (equivalent to MASC 310) Duplicates Credit in former AME 588 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 588

MASC 584 Fracture Mechanics and Mechanisms

Units: 3 Terms Offered: Fa Failure modes, stress concentrations, complex stress analysis, linear elastic fracture mechanics, yielding fracture mechanics, experimental methods, environmental assisted fracture and fatigue. *Prerequisite:* AME 403 Duplicates Credit in former AME 584 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 584

MASC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 594a Master's Thesis

Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 594b Master's Thesis

Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 594z Master's Thesis

Units: 0 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 598 Materials Science Seminar

Units: 1 Seminar in Materials Science research. To be taken only once for graduate credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 599 Special Topics

Units: 2, 3, 4 Max Units: 9.0 Instruction Mode: Lecture Grading Option: Letter

MASC 601 Advanced Semiconductor Device Physics

Units: 4 Terms Offered: Sp (Enroll in EE 601)

MASC 606 Nonequilibrium Processes in Semiconductors

Units: 3 Terms Offered: Sp (Enroll in EE 606)

MASC 610 Molecular Beam Epitaxy

Units: 3 Basic principles, ultra high vacuum, machine considerations, source purity and calibrations temperature measurements, surface morphology and chemistry, growth procedures, III-V, II-VI and silicon MBE. *Prerequisite:* MASC 501, MASC 503. Instruction Mode: Lecture Grading Option: Letter

MASC 690 Directed Research

Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree Engineer in Materials Science. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Mathematics**MATH 040x Basic Mathematical Skills**

Units: 4 Terms Offered: FaSp Review of Algebra. Real numbers, linear equations and inequalities, functions, graphs, systems of equations, exponents, polynomials, factoring, rational expressions, radicals, quadratic equations and solutions. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 108g Contemporary Precalculus

Units: 4 Terms Offered: FaSp Equations and inequalities; functions; graphs; polynomial and rational functions; exponential, logarithmic, and trigonometric function; analytic geometry. *Prerequisite:* MATH 040 or passing of placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 114x Foundations of Statistics

Units: 4 Terms Offered: FaSpSm An introduction to the basic tools of statistics. Descriptive statistics; probability; expected value; normal approximation sampling; chance models; tests of significance. *Recommended Preparation:* MATH 040 or math placement exam. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 117g Introduction to Mathematics for Business and Economics

Units: 4 Terms Offered: FaSp Functions, graphs, polynomial and rational functions, exponential and logarithmic functions, matrices, systems of linear equations. *Prerequisite:* MATH 040 or math placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 118gx Fundamental Principles of Calculus

Units: 4 Terms Offered: FaSp Derivatives; extrema. Definite integral; fundamental theorem of calculus. Extrema and definite integrals for functions of several variables. *Prerequisite:* MATH 108 or MATH 117 or placement exam in MATH. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 125g Calculus I

Units: 4 Terms Offered: FaSpSm Limits; continuity, derivatives and applications; antiderivatives; the fundamental theorem of calculus; exponential and logarithmic functions. *Prerequisite:* MATH 108 or math placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 126g Calculus II

Units: 4 Terms Offered: FaSpSm A continuation of MATH 125g: trigonometric functions; applications of integration; techniques of integration; indeterminate

forms; infinite series; Taylor series; polar coordinates. *Prerequisite:* MATH 125g Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 127 Enhanced Calculus II

Units: 4 Terms Offered: FaSp Applications of integration, review of techniques of integration, infinite sequences and series, some beginning linear algebra, ordinary differential equations. Designed for students who earn a score of 4 or 5 on the Advanced Placement Calculus AB Examination, or a score of 3 or 4 on the BC Examination. Admission to course by departmental approval. Duplicates Credit in MATH 126g and MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 129 Calculus II for Engineers and Scientists

Units: 4 Terms Offered: FaSpSm Trigonometric functions; applications of integration; techniques of integration; indeterminate forms; infinite series; Taylor series; polar coordinates. Engineering and physics applications. *Prerequisite:* MATH 125 Duplicates Credit in MATH 126 and MATH 127 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 200 Elementary Mathematics from an Advanced Standpoint

Units: 4 Terms Offered: FaSp An explication of arithmetic and geometry, including the algebraic operations, number bases, plane and solid figures; and coordinate geometry. *Prerequisite:* MATH 040 or math placement exam. Instruction Mode: Lecture Grading Option: Letter

MATH 208x Elementary Probability and Statistics

Units: 4 Terms Offered: FaSp Descriptive statistics, probability, discrete and continuous random variables, expectation and variance, sampling, Central Limit Theorem, estimation, hypothesis testing, correlation and regression. Emphasis on health science. *Prerequisite:* MATH 118 or MATH 125. Instruction Mode: Lecture Grading Option: Letter

MATH 225 Linear Algebra and Linear Differential Equations

Units: 4 Terms Offered: FaSp Matrices, systems of linear equations, vector spaces, linear transformations, eigenvalues, systems of linear differential equations. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 226g Calculus III

Units: 4 Terms Offered: FaSp Vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 227 Enhanced Calculus III

Units: 4 Terms Offered: FaSp A continuation of MATH 127; vectors and vector spaces functions of several variables, partial differential equations, optimization theory,

multiple integration; Green's Stokes', divergence theorems. *Prerequisite:* MATH 127 or MATH 225. Duplicates Credit in MATH 226. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 229 Calculus III for Engineers and Scientists

Units: 4 Terms Offered: FaSpSm A continuation of MATH 129; vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem. Engineering and physics applications. *Prerequisite:* MATH 126, or MATH 127, or MATH 129. Duplicates Credit in MATH 226 and MATH 227. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 245 Mathematics of Physics and Engineering I

Units: 4 Terms Offered: FaSp First-order differential equations; second-order linear differential equations; determinants and matrices; systems of linear differential equations; Laplace transforms. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 265 Mathematical and Computational Methods for Neuroscience

Units: 4 Terms Offered: Irregular Differential calculus of multivariable functions, optimization, elementary linear algebra and matrix theory, principal component analysis, elementary differential equations, systems, qualitative theory, numerical methods, scientific computation. *Prerequisite:* MATH 125g *Recommended Preparation:* MATH 126g or MATH 127 or MATH 129 or equivalent or AP credit for Calculus BC Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 307 Statistical Inference and Data Analysis I

Units: 4 Terms Offered: Fa Probability, counting, independence, distributions, random variables, simulation, expectation, variance, covariance, transformations, law of large numbers, Central limit theorem, estimation, efficiency, maximum likelihood, Cramer-Rao bound, bootstrap. *Prerequisite:* MATH 118gx or MATH 125g or MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 308 Statistical Inference and Data Analysis II

Units: 4 Terms Offered: Sp Confidence intervals, hypothesis testing, pvalues, likelihood ratio, nonparametrics, descriptive statistics, regression, multiple linear regression, experimental design, analysis of variance, categorical data, chi-squared tests, Bayesian statistics. *Prerequisite:* MATH 307. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 370 Applied Algebra

Units: 4 Terms Offered: Irregular Induction, Euclidean algorithm, factorization, congruence classes, Rings, RSA algorithm, Chinese remainder theorem, codes, polynomials, fundamental theorem of algebra, polynomial multiplication, Fourier

transform, and other topics. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MATH 395 Seminar in Problem Solving

Units: 2 Max Units: 08 Terms Offered: FaSp Systematic approach to solving non-standard and competition level math problems on inequalities, infinite sums and products, combinatorics, number theory and games. *Recommended Preparation:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 400 Foundations of Discrete Mathematics

Units: 4 Terms Offered: Irregular Methods of proof, predicate calculus, set theory, order and equivalence relations, partitions, lattices, functions, cardinality, elementary number theory and combinatorics. *Prerequisite:* MATH 225 or MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 407 Probability Theory

Units: 4 Terms Offered: FaSp Probability spaces, discrete and continuous distributions, moments, characteristic functions, sequences of random variables, laws of large numbers, central limit theorem, special probability laws. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 408 Mathematical Statistics

Units: 4 Terms Offered: Sp Principles for testing hypotheses and estimation, confidence intervals, methods of moments, maximum likelihood, information inequality, likelihood ratio tests, goodness of fit and nonparametric methods. *Prerequisite:* MATH 407 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 410 Fundamental Concepts of Modern Algebra

Units: 4 Terms Offered: FaSp Sets; relations; groups; homomorphisms; symmetric groups; Abelian groups; Sylow's theorems; introduction to rings and fields. *Prerequisite:* MATH 225; *Recommended Preparation:* One 400-level Mathematics course, excluding MATH 450. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 425a Fundamental Concepts of Analysis

Units: 4 Terms Offered: FaSp The real number system, metric spaces, limits, continuity, derivatives and integrals, infinite series. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 *Recommended Preparation:* one 400-level Mathematics course, excluding MATH 450 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 425b Fundamental Concepts of Analysis

Units: 4 Terms Offered: Sp Implicit function theorems, Jacobians, transformations,

multiple integrals, line integrals.

Prerequisite: MATH 425a *Recommended Preparation:* one 400-level Mathematics course, excluding MATH 450 Instruction Mode: Lecture Grading Option: Letter

MATH 430 Theory of Numbers

Units: 4 Terms Offered: Fa Introduction to the theory of numbers, including prime factorization, congruences, primitive roots, N-th power residues, number theoretic functions and certain diophantine equations. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 432 Applied Combinatorics

Units: 4 Terms Offered: Sp Mathematical induction, counting principles, arrangements, selections, binomial coefficients, generating functions, recurrence relations, inclusion-exclusion, symmetric groups, graphs, Euler and Hamiltonian circuits, trees, graph algorithms; applications. *Prerequisite:* MATH 225 or MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 434 Geometry and Transformations

Units: 4 Terms Offered: Fa The Euclidean plane and its isometries. Models for the hyperbolic metric, isometries, linear fractional maps, geodesics. Gluing constructions. Knot theory and invariants. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 435 Vector Analysis and Introduction to Differential Geometry

Units: 4 Terms Offered: Sp Vectors, elements of vector analysis, applications to curves and surfaces, standard material of differential geometry. Prerequisites may be waived for qualified students with consent of instructor. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 440 Topology

Units: 4 Terms Offered: Fa Cardinals, topologies, separation axioms. Compactness, metrizable, function spaces; completeness; Jordan curve theorem. *Recommended Preparation:* upper-division MATH course. Instruction Mode: Lecture Grading Option: Letter

MATH 445 Mathematics of Physics and Engineering II

Units: 4 Terms Offered: FaSp Vector field theory; theorems of Gauss, Green, and Stokes; Fourier series and integrals; complex variables; linear partial differential equations; series solutions of ordinary differential equations. *Prerequisite:* MATH 245 or (MATH 225 and MATH 226g) or (MATH 225 and MATH 227) or (MATH 225 and MATH 229) Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 447 Mathematics of Machine Learning

Units: 4 Terms Offered: FaSp Mathematical aspects of Machine Learning. PAC Learning, VC-dimension and complexity. Linear predictors (regression, perceptron, SVM).

Convex learning and gradient descent. Neural networks and backpropagation. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 208x or MATH 407) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 450 History of Mathematics
Units: 4 Terms Offered: Sp Evolution of mathematical ideas and techniques as seen through a study of the contributions of eminent mathematicians to the formulation and solution of celebrated problems. *Prerequisite:* MATH 225 or MATH 245; *Recommended Preparation:* upper-division MATH course. Instruction Mode: Lecture Grading Option: Letter

MATH 458 Numerical Methods
Units: 4 Terms Offered: Fa Rounding errors in digital computation; solution of linear algebraic systems; Newton's method for nonlinear systems; matrix eigenvalues; polynomial approximation; numerical integration; numerical solution of ordinary differential equations. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-458

MATH 465 Nonlinear Dynamics in Science and Engineering
Units: 4 Terms Offered: Sp Nonlinear models, bifurcations, discrete and continuous dynamics, stability, dissipative and reversible systems, Poincare maps, Lyapunov exponents, fractal dimension. Applications stressed: Economics, Engineering, Biology, Physics. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture Grading Option: Letter

MATH 466 Dynamic Modeling
Units: 4 Terms Offered: Fa Formulation and study of models arising in population dynamics, growth of plankton, pollution in rivers, highway traffic, morphogenesis and tidal dynamics: stability, oscillations, bifurcations, chaos. The lab will consist of computer simulation of models using commercially available software. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 467 Theory and Computational Methods for Optimization
Units: 4 Terms Offered: Fa Methods for static, dynamic, unconstrained, constrained optimization. Gradient, conjugate gradient, penalty methods. Lagrange multipliers, least squares, linear, nonlinear dynamic programming. Application to control and estimation. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 471 Topics in Linear Algebra
Units: 4 Terms Offered: Sp Polynomial rings, vector spaces, linear transformations, canonical forms, inner product spaces. *Prerequisite:* MATH 225; *Recommended Preparation:* MATH 410. Instruction Mode: Lecture Grading Option: Letter

MATH 475 Introduction to Theory of Complex Variables
Units: 4 Terms Offered: Sp Limits and infinite series; line integrals; conformal mapping; single-valued functions of a complex variable; applications. Primarily for advanced students in engineering. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MATH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures on advanced material not covered in regularly scheduled courses. No more than two registrations allowed. Instruction Mode: Lecture Grading Option: Letter

MATH 500 Graduate Colloquium
Units: 2 Lectures directed to mathematics graduate students by faculty of the department and by outside speakers. Problem solving workshops. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 501 Numerical Analysis and Computation
Units: 3 Terms Offered: Sp Linear equations and matrices, Gauss elimination, error estimates, iteration techniques; contractive mappings, Newton's method; matrix eigenvalue problems; least-squares approximation, Newton-Cotes and Gaussian quadratures; finite difference methods. *Prerequisite:* linear algebra and calculus. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-501

MATH 502a Numerical Analysis
Units: 3 Terms Offered: Fa Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. *Prerequisite:* MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502A

MATH 502b Numerical Analysis
Units: 3 Terms Offered: Sp Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. *Prerequisite:* MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502B

MATH 504a Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Sp Initial value problems; multistep methods, stability, convergence and error estimation, automatic stepsize control, higher order methods, systems of equations, stiff problems; boundary value problems; eigen-problems. *Prerequisite:* MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504A

MATH 504b Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Fa Computationally efficient schemes for solving PDE numerically; stability and convergence of difference schemes, method of lines; fast direct and iterative methods for elliptic equations. *Prerequisite:* MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504B

MATH 505a Applied Probability
Units: 3 Terms Offered: Fa Populations, permutations, combinations, random variables, distribution and density functions conditional probability and expectation, binomial, Poisson, and normal distributions; laws of large numbers, central limit theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505A

MATH 505b Applied Probability
Units: 3 Terms Offered: Sp Markov processes in discrete or continuous time; renewal processes; martingales; Brownian motion and diffusion theory; random walks, inventory models, population growth, queueing models, shot noise. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505B

MATH 507a Theory of Probability
Units: 3 Terms Offered: Fa Probability spaces; distributions and characteristic functions; laws of large numbers, central limit problems; stable and infinitely divisible laws; conditional distributions. *Prerequisite:* MATH 525a or MATH 570. Instruction Mode: Lecture Grading Option: Letter

MATH 507b Theory of Probability
Units: 3 Terms Offered: Sp Dependence, martingales, ergodic theorems, second-order random functions, harmonic analysis, Markov processes. Instruction Mode: Lecture Grading Option: Letter

MATH 508 Filtering Theory
Units: 3 Theory of random differential equations and stochastic stability; optimum linear and nonlinear filtering, with discussion of asymptotic behavior of filter. *Prerequisite:* MATH 507a. Instruction Mode: Lecture Grading Option: Letter

MATH 509 Stochastic Differential Equations
Units: 3 Brownian motion, stochastic integrals, the Ito formula, stochastic differential equations, analysis of diffusion processes, Girsanov transformation, Feynmann-Kac formula, applications. *Prerequisite:* MATH 505a, MATH 505b or MATH 507a, MATH 507b. Instruction Mode: Lecture Grading Option: Letter

MATH 510a Algebra
Units: 3 Terms Offered: Fa Group Theory: Isomorphism theorems, group actions, Sylow's theorems, simple and solvable groups; Field Theory: Galois correspondence, radical extensions, algebraic and transcendental extensions, finite fields. *Prerequisite:* MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter

MATH 510b Algebra

Units: 3 Terms Offered: Sp Commutative Algebra: Integrality, Hilbert Basis theorem, Hilbert Nullstellensatz; Modules: modules over PIDs, chain conditions, tensor products; Noncommutative Rings: Jacobson radical, Artin-Wedderburn theorem, Maschke's theorem. *Prerequisite:* MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter

MATH 511aL Data Analysis

Units: 4 (Enroll in PM 511a, PM 511b) Instruction Mode: Lecture, 3 hours; laboratory, 1 hour.

MATH 511bL Data Analysis

Units: 4 (Enroll in PM 511a, PM 511b)

MATH 512 Financial Informatics and Simulation (Computer Labs and Practitioner Seminar)

Units: 3 Terms Offered: FaSp Experimental laboratory trading for financial markets using double auctions: handling statistical packages for data analysis. Practical training in virtual market environments, using financial trading system software. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 520 Complex Analysis

Units: 3 Terms Offered: Sp Theory of analytic functions — power series and integral representations, calculus of residues, harmonic functions, normal families, approximation theorems, conformal mapping, analytical continuation. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525a Real Analysis

Units: 3 Terms Offered: Fa Measure and integration over abstract measure spaces, Radon-Nikodym theorem, Fubini's theorem, convergence theorems, differentiation. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525b Real Analysis

Units: 3 Terms Offered: Sp Metric spaces, contraction principle, category, Banach spaces, Riesz representation theorem, properties of L_p Hilbert spaces, orthogonal expansions, Fourier series and transforms, convolutions. *Prerequisite:* MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 530a Stochastic Calculus and Mathematical Finance

Units: 3 Stochastic processes revisited, Brownian motion, Martingale theory, stochastic differential equations, Feynman-Kac formula, binomial models, basic concepts in arbitrage pricing theory, equivalent Martingale measure. *Recommended Preparation:* MATH 225, MATH 407. Duplicates Credit in the former MATH 503. Instruction Mode: Lecture Grading Option: Letter

MATH 530b Stochastic Calculus and Mathematical Finance

Units: 3 Terms Offered: Sp Advanced topics in stochastic analysis, asset pricing in continuous time, stochastic control, Hamilton-Jacobi-Bellman equations,

incomplete markets, American options, exotic options, term structure of interest rates. Duplicates Credit in the former MATH 506. Instruction Mode: Lecture Grading Option: Letter

MATH 532 Combinatorial Analysis

Units: 3 Terms Offered: Fa Inversion formulas, generating functions and recursions, partitions, Stirling numbers, distinct representatives, Ramsey's theorem, graph theory, block designs, difference sets, finite geometries, Latin squares, Hadamard matrices. Instruction Mode: Lecture Grading Option: Letter

MATH 533 Algebraic Combinatorics

Units: 3 Terms Offered: Irregular Walks in graphs, random walks, group actions on boolean algebras, Young diagrams and tableaux, the Matrix-Tree Theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 533

MATH 535a Differential Geometry

Units: 3 Terms Offered: Fa Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 535b Differential Geometry

Units: 3 Terms Offered: Sp Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 540 Topology

Units: 3 Terms Offered: Sp Initial and final topologies, function spaces, algebras in $C(Y)$, homotopy, fundamental group, fiber spaces and bundles, smashes, loop spaces, groups of homotopy classes, cw -complexes. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 541a Introduction to Mathematical Statistics

Units: 3 Terms Offered: Sp Parametric families of distributions, sufficiency. Estimation: methods of moments, maximum likelihood, unbiased estimation. Comparison of estimators, optimality, information inequality, asymptotic efficiency. EM algorithm, jackknife and bootstrap. *Prerequisite:* MATH 505a or MATH 407 or MATH 408. Instruction Mode: Lecture Grading Option: Letter

MATH 541b Introduction to Mathematical Statistics

Units: 3 Terms Offered: Fa Hypothesis testing, Neyman-Pearson lemma, generalized likelihood ratio procedures, confidence intervals, consistency, power, jackknife and bootstrap. Monte Carlo Markov chain methods, hidden Markov models. *Prerequisite:* MATH 541a. Instruction Mode: Lecture Grading Option: Letter

MATH 542 Analysis of Variance and Design

Units: 3 Terms Offered: Sp Least squares estimation in the linear model, analysis of variance and covariance, F-test, multiple comparisons, multiple regression, selection of variables; introduction to experimental design. *Recommended Preparation:* Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter

MATH 543 Nonparametric Statistics

Units: 3 Terms Offered: Irregular Distribution-free methods for comparisons of two or more samples, tests of randomness, independence, goodness of fit; classification, regression. Comparison with parametric techniques. *Recommended Preparation:* Multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 543

MATH 544L Multivariate Analysis

Units: 3 Terms Offered: SpSm (Enroll in PM 544L)

MATH 545 Introduction to Time Series

Units: 3 Terms Offered: Fa Transfer function models; stationary, nonstationary processes; moving average, autoregressive models; spectral analysis; estimation of mean, autocorrelation, spectrum; seasonal time series. *Recommended Preparation:* Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 545

MATH 547 Mathematical Foundations of Statistical Learning Theory

Units: 3 Terms Offered: Fa Binary classification, empirical risk minimization, support vector machines, voting algorithms and AdaBoost, Vapnik-Chervonenkis combinatorics, concentration-of-measure inequalities, sparse recovery problems, high-dimensional convex geometry. *Prerequisite:* MATH 407 or MATH 408 Instruction Mode: Lecture Grading Option: Letter

MATH 548 Sequential Analysis

Units: 3 Sequential decision procedures: sequential probability-ratio tests, operating characteristic, expected sample size, two-stage procedures, optimal stopping, martingales, Markov processes; applications to gambling, industrial inspection. *Prerequisite:* MATH 407 or MATH 408. Instruction Mode: Lecture Grading Option: Letter

MATH 550 Sample Surveys

Units: 3 Terms Offered: Sp Theory of sampling and design of sample surveys; bias and precision; finite populations; stratification; cluster sampling; multistage, systematic sampling; non-sampling errors. *Prerequisite:* MATH 208. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM-550

MATH 555a Partial Differential Equations

Units: 3 Terms Offered: Fa Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 555b Partial Differential Equations

Units: 3 Terms Offered: Sp Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 565a Ordinary Differential Equations

Units: 3 Terms Offered: Fa Existence, uniqueness and continuation of solutions, differential inequalities, linear systems, Sturm-Liouville theory, boundary value problems, Poincare-Bendixson theory, periodic solutions, perturbations, stability, fixed point techniques. *Prerequisite:* MATH 425ab. Instruction Mode: Lecture Grading Option: Letter

MATH 565b Ordinary Differential Equations

Units: 3 Terms Offered: Sp Existence, uniqueness and continuation of solutions, differential inequalities, linear systems, Sturm-Liouville theory, boundary value problems, Poincare-Bendixson theory, periodic solutions, perturbations, stability, fixed point techniques. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 570a Methods of Applied Mathematics

Units: 3 Terms Offered: Fa Metric spaces, compactness, completion, fixed-point theorems, abstract spaces, linear operators, functionals, duality, conjugates, L_p spaces, Fourier transform. Applications from Engineering, Natural and Social sciences. *Recommended Preparation:* Linear Algebra and Calculus. Instruction Mode: Lecture Grading Option: Letter

MATH 570b Methods of Applied Mathematics

Units: 3 Terms Offered: Sp Measure theory, convergence, Lebesgue spaces, Riesz's theorem, Integration theorems, compact and self-adjoint operators, spectral theory, resolution of the identity, differential operators, quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

MATH 572 Applied Algebraic Structures

Units: 3 Terms Offered: Fa Elementary predicate logic, model theory, axiomatic set theory; relations, functions, equivalences; algebraic and relational structures; graph theory; applications of lattices, Boolean algebras; groups, rings, field. Instruction Mode: Lecture Grading Option: Letter

MATH 574 Applied Matrix Analysis

Units: 3 Terms Offered: Fa Equivalence of matrices; Jordan canonical form; functions of matrices; diagonalization; singular value decomposition; applications to linear differential equations, stability theory, and Markov processes. Instruction Mode: Lecture Grading Option: Letter

MATH 576 Applied Complex Analysis and Integral Transforms

Units: 3 Terms Offered: Fa Review of basic complex analysis; integral transforms of Laplace, Fourier, Mellin, and Hankel; applications to solutions of ordinary and partial differential equations; Wiener-Hopf

technique. *Prerequisite:* MATH 475 or MATH 520. Instruction Mode: Lecture Grading Option: Letter

MATH 577a Computational Molecular Biology Laboratory

Units: 2 Terms Offered: Sp (Enroll in BISC 577a, BISC 577b)

MATH 577b Computational Molecular Biology Laboratory

Units: 2 Terms Offered: Fa (Enroll in BISC 577a, BISC 577b)

MATH 578a Computational Molecular Biology

Units: 3 Terms Offered: FaSp Applications of the mathematical, statistical and computational sciences to data from molecular biology. Algorithms for genomic sequence data: sequence and map assembly and alignment, RNA secondary structure, protein structure, gene-finding, and tree construction. *Prerequisite:* CSCI 570. *Recommended Preparation:* familiarity with the concepts of basic molecular biology as covered in BISC 320. Instruction Mode: Lecture Grading Option: Letter

MATH 578b Computational Molecular Biology

Units: 3 Terms Offered: FaSp Applications of the mathematical, statistical and computational sciences to data from molecular biology. Statistics for genomic sequence data: DNA sequence assembly, significance of alignment scores, hidden Markov models, genetic mapping, models of sequence evolution, and microarray analysis. *Prerequisite:* MATH 505a, MATH 541a. *Recommended Preparation:* familiarity with the concepts of basic molecular biology as covered in BISC 320. Instruction Mode: Lecture Grading Option: Letter

MATH 580 Introduction to Functional Analysis

Units: 3 Basic functional analysis in Banach and Hilbert spaces. Weak topologies, linear operators, spectral theory, calculus of vector-valued functions. Banach algebras. *Prerequisite:* MATH 525a, MATH 525b. Instruction Mode: Lecture Grading Option: Letter

MATH 585 Mathematical Theory of Optimal Control

Units: 3 Terms Offered: Fa Deterministic control: calculus of variations; optimal control; Pontryagin principle; multiplier rules and abstract nonlinear programming; existence and continuity of controls; problem of Mayer; dynamic programming. *Prerequisite:* MATH 570 and MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 592 Computational Molecular Biology Internship

Units: 3 Industrial or genome-centered

internship for students in the Computational Molecular Biology master's program. Real-world experience in applications. Instruction Mode: Lecture Grading Option: Letter

MATH 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

MATH 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 595 Practicum in Teaching the Liberal Arts: Mathematics

Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester to reflect current trends and developments in the field of mathematics. Instruction Mode: Lecture Grading Option: Letter

MATH 600 Topics in Numerical Analysis

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 601 Optimization Theory and Techniques

Units: 3 Terms Offered: SpSm Necessary and sufficient conditions for existence of extrema with equality constraints; gradient methods; Ritz methods; eigenvalue problems; optimum control problems; inequality constraints; mathematical programming. *Prerequisite:* MATH 502a, MATH 502b. Instruction Mode: Lecture Grading Option: Letter

MATH 602 Galerkin Approximation Methods in Partial Differential Equations

Units: 3 Galerkin methods of approximating solutions of elliptic boundary value problems in one and several dimensions; includes the

use of spline functions and triangularizations.
Instruction Mode: Lecture Grading Option: Letter

MATH 605 Topics in Probability

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 606 Topics in Stochastic Processes

Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Theoretic and applied topics of current interest in discrete and continuous time stochastic processes and in stochastic differential equations. *Recommended Preparation:* graduate level course in probability theory or stochastic processes. Instruction Mode: Lecture Grading Option: Letter

MATH 610 Topics in Algebra

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 612 Topics in Commutative Ring Theory

Units: 3 Max Units: 12.0 Localization, structure of Noetherian rings, integral extensions, valuation theory, graded rings, characteristic functions, local algebra, dimension theory. *Prerequisite:* MATH 510a, MATH 510b. Instruction Mode: Lecture Grading Option: Letter

MATH 613 Topics in Representation Theory

Units: 3 Max Units: 12 Terms Offered: Irregular Structure and representation theory of various algebraic structures, such as groups, Lie algebras, Hopf algebras, algebraic groups, or group schemes. *Prerequisite:* MATH 510a and MATH 510b Instruction Mode: Lecture Grading Option: Letter

MATH 614 Topics in Algebraic Geometry

Units: 3 Max Units: 12 Terms Offered: Irregular Introduction to both classical and modern aspects of algebraic geometry. Topics include aspects of commutative algebra, algebraic curves, algebraic varieties and schemes, and sheaf cohomology. *Prerequisite:* (MATH 510a and MATH 510b) or (MATH 535a and MATH 540) *Recommended Preparation:* Familiarity with some ideas of commutative algebra and algebraic geometry Instruction Mode: Lecture Grading Option: Letter

MATH 620 Topics in Complex Analysis

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 625 Topics in Real Analysis

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 630 Topics in Number Theory

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 635 Topics in Differential Geometry

Units: 3 Max Units: 12.0 Topics to be chosen from the following: geometry of complex manifolds, relations between topology and curvature, homogeneous spaces, symmetric spaces, geometry of submanifolds. *Prerequisite:* MATH 535a, MATH 535b. Instruction Mode: Lecture Grading Option: Letter

MATH 641 Topics in Topology

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 647 Topics in Statistics

Units: 3 Max Units: 12 Terms Offered: Irregular Current methods, techniques, and results in statistics, data science and machine learning. Instruction Mode: Lecture Grading Option: Letter

MATH 650 Seminar in Statistical Consulting

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 655 Topics in Partial Differential Equations

Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Topics to be chosen from the following: Elliptic, Parabolic, Hyperbolic, and Dispersive PDEs, Conservation Laws, Mathematical Fluid Dynamics and Variational Methods. *Prerequisite:* MATH 525a; *Recommended Preparation:* MATH 555a. Instruction Mode: Lecture Grading Option: Letter

MATH 665 Topics in Ordinary Differential Equations

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 680 Nonlinear Functional Analysis

Units: 3 Calculus in Banach spaces, degree theory, fixed point theorems. Study of compact, monotone, accretive and nonexpansive operators. *Prerequisite:* MATH 580. Instruction Mode: Lecture Grading Option: Letter

MATH 681 Selected Topics in Functional Analysis

Units: 3 Max Units: 12.0 Course content will vary with professor and academic year offered. It will include topics of current interest in both linear and nonlinear functional analysis and their applications. Instruction Mode: Lecture Grading Option: Letter

MATH 685 Topics in Mathematical Control Theory

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 689 Topics in Mathematical Physics

Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 700 Seminar in Numerical Analysis

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 705 Seminar in Probability

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 710 Seminar in Algebra

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 725 Seminar in Analysis

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 730 Seminar in Number Theory

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 735 Seminar in Differential Geometry

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 740 Seminar in Topology

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 761 Seminar in Programming and Computability

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 765 Seminar in Ordinary Differential Equations

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 780 Seminar in Functional Analysis

Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Microbiology and Immunology

MBIO 310 Principles of Microbiology and Immunology

Units: 2 Fundamental concepts of microbiology and immunology. Bacterial, viral and fungal diseases are correlated with host responses; oral manifestations of infectious disease. Emphasis on sanitation and sterilization. Instruction Mode: Lecture Grading Option: Letter

MBIO 501 Immunology

Units: 2 Fundamentals of immunology; basic immunopathology, especially concerning the oral cavity, including immunogenetics; hypersensitivities and inflammation; autoimmune diseases. Instruction Mode: Lecture Grading Option: Letter

Medical Biophysics

MBPH 550 Seminar in Medical Biophysics

Units: 1 Max Units: 4 Terms Offered: FaSp Seminar course in which students make oral and written presentations based on original research, published journal articles, or research proposals. Instruction Mode: Lecture Grading Option: Letter

MBPH 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. Registration Restriction: Open only to Master Students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* MBPH 594a Registration Restriction: Open only to Master Students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* MBPH 594b Registration Restriction: Open only to Master Students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794a Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794b Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794d Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Multidisciplinary Activities

MDA 020 American Popular Culture

Units: 0 Terms Offered: Sm Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100a Introduction to the Health Professions

Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100b Introduction to the Health Professions

Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100c Introduction to the Health Professions

Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100d Introduction to the Health Professions

Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 101x Health Professions: Prospects and Preparation

Units: 1 Terms Offered: Sp Presentations by health professionals, introduced by faculty members from relevant academic units and followed by discussion with the speakers. *Recommended Preparation:* BISC 120 or BISC 220; CHEM 150aL. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 105g Cultural Forms and Values I

Units: 4 Terms Offered: FaSp Norms and patterns of civilizations associated with the Greco-Roman and European traditions and the legacy of those traditions in North America. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 120 American Popular Culture

Units: 3 Terms Offered: Sm Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 125Lg Scientific Principles

Units: 4 Terms Offered: FaSp Fundamental principles underlying a body of scientific knowledge and their evolution; the nature of scientific inquiry; how scientific knowledge is obtained and evaluated. A field experience or practical component required. Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 140 Practicum in Multimedia Authorship

Units: 2 Terms Offered: FaSp Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 155g Cultural Forms and Values II

Units: 4 Terms Offered: FaSp Cultural norms and patterns of civilizations associated with Africa, Asia, Latin America, the Middle East, Native America, and elsewhere, alternative to those of the Greco-Roman and European traditions. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 165g Social Inquiry

Units: 4 Terms Offered: FaSp Analyses of compelling local, national, and/or international issues; analytical tools examined systematically in a broad range of social phenomena. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

MDA 167g Marginal Groups in America

Units: 4 Terms Offered: Fa Sociological and historical analysis of marginal populations in American society, including racial and ethnic minorities, teenage mothers, drug abusers, criminals, and the mentally ill. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 170g La Frontera: The U.S.-Mexico Borderlands

Units: 4 Provides student with a multidisciplinary understanding of the U.S./Mexico border region. Topics to be covered include: space and place, internationalization, physical environment, gender relations and culture. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 175Lg Science and Technology

Units: 4 Terms Offered: FaSp The nature of science and technology, based on a focused study of a single area of research; scientific principles, their technological applications, and social significance. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 200Lg The Cutting Edge: From Basic Science to the Marketplace

Units: 4 Terms Offered: Sp An introduction to the basic sciences of physics, chemistry, biology, and geology, examining the fundamental concepts, experimental approaches, and technological applications. Course will show the interrelationships among the fields and societal ramifications of these cutting edge technologies. Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in MDA 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 205g Cities and Civilization

Units: 4 Terms Offered: FaSp Origins of cities, patterns of migration and resettlement, civic identities and the invention of public culture, from ancient Rome to contemporary Los Angeles. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 210 Contemporary Issues and Cases in Health Care

Units: 2 Terms Offered: FaSp An introduction to the major areas of health care; the provider's relationship to choices in professional practice; ethics and historical context. *Corequisite:* BISC 220Lg Duplicates Credit in MDA 100a, MDA 100b, MDA 100c, MDA 100d and former MDA 110 Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice

Units: 1, 2 Max Units: 4.0 Terms Offered: FaSpSm Students explore different understandings of work and career in American society while testing theories in an actual work setting. Instruction Mode: Lecture Grading Option: Letter

MDA 260 Opportunities in the Global Marketplace

Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSp Professional opportunities in a changing global system, preparing the successor generation for participation in the public, private, and citizen sectors of our global society. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 300 The Dornsife Toolkit

Units: 2 Max Units: 08 Terms Offered: FaSpSm An opportunity to acquire an intellectual skill in a small group setting. Registration Restriction: Open to all undergraduates, though Dornsife majors and minors will have priority during the registration period Credit Restriction: Not for major credit Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 310 Peace and Conflict Studies

Units: 4 Terms Offered: Sp (Enroll in IR 310)

MDA 320 Global Ethics: Poverty, Health and the Human Condition

Units: 4 Terms Offered: FaSp Ethical challenges and moral obligations of the public and private sectors in global development, access to healthcare, and promotion of civil, political, and economic rights. Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 325 Case Studies in Modern Leadership

Units: 2 or 4 Max Units: 6.0 Terms Offered: FaSp Study of a single leader or small set of leaders, including the strengths and weaknesses that distinguish them and the cultural forces that nurture them. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-326

MDA 330 The Armenian Heritage: History, Arts, and Culture

Units: 4 Terms Offered: FaSp A multidisciplinary exploration of the Armenian cultural heritage through the ages — folklore, traditions, religious practices, literature, architecture, painting, sculpture, music, theatre, film and dance. Instruction Mode: Lecture Grading Option: Letter

MDA 333 Colloquium in Armenian Studies: Social and Cultural Issues

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Analysis of political, social, and cultural issues by the instructor and visiting lecturers with expertise in specific areas of the Armenian Republic and Diaspora community. Instruction Mode: Lecture Grading Option: Letter

MDA 365 The Art and Adventure of Leadership

Units: 4 Terms Offered: Sp Areas of knowledge and kinds of competencies that are fundamental to the study and practice of leadership in a variety of settings. Instruction Mode: Lecture Grading Option: Letter

MDA 399a Team Research Communities

Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts. Research methodologies. Instruction Mode: Lecture Grading Option: Letter

MDA 399b Team Research Communities

Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts. Individual student and group projects contributing to the team's collaborative report. Instruction Mode: Lecture Grading Option: Letter

MDA 423 User Experience

Units: 4 Terms Offered: FaSp Introduction to the field of user experience (UX), with a specific focus on theoretical foundations,

research methodology and principles of design. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 423

MDA 450 Individual Program of Study

Units: 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 Max Units: 18.0 Terms Offered: FaSpSm An individual educational project approved by a faculty committee, combining directed research with internships, service learning, artistic or literary production, and/or other relevant educational activities. Registration Restriction: Open only to sophomore, junior or senior standing. Instruction Mode: Lecture Grading Option: Letter

MDA 460 Collaborative Learning Project

Units: 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm A project approved by a faculty committee, requiring students to collaborate on research or an original work in the literary, plastic, or performing arts. Registration Restriction: Open only to sophomore, junior or senior standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 475 The Future of California

Units: 4 Challenges facing California; options for governmental and constitutional reform; opportunities for economic growth; demographic and cultural changes; education, environment, and other policy issues. *Recommended Preparation:* junior or senior standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-475, PPD-475

MDA 476 Policy Research on California

Units: 4 Terms Offered: Sp Research and proposed solutions concerning problems, policies, structural and constitutional challenges facing California. Open only to upper-division and master's students. *Prerequisite:* MDA 475. Registration Restriction: Open only to upper division and masters students. Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Individual research, reading, writing and project development. Instruction Mode: Lecture Grading Option: Letter

MDA 494 Directed Creative Project

Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Individual research, reading, writing and project development, guided by a faculty member with expertise in the area, who may be tenure-track or nontenure-track. Instruction Mode: Lecture Grading Option: Letter

MDA 495 Interdisciplinary Honors Seminar

Units: 2, 3, 4 Max Units: 4.0 Terms Offered: Fa The first part of an eight-unit sequence intended to award academic honors in a thematic area comparable to departmental honors in a single discipline. Instruction Mode: Lecture Grading Option: Letter

MDA 496 Interdisciplinary Honors Thesis

Units: 4 Terms Offered: Sp The second part of an eight-unit sequence intended to award academic honors in a thematic area

comparable to departmental honors in a single discipline. *Prerequisite:* MDA 495. Instruction Mode: Lecture Grading Option: Letter

MDA 499 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Selected topics in Multidisciplinary Activities. Instruction Mode: Lecture Grading Option: Letter

MDA 501 Introduction to Visual Studies: Methods and Debates

Units: 4 A critical introduction to the field of visual studies focusing on interdisciplinary approaches to images, objects, and visual technologies as well as key texts and interpretive debates. Students must be enrolled in a PhD program at USC. Instruction Mode: Lecture Grading Option: Letter

MDA 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Fa The multidisciplinary, team-taught seminar addresses issues at the intersection of literary, visual, and material culture. The faculty team and specific topics studied will change each time the course is offered. Instruction Mode: Lecture Grading Option: Letter

Middle East Studies

MDES 180g The Middle East

Units: 4 Terms Offered: FaSpSm (Enroll in HIST 180)

MDES 201 The Middle East: Global and Environmental Perspectives

Units: 4 Terms Offered: FaSp Introduction to the natural and cultural diversity of the Middle East through the prism of globalization and sustainability. Instruction Mode: Lecture Grading Option: Letter

MDES 301g The Global Middle East

Units: 4 Terms Offered: FaSp Explores the modern Middle East by focusing on the process of globalization. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MDES 312 Medieval Iran: Society and Culture

Units: 4 Terms Offered: FaSp Political and dynastic history of Iran from the Arab conquest in the 7th to the 18th century. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 310

MDES 313 Modern Iran

Units: 4 Terms Offered: FaSp History and culture of modern Iran from the nineteenth century to present through historical and ethnographic approaches to Iran today, richly contextualizing events and people. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 389

MDES 314p Political Thought in the Middle East

Units: 4 Terms Offered: FaSp Major strands of Islamic political thought from early Islam through the classical Islamic period to contemporary developments and transformations. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

MDES 316p The Great Muslim Empires of the Near East and India

Units: 4 Explores the social, political, and religious forces that helped shape the Ottoman, Safavid, and the Mughal empires, their intellectual trends, and cultural dynamism. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 394

MDES 324 Classical Persian Literature in Translation

Units: 4 Terms Offered: FaSp Introduction to literary culture of premodern Persia, from about 800–1800 AD. Emphasis on poetry, the most extensive, prestigious, and influential medium of Persian literature. Instruction Mode: Lecture Grading Option: Letter

MDES 325g Politics of Film and Literature in Modern Iran

Units: 4 Terms Offered: FaSp Explores contemporary Iranian society through the study of social tensions created by poverty-wealth, tradition-modernity, masculinity-femininity, and notions of religio-political authority as reflected in the literature and films of the country. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

MDES 335 Nation and State in Modern Turkey

Units: 4 Terms Offered: FaSp An examination of nation-state building in modern Turkey through a juxtaposition of academic works from history, anthropology, sociology, political science, and literary criticism. Instruction Mode: Lecture Grading Option: Letter

MDES 340 The United States and the Middle East

Units: 4 Terms Offered: FaSp Critical perspectives on U.S. relations with the Middle East, including the discourses surrounding democracy and globalization. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 359

MDES 342g Arab Intellectuals in Question

Units: 4 Terms Offered: FaSp Surveys prominent debates in the Arab world, examining how media and intellectual production reflect, shape, and/or contest prevailing ideas and practices in the public sphere. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MDES 343g Modern Arab Culture and Literature

Units: 4 Examines contemporary Arab state-society relations using literature to illustrate how people construct meanings

and portray issues of national, social, and cultural significance. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 347

MDES 345p Power and Authority in the Middle East

Units: 4 Terms Offered: FaSp A comparative examination of social relations of power and institutions with a special focus on intellectual traditions, the law, and social movements. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 350

MDES 349gp Ancient Empires

Units: 4 Terms Offered: FaSpSm (Enroll in CLAS 349gp)

MDES 362 The International Relations of the Contemporary Middle East

Units: 4 Terms Offered: Fa (Enroll in IR 362)

MDES 363 Middle East Political Economy

Units: 4 Terms Offered: Sp (Enroll in IR 363)

MDES 378 Ptolemaic Egypt

Units: 4 Terms Offered: FaSp (Enroll in CLAS 378)

MDES 382 The Middle East, 500–1500

Units: 4 (Enroll in HIST 382)

MDES 383 The Modern Middle East

Units: 4 Terms Offered: Sp (Enroll in HIST 383)

MDES 384 Popular Culture in the Middle East

Units: 4 Terms Offered: FaSpSm (Enroll in HIST 384)

MDES 394 Archaeology of Egypt and the Near East

Units: 4 (Enroll in REL 394)

MDES 401 Environment and Politics in the Middle East

Units: 4 Terms Offered: FaSp Introduction to key environmental and political challenges facing the contemporary Middle East and North Africa (MENA). Instruction Mode: Lecture Grading Option: Letter

MDES 402 Cultural Heritage, Religion, and Politics in the Middle East

Units: 4 Terms Offered: Fa (Enroll in REL 402)

MDES 437 Arabic Autobiography: Writing and Interpreting the Self

Units: 4 Terms Offered: FaSpSm (Enroll in COLT 437)

MDES 441w Cities of the Middle East

Units: 4 An examination of the economic, political and cultural forces operating in a number of Middle Eastern cities. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 441

MDES 447 Traveling Genres: Politics/Poetics of Modern Arabic Prose

Units: 4 Terms Offered: FaSpSm (Enroll in COLT 447)

MDES 448m France and Islam

Units: 4 Terms Offered: FaSp (Enroll in FREN 448)

MDES 454 Classical Arabic

Units: 4 Max Units: 20 Terms Offered: FaSp
Introduction to reading and interpretation
of pre-modern, classical Arabic, including
literature from the 6th to 19th centuries.

Prerequisite: ARAB 252 or MDES 252
Instruction Mode: Lecture Grading Option:
Letter

MDES 461 Topics in Ancient Iranian Languages and Cultures

Units: 4 Max Units: 20 Studies and readings
in one or more pre-modern Iranian languages
and their cultural and historical contexts.
Specific topics vary; may be repeated for
credit. Instruction Mode: Lecture Grading
Option: Letter

MDES 463 Islam and Arab Nationalism

Units: 4 (Enroll in IR 463)

MDES 480 Seminar in Middle East History

Units: 4 Max Units: max 8 (Enroll in HIST
480)

MDES 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research
and readings. Instruction Mode: Lecture
Grading Option: Letter

MDES 492 Honors Thesis

Units: 4 Writing of the honors thesis; for
students in the Middle East Studies Honors
Program. Instruction Mode: Lecture Grading
Option: Letter

MDES 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered:
FaSpSm Selected topics in Middle East
studies. Instruction Mode: Lecture Grading
Option: Letter

Medical Biology**MEDB 790 Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to
the doctorate. Maximum units which may be
applied to the degree to be determined by the
department. Registration Restriction: Open
only to doctoral students. Instruction Mode:
Lecture Grading Option: Credit/No Credit

MEDB 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MEDB 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MEDB 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MEDB 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MEDB 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on
acceptance of dissertation. Instruction Mode:
Lecture Grading Option: In-progress to
Credit/No Credit

Medical Sciences (200–400)**MEDS 220 Preparation for the Clinical Experience**

Units: 2 Terms Offered: FaSpSm Discussion
and exercises in clinically relevant topics
(professional behavior, patient privacy,
medical ethics, cultural competency,
teamwork, etc.) in preparation for experience
in the clinical setting. Instruction Mode:
Lecture Grading Option: Letter

MEDS 250 Introduction to Healthcare Innovation

Units: 4 Terms Offered: FaSp (Enroll in
ACAD 260)

MEDS 260 Challenges in the Forefront of Biomedical Ethics

Units: 2 Terms Offered: Sp Examination of
fundamental ethical concepts and principles
in clinical health care and biomedical
research. Use of film, case studies and
discussion. *Recommended Preparation:*
MDA 110 or MEDS 220. Instruction Mode:
Lecture Grading Option: Letter

MEDS 261 Human Health and Technology

Units: 4 Max Units: FaSp (Enroll in ACAD
261)

MEDS 280 The History of Medicine: a Doctor's Perspective

Units: 2 Terms Offered: Fa Explores the role
of medicine/surgery in society, whose ideas
about health and disease have undergone
enormous changes from antiquity to the
present day. Instruction Mode: Lecture
Grading Option: Letter

MEDS 300g Statistical Methods for Biomedical Research

Units: 4 Terms Offered: Fa Fundamental
basis for various statistical tests, underlying
assumptions, and statistical analyses used in
biomedical and clinical research. Satisfies
New General Education in Category F:
Quantitative Reasoning Instruction Mode:
Lecture Grading Option: Letter

MEDS 315 Human Anatomy, Physiology, and the Technology of Medicine

Units: 2 Introduction to human anatomy
and physiology in relation to common
disease processes, and an examination of
how technology has transformed western
medicine throughout history. *Prerequisite:*
BISC 220Lg or BISC 221Lg Instruction
Mode: Lecture Grading Option: Letter

MEDS 320 Human Cadaveric Anatomy

Units: 4 Terms Offered: FaSp Anatomical
structure and function of the major regions
of the human body as related to health and
disease, using clinical cases, lectures and
cadaveric demonstrations. *Prerequisite:*
BISC 220 or BISC 221. Instruction Mode:
Lecture Grading Option: Letter

MEDS 330 Bionics: Solutions to Enable the Disabled

Units: 2 Terms Offered: FaSp Focused
examination of medical bionics with
emphasis on solutions that enable the

disabled and detailed discussions and
evaluations of the social and technological
aspects of bionic medical devices. Instruction
Mode: Lecture Grading Option: Letter

MEDS 335 Human Development: From Stem to Sternum

Units: 2 Terms Offered: Fa An introduction
to transformation of a single cell into a
mature organism. *Prerequisite:* BISC 220 or
BISC 221. *Recommended Preparation:* BISC
320. Instruction Mode: Lecture Grading
Option: Letter

MEDS 340 The Brain in Health and Disease

Units: 4 Terms Offered: Fa Study of the
human brain with emphasis on structure-
functional relationships, illustrative case
studies, current imaging techniques, with
illustrative laboratory exercises using
specimens and slides. *Prerequisite:* BISC
220 or BISC 221; and CHEM 103 or
CHEM 105a or CHEM 115a; *Recommended
Preparation:* MEDS 310. Instruction Mode:
Lecture Grading Option: Letter

MEDS 350 Neurochemistry of Addiction: Drugs, Brain, and Behavior

Units: 2 Terms Offered: FaSp The
neurochemistry of psychiatric illness and
addiction, introduction to brain and nervous
system biochemistry, anatomy and disease
states. Covers prescribed medications and
drugs of abuse. *Prerequisite:* (BISC 220Lg or
BISC 221Lg) and (CHEM 103Lgx or CHEM
105aLg or CHEM 115aLg) *Recommended
Preparation:* BISC 320L or BISC 330L
and MEDS 330 Instruction Mode: Lecture
Grading Option: Letter

MEDS 355 Skeletal Biology and Pathology: No Bones About It

Units: 2 Terms Offered: FaSp Overview of
the cellular make-up of the human skeleton,
the functions of bones, clinical application
of this knowledge towards bone-related
diseases, and introduction to technological
advances in orthopedic surgery. *Prerequisite:*
BISC 220Lg or BISC 221Lg Instruction
Mode: Lecture Grading Option: Letter

MEDS 360 Bench to Bedside: Application of the Basic Sciences

Units: 2 Terms Offered: Fa A theoretical
basis of laboratory approaches that help
the biomedical or physician scientist in
understanding the etiology of disease and
targeting disease processes. *Prerequisite:*
(BISC 220Lg or BISC 221Lg) and (CHEM
103Lgx or CHEM 105aLg or CHEM
115aLg) Instruction Mode: Lecture Grading
Option: Letter

MEDS 362 Analytics for Health Innovators

Units: 4 Terms Offered: FaSp (Enroll in
ACAD 362)

MEDS 370 Organ Failure: Non-Communicable Chronic Disease

Units: 2 Terms Offered: FaSp An
examination of frequently treated diseases
with the greatest impact on society.
Involvement of medical specialists as guests.
Prerequisite: BISC 220Lg or BISC 221Lg
Instruction Mode: Lecture Grading Option:
Letter

MEDS 380 Stem Cells: Fact and Fiction

Units: 2 Terms Offered: Sp Exploring how stem cells and regenerative medicine are portrayed in culture, the scientific underpinnings of what is currently possible, and visions into the future. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

MEDS 390 Special Problems

Units: 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MEDS 420 Clinical Pediatrics

Units: 2 Terms Offered: Sp Explores enduring and fascinating topics in Pediatrics through a modern lens, incorporating first hand patient-care experiences in clinics and hospitals, and didactic case-based discussions. *Prerequisite:* BISC 220Lg or BISC 221Lg and MEDS 220Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 425 Medical Examiner-Coroner: Investigating Death

Units: 2 Terms Offered: Fa Emphasizes the team-based approach used by forensic scientists, medical examiners and coroners to investigate the circumstances and determine the cause/manner of death. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220 Registration Restriction: Open only to sophomores, juniors, and seniors Instruction Mode: Lecture Grading Option: Letter

MEDS 440 Introduction to Surgical Principles

Units: 2 Terms Offered: Sp Introduction to the spectrum of surgical care, taught by surgeons, with the goal of developing an appreciation of the role that surgery plays in society. *Prerequisite:* BISC 220 or BISC 221; and CHEM 103 or CHEM 105a or CHEM 115a; and MEDS 220. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MEDS 445 Cancer: Introduction to Oncology in the Modern Era

Units: 2 Terms Offered: Fa Introduction to the spectrum of clinical and scientific issues surrounding contemporary cancer care; molecular diagnostics, genomic medicine, modern therapeutics and community/patient engagement. *Prerequisite:* (BISC 220Lg or BISC 221Lg) and MEDS 220 Instruction Mode: Lecture Grading Option: Letter

MEDS 450 OB/GYN: The Medicine and Surgery of Reproduction

Units: 2 Terms Offered: Fa An introduction to the practical realities of modern obstetric and gynecology practice from the point of view of practicing surgeon scientists at USC. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 455 Integrative Health Care

Units: 2 Terms Offered: FaSp Introduction to integrative health care; a holistic approach to medicine combining conventional medical therapies with evidence-informed complementary alternative medicine.

Recommended Preparation: HP 450, MEDS 220 Instruction Mode: Lecture Grading Option: Letter

MEDS 460 Emergency Health Care

Units: 2 Terms Offered: FaSp Principles of emergency medical services, ranging from prehospital care and advanced life-saving, to minor injuries and illnesses. Interactive experience with ER physicians/emergency health care providers. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. *Recommended Preparation:* MEDS 260. Instruction Mode: Lecture Grading Option: Letter

MEDS 463 Evidence Based Medicine for Health Innovators

Units: 2 Terms Offered: FaSp (Enroll in ACAD 463)

MEDS 464 Mining Health Data Through Machine Learning

Units: 4 Terms Offered: FaSp (Enroll in ACAD 464)

MEDS 465 Wilderness and Survival Medicine

Units: 4 Terms Offered: Sp Medical physiology principles of people under "extreme" wilderness conditions, factors affecting remote medical care, and basic survival strategies, led by Emergency Medicine physicians. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 490x Directed Research in Biomedical Science

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. *Prerequisite:* BISC 220 or BISC 221 and CHEM 103 or CHEM 105a or CHEM 115a; *Recommended Preparation:* MEDS 300, MEDS 360. Instruction Mode: Lecture Grading Option: Letter

Medical Sciences (500)**MEDS 500 Basic Concepts in Global Health**

Units: 4 Terms Offered: FaSpSm Exploration of global health issues facing resource-poor societies; emphasizes contributing factors including behavioral and physiological bases, economic, social, and political context. Instruction Mode: Lecture Grading Option: Letter

MEDS 501 Critical Issues in Global Health

Units: 4 Terms Offered: FaSpSm Evaluation of government and non-government organizations' new global health responses, and critical issues affecting global health including: environment, workforce conditions, obesity, nutrition, drugs, poverty. Instruction Mode: Lecture Grading Option: Letter

MEDS 502 Global Epidemiology of Diseases and Risk Factors

Units: 4 Terms Offered: FaSpSm Survey of major populations' crises and risk factors accounting for global health challenges. Evaluation of case studies of global health interventions and effective methodologies. Instruction Mode: Lecture Grading Option: Letter

MEDS 503L Core Principles System I

Units: 4 Terms Offered: FaSpSm Introduction to basic medical concepts and biological system functions; examination of core principles of science and medical treatment. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MEDS 504L Core Principles System II

Units: 4 Terms Offered: Fa Continuation of concepts from MEDS 503. Basic medical concepts and biological system functions; examination of core principles of science and medical treatment. *Prerequisite:* MEDS 503. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MEDS 510 Global Health Modules, Malaria

Units: 2 Terms Offered: FaSpSm Critical issues in international control and treatment of malaria. Exploration of biological and epidemiological fundamentals of human-parasite interaction, including dynamics of transmission among populations. Instruction Mode: Lecture Grading Option: Letter

MEDS 511 Global Health Modules, Tuberculosis

Units: 2 Terms Offered: FaSpSm Exploration of biological and epidemiological fundamentals of tuberculosis including dynamics of transmission among populations. Overview of clinical manifestations, diagnosis, and treatment of infections. Instruction Mode: Lecture Grading Option: Letter

MEDS 512 Global Health Modules, Maternal and Child Health I

Units: 2 Terms Offered: FaSpSm Biopsychosocial, cultural and economic aspects of women's health: pregnancy, childbirth, marriage. Examination of health promotion and policy efforts to improve women's health globally. Instruction Mode: Lecture Grading Option: Letter

MEDS 513 Global Health Modules, Maternal and Child Health II

Units: 2 Terms Offered: FaSpSm In-depth examination of women's health issues; health promotion and policy efforts to improve women's health globally. Instruction Mode: Lecture Grading Option: Letter

MEDS 514 Global Health Modules, Tropical Disease

Units: 2 Terms Offered: FaSpSm Examination of prevalent tropical diseases: epidemiology, clinical manifestations, treatment, impact on economies of tropical countries. Key issues related to these diseases; World Health Organization responses. Instruction Mode: Lecture Grading Option: Letter

MEDS 515 Global Health Modules, HIV/AIDS

Units: 2 Terms Offered: FaSpSm HIV epidemiology, basic biology of transmission and pathophysiology, associated opportunistic infections, and challenges to providing care in the developing world, including government responses. Instruction Mode: Lecture Grading Option: Letter

MEDS 516 Cultural Humility in Health and Medicine

Units: 2 Terms Offered: FaSpSm Practical approach to the development of professional skills for providing culturally sensitive clinical health services to ethnically and linguistically diverse patients. Duplicates Credit in former GM 516 Instruction Mode: Lecture Grading Option: Letter

MEDS 517 Health and Human Rights

Units: 2 Terms Offered: FaSpSm The relationship between health and human rights, and the study of human rights issues relevant to health care professionals. Instruction Mode: Lecture Grading Option: Letter

MEDS 518 Children in Emergency Situations: Global Policies and Programs

Units: 2 Terms Offered: Sp Focuses on children in emergency situations, including natural and man-made disasters, such as floods, earthquakes, conflicts, or war, with an emphasis on the poorest and most vulnerable children. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 519 Global Oral Health

Units: 2 Terms Offered: FaSpSm Better understand the key issues impacting global oral health, how better care can help reduce the disease prevalence, and ways to prepare the next generation of global health leaders to address the key issues. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 520 Medical Spanish for the Health Professions

Units: 2 Terms Offered: FaSpSm Spanish language course for students planning to enter the health professions. Registration Restriction: Open only to digital social media majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 521 Emerging and Re-emerging Infectious Diseases

Units: 2 Terms Offered: FaSpSm Exploration of the threat of major worldwide epidemics and diseases with a focus on the recent emergence of new plagues. Instruction Mode: Lecture Grading Option: Letter

MEDS 522 Human Hepatitis Viruses

Units: 2 Terms Offered: FaSpSm Human hepatitis and the viruses that cause them, how they are spread, symptoms, treatment, and prevention. Instruction Mode: Lecture Grading Option: Letter

MEDS 523 Global Toxicity and Carcinogenesis

Units: 2 Terms Offered: FaSpSm Covers the occurrences of toxic substances and the toxicity/diseases they cause, and chemical carcinogens and the types of cancer they cause worldwide. Instruction Mode: Lecture Grading Option: Letter

MEDS 524 Grantwriting for Non-Government Organizations

Units: 2 Terms Offered: FaSpSm Instruction on the process and methods of writing effective grants from identifying appropriate funders to implementing project upon receipt

of funding award. Instruction Mode: Lecture Grading Option: Letter

MEDS 525 Global Mental Health

Units: 2 Terms Offered: FaSpSm Examines the major mental health diagnoses from clinically relevant perspectives and their prevalence in specific geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 526 Alternative and Eastern Medicine: A Biomedical Approach

Units: 2 Terms Offered: FaSpSm Exploration of issues of complementary and alternative medicine (CAM) and traditional Eastern medical views of health and illness from a Western biomedical perspective. Instruction Mode: Lecture Grading Option: Letter

MEDS 527 Zoonotic Infectious Diseases

Units: 2 Terms Offered: SpSm Background information on a group of infections that are transmitted via animal contact. Understanding of the epidemiology, clinical manifestations, treatment, and impact of the diseases on the economies of the countries in which they are found. *Recommended Preparation:* MEDS 500. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 528 Global Health Modules, Sexually Transmitted Infections

Units: 2 Terms Offered: SpSm Examines clinically relevant perspectives from distinguished international authors on STI issues and the devastating effect on particular geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 529 Refugee Health Care

Units: 2 Introduction to refugee health care and life events which impact health. Discuss medical needs of long-term displaced populations with specific case studies. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 530a Foundation of Medicine: Anatomy, Physiology, and Pathology

Units: 4 Terms Offered: FaSpSm Fundamentals of physiology, chemistry, anatomy, biochemistry and microbiology, as well as pharmacological issues, mathematical basis of lab instruments or techniques, and computational modeling. Instruction Mode: Lecture Grading Option: Letter

MEDS 530b Foundation of Medicine: Anatomy, Physiology, and Pathology

Units: 4 Terms Offered: FaSpSm The basics of human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ system areas) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 530c Foundation of Medicine: Anatomy, Physiology, and Pathology

Units: 4 Terms Offered: FaSpSm Continues material from MEDS 530a and MEDS 530b, covering human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and

pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 531 The Politics of Global Health

Units: 2 Terms Offered: FaSpSm Examines the impact of politics on global health progress and declines. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 532 Non-communicable Diseases

Units: 2 Terms Offered: FaSpSm A conceptual framework for understanding global challenges faced in the management of non-communicable diseases, including heart disease, diabetes, chronic lung disease, and cancer. Instruction Mode: Lecture Grading Option: Letter

MEDS 533 Emerging Cell-based Therapeutics

Units: 2 Examination of microbial and human cells as versatile therapeutic engines, including their novel applications: autologous and allogenic immunotherapies, stem cell technologies, and human microbiome transplantations. *Recommended Preparation:* Two semesters of Introductory Biology, Cell Biology, and Genetics. Instruction Mode: Lecture Grading Option: Letter

MEDS 534 Global Biotechnology Entrepreneurship

Units: 2 Examination of the entrepreneurial process in biotechnology, including: industry overview, idea generation, business plan formulation, intellectual property protection, funding, personnel management, and regulatory body interaction. Instruction Mode: Lecture Grading Option: Letter

MEDS 535 Culture, Lifestyle, and Health

Units: 2 Terms Offered: FaSpSm Overview of national and international variations in health status indicators in regard to cultural and lifestyle differences. Instruction Mode: Lecture Grading Option: Letter

MEDS 550 Clinical Medicine and Health Care Reform in Taiwan

Units: 2 Terms Offered: Sm Two-week in-depth study abroad in Taipei, Taiwan, focused on understanding Taiwan's health care system, health priorities, and needs. Instruction Mode: Lecture Grading Option: Letter

MEDS 551 Clinical Medicine and Socioeconomic Factors in Uganda

Units: 2 Terms Offered: Sm Two-week course that provides students with hands-on experience in clinical medicine/public health and exposure to the various socioeconomic factors impacting health in the developing world. Instruction Mode: Lecture Grading Option: Letter

MEDS 552 Clinical Medicine and Health Care Reform in Jordan

Units: 2 Terms Offered: Sm A two-week, in-depth study abroad course that explores the economic, social, political, and health issues in the Middle East region and specifically Jordan. Instruction Mode: Lecture Grading Option: Letter

MEDS 553 Clinical Medicine and Health Care Challenges in India

Units: 2 Terms Offered: Sm Two-week study abroad course that explores the health dynamics and health care settings of India. Instruction Mode: Lecture Grading Option: Letter

MEDS 554 Clinical Medicine and Healthcare Delivery in Panama

Units: 2 Terms Offered: SpSm A two-week course providing students with hands-on experience in the practice of rural medicine as they gain exposure to the various socio-economic factors present in Bocas del Toro, Panama. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 510, MEDS 511, MEDS 514, MEDS 515. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 555 Clinical Medicine and Healthcare Access in Honduras

Units: 2 Terms Offered: Sm A three-week hybrid course providing students with hands-on experience in clinical medicine/public health and exposure to the various socio-economic factors impacting healthcare delivery in the developing world, specifically in Honduras. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 513, MEDS 514, MEDS 515. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 556 Global Health Field Study, New York

Units: 2 Terms Offered: Sp Two-week course providing students with a solid understanding of the United Nations' major agencies influential in global health, their mandate, their strengths and challenges. Includes field visit to selected UN organizations all located in NYC. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 557 Clinical Medicine and Healthcare Dynamics in Denmark

Units: 2 Terms Offered: SpSm Two-week course that provides a venue for careful examination and assessment of the economic, social, political, and specific health issues currently faced by countries in the European Region. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 558 Clinical Medicine and Translational Research in Argentina

Units: 2 Terms Offered: SpSm Two week in-depth course examining and assessing the economic, social, political and unique health issues faced by the Latin- American Region especially Argentina. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 559 Clinical Medicine and Healthcare Determinants in China

Units: 2 Terms Offered: SpSm A two-week intensive course abroad in Shanghai, China, focused on understanding clinical realities of Chinese medicine, health determinants and healthcare delivery. *Recommended*

Preparation: MEDS 500, MEDS 501, MEDS 515, MEDS 535. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 560 Innovating in Healthcare in Malaysia

Units: 2 Terms Offered: Sm Two-week study abroad course in Malaysia that examines the capacity of local communities to address health needs and to address health priorities with innovation. Instruction Mode: Lecture Grading Option: Letter

MEDS 561 Global Healthcare Development and Practices in Nepal

Units: 2 Terms Offered: Sm Two-week course providing a multi-faceted understanding of the delivery of essential services to underserved populations, particularly women and children, in the challenging Nepalese healthcare landscape. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 513, MEDS 518. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 562 Healthcare in Thailand

Units: 2 Terms Offered: Sm Two-week course that provides students opportunities to analyze and gain exposure to public health and health systems infrastructure in Thailand. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 515, MEDS 535. Instruction Mode: Lecture Grading Option: Letter

MEDS 563 Global Healthcare Development and Social Justice in Italy

Units: 2 Terms Offered: Sm A two-week course analyzing global healthcare access and delivery through the lens of development economics, social justice, health advocacy, and Italian medical history and research. Instruction Mode: Lecture Grading Option: Letter

MEDS 564 Health Behavior and Healthcare in Germany

Units: 2 Terms Offered: Sm Two-week course that exposes students to public health and health systems infrastructure in Germany and Switzerland, including analysis of health behaviors. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 515, MEDS 535. Instruction Mode: Lecture Grading Option: Letter

MEDS 566 Healthcare in Fiji

Units: 2 Two-week study abroad course in Fiji that examines the public health and healthcare systems of Fiji and its neighbors. *Recommended Preparation:* MEDS 500 and MEDS 501 and MEDS 515 and MEDS 535. Instruction Mode: Lecture Grading Option: Letter

MEDS 567 Global Nutrition

Units: 2 A systematic survey of basic and clinical nutrition that provides an overview of critical public health-nutrition issues in both the developing world and industrial society. *Recommended Preparation:* general chemistry, biological chemistry, and/or physiology Instruction Mode: Lecture Grading Option: Letter

MEDS 568 Global Issues: Aging

Units: 2 Terms Offered: FaSpSm Examination of medical issues in aging through a nation-specific survey of how various countries treat the elderly in health policy and healthcare. Instruction Mode: Lecture Grading Option: Letter

MEDS 569 Interdisciplinary Medical Literature Evaluation

Units: 2 Terms Offered: FaSpSm Focus on the importance of evidence-based practice in healthcare. Development of critical thinking and analysis of scientific literature to enable the identification and appropriate implementation of medical, cultural, and ethical interventions in healthcare, particularly through interdisciplinary collaboration. Instruction Mode: Lecture Grading Option: Letter

MEDS 570 Introduction to Narrative Medicine

Units: 2 Terms Offered: FaSpSm Introduction to the field of narrative medicine. Examination of theoretical and literary texts and the practice of narrative and reflective writing to enhance narrative competency and gain an understanding of the role of narrative in people's experiences with illness. Instruction Mode: Lecture Grading Option: Letter

MEDS 571 Primary, Emergency, and Cancer Care in Urban Tanzania

Units: 2 Terms Offered: FaSpSm Two-week study abroad course investigating the spectrum of healthcare, from basic primary care, through acute care, to specialty services, in urban Tanzania. Instruction Mode: Lecture Grading Option: Letter

MEDS 572 Medicine in Film, Television, and the Media

Units: 2 Terms Offered: Sm Introduction to the role that film, television, and the media play in shaping public perceptions of health, including strategies to reach populations with medical insight in non-traditional ways. Instruction Mode: Lecture Grading Option: Letter

MEDS 573 Global Health**Entrepreneurship - Ideas into Innovations**

Units: 2 Terms Offered: Sm Fundamentals of entrepreneurship applied to global health issues and programming including: idea conception, marketing, global health ethics, and other components related to business start-ups. Instruction Mode: Lecture Grading Option: Letter

MEDS 574 Rural Health in South Africa

Units: 2 Terms Offered: FaSpSm Two-week study abroad course exploring the complexities of the delivery of health care in rural South Africa. Instruction Mode: Lecture Grading Option: Letter

MEDS 575 Introduction to Healthcare in Resource-Limited Settings

Units: 2 Terms Offered: FaSpSm Introduction to tactics, tools, and directives commonly used in global health crises and resource-poor settings with an emphasis on strategic thinking and planning to enable situation-specific solutions to be implemented. *Recommended Preparation:*

MEDS 500 or MEDS 501 Instruction Mode: Lecture Grading Option: Letter

MEDS 576 Maternal and Child Health in South Africa

Units: 2 Terms Offered: FaSpSm
Examination of country-specific factors affecting pregnancy, pre-natal care, and childbirth in South Africa, with analysis of factors contributing to health inequality and methods to mitigate healthcare challenges. Instruction Mode: Lecture Grading Option: Letter

MEDS 577 Global Palliative Care

Units: 2 Terms Offered: FaSpSm Exploration of the provision of palliative care and analysis of factors affecting the increased burden of palliative care provision facing developing regions of the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 578 International Travel and Illness Prevention

Units: 2 Terms Offered: FaSpSm Instruction in the prevention, identification, and treatment of common illnesses encountered in international travel. Includes instruction in basic health screening procedures and screening tool usage. Instruction Mode: Lecture Grading Option: Letter

MEDS 579 Healthcare Challenges and Dynamics in Japan

Units: 2 Terms Offered: FaSpSm Two-week study abroad course exploring the health care system and accompanying care provision in Japan. Instruction Mode: Lecture Grading Option: Letter

MEDS 580 Interprofessional Team Dynamics in Healthcare

Units: 4 Terms Offered: FaSpSm Examination of typical composition and function of interprofessional healthcare teams. Exploration of roles of team members and purview of care issues and common challenges, including medication management, inpatient/outpatient decision making, and care plan implementation. Instruction Mode: Lecture Grading Option: Letter

MEDS 581 Case Studies in Interprofessional Healthcare

Units: 4 Terms Offered: FaSpSm Survey of the specific roles each member of an interprofessional health team plays in the provision of care, based on their professional training. Application of diverse health professional expertise to case studies in healthcare. Instruction Mode: Lecture Grading Option: Letter

MEDS 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 597a Health Technology Internship

Units: 1 Terms Offered: FaSpSm Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. Registration Restriction: Open only to MS Electrical

Engineering (Wireless Health Technology) students Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 597b Health Technology Internship

Units: 1 Terms Offered: FaSpSm Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. Continues material from GM 597a. Registration Restriction: Only open to M.S., Electrical Engineering (Wireless Health Technology) students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Lecture and discussion focused on specific topics within global medicine. Course topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Molecular Microbiology and Immunology

MICB 500L Introductory Medical Microbiology

Units: 4 Terms Offered: Irregular A survey of microorganisms which cause human infectious diseases including mechanisms of pathogenesis, principles of antibiotic usage, pertinent microbial genetics; lectures, laboratories and demonstrations. *Prerequisite:* one year general biology, one semester biochemistry. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MICB 501 Introduction to Immunology

Units: 1 Terms Offered: Irregular Basic introduction into molecular, cellular, and clinical immunology for second year medical students and graduate students in Microbiology. Duplicates Credit in BISC 450. Instruction Mode: Lecture Grading Option: Letter

MICB 502 Molecular and Cellular Immunology

Units: 2 Max Units: 8.0 Terms Offered: Fa Specific topics to be scheduled on a yearly and rotating basis. *Prerequisite:* MICB 501. Instruction Mode: Lecture Grading Option: Letter

MICB 503 Current Topics in Immunology

Units: 1 Max Units: 8.0 Terms Offered: Irregular Discussion forum on the diverse areas of research which constitute modern immunology. *Prerequisite:* MICB 501. Instruction Mode: Lecture Grading Option: Letter

MICB 504 Molecular Biology of Cancer

Units: 4 Terms Offered: Sp (Enroll in INTD 504)

MICB 522 Infection and Host Responses

Units: 4 Terms Offered: Sp (Enroll in INTD 522)

MICB 531 Cell Biology

Units: 4 (Enroll in INTD 531)

MICB 542 Animal Virology

Units: 2 Max Units: 6.0 Terms Offered: Irregular Virus structure and chemistry; virus-cell interactions; aspects of virus genetics; molecular biology; pathogenesis, immunology, and evolution of viral

infections. Instruction Mode: Lecture Grading Option: Letter

MICB 549 Student Seminar Series

Units: 1 Max Units: 8.0 Terms Offered: FaSp Microbiology students will present research seminars describing their thesis progress. Instruction Mode: Lecture Grading Option: Letter

MICB 550 Microbial Pathogenesis

Units: 2 Terms Offered: Irregular Critical discussion of recent developments in pathogenesis of select microbial, viral and parasitic agents with particular emphasis on molecular factors and their synergistic (antagonistic) actions. Instruction Mode: Lecture Grading Option: Letter

MICB 551 Prokaryotic Molecular Genetics

Units: 4 Terms Offered: Sp Macromolecular processes and their regulation in prokaryotes; DNA replication, transcription, and post-transcriptional events in general and as related to operons, phage biology, and eukaryotic organelles. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-551

MICB 560 Recent Advances in Microbiology

Units: 1 Max Units: 6.0 Terms Offered: Irregular Intensive examination of selected topics in microbiology. Student presentations and critiques. Required for all graduate students. Instruction Mode: Lecture Grading Option: Letter

MICB 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

MICB 570 Microbiology Research Seminar

Units: 1 Max Units: 10.0 Terms Offered: FaSpSm Critical discussion of current research topics. Students present published and unpublished research results for discussion and critique. *Prerequisite:* current enrollment in Microbiology PhD program. Instruction Mode: Lecture Grading Option: Letter

MICB 571 Biochemistry

Units: 4 Terms Offered: Fa (Enroll in INTD 571)

MICB 572 Medical Physiology I

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MICB 573 Systems Physiology and Disease II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MICB 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Marketing**MKT 385x Marketing of Creative Disruption and Innovation**

Units: 4 Terms Offered: Fa Learn to use fundamental principles of marketing, branding, and consumer behavior to successfully market disruptively innovative products including goods, services, and ideas. Duplicates Credit in BUAD 307. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-385

MKT 402 Research Skills for Marketing Insights

Units: 4 Terms Offered: FaSp Creating and interpreting qualitative and quantitative

research to gain insight into marketplace challenges, such as testing advertising, identifying new product opportunities, and understanding customer decisions. Duplicates Credit in former MKT 470 Instruction Mode: Lecture Grading Option: Letter

MKT 405 Advertising and Promotion Management

Units: 4 Terms Offered: FaSpSm Role of advertising in the marketing mix: determining objectives, strategies, and plans from situation analysis through research and creative processes, media selection, and sales promotion. *Prerequisite:* BUAD 307 or COMM 200 or COMM 302 or MKT 385x or PR 340 Instruction Mode: Lecture Grading Option: Letter

MKT 406 Practicum in Advertising and Promotion Design

Units: 4.0 Terms Offered: Sp Provides real-life marketing experience as a member of a student managed marketing/advertising/promotions agency. Work with a client organization on the design of an advertising/promotions campaign. Requires market research, creative design, implementation planning, and client presentation. *Prerequisite:* MKT 405 Instruction Mode: Lecture Grading Option: Letter

MKT 410 Professional Selling

Units: 4 Terms Offered: FaSp Learn the principles of business to business selling and its function in marketing strategy and the marketing mix; explore professional selling as a career option. *Prerequisite:* BUAD 307 or MKT 385. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MKT 415 Sales Force Management

Units: 4 Terms Offered: FaSp Studies the role of managing the selling function as part of the marketing mix: planning, implementing, and controlling sales force operations; critical issues in selecting, training, compensating and supervising salespeople. Instruction Mode: Lecture Grading Option: Letter

MKT 425 Marketing in a Digital World

Units: 4 Terms Offered: FaSp An introduction to the changing world of a connected consumer. Understanding consumer online, social media and mobile behavior using marketing analytics and strategic tools. *Prerequisite:* BUAD 307 or MKT 385x Registration Restriction: Open only to sophomore, junior and senior students Instruction Mode: Lecture Grading Option: Letter

MKT 430 Retail Management

Units: 4 Terms Offered: Fa Introduction to the functions of retail management including location, buying, merchandise management, layout, pricing, and promotion; application of concepts to various retail institutions. Instruction Mode: Lecture Grading Option: Letter

MKT 440 Marketing Analysis and Strategy

Units: 4 Terms Offered: FaSp Synthesis of concepts and applications relating

to the analysis of market opportunities and the development of product, promotion, distribution, pricing strategies. Recommended during student's final semesters. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 445 New Product Development and Branding

Units: 4 Terms Offered: FaSp This class examines how new product ideas are developed, test marketed, and, ultimately, brought to the marketplace. Issues about why new products fail and how brand images are managed in the marketplace are discussed. Legal aspects of brand management such as trademark protection and infringement are also addressed. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 446L Practicum in New Product Development

Units: 4 Terms Offered: Sp Provides experience in a student managed product team. Work with R&D organization to design a new product or technology. Involves market research and implementation planning. *Prerequisite:* MKT 445. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MKT 450 Consumer Behavior and Marketing

Units: 4 Terms Offered: FaSp Examines the relationship of consumer behavior to acquisition, usage, and disposition of products and the psychological, social and cultural influences that affect these decisions. Instruction Mode: Lecture Grading Option: Letter

MKT 461 Marketing Blockbuster Entertainment

Units: 4 Terms Offered: FaSp Examines the business of creating, marketing and managing massive entertainment franchises in movies and television with reference to video games and toys. Instruction Mode: Lecture Grading Option: Letter

MKT 463 Pricing Strategies

Units: 4 Examination of role of pricing decisions; innovative pricing theories; Internet and technology impact on pricing, price negotiations, customized pricing, price image and reference prices. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 465 Global Marketing Management

Units: 4 Terms Offered: FaSp Product and service mix in multinational business; promotional alternatives; channel of distribution systems; pricing policies and legal barriers; multinational marketing opportunities; problems and information sources. Instruction Mode: Lecture Grading Option: Letter

MKT 499 Special Topics

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of Marketing; topics to be selected each semester. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 512 Customer Insights and Analysis

Units: 3 Terms Offered: FaSp Use of marketing research techniques and technologies such as databases and statistical tools to collect, analyze and act upon customer information. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 525 Consumer Behavior

Units: 3 Terms Offered: FaSpSm Theories and applications of consumer behavior in marketing; psychological, social, cultural and ethnic factors influencing consumer behavior. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 526 Advertising and Social Media Strategy

Units: 3 Terms Offered: FaSp Helps students understand advertising and social media; critique, develop, and test creative ads; place ads in media; and design, budget, and evaluate profitability of strategies. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 528 Sales Management: The Art and Science of Sales

Units: 3 Terms Offered: FaSp Emphasis on creating a sales strategy, planning and delivery of sales presentations, and techniques to persuade people to change their opinions in face-to-face meetings. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 530 New Product Development

Units: 3 Terms Offered: FaSpSm Systematic approach to product development and management; processes, techniques, and concepts firms use to develop, test, and introduce products and to manage products over their lifecycle. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 531 Services Marketing Strategy

Units: 3 Analysis and development of sound marketing strategies and an integrated service management plan for service organizations. Examination of best practices among leading service providers. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 533 Branding Strategy

Units: 1.5, 3 Terms Offered: FaSpSm Comprehensive treatment of the behavioral foundations of brands and brand development. Exploration of alternative branding strategies and marketing tools for brand development. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 534 Retail Strategy

Units: 3 Terms Offered: FaSp Frameworks for analysis of retail strategy and functions of a retail firm, including buying, merchandise management, pricing, promotion, and visual merchandising; application of concepts through case studies and student projects.

Prerequisite: GSBA 509 or GSBA 528

Instruction Mode: Lecture Grading Option: Letter

MKT 535 Business-to-Business Marketing Management

Units: 1.5, 3 Terms Offered: FaSp Business-to-business marketing strategies (as opposed to consumer targeted marketing) including product management, pricing, market sizing, and other issues of importance for professional marketers. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 536 Pricing Strategies

Units: 3 Terms Offered: Fa Introduction to the fundamentals of pricing and pricing strategy. Develop a conceptual framework and a set of analytical tools used to make sound pricing decisions. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 543 Market Demand and Sales Forecasting

Units: 3 Terms Offered: FaSp New product concept testing and life cycle forecasting, pricing and advertising response forecasting, consumer purchase intentions, judgmental marketing decision models, time series and regression analysis, computer methods. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 546 Digital Marketing

Units: 1 Terms Offered: Sp Marketing of products or services using digital technologies, mainly on the Internet, but also including mobile phones, display advertising, and any other digital media. *Prerequisite:* GSBA 509 or GSBA 528 or GSBA 546 Registration Restriction: Open only to master students Duplicates Credit in MKT 556 Instruction Mode: Lecture Grading Option: Letter

MKT 555 Marketing Channels

Units: 1.5, 3 Terms Offered: Sp Examination of strategic decision making in marketing channels. Intensity of distribution, vertical integration, how roles are formulated, types of intermediaries, and multiple channels of distribution. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 556 Internet Marketing

Units: 3 Terms Offered: FaSp All aspects of Internet marketing. Internet as a tool for marketing communication, sales and distribution, customer management. Role of paid advertising, search engines, Website design. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 560 Marketing Strategy

Units: 3 Terms Offered: FaSpSm Design and implementation of marketing strategies applied to domestic and global business challenges that span multiple industries complimented by a consumer packaged goods marketing strategic plan project. *Prerequisite:* GSBA 509 or GSBA 528 and

the former GSBA 509a Instruction Mode:

Lecture Grading Option: Letter

MKT 565 Global Marketing

Units: 3 Terms Offered: FaSp Variations in markets and trade patterns around the globe; product development and adaptation, pricing, promotion, and distribution issues across national cultures and international markets.

Prerequisite: GSBA 509 or GSBA 529 Instruction Mode: Lecture Grading Option: Letter

MKT 566 Marketing Analytics

Units: 3 Terms Offered: FaSp Applications and models of marketing-related data analyses to the development of data-driven marketing strategies and making data-driven marketing decisions. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in former DSO 566 Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSO 566

MKT 580 Fostering Creativity

Units: 1.5, 3 Terms Offered: Sp An exploration of skills and practices (e.g., getting out of one's comfort zone, discovering one's inner-critic) necessary to develop and cultivate one's personal creativity. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 585 Marketing Radical Innovation

Units: 3 Terms Offered: Fa Study and application of new technology to create new business models, products, and services in world economies. Group projects focused on practical applications of concepts. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 586 Fashion, Luxury and Lifestyle Marketing

Units: 3.0 Terms Offered: FaSp Examination of marketing issues and challenges within a variety of business settings in the fashion, luxury goods and lifestyle sectors in the global marketplace. *Prerequisite:* GSBA 509 or GSBA 528 or the former GSBA 509a Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MKT 589 CMO on Shareholder Value

Units: 1.5 Terms Offered: Fa Provide an understanding of the role of the Chief Marketing Officer (CMO) in a variety of industries and how he or she influences shareholder value. *Prerequisite:* GSBA 509 or GSBA 509A or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 592 Field Research in Marketing

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12 Terms Offered: FaSpSm

Individual or team projects studying the marketing practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Graded CR/NC. *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 593 Independent Research in Marketing

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 595 Internship in Marketing

Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the field of marketing. (Curricular Practical Training.) Graded CR/NC. *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to master accounting and business students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 596 Research Practicum in Marketing

Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Marketing Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 597 Consulting Project in Marketing

Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Graded CR/NC *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 598 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Current trends, recent developments, and emerging topics in marketing. Graded CR/NC. *Prerequisite:* GSBA 509 or GSBA 528 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 599 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 9 Terms Offered: FaSpSm Examination of current literature and emerging and timely topics in marketing, social marketing, consumerism, macromarketing, marketing of individuals, organizations, and ideas. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 613 Marketing Models in Consumer and Business-to-Business Markets

Units: 3 Terms Offered: Fa Modeling research on marketing with a focus on channel structure, franchising and sales force compensation, innovation and diffusion, inter-store composition, sales promotions, and market segmentation. Duplicates Credit in former MKT 605 and former MKT 613a. Instruction Mode: Lecture Grading Option: Letter

MKT 614 Advanced Research Methods in Marketing

Units: 3 Terms Offered: Sp Applications of advanced research techniques and designs to marketing problems; review and critique of current literature; development and defense of student's own research proposal. Duplicates Credit in former MKT 661. Instruction Mode: Lecture Grading Option: Letter

MKT 615 Strategic and Marketing Mix Models

Units: 3 Terms Offered: Sp Modeling research on marketing with a focus on discrete choice models, consideration set models, purchase timing models, accounting for consumer heterogeneity, Bayesian models, dynamic models of consumer choice, market entry effects, product quality, advertising and carry over effects, price, and promotion. Duplicates Credit in former MKT 605 and former MKT 613b. Instruction Mode: Lecture Grading Option: Letter

MKT 616 Consumer Behavior Theory and Research

Units: 3 Terms Offered: FaSp Behavioral research and theory on consumer behavior with a focus on emotions, categorization, knowledge, inferences, attitudes, social influences and environmental influences on buying and consumption. Registration Restriction: Open only to doctoral students Duplicates Credit in former MKT 602 and former MKT 612a Instruction Mode: Lecture Grading Option: Letter

MKT 618 Consumer Behavior and Decision Making

Units: 3 A foundation in judgment, decision-making, and choice aspects of consumer behavior and business. Topics include heuristics and biases, information acquisition, time perception, and inter-temporal choice. Instruction Mode: Lecture Grading Option: Letter

MKT 620 Advanced Quantitative Models in Marketing

Units: 3 Terms Offered: FaSp Techniques for building and analyzing advanced quantitative analytical models. Develop and estimate various state-of-the-art models of consumer choice and firm decisions. Registration Restriction: Open only to Doctoral students. Instruction Mode: Lecture Grading Option: Letter

MKT 621 Research Forum

Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Marketing. Presentations by faculty, visiting researchers, and advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 699 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary marketing. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

Management and Organization

MOR 252 The Art of Case Analysis and Presentation

Units: 2 Terms Offered: FaSp (Enroll in BUCO 252)

MOR 331x Influence and Collaboration

Units: 2 Terms Offered: FaSp Issues involved in establishing working relationships, directing the work of others, delegating, enrolling others in one's vision and direction. Collaborative and team behavior. Conflict management. Duplicates Credit in MOR 431. Not for credit toward business majors or minors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-331

MOR 385gm Business, Government and Society

Units: 4 Terms Offered: Sp Explores business-government-society interaction. Examines how diverse interests and identities (social class, race, nationality and gender) affect the conduct and organization of business. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MOR 421 Social and Ethical Issues in Business

Units: 4 Terms Offered: Sp The free-enterprise system examined from the perspective of modern corporations and their critics; business ethics in relation to personal/external values. *Prerequisite:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 431 Interpersonal Competence and Development

Units: 4 Terms Offered: Sp An exploration of the nature of relationships at work; focus on analytical skills and self-assertion necessary to have effective, rewarding relationships. Duplicates Credit in MOR 331x Instruction Mode: Lecture Grading Option: Letter

MOR 451 Mastering Decision Making

Units: 4 Terms Offered: Fa Understand the nature, causes, and consequences of deviations from rational choice. Develop frameworks for controlling biases, improving your decision-making, and influencing other people's decisions. Instruction Mode: Lecture Grading Option: Letter

MOR 461 Design of Effective Organizations

Units: 4 Terms Offered: Fa Designing management systems and practices that lead to organizational excellence; techniques for organizational change. Instruction Mode: Lecture Grading Option: Letter

MOR 462 Management Consulting

Units: 4 Terms Offered: FaSp Role of professional consultants; data gathering methods; consulting approaches from strategy, finance, operations, information systems, marketing, and human resources;

action planning; ethical and career issues.
Recommended Preparation: BUAD 304.
 Instruction Mode: Lecture Grading Option: Letter

MOR 463 Organization Change and Development

Units: 4 Terms Offered: Sp Theories and methods of introducing change in organizations. Techniques for analyzing organizations, developing change programs, and implementing changes. Ethical and career issues of change management.
Recommended Preparation: BUAD 304.
 Instruction Mode: Lecture Grading Option: Letter

MOR 465 Dynamic Strategies for the Business Lifecycle

Units: 4 Terms Offered: Sp Theories and methods for analyzing and developing strategy. Fundamental tools for strategic planning. Advanced methods for analyzing industries and competitors, and determining the scope of the firm. Instruction Mode: Lecture Grading Option: Letter

MOR 466 Business and Environmental Sustainability

Units: 4 Terms Offered: Sp Focuses on how businesses both contribute to and can help address environmental sustainability challenges and the role of the broader political-economy in shaping that interaction. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 466

MOR 467 Strategic Management of Innovation

Units: 4 Terms Offered: Sp How firms in different industries manage strategic innovation for competitive advantage. Analysis of industry dynamics. Crafting and implementing innovation strategy. Registration Restriction: Open only sophomores, juniors and seniors Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 467

MOR 468 Cross-Cultural Negotiations: Communication and Strategy

Units: 4 (Enroll in COMM 468)

MOR 469 Negotiation and Persuasion

Units: 4 Terms Offered: FaSp Theories, strategies, and ethics underlying negotiation and persuasion in contemporary organizations and societies. Emphasizes the knowledge and skills needed for effective negotiation and persuasion. Instruction Mode: Lecture Grading Option: Letter

MOR 470 Global Leadership

Units: 4 Terms Offered: Fa Major theories and practices of leading people in multinational firms. Skills for facilitating cooperation, communication, and motivation among people from different cultures.
Recommended Preparation: BUAD 304.
 Instruction Mode: Lecture Grading Option: Letter

MOR 471 Managing and Developing People

Units: 4 Terms Offered: Fa Management of the human resource function for organizational performance. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 472 Power, Politics and Influence

Units: 4 Terms Offered: FaSp Theories and practices about how power, politics and influence affect organizational life. Knowledge and skills for diagnosing and managing these features of an organization. Instruction Mode: Lecture Grading Option: Letter

MOR 473 Designing and Leading Teams

Units: 4 Terms Offered: Sp Theories and practices for developing and leading teams. Skills for creating team structures and facilitating team processes. Knowledge for diagnosing team problems and devising solutions. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 475 The Art of Leadership - Self Discovery

Units: 1 Terms Offered: FaSp Introductory leadership. Self-examination of personal leadership styles using survey tools, comparative models and in-class exercises. Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476a Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 476 The Art of Leadership - Leading on a Global Stage

Units: 1 Terms Offered: Sp Study of leaders and applied theory to gain an understanding of what is involved in taking public leadership roles on a global level. Open only to students in the USC Warren Bennis Scholars Program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476b Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 477 The Art of Leadership - Change Leadership

Units: 1 Terms Offered: Fa Examination of practical challenges facing every leader through a series of in-class discussions and field trips to meet recognized leaders in the social impact sphere. Open only to students in the USC Warren Bennis Scholars Program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476c Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 478 The Art of Leadership - Practical Leadership

Units: 1 Terms Offered: Sp Application of leadership skills using goal-setting, self-knowledge and execution opportunities. Open only to students in the USC Warren Bennis Scholars program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476d Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 479 The Business of Sports

Units: 4 Terms Offered: Sp Addresses the business side of the sports industry; examines professional sports franchises,

amateur athletics, and collegiate sports and how they relate to corporate America, the media, and the public sector. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 492 Global Strategy

Units: 4 Terms Offered: FaSp Examination of corporate strategy practices in an international context. Effects of cultures, political systems, markets, and economic systems on developing effective global strategies. Instruction Mode: Lecture Grading Option: Letter

MOR 495 International Management and Internship

Units: 2, 3, 4 International internship. Develop general/cross-cultural knowledge and management skills, gain an understanding of cross-cultural issues, and develop insights working in international businesses. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in organizational behavior, business strategy and organizational theory. Instruction Mode: Lecture Grading Option: Letter

MOR 542 Strategic Issues for Global Business

Units: 3 Terms Offered: Fa Globalization strategies from entry to maturity; alternative approaches from going alone to alliances; strategy implementation issues in different cultures and political systems. Cases, videos and speakers. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 543 Leading with Mindfulness and Compassion

Units: 1.5 Terms Offered: Sp Explores mindfulness (non-judgmental awareness), compassion and their relationship to leadership. Focus is on clarity in productivity using evidence-based cases and direct practice. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 545 Corporate Governance and Board Leadership

Units: 1.5, 3 Terms Offered: Fa Corporate Governance is the system by which corporations are directed and controlled. Includes rights and responsibilities of stakeholders; rules and procedures for decision-making. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 547 Mergers and Acquisitions: Integration and Organization

Units: 1.5 Terms Offered: Sp Organize successful mergers and acquisitions with focus on managing and synthesizing the integration process and impact on people and organizations across functions. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 548 Competitive Advantage Through People

Units: 3 Terms Offered: Sp How firms develop employee talent as a source of competitive advantage. Strategic implications of contemporary practices in recruitment, work systems, training, compensation, and employee relations. Speakers and cases. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 551 Human Capital Performance and Motivation

Units: 3 Terms Offered: Sp Frameworks for enhancing human capital performance motivation at work, including pay/incentive systems, job design, employee involvement, leadership behavior and self-managed teams. Cases, project and speakers. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 554 Leading Innovation and Change

Units: 3 Terms Offered: FaSm Practical knowledge on helping organizations develop innovations and lead change to leverage them. Exploration of innovation and change in different organizations and competitive environments. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 555 Designing High Performance Organizations

Units: 3 Terms Offered: Sp Theory and practice of organization design. How to maximize organization performance by aligning structure, rewards, staffing, processes, and culture with strategy and environment. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 557 Strategy and Organization Consulting

Units: 3 Terms Offered: FaSp How consultants assist clients to formulate strategic plans and realign organizations; approaches used by major consulting firms; information about consulting industry, fee-setting and proposals. Consultant speakers and project. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 559 Strategic Renewal and Transformation

Units: 3 Terms Offered: Fa Dynamic strategic planning; how businesses re-invent themselves; why change is difficult; politics of change process; leadership steps for implementing successful strategic changes. Cases and readings. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 560 Managerial Judgment and Decision-Making

Units: 3 Terms Offered: Sm Development of skills and insight into making effective

strategic, financial, and management decisions including awareness of hazards of decisions, issues of rationality, and risk taking. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 561 Strategies in High-Tech Businesses

Units: 3 Terms Offered: Fa How high-tech companies achieve competitive advantage through leveraging technical, management and financial resources. Technology trends and industry evolution. Focus on electronics and bio-technology. Cases and speakers. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 562 Strategic Choice and Valuation Analysis

Units: 3 Terms Offered: Fa Advanced strategic planning using tools of scenario development and activity valuation for assessing market entry, expansion and business portfolio configuration. Exercises, cases and project. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 563 Advanced Strategy: Competing in Dynamic Environments

Units: 3 Terms Offered: Fa Dynamics of competition, dealing with industry transformations, managing alliances and acquisitions and a variety of other strategic situations. Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in MOR 565. Instruction Mode: Lecture Grading Option: Letter

MOR 564 Strategic Innovation: Creating New Markets

Units: 3 Terms Offered: Sp How firms in rapidly changing global environments innovate to develop new markets, products and services, delivery systems and organizational processes and competencies. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 565 Alliances and Cooperative Strategy

Units: 3 Terms Offered: Fa Essential issues and problems of cooperative strategy. Recognize and evaluate collaborative opportunities to develop and assess an overall cooperative strategy. Readings, cases and group project. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in MOR 563. Instruction Mode: Lecture Grading Option: Letter

MOR 566 Environmental Sustainability and Competitive Advantage

Units: 1.5, 3 Terms Offered: Sp How business is changing in order to respond to environmental sustainability challenges — adapting strategy, product design, operations, marketing, and accounting. Cases and speakers. Registration Restriction: Online

registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 567 Interpersonal Influence and Power

Units: 3 Terms Offered: Fa Legitimate and effective use of power to resolve conflicts and mobilize action through understanding the talent and self-interest of people involved in decision-making. Readings, cases. Registration Restriction: Online registration open only to graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

MOR 568 Power and Politics in Organizations

Units: 3 Terms Offered: Sp Explores current theories of power, politics and leadership within the organizational dynamic. Individual bases of power will be related to assessments of motives and skills. *Recommended Preparation:* (GSBA 522a and GSBA 522b) or GSBA 532 or GSBA 533 or GSBA 543. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 569 Negotiation and Deal-Making

Units: 3 Terms Offered: FaSpSm Strategies and dynamics of deal-making; practical skills necessary to win in a range of business transactions conducted in domestic and international settings. Cases, role-playing, films and simulations. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 570 Leading Effective Teams

Units: 3 Terms Offered: Sm Analytical and behavioral tools that will enable students to effectively diagnose complex work group dynamics and take action to improve group performance. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 571 Leadership and Executive Development

Units: 3 Terms Offered: FaSp Contemporary approaches to leadership, including corporate practices to develop leaders; examples of successful and derailed executives. Students self-assess personal leadership and draft development plans. Readings, speakers, cases. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 572 Leadership and Self-Management

Units: 3 Terms Offered: Fa Successful leaders are effective at self-managing their thoughts, emotions and actions. Concepts and methods for developing essential self-management skills. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 573 Corporate Environmental and Social Issues

Units: 3 Terms Offered: Irregular Exploration

of competing perspectives on business's role vis-a-vis investors, government, environment, customers, suppliers, employees, unions, NGOs, etc. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 579 The Business of Sports Entertainment

Units: 3 Terms Offered: FaSp Business practices and issues in different sports markets including growth opportunities and innovative marketing strategies for attracting and retaining fans and corporate sponsors. Industry speakers. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 588 Corporate Strategy and Competitive Dynamics

Units: 1.5, 3 Terms Offered: Sp Central challenges facing executives in multi-business firms; toolkit for analyzing and executing strategic and operational aspects of corporate advantage, M&As and competitive dynamics. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 592 Field Research in Management and Organization

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. *Recommended Preparation:* completion of required MBA, MAcc, or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 593 Independent Research in Management and Organization

Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 595 Internship in Management and Organization

Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) *Recommended Preparation:* completion of required MBA, MAcc, or MBT course work Registration Restriction: Open only to master students in Accounting and Business

Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 596 Research Practicum in Management and Organization

Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Management and Organization Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 597 Consulting Project in Management and Organization

Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 598 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 599 Special Topics

Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 601 Seminar in Organizational Behavior

Units: 3 Terms Offered: Fa In-depth review of the theories and empirical research in the discipline of organizational behavior. Topics include: personality, motivation, job design, leadership, and others. Instruction Mode: Lecture Grading Option: Letter

MOR 602 Seminar in Organization Theory

Units: 3 Terms Offered: Fa Survey of organization theory with focus on the history and development of research on organizations. Registration Restriction: Open only to Business Administration and Public Policy and Management doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 603 Seminar in Strategic Management

Units: 3 Terms Offered: Sp Survey of strategic management. Topics include historical overview of strategic management, research methods used, current theory, and empirical research on the developing of paradigms. Registration Restriction: Open only to Business Administration doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 604 Research Methods in Strategy and Organization

Units: 3 Terms Offered: Irregular Survey of research methods with focus on designing and implementing empirical research projects and critical issues faced by researchers. Instruction Mode: Lecture Grading Option: Letter

MOR 605 Research Methods in Organizational Behavior

Units: 3 Terms Offered: Irregular Design and analysis of behavioral research; methods may include experiments, survey research, qualitative research, statistical analysis, special topics. Emphasis on rigor, validity and statistical power. Instruction Mode: Lecture Grading Option: Letter

MOR 621 Research Forum

Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Organizational Theory, Organizational Behavior and Strategy. Presentations by faculty, visiting researchers, and advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 699 Special Topics

Units: 1.0, 1.5, 2.0, 3.0 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary management, strategy, organizational behavior, organization design, and leadership. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

MOR 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Registration Restriction: Open only to Marshall Ph.D. students specializing in Management and Organization. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Early Music)

MPEM 201 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instrument for lower division students. Instruction Mode: Lecture Grading Option: Letter

MPEM 301 Individual Instruction

Units: 1, 2 Max Units: 16 Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. Registration Restriction: Open only to music majors and minors Instruction Mode: Lecture Grading Option: Letter

MPEM 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPEM 450 Collegium Workshop

Units: 1 Max Units: 8.0 Terms Offered: FaSp Study and rehearsal of music of the Middle Ages, Renaissance, and Baroque; technique, interpretation, improvisation, and ornamentation. Instruction Mode: Lecture Grading Option: Letter

MPEM 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture
Grading Option: Letter

MPEM 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPEM 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture
Grading Option: Letter

MPEM 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPEM 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPEM 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPEM 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPEM 650 Collegium Directing

Units: 2 Max Units: 4.0 Practical training in the direction of a Collegium Musicum or other early music ensemble; program planning, repertory search and preparation, historical instrumentation and arranging, rehearsal procedure, improvisational techniques, and maintenance of instruments. Instruction Mode: Lecture Grading Option: Letter

MPEM 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPEM 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPEM 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Guitar)**MPGU 101x Non-Major Beginning Individual Instruction**

Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPGU 120a Beginning Pop/Rock Guitar

Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120b Beginning Pop/Rock Guitar

Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120c Beginning Pop/Rock Guitar

Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120d Beginning Pop/Rock Guitar

Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 121 Intensive Beginning Pop/Rock Guitar

Units: 4 Terms Offered: FaSp Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 125 Beginning Fingerstyle/Chord Guitar

Units: 2 Terms Offered: FaSp Basic fingerstyle guitar, learned through the study of such pieces as "Greensleeves," "Malaguena," and "Minuet" (Bach); song accompaniment patterns and music notation for the beginner. Instruction Mode: Lecture Grading Option: Letter

MPGU 126 Easy Fingerstyle Beatles

Units: 2 Terms Offered: FaSp Techniques of classical guitar applied to the study of five to eight Beatles songs, from "Hey Jude" to "Blackbird." No guitar or music background required. Instruction Mode: Lecture Grading Option: Letter

MPGU 145 Guitar Proficiency for the Pop Guitarist

Units: 2 Study of theory, technique and fingerboard organization of melodic and harmonic topics as applied to guitar for the beginner popular music student. Open to all

music majors. Instruction Mode: Lecture
Grading Option: Letter

MPGU 150 Functional Skills for the Popular Guitarist

Units: 2 Study of theory, technique and fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 153 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 158 Guitarists in the U.S.

Units: 2 Study of the lives and music of influential guitarists; analysis of musical and technical details. Instruction Mode: Lecture Grading Option: Letter

MPGU 159 Functional Skills for Studio Guitarists I

Units: 2 Study of technique, theory and aural skills as applied to guitar; fingerboard organization of melodic and chordal topics; sight reading. Instruction Mode: Lecture Grading Option: Letter

MPGU 160a Functional Skills for the Jazz Guitarist

Units: 2 Study of theory, technique, and fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 160b Functional Skills for the Jazz Guitarist

Units: 2 Study of theory, technique, and fingerboard organization of melodic and harmonic topics as applied to guitar. *Prerequisite:* MPGU 160a Instruction Mode: Lecture Grading Option: Letter

MPGU 253 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 257 Classical Guitar Performance Class

Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature; interpretation; professional preparation. Required of first and second year Classical Guitar majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPGU 258 Functional Skills for Studio Guitarists I

Units: 2 Max Units: 4.0 Terms Offered: FaSp Melodic and chordal topics applied to the total fingerboard; successful completion required for junior standing. *Prerequisite:* MPGU 159. Instruction Mode: Lecture Grading Option: Letter

MPGU 259 Functional Skills for Classical Guitarists I

Units: 2 Terms Offered: Fa Fundamentals of music theory experienced through the medium of the classical guitar. Topics include analysis of important guitar works, basso continuo realization, arranging, and improvisation. *Recommended Preparation:* MUCO 232a. Instruction Mode: Lecture Grading Option: Letter

MPGU 260 Improvising and Arranging for Jazz Guitar

Units: 2 Study and application of principles of improvisation and arranging for Jazz Guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. *Recommended Preparation:* MPGU 101. Duplicates Credit in former MPGU 201 and MPGU 401. Instruction Mode: Lecture Grading Option: Letter

MPGU 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPGU 201 and MPGU 401. Instruction Mode: Lecture Grading Option: Letter

MPGU 335 Jazz Guitar Master Class

Units: 1 Terms Offered: FaSp Explore the music of Joe Diorio, Wes Montgomery and John Coltrane in a master class setting. Instruction Mode: Lecture Grading Option: Letter

MPGU 353 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 357 Advanced Classical Guitar Techniques

Units: 2 Terms Offered: Sp An in-depth exploration of the most advanced facets of classical guitar technique. *Recommended Preparation:* MPGU 257. Instruction Mode: Lecture Grading Option: Letter

MPGU 358 Performance Practices for Studio Guitarists

Units: 2 Max Units: 4.0 Rehearsal procedures; stage deportment; interpretation of solo and ensemble literature; preparation for recitals and professional performance. *Prerequisite:* MPGU 258. Instruction Mode: Lecture Grading Option: Letter

MPGU 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPGU 415 Studio Guitar Pedagogy

Units: 2 Teaching techniques and literature; function of the hands; acoustical properties of instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 416 Evolution of the Guitar in the United States

Units: 3 Historical survey of styles, literature and performance practice; emphasis on playing technique and interpretation. A time-line study relating guitar to popular music and historical events. Duplicates Credit

in former MUHL 416. Instruction Mode: Lecture Grading Option: Letter

MPGU 417 Classical Guitar Pedagogy

Units: 2 Teaching techniques and literature; function of the hands; acoustical properties of instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 420 Guitar Styles

Units: 2 Max Units: 12 Detailed exploration of a specific style or genre of guitar playing through study of repertoire, history and practice, and exploration of techniques. Instruction Mode: Lecture Grading Option: Letter

MPGU 426 Classical Guitar History and Literature

Units: 2 Survey of the history and literature of the guitar and its relatives, primarily the lute and vihuela, from 1500 to 1850. Instruction Mode: Lecture Grading Option: Letter

MPGU 427 Advanced Topics in Classical Guitar History and Literature

Units: 2 Study of the literature of the modern classical guitar and its antecedents and relatives with an emphasis on 20th and 21st century works. *Recommended Preparation:* MPGU 426 Instruction Mode: Lecture Grading Option: Letter

MPGU 428a Improvisation and Arranging for Guitarists

Units: 3 Principles of improvisation and impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 428b Improvisation and Arranging for Guitarists

Units: 3 Principles of improvisation and impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 453 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 457 Classical Guitar Performance Class

Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature. Required of all third and fourth year classical guitar majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPGU 458 Current Electric Guitar Styles

Units: 2 Analysis and performance of music and techniques currently in use in the recording, TV and motion picture studios; includes study of recordings, videos and guitar equipment. Instruction Mode: Lecture Grading Option: Letter

MPGU 459 Functional Skills for Classical Guitarists II

Units: 2 Terms Offered: Sp Advanced theory and composition on the guitar. Weekly analysis exercises, arranging projects and studies in improvisation and ornamentation are directed toward creating an original solo

or chamber work for guitar. *Recommended Preparation:* MUCO 232b, MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MPGU 460 Advanced Improvising and Arranging for Jazz Guitar

Units: 2 Max Units: 08 Advanced study and application of principles of improvisation and arranging for Jazz Guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 462 Recording and Producing Techniques for the Guitarist

Units: 2 Detailed exploration of arranging, recording and producing techniques for contemporary guitarists. Instruction Mode: Lecture Grading Option: Letter

MPGU 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPGU 499 Special Topics

Units: 2, 3, 4 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPGU 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 554 Graduate Certificate**Performance**

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPGU 557 Advanced Classical Guitar Performance Class

Units: 1 Max Units: 4.0 Study of advanced classical guitar solo and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. *Prerequisite:* bachelor's degree with music major; principal instrument, classical guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 558 Advanced Studio Guitar Performance Class

Units: 1 Max Units: 4.0 Study of advanced studio guitar and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. *Prerequisite:* bachelor's degree with music major; principal instrument, studio guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPGU 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPGU 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPGU 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Medical Physiology**MPHY 572 Medical Physiology I**

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPHY 573 Medical Physiology II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPHY 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students. Duplicates Credit in former PHBI 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPHY 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594z Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open

only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Keyboard Studies)**MPKS 150a Beginning Piano**

Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150b Beginning Piano

Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150c Beginning Piano

Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150d Beginning Piano

Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 153 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 160a Functional Skills for Keyboard Majors I

Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 160b Functional Skills for Keyboard Majors I

Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 170a Introduction to Piano Repertoire and Performance

Units: 1 Terms Offered: FaSp Survey of basic piano repertoire and styles through lecture, discussion, and performance. a: Late Baroque through Beethoven; b: Schubert to the present. *Prerequisite:* piano performance major status. Instruction Mode: Lecture Grading Option: Letter

MPKS 170b Introduction to Piano Repertoire and Performance

Units: 1 Terms Offered: FaSp Survey of basic piano repertoire and styles through lecture, discussion, and performance. a: Late Baroque through Beethoven; b: Schubert to the present. *Prerequisite:* piano performance major status. Instruction Mode: Lecture Grading Option: Letter

MPKS 228 Four-Hand Keyboard Repertoire

Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of literature for piano duets and duo-piano. Duplicates Credit

in former MUEN 228. Instruction Mode: Lecture Grading Option: Letter

MPKS 250a Keyboard Instruction I

Units: 2 Terms Offered: FaSp Beginning and elementary instruction; emphasis on reading skills, harmonization, transposition, score reading, improvisation; group instruction in a keyboard laboratory facility. Instruction Mode: Lecture Grading Option: Letter

MPKS 250b Keyboard Instruction I

Units: 2 Terms Offered: FaSp Beginning and elementary instruction; emphasis on reading skills, harmonization, transposition, score reading, improvisation; group instruction in a keyboard laboratory facility. Instruction Mode: Lecture Grading Option: Letter

MPKS 253 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 260a Functional Skills for Keyboard Majors II

Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. *Prerequisite:* MPKS 160b. Instruction Mode: Lecture Grading Option: Letter

MPKS 260b Functional Skills for Keyboard Majors II

Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. *Prerequisite:* MPKS 160b. Instruction Mode: Lecture Grading Option: Letter

MPKS 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 350a Keyboard Instruction II

Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. *Prerequisite:* MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MPKS 350b Keyboard Instruction II

Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations.

Group and individualized instruction in a keyboard laboratory facility. *Prerequisite:* MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MPKS 353 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 360a Accompanying

Units: 2 Terms Offered: FaSp Techniques of vocal and instrumental accompanying. Instruction Mode: Lecture Grading Option: Letter

MPKS 360b Accompanying

Units: 2 Terms Offered: FaSp Techniques of vocal and instrumental accompanying. Instruction Mode: Lecture Grading Option: Letter

MPKS 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPKS 431a Piano Pedagogy: Introduction and Practicum

Units: 2 Terms Offered: FaSp The learning process at the keyboard; pedagogy and methodology of beginning methods. Studio/group instruction: children/adults. Survey and observation. *Prerequisite:* MPKS 253, MPKS 260b. Instruction Mode: Lecture Grading Option: Letter

MPKS 431b Piano Pedagogy: Introduction and Practicum

Units: 2 Terms Offered: FaSp The learning process at the keyboard; pedagogy and methodology of beginning methods. Studio/group instruction: children/adults. Practice teaching: beginners. *Prerequisite:* MPKS 253, MPKS 260b. Instruction Mode: Lecture Grading Option: Letter

MPKS 435 Technology of the Pianoforte and Harpsichord

Units: 2 Terms Offered: Irregular Analysis of technical innovations and maintenance of the pianoforte and harpsichord as related to musical performance. Instruction Mode: Lecture Grading Option: Letter

MPKS 450a Piano Pedagogy: Intermediate Literature and Functional Skills

Units: 2 Terms Offered: FaSp Methods, study of college curriculum keyboard classes. Studio/group instruction. Business practices; audition, interview techniques. Survey and observation. Instruction Mode: Lecture Grading Option: Letter

MPKS 450b Piano Pedagogy: Intermediate Literature and Functional Skills

Units: 2 Terms Offered: FaSp Methods, study of college curriculum keyboard classes. Studio/group instruction. Business practices; audition, interview techniques. Practice teaching; secondary piano classes. Instruction Mode: Lecture Grading Option: Letter

MPKS 453 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 472a Piano History and Literature

Units: 2 Terms Offered: FaSp Solo piano literature; emphasis on composers' influences, performance practices and the development of the pianoforte. Late Baroque through Beethoven. *Prerequisite:* MUHL 331 and MUHL 332. Instruction Mode: Lecture Grading Option: Letter

MPKS 472b Piano History and Literature

Units: 2 Terms Offered: FaSp Solo piano literature; emphasis on composers' influences, performance practices and the development of the pianoforte. Schubert to the present. *Prerequisite:* MPKS 472a. Instruction Mode: Lecture Grading Option: Letter

MPKS 481 Interpretation of Baroque Music

Units: 2 Max Units: 6.0 Terms Offered: FaSp Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, improvisation, tempi. Performance in class of solo and ensemble works, instrumental and vocal. Instruction Mode: Lecture Grading Option: Letter

MPKS 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPKS 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPKS 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 520 Special Studies in Solo Repertoire for Piano

Units: 2 Max Units: 12.0 Terms Offered: FaSp Historical, stylistic and pedagogical aspects of solo repertoire. Special emphasis to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

MPKS 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPKS 560 Song Interpretation Master Class

Units: 2 Max Units: 12.0 Terms Offered: FaSp For advanced singers and pianists. Instruction Mode: Lecture Grading Option: Letter

MPKS 561 Chamber Music Interpretation Master Class

Units: 2 Max Units: 12.0 Terms Offered: FaSp For advanced pianists and instrumentalists. Instruction Mode: Lecture Grading Option: Letter

MPKS 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPKS 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPKS 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPKS 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Popular Music)

MPPM 100 Popular Music Forum

Units: 1 Max Units: 4.0 Terms Offered: FaSp A weekly lecture series addressing a wide range of special topics and issues confronting the popular musician. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 120 Popular Music Performance I

Units: 2 Max Units: 8.0 Terms Offered: FaSp Study of musical elements appropriate to the performance of popular music in a collaborative, interactive environment. Instruction Mode: Lecture Grading Option: Letter

MPPM 153 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSp Weekly individual instruction. Instruction Mode: Lecture Grading Option: Letter

MPPM 240 Drumming Proficiency for the Popular Musician

Units: 2 Terms Offered: FaSp Beginning and elementary instruction in drum set techniques. Instruction Mode: Lecture Grading Option: Letter

MPPM 250 Keyboard Proficiency for the Popular Musician

Units: 2 Terms Offered: FaSp Development of practical keyboard skills, including reading and realizing chord symbols, basics of voice leading, study of various harmonic and rhythmic styles. Instruction Mode: Lecture Grading Option: Letter

MPPM 253 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered:
FaSp Weekly individual instruction.
Instruction Mode: Lecture Grading Option:
Letter

MPPM 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered:
FaSpSm Intermediate and advanced
instruction on secondary instrument for all
majors and minors except MPPM. Instruction
Mode: Lecture Grading Option: Letter

MPPM 320 Popular Music Performance II

Units: 2 Max Units: 8.0 Terms Offered:
FaSp Development of ensemble and
communication skills through the
performance and interpretation of American
popular music in concert and studio settings.
Development of original compositions.
Prerequisite: MPPM 120. Instruction Mode:
Lecture Grading Option: Letter

MPPM 325a Arranging in Popular Music

Units: 2 Principles and techniques of
arranging for voice and rhythm section in
the popular music idiom. Instruction Mode:
Lecture Grading Option: Letter

MPPM 325b Arranging in Popular Music

Units: 2 Writing and arranging for small
groups of brass, wind, and/or string
instruments with rhythm section in the
popular music idiom. *Prerequisite:* MPPM
325a Instruction Mode: Lecture Grading
Option: Letter

MPPM 340 Intermediate Drum Set Proficiency

Units: 2 Terms Offered: FaSp Intermediate
level instruction in drum set performance
including accompaniment techniques, fills,
beat and brush patterns in jazz, Afro-
Caribbean and Brazilian styles, interpreting
drum charts. *Recommended Preparation:*
MPPM 240. Instruction Mode: Lecture
Grading Option: Letter

MPPM 350g A History of Popular Music

Units: 4 The history of popular music
particularly as developed in America in the
20th and early 21st centuries. *Recommended
Preparation:* MUHL 250g Satisfies New
General Education in Category A: The Arts
Instruction Mode: Lecture Grading Option:
Letter

MPPM 370 The Vocal Edge: Contemporary Vocal Performance Techniques

Units: 2 Max Units: 4 A study of the practical
aspects of vocal performance and skills
necessary to increase one's opportunities
within the music industry. Instruction Mode:
Lecture Grading Option: Letter

MPPM 420 Popular Music Performance Styles and Genres

Units: 2 Max Units: 8.0 Terms Offered:
FaSp The detailed exploration of a specific
style or genre in Popular Music through
study of repertoire, history and practice
with particular emphasis on performance.
Recommended Preparation: MPPM 120
and MPPM 320. Instruction Mode: Lecture
Grading Option: Letter

MPPM 450a Final Project

Units: 1 Terms Offered: FaSp Major
collaborative performance project in popular

music. Instruction Mode: Lecture Grading
Option: In-progress to Credit/No Credit

MPPM 450b Final Project

Units: 1 Terms Offered: FaSp Major
collaborative performance project in popular
music. Instruction Mode: Lecture Grading
Option: Credit/No Credit

MPPM 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units:
12.0 Individual research and readings.
Registration Restriction: Open only to
juniors and seniors. Instruction Mode:
Lecture Grading Option: Letter

MPPM 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics
of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPPM 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the Master's Degree.
Maximum units which may be applied to the
degree to be determined by the department.
Instruction Mode: Lecture Grading Option:
Credit/No Credit

MPPM 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics
of current interest Instruction Mode: Lecture
Grading Option: Letter

MPPM 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum
units which may be applied to the degree to
be determined by the department. Instruction
Mode: Lecture Grading Option: Credit/No
Credit

Performance (Strings)**MPST 101x Non-Major Beginning Individual Instruction**

Units: 1, 2 Max Units: 2.0 Terms Offered:
FaSpSm Individual instruction at the
beginning level designed for non-music
majors with no previous experience.
Instruction Mode: Lecture Grading Option:
Letter

MPST 153 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered:
FaSpSm Instruction Mode: Lecture Grading
Option: Letter

MPST 163 Class Harp

Units: 2 Max Units: 04 Basic instruction in
the fundamentals of solo harp playing, note
reading, and basic musicianship. Instruction
Mode: Lecture, Lab Grading Option: Letter

MPST 253 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered:
FaSpSm Instruction Mode: Lecture Grading
Option: Letter

MPST 262 Double Bass Performance Class

Units: 1 Max Units: 4.0 Terms Offered:
FaSp Study of solo and orchestra repertoire,
professional preparation, and teaching
techniques. Required of all first and second
year double bass majors each semester
in residence. *Prerequisite:* music major.
Instruction Mode: Lecture Grading Option:
Letter

MPST 263 Harp Performance Class

Units: 1 Max Units: 4.0 Terms Offered:

FaSp Study of solo and orchestra repertoire,
professional preparation, and teaching
technique. Required of all first and second
year harp majors each semester in residence.
Prerequisite: music major. Instruction Mode:
Lecture Grading Option: Letter

MPST 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered:
FaSpSm Intermediate and advanced
instruction designed for non-music majors.
Recommended Preparation: MPST 101.
Duplicates Credit in former MPST 201
and MPST 401. Instruction Mode: Lecture
Grading Option: Letter

MPST 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered:
FaSpSm Intermediate and advanced
instruction on secondary instrument for
music majors, on principal instrument
for music minors and BA music majors.
Registration Restriction: Open only to
music majors and minors. Duplicates Credit
in former MPST 201 and MPST 401.
Instruction Mode: Lecture Grading Option:
Letter

MPST 353 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered:
FaSpSm Instruction Mode: Lecture Grading
Option: Letter

MPST 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular
Supervised, individual studies. No more
than one registration permitted. Enrollment
by petition only. Instruction Mode: Lecture
Grading Option: Letter

MPST 453 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered:
FaSpSm Instruction Mode: Lecture Grading
Option: Letter

MPST 462 Double Bass Performance Class

Units: 1 Max Units: 8.0 Terms Offered: FaSp
Continuation of MPST 262. Required of all
third and fourth year double bass majors each
semester in residence. *Prerequisite:* music
major. Instruction Mode: Lecture Grading
Option: Letter

MPST 463 Harp Performance Class

Units: 1 Max Units: 8.0 Terms Offered:
FaSp Continuation of MPST 263. Required
of all third and fourth year harp majors each
semester in residence. *Prerequisite:* music
major. Instruction Mode: Lecture Grading
Option: Letter

MPST 471a String Pedagogy

Units: 2 Terms Offered: FaSp Survey of
teaching literature; techniques of teaching
beginning, intermediate, and advanced
students. Instruction Mode: Lecture Grading
Option: Letter

MPST 471b String Pedagogy

Units: 2 Terms Offered: FaSp Survey of
teaching literature; techniques of teaching
beginning, intermediate, and advanced
students. Instruction Mode: Lecture Grading
Option: Letter

MPST 472 Orchestra Repertoire--Strings

Units: 2 Max Units: 08 Orchestral literature
for string players, covering a broad spectrum

of the repertoire; emphasis on preparation for auditions. Instruction Mode: Lecture Grading Option: Letter

MPST 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPST 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPST 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPST 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPST 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPST 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPST 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPST 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPST 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Molecular Pharmacology and Toxicology

MPTX 500 Molecular Pharmacology and Toxicology I

Units: 4 Terms Offered: Fa This is the first part of a two-semester introductory and survey course for the molecular pharmacology and toxicology degree program. *Prerequisite:* knowledge of

biochemistry. Instruction Mode: Lecture Grading Option: Letter

MPTX 501 Molecular Pharmacology and Toxicology II

Units: 4 Terms Offered: Sp The second part of the two-semester course covers the general aspects of molecular pharmacology and toxicology on the basis of biochemical, molecular, biological and environmental approaches. *Prerequisite:* MPTX 500. Instruction Mode: Lecture Grading Option: Letter

MPTX 502 Pharmacology

Units: 4 Terms Offered: Fa Fundamentals of pharmacology in the context of the rapidly developing knowledge of related disciplines. Instruction Mode: Lecture Grading Option: Letter

MPTX 510 Topics in Pharmacology: the Other Side of Drugs

Units: 2, 3 Terms Offered: Fa Nexus of pharmacology and toxicology; therapeutic use and toxicology of common drugs; and prescribing these drugs in clinical practice. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHRD 678

MPTX 511 Introduction to Medical Product Regulation

Units: 3 Terms Offered: Sm Introduction to regulatory environments surrounding medical product development, manufacturing and marketing; operation of federal, state and international regulatory bodies. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 512 Regulation of Pharmaceutical and Biological Products

Units: 3 Terms Offered: Sm Ensuring safety and effectiveness of new drugs and biologics; marketing and monitoring approved pharmaceutical/biological products; management of genetically engineered products. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 513 Regulation of Medical Devices and Diagnostics

Units: 3 Terms Offered: Sm Development and testing of new medical products according to U.S. and international regulatory requirements. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 514 Regulation of Food and Dietary Supplements

Units: 3 Terms Offered: Sm Regulation and testing of foods, food additives and dietary supplements in the U.S. and abroad. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent

mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 515 Quality Systems and Standards

Units: 3 Terms Offered: Sm Principles of quality assurance and quality control for medical-product development and manufacture. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 516 Medical Products and the Law

Units: 3 Terms Offered: Fa Legal issues affecting intellectual property, medical product development, marketing and safety, taught through case studies and lectures. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 517 Structure and Management of Clinical Trials

Units: 4 Terms Offered: FaSpSm Development and execution of clinical trials: bioethical principles, good clinical practices, project management and documentation. Instruction Mode: Lecture Grading Option: Letter

MPTX 518 Writing Regulatory Drug Submissions

Units: 3 Terms Offered: Sp Developing form and content for investigational drug applications, new drug applications, biologic licensing applications to FDA; common technical documents; considerations of writing style. Instruction Mode: Lecture Grading Option: Letter

MPTX 519 Global Regulation of Medical Products

Units: 3 Terms Offered: Fa Regulatory requirements governing medical products in European Union, Asia and other global markets. Instruction Mode: Lecture Grading Option: Letter

MPTX 520 Toxicology and the Media

Units: 2, 3 Terms Offered: Sp Increase knowledge of toxicology relevance in everyday life through the reading, critical analysis and discussion of articles about current toxicological issues in the media. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHRD 679

MPTX 522 Introduction to Clinical Trial Design and Statistics

Units: 3 Clinical designs and statistics commonly used to test medical products in general populations and special patient groups. Instruction Mode: Lecture Grading Option: Letter

MPTX 524 Introduction to Food Science and Technology

Units: 3 Terms Offered: Sm Discusses the basic and applied concepts of food science and food safety, and demonstrates the principles of food chemistry, sensory evaluation, and product development.

Recommended Preparation: undergraduate degree in biological sciences or related disciplines. Instruction Mode: Lecture Grading Option: Letter

MPTX 526 Chemistry Manufacturing and Controls

Units: 3 Terms Offered: Fa Provides a firm foundation in the domestic and international CMC process, from concept to commercialization of new active pharmaceutical ingredients and products. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health science, engineering or equivalent. Instruction Mode: Lecture Grading Option: Letter

MPTX 531 Cell Biology

Units: 4 (Enroll in INTD 531)

MPTX 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

MPTX 571 Biochemistry

Units: 4 Terms Offered: Sp (Enroll in INTD 571)

MPTX 572 Medical Physiology I

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPTX 573 Medical Physiology II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPTX 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Special topics

in Molecular Pharmacology and Toxicology. Instruction Mode: Lecture Grading Option: Letter

MPTX 602 Science, Research and Ethics

Units: 2 Terms Offered: Fa A discussion of the unique technological and philosophical issues that challenge modern scientists and a discernment of ethical responses to those challenges. Instruction Mode: Lecture Grading Option: Letter

MPTX 630 Directed Field-Research Project

Units: 6 Terms Offered: FaSpSm Research/policy analysis conducted under preceptor supervision in an industrial or governmental setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 700 Seminar in Molecular Pharmacology and Toxicology

Units: 1 Max Units: 8.0 Terms Offered: FaSp Contemporary advances in molecular pharmacology and toxicology research. Registration required during each year of residency. Instruction Mode: Lecture Grading Option: Letter

MPTX 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Performance (Vocal Arts)

MPVA 101x Non-Major Beginning Individual Instruction

Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPVA 140 Vocal Production for Musical Theatre

Units: 2 Exploration of the physiology and

acoustics of the human singing voice in a group setting, with an emphasis on musical theatre repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 141 Class Voice

Units: 2 Max Units: 4.0 Terms Offered: FaSp Introduction to the fundamental principles of singing: breath control, tone production, diction, and the use of appropriate song material. Instruction Mode: Lecture Grading Option: Letter

MPVA 150 Musical Theatre Song Interpretation: Tin Pan Alley Era

Units: 2 Study and performance of the music and lyrics that created contemporary Broadway: the Tin Pan Alley era 1855-1940. Instruction Mode: Lecture Grading Option: Letter

MPVA 153 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 203a Acting for Singers I

Units: 2 Terms Offered: FaSp Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. *Recommended Preparation:* MPVA 153. Duplicates Credit in former MPVA 303. Instruction Mode: Lecture Grading Option: Letter

MPVA 203b Acting for Singers I

Units: 2 Terms Offered: FaSp Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. *Recommended Preparation:* MPVA 153. Duplicates Credit in former MPVA 303. Instruction Mode: Lecture Grading Option: Letter

MPVA 241 Intermediate Class Voice

Units: 2 Max Units: 4.0 Terms Offered: FaSp Continued development of the fundamentals of singing, diction, and repertoire building. *Prerequisite:* MPVA 141. Instruction Mode: Lecture Grading Option: Letter

MPVA 253 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 260 Italian Language and Diction

Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading, and writing Italian. Emphasizes musical texts including Italian song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 261 French Language and Diction

Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading, and writing French. Emphasizes musical texts including French song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 262 German Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading, and writing German. Emphasizes musical texts including German song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16 Intermediate and advanced instruction designed for non-music majors. Credit Restriction: Not available for credit to music majors Duplicates Credit in former MPVA 201 and former MPVA 401 Instruction Mode: Lecture Grading Option: Letter

MPVA 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction: secondary emphasis for music majors, principal emphasis for music minors and all BA music majors. Duplicates Credit in former MPVA 201 and MPVA 401. Instruction Mode: Lecture Grading Option: Letter

MPVA 353 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 402 Musical Theatre Workshop I

Units: 3 Study of the acting, musical and movement elements involved in the performance of the Broadway musical repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 403 Acting for Singers II

Units: 2 Max Units: 8.0 Terms Offered: FaSp Continuation of MPVA 203a, MPVA 203b. Acting of operatic roles in different periods and styles; specific recital and audition techniques. *Recommended Preparation:* MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 404 Word and Music in Opera

Units: 2 Max Units: 8.0 Terms Offered: Irregular Performance class for singers and pianists; analysis of recitatives, arias, and ensembles of various operatic styles; study of the technique of effective musical delivery. By audition only. *Recommended Preparation:* MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 405 USC Opera

Units: 2 Max Units: 12.0 Terms Offered: FaSp Preparation, rehearsal, and performance of operatic works and excerpts; study of different operatic styles; public appearances. By audition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 406 Opera Coaching Techniques

Units: 2 Max Units: 8.0 Terms Offered: Irregular Score study for pianists, coaches,

and conductors; role analysis; transcription techniques for one or two pianos of an orchestral score. Instruction Mode: Lecture Grading Option: Letter

MPVA 407 Directing for the Operatic Stage

Units: 2 Max Units: 8.0 Terms Offered: FaSp Various approaches to operatic style; basic blocking; stage management. Student direction of scenes produced in USC Opera. Instruction Mode: Lecture Grading Option: Letter

MPVA 412 Musical Theatre Workshop II

Units: 3 Max Units: 06 Stylistic and technical features of dramatic and musical elements involved in performance of the Broadway musical and standard operetta repertory; staging of scenes. *Prerequisite:* MPVA 402 Instruction Mode: Lecture Grading Option: Letter

MPVA 422 Musical Theatre Vocal Book Preparation

Units: 2 Curation and preparation of a professional vocal book for musical theatre auditions. Instruction Mode: Lecture Grading Option: Letter

MPVA 438 Foundations of Vocology

Units: 2 Voice physiology, voice hygiene, voice acoustics, and the cognitive substrates of Motor Learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 440 Italian and French Diction

Units: 2 Principles of pronunciation and enunciation; use of international phonetic alphabet. Duplicates Credit in former MPVA 442a. Instruction Mode: Lecture Grading Option: Letter

MPVA 441 English and German Diction

Units: 2 Principles of pronunciation and enunciation; use of international phonetic alphabet. Instruction Mode: Lecture Grading Option: Letter

MPVA 442 Introduction to the International Phonetic Alphabet

Units: 2 Terms Offered: Fa Principles of pronunciation and enunciation; basic application of the International Phonetic Alphabet symbols and sounds to English, German, Italian, French and Latin. Instruction Mode: Lecture Grading Option: Letter

MPVA 443 Cantata and Oratorio

Units: 2, 2 years Terms Offered: Fa Historical survey of literature, style and performance practice; emphasis on performing solo and small ensemble sections of larger works. Instruction Mode: Lecture Grading Option: Letter

MPVA 453 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 479 Song Literature

Units: 2 Max Units: 04 Song literature of Italy, France, Germany, Russia, Norway, Sweden, England, America; comparative analysis of various composers and their influence on song literature. Duplicates Credit in former MUHL 479 Instruction Mode: Lecture Grading Option: Letter

MPVA 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPVA 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPVA 540 Special Studies in Vocal Literature

Units: 2 Max Units: 6.0 Terms Offered: Sp Art song, concert and operatic repertoire. Emphasis to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

MPVA 541 Advanced Vocology

Units: 2 Voice physiology, both classical and non-classical vocal techniques, voice hygiene, advanced voice acoustics, survey of literature from expertise studies, and the cognitive substrates of motor learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 542 Vocal Pedagogy Teaching Practicum

Units: 2 Applying principles learned in vocology and/or pedagogy through practice voice teaching in both classical and non-classical singing styles. *Prerequisite:* MPVA 438 or MPVA 541 Instruction Mode: Lecture Grading Option: Letter

MPVA 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPVA 560 Graduate Italian Diction

Units: 2 A review of the rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure of the Italian language through the texts of select repertoire in both Italian song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 561 Graduate French Diction

Units: 2 A review of French rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure through the in-depth study of song and aria texts. Instruction Mode: Lecture Grading Option: Letter

MPVA 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction

Mode: Lecture Grading Option: Credit/No Credit

MPVA 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 653 Individual Instruction

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPVA 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Wind and Percussion)

MPWP 101x Non-Major Beginning Individual Instruction

Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPWP 153 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 252 Individual Instrument Performance Class I

Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPWP 253 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. *Recommended Preparation:* MPWP 101. Duplicates Credit in former MPWP 201 and MPWP 401. Instruction Mode: Lecture Grading Option: Letter

MPWP 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPWP 201 and MPWP 401.

Instruction Mode: Lecture Grading Option: Letter

MPWP 353 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 390 Special Problems

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPWP 440 Drum Set for Classical Percussionists

Units: 1 Max Units: 2.0 Terms Offered: Fa A progressive course for Classical Percussion majors as it pertains to drum set in the symphony orchestra and other classical settings. Registration Restriction: Open only to percussion, and performance (wind instrument or percussion). Instruction Mode: Lecture Grading Option: Letter

MPWP 452 Individual Instrument Performance Class II

Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPWP 453 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 481 Interpretation of Baroque Music

Units: 2 Max Units: 6.0 Terms Offered: FaSp Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, tempi. Performance in class of solo and ensemble works, instrumental and vocal. Instruction Mode: Lecture Grading Option: Letter

MPWP 482 Interpretation of Classic, Romantic, and 20th Century Wind and Percussion Music

Units: 2 Analysis and performance of 18th, 19th, and 20th century ensemble music, octet through symphonic band; historical perspectives of instruments including technical developments. Instruction Mode: Lecture Grading Option: Letter

MPWP 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPWP 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPWP 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 551 Individual Instrument Performance Class III

Units: 1 Max Units: 2.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Intended for MM wind and percussion majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPWP 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPWP 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPWP 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 754 Artist Diploma Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPWP 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Military Science

MS 101 Foundations of Officership

Units: 1 Terms Offered: Fa Introduces students to issues and competencies that are central to a commissioned officer's responsibilities. Establish framework for understanding officership, leadership, and Army values followed and "life skills" such as physical fitness and time management. Duplicates Credit in former MS 100. Instruction Mode: Lecture Grading Option: Letter

MS 102 Basic Leadership

Units: 1 Terms Offered: Sp Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. Duplicates Credit in former MS

110. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 201 Individual Leadership Studies

Units: 2 Terms Offered: Sp Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. Duplicates Credit in former MS 200. Instruction Mode: Lecture Grading Option: Letter

MS 202 Leadership and Teamwork

Units: 2 Terms Offered: Sp Study examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback. Duplicates Credit in former MS 210. Instruction Mode: Lecture Grading Option: Letter

MS 301 Leadership and Problem Solving

Units: 3 Terms Offered: Fa Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. Duplicates Credit in former MS 300. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 302 Leadership and Ethics

Units: 3 Terms Offered: Sp Examines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities. Duplicates Credit in former MS 310. Instruction Mode: Lecture Grading Option: Letter

MS 401 Leadership and Management I

Units: 3 Terms Offered: Fa Develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques. Duplicates Credit in former MS 400. Instruction Mode: Lecture Grading Option: Letter

MS 402 Leadership and Management II

Units: 3 Terms Offered: Sp Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, and demonstrate their leadership skills. Duplicates Credit in former MS 410. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in military science. Instruction Mode: Lecture Grading Option: Letter

Sacred Music

MSCR 390 Special Problems

Units: 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former MUCH 390. Instruction Mode: Lecture Grading Option: Letter

MSCR 473 Hymnology

Units: 2 Study of hymns and hymn tunes, and their functions, from the formation of the Christian Church to the present; historical survey of the literature. Duplicates Credit in former MUCH 473. Instruction Mode: Lecture Grading Option: Letter

MSCR 474 The Organ in Worship and Congregational Life

Units: 2 Accompanying; hymn playing, transposition, improvisation, vocal score reading; conducting from the console; service repertoire. Basic knowledge of the organ as an instrument and planning for and purchase of an organ. Duplicates Credit in former MUCH 474. Instruction Mode: Lecture Grading Option: Letter

MSCR 475 Introduction to Jewish Music

Units: 2 Development of Jewish music from biblical times to the present, with emphasis on liturgical practices, traditions of itinerant musicians and the adaptability of community song. Instruction Mode: Lecture Grading Option: Letter

MSCR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors. Duplicates Credit in former MUCH 490. Instruction Mode: Lecture Grading Option: Letter

MSCR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 570 Foundations of Sacred Music

Units: 2 An introduction to the history of sacred music, liturgical practices and worship traditions from antiquity to present day. Duplicates Credit in former MUCH 570. Instruction Mode: Lecture Grading Option: Letter

MSCR 571 Music of the Great Liturgies

Units: 2 Comparison of the Jewish, Eastern Orthodox, Roman Catholic, Lutheran, and Anglican liturgies and their music; relation to music in the nonliturgical service; the church year. Duplicates Credit in former MUCH 571. Instruction Mode: Lecture Grading Option: Letter

MSCR 572 Sacred Music Administration

Units: 2 Terms Offered: FaSpSm Developing, maintaining and administering the music program of the church or other religious institutions. Programming, staffing, developing budgets, techniques and repertoire for the graded choir program, handbell choir and other ensembles. Duplicates Credit in former MUCH 572. Instruction Mode: Lecture Grading Option: Letter

MSCR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUCH 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUCH 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Molecular Structure and Signaling

MSS 574 Molecular Structure and Signaling Seminar Series

Units: 1 Max Units: 12.0 Terms Offered: FaSp Selected topics in Molecular Structure and Signaling. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

MSS 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSS 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students.

Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MSS 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MSS 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MSS 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

MSS 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit
on acceptance of dissertation. Registration
Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

Music Technology

**MTEC 175 Fundamentals of Audio
Recording**

Units: 2 Introduction to the principles and
techniques of audio recording. Students will
gain a basic understanding of signal flow,
gain structure, microphones, monitoring
systems, signal processing, mixing.
Duplicates Credit in former MTEC 275a.
Instruction Mode: Lecture Grading Option:
Letter

MTEC 176 Critical Listening

Units: 2 Introductory course where students
will develop an understanding of audio
quality, the musical aspects of audio
production and the vocabulary necessary
to offer audio critique. *Recommended
Preparation:* MTEC 175. Duplicates Credit
in former MTEC 275a. Instruction Mode:
Lecture Grading Option: Letter

MTEC 237a Music Production I

Units: 2 Study of small ensemble (rhythm
section, vocal, background vocals) music
production in a variety of popular music
styles. Instruction Mode: Lecture Grading
Option: Letter

MTEC 237b Music Production I

Units: 2 Study of large ensemble (rhythm
section, vocal, background vocal with horn
section and or strings) music production in
a variety of popular music styles. Instruction
Mode: Lecture Grading Option: Letter

**MTEC 245 Introduction to MIDI
Sequencing**

Units: 1 Terms Offered: FaSp Introductory
course where students will learn to use
professional MIDI sequencing software
to sequence, edit, and realize music
compositions. Instruction Mode: Lecture
Grading Option: Letter

**MTEC 246 Introduction to Audio
Recording and Editing**

Units: 1 Terms Offered: FaSp Introduction to
the techniques and applications of recording,

editing and mixing sound on personal
computers. Instruction Mode: Lecture
Grading Option: Letter

**MTEC 248 Introduction to Music
Notation**

Units: 1 Terms Offered: FaSp Introduction to
the skills and techniques required to prepare
musical scores and parts using industry
standard music notation software. Instruction
Mode: Lecture Grading Option: Letter

**MTEC 249 Introduction to Web Design
for Musicians**

Units: 1 Terms Offered: FaSp Introductory
course where students will learn to use
professional web languages, tools, and
techniques to create musical artist and band
websites. Instruction Mode: Lecture Grading
Option: Letter

**MTEC 275 Fundamentals of Audio
Engineering**

Units: 4 Fundamentals of Audio
Engineering is an intermediate course in the
principles and techniques of professional
audio production as related to music.
Recommended Preparation: MTEC 175 and
MTEC 176. Duplicates Credit in former
MTEC 275b. Instruction Mode: Lecture, Lab
Grading Option: Letter

**MTEC 277x Introduction to Music
Technology**

Units: 4 Terms Offered: FaSpSm A
survey of the technology used to create,
prepare, perform, and distribute music,
with an emphasis on recording, MIDI,
music production, mastering and Internet
technologies. Duplicates Credit in former
MUIN 277. Instruction Mode: Lecture
Grading Option: Letter

MTEC 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered:
FaSp Intermediate and advanced instruction
in the applications of technology to the
creation and performance of music.
Recommended Preparation: experience with
audio recording and synthesizers. Instruction
Mode: Lecture Grading Option: Letter

MTEC 337a Music Production II

Units: 2 Small group instruction to develop
the student's arranging, production and
project management skills as related to
small budget music and multimedia projects.
Prerequisite: MTEC 237b. Instruction Mode:
Lecture Grading Option: Letter

MTEC 337b Music Production II

Units: 2 Small group instruction to develop
the student's arranging, production and
project management skills as related to
medium budget music and multimedia
projects. Instruction Mode: Lecture Grading
Option: Letter

**MTEC 378 Introduction to Mixing and
Mastering**

Units: 2 Fundamental principles and
techniques used to fuse multiple audio
elements into clear, comprehensive final
products. *Prerequisite:* MTEC 446a
Instruction Mode: Lecture Grading Option:
Letter

MTEC 379a Recording Studio Theory

Units: 2 Basic electronic concepts needed
to understand operational parameters of a

state-of-the-art recording studio; schematics,
interface, capacitance, resistance and
problem solving. *Prerequisite:* MTEC 275.
Duplicates Credit in former MUIN 379ab.
Instruction Mode: Lecture Grading Option:
Letter

MTEC 379b Recording Studio Theory

Units: 2 Basic electronic concepts needed
to understand operational parameters of a
state-of-the-art recording studio; schematics,
interface, capacitance, resistance and
problem solving. *Prerequisite:* MTEC 275.
Duplicates Credit in former MUIN 379ab.
Instruction Mode: Lecture Grading Option:
Letter

**MTEC 389 Digital Equipment and
Recording**

Units: 2 Digital equipment including
computers, sequencers, digital signal
synthesis, MIDI, and rotary and stationary
digital recording. *Prerequisite:* MTEC 275.
Duplicates Credit in former MUIN 389.
Instruction Mode: Lecture Grading Option:
Letter

MTEC 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: FaSpSm
Supervised, individual studies. No more than
one registration permitted. Enrollment by
petition only. Duplicates Credit in former
MUEA 390. Instruction Mode: Lecture
Grading Option: Letter

MTEC 392a Acoustics and Speaker Design

Units: 2 Principles of acoustics relating to
studio construction, wall treatment, and
furnishings; natural reverberation, speaker
materials, passive and active crossovers and
time alignment. *Prerequisite:* MTEC 275.
Duplicates Credit in former MUIN 392ab.
Instruction Mode: Lecture Grading Option:
Letter

**MTEC 392b Acoustics and Speaker
Design**

Units: 2 Principles of acoustics relating to
studio construction, wall treatment, and
furnishings; natural reverberation, speaker
materials, passive and active crossovers and
time alignment. *Prerequisite:* MTEC 275.
Duplicates Credit in former MUIN 392ab.
Instruction Mode: Lecture Grading Option:
Letter

**MTEC 430 Advanced Instrumental
Recording**

Units: 2 An in-depth study of the
standard practices and techniques used
in contemporary multi-track recording.
Prerequisite: (MTEC 175 and MTEC 176) or
MTEC 277 or MTEC 575 Instruction Mode:
Lecture Grading Option: Letter

**MTEC 437 Advanced Music Production
for Non-Majors**

Units: 2 Max Units: 4 The study of small
music production in a variety of popular
music styles with the goal of developing
the students' arranging, production and
project management skills. *Recommended
Preparation:* MTEC 275, MTEC 443 or
MTEC 444, MTEC 446ab, MUSC 255,
MUSC 355 Instruction Mode: Lecture
Grading Option: Letter

MTEC 442 Operation of the Radio Studio

Units: 2 Terms Offered: FaSpSm An in-depth

study of radio studio technical operations. Topics include consoles, microphones, transmission considerations, networks, satellites, and digital and analog production situations. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 442. Instruction Mode: Lecture Grading Option: Letter

MTEC 443 Desktop Music Production
Units: 2 Intermediate course where students will learn to use professional MIDI sequencing and digital audio software to compose, edit, and mix songs and other music compositions. *Recommended Preparation:* MTEC 245. Duplicates Credit in in former MUIN 305. Instruction Mode: Lecture Grading Option: Letter

MTEC 444 Non-Linear MIDI Sequencing
Units: 2 Terms Offered: FaSp An in-depth course focusing on the principles and techniques of sequencing and performing musical compositions using a non-linear sequencer. *Recommended Preparation:* MTEC 245. Instruction Mode: Lecture Grading Option: Letter

MTEC 445 Advanced Desktop Music Production
Units: 2 Students will learn to apply their musical and technical skills to create professional quality computer-based arrangements in a variety of musical styles. *Recommended Preparation:* MTEC 443 or MTEC 444 and MTEC 474a. Instruction Mode: Lecture Grading Option: Letter

MTEC 446a Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for song, sound effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 446b Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for song, sound effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 448 Computer Music Notation and Preparation
Units: 2 Techniques and principles of computer music notation including conventions of music notation, idiomatic practices, preparation of significant score types, and MIDI basics. Duplicates Credit in former MUIN 448. Instruction Mode: Lecture Grading Option: Letter

MTEC 474a Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm Electronic music procedures in a multi-track studio. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 474b Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm

Electronic music procedures in a multi-track studio. Computer applications. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 477 Remote Recording Techniques
Units: 2 Special problems of location recording; specialized equipment; microphone design and operation. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 477. Instruction Mode: Lecture Grading Option: Letter

MTEC 478 Advanced Multichannel Remix
Units: 2 Special problems of multi-channel re-mixing with simultaneous audio re-processing. Album, film, television and multimedia formats will be covered. *Prerequisite:* MTEC 446a. Duplicates Credit in former MUIN 478. Instruction Mode: Lecture Grading Option: Letter

MTEC 479 Audio Mastering
Units: 2 A survey of the final creative steps of an audio CD. Concepts of acoustics, mastering suite design, critical listening, frequency, dynamics and sequencing. *Prerequisite:* MTEC 275; *Recommended Preparation:* MTEC 446a. Duplicates Credit in former MUIN 479. Instruction Mode: Lecture Grading Option: Letter

MTEC 486 Computer-Assisted Music Editing for Picture
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording, editing and synchronizing music and sounds to film, video or games, using time code and personal computers. *Prerequisite:* MTEC 446b. Duplicates Credit in former MUIN 486. Instruction Mode: Lecture Grading Option: Letter

MTEC 488a Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 488b Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former MUEA 490x. Instruction Mode: Lecture Grading Option: Letter

MTEC 491 The Recording Console
Units: 4 Introduction to professional analog audio consoles and their use in recording and mixing music for records, video and film. *Prerequisite:* MTEC 275 and MTEC 446a. Duplicates Credit in former MTEC 291. Instruction Mode: Lecture Grading Option: Letter

MTEC 493 Audio Signal Processing Equipment

Units: 2 Principles and design characteristics of digital and analog signal processing equipment including plate reverb, digital reverbs, synchronizers, digital editing systems and mastering systems. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 493. Instruction Mode: Lecture Grading Option: Letter

MTEC 494 Classical Music Recording

Units: 4 Principles of classical music recording with emphasis on history, equipment, techniques, and locations. Differences in orchestral, choral, opera, and small ensemble recording. Duplicates Credit in former MUIN 494. Instruction Mode: Lecture Grading Option: Letter

MTEC 498a Senior Project

Units: 1 Culmination of the four-year course of study intended to afford students the opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MTEC 498b Senior Project

Units: 1 Culmination of the four-year course of study intended to afford students the opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: Credit/No Credit

MTEC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Duplicates Credit in former MUEA 499. Instruction Mode: Lecture Grading Option: Letter

MTEC 501 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSp Intermediate and advanced instruction in the applications of technology to the creation and performance of music. *Recommended Preparation:* experience with audio recording and synthesizers. Instruction Mode: Lecture Grading Option: Letter

MTEC 550 Technology and the Collegiate Music Curriculum

Units: 2 Prepares the college-level music instructor for assuming a technological leadership role within a music department. Examines traditional, experimental, and pedagogical aspects of technology. *Recommended Preparation:* computer, Internet, and basic music software literacy. Instruction Mode: Lecture Grading Option: Letter

MTEC 575 Music Technology and Production

Units: 4 Terms Offered: FaSpSm Fundamentals of audio recording. Focuses on the principles and applications of sound and hearing, recording systems and their components, and production techniques. Duplicates Credit in former MUIN 575. Instruction Mode: Lecture Grading Option: Letter

MTEC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units

which may be applied to the degree to be determined by the department. Duplicates Credit in former MUEA 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MTEC 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MTEC 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUEA 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

Cell and Neurobiology

CNB 501a Human Gross Anatomy

Units: 3, 4 Terms Offered: FaSpSm A complete dissection of the adult human body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function. *a.* focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *b.* focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 501b Human Gross Anatomy

Units: 4 Terms Offered: SpSm A complete dissection of the adult human body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function. *a.* focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *b.* focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. *Prerequisite:* CNB 501a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 502L Advanced Regional Anatomy I

Units: 2 Terms Offered: Fa In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical region of choice. Focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, and/or human anatomy Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 503L Advanced Regional Anatomy II

Units: 2 Terms Offered: Sp In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical field of choice. Focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, and/or

human anatomy Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 504L Human Skeletal Anatomy

Units: 3 Terms Offered: FaSp An intensive introduction to the human skeleton and the fundamentals of bone and dental biology. Covers a variety of topics including: skeletal development; functional interpretation of bone and bony processes; osteological and dental pathology; human anatomical variation; laboratory analyses and imaging techniques; methods for estimating age, sex, and stature; and comparative osteology. *Prerequisite:* CNB 501a and CNB 501b *Recommended Preparation:* Equivalent dissection-based human anatomy course. Courses in general biology, organismal biology, and/or biological anthropology. Registration Restriction: Open only to freshmen and sophomores Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 511aL Microscopic Anatomy

Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 511bL Microscopic Anatomy

Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 512L Pharmacology I

Units: 5 Terms Offered: Fa Actions, chemical properties, bodily distribution, and toxicology of drugs. Duplicates Credit in former PHNU 510L. Instruction Mode: Laboratory.

CNB 513 Pharmacology II

Units: 3 Terms Offered: Sp Continuation of 512L. *Prerequisite:* CNB 512L. Duplicates Credit in former PHNU 511.

CNB 521 Neuroanatomy

Units: 3 Terms Offered: Sp Structure and function of the human nervous system with emphasis on central conduction pathways, especially those of clinical significance.

CNB 525 Neural Development

Units: 3 Terms Offered: Fa Cellular, molecular, and physiological features of development and plasticity in the nervous system. Lecture and student presentations and discussion of classic and current research literature. *Prerequisite:* BISC 524; *Recommended Preparation:* background in neurosciences.

CNB 530 Anatomy for the Artist

Units: 1, 2 Terms Offered: Irregular This course includes lectures and demonstrations of human anatomy specifically for the artist, and art instruction on drawing the human figure.

CNB 531 Cell Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 531)

CNB 534 Molecular Aspects of Neuropharmacology

Units: 2 Terms Offered: FaSp Current advances in selected areas of molecular neuropharmacology, e.g., mechanisms by which drugs affect neurotransmitter systems, neural plasticity, treatment of neurological and psychiatric diseases.

CNB 550 Cell and Neurobiology Seminar

Units: 1 Max Units: max 6 Terms Offered: FaSp Reports and discussion on recent advances in anatomy. Duplicates Credit in former ANCB 550. Grading Option: Graded CR/NC.

CNB 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

CNB 571 Biochemistry

Units: 4 Terms Offered: Fa (Enroll in INTD 571)

CNB 572 Medical Physiology I

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

CNB 573 Medical Physiology II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

CNB 580L Gross Anatomy Teaching Practicum I

Units: 4 Terms Offered: Fa Obtain a deeper understanding of clinical anatomy, develop pedagogical skills in small-group anatomical demonstration, and learn to prepare practical exams. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, human anatomy, and/or physiology Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 581L Gross Anatomy Teaching Practicum II

Units: 4 Terms Offered: Sp Obtain a deeper understanding of clinical anatomy, develop pedagogical skills in small-group anatomical demonstration, and learn to prepare practical exams. *Prerequisite:* CNB 501b Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CNB 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 598 Introductory Laboratory Rotations

Units: 1, 2, 3 Terms Offered: FaSp
Introductory laboratory rotations wherein students are directed in individualized research, reading and discussion to provide perspective and supplemental background in areas of faculty research interests.

CNB 599 Special Topics

Units: 2, 3, 4 Max Units: max 8 Terms Offered: FaSp Special topics provides background for instruction and research in the Department of Cell and Neurobiology through lectures, discussions, assigned readings, and student presentations. Duplicates Credit in former ANCB 599 and PHNU 599.

CNB 600 Literature Tutorial

Units: 1 Max Units: max 3 Terms Offered: FaSp Individualized readings and discussions culminating in a literature-review paper; to promote the acquisition of critical thinking skills in the evaluation of scientific problems. *Recommended Preparation:* background in biological sciences.

CNB 603 Current Topics in Vision Research

Units: 2 Terms Offered: Sp Basic science (e.g., anatomy, cell biology, electrophysiology) and clinical aspects of the eye: cornea, lens, retina, and optic nerve. USC faculty and authorities from other institutions will lecture.

CNB 604 Current Topics in Animal Development

Units: 2, 2 years Terms Offered: Sp Current research in selected aspects of mammalian and nonmammalian developmental biology, including the molecular genetics and molecular biology of organogenesis, morphogenesis, lineage specification, and differentiation. *Prerequisite:* INTD 561 and CNB 542.

CNB 631 Morphogenesis and Regeneration

Units: 2, 2 years Terms Offered: Sp Analysis of developing and regenerating systems: historical and recent interpretations of morphogenetic movements, tissue interactions, fields, gradients, differentiation, and determination.

CNB 641 Brain-Endocrine Interactions in Reproduction

Units: 2 Terms Offered: Fa Past and current experimental approaches to morphology and endocrinology at hypothalamic, pituitary, and gonadal levels in both males and females. *Prerequisite:* CNB 511aL, CNB 511bL, or a general endocrinology course.

Conducting**MUCD 301 Individual Instruction**

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction secondary emphasis for music majors and minors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MUCD 401. Instruction Mode: Lecture Grading Option: Letter

MUCD 340 Choral Conducting I

Units: 2 Terms Offered: FaSpSm Basic

conducting techniques; score analysis; conducting patterns; problems of tempo, dynamics, articulation and text. Instruction Mode: Lecture Grading Option: Letter

MUCD 343 Instrumental Conducting I

Units: 2 Terms Offered: FaSp Communicating musical ideas to instrumental ensembles; reading and conducting from full score of orchestral compositions. *Prerequisite:* ability to read a music score. Instruction Mode: Lecture Grading Option: Letter

MUCD 348 Instrumental Conducting and Orchestration

Units: 2 Reading and conducting from scores, communicating musical ideas to instrumental ensembles, arranging for small and large ensembles, notation, playing techniques, timbre, rhythm and intonation. Instruction Mode: Lecture Grading Option: Letter

MUCD 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCD 441 Choral Conducting II

Units: 2 Refinement of techniques developed in MUCD 340; study of styles and interpretations of choral music from the Renaissance to the present. *Prerequisite:* MUCD 340 Instruction Mode: Lecture Grading Option: Letter

MUCD 443 Instrumental Conducting II

Units: 2 Terms Offered: FaSpSm Principal composers and representative instrumental works since the 18th century; studies of styles and interpretations based on scores and the performance of works in class. Instruction Mode: Lecture Grading Option: Letter

MUCD 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCD 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUCD 541 Choral Conducting III

Units: 2 Max Units: 6.0 Problems of preparing and conducting contemporary choral music and major choral-orchestral works from full score; special projects according to student's development and interests. *Prerequisite:* MUCD 441. Instruction Mode: Lecture Grading Option: Letter

MUCD 543 Instrumental Conducting III

Units: 2 Max Units: 4.0 Terms Offered: FaSp Problems in advanced conducting. *Prerequisite:* MUCD 443. Instruction Mode: Lecture Grading Option: Letter

MUCD 550 Orchestral Conducting Seminar

Units: 2 Max Units: 8.0 Terms Offered: FaSp Advanced instrumental conducting techniques. Literature drawn from music of all periods. *Prerequisite:* MUCD 441, MUCD 443, and admission as candidate for MM degree in conducting. Instruction Mode: Lecture Grading Option: Letter

MUCD 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUCD 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCD 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 641 Choral Conducting IV

Units: 2 Max Units: 8.0 Continuation of MUCD 541, including choral conducting pedagogy. *Prerequisite:* MUCD 541. Instruction Mode: Lecture Grading Option: Letter

MUCD 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Duplicates Credit in former MUPF 653. Instruction Mode: Lecture Grading Option: Letter

MUCD 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Choral Music**MUCM 320 Introduction to Choral Music**

Units: 2 An introduction to the many facets of choral music. Grounding in the intellectual and practical issues of choirs, singing, and choral literature. *Recommended Preparation:* ability to read music. Instruction Mode: Lecture Grading Option: Letter

MUCM 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration is permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCM 440 Choral Development

Units: 2 Problems of achieving proper balance, blend, intonation, diction, precision, etc., in choral groups; criteria for selection of repertoire for particular groups. Instruction Mode: Lecture Grading Option: Letter

MUCM 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCM 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 541 Choral Literature I

Units: 2 Choral composition from c. 1500 to 1800. Performance and analysis of representative works. Instruction Mode: Lecture Grading Option: Letter

MUCM 542 Choral Literature II

Units: 2 19th and 20th century choral works; criteria for program building. Instruction Mode: Lecture Grading Option: Letter

MUCM 543 Seminar in Choral Music

Units: 2 Max Units: 4.0 Advanced choral techniques; historical, analytical and performance problems. *Prerequisite:* MUCM 641. Instruction Mode: Lecture Grading Option: Letter

MUCM 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Supervised research in preparation for the Master's recital. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 641 Choral Literature III

Units: 2 Detailed study of selected major choral works; historical context, score analysis, performance practices. *Prerequisite:* MUCM 541, MUCM 542. Instruction Mode: Lecture Grading Option: Letter

MUCM 643 Seminar in Choral Music II

Units: 2 Max Units: 4.0 Terms Offered: Sp Continuation of MUCM 543, with concentration on the conducting problems in major choral-orchestral works. Instruction Mode: Lecture Grading Option: Letter

MUCM 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

MUCM 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

MUCM 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Composition**MUCO 095x Music Fundamentals Immersion**

Units: 1 Immersive course for selected students in MUCO 132a/MUCO 133a. Emphasis on providing a foundation in understanding pitches, intervals, scales, keys, key signatures, chords, rhythms, and meters. *Concurrent Enrollment:* MUCO 132a and MUCO 133a Credit Restriction: Not available for major credit for music majors Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 101x Fundamentals of Music Theory

Units: 2 Terms Offered: FaSp An introductory course in music theory required for those majors in need of remedial training, and available to the general student who wishes to develop music writing skills. *Recommended Preparation:* ability to read music. Instruction Mode: Lecture Grading Option: Letter

MUCO 130ax Basics of Music Theory

Units: 3 Terms Offered: FaSp Introduction to music theory; scales, intervals, principles of common practice and popular music harmony; melodic, harmonic, and structural analysis; 20th century developments. Instruction Mode: Lecture Grading Option: Letter

MUCO 130bx Basics of Music Theory

Units: 3 Terms Offered: FaSp Introduction to music theory; scales, intervals, principles of common practice and popular music harmony; melodic, harmonic, and structural analysis; 20th century developments. Instruction Mode: Lecture Grading Option: Letter

MUCO 131a Harmony in Popular Music

Units: 2 Terms Offered: FaSpSm Study of harmony used in the popular music idiom, as well as diminished chord patterns, modulation techniques, basic modal theory, and principles of melodic construction. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 131b Harmony in Popular Music

Units: 2 Terms Offered: FaSpSm Study of harmony used in the popular music idiom, as well as diminished chord patterns, modulation techniques, basic modal theory, and principles of melodic construction. *Prerequisite:* MUCO 131a. Instruction Mode: Lecture Grading Option: Letter

MUCO 132a Aural Skills I

Units: 2 Terms Offered: FaSp Sight-singing, dictation, related keyboard application. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 132b Aural Skills I

Units: 2 Terms Offered: FaSp Sight-singing, dictation, related keyboard application. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 133a Theory I

Units: 3 Terms Offered: FaSp Notation, scales, intervals; introduction to counterpoint; harmonic principles of the common practice period; analysis, written work. *Concurrent Enrollment:* Concurrent

registration in Aural Skills required.

Instruction Mode: Lecture Grading Option: Letter

MUCO 133b Theory I

Units: 3 Terms Offered: FaSp Continuation of MUCO 133a; elements of form; application of analysis to performance. *Concurrent Enrollment:* Concurrent registration in Aural Skills required. Instruction Mode: Lecture Grading Option: Letter

MUCO 135 Counterpoint I

Units: 2 Terms Offered: FaSpSm The study of the techniques of modal counterpoint; exercises in two-, three- and four-part writing in 16th century style. *Corequisite:* MUCO 137a. Instruction Mode: Lecture Grading Option: Letter

MUCO 137a Composition I

Units: 4 Beginning exercises in composing, initial composition projects, study, lectures and class discussions of selected compositions from the repertory. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 137b Composition I

Units: 4 Beginning exercises in composing, initial composition projects, study, lectures and class discussions of selected compositions from the repertory. *Prerequisite:* MUCO 137a Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 140 Music for Dancers

Units: 2 Practical understanding and perception of music coupled with the ability to follow a score and understand the work in relation to dance. Instruction Mode: Lecture Grading Option: Letter

MUCO 142 Aural Skills and Musicianship for Musical Theatre I

Units: 2 Introduction to sight-singing, dictation, and related musicianship skills, foundational music theory, form and application of analysis to performance. Instruction Mode: Lecture Grading Option: Letter

MUCO 143 Aural Skills and Musicianship for Musical Theatre II

Units: 2 Development of sight-singing, dictation, and related musicianship skills, music theory, form and application of analysis to performance for Musical Theatre. *Prerequisite:* MUCO 142 Instruction Mode: Lecture Grading Option: Letter

MUCO 221ax Composition for Non-Majors

Units: 2 Terms Offered: FaSp Introduction to the composition of concert music. Includes set exercises, free composition, study of selected compositions. Intended for interested, qualified students not majoring in composition. *Prerequisite:* MUCO 221a; *Recommended Preparation:* MUCO 130b, MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 221bx Composition for Non-Majors

Units: 2 Terms Offered: FaSp Introduction to the composition of concert music. Includes set exercises, free composition, study of selected compositions. Intended for interested, qualified students not majoring

in composition. *Prerequisite:* MUCO 221a; *Recommended Preparation:* MUCO 130b, MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 232a Aural Skills II

Units: 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 232b Aural Skills II

Units: 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 233a Theory II

Units: 3 Terms Offered: Fa Analysis of representative pieces from the classic and romantic periods; exercises in composition. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 233b Theory II

Units: 3 Terms Offered: Sp Survey of 20th century developments; composition utilizing 20th century techniques. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 235 Counterpoint II

Units: 2 Terms Offered: Sp Studies in tonal counterpoint; two-, three- and four-part counterpoint in 18th century style; polyphonic variations; inventions. *Prerequisite:* MUCO 137b. Instruction Mode: Lecture Grading Option: Letter

MUCO 236 Orchestration I

Units: 2 Terms Offered: Fa Introduction to the principles of instrumentation; ranges techniques, timbres; transpositions of orchestral instruments; beginning exercises in orchestration. *Prerequisite:* MUCO 137b. Instruction Mode: Lecture Grading Option: Letter

MUCO 237a Composition II

Units: 4 Composition in shorter forms, continuation of score analysis and listening assignments. *Prerequisite:* MUCO 137b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 237b Composition II

Units: 4 Composition in shorter forms, continuation of score analysis and listening assignments. *Prerequisite:* MUCO 237a. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 300 Theory Review

Units: 1 Terms Offered: FaSpSm Review of materials covered in Theory I and II. For students whose entrance examination in music theory indicates the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 321x Composition for Non-Majors II

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition for non-composition majors. Continuation of MUCO 221a, MUCO 221b. *Prerequisite:* MUCO 221b. Instruction Mode: Lecture Grading Option: Letter

MUCO 333 Aural Skills Review

Units: 1 Terms Offered: FaSp Review of the materials covered in Aural Skills I, II, and

III. For students whose entrance examination in aural skills indicates the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 336a Orchestration II

Units: 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. *Prerequisite:* MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 336b Orchestration II

Units: 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. *Prerequisite:* MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 337a Composition III

Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 237b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 337b Composition III

Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 337a. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 338x Elementary Orchestration

Units: 2 Terms Offered: Fa Range, techniques, timbre, transposition of orchestral instruments; exercises in orchestration. *Recommended Preparation:* MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 339 Orchestration Review

Units: 1 Terms Offered: FaSm Review of materials covered in elementary orchestration; for students whose entrance examination in orchestration indicates a need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 341 Counterpoint Review

Units: 1 Terms Offered: SpSm Review of materials covered in tonal counterpoint. For students whose entrance examination in counterpoint indicates the need for further study. For graduate students only. Instruction Mode: Lecture Grading Option: Letter

MUCO 360 Music Notation and Copying

Units: 1 Development of skills in music calligraphy. Instruction Mode: Lecture Grading Option: Letter

MUCO 370a Arranging for the Recording Media

Units: 2 Arranging and composing for studio recording ensembles. Instruction Mode: Lecture Grading Option: Letter

MUCO 370b Arranging for the Recording Media

Units: 2 Arranging and composing for studio recording ensembles. Instruction Mode: Lecture Grading Option: Letter

MUCO 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCO 406a Contemporary Notation

Units: 2 Notating new music; study and comparison of representative scores. Instruction Mode: Lecture Grading Option: Letter

MUCO 406b Contemporary Notation

Units: 2 Notating new music; study and comparison of representative scores. Instruction Mode: Lecture Grading Option: Letter

MUCO 422 Composers and Interdisciplinary Art Studies

Units: 2 Max Units: 6.0 A structured collaboration between composers and artists outside of music to explore an interdisciplinary area in an environment of practical collaborative creation. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 425 Instrumental Music of Debussy and Ravel

Units: 2 Critical examination of the piano, chamber, and orchestral scores; comparison of styles, techniques and aesthetics of these "Impressionist" composers. *Prerequisite:* MUCO 336a or MUCO 338; MUHL 331; MUHL 332. Instruction Mode: Lecture Grading Option: Letter

MUCO 432a Advanced Theory

Units: 1 or 2 Special problems in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 432b Advanced Theory

Units: 1 or 2 Special problems in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 434 Analytical Techniques

Units: 2 Selected analytical topics. *Prerequisite:* MUCO 232b, MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 435 Counterpoint III

Units: 2 Terms Offered: Fa Canon and fugue; 19th and 20th century developments. *Prerequisite:* MUCO 235. Instruction Mode: Lecture Grading Option: Letter

MUCO 436 Orchestration III

Units: 2 Terms Offered: Sp Continuation of Orchestration II. *Prerequisite:* MUCO 336a, MUCO 336b. Instruction Mode: Lecture Grading Option: Letter

MUCO 437a Composition IV

Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 337b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 437b Composition IV

Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 437a. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 438 Arranging for Marching Band

Units: 2 Fundamental concepts; instrumental capabilities; notation; color and scoring; modulation; percussion writing. *Prerequisite:* MUCO 336b or MUCO 338. Instruction Mode: Lecture Grading Option: Letter

MUCO 439 Band Arranging

Units: 2 Max Units: 4.0 Characteristics and

use of individual instruments; writing for separate choirs; chamber and solo writing; scoring piano, organ, and orchestral music for band. *Prerequisite:* MUCO 237b, MUCO 336b or MUCO 338. Instruction Mode: Lecture Grading Option: Letter

MUCO 441 Choral Arranging

Units: 1, 2 Max Units: 4.0 Terms Offered: FaSpSm Arranging and composing for chorus. *Prerequisite:* MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 470 Electroacoustic Composition

Units: 2 Electronic music for the composer: history of means and styles, aesthetic issues and practical problems, computer usages, bibliography and repertoire. *Recommended Preparation:* MTEC 474a. Instruction Mode: Lecture Grading Option: Letter

MUCO 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCO 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCO 501 Introduction to the Analysis of Tonal Music

Units: 2 Terms Offered: FaSp Survey of common practice period (1650–1900) approaches to phrase design, tonal organization and type-forms (binary, ternary, rondo, sonata). Instruction Mode: Lecture Grading Option: Letter

MUCO 502 Introduction to the Analysis of Post-Tonal Music

Units: 2 Terms Offered: FaSp Introductory survey of 20th/21st century approaches to the organization of pitch (serial, modal, extended tonal, etc.), rhythm, texture and form. Instruction Mode: Lecture Grading Option: Letter

MUCO 521x Composition for Non-Majors III

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition. *Prerequisite:* submission of portfolio of musical compositions. Instruction Mode: Lecture Grading Option: Letter

MUCO 533a Analytical Approaches to Tonal Music

Units: 2 Terms Offered: FaSp Introducing to essential structural and prolongational aspects of Schenkerian theory. *Prerequisite:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 533b Analytical Approaches to Tonal Music

Units: 2 Terms Offered: FaSp Application of the Schenkerian methods to individual movements and short pieces. *Prerequisite:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 536 Advanced Orchestration I

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSp Continuation of Orchestration III with emphasis on contemporary techniques. Instruction Mode: Lecture Grading Option: Letter

MUCO 537 Advanced Composition I

Units: 1 or 2 Max Units: 8.0 For graduates with evidence of preparation for advanced work. Instruction Mode: Lecture Grading Option: Letter

MUCO 538a Analytical Approaches to Post-Tonal Music from 1908–1950

Units: 2 Terms Offered: FaSp The breakdown of tonality, rise of atonal/pantonal pitch organization, new and extended approaches to tonality, modality. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 538b Analytical Approaches to Post-Tonal Music from 1908–1950

Units: 2 Terms Offered: FaSp Continuation of MUCO 538a; twelve-tone methods, just tuning systems, new approaches to rhythm, texture, timbre. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 539a Theoretical and Aesthetic Issues in Music from 1950 to the Present

Units: 2 Terms Offered: FaSp Anti-rationality and indeterminacy, ultra-rationality and integral serialism, new performance procedures, electronic music and new technologies, minimalism. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 539b Theoretical and Aesthetic Issues in Music from 1950 to the Present

Units: 2 Terms Offered: FaSp Post-modernism of reaction, post-modernism of resistance, mannerist minimalism, anti-modernism. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 548 Writer and Composer

Units: 3 Terms Offered: Sp Structured collaboration among composers and poets. Activities include fundamentals of poetry, comparative analysis, creative projects. Instruction Mode: Lecture Grading Option: Letter

MUCO 550 Teaching Music Theory

Units: 2 Comparative study of curricula, text materials, and teaching strategies in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 571 Comparative Analytical Studies: Traditional Forms

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical survey of the development of a specific form or genre. Specific emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 572 Comparative Analytical Studies: 20th/21st Century and Non-Traditional Forms

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analysis of characteristic forms and genres of 20th century music or of other forms and genres that do not figure largely in the "common practice" tradition. Specific emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 573 Special Studies in Contrapuntal Music

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analytical and historical study of contrapuntal techniques and styles. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 574 Special Studies in Tonal Analysis

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in tonal music. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 575 Special Studies in Post-Tonal Analysis

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in post-tonal music. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 576 Special Studies in Musical Aesthetics

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm An investigation of aesthetics in general and the application of aesthetic theories to music; readings will be selected from pre-modern, modern, and post-modern texts. *Recommended Preparation:* MUCO 501 and MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 592 Selected Topics in Graduate Composition

Units: 2 Max Units: 8.0 Terms Offered: Irregular Seminar for graduate students in composition that addresses aesthetic, technical and analytical issues from a composer's perspective. Registration Restriction: Open only to theory and composition majors. Instruction Mode: Lecture Grading Option: Letter

MUCO 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 594c Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Seminars in selected areas of study. Instruction Mode: Lecture Grading Option: Letter

MUCO 633a Advanced Analysis of Tonal Music

Units: 2 Application of Schenkerian techniques to large works. *Prerequisite:* MUCO 533b. Instruction Mode: Lecture Grading Option: Letter

MUCO 633b Advanced Analysis of Tonal Music

Units: 2 Criticisms and extensions of Schenker, semiotic approaches, theories of rhythmic structure. *Prerequisite:* MUCO 533b. Instruction Mode: Lecture Grading Option: Letter

MUCO 636 Advanced Orchestration II

Units: 1 or 2 Max Units: 4.0 Terms Offered: FaSp Continuation of Advanced Orchestration I with emphasis on historical survey of orchestral compositions and advanced orchestration projects. *Prerequisite:* MUCO 536. Instruction Mode: Lecture Grading Option: Letter

MUCO 637 Advanced Composition II

Units: 1, 2 Max Units: 4.0 Continuation of MUCO 537. For students holding the MM degree in composition. *Prerequisite:* MUCO 536, MUCO 637. Instruction Mode: Lecture Grading Option: Letter

MUCO 737 Advanced Composition III

Units: 1 or 2 Max Units: 8.0 Continuation of MUCO 637. *Prerequisite:* MUCO 536, MUCO 637. Instruction Mode: Lecture Grading Option: Letter

MUCO 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Teaching and Learning**MTAL 330 Fundamentals of Music**

Units: 4 Introduction to the content of music through an investigation of its melodic, rhythmic, and harmonic structure. Duplicates Credit in former MUED 330x Instruction Mode: Lecture Grading Option: Letter

MTAL 440a Music and Movement: The Orff Approach

Units: 2 Orff Schulwerk techniques in

rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. Duplicates Credit in former MUED 440a Instruction Mode: Lecture Grading Option: Letter

MTAL 440b Music and Movement: The Orff Approach

Units: 2 Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. *Prerequisite:* MTAL 440a Duplicates Credit in former MUED 440b Instruction Mode: Lecture Grading Option: Letter

MTAL 443 Teaching Vocal Jazz

Units: 2 Strategies for teaching the principles of vocal jazz; historical perspective, repertoire, recordings, improvisation, scat, accompaniment, amplification, rehearsing, teaching sequences. No prior jazz experience necessary. Duplicates Credit in former MUED 443 Instruction Mode: Lecture Grading Option: Letter

MTAL 449 Teaching Marching Band

Units: 2 Modern school marching band techniques; precision drill; administration; rehearsal techniques. Duplicates Credit in former MUED 449 Instruction Mode: Lecture Grading Option: Letter

MTAL 470 Improvisation and Composition for Teaching and Learning

Units: 2 An introduction to the craft of musical improvisation and composition, developing personal and idiomatic vocabulary in a variety of traditional and contemporary musical styles. Instruction Mode: Lecture Grading Option: Letter

MTAL 475 Teaching and Learning: Children

Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie children's music learning experiences. Instruction Mode: Lecture Grading Option: Letter

MTAL 476 Teaching and Learning: Youth

Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie musical experiences of adolescents and young adults. Instruction Mode: Lecture Grading Option: Letter

MTAL 477 Cultural Diversity in Music Teaching and Learning

Units: 1 Study of cultural issues in music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles

Units: 3 Designed to cover traditional approaches to small group teaching in schools with contemporary techniques. Percussion, guitar, keyboard, informal instruments are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles

Units: 3 Traditional approaches to large group teaching in schools with contemporary

techniques. Brass, woodwind and string instruments are featured. Features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 482 Contemporary Pedagogy, Vocal and General Music

Units: 2 Designed to cover traditional approaches to vocal/general music group teaching in schools with contemporary techniques. Vocal and general music techniques are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research and readings. Registration Restriction: Open only to juniors and seniors Duplicates Credit in former MUED 490x Instruction Mode: Lecture Grading Option: Letter

MTAL 499 Special Topics

Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 499 Instruction Mode: Lecture Grading Option: Letter

MTAL 500 Research Foundations in Music Teaching and Learning

Units: 3 Introductory exploration of types of research linked to research literature in music teaching and learning; interpreting research reports; organizing and writing research proposals and reports. Duplicates Credit in former MUED 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 501 Historical Foundations of Music Education

Units: 3 A contextual exploration of the historical development of American music education. Duplicates Credit in former MUED 501 Instruction Mode: Lecture Grading Option: Letter

MTAL 502 Sociological Foundations of Music Teaching and Learning

Units: 3 Study of interdependent relationship between society, music and music education. Duplicates Credit in former MUED 502 Instruction Mode: Lecture Grading Option: Letter

MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning

Units: 3 Exploration of philosophical thinking in the field of music with emphasis on philosophical foundations for teaching and learning. Duplicates Credit in former MUED 503 Instruction Mode: Lecture Grading Option: Letter

MTAL 504 Psychological Foundations of Music

Units: 3 Exploration of theories, research and practice in psychological foundations of music teaching and learning. Duplicates Credit in former MUED 504 Instruction Mode: Lecture Grading Option: Letter

MTAL 505 Teaching and Learning Music

Units: 2 Studies of the latest resources concerning the teaching and learning of music so that musicians can function more effectively as both teachers and performers. Duplicates Credit in former MUED 505

Instruction Mode: Lecture Grading Option: Letter

MTAL 510 Leading a Music Program in a Public School Setting

Units: 2 The philosophy and purposes of music programs combined with early field experiences, varied teaching strategies, and music learning assessment. Duplicates Credit in former MUED 510 Instruction Mode: Lecture Grading Option: Letter

MTAL 535 Community Engagement Through Music

Units: 2 Explores the essential role of community and arts partnerships in music education with implications for the expanding entrepreneurial role of musician/educators. Instruction Mode: Lecture Grading Option: Letter

MTAL 537 Community Engagement Models and Frameworks in Music

Units: 1 Explores frameworks of partnerships and community organizations to inform innovative design, negotiate complexity and problem-solve in community music organizations. Instruction Mode: Lecture Grading Option: Letter

MTAL 538 Music in the Community, Program Development and Evaluation

Units: 2 Explores the design and development of community music programs, including community needs assessment, program delivery and strategies and applications for program evaluation. Instruction Mode: Lecture Grading Option: Letter

MTAL 550 Teaching Music Fundamentals and Appreciation Courses

Units: 2 Purpose and objectives of music in general education. Survey of current approaches and materials. Duplicates Credit in former MUED 550 Instruction Mode: Lecture Grading Option: Letter

MTAL 552 Music Education Courseware Development

Units: 2 Development of music education courseware using current technology. Two lecture hours per week. Duplicates Credit in former MUED 552 Instruction Mode: Lecture Grading Option: Letter

MTAL 576 Using Technology in the Classroom

Units: 2 Study of the tools and knowledge necessary to the music educator to facilitate the application of computers and electronic music in music education. Duplicates Credit in former MUED 515 Instruction Mode: Lecture Grading Option: Letter

MTAL 584 Early Childhood Music

Units: 2 An overview of significant developmental issues, current research, and appropriate practices for children from birth to age eight. Professor-guided practicum teaching. Duplicates Credit in former MUED 520 Instruction Mode: Lecture Grading Option: Letter

MTAL 585 Research and Practice in Orff Schulwerk

Units: 2 Exploring research on the philosophical and historical bases of the Orff Schulwerk approach and acquiring skills in pedagogical applications in early childhood

through collegiate settings. Duplicates Credit in former MUED 640 Instruction Mode: Lecture Grading Option: Letter

MTAL 588 Guided Practice

Units: 3 Student teachers observe and teach under the guidance of a university supervisor (USC professor) and a master teacher. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 589 Community Music Practicum

Units: 2 Max Units: 04 Provides structure and support as students design, develop and execute a community music project as part of an existing organization or a new endeavor. Instruction Mode: Lecture Grading Option: Letter

MTAL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 590 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 592 Final Project

Units: 2 Required for the Master of Music, Teaching and Learning degree. Credit upon acceptance. *Prerequisite:* MTAL 500 Duplicates Credit in former MUED 592 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Registration Restriction: Open only to master students Duplicates Credit in former MUED 594a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. *Prerequisite:* MTAL 594a Registration Restriction: Open only to master students Duplicates Credit in former MUED 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. *Prerequisite:* MTAL 594b Registration Restriction: Open only to master students Duplicates Credit in former MUED 594z Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 599 Special Topics

Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 599 Instruction Mode: Lecture Grading Option: Letter

MTAL 605 College Teaching in Music Education

Units: 2 Exploration of music education faculty duties at the collegiate level, such as teaching general/secondary methods, working with student teachers, leading professional organizations, and conducting research. Duplicates Credit in former MUED 605 Instruction Mode: Lecture Grading Option: Letter

MTAL 606 Internship in Collegiate Music Education

Units: 3 Students intern with USC professors

in training music teachers in traditional and alternative music education practices. Duplicates Credit in former MUED 606 Instruction Mode: Lecture Grading Option: Letter

MTAL 607 Alternative Models in Music Teaching and Learning

Units: 2 Exploration of community music programs in the U.S. and beyond with emphasis on philosophical, sociological, structural and cultural bases for the diverse programs. Duplicates Credit in former MUED 607 Instruction Mode: Lecture Grading Option: Letter

MTAL 608 Creative Thinking in Music

Units: 3 Review of important developments in research and practice for the encouragement of creative thinking in music for music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 615 Assessment and Reflective Practice

Units: 2 Examination of major aspects of measurement and evaluation that comprise the art of assessment of music teaching and learning. *Recommended Preparation:* MTAL 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 650 Pedagogy for Collegiate Music Appreciation and Fundamentals

Units: 2 Design and teaching strategies for collegiate music appreciation and fundamentals classes developed for the adult, non music major student. Duplicates Credit in former MUED 650 Instruction Mode: Lecture Grading Option: Letter

MTAL 652 Pedagogy for Collegiate Teaching

Units: 2 A preparation for teaching in the modern university environment, examining the role of the professor, and focusing on the development of innovative collegiate teaching skills. Duplicates Credit in former MUED 610 Instruction Mode: Lecture Grading Option: Letter

MTAL 720 Quantitative Research in Music Teaching and Learning

Units: 3 Survey of theories, concepts and procedures for designing, conducting and evaluating quantitative research studies in music teaching and learning. *Prerequisite:* Duplicates Credit in former MUED 792 Instruction Mode: Lecture Grading Option: Letter

MTAL 721 Qualitative Research in Music Teaching and Learning

Units: 3 Survey of theories, concepts and tools for designing, conducting and evaluating qualitative studies in music teaching and learning. *Prerequisite:* Duplicates Credit in former MUED 793 Instruction Mode: Lecture Grading Option: Letter

MTAL 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 790 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 791 Pedagogical Writing and Media in Music Education

Units: 3 Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements. Duplicates Credit in former MUED 791 Instruction Mode: Lecture Grading Option: Letter

MTAL 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUED 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794a Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794b Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794c Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794d Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794z Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Music Ensemble

Large ensemble requirements in undergraduate curricula must be fulfilled by the following ensembles: University Chorus (MUEN 307); Men's Chorus (MUEN 308); Oriana Choir (MUEN 311); University Concert Choir (MUEN 310); Chamber Choir (MUEN 312); USC Symphony (MUEN 320); USC Concert Orchestra (MUEN 321); University Wind Ensemble (MUEN 323); or University Band (MUEN 324).

Exceptions to the above policies include: Contemporary Music Ensemble and Early Music Ensemble may fulfill the large ensemble requirement for instrumental majors, with the approval of the conductor of University Symphony or Wind Ensemble and the chair of the student's major department. Music Education majors with an instrumental emphasis must take one semester of a choral ensemble.

Composition majors must register for at least 2 units in a choral ensemble.

Students majoring in Strings, Vocal Arts, or Wind and Percussion may not count USC Concert Orchestra toward their large ensemble requirement.

Vocal Arts majors must register for University Concert Choir, USC Chamber

Choir, or USC Oriana Choir to fulfill their large ensemble requirement. Further exceptions may be made subject to departmental approval and approval of the conductor of the appropriate large ensemble.

MUEN 222 Trojan Marching Band

Units: 1 Rehearsal and participation in performances for athletic and other university functions. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 305 Vocal Jazz Ensemble

Units: 1 Terms Offered: FaSp Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 307 University Chorus

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 308 USC Apollo Chorus

Units: 1 Max Units: 08 The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/bass repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 310 University Concert Choir

Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 311 USC Oriana Choir

Units: 1 Max Units: 08 The USC Oriana Choir, a choir open to all students, faculty, and staff of any gender, performs treble repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 312 Chamber Singers

Units: 1 Max Units: 08 Performance of choral music and choral masterworks from the 16th century to the present. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 314 Opera Chorus

Units: 1 Max Units: 8.0 Terms Offered: FaSp Study and performance of operatic choruses and extended ensembles of all styles and periods. Duplicates Credit in former MUEN 214 and MUEN 414. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 320 USC Symphony

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire. Duplicates Credit in former MUEN 220 and MUEN 420. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 321 USC Concert Orchestra

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 322 Trojan Marching Band

Units: 1 Max Units: 4.0 Continuation of MUEN 222. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 323 University Wind Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and participation in concert programs. Duplicates Credit in former MUEN 223 and MUEN 423. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 324 University Band

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of standard repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 325 Wind and Percussion Chamber Music

Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of chamber music for wind and percussion instruments. Duplicates Credit in former MUEN 225 and MUEN 425. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 326 Guitar Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. Duplicates Credit in former MUEN 226 and MUEN 426. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 327 String Chamber Music

Units: 1 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of small ensemble literature for strings. Duplicates Credit in former MUEN 227 and MUEN 427. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 328 Keyboard Collaboration

Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of literature for piano with voice and string, woodwind, brass and percussion instruments. Duplicates Credit in former MUEN 428. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 329 Jazz Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature written for large jazz ensemble. Duplicates Credit in former MUEN 229 and MUEN 429. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 330 Contemporary Music Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 230 and MUEN 430. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 331 Guitar Big Band

Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 332 Jazz Chamber Music

Units: 1 Max Units: 8.0 Terms Offered: FaSp
Preparation and performance of literature for jazz chamber groups. Duplicates Credit in former MUEN 232 and MUEN 432. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 335 University Brass Band

Units: 1 Max Units: 8.0 Terms Offered: FaSp
The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 235 and MUEN 435. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 344 Vocal Chamber Music

Units: 1 Max Units: 8.0 Terms Offered: Fa
Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 244 and MUEN 444. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 350 Early Music Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp
Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed and plucked strings. Instrumentalists are required to perform on either their own or the school's historical instruments. Duplicates Credit in former MUEN 250 and MUEN 450. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 505 Vocal Jazz Ensemble

Units: 1 Terms Offered: FaSp
Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Letter

MUEN 507 University Chorus

Units: 1 Terms Offered: FaSp
Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Letter

MUEN 508 USC Apollo Chorus

Units: 1 Max Units: 04
The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/bass repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 510 University Concert Choir

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Letter

MUEN 511 USC Oriana Choir

Units: 1 Max Units: 04
The USC Oriana Choir, a choir open to all students, faculty, and staff of any gender, performs treble repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 512 Chamber Singers

Units: 1 Max Units: 04
Performance of Choral Music and choral masterworks from the 16th century to the present. Instruction Mode: Lecture Grading Option: Letter

MUEN 514 Opera Chorus

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Study and performance of operatic choruses and extended ensembles of all styles and

periods. Duplicates Credit in former MUEN 414. Instruction Mode: Lecture Grading Option: Letter

MUEN 520 USC Symphony

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and performance of orchestra repertoire. Duplicates Credit in former MUEN 420. Instruction Mode: Lecture Grading Option: Letter

MUEN 521 USC Concert Orchestra

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and performance of orchestra repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 523 University Wind Ensemble

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and participation in concert programs. Duplicates Credit in former MUEN 423. Instruction Mode: Lecture Grading Option: Letter

MUEN 525 Wind and Percussion Chamber Music

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Performance of chamber music for wind and percussion instruments. Duplicates Credit in former MUEN 425. Instruction Mode: Lecture Grading Option: Letter

MUEN 526 Guitar Ensemble

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. Duplicates Credit in former MUEN 426. Instruction Mode: Lecture Grading Option: Letter

MUEN 527 String Chamber Music

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Preparation and performance of small ensemble literature for strings. Duplicates Credit in former MUEN 427. Instruction Mode: Lecture Grading Option: Letter

MUEN 528 Keyboard Collaboration

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Continuation of MUEN 328. Instruction Mode: Lecture Grading Option: Letter

MUEN 529 Jazz Ensemble

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and performance of literature written for large jazz ensemble. Duplicates Credit in former MUEN 429. Instruction Mode: Lecture Grading Option: Letter

MUEN 530 Contemporary Music Ensemble

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 430. Instruction Mode: Lecture Grading Option: Letter

MUEN 531 Guitar Big Band

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Letter

MUEN 532 Jazz Chamber Music

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Preparation and performance of advanced literature for jazz chamber groups. Instruction Mode: Lecture Grading Option: Letter

MUEN 535 University Brass Band

Units: 1 Max Units: 4.0
The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 435. Instruction Mode: Lecture Grading Option: Letter

MUEN 544 Vocal Chamber Music

Units: 1 Max Units: 4.0 Terms Offered: Fa
Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 444. Instruction Mode: Lecture Grading Option: Letter

MUEN 550 Early Music Ensemble

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed or plucked strings. Instrumentalists are required to perform on either their own or the school's historical instruments. Duplicates Credit in former MUEN 450. Instruction Mode: Lecture Grading Option: Letter

MUEN 628 Keyboard Collaboration

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Continuation of MUEN 328. Instruction Mode: Lecture Grading Option: Letter

MUEN 650 Early Music Ensemble

Units: 1 Max Units: 8.0 Terms Offered: FaSp
Rehearsal and public performance of vocal and instrumental music of the Renaissance and Baroque era; emphasis is on large- and small-scale chamber works. Instrumentalists are required to perform on historical instruments. Instruction Mode: Lecture Grading Option: Letter

Music History and Literature**MUHL 231 Music History**

Units: 3 Terms Offered: Fa
A study of the musical styles and genres from antiquity to c. 1680 within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b, MUHL 385a. Duplicates Credit in MUHL 385a. Instruction Mode: Lecture Grading Option: Letter

MUHL 232 Music History II

Units: 3 Terms Offered: Sp
A study of the musical styles and genres from c. 1680 to c. 1850 within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b. Duplicates Credit in MUHL 385b. Instruction Mode: Lecture Grading Option: Letter

MUHL 250g Music and Ideas

Units: 4
A topical study of critical issues and cultural relationships found in music from antiquity to the present and across musical genres and styles. Satisfies New General Education in Category B: Humanistic Inquiry. Instruction Mode: Lecture, Discussion. Grading Option: Letter

MUHL 331 Music History III

Units: 3
A study of the musical styles and

genres from c. 1850 to the present within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b; *Recommended Preparation:* MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280a. Instruction Mode: Lecture Grading Option: Letter

MUHL 332 Studies in Musical Culture
Units: 3 Special musical repertoires, issues, and critical problems; emphasis determined by the department. *Recommended Preparation:* MUHL 231, MUHL 232, MUEN 331, MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280b. Instruction Mode: Lecture Grading Option: Letter

MUHL 333 Music History Review
Units: 1, 2 Terms Offered: FaSpSm Supervised review of the materials covered in undergraduate music history courses for students whose music history examinations indicate the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUHL 350g Western Art Music History I
Units: 4 A study of the musical styles and genres from antiquity through early modern periods within their historical context. Detailed analysis of selected works. *Recommended Preparation:* MUHL 250g Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUHL 351 Western Art Music History II
Units: 4 A study of the musical styles and genres in the late modern and contemporary eras within their historical context. Detailed analysis of selected works. *Recommended Preparation:* MUHL 250g and MUHL 350 Instruction Mode: Lecture Grading Option: Letter

MUHL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUHL 403 Armenian Musical Culture
Units: 2 Study of the four branches of Armenian music within the context of past and present Armenian culture. Instruction Mode: Lecture Grading Option: Letter

MUHL 476 Music Criticism
Units: 2 Procedure and practice in forming critical judgments of music and in writing music criticism; practical journalism; professional and community ethics. Instruction Mode: Lecture Grading Option: Letter

MUHL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUHL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 550 Music and the Holocaust
Units: 2 Study of the creation and performance of Holocaust-related music from 1933 to the present, including interaction with other arts. *Prerequisite:* MUHL 570 Instruction Mode: Lecture Grading Option: Letter

MUHL 560 Studies in World Music I
Units: 2 Terms Offered: Fa The indigenous and syncretic musics of Africa, India, Indonesia, and the Balkan countries. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 561 Studies in World Music II
Units: 2 Terms Offered: Sp The indigenous and syncretic musics of the post-Soviet political landscape, the Far East, the Middle East, and Latin America. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 570 Research Materials and Techniques
Units: 2 Terms Offered: FaSpSm Introduction to music research, information science and technical writing. Required of all graduate students majoring in music. Instruction Mode: Lecture Grading Option: Letter

MUHL 572 Seminar in Historical Musical Notation
Units: 2 Terms Offered: Fa Performing, reading, and editing historical notation from original sources. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 573 Music of the Middle Ages
Units: 2, 2 years Terms Offered: SpSm Chief musical developments in Western Europe from the beginning of the Christian era to the middle of the 14th century. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 574 Music of the Renaissance
Units: 2, 2 years Terms Offered: SpSm Chief musical developments in Western Europe from the middle of the 14th century to the end of the 16th. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 575 Music of the Baroque Era
Units: 2, 2 years Terms Offered: FaSm Styles, forms, composers, and compositions of the Baroque era. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 576 Music of the Classical Period
Units: 2, 2 years Terms Offered: SpSm Development of classical style in symphonic music, opera, and chamber music. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 577 Music of the 19th Century
Units: 2, 2 years Terms Offered: FaSm Vocal and instrumental music of the Romantic era from late Beethoven through Brahms. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 578 Music since 1900
Units: 2 Terms Offered: FaSpSm Musical developments in Europe and the Americas

from 1900 to the present. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 579 Studies in Music History
Units: 4 Max Units: 16.0 Terms Offered: FaSp Intensive study of major problems, issues, and interpretations in the history of music. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 580 Historical Perspectives in Jazz
Units: 2 Chief musical developments in the principal styles of Jazz from their inception to the present. *Prerequisite:* graduate standing or departmental approval. Instruction Mode: Lecture Grading Option: Letter

MUHL 583 Special Studies in Medieval Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 584 Special Studies in Renaissance Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 585 Special Studies in Baroque Music
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 586 Special Studies in the Music of the Classical Period, 1730–1800
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 587 Special Studies in the Music of the 19th Century
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 588 Special Studies in Music since 1900
Units: 2 Max Units: 6.0 Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 589 Seminar in Renaissance Repertoires and Performance Practice
Units: 2 Terms Offered: Sp Study and discussion of Renaissance music sources and performance practice treatises. *Corequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 591 Seminar in Baroque Repertories and Performance Practice

Units: 2 Study and discussion of Baroque music sources and performance practice treatises. *Corequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 595 Seminar in Performance Practices

Units: 2 Max Units: 4.0 Scholarly preparation and authentic performance of music written before c. 1770. Ornamentation and improvisation, tunings and temperaments, early language pronunciation, historical instruments, etc. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 681 Studies in Musicology

Units: 4 Max Units: 16.0 Terms Offered: FaSp Close study of musical repertories and issues (particularly ones transcending period divisions), with emphasis on recent scholarship and methodologies. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 683 Seminar in Medieval Music

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 684 Seminar in Renaissance Music

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 685 Seminar in Baroque Music

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 686 Seminar in Classical Music

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 687 Seminar in Romantic Music

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 688 Seminar in Music since 1900

Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Industry**MUIN 270 Introduction to the Music Industry**

Units: 4 Terms Offered: FaSp A survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, record companies, agents, personal managers and contracts. Instruction Mode: Lecture Grading Option: Letter

MUIN 272x Basics of the Music Industry

Units: 4 Terms Offered: FaSp Introductory survey of the music business. Topics include: copyright, record companies, contracts, music publishing, performance rights societies, managers, agents, and other artist

team/income considerations. Duplicates Credit in former MUIN 372ax. Instruction Mode: Lecture Grading Option: Letter

MUIN 280 Communications in the Music Industry

Units: 4 A comprehensive course on communications specific to the music industry with a focus on press and publicity for artists. *Prerequisite:* MUIN 270 or MUIN 272x Instruction Mode: Lecture Grading Option: Letter

MUIN 286 Record Production Management

Units: 2 Terms Offered: FaSp Function of the record producer, studio procedures, music business law, union relations, artist management, copyright and publishing agreements, record company structure. Instruction Mode: Lecture Grading Option: Letter

MUIN 287 The Business and Economics of the Recording Industry

Units: 2 Terms Offered: Fa Economic considerations of home, studio and location recording. Equipment, labor, facilities, media, legal and tax considerations will be explored. Instruction Mode: Lecture Grading Option: Letter

MUIN 320 Critical Listening, Acoustics and Audio Perception

Units: 4 Development of perceptual skills for detailed analysis and awareness of the timbral, dynamic, temporal and spatial attributes of sound as they relate to audio production. Instruction Mode: Lecture, Lab Grading Option: Letter

MUIN 340 Introduction to Sound Reinforcement

Units: 4 Terms Offered: FaSpSm An introduction to the practical application of large scale sound reinforcement for concerts, sporting events, church services and convention situations. Instruction Mode: Lecture Grading Option: Letter

MUIN 360 Introduction to Music Law

Units: 4 Terms Offered: FaSp A study of entertainment law with a focus on the music industry. Areas of study include contracts, domestic practices, international practices, copyright protection, trademarks. *Prerequisite:* MUIN 270. Instruction Mode: Lecture Grading Option: Letter

MUIN 370 Music Publishing and Licensing

Units: 2 Terms Offered: Sp A contemporary survey of the methods used to monetize music through licensing/media placement, covering music publishing, songwriter agreements, performance rights and licenses for traditional/new media. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 372 Business and Legal Aspects of the Music Industry

Units: 4 An intermediate/advanced-level survey of music copyright law, artist contract analysis, infringement case studies as they affect modern/emerging business models and global music licensing. *Prerequisite:* MUIN 270 or MUIN 272x Duplicates Credit in former MUIN 372b Instruction Mode: Lecture Grading Option: Letter

MUIN 385 Radio in the Music Industry

Units: 4 Terms Offered: Fa A survey of radio; its operation and effect on the music industry. Topics include advertising, playlists, program direction, FCC, networks, news, promotion, payola and format development. Instruction Mode: Lecture, Discussion Grading Option: Letter

MUIN 410 Marketing, Branding and Strategic Alliances in Music

Units: 2 Terms Offered: FaSp An in-depth study of music marketing, non-traditional revenue streams for artists, musicians, and labels including artist endorsements, artist tour sponsorships, digital music programs, music licensing, merchandise, and a primary focus on brand partnership deals in the music space. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 420 DIY Music Marketing

Units: 2 Terms Offered: FaSp An exploration of the most current and effective marketing strategies and online branding tools for promoting, monetizing, and sustaining the career of the independent creative artist. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 425 Live Music Production and Promotion

Units: 4 A survey of the presentation of the live musical experience. Both classical and popular concert presentation will be examined including venue selection, promotion and security. Instruction Mode: Lecture Grading Option: Letter

MUIN 430 Artist Management and Development

Units: 4 A study of issues relating to the personal management of music artists including negotiating contracts, image, career development, agents, touring, merchandising, fees and duties. Instruction Mode: Lecture, Discussion Grading Option: Letter

MUIN 435 Manufacture and Distribution of Musical Products

Units: 4 Terms Offered: Sp An in-depth study of musical instrument manufacture and distribution in the United States. Topics covered include sheet music, instrument rentals, lessons and band operations. Instruction Mode: Lecture Grading Option: Letter

MUIN 440 Arts Management

Units: 4 Terms Offered: Fa A survey of the management of non-profit and for-profit arts organizations with emphasis on funding, donor development tax status and promotion. Instruction Mode: Lecture Grading Option: Letter

MUIN 443 The Business of Music for Visual Media

Units: 4 Terms Offered: FaSpSm Introduction to music designed for synchronization to picture including history of music in cinema, music editing, supervision, performance rights licensing, production, and music scoring procedures. *Prerequisite:* MUIN 360 or MUIN 372. Instruction Mode: Lecture Grading Option: Letter

MUIN 444 Music Supervision

Units: 4 An advanced focus on the music supervisor's role, working with directors, producers, licensing representatives and executives to select, budget and clear songs for broadcast/new media. *Prerequisite:* MUIN 360 or MUIN 372 Instruction Mode: Lecture Grading Option: Letter

MUIN 445 International Music Industry

Units: 4 Terms Offered: Sp A survey of international operations of music distribution, publishing, touring, law, promotion, customs and practices. *Prerequisite:* MUIN 360. Instruction Mode: Lecture Grading Option: Letter

MUIN 450 Practicum in Music Industry Issues (Internship)

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Field application of music industry theories and practices; part-time employment. Project jointly defined by student, employer and professor. *Prerequisite:* MUIN 360 or MUIN 372. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 475 Advanced Concert Management

Units: 4 Terms Offered: Sp Application of theories, technologies, and practices of the live music industry. Focus on the business, management, marketing, promotion, and production of professional concert events. *Prerequisite:* MUIN 425. Instruction Mode: Lecture Grading Option: Letter

MUIN 476a Advanced Sound Reinforcement

Units: 2 Terms Offered: FaSp Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution. Instruction Mode: Lecture Grading Option: Letter

MUIN 476b Advanced Sound Reinforcement

Units: 2 Terms Offered: FaSp Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution. Instruction Mode: Lecture Grading Option: Letter

MUIN 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUIN 495 Web Design for the Music Industry

Units: 4 Terms Offered: FaSp A hands-on experience in which students work in teams to create web sites specifically designed to promote, market, and sell musical artists' products online. Instruction Mode: Lecture Grading Option: Letter

MUIN 496 Music Media Solutions

Units: 4 Terms Offered: FaSp Group study of one current music media issue, focusing on possible solutions with practical applications. Stress on leadership, critical thinking, and professional practices. Instruction Mode: Lecture Grading Option: Letter

MUIN 497 Current Topics, Case Studies, and Analysis

Units: 2 Max Units: 6.0 Terms Offered: FaSp Exploration of emerging topics and trends in business and technology in the music and entertainment industries. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 498a Final Capstone Project

Units: 1 Terms Offered: FaSp Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUIN 498b Final Capstone Project

Units: 1 Terms Offered: FaSp Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUIN 510 The Music Industry: Careers, Rights and Income Streams

Units: 4 History, procedures, economics and evolving technologies involved with careers, rights and income connected with artists, songwriters, producers, labels, music publishing, performance rights and visual media. Instruction Mode: Lecture Grading Option: Letter

MUIN 511 Music Industry History: Entrepreneurs, Moguls and Catalogs

Units: 2 Focus on recorded music's sounds and innovators. Includes in-depth research, discussion, presentations and memorization for greater cultural context. Instruction Mode: Lecture Grading Option: Letter

MUIN 512 The Management of Live Performances

Units: 2 Focus on the Artist, Promoter and Venue, and the roles they play in the Live Performance space, applying theory, technology, and practice. Instruction Mode: Lecture Grading Option: Letter

MUIN 515 Live Touring Strategy

Units: 2 Part of an emphasis track that focuses on advanced live touring strategies, methods and practices. Projects will apply theory and practice in a directed team oriented approach. Instruction Mode: Lecture Grading Option: Letter

MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships

Units: 2 Lecture and experiential learning focused on the role of an artist's personal manager including developing their story, assets and strategy for various product release campaigns. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 521 Music Industry/Producers Forum

Units: 1 Student-driven discussion, networking and Q&A with guest industry

leaders and role models, including producers, artists, music supervisors, concert promoters, agents, label executives, managers and attorneys. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 522 Music Marketing, Branding and Campaigns

Units: 3 An overview of music specific concepts and opportunities spanning various roles, tools, forms of music consumption, and campaign stages as it pertains to music marketing. Instruction Mode: Lecture Grading Option: Letter

MUIN 523 Survey/Analysis of Music Agreements

Units: 4 Focus on demystifying "legalese" and music industry standards by assessing actual contract examples for context, including recording, songwriter, producer, media licensing, sponsorship and band partnerships. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 525 Concert Promotion, Venue Management and Event Planning

Units: 3 Overview of the three areas that comprise most of the live performance spaces, and focuses on the artist, promoter and venue ("Circle of Live") and the roles they play in the performance. Instruction Mode: Lecture Grading Option: Letter

MUIN 526 Music Supervision, Production and Creative Licensing

Units: 3 A comprehensive look at contemporary music supervision for all visual media. Students will creatively apply guided lessons using real world example cases and projects. *Prerequisite:* MUIN 510 and MUIN 511 Instruction Mode: Lecture Grading Option: Letter

MUIN 530 Mentorship

Units: 1 A semester bridge for students working on job preparation, career skills, and continued efforts before launching their final campaign projects and graduation portfolio. *Prerequisite:* MUIN 520 Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 540 Artist Management: Campaign Execution and Hindsight Analysis

Units: 2 Lecture and experiential learning focused on the role of an artist's personal manager including executing various release campaigns and hindsight assessment to inform future endeavors. *Prerequisite:* MUIN 520 Instruction Mode: Lecture Grading Option: Letter

MUIN 541 Data Analytics: Music Marketing Decisions and Presentations

Units: 2 The when, why and how data analysis tools are used to assist music professionals and better support marketing decisions, beyond the realm of intuition and aesthetic appeal. *Prerequisite:* MUIN 522 Instruction Mode: Lecture Grading Option: Letter

MUIN 542 Developing Copyright Laws and Business Models

Units: 3 Study of advanced copyright law, conflicts and entrepreneurial opportunities to gain insight into what is evolving for the globalized digital music industry.

Prerequisite: MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 570 The Music Industry

Units: 4 Terms Offered: FaSpSm A graduate level survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, musical products and live music. Instruction Mode: Lecture Grading Option: Letter

MUIN 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 598 Internship

Units: 1 Max Units: 04 Students gain insight, experience and networking opportunities within the industry areas they wish to consider as a career. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUIN 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Jazz Studies

MUJZ 100mx Jazz: America's Music

Units: 4 Music of the jazz greats. Experience through live performances, field trips, readings, recordings, videos and guest lectures. Instruction Mode: Lecture Grading Option: Letter

MUJZ 101x Non-Major Beginning Individual Instruction

Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MUJZ 105a Jazz Theory

Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

MUJZ 105b Jazz Theory

Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

MUJZ 141a Basic Keyboard Skills for the Improviser

Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the

ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 141b Basic Keyboard Skills for the Improviser

Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 142a Jazz Ear Training

Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

MUJZ 142b Jazz Ear Training

Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

MUJZ 150 Beginning Jazz Improvisation

Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of beginning improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. Instruction Mode: Lecture Grading Option: Letter

MUJZ 153 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 180 Techniques of Jazz Improvisation

Units: 2 Max Units: 4.0 Development of improvisational skills through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 195L Jazz Elements I

Units: 2 Max Units: 8.0 Terms Offered: FaSp Study of compositional, improvisational, performance, and arranging elements found in jazz. Students will model influential groups and jazz artists. Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 196 Jazz Combo I

Units: 2 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature for jazz chamber groups. Duplicates Credit in MUEN 332. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 200a Jazz Styles Analysis

Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Styles through Progressive Swing. Duplicates Credit in former MUCO 200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 200b Jazz Styles Analysis

Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Bebop to the present. Duplicates Credit in former MUCO

200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218a Afro-Latin Percussion Instruments

Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218b Afro-Latin Percussion Instruments

Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 252 Individual Instrument Performance Class I

Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MUJZ 253 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286a The History of Jazz

Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. *Prerequisite:* MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286b The History of Jazz

Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. *Prerequisite:* MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 300x Non-Major Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MUJZ 201 and MUJZ 401. Instruction Mode: Lecture Grading Option: Letter

MUJZ 301 Individual Instruction

Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction: secondary emphasis for music majors, principal emphasis for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MUJZ 201 and MUJZ 401. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305a Advanced Jazz Theory

Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and

scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305b Advanced Jazz Theory

Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 311 Vocal Jazz Techniques

Units: 2 Max Units: 4.0 Development of skills needed for the professional vocal jazz musician. Study of the standard jazz repertoire, vocal improvisation, lead sheet writing, and working with rhythm sections. *Prerequisite:* MUJZ 180. Instruction Mode: Lecture Grading Option: Letter

MUJZ 341 Keyboard Skills for Improvisers

Units: 2 Reading skills related to jazz accompanying; "fake" books, chord progressions commonly used in jazz. *Prerequisite:* MPKS 250a, MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342a Aural Skills for Improvisers

Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. *Prerequisite:* MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342b Aural Skills for Improvisers

Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. *Prerequisite:* MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 347 Jazz Composition

Units: 2 Max Units: 4.0 Composing in the jazz medium. Duplicates Credit in former MUCO 347. Instruction Mode: Lecture Grading Option: Letter

MUJZ 350g A History of Jazz Music

Units: 4 A history of jazz music and the styles of music considered antecedents to jazz. *Recommended Preparation:* MUHL 250 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUJZ 353 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Duplicates Credit in former PLDV 410. Instruction Mode: Lecture Grading Option: Letter

MUJZ 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUJZ 395 Jazz Elements II

Units: 2 Max Units: 8.0 Terms Offered: FaSp Advanced study of compositional, improvisational, performance, conducting, and arranging elements found in the jazz repertoire. Students will be encouraged to forge individual musical expressions. Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 396 Jazz Combo II

Units: 2 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of literature for jazz combos. *Prerequisite:* MUJZ 195. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 400 Arranging for Jazz Ensemble

Units: 2 Scoring for jazz ensemble with emphasis on writing for sections of like and mixed instruments as well as full ensemble. Duplicates Credit in former MUCO 400. Instruction Mode: Lecture Grading Option: Letter

MUJZ 403 Studio Singing Techniques

Units: 2 Terms Offered: FaSp Study of technique, theory and aural skills as applied to studio singing; critical listening; study of various styles; ear training and sight singing as these apply to working in a studio. *Recommended Preparation:* jazz background; can read music and sing well. Instruction Mode: Lecture Grading Option: Letter

MUJZ 419m The Jazz Experience: Myths and Culture

Units: 4 Terms Offered: FaSp An examination of the music, culture, and mythology of jazz revealed through the study of jazz fiction, film, poetry, and recorded examples. Instruction Mode: Lecture Grading Option: Letter

MUJZ 443 Jazz Pedagogy

Units: 2 Terms Offered: Sp Concepts, methods, and resources; examination and comparison of textbooks, recordings, tapes, and materials related to the study and teaching of jazz. Duplicates Credit in former MUJZ 443. Instruction Mode: Lecture Grading Option: Letter

MUJZ 450 Intermediate Jazz

Improvisation

Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of intermediate improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. *Recommended Preparation:* MUJZ 150. Instruction Mode: Lecture Grading Option: Letter

MUJZ 451 Advanced Jazz Improvisation

Units: 2 Max Units: 4.0 Terms Offered: Sp Development of advanced improvisational skills, including Lydian-chromatic and bi-modal techniques, through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 452 Individual Instrument Performance Class II

Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion

majors each semester in residence.

Instruction Mode: Lecture Grading Option: Letter

MUJZ 453 Individual Instruction

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 486 Jazz Masters from World War II to the Present

Units: 2 Examination of major jazz artists from World War II to the present with emphasis on the innovators of each period. Detailed analysis of selected repertoire. *Recommended Preparation:* MUJZ 419. Duplicates Credit in former MUHL 486. Instruction Mode: Lecture Grading Option: Letter

MUJZ 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 501 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 545 Jazz Ensemble Development

Units: 2, 2 years Terms Offered: Sp Techniques, approaches, teaching materials, and music useful in developing jazz ensembles in educational settings, from junior high school through college. Duplicates Credit in former MUED 547. Instruction Mode: Lecture Grading Option: Letter

MUJZ 547 Jazz Composition

Units: 2 Max Units: 4.0 Terms Offered: Fa Application of theoretical and compositional techniques used in jazz to written music. Analysis and performance of historical and contemporary examples will be included. Duplicates Credit in former MUCO 547. Instruction Mode: Lecture Grading Option: Letter

MUJZ 551 Graduate Jazz Improvisation

Units: 2 Terms Offered: Sp Development of proficiency in improvising to advanced jazz concepts, including transposition, substitute harmony, superimposed harmony, atypical harmonic schemes and contemporary chord and scale types. *Prerequisite:* MUJZ 451. Instruction Mode: Lecture Grading Option: Letter

MUJZ 553 Individual Instruction

Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUJZ 554 Graduate Certificate Performance

Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate

students. Instruction Mode: Lecture Grading Option: Letter

MUJZ 588 Special Studies in Jazz Performance

Units: 2 Max Units: 6.0 Performance problems, composers and/or stylistic analysis of music from the jazz idiom. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 653 Performance

Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 688 Special Topics in Jazz Performance

Units: 2 Max Units: 4.0 Terms Offered: Fa Examination and analysis of solo and compositional repertory of the jazz idiom through transcription and comparative research. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Music

MUSC 102gw World Music

Units: 4 Exploration of music and cultures of the world. Engagement with international musicians, global issues, field work and musical diasporas in Los Angeles. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUHL 302 Instruction Mode: Lecture Grading Option: Letter

MUSC 110 Freshman Forum

Units: 1 Terms Offered: FaSp Introduction to issues and skills relevant to the professional musical world of today. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 115gp Western Music as Sounding History

Units: 4 An introduction to Western art music and culture from the Medieval, Renaissance, Baroque, Classical, Romantic and Modern eras through reading, listening, analyzing and writing about music. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit

in former MUHL 315 Instruction Mode: Lecture Grading Option: Letter

MUSC 170g Classics of Music and Literature: from Ancient Greece Through Contemporary LA

Units: 4 Terms Offered: FaSp (Enroll in CLAS 170g)

MUSC 200gmw The Broadway Musical: Reflections of American Diversity

Units: 4 A uniquely American genre, the Broadway musical serves as a catalyst for inquiry into human diversity, cross-culturalism, and significant social and political issues. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 400 Instruction Mode: Lecture Grading Option: Letter

MUSC 210g Electronic Music and Dance Culture

Units: 4 The origins and development of EDM and its relatives such as disco, house, techno, rave and electronica, focusing on cultural and technological influences. Satisfies New General Education in Category A: The Arts Duplicates Credit in former MUSC 410 Instruction Mode: Lecture Grading Option: Letter

MUSC 250gmw The Music of Black Americans

Units: 4 A chronicle of the musical contribution of Africans and African Americans to American society and to the foundations of musical genres and styles throughout the world. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 450 Instruction Mode: Lecture Grading Option: Letter

MUSC 255 Songwriting I

Units: 2 Terms Offered: FaSp Development of musical and lyrical skills, composing, listening, analysis, and critiques of popular original music. Instruction Mode: Lecture Grading Option: Letter

MUSC 320gmw Hip-hop Music and Culture

Units: 4 A history of hip-hop music from its inception to the present: its musical processes and styles, as well as attendant social, political and cultural issues. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 420 Instruction Mode: Lecture Grading Option: Letter

MUSC 355 Songwriting II

Units: 2 Terms Offered: FaSp Continuation of Songwriting I; particular emphasis on the analysis of the techniques of important popular songwriters and the application of these techniques to original songs. *Prerequisite:* MUSC 255. Duplicates Credit in former MUCO 252. Instruction Mode: Lecture Grading Option: Letter

MUSC 371g Musical Genre Bending

Units: 4 The aesthetic and ethical issues of genre-bending music in 20th and 21st century rock, classical, jazz, and folk music. Satisfies

New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 372g Music, Turmoil and Nationalism

Units: 4 An exploration of musical practices and styles which reflect and shape national identities and which focus on those created in response to political turmoil in many forms. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 373g Writing About Popular Music

Units: 4 Immerses students in criticism, scholarship, and creative writing dealing with popular music. Students participate in that discourse through developing their own authorial voices. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 422 The Beatles: Their Music and Their Times

Units: 4 Music, lyrics, recordings, production techniques, career strategy, social ramifications, and especially the technological impact of the musical group known as The Beatles. Instruction Mode: Lecture Grading Option: Letter

MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies

Units: 2 Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular music reflecting the turbulent societal changes during the Sixties and Seventies. Instruction Mode: Lecture Grading Option: Letter

MUSC 424 Iconic Figures of Popular Music

Units: 2 Max Units: 8.0 Terms Offered: FaSp Music, life, recordings, and attendant musical, cultural and political influences of a seminal musician or group in 20th or 21st century popular music. Instruction Mode: Lecture Grading Option: Letter

MUSC 430m Music and the Holocaust

Units: 4 Terms Offered: FaSp Study of the creation and performance of Holocaust related music from 1933 to the present, including interaction with other arts. Instruction Mode: Lecture Grading Option: Letter

MUSC 444 American Roots Music: History and Culture

Units: 4 Terms Offered: Irregular The history, genre, styles, songs, lyrics, and influences of American vernacular music in the 20th century, including the background that spawned these musical genres. Instruction Mode: Lecture Grading Option: Letter

MUSC 455 Songwriting III: The Performing Songwriter

Units: 2 Continuation of Songwriting I and II with emphasis on the development of performance skills of original popular music in preparation for songwriting showcases. *Prerequisite:* MUSC 355. Duplicates Credit in former MUCO 254. Instruction Mode: Lecture Grading Option: Letter

MUSC 460 Film Music: History and Function from 1930 to the Present

Units: 4 Terms Offered: Fa A survey of the art and craft of film music as practiced by outstanding composers in motion pictures. Instruction Mode: Lecture Grading Option: Letter

MUSC 465 Music, Television and American Culture

Units: 4 Terms Offered: Sp An exploration of the social and cultural impact of music written for, popularized by, or exploited by American television from the 1950s through today. Instruction Mode: Lecture Grading Option: Letter

MUSC 470 Contemporary Popular Music: A Global Perspective

Units: 2 Terms Offered: Sm Contemporary popular music in global culture; includes performance and collaboration opportunities with local musicians. Instruction Mode: Lecture Grading Option: Letter

MUSC 475 Musician's Health and Wellness

Units: 2 Interactive exploration of injury prevention, body awareness disciplines, effective practice strategies, warm-ups and stretches, performance anxiety, hearing protection, and other pertinent wellness topics for musicians. *Recommended Preparation:* Music background Instruction Mode: Lecture Grading Option: Letter

MUSC 480 Young Artist Project I

Units: 2 Ideation and development of plans for unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. Instruction Mode: Lecture Grading Option: Letter

MUSC 481 Young Artist Project II

Units: 2 Refinement, execution and reflection on unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. *Prerequisite:* MUSC 480 Instruction Mode: Lecture Grading Option: Letter

MUSC 496 Careers in Music

Units: 2 Terms Offered: Sp A study of the practical aspects of the music business, including the history, procedures, standard practices, economics and technologies employed by the music industry. Instruction Mode: Lecture Grading Option: Letter

MUSC 498x Internship in Music

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to Bachelor of Music and Bachelor of Arts, Music majors only. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUSC 598 Internship in Music

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience

in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUSC 798 Internship in Music

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to doctoral students in music. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 800 Studies for the Qualifying Examination in Music

Units: 0 Terms Offered: FaSpSm Studies for the qualifying examination. Duplicates Credit in the former GRSC 800 Instruction Mode: Lecture Grading Option: Credit/No Credit

Nautical Science

NAUT 001ax Deepwater Cruising

Units: 2 Terms Offered: FaSp An experiential approach to the sailing ship and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamanship. Instruction Mode: Lecture Grading Option: Letter

NAUT 001bx Deepwater Cruising

Units: 2 Terms Offered: FaSp An experiential approach to the sailing ship and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamanship. Instruction Mode: Lecture Grading Option: Letter

NAUT 002ax Advanced Deepwater Cruising

Units: 2 Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ships engineering, and oceanography relevant to seamanship. *Prerequisite:* NAUT 001a. Duplicates Credit in former NAUT 302ab. Instruction Mode: Lecture Grading Option: Letter

NAUT 002bx Advanced Deepwater Cruising

Units: 2 Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ships engineering, and oceanography relevant to seamanship. *Prerequisite:* NAUT 001b. Duplicates Credit in former NAUT 302ab. Instruction Mode: Lecture Grading Option: Letter

Neuroscience (Undergraduate)

NEUR 199 Neuroscience Colloquium

Units: 1 Terms Offered: Sp (Enroll in BISC 199)

NEUR 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration

permitted. Enrollment by petition only.
Instruction Mode: Lecture Grading Option:
Letter

NEUR 407 Cellular and Molecular Neuroscience

Units: 4 Terms Offered: FaSp (Enroll in BISC 407)

NEUR 408 Systems Neuroscience: From Synapses to Perception

Units: 4 Terms Offered: Sp (Enroll in BISC 408)

NEUR 421 Neurobiology

Units: 4 Terms Offered: Fa (Enroll in BISC 421)

NEUR 422 Neuropsychology

Units: 4 Terms Offered: Irregular (Enroll in PSYC 424)

NEUR 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disord

Units: 4 Terms Offered: Sp (Enroll in BISC 423)

NEUR 424 Brain Architecture

Units: 4 Terms Offered: Sp (Enroll in BISC 424)

NEUR 425 Functional Imaging of the Human Brain

Units: 4 Terms Offered: Irregular (Enroll in PSYC 425)

NEUR 426 Principles of Neural Development

Units: 4 Terms Offered: Sp (Enroll in BISC 426)

NEUR 440 Introduction to Cognitive Neuroscience

Units: 4 (Enroll in PSYC 440)

NEUR 450 Neural Network Models of Social and Cognitive Processes

Units: 4 Terms Offered: Irregular (Enroll in PSYC 450)

NEUR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

NEUR 493x Neuroscience Honors Seminar

Units: 1 Max Units: 4.0 Terms Offered: FaSp
Students attend lectures of distinguished neuroscientists visiting USC and give short, chalk-talk presentations summarizing the lecture. The presentations are critiqued by the students. *Prerequisite:* BISC 220 or BISC 221; *Recommended Preparation:* BISC 421. Instruction Mode: Lecture Grading Option: Letter

NEUR 494x Honors Thesis

Units: 2 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

NEUR 533 Cognitive Neuroscience

Units: 4 Terms Offered: Sp (Enroll in PSYC 540)

NEUR 534L Computational Neuroengineering

Units: 3 (Enroll in BME 575)

NEUR 535 Brain Theory and Artificial Intelligence

Units: 3 (Enroll in CSCI 564)

NEUR 542 Hearing and Communication Neuroscience

Units: 4 Terms Offered: Sp (Enroll in BISC 521)

Neuroimaging and Informatics

NIIN 500 Neuroimaging and Systems Neuroscience

Units: 3 Terms Offered: Fa Overview of elemental neuroanatomy and brain systems with an emphasis on a neuroimaging perspective in the human and mouse. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 510 Fundamentals of Human Neuroimaging

Units: 3 Terms Offered: Fa Survey of anatomical and functional neuroimaging approaches and their use to explore the healthy as well as diseased human brain. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 520 Experimental Design for Neuroimaging

Units: 3 Terms Offered: Sp Examine experimental design approaches for experimental and clinical neuroimaging investigation. Topics on how to develop rigorous experiments to test theories of cognitive and clinical neuroscience. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture Grading Option: Letter

NIIN 530 Neuroimaging Data Acquisition w/ Magnetic Resonance Imaging

Units: 3 Terms Offered: Fa Introduces the various approaches used to image the living brain using MR-based techniques. Covers neuroimaging scanning technologies, pulse sequence design, and sources of image artifact. *Recommended Preparation:* familiarity with Matlab. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture Grading Option: Letter

NIIN 540 Neuroimaging Data Processing Methods

Units: 3 Terms Offered: Fa Comprehensive investigation of data processing methods, software strategies, and workflow design and execution methodologies. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture Grading Option: Letter

NIIN 550 Computational Modeling in Neuroimaging

Units: 3 Terms Offered: Sp Addresses the current neuroinformatics approaches to large-scale data representations, mining, and visualization in brain imaging. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 560 Brain Architecture and Neuroanatomic Exploratory Techniques in Animal Models

Units: 3 Terms Offered: Sp Introduction

to basic theories and methodological approaches to neuroanatomy in animal models including histology, microscopy, behavioral investigations, and neuroinformatics. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture, Lab Grading Option: Letter

NIIN 570 Neuroimaging Genetics

Units: 3 Terms Offered: Sp Lectures on human genetics and epigenetics. Discuss how applying these concepts to brain imaging advances our understanding of healthy development and neurological disease. Emphasis on critical thinking applied both to designing neuroimaging genetics studies and to constructively assessing peer work and existing neuroimaging genetics literature. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 597 Current Topics in Neuroimaging Informatics

Units: 1 Terms Offered: Fa Leading researchers in the areas of basic and clinical brain imaging, computational methods, and informatics formally discuss their work for which students provide written critical review and comment. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 598 Neuroimaging and Informatics External Speaker Seminar Series

Units: 1 Terms Offered: Sp Reading and discussion of recent papers by the INI speaker of the week and attendance at the speaker's seminar. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

Naval Science

NSC 135 Introduction to Naval Science

Units: 2 Terms Offered: Fa Introduction to the structure, principles, and practices, lines of command and control, and functions of the various components of the naval service. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 137 Seapower and Maritime Affairs

Units: 3 Terms Offered: Sp Analysis of U.S. Navy development and campaigns; evolution of strategic, tactical, and maritime doctrines; interaction of naval affairs with national security and domestic policies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 251 Seamanship and Ship Operations

Units: 3 Terms Offered: Fa Vector solutions of relative motion, tactical problems; tactical communications, instructions; fleet communications, organizations; rules of the Nautical Road; aviation and maritime meteorology; operation plans and orders. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 283 Naval Ships Systems I (Engineering)

Units: 3 Terms Offered: Sp Types, structure, and purpose of Naval ships, compartmentation, propulsion systems,

auxiliary power systems, interior communications, ship control; ship design and stability. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 335 Navigation

Units: 3 Terms Offered: Fa Purposes, methods, and instruments of navigation; terrestrial and celestial navigation and nautical astronomy; time diagrams; lines of position by observation of celestial bodies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 337 Naval Ships Systems II (Weapons)

Units: 3 Terms Offered: Sp Systems approach to naval weapons; linear analysis of ballistics; weapons control systems configurations and dynamics. Field trips. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 343 Evolution of Warfare

Units: 3 Terms Offered: Fa Causes and practice of warfare from ancient times; impact of changes in strategy, tactics, and technology; modern revolutionary warfare, global conflict, and politico-military relationships. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 392 Amphibious Warfare

Units: 3 Terms Offered: Fa Concepts of seaborne military operations; relationship of factors involved; characteristic operations of World War II; amphibious operation planning. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 393 Fundamentals of Maneuver Warfare

Units: 3 Characteristics, requirements and problems of maneuver warfare; modern tactical principles and current military developments; other aspects of warfare and impact on maneuver warfare doctrine; historical perspectives for present and future decision-making. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 453 Leadership and Management I

Units: 3 Terms Offered: Fa Principles of human relationships; principles of decision making and management at the junior officer level; theory and techniques of leadership. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 454 Leadership and Management II

Units: 3 Terms Offered: Sp Introduction to primary duties of junior naval officers; counseling and interviewing techniques; review of basic administrative responsibilities at the division officer level. Instruction Mode: Lecture, Lab Grading Option: Letter

Neuroscience (Graduate)

NSCI 521 Hearing and Communication Neuroscience

Units: 4 Terms Offered: Sp (Enroll in BISC 521)

NSCI 524 Advanced Overview of Neurosciences

Units: 4 Terms Offered: Fa Study of the nervous system at multiple levels through the analysis of four themes: motor control;

emotion, motivation, and decision-making; memory and learning; and vision.

Prerequisite: BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 524. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHBI 524

NSCI 525 Advanced Overview of Neurosciences II

Units: 4 Terms Offered: Sp Sensory and motor systems, cognitive neuroscience, behavioral systems, computational neuroscience. *Prerequisite:* BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 525. Instruction Mode: Lecture Grading Option: Letter

NSCI 531 Molecular and Cellular Neurobiology

Units: 4 Terms Offered: FaSpSm Introduces fundamental principles of advanced molecular and cellular neurobiology including proteins and nucleic acids, cell biology of neurons and glia, synaptic transmission and neuronal signaling. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 531. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD-567

NSCI 532 Systems and Behavioral Neurobiology

Units: 3 Terms Offered: Fa Systems and behavioral neurobiology; hierarchical mechanisms controlling behavior, experimental techniques; perceptual (visual, auditory, somatosensory) systems; sensorimotor systems; motivated behavior; learning, memory and adaptation. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

NSCI 533 Cognitive Neuroscience

Units: 4 Terms Offered: Sp (Enroll in PSYC 540)

NSCI 539 Seminar in Neurobiology

Units: 1 Max Units: 4 Terms Offered: FaSp Seminar in Neurobiology. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 539. Instruction Mode: Lecture Grading Option: Letter

NSCI 540 Advanced Seminars in Neuroscience

Units: 1 Max Units: 8.0 Terms Offered: FaSpSm Advanced topic based seminarstyle courses in the diverse areas of Neuroscience. *Recommended Preparation:* NSCI 524. Registration Restriction: Open only graduate students. Instruction Mode: Lecture Grading Option: Letter

NSCI 541 Advanced Seminars in Neuroscience

Units: 2 Max Units: 12 Terms Offered: FaSpSm Advanced topic-based, seminar-style courses in the diverse areas of Neuroscience. *Prerequisite:* NSCI 524. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 541. Instruction Mode: Lecture Grading Option: Letter

NSCI 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

NSCI 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Special topics providing background for instruction and research in neuroscience through lectures, discussions, assigned readings and student presentations. Instruction Mode: Lecture Grading Option: Letter

NSCI 790 Research

Units: 1, 2, 3, 4, 5, 6 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

NSCI 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

NSCI 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Nursing

NURS 500 Bridge Course

Units: 2 Key concepts from chemistry, biochemistry, genetics, cell biology, metabolism, microbiology, and immunology in an 8-week format. Successful completion of this unique preparatory course is expected to position students for success in the graduate level pathophysiology and pharmacology courses. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 501 Pathophysiology for Advanced Nursing Practice

Units: 4 Advanced physiology/pathophysiology including general principles that apply across the lifespan. *Recommended Preparation:* Recent (within five years), satisfactory completion of undergraduate courses that include Organic Chemistry, Nutrition, Anatomy and Physiology. It is expected that enrolled students have reviewed their undergraduate course work in human anatomy and physiology, and possess a working knowledge of cell biology, biochemistry, nutrition, and human genetics at the undergraduate level. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 502 Advanced Health Assessment Across the Life Span

Units: 3 Development of advanced critical thinking and clinical judgement skills through comprehensive health assessment. Health promotion and health maintenance content is utilized to assess health status and evaluate health risk among individuals and groups. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 503 Theory: Clinical Management of Adult Patients

Units: 3 The scope of practice and responsibilities of the family nurse practitioner in prevention of disease, health maintenance, and the diagnosis and management of patients with common illnesses are explored. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 504 Pharmacology for Advanced Practice Nursing

Units: 3 Advanced pharmacology including pharmacodynamics, pharmacokinetics, and pharmacotherapeutics of all broad categories of agents. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 505 Clinical Practicum: Management of Adult Patients

Units: 3 Primary health care to patients throughout the life cycle with a focus on the prevention of disease, health maintenance, and the diagnosis and management of patients with common illnesses. *Prerequisite:* NURS 503 Registration Restriction: Open only to master students in Nursing

Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family

Units: 3 Diagnosing and managing childbearing women from preconception through uncomplicated pregnancy and postpartum periods and providing primary care to children and their families from newborn through adolescence periods. *Prerequisite:* NURS 503 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues

Units: 3 The scope of practice and responsibilities of the family nurse practitioner in the diagnosis and management of patients with acute, complex and chronic illnesses are explored. *Prerequisite:* NURS 503 and NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family

Units: 3 Clinical practicum is intended to prepare FNP students to provide primary health care to childbearing/childrearing families from preconception through adolescent phase of the life cycle. *Prerequisite:* NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 602 Research/Analytical Methods

Units: 3 Understanding and applying commonly used research methodologies and data analysis techniques in healthcare research. *Recommended Preparation:* statistics Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 603 Transforming Research Evidence into Practice

Units: 3 Preparing the advanced practice nursing student to critically evaluate knowledge, research and evidence for implementation of best practices in healthcare in order to deliver safe, ethical, culturally sensitive evidence based care for patients in diverse settings. *Prerequisite:* NURS 602 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues

Units: 3 Application of theoretical concepts studied in NURS 600. Comprehensive assessments, formulation of differential diagnoses, and the development of plans of care to manage acute and chronic complex in a variety of practice settings. *Prerequisite:* NURS 600 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 605 Professional Issues in Advanced Practice Nursing

Units: 2 The professional role and legal responsibilities of the nurse practitioner at entry to clinical practice and throughout a career are explored. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 606 Health Policy Principles in Changing Health Care Contexts

Units: 2 Foundation for leadership in interprofessional collaborative endeavors to address health policy that prepares learners to analyze and influence health policy and explores the role of nurse practitioners in the creation and modification of health policy. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 607 Theory: Family Primary Care

Units: 2 Capstone course draws on material and concepts learning throughout the FNP program and explores additional complex issues including management of pain, caregiver burden, palliative care, and end of life. *Prerequisite:* NURS 503 and NURS 507 and NURS 600 and NURS 602 and NURS 603 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 608 Clinical Practicum: Family Primary Care

Units: 3 Prepares the family nurse practitioner student for entry into practice in the diagnosis and management of patients with acute, complex, and chronic illnesses in the primary care setting. *Corequisite:* NURS 607 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

Occlusion

OCCL 310 Fundamentals of Dental Morphology

Units: 1 Fundamentals of tooth form; carving of the permanent teeth. Instruction Mode: Lecture Grading Option: Letter

OCCL 502 Occlusion

Units: 1 Principles of occlusion as related to clinical application of techniques and procedures to diagnose and treatment plan malfunctions of the stomatognathic system. Instruction Mode: Lecture Grading Option: Letter

OCCL 521a Dental Morphology and Function

Units: 3 Fundamentals of tooth form; principles of occlusion. Instruction Mode: Lecture Grading Option: Letter

OCCL 521b Dental Morphology and Function

Units: 2 Fundamentals of tooth form; principles of occlusion. Instruction Mode: Lecture Grading Option: Letter

OCCL 522 Occlusion Laboratory

Units: 1 Laboratory experience in functional analysis and correction of occlusal disharmonies. Instruction Mode: Lecture Grading Option: Letter

OCCL 601 Advanced Concepts of Occlusion

Units: 1 Historical perspective of occlusion; occlusal equilibration, effect of occlusal adjustment, instrumentation useful in occlusal therapy. Includes clinic and laboratory experience. Instruction Mode: Lecture Grading Option: Letter

Orofacial Pain Oral Medicine**OFPM 701 CPR, Blood and Airborne Infections and Common Emergencies for Dental Residents**

Units: 1 Terms Offered: Sm CPR training, review of common dental emergencies, and blood and airborne pathogens in dental patients. Instruction Mode: Lecture Grading Option: Letter

OFPM 702a Soft Tissue Disease for Dental Residents

Units: 1 Terms Offered: Sm Seminars on the various mucosal, cutaneous, gingival and salivary diseases and lesions in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 702b Soft Tissue Disease for Dental Residents

Units: 2 Terms Offered: Fa Seminars on the various mucosal, cutaneous, gingival and salivary diseases and lesions in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 703 Local Anesthesia, Minor Surgery and Biopsy Procedures for Dental Residents

Units: 1 Terms Offered: Sm Seminars on local anesthesia methods and minor surgical procedures appropriate for the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents

Units: 1 Terms Offered: Sm Review of the oral and maxillofacial region osseous and odontogenic pathologies and the various imaging methods used to examine this anatomic region. Instruction Mode: Lecture Grading Option: Letter

OFPM 705 Neurogenic Based Oral and Facial Pains for Dental Residents

Units: 2 Terms Offered: Sp Seminars on the diagnostic and therapeutic procedures appropriate for chronic neurogenic based pain disorders that occur in the orofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 706 TMD, Orthopedics, Rheumatology and Physical Therapy for Dental Residents

Units: 2 Terms Offered: Fa Seminars on various topics relating to the diagnosis and management of Temporomandibular disorders. Instruction Mode: Lecture Grading Option: Letter

OFPM 707 Pharmacology Series for Dental Residents

Units: 2 Terms Offered: Fa Seminars on common medications used in the practice of oral medicine and chronic orofacial pain. Instruction Mode: Lecture Grading Option: Letter

OFPM 709 Headaches for Dental Residents

Units: 1 Terms Offered: Sp Seminars on the diagnosis, prevention and management (including pathophysiologic mechanisms) of episodic and chronic headache disorders. Instruction Mode: Lecture Grading Option: Credit/No Credit

OFPM 710a Knowledge Assessment for OFPM Residents

Units: 1 Terms Offered: Sm Includes several intensive calibration/training sessions, with multiple practical demonstrations of methods and techniques. Skill development includes TM joint injection, myofascial palpation, oral cancer screening, biopsy, trigger-point injections and salivary gland cannulation, with mock and virtual patients. Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 710b Knowledge Assessment for OFPM Residents

Units: 1 Terms Offered: Sm Several intensive calibration/training/ sessions based on content that the resident is expected to have mastered by the end of the program, specifically in the field of Oral Medicine. *Prerequisite:* OFPM 710a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 721 Neurosciences for Dental Residents

Units: 2 Terms Offered: Fa Seminars on the neurophysiologic and neuroanatomic bases of chronic orofacial pain disorders. Instruction Mode: Lecture Grading Option: Letter

OFPM 722 Internal Medicine and Systemic Disease for Dental Residents

Units: 2 Terms Offered: Sp Seminars on common systemic diseases and the potential interactions with oral disease and treatment. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GDEN-722

OFPM 723 Systems Physiology, Motor Disorders and Sleep Apnea for Dental Residents

Units: 2 Terms Offered: Fa Seminars on various topics relating to oral motor disorders and sleep disordered breathing (as it relates to the mandible and tongue.) Instruction Mode: Lecture Grading Option: Letter

OFPM 724 Psychological and Psychometric Assessment for Dental Residents

Units: 2 Terms Offered: Sm Seminars on various topics relating to biobehavioral diagnosis and, where appropriate, psychological management of patients with chronic illness in the orofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents

Units: 2 Terms Offered: Sm Seminar on the epidemiology of oral disease and nutritional topics as related to the aging patient. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GDEN-725

OFPM 726 Immunology and Immunosuppression for Dental Residents

Units: 2 Terms Offered: Fa Seminar course on immunology and immunosuppression as it relates to diseases in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents

Units: 2 Terms Offered: Sm Seminar organized around infectious diseases in the oral, pharyngeal and nasal region. Instruction Mode: Lecture Grading Option: Letter

OFPM 728 Case Presentations by OFP-OM Residents

Units: 2 Terms Offered: Sp Case presentations by Orofacial Pain/Oral Medicine residents in which each resident presents and defends the diagnostic and treatment methods selected for a particular case. Instruction Mode: Lecture Grading Option: Letter

OFPM 729a Capstone Project for OFPOM Residents

Units: 0.5 Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729b Capstone Project for OFPOM Residents

Units: 0.5 Terms Offered: Fa Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729c Capstone Project for OFPOM Residents

Units: 0.5 Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729b Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729d Capstone Project for OFPOM Residents

Units: 0.5 Terms Offered: Fa Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729c Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 730a Case Portfolio Preparation by Online OFPOM Residents

Units: 0.5 Terms Offered: Fa Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730b Case Portfolio Preparation by Online OFPOM Residents

Units: 0.5 Terms Offered: Sp Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730c Case Portfolio Preparation by Online OFPOM Residents

Units: 0.5 Terms Offered: Fa Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730b Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730d Case Portfolio Preparation by Online OFPOM Residents

Units: 0.5 Terms Offered: Sp Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730c Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730e Case Portfolio Preparation by Online OFPOM Residents

Units: 0.5 Terms Offered: Sm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730d Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 731 Case Portfolio Review and Defense

Units: 0.5 Terms Offered: Sm Residents must complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 730b Instruction Mode: Lecture, Discussion Grading Option: Letter

Orofacial Pain**OFPM 705 Neurogenic Based Oral and Facial Pains**

Units: 2 Terms Offered: FaSpSm Covers the prevalence, differential diagnosis, prevention and management for the various neurogenic orofacial and headache disorders occurring in the oral regions. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 705 Instruction Mode: Lecture Grading Option: Letter

OFPM 706 TMD, Orthopedics, Rheumatology, and Physical Therapy

Units: 2 Terms Offered: FaSpSm Prevalence, differential diagnosis, prevention and management for the common and uncommon temporomandibular, arthrogenous, motor, mobility and growth disorders occurring in the oral region. Registration Restriction:

Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 706 Instruction Mode: Lecture Grading Option: Letter

OFPM 707 Pharmacology Series

Units: 2 Terms Offered: FaSpSm Educate dental graduate students about the general pharmacologic principles and appropriate use of specific pharmaco-therapeutic classes of drugs. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 707 Instruction Mode: Lecture Grading Option: Letter

OFPM 710 Knowledge Assessment

Units: 1 Terms Offered: FaSpSm Students attend USC campus to validate skills and perform in-person evaluations. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 710a Instruction Mode: Lecture Grading Option: Letter

OFPM 723 Systems Physiology, Motor Disorders, and Sleep Apnea

Units: 2 Terms Offered: FaSpSm Presentation, diagnosis, mechanism and management of oral motor disorders and sleep disordered breathing providing knowledge about general issues of physiology associated with the masticatory system. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 723 Instruction Mode: Lecture Grading Option: Letter

OFPM 724 Psychological and Psychometric Assessment

Units: 2 Terms Offered: FaSpSm Practical aspects of psychological issues (diagnosis and treatment) and psychometrics as they impact patients in an orofacial pain and oral medicine specialty clinic. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 724 Instruction Mode: Lecture Grading Option: Letter

OFPM 730a Case Portfolio Preparation

Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730a Instruction Mode: Lecture Grading Option: Letter

OFPM 730b Case Portfolio Preparation

Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. *Prerequisite:* OFPM 730a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730b Instruction Mode: Lecture Grading Option: Letter

OFPM 730c Case Portfolio Preparation

Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. *Prerequisite:* OFPM 730b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730c Instruction Mode: Lecture Grading Option: Letter

Oral Medicine Oral Diagnosis**OMOD 501 Emergency Dental Treatment**

Units: 1 Dental emergencies in a general dental practice; emphasis on diagnosis of pain, trauma, infections, abscesses, myofacial problems, pulpal considerations, restorative goals; interrelationship of these areas. Instruction Mode: Lecture Grading Option: Letter

OMOD 502 Chronic Orofacial Pain

Units: 2 Current concepts of pain mechanisms; application to differential diagnosis, treatment, and management of chronic head, neck, and dental pain. Instruction Mode: Lecture Grading Option: Letter

OMOD 505 Oral Medicine

Units: 2 Detection, recognition, assessment, management and treatment modification of medical conditions presented by dental patients. Instruction Mode: Lecture Grading Option: Letter

OMOD 506 Infection Control

Units: 1 Infection control and clinical asepsis in the dental office; ethical and legal aspects; specific agents of disease; epidemiology. Instruction Mode: Lecture Grading Option: Letter

OMOD 551a Clinic: Physical Evaluation

Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551b Clinic: Physical Evaluation

Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551c Clinic: Physical Evaluation

Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551d Clinic: Physical Evaluation

Units: 1 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: Letter

OMOD 562a Clinic: Hospital Dentistry

Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 562b Clinic: Hospital Dentistry

Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital

environment. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

OMOD 562c Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

OMOD 562d Clinic: Hospital Dentistry
Units: 1 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture
Grading Option: Letter

OMOD 563a Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563b Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563c Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563d Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563e Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563f Clinic: Emergency Dental Treatment
Units: 1 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: Letter

Operative Dentistry

OPER 520 Preclinical Operative Dentistry (ISP)
Units: 3 Preparation for clinical work through study of fundamentals of cavity design and restoration of cavity preparations on extracted teeth mounted in a manikin. Instruction Mode: Lecture Grading Option: Letter

OPER 521a Preclinical Operative Dentistry I
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter

OPER 521b Preclinical Operative Dentistry I
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter

OPER 522 Preclinical Operative Dentistry II
Units: 3 Fundamentals of cavity design; restoration of cavity preparations on extracted teeth mounted in the manikin. Instruction Mode: Lecture Grading Option: Letter

OPER 561a Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561b Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561c Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561d Clinic: Operative Dentistry I
Units: 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 562a Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 562b Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 620 Conservative Cast Gold Restorations
Units: 2 Principles of cavity preparation, fabrication technique and finishing for conservative cast gold restorations; includes

lab and clinic. Instruction Mode: Lecture
Grading Option: Letter

OPER 701a Seminar: Advanced Operative Dentistry I
Units: 2 Terms Offered: Fa In-depth study of the biomechanics applied to cavity preparation according to material selection, bonding procedures, and protection of the pulp/dentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion
Grading Option: In-progress to Credit/No Credit

OPER 701b Seminar: Advanced Operative Dentistry I
Units: 2 Terms Offered: Fa In-depth study of the biomechanics applied to cavity preparation according to material selection, bonding procedures, and protection of the pulp/dentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 702aL Advanced Dental Morphology for Esthetic Restorations
Units: 3 Terms Offered: Sm In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 702bL Advanced Dental Morphology for Esthetic Restorations
Units: 3 Terms Offered: Fa In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 704a Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 704b Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704a Registration Restriction: Open only to the Herman Ostrow School of Dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 704c Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704b Registration

Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704d Operative Dentistry and Biomaterials Literature Review

Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704c Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704e Operative Dentistry and Biomaterials Literature Review

Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704d Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704f Operative Dentistry and Biomaterials Literature Review

Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704e Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 705L Dental Photography

Units: 1 Terms Offered: FaSpSm Basic principles of dental photography and its use in clinical dentistry for shade selection, replication of dental esthetic components, and clinical case documentation. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 706 Operative Implant Dentistry

Units: 1 Terms Offered: Sp Basic principles of implants applied to operative and adhesive dentistry. Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 710a Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710b Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710c Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710d Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710e Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710f Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710h Seminar: Advanced Operative Dentistry II

Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 715aL Applied Adhesion Sciences

Units: 2 Terms Offered: FaSpSm Advanced adhesive procedures for esthetic dental rehabilitation. Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 715bL Applied Adhesion Sciences

Units: 2 Terms Offered: FaSpSm Advanced adhesive procedures for esthetic dental rehabilitation. *Prerequisite:* OPER 715a Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 715cL Applied Adhesion Sciences

Units: 2 Terms Offered: FaSpSm Advanced

adhesive procedures for esthetic dental rehabilitation. *Prerequisite:* OPER 715b Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 720a Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720b Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720c Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720d Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720e Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720f Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720h Seminar: Advanced Operative Dentistry III

Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 725a Cariology

Units: 1 Terms Offered: FaSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 725b Cariology

Units: 1 Terms Offered: FaSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. *Prerequisite:* OPER 725a Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 730a Seminar: Advanced Operative Dentistry IV

Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730b Seminar: Advanced Operative Dentistry IV

Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730c Seminar: Advanced Operative Dentistry IV

Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730d Seminar: Advanced Operative Dentistry IV

Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 735aL Research Methodology

Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific

investigation on dental biomaterials.

Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 735bL Research Methodology

Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific investigation on dental biomaterials.

Prerequisite: OPER 735aL Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 740a Seminar: Advanced Operative Dentistry V

Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 740b Seminar: Advanced Operative Dentistry V

Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 740c Seminar: Advanced Operative Dentistry V

Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750a Seminar: Advanced Operative Dentistry VI

Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750b Seminar: Advanced Operative Dentistry VI

Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750c Seminar: Advanced Operative Dentistry VI

Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760a Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations

for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760b Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760c Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760d Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760e Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760f Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760h Seminar: Advanced Operative Dentistry VII

Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations

for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765a Seminar: Advanced Operative Dentistry VIII

Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765b Seminar: Advanced Operative Dentistry VIII

Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765c Seminar: Advanced Operative Dentistry VIII

Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765d Seminar: Advanced Operative Dentistry VIII

Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770aL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770bL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770cL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and

experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770dL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770eL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770fL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770hL Scientific Investigation in Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 780a Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: In-progress to Credit/No Credit

OPER 780b Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving

complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780c Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780d Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780e Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780f Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780h Treatment Planning in Operative Dentistry

Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. *Prerequisite:* OPER 780f Registration Restriction: Open only to master and professional students in Advanced Operative and Adhesive Dentistry, and Advanced Operative Dentistry majors Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 795a Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OPER 795b Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795c Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795d Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795e Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 10.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795f Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795h Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795i Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and

laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795j Clinic: Advanced Operative Dentistry

Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Oral Pathology and Radiology

OPER 701 Bone Pathology and Oral and Maxillofacial Radiology

Units: 1 Terms Offered: Sm Focus on the interpretation of hard tissue imaging studies, including conventional dental imaging in the diagnosis along with the basics of medical radiographic modalities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPER 702 Principles and Practice of Oral Medicine

Units: 1 Terms Offered: Sm An overview of patients with primary oral conditions and oral diseases related to systemic pathology. Practice management issues discussed. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPER 703 General and Systemic Human Pathology

Units: 1 Terms Offered: Sm Disease mechanisms and principles of the pathological entities associated with each organ system. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPER 704 Oral Pathology and Maxillofacial Medicine

Units: 3 Terms Offered: Fa Review of oral diseases affecting the oral cavity which includes developmental conditions, pigmented lesions, Immune-Mediated and Allergic Conditions, mucosal and connective tissue abnormalities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPER 705 Oral Histopathology and Surgical Pathology

Units: 2 Terms Offered: Sp Various diagnostic modalities, interventional diagnostic procedures, and the description of microscopic features of oral developmental, reactive, and neoplastic conditions relevant to surgical pathology. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPER 706 Evidence-Based Practice and Literature Review

Units: 1 Terms Offered: Sp Focus on discussion of patient-centered approaches to clinical treatment and decision-making. Registration Restriction: Open only to

dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 730a Case Portfolio Preparation

Units: 0.5 Terms Offered: Fa Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 730b Case Portfolio Preparation

Units: 0.5 Terms Offered: Sm Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. *Prerequisite:* OPR 730a Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 732 Knowledge Assessment

Units: 1 Terms Offered: Sm Residents attend the USC campus, with several intensive calibration/training/seminar sessions provided by faculty. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

Orthodontics

ORTH 501a Seminar: Orthodontics

Units: 0, 1 Clinical use of cephalometrics and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic banding; molar uprighting. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 501b Seminar: Orthodontics

Units: 0, 1 Clinical use of cephalometrics and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic banding; molar uprighting. Instruction Mode: Lecture Grading Option: Letter

ORTH 521 Preclinical Orthodontics

Units: 2 Evaluation, prevention, and treatment of dento-facial malformations. Construction of basic appliances to treat orthodontic problems encountered by the general practitioner. Instruction Mode: Lecture Grading Option: Letter

ORTH 561a Clinic: Orthodontic Therapy

Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 521. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561b Clinic: Orthodontic Therapy

Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561a. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561c Clinic: Orthodontic Therapy

Units: 0 Diagnosis and limited treatment of

orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561b. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561d Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561c. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561e Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561d. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561f Clinic: Orthodontic Therapy
Units: 2 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561e. Instruction Mode: Lecture Grading Option: Letter

ORTH 674 Clinical and Molecular Bone Biology
Units: 2 Terms Offered: Sp Explore the impact of the application of new molecular techniques to bone biology research on our understanding of osteoporosis, osteosarcoma, hypercalcemia, etc. Open to advanced program students in dentistry only. Instruction Mode: Lecture Grading Option: Letter

ORTH 701a Cephalometrics: Growth and Development
Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 701b Cephalometrics: Growth and Development
Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 702 Seminar: Review of the Orthodontic Literature
Units: 5 Two trimester Course Review of current orthodontic literature. Instruction Mode: Lecture Grading Option: Letter

ORTH 703a Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703b Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703c Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703d Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703e Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703f Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703h Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703i Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 704a Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704b Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704c Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 705a Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office

management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705b Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705c Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 706 Surgical Orthodontics
Units: 2 Diagnosis, treatment, prognosis, and management of orthognathic problems. Instruction Mode: Lecture Grading Option: Letter

ORTH 707 Interdisciplinary Aesthetic Treatment
Units: 2 Terms Offered: Sp Commonly encountered interdisciplinary aesthetic problems. Communication and teamwork between orthodontists and general dentists, as well as other specialists will be emphasized. Instruction Mode: Lecture Grading Option: Letter

ORTH 708 Information Technology in Orthodontic Practice
Units: 2 Terms Offered: Fa Practical applications of information technology in contemporary orthodontics. Topics include office management systems, videoccephalometrics, and video imaging in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 709 Advanced Information Technology in Orthodontic Practice
Units: 2 Terms Offered: Sm Follows ORTH 708 and is designed to provide background and up-to-date information on advanced technologies in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 721 Biomechanics and Orthodontic Technic
Units: 8 Primary orthodontic techniques and basic diagnostic procedures. Typodont treatment of malocclusion, record taking, retention appliances, and beginning biomechanics. Instruction Mode: Lecture Grading Option: Letter

ORTH 744 Statistical Methods and Research Design in Orthodontics
Units: 2 Terms Offered: FaSpSm Experimental design and analysis as applied to orthodontic basic sciences and clinical research; descriptive and inferential statistics, bioethics, writing a research proposal, and evaluation of literature. *Recommended Preparation:* high school algebra Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 751a Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics;

clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751b Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751c Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751d Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751e Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751f Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751h Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751i Clinic: Advanced Orthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 791 Library Research

Units: 1, 2, 3, 4, 5, 6 Organized literature searching and compiling of published

data for purposes of developing writing and investigative skills. Instruction Mode: Lecture Grading Option: Letter

Ocean Sciences

OS 512 Introduction to Chemical and Physical Oceanography

Units: 4 Terms Offered: Fa Principles of physical, chemical, and geological oceanography including discussions of air-sea interaction, biogeochemical cycling and the role of the ocean in modulating climate and atmospheric composition; discussion section will cover formulation of basic calculations that illustrate these principles. *Prerequisite:* CHEM 105b and MATH 126 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as GEOL 512

OS 545 Modeling and Numerical Techniques for Marine Scientists

Units: 4 Terms Offered: Sp (Enroll in BISC 545)

OS 582 Advanced Biological Oceanography

Units: 4 Terms Offered: Fa (Enroll in BISC 582)

OS 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OS 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Course contents each semester will be selected to reflect current trends and new developments in the field of Ocean Sciences. Instruction Mode: Lecture Grading Option: Letter

OS 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OS 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Occupational Science and Occupational Therapy

OT 100 THRIVE: Foundations of Well-Being

Units: 1 Terms Offered: FaSp Exploration of themes of thriving including well-being, self-care, and connection. Application to university life, building community, developing identity and integrating learned topics into everyday life. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 101x Caring For Your Self: Engaging in Healthy Habits and Routines

Units: 2 Terms Offered: FaSp Application of occupational science evidence and occupational therapy principles of lifestyle and self-care behavior change to support self-analysis and integration of healthy habits and routines. Credit Restriction: Not available for major credit for Occupational Therapy students Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 105g Culture, Medicine and Politics

Units: 4 Terms Offered: Fa (Enroll in ANTH 105)

OT 200 Medical Terminology for Health Professions

Units: 1 Foundation of medical terminology and hospital abbreviations useful for practice in health care. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 220 Lifestyle Design: Introduction to Occupational Therapy

Units: 2 Terms Offered: FaSp Introduction to theoretical concepts concerning the relationship of engagement in activities (occupations) to health and well being. Application of these perspectives to students' own lives. Instruction Mode: Lecture Grading Option: Letter

OT 250 Introduction to Occupational Science and Occupational Therapy

Units: 4 Introduction to concept of occupation and overview of human drive for meaningful activity; impact of occupations on health and wellbeing; analysis of personal occupational patterns; selected therapeutic applications. Instruction Mode: Lecture Grading Option: Letter

OT 251x Across the Lifespan:**Occupations, Health and Disability**

Units: 4 Terms Offered: FaSp Exploration of the transformative power of occupation throughout the lifespan for all individuals. Instruction Mode: Lecture Grading Option: Letter

OT 260 Human Functional Anatomy for Allied Health Professions

Units: 3 Terms Offered: FaSpSm Lecture and cadaver lab-based, human anatomy course focused on the interaction of anatomical systems relative to functional activity, health and wellness. *Recommended Preparation:* introductory undergraduate course in biology Instruction Mode: Lecture, Lab Grading Option: Letter

OT 261 Human Physiology for Allied Health Professions

Units: 3 Terms Offered: FaSpSm Overview of human physiology emphasizing systems that sustain homeostasis and motion with a focus on biological foundations for a healthy lifestyle. Relevant pathophysiologic issues discussed. *Recommended Preparation:* undergraduate biology course Instruction Mode: Lecture, Lab Grading Option: Letter

OT 280 Essential Occupations of Emerging Adulthood

Units: 2 Terms Offered: FaSp Examination of challenges associated with the emerging adulthood stage of development through an occupational science lens; strategies to promote health and well-being for this population. Instruction Mode: Lecture Grading Option: Letter

OT 299 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Recent developments in occupational therapy and occupational science for undergraduate students. Instruction Mode: Lecture Grading Option: Letter

OT 300 Occupational Expressions of Diverse Identities and Lifestyles

Units: 4 Exploration of the diverse ways occupational practices become central to identity, reify standard social ideologies, and are manipulated to redress conventional standards. Instruction Mode: Lecture Grading Option: Letter

OT 310 Creativity Workshop

Units: 2 Terms Offered: FaSpSm Theories and practice of the creative process in varied media, genres and occupations. Explores creativity in the arts, sciences, professions, evolution, daily life, and culture. Instruction Mode: Lecture Grading Option: Letter

OT 312 Creating a Sustainable Lifestyle

Units: 2 Scientists and policymakers advocate lifestyle changes as crucial to solving the environmental crisis. Investigation into the development of habits that promote environmental sustainability and personal wellbeing. Instruction Mode: Lecture Grading Option: Letter

OT 320 The Nature of Human Occupation: Form, Function, and Meaning

Units: 4 The complex nature of human occupation is covered from an

interdisciplinary perspective. Emphasis is on how occupation contributes to human experience in a lived world. Instruction Mode: Lecture Grading Option: Letter

OT 325 The Brain: Mind, Body, and Self

Units: 4 Terms Offered: FaSpSm Exploration of neuroscience as it impacts everyday living, from the fundamentals of neurons and synapses, to the neural basis of language, empathy, and social interaction. Instruction Mode: Lecture Grading Option: Letter

OT 330 Perspectives on the Daily Life of Families

Units: 4 Examines family structures and processes, the occupational dimensions of families, and the meanings embedded in the acts of daily life of contemporary families. Instruction Mode: Lecture Grading Option: Letter

OT 333 Sports Ethics

Units: 4 Terms Offered: FaSp Critically examines ethical issues central to the world of sports that range from matters of fair play and cheating to performance-enhancing drugs and gene-doping. Instruction Mode: Lecture Grading Option: Letter

OT 340 Occupational Foundations of Human-Animal Interaction

Units: 4 Terms Offered: Sp Explores how interactions with companion animals expand human capacity for action and contribute to human health, well-being and participation, in different cultural contexts, across the lifespan. Instruction Mode: Lecture Grading Option: Letter

OT 350 Disability, Occupations, and the Health Care System

Units: 4 Exploration of the ways in which ablebodyism, sexism, racism, classism and homophobia contribute to occupational opportunities or barriers and weave their way into health care. Instruction Mode: Lecture Grading Option: Letter

OT 355 Occupational Reconstructions and Social Transformations

Units: 2 Terms Offered: FaSp The use of occupations -- meaningful, purposeful activities -- to restore identity, agency, health, well-being, skills, and political power to populations in problematic situations, such as wars and natural disasters. Instruction Mode: Lecture Grading Option: Letter

OT 360 Creating the Self through**Narrative: Acts of Life Story Production**

Units: 4 Analysis of life stories, life histories, and testimonies in social interactions, texts, and films. Life stories are an occupation to re-create the "Self" in response to conflict and change. Instruction Mode: Lecture Grading Option: Letter

OT 370 Understanding Autism:**Participation Across the Lifespan**

Units: 4 Terms Offered: FaSp Introduction to Autism Spectrum Disorder (ASD) from a neurodevelopmental perspective, with a focus on the daily living experience and occupational participation for individuals with ASD. Instruction Mode: Lecture Grading Option: Letter

OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation

Units: 4 Narrative as guide and structure of practical action. Special emphasis on chronic illness and disability and narrative structure of clinical interactions. Instruction Mode: Lecture Grading Option: Letter

OT 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

OT 405 Foundations: Occupation

Units: 2 Terms Offered: FaSm Introduction to basic tenets of occupational therapy history and practice, the profession's language, and foundations of occupational science; incorporates experience and self-analysis of occupation. Registration Restriction: Open only to upper division and Masters level Occupational Therapy majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

OT 406L Foundations: Creativity, Craft and Activity Analysis

Units: 2 Terms Offered: FaSm Exploration of craftsmanship in both historical and contemporary contexts; engagement in the craft experience to encourage creativity and to develop proficiency in analysis of performance. Registration Restriction: Open only to upper division, Master and Professional OT majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 440L Foundations: Kinesiology

Units: 2 Terms Offered: FaSpSm Review of joint and muscle structure and function; application of basic biomechanical, neuromuscular and musculoskeletal principles to the analysis of everyday activities and therapeutic interventions. Registration Restriction: Open only to upper division and master's Occupational Therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 441L Foundations: Neuroscience

Units: 2 Terms Offered: FaSpSm Application of basic neural function to the analysis of daily living tasks and activities; review of pathological conditions that interfere with performance in occupation. Registration Restriction: Open only to upper division and Master's occupational Therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

OT 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content to be selected in occupational therapy and occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 500a Clinical Problems in Occupational Therapy

Units: 2, 3, 4 Terms Offered: FaSpSm
Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture
Grading Option: Credit/No Credit

OT 500b Clinical Problems in Occupational Therapy

Units: 2, 3, 4 Terms Offered: FaSpSm
Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture
Grading Option: Credit/No Credit

OT 500c Clinical Problems in Occupational Therapy

Units: 2, 3, 4 Terms Offered: FaSpSm
Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture
Grading Option: Credit/No Credit

OT 501L Practice Immersion: Adult Physical Rehabilitation

Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in adult rehabilitation and geriatrics; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 401. Instruction Mode: Lecture, Lab
Required Grading Option: Letter

OT 502L Practice Immersion: Mental Health

Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in mental health practice; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 402. Instruction Mode: Lecture, Lab
Required Grading Option: Letter

OT 503L Practice Immersion: Pediatrics

Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in pediatrics; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 403. Instruction Mode: Lecture, Lab
Required Grading Option: Letter

OT 511 Therapeutic Use of Self

Units: 2 Terms Offered: Fa Exploration of efficacy, therapeutic use of self, empathy and mindfulness; development of self-awareness to support the art, craft and skill of effective therapeutic relationships. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 410. Instruction Mode: Lecture
Grading Option: Letter

OT 515 Neuroscience of Behavior

Units: 4 Terms Offered: Fa Foundation for understanding neural functions involved in typical/atypical behaviors; review of neural circuitry, experimental methods, basic behavioral systems, higher order cognitive functions and associated disorders. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 451. Instruction Mode: Lecture
Grading Option: Letter

OT 518 Quantitative Research for Evidence-Based Practice

Units: 4 Terms Offered: Fa Traditions and methods of quantitative research; emphasis on formulation of clear clinical questions; finding, evaluating, and applying evidence to a clinical problem; includes journal club. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 480. Instruction Mode: Lecture
Grading Option: Letter

OT 521 Clinical Reasoning

Units: 3 Terms Offered: Sp Dynamic look at creation and application of professional knowledge and expertise; examines interrelationship between theory and practice; incorporates narrative and illness experiences in clinical reasoning. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 411. Instruction Mode: Lecture
Grading Option: Letter

OT 523 Communication Skills for Effective Practice

Units: 3 Terms Offered: Fa Principles of written, verbal and non-verbal communication with professionals, clients and families, from a personal and professional perspective; group interventions; interview skills; advocacy as communication. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 430. Instruction Mode: Lecture
Grading Option: Letter

OT 525 Qualitative Research for Evidence-Based Practice

Units: 4 Terms Offered: Sp Traditions and methods of qualitative research; development of skills for research design, implementation and dissemination; critique of qualitative research for evidence-based practice and occupational science. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 470. Instruction Mode: Lecture
Grading Option: Letter

OT 534 Health Promotion and Wellness

Units: 2 Terms Offered: Fa Examination of relationship of occupation to health, wellbeing, participation; critical thinking about lifestyle factors influencing occupational engagement; occupational science and wellness in occupational therapy practice. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 504. Instruction Mode: Lecture
Grading Option: Letter

OT 537 Occupation-Centered Programs for the Community

Units: 4 Terms Offered: Fa Development of a proposal for new or extended services;

includes trends analysis, needs assessment, literature review, marketing plan, mock funding request, program evaluation and presentation. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 570. Instruction Mode: Lecture
Grading Option: Letter

OT 538 Current Issues in Practice: Adulthood and Aging

Units: 2 Terms Offered: Fa Exploration of adulthood, aging and occupation; current topics related to aging population and occupational therapy to promote health and participation throughout the lifespan. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 508. Instruction Mode: Lecture
Grading Option: Letter

OT 540 Leadership Capstone

Units: 2 Terms Offered: Sp Professional capstone in leadership, advocacy, ethical reasoning, professional behavior, and public policy as it impacts the practice of occupational therapy; independent professional externship. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 580. Instruction Mode: Lecture
Grading Option: Letter

OT 545 Advanced Seminar in Occupational Science

Units: 2 Terms Offered: FaSp Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with participation in occupation at the individual, community and global levels. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 585. Instruction Mode: Lecture
Grading Option: Letter

OT 560 Contemporary Issues in School-Based Practice

Units: 4 Terms Offered: FaSp Current issues in school-based occupational therapy evaluation, ongoing assessment and intervention. Topics include successful collaboration in inclusive classrooms and on IFSP and IEP teams. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture
Grading Option: Credit/No Credit

OT 561 Occupational Therapy in Acute Care

Units: 4 Terms Offered: Sp Knowledge and skills for occupational therapy practice in acute care settings using a systems-based approach; includes an experiential learning component at Keck Hospital of USC. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture
Grading Option: Credit/No Credit

OT 562 Advanced Hand Rehabilitation and Certification (PAMs)

Units: 4 Terms Offered: Sp Evidence-based and occupation-based practice for hand and upper extremity conditions; application of PAMs as preparatory for occupation. Applicable toward California educational requirements for advanced

practice. *Corequisite:* OT 573. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 563 Occupational Therapy in Primary Health Care Environments

Units: 2 Terms Offered: FaSp Examines the emerging role of occupational therapy in primary care, including the need occupational therapy can address in primary care. Registration Restriction: Open only to Occupational Science and Occupational Therapy majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 564 Sensory Processing and Sensory Integration

Units: 4 Terms Offered: FaSp Comprehensive overview of the basic neurobehavioral principles underlying sensory processing and sensory integration, patterns of dysfunction, and their relationship to everyday occupations and intervention. Registration Restriction: Open only to OT majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 565 Sensory Integration Interventions

Units: 4 Terms Offered: Sp Foundations and application of sensory integration principles in clinical practice, schools and community. Includes critique and integration of evidence, effective communication with parents, and documentation. *Corequisite:* OT 564 Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 566 Healthcare Communication with Spanish-Speaking Clients

Units: 2 Terms Offered: Sp Development of communicative proficiency and accuracy in Spanish within a therapeutic context. Introduction to Spanish language, adaptive communication strategies, and ethics in language-disorder communication. Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 567 Contemporary Issues: Occupational Therapy in Early Intervention

Units: 4 Terms Offered: Sp Exploration of occupational therapy in early intervention settings including; relevant legislation, family-centered care, cultural context, documentation, ethics, and neuroscientific foundations of infant mental health. Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 568 Sensory Processing and Sensory Integration: Special Topics

Units: 4 Terms Offered: FaSp Applications of sensory integration theory and intervention principles in diverse therapeutic contexts, including school-based settings, early intervention, autism spectrum disorders, and feeding and eating. Registration Restriction: Open only to OT students Instruction Mode:

Lecture, Discussion, Lab Grading Option: Credit/No Credit

OT 571 Assistive Technology

Units: 4 Terms Offered: Sp Principles of assessment, selection, training, and follow-up with clients in the use of assistive technologies to enable and enhance participation in a meaningful occupation. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 572 Ergonomics

Units: 4 Terms Offered: Sp Focus on the effects of physical design in the workplace on users' injury rate, behavior, performance and stress levels. Intervention for repetitive motion included. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 573 Hand Rehabilitation

Units: 4 Terms Offered: Fa Occupation-based evaluation and intervention for individuals with acute and chronic hand disorders. Topics include scar management, splinting, peripheral nerve injury, wound healing and physical agent modalities. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 574 Enhancing Motor Control for Occupation

Units: 4 Terms Offered: FaSp Laboratory examining approaches to assessment and remediation of motor control following upper motor neuron lesions. An occupation-based approach to Neurodevelopmental Treatment (NDT) will be emphasized. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 575 Dysphagia Across the Lifespan: Pediatrics through Geriatrics

Units: 2 Terms Offered: Sp A comprehensive investigation of the anatomy and physiology of normal and abnormal swallowing. Didactic and hands-on study of assessment and treatment interventions will be addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 576 Universal Design

Units: 4 Terms Offered: Fa Examination of the concepts and principles of universal design and the benefits of the approach for people with disabilities and for all individuals. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 577 Seminar in Occupational Therapy

Units: 2 Terms Offered: Sp Occupational therapy and the health care system. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 505. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 578 Therapeutic Communication: Facilitating Change in Clients

Units: 4 Terms Offered: FaSpSm Exploration of selected therapeutic communication styles intended to facilitate change including motivational interviewing, mindfulness practices, and cognitive approaches to therapeutic intervention. Registration

Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 579 Occupational Therapy in Adult-Neurorehabilitation

Units: 4 Terms Offered: Sp Comprehensive overview of occupational therapy evaluation and intervention in adult neurorehabilitation addressing motor, visual, cognitive, emotion, and language systems. Emphasizes evidence-based interventions with hands-on application. Registration Restriction: Open only to graduate and professional students in Occupational Therapy Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

OT 581 Quantitative Research for the Practicing Clinician

Units: 4 Terms Offered: FaSp Traditions and methods of quantitative research for practicing clinicians; emphasis on formulation of clear clinical questions; finding, evaluating, and applying evidence to a clinical problem. Registration Restriction: Open only to Occupational Therapy majors. Instruction Mode: Lecture Grading Option: Letter

OT 582 Occupational Science Foundations of Lifestyle Redesign

Units: 4 Terms Offered: FaSpSm Overview of the foundations and philosophy of Lifestyle Redesign®. Includes theoretical underpinnings, therapeutic methods, and examination of how occupational science informs Lifestyle Redesign® interventions. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 583 Current Applications of Lifestyle Redesign

Units: 4 Terms Offered: FaSpSm Interactive practicum exploring the Lifestyle Redesign® approach to preventing and managing chronic health conditions. Topics include therapeutic process, lifestyle module design and service delivery models. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 584 Clinical Applications of Telehealth Technologies in OT

Units: 2 Terms Offered: Sp Interactive course exploring the history of telehealth technologies; includes definitions, care models, remote services, applications, activity monitoring devices, technology enabled therapy, legislation, reimbursement. Registration Restriction: Open only to Occupational Science and Occupational Therapy graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 585 Advanced Seminar in Occupational Science

Units: 2 Terms Offered: FaSp Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with

participation in occupation at the individual, community and global levels.

OT 586 Fieldwork with Seminar

Units: 1, 2 Max Units: 06 Terms Offered: FaSpSm Fieldwork is mandatory to qualify for professional certification/licensure. Seminar facilitates reflective discussion and integration of class concepts to clinical practice. Registration Restriction: Open only to Occupational Therapy majors Duplicates Credit in former OT 486 Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 594a Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 594b Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 594z Master's Thesis

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 599 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Recent developments in occupational therapy and occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 610 Sensory Integrative Dysfunction

Units: 4 Terms Offered: FaSpSm Differential evaluation of sensory integrative dysfunction; theory and procedure for enhancing the processing of sensory data by children with learning and behavior disorders. *Prerequisite:* admission by advance application and instructor's approval only; must be certified as an occupational or physical therapist. Instruction Mode: Lecture Grading Option: Letter

OT 612 Information Processing and Occupation

Units: 4 Phylogenesis and ontogenesis of human information processing capacity enabling engagement in occupation;

components and contributions to adaptation and coping. Instruction Mode: Lecture Grading Option: Letter

OT 620 Current Issues in Occupational Science and Occupational Therapy

Units: 4 Terms Offered: Fa Review of current occupational science research as it is applied to practice; examination of leadership opportunities; development of proposal focusing on chosen area of study. Registration Restriction: Open only to Occupational Therapy doctoral students Instruction Mode: Lecture Grading Option: Letter

OT 621 Occupational Therapy Leadership: Contemporary Issues

Units: 4 Examination of themes in occupational therapy related to power, confidence, and identity; development of leadership skills; analysis of the impact of policy and advocacy on occupational therapy. Instruction Mode: Lecture Grading Option: Letter

OT 640 Conceptual Foundations of Occupational Science

Units: 4 Terms Offered: FaSp Analysis of the conceptual foundations and methodological orientations for occupational science, understandings of disciplinary perspectives, formulation of theoretical arguments, and the interpretation of research data. Instruction Mode: Lecture Grading Option: Letter

OT 641 The Nature of Occupation

Units: 4 Terms Offered: FaSp Theoretical and historical foundations for the study of occupation, engagement in living and learning in everyday life. Instruction Mode: Lecture Grading Option: Letter

OT 642 Therapeutic Uses of Self: Psychodynamic Perspectives

Units: 4 Terms Offered: FaSp Survey of the diversity of analytic conceptions of subjectivity and intersubjectivity. Emphasis on the way these ideas influence the notion of therapeutic efficacy within Occupational Science. Instruction Mode: Lecture Grading Option: Letter

OT 643 Meaningful Engagement in Everyday Life

Units: 4 Exploration of the subjective experience of meaningful engagement in work, play, and the occupational pursuits of everyday life, drawing on contributions from the social sciences. Instruction Mode: Lecture Grading Option: Letter

OT 644 Foundations of Research on Activity and Health

Units: 4 Terms Offered: FaSp Examination of effectiveness and efficacy research, study design and methodology, dimensions of adaptation and research methods through the lens of two division-based research programs. Instruction Mode: Lecture Grading Option: Letter

OT 645 Narrative, Healing and the Culture of Biomedicine

Units: 4 Terms Offered: FaSp Introduction to narrative as analytic framework for considering chronic illness, disability, occupation, and the moral and cultural influences on the clinical reasoning of health

professionals. Instruction Mode: Lecture Grading Option: Letter

OT 646 Intersections of Occupational Science and Human Development

Units: 4 Terms Offered: FaSp Analysis of occupational science perspectives related to human development and participation in sociocultural practices and examination of developmental theories and their relationship to occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 647 Producing New Knowledge in Occupational Science

Units: 4 Terms Offered: Sp Problems, theory, methods and contexts of research in occupational science, as a discipline that seeks to understand, explain, and promote human flourishing. *Prerequisite:* OT 640; *Recommended Preparation:* at least one advanced course in qualitative, quantitative, or mixed methods for research. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

OT 648 Researching Occupation: Engagement, Meaning, and Society

Units: 4 Terms Offered: FaSp *Recommended Preparation:* OT 640 and OT 660 Instruction Mode: Lecture Grading Option: Letter

OT 649 Researching Occupation: Function, Participation, and Health

Units: 4 Terms Offered: FaSp Approaches to studying health and wellbeing in everyday living from biological to population levels, including prevention, wellness, chronic illness, disability, and rehabilitation, emphasizing quantitative methods. *Recommended Preparation:* OT 641 and OT 660 Instruction Mode: Lecture Grading Option: Letter

OT 650 Development of Adaptive Skills

Units: 4 Terms Offered: Fa Critical analysis of occupation as means and product of human adaptation. Adaptive skill development from traditional and occupational science approaches. Research methods and results. Instruction Mode: Lecture Grading Option: Letter

OT 655 Work and Leisure

Units: 4 Terms Offered: Sp Ontogenesis and phylogenesis of work and leisure. Systems view of person/environmental interactions affecting competence and satisfaction with activity. Occupation and the need for mastery. Instruction Mode: Lecture Grading Option: Letter

OT 660 Research Practicum

Units: 2 Experiential learning through immersion in one or more externally funded research groups in the Division, enabling intense participation in multi-skilled research groups. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 661 Grant Writing for Occupational Science

Units: 2 Terms Offered: SpSm Integration of theory, research design, and methods to develop competitive grant applications for the study of occupation, with a focus on federal granting agencies. *Prerequisite:* OT 640 and OT 641 and OT 648 and OT 649

and OT 660 *Recommended Preparation:* At least one advanced course in qualitative, quantitative, or mixed-methods research design or statistical analysis is strongly recommended. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 686 Residency

Units: 6 or 12 Max Units: 24 Terms Offered: FaSpSm Residency involving development, administration, evaluation, or policy formulation for occupation-centered programs in clinical or community settings. Development of portfolio for professional doctorate. Graded CR/NC. Registration Restriction: Open only to OT majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pain Medicine

PAIN 701 Pharmacotherapeutics for Pain

Units: 2 Terms Offered: Fa Introduction into the complex area of treatment with opioids and other pharmacological options. Instruction Mode: Lecture Grading Option: Letter

PAIN 702 Pain Classification and Diagnosis - Part 1

Units: 2 Terms Offered: Fa Introduction of pain classification and diagnosis to familiarize the student with a standardized approach to painful conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 703 Psychological Aspects of the Pain Experience: Individual and

Units: 2 Terms Offered: Fa Explore the psychological and social perspectives that influence chronic pain, reinforcing the need to look beyond the initial physical diagnosis.

Instruction Mode: Lecture Grading Option: Letter

PAIN 704 Pain and Society: Epidemiology and Cultural issues

Units: 1 Terms Offered: Sp Explores the societal issues related to pain, including the role of culture, ethnicity, caregiving, social and psychological factors related to pain and pain management. Instruction Mode: Lecture Grading Option: Letter

PAIN 705 Pain Assessment: History and Physical Examination

Units: 2 Terms Offered: Sp Evaluation of patients suffering from pain, distinguishing between types of pain that may be acute or chronic. Instruction Mode: Lecture Grading Option: Letter

PAIN 706 Musculoskeletal Anatomy and Pathology

Units: 2 Terms Offered: Sp Anatomical survey of the human musculoskeletal system, focused on common pathologies that generate pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 707 Pain Neuroscience

Units: 2 Terms Offered: Sp Anatomy of peripheral and central nociceptors, molecular mechanisms that underlie primary responses, neural networks, and neural mechanisms involved in hyperalgesia and allodynia. Instruction Mode: Lecture Grading Option: Letter

PAIN 708 Opioids

Units: 1 Terms Offered: Fa Explores opioid therapeutics including proper use, dosing, side effects and its management, use in special populations, and legal/ethical considerations for prescribers and dispensers. Instruction Mode: Lecture Grading Option: Letter

PAIN 709 Pain Classification and Diagnosis - Part 2

Units: 2 Terms Offered: Fa Knowledge and ability to recognize fine differences in various common pain conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 710 Advanced Pain Physiology and Neuroscience

Units: 1 Terms Offered: Fa Advanced neurophysiology of pain including immunology and epigenetics, neuropathic pain, inflammation, with a series of lectures and sessions to analyze clinical cases. Instruction Mode: Lecture Grading Option: Letter

PAIN 711 Research Methodology

Units: 2 Terms Offered: Fa Conduct a systematic review, research question, searching the literature, summarizing the evidence and interpreting the findings. Instruction Mode: Lecture Grading Option: Letter

PAIN 712a Pain Medicine Capstone

Units: 0.5 Terms Offered: Fa Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712b Pain Medicine Capstone

Units: 0.5 Terms Offered: Sp Collaborative

research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712c Pain Medicine Capstone

Units: 0.5 Terms Offered: Fa Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712d Pain Medicine Capstone

Units: 0.5 Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 713a Case Studies

Units: 0.5 Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Instruction Mode: Lecture Grading Option: Letter

PAIN 713b Case Studies

Units: 0.5 Terms Offered: Sp Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. *Prerequisite:* PAIN 713a Instruction Mode: Lecture Grading Option: Letter

PAIN 713c Case Studies

Units: 0.5 Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Instruction Mode: Lecture Grading Option: Letter

PAIN 713d Case Studies

Units: 0.5 Terms Offered: Sp Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. *Prerequisite:* PAIN 713c Instruction Mode: Lecture Grading Option: Letter

PAIN 714 Public Policy and Legal issues

Units: 1 Terms Offered: Sp Public Policy and Legal Issues in Pain Medicine including the California Medical Board Guidelines for Pain Medication, CURES, and legislation related with the discipline. Instruction Mode: Lecture Grading Option: Letter

PAIN 715 History of Pain: Theory and Treatment

Units: 1 Terms Offered: Fa Trace through history our collective understanding of pain by examining the people, theories, and technologies which have brought us to our modern understanding. Instruction Mode: Lecture Grading Option: Letter

PAIN 716 Neuropathic Pain

Units: 1 Terms Offered: Sp Focus on pain caused by nervous system dysfunction; assessment, physiology, diagnoses and treatment. Instruction Mode: Lecture Grading Option: Letter

PAIN 717 Psychological Aspects of Chronic Pain

Units: 2 Terms Offered: Sp Information and demonstration on specific psychological treatments to decrease pain levels and

manage pain flares. Instruction Mode:
Lecture Grading Option: Letter

PAIN 718 Complementary Approaches

Units: 2 Terms Offered: Fa Treatment options in pain management; framework for integrative models of care. Instruction Mode: Lecture Grading Option: Letter

PAIN 719 Building a Practice: Institutional or Private

Units: 1 Building and managing a Pain Practice. Topics include the scope of practice, stratification of care, and marketing. Instruction Mode: Lecture Grading Option: Letter

PAIN 720 Physical and Occupational Therapies

Units: 1 Terms Offered: Sp Physical and Occupational Therapy techniques to assess and treat chronic pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 721 Advanced Therapeutics

Units: 2 Terms Offered: Sp Patients who suffer from chronic pain often fail to respond to basic treatments. Therefore it is crucial for clinicians to be familiar with different treatment options. Instruction Mode: Lecture Grading Option: Letter

PAIN 722 Palliative Care in End of Life

Units: 1 Terms Offered: Fa Key concepts in palliative medicine and hospice care, ranging from management of common symptoms, to best practices in communication with patients and their families. Instruction Mode: Lecture Grading Option: Letter

PAIN 723 Orofacial Pain and Headache

Units: 2 Terms Offered: Sp Foundational knowledge of orofacial neurogenic pain and headache disorders; prevalence, differential diagnosis, prevention and management. Instruction Mode: Lecture Grading Option: Letter

Pathology (Herman Ostrow School of Dentistry)

PTHL 312a Medicine and Pathology

Units: 1 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312b Medicine and Pathology

Units: 3 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312c Medicine and Pathology

Units: 2 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 501 Oral Pathology

Units: 4 Terms Offered: Sm Clinical radiographic, gross and microscopic characteristics of mucosal, skin, fibrous and salivary gland diseases; odontogenic tumors and cysts; benign and malignant neoplasms and iatrogenic conditions. Instruction Mode: Lecture Grading Option: Letter

PTHL 504a Seminar: Oral Pathology

Units: 0 Clinico-pathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PTHL 504b Seminar: Oral Pathology

Units: 0 Clinico-pathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: Letter

PTHL 601 Advanced Oral Pathology Seminar

Units: 2 Detailed discussion and analysis of many cases representing a wide variety of oral pathologic conditions stressing differential diagnosis and clinical-pathologic correlations. Instruction Mode: Lecture Grading Option: Letter

PTHL 701 Clinicopathologic Conference

Units: 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Clinicopathologic correlation of diseases of the head and neck. Presented at LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

Pathology (Keck School of Medicine)

PATH 500a Basic and Applied Systemic Pathology

Units: 3 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 500b Basic and Applied Systemic Pathology

Units: 2 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 531 Cell Biology

Units: 4 (Enroll in INTD 531)

PATH 550 Introduction to Pathology

Units: 4 Terms Offered: Fa (Enroll in INTD 550)

PATH 551 Pathobiology of Disease

Units: 4 (Enroll in INTD 551)

PATH 553 Methods in Cellular and Clinical Pathology

Units: 3 Terms Offered: Fa Includes advanced techniques in cell biology, protein and immunochemistry. A practical approach to acquaint new graduate students with current methodologies and applications used in biomedical research. Duplicates Credit in former PATH 552a. Instruction Mode: Lecture Grading Option: Letter

PATH 554 Methods in Molecular Pathology

Units: 2 Terms Offered: Sp Theory and practice methods useful in experimental pathology; experimental design; statistical analysis; literature analysis; laboratory and radiation safety. Duplicates Credit in former PATH 552b. Instruction Mode: Lecture Grading Option: Letter

PATH 555 Biochemical and Molecular Bases of Disease

Units: 4 Terms Offered: Sp (Enroll in INTD 555)

PATH 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PATH 570a Seminar in Pathology

Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570b Seminar in Pathology

Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570c Seminar in Pathology

Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570d Seminar in Pathology

Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 571 Biochemistry

Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PATH 572 Medical Physiology I

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PATH 573 Medical Physiology II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PATH 581 Essentials of Animal Experimentation

Units: 1 Terms Offered: Fa A course providing basic information on the issues and responsibilities of investigators using animals in biomedical research. *Recommended Preparation:* graduate standing.

PATH 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PATH 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

PATH 631 Viral Oncology

Units: 2 Terms Offered: Fa (Enroll in INTD 630)

PATH 650 Stem Cell Biology and Medicine

Units: 4 Terms Offered: Sp (Enroll in INTD 650)

PATH 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PATH 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode:

Lecture Grading Option: In-progress to Credit/No Credit

PATH 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Primary Care Physician Assistant**PCPA 503 Behavioral Sciences I**

Units: 4 Terms Offered: Fa First of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Instruction Mode: Lecture Grading Option: Letter

PCPA 506 Behavioral Sciences II

Units: 4 Terms Offered: Sp Second of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. *Prerequisite:* PCPA 503. Instruction Mode: Lecture Grading Option: Letter

PCPA 509 Behavioral Sciences III

Units: 4 Terms Offered: Fa Last of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. *Prerequisite:* PCPA 506. Instruction Mode: Lecture Grading Option: Letter

PCPA 523 Clinical Skills I

Units: 4 Terms Offered: Fa Laboratory experiences with basic clinical skills essential to medical practice. First of four courses. Instruction Mode: Lecture Grading Option: Letter

PCPA 526 Clinical Skills II

Units: 6 Terms Offered: Sp Laboratory experiences with basic clinical skills essential to medical practice. Second of four courses. *Prerequisite:* PCPA 523. Instruction Mode: Lecture Grading Option: Letter

PCPA 529 Clinical Skills III

Units: 6 Terms Offered: Fa Laboratory experiences with basic clinical skills essential to medical practice. Third of four courses. *Prerequisite:* PCPA 526. Instruction Mode: Lecture Grading Option: Letter

PCPA 530 Basic Medical Sciences

Units: 6 Terms Offered: Fa A one-semester overview of clinical anatomy, physiology, pathophysiology, and pathology essential to understanding disease mechanisms commonly encountered in primary care and specialty practices of medicine. Instruction Mode: Lecture Grading Option: Letter

PCPA 532 Clinical Skills IV

Units: 3 Terms Offered: Sp Laboratory experiences with basic clinical skills essential to medical practice. Last of four courses. *Prerequisite:* PCPA 529. Instruction Mode: Lecture Grading Option: Letter

PCPA 543 Topics in Medicine I

Units: 4 Terms Offered: Fa Basic instruction in normal/abnormal states of organ systems

in the study of human disease. The first of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Instruction Mode: Lecture Grading Option: Letter

PCPA 546 Topics in Medicine II

Units: 6 Terms Offered: Sp Basic instruction in normal/abnormal states of organ systems in the study of human disease. The second of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. *Prerequisite:* PCPA 543. Instruction Mode: Lecture Grading Option: Letter

PCPA 549 Topics in Medicine III

Units: 6 Terms Offered: Fa Basic instruction in normal/abnormal states of organ systems in the study of human disease. The third of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. *Prerequisite:* PCPA 546. Instruction Mode: Lecture Grading Option: Letter

PCPA 561 Clinical Assignment I

Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 562 Clinical Assignment II

Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 563 Clinical Assignment III

Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564a Clinical Assignment IV

Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564b Clinical Assignment IV

Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565a Clinical Assignment V

Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565b Clinical Assignment V

Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-

approved clinical setting. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PCPA 566 Clinical Assignment VI

Units: 3.5 Terms Offered: FaSpSm One
discrete consecutive five-day-a-week
intensive field placement under a program-
approved supervising preceptor in a program-
approved clinical setting. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PCPA 567 Clinical Assignment VII

Units: 3.5 Terms Offered: FaSpSm One
discrete consecutive five-day-a-week
intensive field placement under a program-
approved supervising preceptor in a program-
approved clinical setting. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PCPA 568 Clinical Assignment VIII

Units: 3.5 Terms Offered: FaSpSm One
discrete consecutive five-day-a-week
intensive field placement under a program-
approved supervising preceptor in a program-
approved clinical setting. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PCPA 583 Advanced Topics in PA Studies: Education

Units: 4 Terms Offered: Sp Seminar format:
students explore educational theories and
methods used by PAs in a variety of settings,
including clinical practice, classroom and
community. Instruction Mode: Lecture
Grading Option: Letter

PCPA 586 Advanced Topics in PA Studies: Research

Units: 4 Terms Offered: Sp Seminar format:
students receive an integrated experience in
research methods including methodology,
data collection, analysis and evaluation.
Instruction Mode: Lecture Grading Option:
Letter

PCPA 589 Advanced Topics in PA Studies: Medical Care Organization

Units: 4 Terms Offered: Sp Seminar format:
students will explore current topics in
medical care organization and physician
assistant practice including administration,
financing, changing organizational settings,
and workforce issues. Instruction Mode:
Lecture Grading Option: Letter

Pediatric Dentistry

PEDO 310 Principles of Dentistry for Children

Units: 1 Role of the dental hygienist in
dental care for the child patient. Principles of
pediatric dentistry as related to education of
the child patient and the parent. Instruction
Mode: Lecture Grading Option: Letter

PEDO 501 Clinical Pediatric Dentistry

Units: 1 Scientific principles underlying
contemporary pediatric dentistry, including
prevention of disease; dental anomalies;
habits and other problems in occlusal
development; behavior management; child
abuse. Instruction Mode: Lecture Grading
Option: Letter

PEDO 521 Preclinical Pediatric Dentistry

Units: 2 Principles and techniques of cavity
preparations in primary teeth; pulpal therapy;
stainless steel crowns; space maintenance;
diagnosis, treatment planning. Instruction
Mode: Lecture Grading Option: Letter

PEDO 551a Clinic: Dentistry for Children I

Units: 0 Structured clinical experience in
caring for the dental needs of the child
patient. Includes special case seminars.
Instruction Mode: Lecture Grading Option:
In-progress to Letter Grade

PEDO 551b Clinic: Dentistry for Children I

Units: 0 Structured clinical experience in
caring for the dental needs of the child
patient. Includes special case seminars.
Instruction Mode: Lecture Grading Option:
In-progress to Letter Grade

PEDO 551c Clinic: Dentistry for Children I

Units: 2 Structured clinical experience in
caring for the dental needs of the child
patient. Includes special case seminars.
Instruction Mode: Lecture Grading Option:
Letter

PEDO 561a Clinic: Dentistry for Children II

Units: 0 Dental treatment of the child patient;
preventive and restorative dentistry; space
maintenance and interceptive orthodontic
procedures. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

PEDO 561b Clinic: Dentistry for Children II

Units: 0 Dental treatment of the child patient;
preventive and restorative dentistry; space
maintenance and interceptive orthodontic
procedures. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

PEDO 561c Clinic: Dentistry for Children II

Units: 1 Dental treatment of the child patient;
preventive and restorative dentistry; space
maintenance and interceptive orthodontic
procedures. Instruction Mode: Lecture
Grading Option: Letter

PEDO 701a Seminar: Advanced Pediatric Dentistry

Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms
Offered: FaSpSm Discussions of literature
related to pediatric dentistry. Biologic
considerations in operative dentistry,
odontogenesis, dental trauma, physiology of
occlusion, pulpal biology. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PEDO 701b Seminar: Advanced Pediatric Dentistry

Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms
Offered: FaSpSm Discussions of literature
related to pediatric dentistry. Biologic
considerations in operative dentistry,
odontogenesis, dental trauma, physiology of
occlusion, pulpal biology. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PEDO 702a Comprehensive Review of Pediatric Dentistry

Units: 5, 6, 7 each Terms Offered: FaSpSm
Critical analysis of current pediatric dentistry
literature and case conferences related to
the application of contemporary issues in
dentistry for the complex child patient.
Instruction Mode: Lecture Grading Option:
Letter

PEDO 702b Comprehensive Review of Pediatric Dentistry

Units: 5, 6, 7 each Terms Offered: FaSpSm
Critical analysis of current pediatric dentistry
literature and case conferences related to
the application of contemporary issues in
dentistry for the complex child patient.
Instruction Mode: Lecture Grading Option:
Letter

PEDO 703a Interceptive Orthodontics

Units: 2, 3, 4, 5 each Recognition,
evaluation, and treatment of developing
orthodontic problems appropriate to the
pediatric dentist; emphasis on diagnosis;
laboratory experience included. Instruction
Mode: Lecture, Lab Grading Option: Letter

PEDO 703b Interceptive Orthodontics

Units: 2, 3, 4, 5 each Recognition,
evaluation, and treatment of developing
orthodontic problems appropriate to the
pediatric dentist; emphasis on diagnosis;
laboratory experience included. Instruction
Mode: Lecture, Lab Grading Option: Letter

PEDO 703c Interceptive Orthodontics

Units: 2, 3, 4, 5 each Recognition,
evaluation, and treatment of developing
orthodontic problems appropriate to the
pediatric dentist; emphasis on diagnosis;
laboratory experience included. Instruction
Mode: Lecture, Lab Grading Option: Letter

PEDO 703d Interceptive Orthodontics

Units: 2, 3, 4, 5 each Recognition,
evaluation, and treatment of developing
orthodontic problems appropriate to the
pediatric dentist; emphasis on diagnosis;
laboratory experience included. Instruction
Mode: Lecture, Lab Grading Option: Letter

PEDO 703e Interceptive Orthodontics

Units: 2, 3, 4, 5 each Recognition,
evaluation, and treatment of developing
orthodontic problems appropriate to the
pediatric dentist; emphasis on diagnosis;
laboratory experience included. Instruction
Mode: Lecture, Lab Grading Option: Letter

PEDO 704a Prevention in Pediatric Dentistry

Units: 2 Discussions and readings pertaining
to the analysis and incorporation of the
many components of prevention into the
contemporary pediatric dentistry practice.
Instruction Mode: Lecture Grading Option:
Credit/No Credit

PEDO 704b Prevention in Pediatric Dentistry

Units: 2 Discussions and readings pertaining
to the analysis and incorporation of the
many components of prevention into the
contemporary pediatric dentistry practice.
Instruction Mode: Lecture Grading Option:
Credit/No Credit

PEDO 705 Pediatric Diseases

Units: 2 Discussion of medical conditions
seen by the pediatric dentist in the hospital
environment. Conditions include childhood
cancer, HIV, heart disease, diabetes mellitus
and blood dyscrasias. Instruction Mode:
Lecture Grading Option: Credit/No Credit

PEDO 706 Dental Care for Pediatric Patients with Disabilities

Units: 2 Medical, dental, psychological,
and social problems of children with

developmental disabilities; effect of problems on delivery of pediatric dentistry. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 707 Seminar: Cleft Palate Rehabilitation

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 Three trimester course discussions and case conferences related to treatment of patients with oral and facial anomalies: includes interceptive and corrective orthodontics, preventive and restorative treatment, and selected oral surgery-prosthetic rehabilitative procedures. Instruction Mode: Lecture Grading Option: Letter

PEDO 708 Practice Management

Units: 1 Terms Offered: FaSpSm Discussion of issues related to the contemporary practice of pediatric dentistry (seminars and office visitations). Topics include: purchasing a practice, associateships, hospital affiliations, practice administration and marketing, computers, jurisprudence and auxiliary utilization. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 709 Conscious Sedation in Pediatric Dentistry

Units: 1 Terms Offered: Sm Seminar topics include: review of pharmacology and effectiveness of commonly used oral agents, methods of administration, regulatory guidelines, patient monitoring, management of sedation related emergencies. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 721 Pediatric Physical Evaluation

Units: 2 Assessment of patient health status; evaluation and management of acute and chronic disease states which may be observed in the pediatric dental practice. Instruction Mode: Lecture Grading Option: Letter

PEDO 761a Clinic: Advanced Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761b Clinic: Advanced Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761c Clinic: Advanced Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761d Clinic: Advanced Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761e Clinic: Advanced Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 771a Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771b Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771c Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771d Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771e Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771f Clinic: Hospital Pediatric Dentistry

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 772a Clinic: Interceptive Orthodontics

Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772b Clinic: Interceptive Orthodontics

Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772c Clinic: Interceptive Orthodontics

Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772d Clinic: Interceptive Orthodontics

Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772e Clinic: Interceptive Orthodontics

Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 773 Hospital Pediatric Clinics

Units: 2, 3, 4 Observation and participation in affiliated hospital clinics: anesthesiology, hematology, and genetic clinics; grand pediatric rounds and other conferences. Instruction Mode: Lecture Grading Option: Letter

PEDO 774 Clinical Genetics in Pediatric Dentistry

Units: 9 Genetic principles of oral, facial and cranial malformations; technique and theory of clinical genetics, differential diagnosis and treatment of disorders of the craniofacial complex. Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

PEDO 790a Directed Research: Pediatric Dentistry

Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 790b Directed Research: Pediatric Dentistry

Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

Periodontics

PERI 310a Introduction to Periodontal Diseases

Units: 1 Terms Offered: FaSp Introduction

to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 310b Introduction to Periodontal Diseases

Units: 1 Terms Offered: FaSp Introduction to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 415 Basic Periodontal Therapy

Units: 1 Basic therapeutic modalities of periodontal treatment; general principles and methods of surgical periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 502 Periodontal Diseases and Elements of Therapeutic Judgment

Units: 2 Periodontal pathologic processes; pathogenesis, classification and clinical features of gingivitis; periodontitis; other related diseases of periodontium including diagnosis and initial phases of treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 504 Advanced Periodontics

Units: 1 Periodontics as related to endodontics, orthodontics, and restorative dentistry; bone induction, osseous grafting, splinting, management of furcation lesions; maintenance, recall, and referral. Instruction Mode: Lecture Grading Option: Letter

PERI 521 Periodontal Surgery

Units: 2 General principles and methods of surgical periodontal treatment; includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

PERI 550a Clinic: Introductory Periodontal Therapy

Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 550b Clinic: Introductory Periodontal Therapy

Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 561a Clinic: Periodontal Therapy I

Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561b Clinic: Periodontal Therapy I

Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561c Clinic: Periodontal Therapy I

Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561d Clinic: Periodontal Therapy I

Units: 1 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter

PERI 562a Clinic: Periodontal Therapy II

Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 562b Clinic: Periodontal Therapy II

Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter

PERI 602 Current Controversies in Periodontology

Units: 2 Examination of the major controversies in the field of periodontology; emphasis on the efficacy of current treatment modalities and future trends. Instruction Mode: Lecture Grading Option: Letter

PERI 701a Seminar: Review of Current Periodontal Literature

Units: 2, 3 Review and critical evaluation of the current periodontal literature. Instruction Mode: Lecture Grading Option: Letter

PERI 701b Seminar: Review of Current Periodontal Literature

Units: 2, 3 Review and critical evaluation of the current periodontal literature. Instruction Mode: Lecture Grading Option: Letter

PERI 702a Seminar: Periodontal Treatment Procedures

Units: 2 Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 702b Seminar: Periodontal Treatment Procedures

Units: 2 Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 703a Seminar: Periodontal Case Presentation

Units: 1, 2 Formalized presentation and discussion of clinical cases treated by advanced students. Instruction Mode: Lecture Grading Option: Letter

PERI 703b Seminar: Periodontal Case Presentation

Units: 1, 2 Formalized presentation and discussion of clinical cases treated by advanced students. Instruction Mode: Lecture Grading Option: Letter

PERI 704a Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704b Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704c Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft

tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704d Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704e Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704f Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704h Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704i Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704j Seminar: Periodontal Therapy

Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 708 Seminar: Clinical Basis of Periodontics

Units: 4 Evaluation of the literature dealing with various types of therapy including the objectives of treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 710 Clinical Periodontal Photography

Units: 1 Demonstration of techniques used in intraoral photography for periodontal purposes, emphasis on proper clinical case documentation in seminar presentation and Specialty Board Certification. Instruction Mode: Lecture Grading Option: Letter

PERI 711 Occlusal Therapy in Periodontics

Units: 2 Anatomy of the TMJ mandibular movements; occlusal anatomy and their interrelationships; methods of occlusal correction using anatomy and mandibular movements as a guide. Instruction Mode: Lecture Grading Option: Letter

PERI 713a Treatment Planning in Periodontics

Units: 2 each Presentation of clinical

findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713b Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713c Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713d Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713e Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713f Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713h Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713i Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713j Treatment Planning in Periodontics

Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 715 Treatment of Special Care Patients

Units: 3 Periodontal care and treatment of older population groups, handicapped patients, and other types of special patients, settings, and situations. Instruction Mode: Lecture Grading Option: Letter

PERI 716a Seminar: Special Topics in Periodontal Disease

Units: 3 Discussion of topics of immediate

importance and controversy. Experts in the field are invited to participate as guest speakers. Instruction Mode: Lecture Grading Option: Letter

PERI 716b Seminar: Special Topics in Periodontal Disease

Units: 3 Discussion of topics of immediate importance and controversy. Experts in the field are invited to participate as guest speakers. Instruction Mode: Lecture Grading Option: Letter

PERI 750 Advanced Periodontal Instrumentation

Units: 3 Advanced root preparation techniques including design and manufacturing characteristics of various instruments, sharpening techniques, and root morphology as it relates to advanced instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 752 Interdisciplinary Treatment: An Orthodontic Perspective

Units: 2 Effective recognition, evaluation and understanding of the orthodontic treatment phase required in interdisciplinary treatment plans; includes laboratory and clinical experience; applicable to orthodontics, periodontology, prosthodontics. Instruction Mode: Lecture Grading Option: Letter

PERI 761a Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761b Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761c Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761d Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761e Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761f Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761h Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761i Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761j Clinic: Advanced Periodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 771a Periodontal Therapy in the Hospital

Units: 1 Role of the periodontist in hospital therapy. Treatment of complex cases in the hospital environment. Instruction Mode: Lecture Grading Option: Letter

PERI 771b Periodontal Therapy in the Hospital

Units: 1 Role of the periodontist in hospital therapy. Treatment of complex cases in the hospital environment. Instruction Mode: Lecture Grading Option: Letter

PERI 790a Directed Research: Periodontics

Units: 1, 2, 3, 4, 5, 6 each Research in clinical and experimental periodontology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 790b Directed Research: Periodontics

Units: 1, 2, 3, 4, 5, 6 each Research in clinical and experimental periodontology. Instruction Mode: Lecture Grading Option: Credit/No Credit

Physiology and Biophysics

PHBI 524 Advanced Overview of Neurosciences

Units: 4 Terms Offered: Fa (Enroll in NSCI 524)

PHBI 531 Cell Biology

Units: 4 (Enroll in INTD 531)

PHBI 550 Seminar in Advanced Cellular, Molecular and Systemic Physiology

Units: 1 Max Units: 12.0 Terms Offered: FaSp Lectures and student presentations on advanced topics in molecular, cellular and systemic physiology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHBI 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PHBI 571 Biochemistry

Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PHBI 572 Medical Physiology I

Units: 4 (Enroll in INTD 572)

PHBI 573 Medical Physiology II

Units: 4 (Enroll in INTD 573)

PHBI 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 650 Mechanisms of Ion and Solute Transport Across Cell MembranesUnits: 2 Terms Offered: Sp Biophysical examination of the mechanisms of ion and solute transport across cell membranes; emphasis on the structures of transport proteins and kinetic models of transport. *Recommended Preparation:* graduate level course in biochemistry, physical biochemistry, or cell biology Instruction Mode: Lecture Grading Option: Letter**PHBI 651 Molecular Modeling and Kinetic Simulations in Membrane Transport**Units: 2 Terms Offered: Sp Introduction to the principles of mathematical modeling of biological systems and molecular dynamics simulations, with emphasis on membrane transport. *Recommended Preparation:* graduate level courses in biochemistry or physical biochemistry, and cell biology Instruction Mode: Lecture Grading Option: Letter**PHBI 660 Understanding Diseases of Ion Transport**

Units: 2 Terms Offered: Fa Examination of the genetics, biochemical mechanisms, and physiological characteristics of diseases caused by inherited mutations in ion channels and ion transport proteins. Instruction Mode: Lecture Grading Option: Letter

Physical Education**PHED 102a Weight Training**

Units: 1 Terms Offered: FaSp Improvement of body shape, muscle endurance, and muscle strength; understanding of weight training and nutrition principles that can be utilized for future weight training development. Instruction Mode: Lecture Grading Option: Letter

PHED 102b Weight Training

Units: 1 Terms Offered: FaSp Training techniques and application of advanced weight training principles through weekly workouts; personal trainer certification exam preparation. Instruction Mode: Lecture Grading Option: Letter

PHED 104a Self-Defense

Units: 1 Terms Offered: FaSp Basic instruction of self-defense for beginners; strategies for standing and ground fighting situations with and without weapons. Instruction Mode: Lecture Grading Option: Letter

PHED 104b Self-Defense

Units: 1 Terms Offered: FaSp Intermediate

instruction involving more advanced fighting strategies and techniques. Instruction Mode: Lecture Grading Option: Letter

PHED 106a Physical Conditioning

Units: 1 Terms Offered: FaSp Improvement in cardiorespiratory endurance, body composition, muscle endurance and flexibility; running, circuit training, resistance exercises; fitness principles and nutrition to develop individualized program. Instruction Mode: Lecture Grading Option: Letter

PHED 106b Physical Conditioning

Units: 1 Terms Offered: FaSp Advanced training methods focusing on continuing gains in fitness level. Instruction Mode: Lecture Grading Option: Letter

PHED 108 High Stress Physical ConditioningUnits: 1 Rigorous physical conditioning with emphasis on distance running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. *Prerequisite:* PHED 106b or permission of instructor. Instruction Mode: Lecture Grading Option: Letter**PHED 110a Swimming**

Units: 1 Terms Offered: FaSp Instruction and practice in basic strokes for beginners and intermediate swimmers; elementary springboard diving; water safety techniques; endurance training as a fitness program. Instruction Mode: Lecture Grading Option: Letter

PHED 110b Swimming

Units: 1 Terms Offered: FaSp Advanced instruction and practice of strokes; advanced endurance training. Instruction Mode: Lecture Grading Option: Letter

PHED 114 LifesavingUnits: 1 American Red Cross Senior Lifesaving. *Prerequisite:* PHED 110a, PHED 110b or ability to pass Skills Test II. Instruction Mode: Lecture Grading Option: Credit/No Credit**PHED 115 Surfing**Units: 1 Terms Offered: FaSpSm Fundamental instruction of surfing skills; water safety and wave etiquette; wave recognition and forecast interpretation; surf culture; board selection; surf related strengthening and conditioning. *Recommended Preparation:* Students will need to pass a swim test BEFORE being allowed to participate in the course. Swim test includes the following: continuous 150 yard swim in under 3 minutes; treading water for 10 minutes; surface dive with brick retrieval; and a 25 yard under water swim. Instruction Mode: Lecture Grading Option: Letter**PHED 119 Introduction to Mindfulness**

Units: 2 Terms Offered: FaSpSm Introduction to the principles of mindfulness; application of learned techniques to enhance mind body awareness; cultivate strategies to improve physical and mental health. Instruction Mode: Lecture Grading Option: Letter

PHED 120a Yoga

Units: 1 Terms Offered: FaSp Introduction to meditation, breathing techniques and postures as a means towards relaxation; increase muscle flexibility; understanding of basic anatomy and nutritional guidelines. Duplicates Credit in former PHED 120. Instruction Mode: Lecture Grading Option: Letter

PHED 120b Yoga

Units: 1 Terms Offered: FaSp A continuing study of intermediate and advanced yoga postures, breathing techniques and meditation as a means toward relaxation and stress-reduction. Instruction Mode: Lecture Grading Option: Letter

PHED 120c YogaUnits: 1 Terms Offered: FaSpSm In-depth study of hatha yoga and its history; includes advanced asanas and meditation as a means toward overall health and wellness. *Prerequisite:* PHED 120b Instruction Mode: Lecture Grading Option: Letter**PHED 121 Yoga for Athletic Performance**

Units: 1 Terms Offered: FaSpSm Skills and strategies for injury prevention and recovery from athletic training; application of yoga principles to improve posture, strength, flexibility, core stability and concentration. Instruction Mode: Lecture Grading Option: Letter

PHED 122 Kundalini Yoga and Meditation

Units: 1 Terms Offered: FaSp Ancient yoga practice combining postures, meditation, breathing, mantras and focus techniques; designed to improve mind body awareness, balance, strength, flexibility, techniques and nervous system function. Instruction Mode: Lecture Grading Option: Letter

PHED 123 Yoga Therapy

Units: 2 Terms Offered: FaSpSm Holistic discipline combining traditional yoga techniques with a modern medicine approach to treating a variety of health conditions; includes physical, mental and breathing practice. Instruction Mode: Lecture Grading Option: Letter

PHED 124 Walking for Fitness

Units: 1 Terms Offered: FaSp Develop a strong fitness foundation through walking; fitness assessment and individualized programs; gait biomechanics and power walking; injury prevention; strategies for special populations. Instruction Mode: Lecture Grading Option: Letter

PHED 125 Restorative Yoga

Units: 1 Terms Offered: FaSpSm Introduction to yoga principles for relaxation and rejuvenation of the body and mind; application of specific yoga poses, breathing methods and restorative techniques. Instruction Mode: Lecture Grading Option: Letter

PHED 129a Cardio Group Fitness

Units: 1 Terms Offered: FaSpSm Group fitness instruction incorporating a variety of training methods such as cycling, HITT (high intensity interval training), step, circuits; nutritional guidelines. Instruction Mode: Lecture Grading Option: Letter

PHED 129b Cardio Group Fitness

Units: 1 Terms Offered: FaSpSm Group exercise teaching techniques and application of fitness principles through weekly workouts; group fitness certification exam preparation. *Prerequisite:* PHED 129a Instruction Mode: Lecture Grading Option: Letter

PHED 131 Step Aerobics

Units: 1 Terms Offered: FaSp Development of physical fitness components through step aerobics; total body workout utilizing step movements and body sculpting exercises. Instruction Mode: Lecture Grading Option: Letter

PHED 133 Rock Climbing

Units: 1 Terms Offered: FaSp Acquisition of basic rock climbing skills, muscle strength, endurance and balance, climbing safety, ethics and environmental considerations; understanding equipment, problem solving. Instruction Mode: Lecture Grading Option: Letter

PHED 134 Hiking

Units: 1 Terms Offered: FaSpSm Introduction to hiking; specific conditioning to develop muscle strength and endurance; equipment; various terrain, weather conditions, safety; environmental impact and trail etiquette. Instruction Mode: Lecture Grading Option: Letter

PHED 135 Backpacking

Units: 1 Terms Offered: FaSpSm Acquisition of backpacking knowledge and skills; conditioning plan; nutrition and equipment selection; ethics and environmental considerations; navigation, safety and wilderness first aid; trip planning. *Recommended Preparation:* Students must be able to carry a weighted backpack through varied terrain for extended periods of time. Students must pass a fitness test given on the first day to be eligible Instruction Mode: Lecture Grading Option: Letter

PHED 138 Beach Volleyball

Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and tactics specific to sand volleyball and related physical conditioning; rules and strategies; history and culture. Instruction Mode: Lecture Grading Option: Letter

PHED 139a Volleyball

Units: 1 Terms Offered: FaSp Introduction to beginning and intermediate volleyball skills, rules, game tactics, and strategies. Emphasis on the development of: passing, setting, hitting, serving, blocking, and digging. Instruction Mode: Lecture Grading Option: Letter

PHED 139b Volleyball

Units: 1 Terms Offered: FaSp Advanced techniques; focus on offenses and defenses used in game situations. Instruction Mode: Lecture Grading Option: Letter

PHED 140a Tennis

Units: 1 Terms Offered: FaSp Fundamental instruction of basic strokes for beginners and intermediate players; rules, scoring, court etiquette, strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140b Tennis

Units: 1 Terms Offered: FaSp Reinforcement of basic strokes and instruction of advanced strokes; advanced strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140c Tennis

Units: 1 Terms Offered: FaSp Development of strokes and strategies for advanced tournament players; drills and matches. Instruction Mode: Lecture Grading Option: Letter

PHED 143a Racquetball

Units: 1 Terms Offered: FaSp Instruction of basic stroke technique for beginners and intermediate players; rules, scoring, game tactics; practice of strokes and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 143b Racquetball

Units: 1 Terms Offered: FaSp Development of advanced skills and strategies; singles and doubles practice and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 145 Handball

Units: 1 Terms Offered: FaSpSm Instruction and practice of serving, ceiling shots, lobs, three wall shots and passing; rules, offensive and defensive strategies; sport specific conditioning; fundamental drills and games. Instruction Mode: Lecture Grading Option: Letter

PHED 148 Archery

Units: 1 Terms Offered: FaSpSm Fundamental instruction of archery technique for beginners and intermediates; historical origins; form; the shot cycle; mindfulness; scoring; equipment; sport specific training. Instruction Mode: Lecture Grading Option: Letter

PHED 150a Table Tennis

Units: 1 Terms Offered: FaSpSm Fundamental instruction of basic strokes for beginning and intermediate players; rules, scoring strategies; singles and doubles; practices and match play. Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 150b Table Tennis

Units: 1 Terms Offered: FaSpSm Reinforcement of basic strokes for experienced players; development of advanced strokes including serves, use of spin, counter hits, footwork; drills and match play. *Prerequisite:* PHED 150a Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 152 Beach Soccer

Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and team tactics specific to beach soccer; sport specific conditioning, drills and games; rules and strategies; history and culture. Instruction Mode: Lecture Grading Option: Letter

PHED 153 Futsal

Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and tactics specific to Futsal; rules; strategies; elements of play that differ from soccer; conditioning, drills, and games. Instruction Mode: Lecture Grading Option: Letter

PHED 154a Soccer

Units: 1 Terms Offered: FaSp Development of basic skills for beginners, intermediate and advanced players; rules, positioning elements of play, small group and team tactics; full field scrimmages. Instruction Mode: Lecture Grading Option: Letter

PHED 154b Soccer

Units: 1 Terms Offered: FaSp Advanced development of skills, positioning, tactics and conditioning. Instruction Mode: Lecture Grading Option: Letter

PHED 155a Golf

Units: 1 Terms Offered: FaSpSm Basic skills development and knowledge in stance, grip and swing mechanics; course strategy; use of woods, irons and putting; history rules and etiquette. Duplicates Credit in PHED 155 Instruction Mode: Lecture Grading Option: Letter

PHED 155b Golf

Units: 1 Terms Offered: FaSpSm Development and reinforcement of swing mechanics, shot selection, etiquette and rules; application of course strategies on golf course and driving range. *Prerequisite:* PHED 155a Instruction Mode: Lecture Grading Option: Letter

PHED 156a Basketball

Units: 1 Terms Offered: FaSp Basic skill development in dribbling, passing, shooting, rebounding and defense; rules, history, and etiquette; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 156b Basketball

Units: 1 Terms Offered: FaSp Development of advanced skills; team strategy; offenses and zone defenses; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 160 Stress Management for Healthy Living

Units: 2 Terms Offered: FaSp Instruction on the effects of stress as it relates to work, sport and academics; coping strategies are discussed and applied through physical conditioning interventions. Instruction Mode: Lecture Grading Option: Letter

PHED 161 First Aid

Units: 1 First Aid safety education and infant, child, and adult CPR; demonstrated proficiency and successful completion of exam prepares students for Red Cross certification. Duplicates Credit in former PHED 171. Instruction Mode: Lecture Grading Option: Letter

PHED 162 Principles of Athletic Coaching

Units: 2 Terms Offered: FaSpSm Introduction to coaching strategies; team management; philosophy; ethics; leadership. Methodologies in sport specific training; skill progression; conditioning; athlete motivation; budgeting; fundraising. Instruction Mode: Lecture Grading Option: Letter

PHED 163 Health Coaching

Units: 3 Terms Offered: FaSpSm Skills and strategies of coaching principles promoting healthy lifestyle change. Motivational communication techniques; goal setting; designing safe, effective exercise program;

health coach certification exam preparation.
Instruction Mode: Lecture Grading Option: Letter

PHED 165 Varsity Athletics

Units: 1 Max Units: 4.0 Participation in the university's inter-collegiate programs as sanctioned and governed by the PAC-10 Conference and/or the NCAA. Instruction Mode: Lecture Grading Option: Credit/No Credit

Philosophy

PHIL 100g Central Problems of Philosophy

Units: 4 Explores questions about human beings and their place in nature, including questions about knowledge, mind and body, freedom and determinism, and the existence of God. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, discussion Grading Option: Letter

PHIL 101 Free People, Free Thought and Free Markets

Units: 4 Terms Offered: FaSpSm The philosophical foundations of modern political and economic thought, including economic rationality, neoclassical economics, free-market vs. socialist economies and behavioral economics. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ECON 101

PHIL 102gp Historical Introduction to Philosophy

Units: 4 Introduction to the central philosophical works that have shaped western thought. Includes ancient, early modern and contemporary writings. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 103g Philosophy, Politics and Economics in Europe, from Renaissance to Enlightenment

Units: 4 Introduction to the central ideas of philosophy, science, politics and economics in western European history between 1450 and 1800. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 104g Ancient Foundations of Western Thought

Units: 4 Explores writings of ancient philosophers who first raised, and continue to influence our thinking about, fundamental questions concerning nature, knowledge, justice, happiness, and death. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 115. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 110g Modern Foundations of Western Thought

Units: 4 Explores the writings of philosophers, from Descartes to Kant, who responded to, and helped to shape, the scientific and political upheavals of the modern period. Satisfies New General Education in Category B: Humanistic Inquiry

Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former PHIL 101 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 115g Ancient Greek Culture and Society

Units: 4 Focus on the literary achievement from the beginning of Greek literature to the fourth century with a special emphasis on the philosophers. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 120g Introduction to Formal Logic

Units: 4 Introduces formal tools for distinguishing between good and bad arguments or inferences. Covers both propositional logic and predicate logic. Satisfies New General Education in F Quantitative Reasoning Duplicates Credit in and . Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 122ag Reasoning and Argument

Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 122bg Reasoning and Argument

Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 130g The Physical World and Our Place In It

Units: 4 Exploration of basic questions about the nature of reality. Topics may include personal identity, freedom and determinism, causation and laws of nature. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 138g Introduction to the Philosophy of Religion

Units: 4 Explores arguments for and against the existence of God, as well as questions about the nature and rationality of faith. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 141gp The Professions and the Public Interest in American Life

Units: 4 The study of the nature and role of professionals in life and society, forces that shape and direct them, foundations and applications of professional ethics. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter

PHIL 166gw Current Moral and Social Issues

Units: 4 Terms Offered: FaSp Critical study of controversial social issues such as abortion, euthanasia, the death penalty, war

and terrorism, sexual morality, affirmative action and economic justice. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former PHIL 140g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 168g The Meaning of Life

Units: 4 Explores philosophical treatments of the problem of the meaning or purpose of human life. Satisfies New General Education in B Humanistic Inquiry Duplicates Credit in . Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 172gmw Social Ethics for Earthlings and Others

Units: 4 Terms Offered: FaSp A systematic study of contemporary issues in social and political philosophy engaging multimedia works of science fiction to illuminate classic Western moral and political theories. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 137 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 174gw Freedom, Equality, and Social Justice

Units: 4 Terms Offered: FaSp Explores the nature of justice, and how apparently conflicting ideals, such as freedom and equality, are to be balanced within a just society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 178gw Moral Dilemmas in the Legal Domain

Units: 4 Philosophical theories of law and applications to controversies of importance to society and our legal system, such as free speech, civil disobedience, and self defense. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 135g. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 222g Logic and Language

Units: 4 Introduces symbolic logic and explores its application to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Satisfies New General Education in Category F: Quantitative Reasoning Duplicates Credit in PHIL 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 236g Issues in Space and Time

Units: 4 What is time? What is the difference between past, present and future? Is time-

travel possible? And what paradoxes might it give rise to? Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 286Lg Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 240g Mind, Self, and Consciousness

Units: 4 Explores philosophical questions about the human mind and consciousness, and how they relate to the brain and to the physical world more generally. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 262g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 242 Theories of Art

Units: 4 An introduction to general theories of art and to issues concerning particular arts such as literature and drama, photography and film, painting, architecture and music. Instruction Mode: Lecture Grading Option: Letter

PHIL 246Lg Foundations of Cognitive Science

Units: 4 Terms Offered: FaSp Introduction to research in interdisciplinary cognitive science, highlighting ideas and methods from philosophy, psychology, linguistics, neuroscience, and computer science. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 254gp Science, Knowledge and Objectivity

Units: 4 Max Units: max 4 How does science differ from pseudo-science? When is it rational to accept a scientific theory? And do such theories provide genuine knowledge of reality? Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 255gp Existentialism in Philosophy, Literature and Film

Units: 4 A study of existentialist philosophy and its influence in 19th and 20th century culture, including both literature and film. Focus on works by Kierkegaard, Nietzsche, Camus, Sartre, Beauvoir, Dostoevsky, Godard, and others. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

PHIL 256g Science, Religion, and the Making of the Modern Mind

Units: 4 Terms Offered: FaSp Exploration of the philosophical and religious implications of major scientific revolutions, such as those of Copernicus, Galileo, and Darwin. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former PHIL 220g. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 258g Probability and Rational Choice

Units: 4 Explores formal tools for thinking about uncertainty. In an uncertain world,

how is it rational to form our beliefs, make decisions, and interact with others? Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 260gw Ethical Theory and Practice

Units: 4 Terms Offered: FaSp Explores various conceptions of morality and what makes actions right or wrong, together with the implications of these views for concrete ethical issues. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 262g Mind and Self: Modern Conceptions

Units: 4 Philosophical problems about the nature of mind associated with the rise of modern science; topics include the mind/body relation, personal identity, rationality and freedom. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 284gp Ideas on Trial

Units: 4 The trials of Socrates, Joan of Arc, the Salem witches, Galileo, Scopes and the Nuremberg and Eichmann trials; their social and cultural consequences. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 285Lg Knowledge, Explanation, and the Cosmos

Units: 4 Terms Offered: FaSpSm The nature and limits of knowledge and explanation, and challenges in understanding the origin of the universe and the place of intelligent life within it. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 286Lg Issues in Space and Time

Units: 4 Examining the nature of space and time, how they relate, and how material objects relate to them. Some included topics: substantivalism, temporal directionality, persistence, hyperspace. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 288gp Love and its Representation in Western Literature, Film, and Philosophy

Units: 4 Key works that have shaped the European and American cultural inheritance, with a special focus on the nature of love. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in the former PHIL 225 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 311 The Quest for the Individual in Early Modern Europe

Units: 4 The legal, religious, economic and philosophical bases of the rise of individualism from its roots in ancient times through its development in Europe from the 15th through the 18th centuries. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 319

PHIL 314 Origins of Free Market Thought in Early Modern Europe

Units: 4 The varied history of ideas of a free market from Cicero, through the Middle Ages and Renaissance, to the Enlightenment, Adam Smith, Colbert and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 315

PHIL 315 History of Western Philosophy: Ancient Period

Units: 4 Major figures in the history of Western philosophical thought from the pre-Socratics to the Hellenistic period; emphasis on Plato and Aristotle. Instruction Mode: Lecture Grading Option: Letter

PHIL 317 History of Western Philosophy: Medieval Period

Units: 4 Central themes in Jewish, Christian and Islamic philosophy from late antiquity through the scholastic period. Instruction Mode: Lecture Grading Option: Letter

PHIL 320 History of Western Philosophy: Modern Period

Units: 4 The development of philosophy from the 16th to the 19th centuries; emphasis on Continental Rationalism, British Empiricism, and the philosophy of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 336 Philosophy of Mind and Language

Units: 4 Explores how language shapes thought, how social norms impact meaning and communication, the nature of speech acts, with applications to hate speech and pornography. Instruction Mode: Lecture Grading Option: Letter

PHIL 337 Political Philosophy

Units: 4 Analysis of some of the main political philosophies of the modern era; emphasis on the ethical and metaphysical foundations of political philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 338 Political Economy and Social Issues

Units: 4 Terms Offered: Sp (Enroll in ECON 338)

PHIL 339 Philosophy of Economics

Units: 4 Central topics in the philosophy of economics, including models of economic rationality, the aggregation of preferences and the conditions in which markets yield undesirable outcomes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 339

PHIL 340 Ethics

Units: 4 Terms Offered: FaSpSm Study of major philosophical theories of moral right and wrong, such as utilitarianism, Kantianism, egoism, virtue ethics, and

theological ethics. Instruction Mode: Lecture
Grading Option: Letter

PHIL 345 Greek Ethics

Units: 4 Examination of the progress of the ethical thought and legal and political institutions of ancient Greece with an emphasis on the Nichomachean Ethics of Aristotle. Instruction Mode: Lecture Grading Option: Letter

PHIL 347 Philosophy in Literature

Units: 4 Philosophical content in representative European and American literature; philosophical problems about literature such as the nature of truth and meaning in fiction. Instruction Mode: Lecture Grading Option: Letter

PHIL 350 Symbolic Logic

Units: 4 Introduction to basic techniques of propositional and quantificational logic, and elements of probability. Especially useful to philosophy, mathematics, science, and engineering majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 351 Reasoning and Logic

Units: 4 Study of reasoning as a strategy for arriving at knowledge in dependence upon logical theory. Logical theories are developed alongside historically influential strategies of reasoning. Not open to freshmen. Instruction Mode: Lecture Grading Option: Letter

PHIL 352 Logic and Language

Units: 4 Introduction to modern symbolic logic, with applications to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Instruction Mode: Lecture Grading Option: Letter

PHIL 355 Existentialism

Units: 4 A critical survey of major 19th and 20th century existentialist writers, including Kierkegaard, Dostoevsky, Tolstoy, Kafka, Nietzsche, Camus, and Sartre. Instruction Mode: Lecture Grading Option: Letter

PHIL 360 Epistemology and Metaphysics

Units: 4 Examination of problems in metaphysics and/or epistemology. Conducted at the intermediate level. Instruction Mode: Lecture Grading Option: Letter

PHIL 361 Philosophy of Religion

Units: 4 The existence of God; mysticism, miracles and the possibility of disembodied existence; the problem of evil; religion and morality; the meaning of religious language. Instruction Mode: Lecture Grading Option: Letter

PHIL 362 Possible Worlds

Units: 4 Introduction to possible worlds as a tool for asking and answering questions about what might be, what must be, and what can never be. Instruction Mode: Lecture Grading Option: Letter

PHIL 363 Philosophy of Perception

Units: 4 Philosophical investigation of sense perception as it relates to issues in epistemology, metaphysics, the philosophy of mind, and the philosophy of science. Instruction Mode: Lecture Grading Option: Letter

PHIL 385 Science and Rationality

Units: 4 Examination of the rationality of the scientific enterprise, and of the relation between science and human values. Instruction Mode: Lecture Grading Option: Letter

PHIL 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHIL 410 Early Greek Thought

Units: 4 A study of the Greek thinkers from Homer to the age of Socrates; emphasis on the pre-Socratic philosophers. Instruction Mode: Lecture Grading Option: Letter

PHIL 411 Plato

Units: 4 Detailed study of the evolution of Plato's thought as revealed in selected dialogues. Instruction Mode: Lecture Grading Option: Letter

PHIL 415 Aristotle

Units: 4 Intensive study of selected topics taken from Aristotle's writings in natural philosophy, in metaphysics, and in other areas of philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 421 Continental Rationalism

Units: 4 Development of philosophy on the continent from the 17th to the 19th centuries; emphasis on the philosophical works of Descartes, Leibniz, and Spinoza. Instruction Mode: Lecture Grading Option: Letter

PHIL 422 British Empiricism

Units: 4 Development of philosophy in Great Britain from the 17th to the 19th centuries; emphasis on Locke, Berkeley, and Hume. Instruction Mode: Lecture Grading Option: Letter

PHIL 423 The Critical Philosophy of Kant

Units: 4 Intensive study of the philosophical works of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 424 19th Century Philosophy

Units: 4 Leading figures and movements in 19th century philosophy; works of such philosophers as Hegel, Schopenhauer, Mill, Nietzsche, and Bradley. Instruction Mode: Lecture Grading Option: Letter

PHIL 425 American Philosophy

Units: 4 Leading figures and movements in American philosophy; works of such philosophers as Jonathan Edwards, Charles Peirce, William James, John Dewey, and C.I. Lewis.

PHIL 427 Twentieth Century Anglo-American Philosophy

Units: 4 The rise of analytic philosophy; major ethical, metaphysical, epistemological, views; Frege, Moore, Russell, early and late Wittgenstein and Quine. Instruction Mode: Lecture Grading Option: Letter

PHIL 428 Anglo-American Philosophy Since 1950

Units: 4 The maturing of the analytic tradition from the later Wittgenstein through Ryle, Strawson, Hare, Austin, Grice, Quine, Davidson, Kripke, and beyond. Instruction Mode: Lecture Grading Option: Letter

PHIL 430 Philosophy of Law

Units: 4 Philosophical theories about the nature of law, relations between law and morality, and analysis of normative concepts central to law, such as responsibility, punishment, negligence. Instruction Mode: Lecture Grading Option: Letter

PHIL 431 Law, Society, and Politics

Units: 4 Terms Offered: Fa A systematic presentation of the main philosophical perspectives on the interactions between law and the social-political aspects of our lives. Instruction Mode: Lecture Grading Option: Letter

PHIL 437 Social and Political Philosophy

Units: 4 The nature of man and society, the nature and justification of state and government, political rights and political obligation, justice and equality. Instruction Mode: Lecture Grading Option: Letter

PHIL 440 Contemporary Ethical Theory

Units: 4 Ethical theories in the 20th century; contemporary theories of value and obligation; metaethical theories; intuitionism, naturalism, and non-cognitivism; concepts of justice, human rights, and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 442 History of Ethics to 1900

Units: 4 An historical and critical study of the great moral philosophers, including Plato, Aristotle, Aquinas, Kant, and the British moralists. Instruction Mode: Lecture Grading Option: Letter

PHIL 443 Value Theory

Units: 4 The evaluation of individual and social ends; consideration of such topics as values and rational choice, the good of a person, hedonism, welfare, ideals, and utopias.

PHIL 445 Philosophy of the Arts

Units: 4 Principal theories of the nature of, and response to, art; examination of form and content in various arts; consideration of the role of criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 446 Aesthetics and the Film

Units: 4 Problems in the philosophy of art raised by film, such as the notion of "cinematic"; the nature of interpretation of films; criteria for evaluating films. Instruction Mode: Lecture Grading Option: Letter

PHIL 450 The Limits of Logic

Units: 4 Systematic study of the formal limits on what can be counted, expressed in language, systematically computed or rigorously proved, including Goedel's Incompleteness Theorems. *Prerequisite:* PHIL 350 Instruction Mode: Lecture Grading Option: Letter

PHIL 452 Modal Logic

Units: 4 Elements of propositional and quantified modal logic and the logic of counterfactual conditionals with an eye to some of their applications in contemporary philosophy. *Prerequisite:* PHIL 350, or PHIL 351, or PHIL 352. Instruction Mode: Lecture Grading Option: Letter

PHIL 455 Phenomenology and Existentialism

Units: 4 Terms Offered: Irregular Close study of major writings of Husserl, Heidegger, and Sartre. Instruction Mode: Lecture Grading Option: Letter

PHIL 460 Metaphysics

Units: 4 Systematic introduction to basic concepts, including identity, difference, existence, individuals, substance, quality, and relation; emphasis on idealism, materialism, and the ontology of intentionality. Instruction Mode: Lecture Grading Option: Letter

PHIL 462 Philosophy of Mind

Units: 4 Examination of contemporary theories of mind and its place in the natural world. Instruction Mode: Lecture Grading Option: Letter

PHIL 463 Theories of Action

Units: 4 Systematic investigation of action, the mental states involved in action, the reasoning processes that lead to action, and related concepts including intentionality and free will. Instruction Mode: Lecture Grading Option: Letter

PHIL 465 Philosophy of Language

Units: 4 The nature of communication, meaning, reference, truth, necessity, speech acts, convention, and language. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-465

PHIL 470 Theory of Knowledge

Units: 4 Examination of contemporary accounts of the nature, scope, sources — and value — of human knowledge and justified belief. Instruction Mode: Lecture Grading Option: Letter

PHIL 471 Metaphysics and Epistemology

Units: 4 Classic issues in epistemology and the philosophy of language, leading up to the application of context-sensitivity in language to the problem of skepticism. *Prerequisite:* PHIL 350 or PHIL 351 or PHIL 352 *Recommended Preparation:* at least one 400-level PHIL course. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 472 Moral Philosophy

Units: 4 In-depth study of some important work from the last few decades concerning the nature and status of moral reasons, moral obligations, and moral discourse. *Prerequisite:* PHIL 350 or PHIL 351 or PHIL 352 *Recommended Preparation:* at least one 400-level PHIL class. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 473 Wittgenstein

Units: 4 A detailed study of the philosophical works of Ludwig Wittgenstein. Instruction Mode: Lecture Grading Option: Letter

PHIL 475 Topics in Philosophy, Politics and Economics

Units: 4 The analysis of public policy debates combining the different tools and perspectives of philosophy, political science and economic theory. Registration Restriction: Open only to Philosophy,

Politics and Economics majors Instruction Mode: Lecture Grading Option: Letter

PHIL 480 Philosophy of Mathematics

Units: 4 The nature of mathematical truth and the nature of mathematical entities. Instruction Mode: Lecture Grading Option: Letter

PHIL 484 Philosophy of Physics

Units: 4 Max Units: 12 A comprehensive introduction to two of the central areas of modern philosophy of physics: the philosophy of spacetime, and the philosophy of quantum mechanics. *Recommended Preparation:* PHYS 304, PHYS 408a, or PHYS 438a Instruction Mode: Lecture Grading Option: Letter

PHIL 485 Development of Physical Science

Units: 4 Concepts central in the advance of physical science such as the concepts of space, time, mass, force; philosophical problems concerning quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

PHIL 486 Methodologies of the Sciences

Units: 4 Comparison of the methodologies of the natural, social, and/or behavioral sciences; consideration of such topics as the concept of scientific law, prediction, explanation, confirmation. Instruction Mode: Lecture Grading Option: Letter

PHIL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHIL 494 Senior Thesis

Units: 4 Independent studies for philosophy majors, and guidance in the preparation of the senior thesis for students who wish to graduate with honors in philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 500 Introduction to Contemporary Philosophical Literature

Units: 4 Terms Offered: Fa Analysis of selected philosophical problems and theses of current interest; explication of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 501 Seminar in Recent Philosophy

Units: 4 Max Units: 16.0 Terms Offered: Sp Contemporary philosophical issues and literature. Instruction Mode: Lecture Grading Option: Letter

PHIL 503 Introduction to Contemporary Philosophical Literature on Value

Units: 4 Terms Offered: Sp Analysis of selected philosophical problems and theses of current interest; explication of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 505 Pro-Seminar in Central Topics in Contemporary Philosophy

Units: 4 Terms Offered: Irregular Key developments in central areas of philosophy are used to provide training in philosophical analysis, criticism, and the writing of precise philosophical prose. Instruction Mode: Lecture Grading Option: Letter

PHIL 510 Philosophical Logic

Units: 4 Terms Offered: Sp Applications of logical theory to contemporary philosophical research. Elements of model theory, recursion theory; Goedel's Incompleteness results; modal logic and its interpretations. *Recommended Preparation:* PHIL 350. Instruction Mode: Lecture Grading Option: Letter

PHIL 515 Studies in Ancient and Medieval Philosophy

Units: 4 Max Units: 16.0 Problems in research in selected portions of ancient and medieval philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 520 Studies in Modern Philosophy

Units: 4 Max Units: 16.0 Problems in research in selected portions of modern philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 525 Seminar in Phenomenology

Units: 4 The origin, principles, and development of the phenomenological movement from Brentano to Merleau-Ponty. Instruction Mode: Lecture Grading Option: Letter

PHIL 530 Seminar in Philosophy of Law

Units: 4 Max Units: 12.0 Theories of the nature of law; emphasis on recent writing; legal concepts such as rights, powers, liability, legal responsibility, law, and morality. Instruction Mode: Lecture Grading Option: Letter

PHIL 537 Seminar in Social and Political Philosophy

Units: 4 Max Units: 16.0 Advanced literature on selected topics in social and political philosophy, including the nature of law, man, and society; ideals such as justice and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 540 Seminar in Ethics

Units: 4 Max Units: 16.0 Advanced topics and literature in ethical theory. Instruction Mode: Lecture Grading Option: Letter

PHIL 545 Seminar in Aesthetics

Units: 4 Advanced topics in the philosophy of the arts. Contemporary views on such problems as the nature of art and the role of criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 550 Advanced Topics in Formal Logic

Units: 4 Consistency and completeness of the predicate calculus; truth and validity; rudiments of model logic. *Prerequisite:* PHIL 450. Instruction Mode: Lecture Grading Option: Letter

PHIL 551 Seminar in the Philosophy of Logic

Units: 4 Advanced topics in logic and/

or philosophy of logic. Instruction Mode:
Lecture Grading Option: Letter

PHIL 560 Seminar in Metaphysics

Units: 4 Max Units: 16.0 Terms Offered: Fa
Advanced topics in metaphysics. Instruction
Mode: Lecture Grading Option: Letter

PHIL 562 Philosophy of Mind

Units: 4 Max Units: 12.0 Contemporary
approaches to a variety of questions
about the nature of mental states and our
knowledge of them. Instruction Mode:
Lecture Grading Option: Letter

PHIL 565 Philosophy of Language

Units: 4 Max Units: 12.0 Terms Offered:
FaSp Philosophical issues in the empirical
study of language concerning the relationship
between linguistic meaning and the use of
sentences to assert and convey information.
Instruction Mode: Lecture Grading Option:
Letter

PHIL 570 Seminar in Epistemology

Units: 4 Max Units: 16.0 Advanced topics
in epistemology. Instruction Mode: Lecture
Grading Option: Letter

PHIL 584 Seminar in the Philosophy of Physics

Units: 4 Max Units: 12 Selected topics in
various specialty areas within the philosophy
of physics. *Recommended Preparation:*
PHYS 304, PHYS 408a, or PHYS 438a
Instruction Mode: Lecture Grading Option:
Letter

PHIL 585 Seminar in Philosophy of Science

Units: 4 Max Units: 16.0 Advanced topics in
the philosophy of science. Instruction Mode:
Lecture Grading Option: Letter

PHIL 589 Writing for Publication in Philosophy

Units: 4 Max Units: 8.0 Terms Offered: Sp
Intensive writing seminar in which students
read cutting-edge philosophy and take
supervised steps towards crafting critical
essays for publication. *Prerequisite:* PHIL
500, PHIL 505. Instruction Mode: Lecture
Grading Option: Letter

PHIL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree.
Maximum units which may be applied to the
degree to be determined by the department.
Instruction Mode: Lecture Grading Option:
Credit/No Credit

PHIL 593x Teaching Philosophy

Units: 2 Terms Offered: Fa Basic principles
of philosophical pedagogy, with emphasis
on practical applications and the importance
of career-long skill development. Required
for first-semester teaching assistants in
philosophy. Instruction Mode: Lecture
Grading Option: Credit/No Credit

PHIL 594a Master's Thesis

Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 594b Master's Thesis

Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 594z Master's Thesis

Units: 0 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Major trends
of current thought; specific topics to be
announced. Instruction Mode: Lecture
Grading Option: Letter

PHIL 636 Seminar in Semantics

Units: 3 Max Units: max 12 (Enroll in LING
636)

PHIL 700x Dissertation Seminar

Units: 2 Max Units: 12.0 A focused
environment in which to present and evaluate
dissertation work-in-progress. Focus on
peer and faculty feedback, developing
professional presentation skills, improving
critical communication skills. Registration
Restriction: Open only to Philosophy
doctoral students. Instruction Mode: Lecture
Grading Option: Credit/No Credit

PHIL 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum
units which may be applied to the degree to
be determined by the department. Instruction
Mode: Lecture Grading Option: Credit/No
Credit

PHIL 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

PHIL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

Pharmacy

PHRD 501 Pharmaceutics I

Units: 3 Terms Offered: Fa Introduction to
physicochemical principles of dosage forms;
properties of molecules in dosage forms,
stability of pharmaceuticals, absorption,
and metabolism. Registration Restriction:
Open only to Doctor of Pharmacy students
Instruction Mode: Lecture Grading Option:
Letter

PHRD 502 Pharmaceutics II

Units: 2 Principles involved in molecules
movement across biological barriers.
Properties, characteristics, application of
homogeneous and heterogeneous dosage
forms, liquid, semi-solid and solid.
Registration Restriction: Open only to
Doctor of Pharmacy students. Instruction
Mode: Lecture Grading Option: Letter

PHRD 503 Biological Systems I

Units: 4 Integration and application to
pharmacy of anatomy, histology, physiology
and pathophysiology using an organ-based
approach. Registration Restriction: Open
only to Doctor of Pharmacy students
Instruction Mode: Lecture Grading Option:
Letter

PHRD 504 Biological Systems II

Units: 4 Integration and application to
pharmacy of anatomy, histology, physiology
and pathophysiology using an organ-based
approach. Registration Restriction: Open
only to Doctor of Pharmacy students
Instruction Mode: Lecture Grading Option:
Letter

PHRD 507 Health Care Delivery Systems

Units: 2 Terms Offered: Fa Introduction to
understanding the structure of the health care
system. Includes health care financing and
the role of pharmacy and the pharmacist in
health systems. Instruction Mode: Lecture
Grading Option: Letter

PHRD 508 Pharmacy Literature Analysis and Drug Information

Units: 3 Terms Offered: FaSp Literature
evaluation and biostatistics of clinical
and health services research, and drug
information services. Emphasis on drug
therapy, patient outcomes, and formulary
development. Instruction Mode: Lecture
Grading Option: Letter

PHRD 511 Pharmacy Practice and Professionalism 1

Units: 5 A seminar series covering
leadership, professionalism and professional
development for pharmacy practice. Includes
practical experience placements (IPPE).
Registration Restriction: Open only to
Doctor of Pharmacy students Duplicates
Credit in former PHRD 519 Instruction
Mode: Lecture Grading Option: Letter

PHRD 512 Pharmacy Practice and Professionalism 2

Units: 3 A seminar series covering
leadership, professionalism and professional
development for pharmacy practice. Includes
practical experience placements (IPPE).
Registration Restriction: Open only to
Doctor of Pharmacy students Instruction
Mode: Lecture Grading Option: Letter

PHRD 514 Calculations and Compounding

Units: 2 Knowledge and experience in
pharmacy calculations, compounding,
and sterile IV compounding. Registration
Restriction: Open only to Doctor of
Pharmacy students Instruction Mode: Lecture
Grading Option: Letter

PHRD 515 Metabolism and Cell Biology

Units: 2 Basic principles of drug action and
receptor actions. Includes their application
to the understanding and treatment of
disease. Provides the scientific basis
of pharmaceutical action. Registration
Restriction: Open only to Doctor of
Pharmacy students Duplicates Credit in
former PHRD 555 Instruction Mode: Lecture
Grading Option: Letter

PHRD 516 Non-Prescription Therapies

Units: 3 Introduction to self-care health.

Includes OTC products, dosages, pharmacology, efficacy, cost, side effects, adverse reactions, contraindications, and drug interactions. Duplicates Credit in the former PHRD 506. Instruction Mode: Lecture Grading Option: Letter

PHRD 517 Pharmacogenetics

Units: 2 Principles of gene expression and the influence of genetics on the effectiveness of drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in the former PHRD 505. Instruction Mode: Lecture Grading Option: Letter

PHRD 520 Pharmacists' Patient Care Process

Units: 1 Ensure competency in the Pharmacists' Patient Care Process (PPCP), which is universally used to provide care to individuals by pharmacists in the health care system. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 521 Medicinal Chemistry

Units: 2 Principles of medicinal chemistry for common drugs. Mechanism of action, interactions with protein targets, structure-activity relationships, effects of chirality, and physicochemical properties. Credit Restriction: Open only to Doctor of Pharmacy students Duplicates Credit in former PHRD 557 Instruction Mode: Lecture Grading Option: Letter

PHRD 551 Immunology

Units: 3 Terms Offered: Fa Basic principles of immunology and their application to the understanding and treatment of immunologically-mediated diseases. Provides the scientific basis of immunotherapy and immunodiagnosis. Instruction Mode: Lecture Grading Option: Letter

PHRD 552 Pharmaceutics III

Units: 3 Terms Offered: Sp Principles and applications of controlled, targeted, and self-regulating drug delivery. Methods to deliver therapeutic peptides, proteins and genetic materials. Instruction Mode: Lecture Grading Option: Letter

PHRD 553 Management within Health Care Organizations

Units: 2 Terms Offered: Fa Management of the professional practice of pharmacy in organized health care systems. Introduction to formulary development and outcome analysis. Instruction Mode: Lecture Grading Option: Letter

PHRD 555 Pharmacy Education 1

Units: 2 Terms Offered: Fa Understanding and application of learning theory and teaching methodology, small group teaching, active learning, student motivation, basic assessment methods, and general online teaching tools. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 556 Pharmacy Education 2

Units: 1 Terms Offered: Sp Continuation of Pharmacy Education 1. Registration

Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 559 Therapeutics: Pharmacokinetics

Units: 3 Integrated teaching of basic and clinical pharmacokinetic/pharmacodynamic concepts. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 560 Therapeutics III

Units: 6 Terms Offered: Sp Integrated teaching of biomedical chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmaceuticals treating diseases associated with the central nervous system. Instruction Mode: Lecture Grading Option: Letter

PHRD 561 Pharmacy Practice and Experience III

Units: 3 Terms Offered: FaSp Introductory Pharmacy Practice Experiences (IPPEs) in hospital and community settings. Includes; didactic instruction, laboratory practicums, IV training and practical experience hours. Registration Restriction: Open only to Pharmacy majors. Instruction Mode: Lecture, Lab Grading Option: Letter

PHRD 562 Therapeutics IV

Units: 4 Terms Offered: Sp Integrated teaching of biomedical chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs with an emphasis on treating diseases of the renal, GI and pulmonary systems. Instruction Mode: Lecture Grading Option: Letter

PHRD 563 Case Conference 1

Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 564 Case Conference 2

Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 565 Pharmacy Practice and Professionalism 3

Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 566 Pharmacy Practice and Professionalism 4

Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 567 Pharmacy Law

Units: 2 Provide an introduction to the legal and ethical issues in pharmacy

practice. Includes state and federal statutes, regulations, and pharmacy-related cases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 616. Instruction Mode: Lecture Grading Option: Letter

PHRD 568 Principles and Leadership in Community Health 1

Units: 2 Terms Offered: Fa Introduction to public health and the development of community health programs. Topics include health education, health communication, and behavioral determinants of health and disease. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 569 Principles and Leadership in Community Health 2

Units: 1 Terms Offered: Sp Builds upon students' knowledge of the field of public health and community health programs to evaluate the efficacy of community-based interventions. *Prerequisite:* PHRD 568 Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 570 Therapeutics: Central Nervous System

Units: 5 Integration of biomedical chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on the central nervous system. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 560. Instruction Mode: Lecture Grading Option: Letter

PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders

Units: 5 Integrated approach to the management of common renal, liver, pulmonary, gastrointestinal, joint and integumental related disorders, as well as inflammatory disorders. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 562. Instruction Mode: Lecture Grading Option: Letter

PHRD 599 Special Topics

Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: 8 Terms Offered: FaSp Comprehensive exploration of special and emerging topics in the practice of pharmacy. Registration Restriction: Open only to graduate students in the School of Pharmacy Instruction Mode: Lecture Grading Option: Letter

PHRD 601 Therapeutics V

Units: 6 Terms Offered: Fa Integrated teaching of biomedical chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases. CPR certification. Instruction Mode: Lecture Grading Option: Letter

PHRD 603 Therapeutics: Endocrine System

Units: 5 Integration of biomedical chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on the endocrine and reproductive system. Registration Restriction: Open only to

Doctor of Pharmacy students Instruction
Mode: Lecture Grading Option: Letter

PHRD 605 Therapeutics VII

Units: 4 Terms Offered: Fa Integrated teaching of the biomedical chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs; with emphasis on chemotherapy of infectious disease: bacterial, microbial, viral, parasitic, and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 606 Therapeutics VIII

Units: 2 Terms Offered: Sp Advanced topics and clinical therapeutics of drugs, with emphasis on the treatment of infectious disease: bacterial, microbial, viral, parasitic and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 607 Nutrition

Units: 2 Terms Offered: Fa Biomedical knowledge is correlated with assessments of clinical case management problems to understand the interrelationship between nutrition and health in both hospitalized and healthy patients. Instruction Mode: Lecture Grading Option: Letter

PHRD 608 Therapeutics: Oncology

Units: 2 Terms Offered: Sp Integrated teaching of biomedical chemistry, pharmacology, clinical pharmacokinetics and therapeutics of drugs, with emphasis on pharmaceuticals for managing oncological diseases. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 610 Therapeutics: Special Populations

Units: 3 Terms Offered: Sp Focuses on the pharmacology, pharmacokinetics, medicinal chemistry and clinical therapeutics that apply to pharmaceutical care of pediatric, geriatric and chronic pain patients. Registration Restriction: Open only Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 611 Therapeutics: Infectious Diseases

Units: 5 Integration of biomedical chemistry, pharmacology, pharmacokinetics, and therapeutics, with emphasis on the therapy of infectious diseases caused by bacterial, viral, parasitic, and fungal organisms. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 605 and PHRD 606. Instruction Mode: Lecture Grading Option: Letter

PHRD 612 Therapeutics XI

Units: 2 Terms Offered: Sp Updates students on recent advances in clinical areas, prepares students for advanced practice experiences and assessment of clinical readiness via a final examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 614 Pharmaceutical Economics and Outcome Studies

Units: 3 Terms Offered: Sp Economic analysis of the U.S. health care system, the pharmaceutical industry, and the profession; economic assessment of drug therapy costs and health care outcomes applying

pharmacoeconomic research methodologies. Instruction Mode: Lecture Grading Option: Letter

PHRD 616 Pharmacy, Law and Ethics

Units: 3 Terms Offered: Sp To provide students with an understanding of ethical issues that arise in pharmacy practice along with state and federal statutes, regulations, and pharmacy-related cases. Instruction Mode: Lecture Grading Option: Letter

PHRD 619 Therapeutics: Cardiovascular System

Units: 5 Integration of biomedical chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 601 . Instruction Mode: Lecture Grading Option: Letter

PHRD 620 Pharmacy Practice and Professionalism 5

Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 621 Pharmacy Practice and Professionalism 6

Units: 1 Terms Offered: Sp A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 622 Case Conference 3

Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 623 Case Conference 4

Units: 1 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 624 Community Pharmacy Practice

Units: 4 Exploration of the pharmacy profession and the practice of community pharmacy. Includes didactic instruction and Community Pharmacy Practice Experiences (IPPEs). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 625 Hospital Pharmacy Practice

Units: 3 Exploration of the pharmacy profession and the practice of hospital pharmacy. Includes didactic instruction and Hospital Pharmacy Practice Experiences (IPPEs). Registration Restriction: Only open to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 626 Elective Pharmacy Practice

Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community,

Hospital, or other pharmacy practice settings. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 627 Elective Pharmacy Practice Experience

Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community, Hospital, or other pharmacy practice settings. Duplicates Credit in PHRD 626 Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 633 Pharmacy Management and Economics

Units: 2 Management principles for pharmacy practice, understanding of health care systems and pharmacoecomines. Introduction to formulary management and outcome analysis. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 634 Scholarly Project 1

Units: 1 Terms Offered: Fa Collection and analysis of results in the Pharm.D. Scholarly Project and oral presentation and discussion of these results. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 635 Scholarly Project 2

Units: 1 Terms Offered: Sp Oral and poster presentation of the results of the Pharm.D. Scholarly Project. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 636 Scholarly Project 3

Units: 1 Guides students through the completion of original research with instruction on data analysis, abstract preparation and poster presentation. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 639 Pharmacy Review

Units: 1,2,3 Max Units: 03 Terms Offered: Sm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 650 APPE Gateway

Units: 2 Terms Offered: Sp Competency-based course to prepare and assess students for readiness to enter Advanced Pharmacy Practice Experience (APPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 651 Community Pharmacy and Business Management I

Units: 3 Terms Offered: Fa Development of specialized knowledge and skills in community pharmacy practice involving location analysis, pharmacy management principles, and introduction to business law concepts. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 652 Community Pharmacy and Business Management II

Units: 3 Terms Offered: Sp A continuation of PHRD 651 highlighting the subspecialties available in independent pharmacy including but not limited to specialty pharmacy, 340B pharmacy, DME, compounding, LTC and infusion. *Prerequisite:* PHRD 651 Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 653 Principles of Managed Care

Units: 3 Terms Offered: Fa Understanding formal and informal organizations in institutions, managed care, disease management, health care policy and financing, patients' chart organization, and clinical monitoring parameters. Instruction Mode: Lecture Grading Option: Letter

PHRD 654 Acute Care II

Units: 3 Terms Offered: Sp Recognizing resources available for drug information, familiarity with institutional formularies, medication counseling, writing chart notes, and clinical activities at an off-campus health care institution. Instruction Mode: Lecture Grading Option: Letter

PHRD 655 Geriatric Pharmacy I

Units: 3 Terms Offered: Fa Specialized knowledge and skills in geriatric pharmacy, pharmacology of aging, and unique functions of health care team providing care to the elderly patient. Instruction Mode: Lecture Grading Option: Letter

PHRD 656 Geriatric Pharmacy II

Units: 3 Terms Offered: Sp Specialized knowledge and skills in gerontology and geriatric pharmacy including the pathophysiology of selected cardiovascular, endocrine, genitourinary gastrointestinal disorders, osteoarthritis, and osteoporosis. *Prerequisite:* PHRD 559. Instruction Mode: Lecture Grading Option: Letter

PHRD 657 Basic Research Design

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSp Laboratory, clinical, health economics or regulatory science research experience for pharmacy students. Projects performed working directly with faculty advisers. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 658 Sleep and the Pharmacologic Management of Its Disorders

Units: 3 Terms Offered: FaSp Overview of normal sleep manifestations, and treatment of common sleep disorders, and the pharmacist's role in assessment, treatment, and referral. Instruction Mode: Lecture Grading Option: Letter

PHRD 659 Molecular Therapeutics: Signal Transduction

Units: 3 Terms Offered: FaSp Principles of molecular therapeutics against signaling pathways; emphasis on biological mechanisms underlying hormone, growth factor, and neurotransmitter-mediated gene regulation, proliferation, and cell death. Instruction Mode: Lecture Grading Option: Letter

PHRD 660 Disease State Management I

Units: 3 Terms Offered: FaSp The processes required to develop disease state management protocols based on data drawn from the medical research literature. Instruction Mode: Lecture Grading Option: Letter

PHRD 661 Pharmacy Practice in Women's Health

Units: 3 Terms Offered: FaSp The pharmaceutical care of women patients is emphasized. Therapeutic, psychosocial factors and current research in women's health. Instruction Mode: Lecture Grading Option: Letter

PHRD 662 Psychiatric Pharmacy Practice

Units: 3 Terms Offered: Sp Specialized knowledge and skills in psychiatric pharmacy practice including child, adult, and geriatric psychopharmacology applied to inpatient and outpatient treatment. Instruction Mode: Lecture Grading Option: Letter

PHRD 663 Pharmaceutical Development

Units: 3 Terms Offered: FaSp Examination of pharmaceutical product development process including discovery, preclinical/clinical studies, regulatory-legal issues, and marketing. Instruction Mode: Lecture Grading Option: Letter

PHRD 664 Clinical Problem Solving

Units: 3 Terms Offered: Sp Integration of physical assessment, laboratory tests, history taking, and diagnosis to formulate decisions for optimal treatment plans in specific disease states. Registration Restriction: Open only to graduate pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as CXPT 664

PHRD 665 Complementary/Alternative Therapeutics

Units: 3 Terms Offered: FaSp Examines the therapeutic use of complementary/alternative medicines, such as herbal medicines, homeopathic drugs, vitamins and other nutritional supplements. Instruction Mode: Lecture Grading Option: Letter

PHRD 666 Therapeutic Drug Monitoring

Units: 3 Terms Offered: FaSp Application of pharmacokinetic and pharmacodynamic principles to individualize patient drug regimens. Instruction Mode: Lecture Grading Option: Letter

PHRD 667 Drugs of Abuse

Units: 3 Terms Offered: FaSp Specialized knowledge and skills in specific substance abuse-related areas. Each area will include addiction, wellness, and prevention components. Instruction Mode: Lecture Grading Option: Letter

PHRD 668 Computing Application

Units: 3 Terms Offered: FaSp Specialized knowledge and skills using computers in professional practice: telecommunication protocols, typical patient databases in hospital and community pharmacies, drug interactions, insurance billing, inventory control. Instruction Mode: Lecture Grading Option: Letter

PHRD 669 Health Care Needs of Special Populations

Units: 3 Terms Offered: FaSp Health

care needs of the poor will be examined through participation in a multidisciplinary community clinic setting focusing on medication counseling and compliance. Instruction Mode: Lecture Grading Option: Letter

PHRD 670 Marketing and Development in the Pharmaceutical Industry

Units: 3 Terms Offered: FaSp Basic and advanced strategies for marketing and development of new compounds or indication in the pharmaceutical industry. *Recommended Preparation:* PHRD 663. Instruction Mode: Lecture Grading Option: Letter

PHRD 671 Pharmacy Education Seminar

Units: 3 Terms Offered: FaSp A seminar course with a focus on educational methods and teaching skills providing career development for students interested in academia. Instruction Mode: Lecture Grading Option: Letter

PHRD 672 Introduction to Critical Care

Units: 3 Terms Offered: Sp Coupling evidence-based management with a case-based approach; reinforces the clinical thought processes to optimize pharmaceutical care in various critical care settings. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 673 Spanish for Pharmacists

Units: 3 Practical Spanish for pharmacists, including basic conversation of commonly prescribed drugs. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 674 Acute Care I

Units: 3 Terms Offered: Fa Development of specialized knowledge and skills in evidence-based drug-therapy management in the acute care arena. Duplicates Credit in PHRD 653 Instruction Mode: Lecture Grading Option: Letter

PHRD 677 Risk Assessment and Management in Pharmacy Practice

Units: 3 Terms Offered: FaSp Specific risk management issues, legal and professional expectations of pharmacists, and assessing and avoiding risk. Instruction Mode: Lecture Grading Option: Letter

PHRD 678 Topics in Pharmacology: the Other Side of Drugs

Units: 2, 3 Terms Offered: Fa (Enroll in MPTX 510)

PHRD 679 Toxicology and the Media

Units: 2, 3 Terms Offered: Sp (Enroll in MPTX 520)

PHRD 688 Global Pharmacy

Units: 3 Opportunity to work with pharmacists, student pharmacists, and other healthcare professionals to experience pharmacy education and practice outside of the United States. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 701 Acute Care Clinical APPE

Units: 6 Terms Offered: FaSpSm Application of pharmaceutical care

principles to the adult patient population in an acute care environment. Pharmacology, pharmacokinetics, and disease state management will be emphasized.

Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 704 Primary Care APPE

Units: 6 Disease state management and a primary care setting. Modification and design of drug therapy regimens and primary patient care using a team based approach. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 705 Community Pharmacy APPE

Units: 6 Terms Offered: FaSpSm
Pharmaceutical care principles applied to the community pharmacy environment. Participating in the development, implementation and outcome evaluation of patient care services in the community. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 714 Nuclear Pharmacy APPE

Units: 6 Terms Offered: FaSpSm
Provides practical and theoretical aspects of radiopharmacy services delivery. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 718 Hospital Pharmacy Practice APPE

Units: 6 Terms Offered: FaSpSm Practical experience in the practice of hospital pharmacy. Administrative, practice-based and therapeutic competencies emphasized. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 725 International Pharmacy Practice Experience

Units: 3, 6 Terms Offered: FaSpSm Practical experience in the practice of pharmacy in the international setting. Students will visit an international pharmacy practice setting and complete a project. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 731 Advanced Geriatrics APPE

Units: 6 Terms Offered: FaSpSm Directed projects/practical experience in geriatric drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 738 Pharmaceutical Industry APPE

Units: 6 Max Units: 12 Terms Offered: FaSpSm Practical experience within a pharmaceutical company may include: clinical affairs, drug development, research and/or marketing process. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 750 Advanced Pharmacy Practice Elective (APPE)

Units: 6 Max Units: 12 Terms Offered: FaSpSm Pharmacy practice experience (internship) course in a health care setting. Registration Restriction: Open only to

Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE)

Units: 6 Max Units: 12 Terms Offered: FaSpSm Pharmacy practice experience (internship) course in a non-traditional or emerging setting. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 752 Special Project APPE

Units: 6 The Special Projects advanced pharmacy practice experiences course gives students the opportunity to demonstrate competency in a variety of pharmacy practice settings. Registration Restriction: Open only to doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 790 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Research leading to doctorate in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 794a Doctoral Dissertation

Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794b Doctoral Dissertation

Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794c Doctoral Dissertation

Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794d Doctoral Dissertation

Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794z Doctoral Dissertation

Units: 0 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796a Doctor of Pharmacy Capstone

Units: 0 Terms Offered: FaSpSm Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796b Doctor of Pharmacy Capstone

Units: 0, 3 Terms Offered: Sp Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Pharmaceutical and Translational Sciences

PHTS 654 Computation in Drug Discovery and Development

Units: 2 Terms Offered: Fa Focuses on computational prediction of molecular association and ADME (absorption, distribution, metabolism, excretion) properties in drug discovery and development. *Recommended Preparation:* Review basic computer skills Instruction Mode: Lecture, Lab, Discussion Grading Option: Credit/No Credit

PHTS 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in the PHTS umbrella PhD program during their first year Instruction Mode: Lecture Grading Option: Credit/No Credit

Physics

PHYS 051x Problem Solving in Mechanics and Thermodynamics

Units: 1 Intensive practice in solving elementary problems within a student-centered learning environment. *Concurrent Enrollment:* PHYS 151. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 100Lx The Physical World

Units: 4 Terms Offered: FaSp The fundamentals of physics presented with emphasis on the structure and beauty of physical laws. Practical component will relate these laws to commonly encountered events. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 125Lg Physics for Architects

Units: 4 Terms Offered: Sp Fundamental laws and principles of physics with emphasis on the application of physical principles to the problems of architecture. *Prerequisite:* MATH 108. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in PHYS 135a, PHYS 135b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 135ag Physics for the Life Sciences

Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. *Prerequisite:* Passing of Math Placement Exam or MATH 108 or MATH 125 or MATH 126 or MATH 226. Satisfies New General Education in Category E: Physical Sciences Duplicates Credit in PHYS 125. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 135bL Physics for the Life Sciences

Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to

life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. *Prerequisite:* Passing of Math Placement Exam or MATH 108 or MATH 125 or MATH 126 or MATH 226. Duplicates Credit in PHYS 125. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 141L Special Laboratory I

Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 151 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 142L Special Laboratory II

Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 152 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 143L Special Laboratory III

Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 153 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics

Units: 4 Terms Offered: FaSpSm Gateway to the majors and minors in Physics and Astronomy. Statics and dynamics of particles and rigid bodies, conservation principles, gravitation, simple harmonic oscillators, thermodynamics, heat engines, entropy. *Prerequisite:* MATH 125g or MATH 126g or MATH 226 or MATH 129 or MATH 229 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 152L Fundamentals of Physics II: Electricity and Magnetism

Units: 4 Terms Offered: FaSpSm Electrostatics, magnetostatics, electrical circuits, wave motion, sound waves, electromagnetic waves. *Prerequisite:* PHYS 151Lg and (MATH 126g or MATH 129) *Corequisite:* MATH 226g or MATH 229 Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 153L Fundamentals of Physics III: Optics and Modern Physics

Units: 4 Terms Offered: FaSpSm Geometrical optics, interference, diffraction, special relativity, quantum mechanics, atomic physics, solid state physics. *Prerequisite:* PHYS 152. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 161Lg Advanced Principles of Physics I

Units: 4 Terms Offered: Sp Gateway to the majors and minors in Physics and Astronomy. Introductory treatment intended for well-qualified students. Dynamics of particles and rigid bodies, conservation laws, wave motion, thermodynamics, heat

engines, entropy. *Prerequisite:* MATH 126 *Corequisite:* MATH 226 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 162L Advanced Principles of Physics II

Units: 4 Terms Offered: Fa Electrostatics, magnetostatics, electrical circuits, electric and magnetic properties of matter, Maxwell's equations, electromagnetic waves, propagation of light. *Prerequisite:* MATH 226 *Recommended Preparation:* PHYS 161 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 163L Advanced Principles of Physics III

Units: 4 Terms Offered: Sp Interference and diffraction of waves, special relativity, quantum mechanics, atomic physics, nuclear physics, condensed matter physics, elementary particles. *Prerequisite:* PHYS 162 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 171Lg Applied Physics I: Mechanics

Units: 4 Mechanics, mechanical vibrations and waves, special relativity. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* MATH 129 *Corequisite:* MATH 229 Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 172L Applied Physics II: Electricity, Magnetism and Optics

Units: 4 Electric and magnetic fields; electromagnetic waves; optics. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* MATH 229 (PHYS 171L or PHYS 161Lg) Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 173L Applied Physics III: Topics in Modern Physics

Units: 4 Quantum mechanics, statistical mechanics, solid-state physics. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* PHYS 172L or PHYS 162L Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 190 Physics Discovery Series

Units: 1 Terms Offered: Fa Introduction to current research activities of the faculty of the department; topics of current and popular interest among the wider community of physicists. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 200Lgx The Physics and Technology of Energy

Units: 4 Terms Offered: FaSp Investigation of energy technologies, including development and implementation issues. Topics include the industrial revolution, electromagnetic induction, power transmission, combustion engines, fission and fusion. Satisfies New General Education in Category E: Physical Sciences Satisfies

Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 304 Mechanics

Units: 4 Terms Offered: Fa Dynamics of particles, kinematics of rotations, rigid body motion, Lagrangian and Hamiltonian formalism, theory of small vibrations. *Prerequisite:* PHYS 151 or PHYS 161, MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 316 Thermodynamics and Statistical Mechanics

Units: 4, 2 years Terms Offered: Sp First, second, and third thermodynamic laws; thermodynamic potentials, applications; distribution laws, kinetic theory, transport phenomena, specific heats. *Prerequisite:* PHYS 152 or PHYS 161, MATH 226. Instruction Mode: Lecture Grading Option: Letter

PHYS 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHYS 408a Electricity and Magnetism

Units: 4 Terms Offered: Fa Electrostatics; thermal, chemical, magnetic effects of steady currents; DC circuits. *Prerequisite:* PHYS 152 or PHYS 162; *Corequisite:* MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 408b Electricity and Magnetism

Units: 4 Terms Offered: Sp Electromagnetic induction; AC circuits; Maxwell's equations. *Prerequisite:* PHYS 152 or PHYS 162; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 430 General Relativity and Gravitation

Units: 4 Terms Offered: Sp Geometry of the Universe, special relativity, curved metrics, black holes, equivalence principle, cosmology, Friedman-Robertson-Walker geometry, Einstein's equations. *Prerequisite:* PHYS 304; Instruction Mode: Lecture Grading Option: Letter

PHYS 438a Introduction to Quantum Mechanics and its Applications

Units: 4 Terms Offered: Sp Concepts and techniques of quantum mechanics; free and bound states, the hydrogen atom. *Prerequisite:* PHYS 304; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 438b Introduction to Quantum Mechanics and its Applications

Units: 4 Terms Offered: Fa Relativity, atomic spectra, quantum statistics, nuclear models, nuclear reactions, elementary particles. *Prerequisite:* PHYS 304; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 440 Introduction to Condensed Matter Physics

Units: 4 Terms Offered: Irregular, Sp Crystal structures, x-ray diffraction, thermal properties of solids, diamagnetism and

paramagnetism, free-electron model of metals, semiconductors, ferromagnetism, super-conductivity, imperfections in crystals. *Corequisite:* PHYS 438a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-436

PHYS 444 Physical Biology: From Molecules to Cells

Units: 4 Terms Offered: Fa Length, time, and energy scales of life; statistical mechanics of biomolecules and cellular processes; physics of cell shape; biological fluid dynamics; electron transfer and metabolism. *Prerequisite:* PHYS 152 or PHYS 162; *Recommended Preparation:* BISC 220. Instruction Mode: Lecture Grading Option: Letter

PHYS 472 Introduction to Lasers and Laser Systems

Units: 3 Terms Offered: Fa (Enroll in EE 472)

PHYS 473L Lasers and Optics Laboratory

Units: 3 Terms Offered: Sp (Enroll in EE 473)

PHYS 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHYS 492L Senior Lab

Units: 4 Terms Offered: Fa Projects will include experiments in mechanics, thermodynamics, electricity and magnetism. Emphasis on laboratory work with discussion of theoretical background. *Prerequisite:* PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 493L Advanced Experimental Techniques

Units: 4 Terms Offered: Sp Development of modern experimental techniques, including computer interface with data acquisition hardware and data analysis by software, applied specifically to experiments in modern physics. Emphasis on laboratory work with discussion of theoretical background. *Prerequisite:* PHYS 492L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 495 Senior Project

Units: 2 An original project will be constructed applying computer technology (in either hardware or software) to produce a result useful in the physics classroom or laboratory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-495

PHYS 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Lectures and discussions on specialized topics in physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 500 Graduate Colloquium

Units: 1 Max Units: 4.0 Terms Offered: FaSp Topics of current research interest in physics and astronomy. Lectures directed to physics graduate students by faculty of the department and by outside speakers. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 502 Advanced Optics

Units: 3 Terms Offered: Irregular Interaction of light and matter; laser oscillation condition; optical resonators; spectroscopy; pumping mechanisms; characteristics of dielectric, semiconductor, gas, and liquid lasers; topics in nonlinear optics. Instruction Mode: Lecture Grading Option: Letter

PHYS 504 Advanced Mechanics

Units: 3 Terms Offered: Fa Newtonian formulation of dynamics; Hamilton's principle; Lagrangian formulation; rigid body motion; Hamiltonian formulation; Hamilton-Jacobi theory; vibrations. Instruction Mode: Lecture Grading Option: Letter

PHYS 508a Advanced Electricity and Magnetism

Units: 3 Terms Offered: Sp Electrostatics, boundary value problems, multipole expansions, microscopic models of matter, magnetostatics. Instruction Mode: Lecture Grading Option: Letter

PHYS 508b Advanced Electricity and Magnetism

Units: 3 Terms Offered: Fa Maxwell's equations, potentials and gauge transformations; electromagnetic waves; wave guides; electromagnetic radiation; special relativity. Instruction Mode: Lecture Grading Option: Letter

PHYS 510 Methods of Theoretical Physics

Units: 3 Terms Offered: Fa Vector analysis; infinite, asymptotic Fourier series; complete sets; Dirac delta function; Fourier, Laplace transforms; Legendre functions; spherical harmonics; Sturm-Liouville theory; orthogonal polynomials; gamma-factorial function; complex variables. Instruction Mode: Lecture, Lab Grading Option: Letter

PHYS 514 Methods of Experimental Physics

Units: 3 Terms Offered: Irregular Techniques of general utility in contemporary physics research, with emphasis on the use of commercially available instrumentation. Instruction Mode: Lecture Grading Option: Letter

PHYS 516 Methods of Computational Physics

Units: 3 Terms Offered: Sp Introduction to algorithm development. Integration of ordinary differential equations; chaotic systems; molecular dynamics; Monte Carlo integration and simulations; cellular automata and other complex systems. *Recommended Preparation:* ability to program in C or C++. Instruction Mode: Lecture Grading Option: Letter

PHYS 518 Thermodynamics and Statistical Mechanics

Units: 3 Terms Offered: Fa Principles of, and relations between, thermodynamics and statistical mechanics; ensembles, partition function formalism; quantum statistics of noninteracting particles; fluctuations. Instruction Mode: Lecture Grading Option: Letter

PHYS 520 Methods for Complex Systems

Units: 3 Terms Offered: Fa Probabilities, random walks, generalized central limit theorems, probabilities in thermodynamics,

critical phenomena, self organized criticality, phenomenology of catastrophies, dynamical systems and examples from outside physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 530 Relativity

Units: 3 Terms Offered: Irregular Fundamentals of the special theory and applications to classical and quantum physics; the principle of equivalence; tensor analysis and Einstein's theory of gravitation; relativistic cosmology. *Recommended Preparation:* PHYS 504, PHYS 508a. Instruction Mode: Lecture Grading Option: Letter

PHYS 540 Solid State Physics

Units: 3 Terms Offered: Fa Fundamental concepts and techniques in solid state physics; electron gas at metallic densities; semiclassical transport; crystallography; band structure; phonons; screening; superconductivity; magnetic ordering. *Recommended Preparation:* PHYS 518, PHYS 558a. Instruction Mode: Lecture Grading Option: Letter

PHYS 558a Quantum Mechanics

Units: 3 Terms Offered: Sp General formulation of quantum mechanics with applications; theory of measurement; exactly solvable problems; angular momentum formalism. Instruction Mode: Lecture Grading Option: Letter

PHYS 558b Quantum Mechanics

Units: 3 Terms Offered: Fa Approximation schemes and applications to atomic and molecular physics and scattering theory; identical particles; electromagnetic properties of atoms. Instruction Mode: Lecture Grading Option: Letter

PHYS 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PHYS 593 Practicum in Teaching Physics and Astronomy

Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within the physical sciences. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHYS 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical

work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to Physics graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 630 Science of Nanoscale Materials

Units: 3 Terms Offered: Fa Fundamental physics of low dimensional systems, with an emphasis on nanoscale materials (e.g. nanodot, nanowire, graphene) and state-of-the-art research topics, including characterization of nanostructure materials, and device concepts that take the advantage of low dimensionality. *Prerequisite:* PHYS 440; *Recommended Preparation:* knowledge of basic quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

PHYS 640 Advanced Condensed Matter Physics

Units: 3 Terms Offered: Sp Magnetism, magnons; superconductivity; transport phenomena; many-body effects; interacting electron gas; Hartree-Fock theory; neutron and X-ray scattering; and other selected topics. *Recommended Preparation:* PHYS 540, PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 650 Topics in Current Research

Units: 2 Terms Offered: Fa Course content will vary each year. It will include topics of current interest in research conducted in academia and industry. Instruction Mode: Lecture Grading Option: Letter

PHYS 660 Quantum Information Science and Many-Body Physics

Units: 3 Terms Offered: Sp Introduction to advanced techniques in theoretical many-body physics based on quantum information theory. *Prerequisite:* PHYS 510 and PHYS 558b Instruction Mode: Lecture Grading Option: Letter

PHYS 668 Advanced Quantum Mechanics

Units: 3 Terms Offered: Sp Relativistic wave equations; second quantization of Klein-Gordon, Dirac and Maxwell fields; applications in quantum electrodynamics and condensed matter physics. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 669a Group Theory and Symmetries in Physics

Units: 3 Terms Offered: Irregular Abstract group theory; representation theory; point groups; selection rules; crystal tensors; molecular vibrations; rotation group; SU(2); Wigner-Eckart theorem; crystal-field splitting; time-reversal symmetry; gauge invariance; SU(3) and quarks. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 669b Group Theory and Symmetries in Physics

Units: 3 Terms Offered: Irregular Application of group theory in field theory and particle physics: Lie groups and representations, Young tableaux, Dynkin diagrams, Poincare

group, classical groups and supergroups, gauge theories. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 670 High Energy Physics

Units: 3 Terms Offered: Irregular Elementary particles and the fundamental forces acting on them. Quarks, leptons, symmetries, gauge invariance, spontaneously broken symmetry, electroweak theory, quantum chromodynamics grand unified theory, strings. *Recommended Preparation:* PHYS 668. Instruction Mode: Lecture Grading Option: Letter

PHYS 678 Relativistic Quantum Field Theory

Units: 3 Terms Offered: Irregular Computational methods in relativistic quantum field theory: Feynman path integral, covariant perturbation theory, regularization, renormalization group, and non-perturbative techniques. *Recommended Preparation:* PHYS 668. Instruction Mode: Lecture Grading Option: Letter

PHYS 680 Advanced Quantum Field Theory

Units: 3 Terms Offered: Irregular Renormalization, quantization of gauge theories, non-Abelian gauge theories, quantum chromodynamics, spontaneous symmetry breaking, the standard model, anomalies. *Recommended Preparation:* PHYS 678. Instruction Mode: Lecture Grading Option: Letter

PHYS 682 Supersymmetric Field Theory

Units: 3 Terms Offered: Fa Supersymmetry algebra, Coleman-Mandula theorem, N=1 and N=2 Yang-Mills theory, Seiberg duality, holomorphy, introduction to Seiberg-Witten theory, electromagnetic duality, BPS states. *Recommended Preparation:* PHYS 678, PHYS 680. Instruction Mode: Lecture Grading Option: Letter

PHYS 684 Advanced String Theory

Units: 3 Terms Offered: Sp Advanced string theory. Strong coupling and nonperturbative techniques. D-branes, black holes, duality, AdS/CFT. Applications in particle, nuclear and condensed matter physics, and quantum gravity. *Recommended Preparation:* PHYS 530, PHYS 678, PHYS 680. Instruction Mode: Lecture Grading Option: Letter

PHYS 690 Introduction to Physical Biology

Units: 3 Terms Offered: Sp Introduces students to the role of physics in biology. Considers both experimental and more fundamental points of view. Explores a few current research directions. *Recommended Preparation:* good knowledge of basic statistical mechanics and thermodynamics. Instruction Mode: Lecture Grading Option: Letter

PHYS 692 Internship

Units: 3 or 6 Max Units: 6.0 Terms Offered: FaSpSm Field application of physics in a business or industry setting; part-time employment. Project to be jointly defined by student, employer and professor. Instruction Mode: Lecture Grading Option: Letter

PHYS 710 Selected Topics in Experimental Physics

Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include superconducting quantum interference devices, scanning tunneling microscopy, and laser cooling and trapping of single atoms. Instruction Mode: Lecture Grading Option: Letter

PHYS 720 Selected Topics in Theoretical Physics

Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include field theory, many body theory, Green's functions, dispersion theory, and group theory. Instruction Mode: Lecture Grading Option: Letter

PHYS 730 Selected Topics in Particle Physics

Units: 3 Max Units: 6.0 Various advanced phases of particle physics. Content will vary yearly; emphasis on superstring theories, advanced topics in quantum gravity, and field theory. *Recommended Preparation:* PHYS 678. Instruction Mode: Lecture Grading Option: Letter

PHYS 740 Selected Topics in Condensed Matter Physics

Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include theory of superconductivity, high temperature superconductivity, Green's functions in condensed matter physics, magnetism and transport in disordered metals. Instruction Mode: Lecture Grading Option: Letter

PHYS 750o Off Campus Studies

Units: 3 Max Units: 9.0 Course work taken on campus at Caltech as part of the Caltech-USC cross-registration program. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PHYS 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Project Management

PJMT 500 Principles of Project Management

Units: 2 Terms Offered: FaSpSm Concepts including delivering project scope within cost, schedule, and resource constraints and the exploration of the traditional or waterfall project management methodology will be explored. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 505 Requirements Elicitation and Business Analysis

Units: 2 Terms Offered: FaSpSm Tasks, techniques, and perspectives on how to approach business analysis along with methods for developing requirement process tools and techniques and best practices. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 510 Schedule Management

Units: 2 Terms Offered: FaSpSm Structured approach to project schedule management, demonstrating how to be proactive and in control of projects by implementing effective schedule management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 515 Cost Estimation and Forecasting

Units: 2 Terms Offered: FaSpSm Approaches to project cost estimation and the tools and methodologies best suited for estimates and forecasts that need to be prepared. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 520 Risk Management

Units: 2 Terms Offered: FaSpSm Coursework will enable students to prepare a comprehensive risk management plan and discover different approaches to identify, assess, and quantify risks and their impacts. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 525 Agile Project Management Methodologies

Units: 2 Terms Offered: FaSpSm Agile project management concepts and a set of frameworks that covers the people, products, and techniques required to successfully implement projects. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 530 Quality and Process Improvement

Units: 2 Terms Offered: FaSpSm Quality and performance improvement projects and methodologies used to implement them with a focus on Six Sigma, Lean, and Total Quality Management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 535 Specialized Project Management

Units: 2 Terms Offered: FaSpSm Explores several industries and entities and their developed project management methodologies to meet industry-specific needs through traditional approaches and partnerships in various sectors. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 540 Organizational Change Management and Business Relationships

Units: 2 Terms Offered: FaSpSm Students learn to cultivate the necessary components for stakeholder management on nearly any change within an organization through change management and business relationship management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 545 Program Management

Units: 2 Terms Offered: FaSpSm Managing and coordinating multiple organizational projects with a focus on project alignment, organizational goals, performance maximization, risk minimization, and program success. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 550 Portfolio Management

Units: 2 Terms Offered: FaSpSm Structured approach to design, build, and manage a project portfolio, focusing on strategic implementation and operational initiatives to create sustainable value. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 555 Project Management Capstone

Units: 2 Terms Offered: FaSpSm Utilize skills gained throughout the program to demonstrate the ability to plan and implement a project from conception to conclusion. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

Urban and Regional Planning

PLUS 600 Environmental Goods in Planning and Development

Units: 4 Terms Offered: Irregular Production, distribution, and valuation of environmental goods with attention to amenity concepts, externalities, public goods, consumer behavior; as characterized in economics, political science, sociology, psychology. Instruction Mode: Lecture Grading Option: Letter

PLUS 601 Advanced Planning Theory I

Units: 4 Terms Offered: Fa Value hierarchies, means-ends continuums, and the nature of social action; problems of prediction and choice under conditions of uncertainty; alternative planning strategies. Instruction Mode: Lecture Grading Option: Letter

PLUS 603 Planning and Development Paradigms

Units: 4 Terms Offered: Sp Introduction to

historic, prevalent, and alternative paradigms of professional planning and development practice; seminar format and case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 612 Analysis of Quantitative Data for Planning and Development

Units: 4 Terms Offered: Fa Planning and development case study approach to identifying data needs, acquisition, evaluation, manipulation, analysis, and multimedia presentation. *Prerequisite:* PPD 525. Instruction Mode: Lecture Grading Option: Letter

PLUS 615 Behavioral Issues in Environmental Design

Units: 4 Terms Offered: Irregular Planning and design of the physical environment for human activities, e.g., user preferences, privacy, territoriality, stress and adaptation, cognitive mapping, lifestyles. Instruction Mode: Lecture Grading Option: Letter

PLUS 623 Politics of Planning and the Urban Environment

Units: 4 Terms Offered: Sp Historic roots of property rights and obligations related to public policy, focus on current issues and discourse. Instruction Mode: Lecture Grading Option: Letter

PLUS 626 Information Systems for Planning and Development

Units: 4, 2 years Terms Offered: Sp Structure, content, and applications of formal information systems in planning and policy making emphasizing social accounts and indicators, censuses, social reporting, and "futures" research. Instruction Mode: Lecture Grading Option: Letter

PLUS 631 Seminar in Physical Planning and Design in Developing Countries

Units: 4 Terms Offered: Irregular Issues in comparative urbanism; planning and design in developing countries: slums and squatters, housing and infrastructure, new towns, land policy, conservation and redevelopment, city design. Instruction Mode: Lecture Grading Option: Letter

PLUS 632 National Urban Policy in Developing Countries

Units: 4 Terms Offered: Irregular The problems of the primate city, the role of intermediate cities, and the implicit spatial impacts of macro and sectoral policies. Instruction Mode: Lecture Grading Option: Letter

PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs

Units: 4 Terms Offered: Irregular Comparative examination of urbanization experience in selected areas and cities throughout the world; housing policies, urban planning approaches, financial, administrative, legal, and other techniques. Instruction Mode: Lecture Grading Option: Letter

PLUS 635 Urban Finance

Units: 4 Terms Offered: Irregular The theory of fiscal federalism and municipal finance, with examples from the USA and other countries, public/private partnerships

in urban development, and government decentralization. Instruction Mode: Lecture Grading Option: Letter

PLUS 640 International Urban Development

Units: 4 Terms Offered: Irregular Study of urbanization in developing countries; special attention to urban growth, migration, city size, land use, and urban management. Comparative case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 650 Public Policy and Globalization

Units: 4 Terms Offered: Fa Challenges of public policymaking and administration; conceptual foundations of public policy as well as the practical and political constraints on government action; theories, models, and analytical frameworks both domestic and abroad.

PLUS 651 Applied Research Design and Inquiry

Units: 4 Provide foundation in applied research skills required for advanced practice in policy, management, planning and development; design and use of applied research; development of research designs; constraints on application of research; translation of findings. *Prerequisite:* PPD 502

PLUS 652 Place, Institutions, and Governance

Units: 4 Concept of place; investigation of the problems and issues confronting metropolitan communities; how the actions of public, private and nonprofit sectors can effect various areas including economics, health, civic life, and the environment; contemporary issues in policy, planning and development; theoretical frameworks for solutions.

PLUS 653 Leading Change and Innovation in Urban Communities

Units: 4 Terms Offered: Fa In-depth study of the role of public, private, and non-profit leaders in effecting change in public policy and planning practice, with special attention to the goals and processes of social innovation in urban communities.

PLUS 660 Economics of a Productive Development - A Public/Private Perspective

Units: 3 Terms Offered: Fa Introduction to the economic and financial aspects of real estate development; tools and methods of financial analysis; public and private perspectives. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 661 Politics and Process of Urban Development

Units: 2 Terms Offered: Fa Introduction of concepts of formal and informal political institutions with a focus on planning and urban issues at the local, state and national levels; theories and methods to understand contemporary planning conflicts. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 662 Planning and Development Case Study

Units: 1 Terms Offered: Fa Case study project; students analyze a project and develop recommendations for financing and regulatory issues. Registration Restriction: Open only to online Master of Urban Planning (executive) degree students Instruction Mode: Lecture Grading Option: Letter

PLUS 663 Designing Livable Environments I

Units: 1 Terms Offered: Fa Studio setting; students will go through a design charrette, site visit, and develop an understanding of design principles. Registration Restriction: Open only to online master or urban planning (executive) degree students Instruction Mode: Lecture Grading Option: Letter

PLUS 664 Urban Political Economy and Urban Development

Units: 2 Planning and development within a complex political landscape; budgetary and fiscal politics, metropolitan fragmentation and sub urbanization, immigration, and race, gender, and ethnicity in urban politics; implications for planning and development. *Prerequisite:* PLUS 661 Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 665 Economics for a Productive City

Units: 3 Terms Offered: Sp Basic concepts of urban and land economics with an emphasis on how planning and development are shaped by the metropolitan economic context; how key theoretical elements inform planning and development questions. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 667 Effective Engagement with Stakeholders

Units: 3 Approaches and challenges to community engagement; different conceptualizations of citizen; micro-scale forum and macro-scale methods; use of media for participation in communities. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 668 Big Data for Planning and Development

Units: 2 Introduction to data and visualization trends in relation to urban planning and development; train leaders to manage teams and leverage data and information technology resources. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 669 Designing Livable Environments II

Units: 1 Studio setting; students will go through a design charrette, site visit, and develop an understanding of design principles *Prerequisite:* PLUS 663

Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 670 Communicating Data for Planning and Development

Units: 1 Methods and techniques for data visualization; application to planning and development contexts; critical assessment of data presentation approaches and methods. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 671 Leading a Collaborative City

Units: 4 Leadership skills for planning and development; cross-sectoral collaboration, negotiation, and theories of organizational leadership; metrics for performance assessment, project management, and team building in organizations. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 672 Integrating Concepts for Action

Units: 1 Research a planning and development topic; capstone project. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 680 Advanced Urban and Regional Transportation Planning

Units: 4, 2 years Terms Offered: Fa Social and environmental impacts; incentive structures; alternate travel; investment guidelines; technological change. Instruction Mode: Lecture Grading Option: Letter

PLUS 692 Conspectus Preparation

Units: 4 Terms Offered: FaSpSm Preparation of a case study of a specific planning and/or development project that defines the student's field of study. Instruction Mode: Lecture Grading Option: Letter

PLUS 694a Planning, Design and Development Professional Dissertation

Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694b Planning, Design and Development Professional Dissertation

Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694c Planning, Design and Development Professional Dissertation

Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694d Planning, Design and Development Professional Dissertation

Units: 2 Credit on acceptance of planning, design and development professional

dissertation. Instruction Mode: Lecture
Grading Option: In-progress and Credit/No Credit

PLUS 694z Planning, Design and Development Professional Dissertation

Units: 0 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture
Grading Option: In-progress and Credit/No Credit

Preventive Medicine

PM 499 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08
Selected topics in Preventive Medicine.
Instruction Mode: Lecture Grading Option: Letter

PM 500 Foundations of Health Behavior

Units: 4 Terms Offered: Fa Overview of behavioral theory and research in disease prevention and health promotion and in adaptation of chronic disease, including an introduction to measures of outcomes.
Prerequisite: admission to PhD in Preventive Medicine. Instruction Mode: Lecture
Grading Option: Letter

PM 501 Foundations in Health Education and Promotion

Units: 4 Terms Offered: FaSpSm Overview and application of behavioral theories to the field of health education and promotion. Examines the determinants of health behavior and strategies for change at the individual, group and community level.
Instruction Mode: Lecture Grading Option: Letter

PM 502 Foundations of Public Health

Units: 4 Terms Offered: FaSp Overview of public health concepts and issues, including population health; ethics; health disparities, determinants, and systems of care; global health; policy; health promotion; environmental health. Instruction Mode: Lecture
Grading Option: Letter

PM 503 Practice of Public Health

Units: 4 Terms Offered: FaSp Introduction to the application of strategies and tools for practice in public health, including policy advocacy, leadership and management, program planning and evaluation, health communication. *Recommended Preparation:* PM 502 Instruction Mode: Lecture
Grading Option: Letter

PM 504 Quality in Health Care

Units: 4 Terms Offered: FaSpSm Examines quality assessment at different levels of the health care system including health plans, physicians, hospital and integrated system performance. *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture
Grading Option: Letter

PM 505 Training and Curriculum Design in Public Health

Units: 4 Terms Offered: Sm Curriculum writing and training skills applied to public health needs and settings. Covers adult learning theories, assessment of learning needs, curriculum design, training design, conduct and evaluation. *Recommended Preparation:* PM 500. Instruction Mode: Lecture
Grading Option: Letter

PM 506 Overcoming Real World Challenges in Global Health

Units: 4 Terms Offered: Fa Overview of program implementation challenges in global health contexts, including best practices for establishing effective cross-cultural collaborations, working with key leaders, and operationalizing complex interventions.
Instruction Mode: Lecture Grading Option: Letter

PM 507 Public Health Services Research Methods

Units: 4 Terms Offered: FaSp A practical examination of methods and data sources used to evaluate public health services and conduct policy research and evaluation within health care delivery systems.
Prerequisite: PM 510L and PM 512
Recommended Preparation: PM 502 or PM 508 Instruction Mode: Lecture
Grading Option: Letter

PM 508 Health Service Delivery in the U.S.

Units: 4 Terms Offered: FaSpSm Historical development of the American health care system; determinants of health care utilization; role of health care providers; health policy; public health services; and health care finance. *Recommended Preparation:* PM 502 Instruction Mode: Lecture
Grading Option: Letter

PM 509 Comparative Health Care Systems

Units: 4 Terms Offered: Sp Macro-level analysis of the structure and delivery of health care services around the world, including an examination and comparison of health system performance. Instruction Mode: Lecture
Grading Option: Letter

PM 510L Principles of Biostatistics

Units: 4 Terms Offered: FaSp Concepts of biostatistics; appropriate uses and common misuses of health statistics; practice in the application of statistical procedures; introduction to statistical software including EXCEL, SPSS, nQuery. Instruction Mode: Lecture, Lab Required
Grading Option: Letter

PM 511aL Data Analysis

Units: 4 Terms Offered: FaSp Major parametric and nonparametric statistical tools used in biomedical research, computer packages including SAS. Includes laboratory.
Prerequisite: PM 510. Instruction Mode: Lecture, Lab Required
Grading Option: Letter Crosslisted as MATH-511A

PM 511bL Data Analysis

Units: 4 Terms Offered: Sp Statistical methods for analysis of categorical data including dichotomous, ordinal, multinomial and count data, using Stata package. Includes laboratory. *Prerequisite:* PM 511a Instruction Mode: Lecture, Lab Required
Grading Option: Letter Crosslisted as MATH 511b

PM 511cL Data Analysis

Units: 4 Terms Offered: FaSpSm Methods and applications for modeling longitudinal, time-to event and multi-level data. Includes laboratory using R package. Instruction Mode: Lecture, Lab Required
Grading Option: Letter

PM 512 Principles of Epidemiology

Units: 4 Terms Offered: FaSp Terminology/ uses of epidemiology and demography; sources/uses of population data; types of epidemiologic studies; risk assessment; common sources of bias in population studies; principles of screening.
Recommended Preparation: algebra. Instruction Mode: Lecture
Grading Option: Letter

PM 513 Experimental Designs

Units: 3 Terms Offered: Sp Statistical methods for analysis of various experimental designs. Parametric analysis of variance (ANOVA), repeated measures methods, crossover designs, non-parametric ANOVA.
Prerequisite: PM 510L *Recommended Preparation:* PM 511aL Instruction Mode: Lecture
Grading Option: Letter

PM 514 Sexually Transmitted Infections: a Systems Approach

Units: 4 Terms Offered: Sm Exploration of the interplay between systems, policy, advocacy, programs, and research with sexually transmitted infections. Issues such as health literacy, access to care, and evidence-based interventions designed to avert disparities in health, especially sexual health, will be evaluated. *Recommended Preparation:* PM 501 and PM 512
Instruction Mode: Lecture
Grading Option: Letter

PM 515 Multivariate Statistics in Health Behavior Research

Units: 4 Terms Offered: Sp Advanced training in multivariate statistical techniques involving general linear modeling, mixed modeling and basic latent variables analysis in health behavior research *Prerequisite:* PM 511aL and PM 511bL Instruction Mode: Lecture
Grading Option: Letter

PM 516a Statistical Problem Solving

Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. *Prerequisite:* PM 510L. Instruction Mode: Lecture, Lab
Grading Option: Credit/No Credit

PM 516b Statistical Problem Solving

Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. *Prerequisite:* PM 510L. Instruction Mode: Lecture, Lab
Grading Option: Credit/No Credit

PM 517a Research Methods in Epidemiology

Units: 3 Terms Offered: FaSp Study design, ascertainment of study objects, questionnaire development, various methodological issues in study design and interpretation including bias, measurement error, confounding and effect modification. Instruction Mode: Lecture
Grading Option: Letter

PM 517b Research Methods in Epidemiology

Units: 3 Terms Offered: FaSp Overview of epidemiologic research in cancer. Selected cancer sites will be covered to highlight study design and conduct, exposure assessment, data analysis and interpretation. *Prerequisite:* PM 517a Instruction Mode: Lecture
Grading Option: Letter

PM 518a Statistical Methods for Epidemiological Studies I, II

Units: 3 Terms Offered: Sp Principles and methods used in epidemiology for comparing disease frequencies between groups. Restricted to the analysis of binary outcome variables. *Recommended Preparation:* PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 518b Statistical Methods for Epidemiological Studies I, II

Units: 3 Terms Offered: Sp Statistical methods for binary outcomes by introducing techniques for cross classified risks and rates and regression models for individual data. *Prerequisite:* PM 518a. Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 519 Introduction to Human Nutrition

Units: 4 Terms Offered: Sp Dietary role of carbohydrates, proteins, lipids, vitamins, and minerals in metabolism; nutritional assessment; nutritional deficiencies. Focus on the role of nutrition in the prevention and treatment of chronic disease. *Recommended Preparation:* PM 530. Duplicates Credit in former PHNU 527. Instruction Mode: Lecture Grading Option: Letter

PM 520L Advanced Statistical Computing

Units: 3 Terms Offered: SpSm Techniques for the solution of statistical problems through intensive computing; iterative techniques, randomization tests, the bootstrap, Monte Carlo methods.. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 521a Seminar in Nutrition

Units: 2 Terms Offered: FaSp Duplicates Credit in former PHNU 520ab. Instruction Mode: Lecture Grading Option: Letter

PM 521b Seminar in Nutrition

Units: 2 Terms Offered: FaSp Duplicates Credit in former PHNU 520ab. Instruction Mode: Lecture Grading Option: Letter

PM 522a Introduction to the Theory of Statistics

Units: 3 Terms Offered: FaSp Density distribution and hazard functions; normal, chi-square, student's t and F distributions; and sampling procedures for single factor and multiple factor designs, distributions. *Recommended Preparation:* working knowledge of multivariable calculus and familiarity with linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 522b Introduction to the Theory of Statistics

Units: 3 Terms Offered: FaSp Theory of estimation and testing, inference, analysis of variance, theory of regression. *Recommended Preparation:* college-level calculus and linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 523 Design of Clinical Studies

Units: 3 Terms Offered: Sp Design, conduct, and interpretation of results of clinical trials; emphasis on principles affecting structure, size, duration of a trial, and the impact of ethical and practical considerations. *Recommended Preparation:* PM 511aL. Instruction Mode: Lecture Grading Option: Letter

PM 524a Practicum in Health Behavior

Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in prevention. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 524b Practicum in Health Behavior

Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in compliance. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 524c Practicum in Health Behavior

Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in health behavior topics. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 525 Culture and Health: Global Perspectives

Units: 4 Terms Offered: FaSpSm International variations in health status with a focus on the impact of socioeconomic status, politics, environment, education and gender in etiology of illness, access to health care, progression of disease, and recovery. Instruction Mode: Lecture Grading Option: Letter

PM 526 Communications in Public Health

Units: 4 Terms Offered: Sp Application of communication theories and methods to community health problems. Includes background assessment, program design, evaluation, social marketing, media advocacy, review of major health campaigns. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 527 Epidemiology of Infectious Disease

Units: 4 Terms Offered: FaSpSm Survey of natural history of infectious disease, methods of disease control and outbreak investigation, and an overview of the epidemiology of injury. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 528 Program Design and Evaluation

Units: 4 Terms Offered: Sp Core concepts, methods and values of public health program planning and evaluation, including community needs assessment, writing objectives, designing health promotion programs, process and outcome evaluation. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 529 Environmental Health: An Epidemiological Approach

Units: 4 Terms Offered: FaSpSm An overview of environmental health, identifying issues in assessing effects of exposure on health and potential interventions for reducing adverse health

risks. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 530 Biological Basis of Disease

Units: 4, 2 years Terms Offered: Sp With a physiological overview, differentiates genetic and environmental disease; emphasis on the relationships between lifestyle, behavior, and health. *Prerequisite:* admission to PhD in Preventive Medicine, Health Behavior Research or basic biology. Instruction Mode: Lecture Grading Option: Letter

PM 531 Research Methods in Nutrition

Units: 4 Terms Offered: Fa In-depth discussion of nutrition research including nutrition assessment, measurement of dietary intake, study design, statistical issues, critical appraisal, and translation into practice. *Prerequisite:* PM 510, PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 532 Genetics in Public Health and Preventive Medicine

Units: 4 Terms Offered: Sm History and philosophy of public health genetics and mechanisms of genetic diseases. Epidemiologic methods used to identify genetic diseases in individuals, families, and populations. Emphasis on prevention and relevant ethical issues. *Recommended Preparation:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 533 Genetic and Molecular Epidemiology

Units: 3 Terms Offered: FaSpSm Genetic principles; design and analysis of family studies; introduction to likelihood estimation; segregation and linkage analysis; biomarkers of exposure, susceptibility, and disease; laboratory methods; susceptibility genes; association and linkage disequilibrium. *Recommended Preparation:* PM 510L, PM 511bL, PM 512, PM 518a, BIOC 543 Instruction Mode: Lecture Grading Option: Letter

PM 534 Statistical Genetics

Units: 3 Terms Offered: Sp Familial aggregation, segregation analysis, linkage analysis, association, regressive models, gene-environment interactions, genetic heterogeneity and linkage disequilibrium. *Recommended Preparation:* PM 518a, PM 522a Instruction Mode: Lecture Grading Option: Letter

PM 535 Nutrition in Public Health

Units: 4 Terms Offered: Fa Principles related to developing effective programs and services to improve the health and nutrition within a community. Attaining and maintaining nutritional health related to biology, lifestyle choices, environments, and health care delivery systems. *Recommended Preparation:* PM 530. Duplicates Credit in former PHNU 523. Instruction Mode: Lecture Grading Option: Letter

PM 536 Program Evaluation and Research

Units: 4 Terms Offered: Fa Overview of concepts, tools, data collection, analysis methods and designs used to evaluate health promotion programs. Examples from substance abuse prevention, family planning and reproductive health programs.

Instruction Mode: Lecture Grading Option: Letter

PM 537 Chronic Disease Epidemiology

Units: 4 Terms Offered: FaSpSm Overview of causative factors and demographic distribution of major chronic diseases in the western world. Epidemiologic concepts, methods and research design as applied to chronic disease prevention will be emphasized. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 538 Introduction to Biomedical Informatics

Units: 3 Terms Offered: Sm Overview of current topics, enabling technologies, research initiatives, and practical considerations in biomedical informatics. Instruction Mode: Lecture Grading Option: Letter

PM 539 Nutrient-Drug Interactions

Units: 2 Terms Offered: Sm Examines the various ways foods, and the nutrients contained in them, interact with medications used to treat chronic health conditions. Instruction Mode: Lecture Grading Option: Letter

PM 540 Maternal and Child Nutrition: Practice and Policy

Units: 4 Physiological basis for good nutrition during pregnancy and childhood through adolescence. Design, implementation and evaluation of public health nutrition programs and policies serving women and children. *Recommended Preparation:* PM 530. Instruction Mode: Lecture Grading Option: Letter

PM 541 Obesity, Metabolism and Health

Units: 4 Terms Offered: Fa Overview of the epidemiology of obesity, related health conditions and mechanisms related to energy balance, food intake and genetics. Discussion of prevention and treatment strategies. *Recommended Preparation:* PM 530. Instruction Mode: Lecture Grading Option: Letter

PM 542 Social Network Analysis

Units: 4 Terms Offered: Sp Theory, methods and procedures of network analysis with emphasis on applications to public health programs. Instruction Mode: Lecture Grading Option: Letter

PM 543L Nonparametric Statistics

Units: 3 Terms Offered: Irregular (Enroll in MATH 543) Instruction Mode: Includes laboratory.

PM 544L Multivariate Analysis

Units: 3 Terms Offered: SpSm Exploratory and inferential techniques for multivariate data, Hotelling's T², multivariate analysis of variance, classification analysis, principle components, cluster analysis, factor analysis. Involves computer use. *Recommended Preparation:* PM 510L, PM 522a Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 544L

PM 545L Introduction to Time Series

Units: 3 Terms Offered: Fa (Enroll in MATH 545) Instruction Mode: Includes laboratory.

PM 546 Biological Threats and Terrorism

Units: 4 Terms Offered: Fa History of biowarfare and bioterrorism; proper surveillance techniques, capacity building for public health and medical communities, and the importance of effective communications. Methods of preparedness, prevention and response are examined. *Recommended Preparation:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 547 Public Health Policy and Politics

Units: 4 Terms Offered: FaSp Examination of major policy issues in the U.S. health care delivery system to understand policy options in reforming health care and reducing health care disparities. *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 548 Prevention and Public Policy

Units: 2 Terms Offered: FaSp Introduction to prevention policy framework; examination of how the application of epidemiology and behavioral aspects of diseases shapes the development of public health policy. *Prerequisite:* PM 512 *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 549 Human Molecular Genetics

Units: 4 Terms Offered: FaSpSm (Enroll in BIOC 543)

PM 550 Sample Surveys

Units: 3 (Enroll in MATH 550)

PM 551 Statistical Methods in Genome-Wide Association Studies

Units: 3 Terms Offered: FaSpSm Provides epidemiologists with an overview of current statistical problems and approaches in the design and analysis of genome-wide association studies. *Prerequisite:* PM 511a, PM 512; *Corequisite:* PM 522a. Instruction Mode: Lecture Grading Option: Letter

PM 552 Statistical Methods in Clinical Trials

Units: 3 Terms Offered: Sp Stochastic failure process; parametric models for survival data; sample size estimation procedures for clinical trials; multivariate regression models for binary outcome and censored survival data; computer programs; multiple failure modes and competing risks. *Recommended Preparation:* PM 518a, MATH 408 Instruction Mode: Lecture Grading Option: Letter

PM 553 Human Exposure Assessment for Public Health

Units: 4 Terms Offered: FaSpSm Examination of important routes of exposure to toxic materials; how to measure exposure; strengths and weaknesses of different measurement techniques; design of exposure assessment studies. *Recommended Preparation:* PM 510 or one semester of statistics and background in science or engineering for graduate students not in MPH. Instruction Mode: Lecture Grading Option: Letter

PM 554 Health Effects of Environmental Contaminants

Units: 4 Terms Offered: FaSp Examines the interrelationships among biology, the

environment and health, including the fundamental principles of basic toxicology and biology underlying environmental health effects. *Recommended Preparation:* PM 529 Instruction Mode: Lecture Grading Option: Letter

PM 555 Environmental Health, Policy and Practice

Units: 4 Terms Offered: FaSp Examination of environmental public health policies/regulations, the role of science in assessment and policy initiatives, barriers to change, and competing interests that influence policy adoption. *Recommended Preparation:* PM 529. Instruction Mode: Lecture Grading Option: Letter

PM 556 Environment and the Brain

Units: 4 Terms Offered: FaSpSm An examination of the effects of environmental exposures on the brain, addressing both human health and neurobiologic correlates throughout the lifespan. Instruction Mode: Lecture Grading Option: Letter

PM 557 Global Environmental Health

Units: 4 Terms Offered: Sp Examination of the health effects of global environmental changes, including climate change, globalization, food safety, air pollution, water pollution, and radiation. Instruction Mode: Lecture Grading Option: Letter

PM 558 Environmental Epidemiology: Concepts, Methods, and Practice

Units: 4 Terms Offered: FaSp Examine epidemiologic methods, concepts, and statistical approaches; case-study seminars with structured critiques of current literature on human-environment interactions affecting public health. *Recommended Preparation:* PM 510 and PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 560 Statistical Programming With R

Units: 2 Terms Offered: Sm The contents include: R objects, control structure, data input and output, subsetting objects, data manipulation and aggregations, character manipulation, graphics, and writing user-defined functions. *Recommended Preparation:* Knowledge of one programming language other than R or a half-year experience programming in R. Instruction Mode: Lecture Grading Option: Letter

PM 561 Promoting Dietary Change

Units: 3 Terms Offered: Sp Development, implementation, and evaluation of dietary interventions at community and individual levels. Discussion of lifespan, culture, socioeconomic, and environmental factors. *Prerequisite:* PM 501. Instruction Mode: Lecture Grading Option: Letter

PM 562 Intervention Approaches for Health Promotion and Disease Prevention

Units: 4 Terms Offered: Sp Approaches for modifying health behavior in various settings and within diverse populations. Emphasis on practical considerations necessary to design and implement interventions with demonstrated effectiveness. Instruction Mode: Lecture Grading Option: Letter

PM 563 Organizing and Mobilizing Communities for Public Health

Units: 4 Terms Offered: Fa Survey of effective community organizing and mobilization efforts in the U.S. and abroad, using participatory, organizational, community empowerment and public-private partnership models. Instruction Mode: Lecture Grading Option: Letter

PM 564 Public Health Leadership and Management

Units: 4 Terms Offered: FaSpSm Introduction to leadership and management concepts, tools, and practices in the context of domestic and global public health and healthcare delivery settings. Instruction Mode: Lecture Grading Option: Letter

PM 565 Introduction to Global Health

Units: 4 Terms Offered: Sp Current public health issues and research topics relating to 21st century challenges and threats. Lessons learned and best practices to strengthen public health systems and enhance public health readiness and preparedness. Instruction Mode: Lecture Grading Option: Letter

PM 566 Introduction to Health Data Science

Units: 4 Terms Offered: Fa An introduction to the toolsets needed to create workable and reproducible datasets, conduct exploratory analysis and visualizations, learn from data, summarize and communicate analytic results. Instruction Mode: Lecture Grading Option: Letter

PM 567 Public Health Disaster Management and Response

Units: 4 Terms Offered: FaSpSm Definition and chronology of natural and man-made disasters and their effects on the global community. Structure and organization of disaster management systems and the role of humanitarian organizations. *Recommended Preparation:* PM 501, PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 568 Ethical Issues in Public Health

Units: 4 Terms Offered: Fa Ethical principles in the distribution of health resources, conduct of global public health research, and implementation of public health initiatives across different nations, cultures, religions. *Recommended Preparation:* PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 569 Spatial Statistics

Units: 3 Terms Offered: FaSpSm An introduction to statistical methods for analyzing and interpreting spatially referenced data topics include: geostatistics, areal data, point pattern data and visualization. *Recommended Preparation:* PM 511aL and familiarity with R Instruction Mode: Lecture Grading Option: Letter

PM 570 Statistical Methods in Human Genetics

Units: 4 Terms Offered: Sp An introductory course in the statistical methods used in the analysis of human genetic data. *Recommended Preparation:* PM 533 Instruction Mode: Lecture Grading Option: Letter

PM 571 Applied Logistic Regression

Units: 3 Terms Offered: Sm An introduction to the logistic regression model, emphasizing practical data analysis techniques. *Prerequisite:* PM 510; PM 512; and PM 511a or PM 518a. Instruction Mode: Lecture Grading Option: Letter

PM 572 Medical Physiology I

Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PM 573 Medical Physiology II

Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PM 574 Programming In Modern Statistical Software

Units: 2 Terms Offered: FaSpSm Programming using SAS Software, including branching, sub-setting, PDV, looping, by-group processing, array, combining data functions, ODS, and macros. Instruction Mode: Lecture Grading Option: Letter

PM 575 Statistical Methods in Environmental Epidemiology

Units: 3 Terms Offered: FaSpSm Study designs, exposure time response, longitudinal, spatial, ecologic correlation and mechanistic models, measurement error interactions, measurement error, public policy implications. *Recommended Preparation:* PM 511aL and PM 511bL and PM 518a Instruction Mode: Lecture Grading Option: Letter

PM 576 Global Health Research and Programs

Units: 4 Terms Offered: FaSpSm Introduction to the core concepts and methods of planning and implementing health-related programs and research in resource-constrained settings. Instruction Mode: Lecture Grading Option: Letter

PM 577 Global Health, Law and Human Rights: Concepts and Methods

Units: 1, 2, 3, 4 Terms Offered: FaSp Highlights the complex interactions between global health, law and human rights, emphasizing the use of human rights in public health thinking and practice. *Recommended Preparation:* MPH core course work Duplicates Credit in LAW 707 Instruction Mode: Lecture Grading Option: Letter

PM 578 Global Health Governance and Diplomacy

Units: 4 Terms Offered: FaSp Investigates the way health is organized and administered at the global level, emphasizing the role of international diplomacy and law in governing health. Instruction Mode: Lecture Grading Option: Letter

PM 579 Statistical Analysis of High-Dimensional Data

Units: 4 Terms Offered: FaSpSm Overview of statistical issues and solutions to high dimensional data analysis. Use of Bioconductor and R, with applications in molecular biology. *Recommended Preparation:* PM 511a. Instruction Mode: Lecture Grading Option: Letter

PM 580 Foundations of Child Health

Units: 4 Terms Offered: Sp Overview of issues related to infant, child and

adolescent health, including special health considerations at different points in the developmental cycle, health care systems and policies and health disparities. Instruction Mode: Lecture Grading Option: Letter

PM 581 Quality and Inequality in Health Care: Examination of Health Services

Units: 4 Terms Offered: Fa Social inequalities, including racial/ethnic disparities and income related inequalities are examined in the context of access and delivery of health care in the U.S. Instruction Mode: Lecture Grading Option: Letter

PM 582 Epidemiology and Prevention of Pediatric Injuries

Units: 4 Terms Offered: Fa Examines the incidence and causes of injuries to children from birth to adolescence, risk factor distributions and approaches to prevention. Instruction Mode: Lecture Grading Option: Letter

PM 583 Foundations of Early Childhood Mental Health

Units: 4 Terms Offered: Fa Overview of major infant and early childhood mental health issues, relating to the status of child mental health and the importance of comprehensive systems of care for children that support resilience and respond to biological and psychosocial mental health risks. Instruction Mode: Lecture Grading Option: Letter

PM 584 Systems of Care for Children with Special Needs

Units: 4 Terms Offered: Sm Examines and evaluates principles, policies, programs and practices (systems) that have evolved to identify, assess and meet the special needs of children and families. Includes both historical and current perspectives. Instruction Mode: Lecture Grading Option: Letter

PM 585 Child Health Policy

Units: 4 Terms Offered: Sp History of child health and social welfare programs during the past century. Issues examining health status and health service delivery, the role of health care financing and health policy. Instruction Mode: Lecture Grading Option: Letter

PM 586 Reproductive and Perinatal Epidemiology

Units: 4 Terms Offered: FaSpSm Introduction to reproductive health, from preconception to the neonatal and early period of human development. Heavy emphasis on the methods and public health implications. *Prerequisite:* PM 510L and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 587 Qualitative Research Methods in Public Health

Units: 4 Introduction to common uses of qualitative research methods in public health research and application. Methods include ethnography, participant observation, open-ended interviewing, and focus groups. Instruction Mode: Lecture Grading Option: Letter

PM 588 The Practice of Epidemiology

Units: 4 Terms Offered: FaSpSm Provides

students with hands on experience of the common methods used in conducting epidemiological studies, and designing and obtaining funding for research projects. *Prerequisite:* PM 512; *Recommended Preparation:* PM 527. Instruction Mode: Lecture, Lab Grading Option: Letter

PM 589 Global Health Governance and Diplomacy in Practice in Geneva (World Health Assembly)

Units: 4 Terms Offered: Sm Investigates the way health is organized and administered at the global level by integrating students directly into the World Health Assembly (WHA), the decision-making body of the World Health Organization. *Recommended Preparation:* PM 578 Instruction Mode: Lecture Grading Option: Letter

PM 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 591 Machine Learning for the Health Sciences

Units: 4 Terms Offered: FaSpSm Introduces Masters and Ph.D. students in the Health Sciences to Machine Learning methods and their Biomedical applications. *Recommended Preparation:* PM 511aL Instruction Mode: Lecture, Lab Grading Option: Letter

PM 593 Public Health Practicum

Units: 4 or 8 Terms Offered: FaSpSm Field placement in a community agency, such as a county health department or community-based organization. *Recommended Preparation:* completion of all course work. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 595 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 596 Practicum in Public Health

Units: 1 Terms Offered: FaSpSm Applied practical experience through field placement

in federal, state, and/or local public health agencies/organizations, including community-based organizations; research and school-based settings. *Recommended Preparation:* PM 502, PM 503 and at least one MPH concentration core course Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 597 Capstone in Public Health

Units: 1 Terms Offered: FaSpSm Provides the culminating, integrative learning experience for students enrolled in the Master of Public Health program. *Recommended Preparation:* completion of all MPH course work Instruction Mode: Lecture Grading Option: Letter

PM 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Special topics relevant to the study of selected issues and areas of health behavior research or other aspects of preventive medicine. Instruction Mode: Lecture Grading Option: Letter

PM 601 Basic Theory and Strategies in Prevention

Units: 4, 2 years Terms Offered: Fa Psychosocial basis of healthhazardous lifestyle behaviors and preventive strategies. *Recommended Preparation:* PM 500, PM 515. Instruction Mode: Lecture Grading Option: Letter

PM 602 Basic Theory and Strategies for Compliance/Adaptation

Units: 4, 2 years Terms Offered: Fa Behavioral and psychosocial demands of acute and chronic diseases. Comparison of theoretical models of compliance and adaptation with intervention methods to improve compliance and adaptation. *Recommended Preparation:* PM 500, PM 515. Instruction Mode: Lecture Grading Option: Letter

PM 603 Structural Equation Modeling

Units: 4, 2 years Terms Offered: Fa Factor analytic and structural equation modeling approaches to health behavior research — conceptual, practical and mathematical. *Prerequisite:* PM 511b. Instruction Mode: Lecture Grading Option: Letter

PM 604 Health Behavior Research Methods

Units: 4 Terms Offered: Sp Health research/ evaluation philosophies, approaches, and development of skills for development and critique of health behavior research projects/ studies. *Recommended Preparation:* PM 511a, PM 511b, PM 511c. Instruction Mode: Lecture Grading Option: Letter

PM 605 Systematic Review and Meta-Analysis

Units: 4 Terms Offered: FaSpSm Theoretical basis and practical approaches for identifying, summarizing and interpreting current bodies of scholarly information addressing a defined research question. *Prerequisite:* PM 510 and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 606 Health Data Science Practicum

Units: 3 Terms Offered: FaSpSm Analysis of an external medical research or healthcare

industry dataset; project/presentation based. Instruction Mode: Lecture Grading Option: Letter

PM 607 Nutrition and Health: Myths, Controversies and Science

Units: 4 Terms Offered: Sp Introduces students to methods in Nutrition Epidemiology in order to develop skills needed to design, analyze and critically evaluate nutrition related health research. *Recommended Preparation:* PM 510L and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 610 Seminar in Biostatistics and Epidemiology

Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Special topics of current interest to provide background for research in biostatistics and epidemiology. Based largely on student dissertation research. *Prerequisite:* PhD level. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 611 Advanced Topics in Epidemiology

Units: 3 Terms Offered: Irregular Review of current epidemiologic research contained in recent medical literature; emphasis on critique of studies and interpretation of findings. Instruction Mode: Discussion Grading Option: Letter

PM 612a Clinical Translational Research (CTR)

Units: 4 Terms Offered: Fa First of three courses in CTR, a discipline that fosters multidirectional integration of basic, patient-oriented and population-based research with the long-term goal of improving public health. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 612b Clinical Translational Research (CTR)

Units: 4 Terms Offered: Sp Analysis and interpretation of data to test clinical translational hypotheses. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 612c Clinical Translational Research (CTR)

Units: 4 Terms Offered: Sm Multidisciplinary approach to clinical and translational research. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 615 Intervention Research Grant Proposal Development

Units: 4 Terms Offered: FaSp Process of applying for research grants in health behavior research, including dissertation grants. Covers the structure of NIH and other grantmaking agencies, the grant review process, tailoring ideas to the grantmaker's priorities, research design, development of training and mentoring plans, and budgeting. *Prerequisite:* PM 500 Instruction Mode: Lecture Grading Option: Letter

PM 690a Directed Research in Health Behavior

Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604.

Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690b Directed Research in Health Behavior

Units: 2 Terms Offered: FaSpSm
Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690c Directed Research in Health Behavior

Units: 2 Terms Offered: FaSpSm
Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690d Directed Research in Health Behavior

Units: 2 Terms Offered: FaSpSm
Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690z Directed Research in Health Behavior

Units: 0 Terms Offered: FaSpSm
Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 756 Research Seminar in Health Behavior

Units: 1 Max Units: 6.0 Terms Offered: FaSp
Short seminar presentations and discussions on issues accompanying the development of the field of health behavior and implementation of research in this field. *Instruction Mode:* Lecture Grading Option: Credit/No Credit

PM 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research applicable to the doctorate. Maximum units which may be applied to the degree to be determined by the department. *Instruction Mode:* Lecture Grading Option: Credit/No Credit

PM 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Instruction Mode:* Lecture Grading Option: In-progress to Credit/No Credit

PM 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Instruction Mode:* Lecture Grading Option: In-progress to Credit/No Credit

PM 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Instruction Mode:* Lecture Grading Option: In-progress to Credit/No Credit

PM 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Instruction Mode:* Lecture Grading Option: In-progress to Credit/No Credit

PM 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Instruction Mode:* Lecture Grading Option: In-progress to Credit/No Credit

Pharmaceutical Economics and Policy

PMEP 509 Research Design

Units: 4 Terms Offered: Fa
Introduction to the concept of research design and examples of the variant research methods utilized in the field. Both the conceptual and practical issues of research including development of the research question, selection of appropriate methods, data sources and analytic approaches to address the research question will be addressed. *Instruction Mode:* Lecture Grading Option: Letter

PMEP 525 Pharmacoeconomics I

Units: 4 Terms Offered: Sp
Introduction to pharmacoeconomics with special emphasis on the role of pharmaceuticals and the pharmaceutical industry, insurance, managed care, regulation and pricing. *Recommended Preparation:* Excel for Windows or Mac Registration Restriction: Except through discussion with the instructor Duplicates Credit in former PMEP 538 *Instruction Mode:* Lecture Grading Option: Letter

PMEP 526 Pharmacoeconomics II

Units: 2 Terms Offered: Sm
Continued development of the use of the economic evaluation model, and application of the methods and techniques of economic assessment of pharmaceuticals and other medical technology. *Prerequisite:* PMEP 525 Registration Restriction: Open only to graduate students in Pharmaceuticals Economics and Policy *Instruction Mode:* Lecture Grading Option: Letter

PMEP 527 Pharmacoeconomics III

Units: 4 Terms Offered: Fa
Advanced methods in economic health intervention assessment and pharmacoeconomics with special emphasis on microeconomic modeling and methods for assessing patient and health state preferences. *Prerequisite:* PMEP 525 and PMEP 526 *Recommended Preparation:* Excel for Windows Registration Restriction: Open only to graduate students in Pharmacy and Pharmaceutical Economics and Policy *Instruction Mode:* Lecture Grading Option: Letter

PMEP 534 Health Economics I

Units: 4 Terms Offered: Fa (Enroll in ECON 636)

PMEP 535 Behavioral Science and Policy in Healthcare

Units: 4 Terms Offered: Sp
Use of acquired skills to develop and assess uses of behavioral science to affect health policy. *Recommended Preparation:* PMEP 509 Registration Restriction: Open only to graduate students Duplicates Credit in former PMEP 519 and PMEP 529 *Instruction Mode:* Lecture Grading Option: Letter

PMEP 539 Economic Assessment of Medical Care

Units: 4 Terms Offered: Fa
Principles of cost-benefit analysis and medical cost-effectiveness analysis with applications in

medical care and the pharmaceutical field. *Prerequisite:* ECON 500 and ECON 581. *Instruction Mode:* Lecture Grading Option: Letter

PMEP 544 Health Economics II

Units: 4 Terms Offered: Sp
Second of part series in techniques of microeconomic analysis to inform health policy. Topics include: patents and innovation, pharmaceutical regulation, hospital competition, physician practice. *Recommended Preparation:* ECON 601, ECON 611 and ECON 636. *Instruction Mode:* Lecture Grading Option: Letter

PMEP 547 Programming Methods for Empirical Analysis of Health Data

Units: 4 Terms Offered: Fa
Introduction to methods for analysis of large health data sets, including data selection, SAS/Stata programming under Linux, and review of claims and survey data. *Instruction Mode:* Lecture Grading Option: Letter

PMEP 551 Introduction to Health Econometrics

Units: 4 Terms Offered: Sp
Introduction to statistical analysis and regression modeling for health economics and policy research. Topics include: statistical inference, principles of probability and statistics, regression models, and causal inference. Registration Restriction: Open only to PMEP students or instructor permission *Instruction Mode:* Lecture, Discussion Grading Option: Letter

PMEP 552 Advanced Health Econometrics I

Units: 4 Terms Offered: Fa
The expansion of students' knowledge of econometric methods emphasizing, but not limited to, applications to health economics. Serves as a prelude to the advanced study of microeconomics. *Prerequisite:* PMEP 551 or PPD 558 Registration Restriction: Open only to graduate students in Pharmaceutical Economics and Policy; Economics *Instruction Mode:* Lecture Grading Option: Letter

PMEP 553 Advanced Health Econometrics II

Units: 4 Terms Offered: Sp
Covers the transition to independent producers of high-quality empirical research on health and health care. Peer-reviewed research will serve as case studies for class discussion and may address empirical methods. *Prerequisite:* PMEP 552 Registration Restriction: Open only to graduate students in Pharmaceutical Economics and Policy Duplicates Credit in PMEP 549 *Instruction Mode:* Lecture Grading Option: Letter

PMEP 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. *Instruction Mode:* Lecture Grading Option: Credit/No Credit

PMEP 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03
Terms Offered: FaSpSm Part-time or full-time, practical

work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 698 Seminar in Pharmaceutical Economics and Policy

Units: 1 Max Units: 4.0 Terms Offered: FaSp Current research in pharmaceutical economics and policy presented by outside scholars, faculty and students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Political Science and International Relations

POIR 507 Gender and International Relations

Units: 4 An examination of gender and culture in world society. Feminist perspectives on and critiques of various approaches to international relations theories. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 507 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 507

POIR 509 Culture, Gender, and Global Society

Units: 4 Cultural and gendered responses to economic globalization; topics include culture and security, identity politics, clashes of and accommodations among civilizations, modernity, post-modernity and world society. MA and other students outside of POIR must obtain faculty permission to register in the course. Registration Restriction: Open

only to doctoral students Duplicates Credit in former IR 509 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 509

POIR 510 Gender, War and Peace

Units: 2 Examination of the extent to which conflict and its resolution have depended on stereotypically gendered associations of men with war and women with peace. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IR 510 Instruction Mode: Lecture Grading Option: Letter

POIR 516 Advanced Research Methods: Text, Talk and Context

Units: 4 Text and discourse analysis methods and strategies. Themes include the roles of ideas, identities, policies and interests in various institutional contexts. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 516 Instruction Mode: Lecture Grading Option: Letter

POIR 517 International Policy Analysis

Units: 4 Game theory and other methodologies applied to the study of international relations. Topics include global and regional public goods, collective action, externalities, treaty information, market failures. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 517 Instruction Mode: Lecture Grading Option: Letter

POIR 518 Historical Memory and Public Diplomacy

Units: 4 Analyzes national identity formation and justification of foreign policy goals, particularly its impact on international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 518 Instruction Mode: Lecture Grading Option: Letter

POIR 519 Field Research Methods in Political Science and International Relations

Units: 4 Methods of social science field research in political science and international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 519 Instruction Mode: Lecture Grading Option: Letter

POIR 520 Formulating US Foreign Policy: How Washington Works

Units: 4 Analyzes U.S. foreign policy, with emphasis on numerous inputs to the decision-making process, from media to conceptions of the national interest to organizational processes. MA and other students outside of POIR must obtain

faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 520 Instruction Mode: Lecture Grading Option: Letter

POIR 521 Foreign Policy Analysis

Units: 4 Survey of principal theoretical and empirical approaches to foreign policy analysis; such as bureaucratic politics, game theory, formal theory, rational choice theory, and other topics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 521 Instruction Mode: Lecture Grading Option: Letter

POIR 525 State and Society in International Relations

Units: 4 Assesses the challenges to nation-states and world order presented by trans-border cultural flows, new technologies, and changing patterns of political participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 525 Instruction Mode: Lecture Grading Option: Letter

POIR 526 Migration and Diaspora in International Politics

Units: 4 Examines issues of migration, the relationship between citizen and state, economic factors triggering emigration/immigration, transnationalism, and explores the phenomenon of diasporas. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 526 Instruction Mode: Lecture Grading Option: Letter

POIR 531 Strategy and Arms Control

Units: 4 Impact of nuclear weapons on U.S. and U.S.S.R. postwar military policies and strategies; evolution of postwar deterrence postures; development of superpower arms control since 1945. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 531 Instruction Mode: Lecture Grading Option: Letter

POIR 534 East Asian Security Issues

Units: 4 Security politics of China, Japan, ASEAN states, and Southwest Pacific nations; their strategic relations with the superpowers; regional security initiatives: nuclear-free zone politics, ZOPFAN, and indigenous military capacities. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 534 Instruction Mode: Lecture Grading Option: Letter

POIR 535 North African and Middle Eastern Politics

Units: 4 The politics of the Middle East and North Africa (MENA) including nation-building; mobilization of human

and natural resources; political recruitment, integration, socialization, and conflict. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 535 Instruction Mode: Lecture Grading Option: Letter

POIR 539 Conflict Processes

Units: 4 Seminar in international conflict, crisis and war. General perspectives on factors that bring about war or peace. Focus on ethnopolitics and conflict processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 539 Instruction Mode: Lecture Grading Option: Letter

POIR 540 Law and Public Policy

Units: 4 The study of law in political science; law and politics in organized societies; law as a policy science; legal and political institutions; administration of justice; political forces influencing legal change. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 540 Instruction Mode: Lecture Grading Option: Letter

POIR 541 Politics of the World Economy

Units: 4 Survey of approaches to international political economy. Intellectual roots; the management of collective goods; North-South relations are examined. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 541 Instruction Mode: Lecture Grading Option: Letter

POIR 542 Foreign Economic Policies of Industrial Capitalist States

Units: 4 Seminar comparing the political economy and economic policies of countries; evaluation of alternative research methods and theories. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 542 Instruction Mode: Lecture Grading Option: Letter

POIR 543 Politics of International Monetary and Trade Relations

Units: 4 Political analysis of international monetary and trade relations; emphasis on interactions among industrialized nations. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 543 Instruction Mode: Lecture Grading Option: Letter

POIR 544 Religion, Politics, and Conflict

Units: 4 How religion has emerged as a powerful force in politics. Conflict resolution, fundamentalism, terrorism, war, American foreign policy and global civil society. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 540 Instruction Mode: Lecture Grading Option: Letter

POIR 545 Critical Issues in Politics and Policy

Units: 4 Selected topics in political science and policy; focus on current issues shaping the U.S. and the world. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 545 Instruction Mode: Lecture Grading Option: Letter

POIR 546 Environmental Policy

Units: 4 Issues and theories involved in the formulation, implementation, and effectiveness of different environmental policies. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 546 Instruction Mode: Lecture Grading Option: Letter

POIR 547 Political Economy of Global Space and Environment

Units: 4 Regimes in an anarchic world will be examined, particularly global spaces and resources in political economy. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 547 Instruction Mode: Lecture Grading Option: Letter

POIR 548 The International Political Economy of Development

Units: 4 The political aspects of economic growth, efficiency and distribution are explored for underdeveloped nations in a political science and international relations context. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 545 Instruction Mode: Lecture Grading Option: Letter

POIR 550 Economic Bargaining Theory and Practice

Units: 4 Development of analytical skills and strategies for negotiations over economic and political problems, through study of recent cases, bilateral bargaining, and multilateral bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 550 Instruction Mode: Lecture Grading Option: Letter

POIR 551 International Political Economy of the Pacific Rim

Units: 4 Terms Offered: Sp Political economy of the Pacific Rim; trade, investment and development strategies. The role of Japan's increasing economic power and that of the changing U.S.-Japan relations and their implications to the rest of the Pacific Rim region. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former

IR 551 Instruction Mode: Lecture Grading Option: Letter

POIR 554 Women in Global Perspective

Units: 4 (Enroll in SWMS 554)

POIR 555 Democracy and Democratization in Comparative Perspective

Units: 4 Seminar generates and tests theories of democratization. Readings will focus on Europe, Latin America, Soviet Eurasia emphasizing core theoretical and methodological aspects. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 555 Instruction Mode: Lecture Grading Option: Letter

POIR 556 Latin America and U.S. Foreign Policy

Units: 4 Latin American challenges to U.S. policymakers; U.S. success in achieving its goals; alternative explanations of U.S. behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 556 Instruction Mode: Lecture Grading Option: Letter

POIR 557 Africa and U.S. Foreign Policy

Units: 4 Research problems on international issues arising from the emergence of Africa. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 557 Instruction Mode: Lecture Grading Option: Letter

POIR 560 Feminist Theory

Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

POIR 561 Japanese Foreign Policy and International Relations of East and Southeast Asia

Units: 4 Research problems in political, economic, and security issues in East and Southeast Asia, with special emphasis on the role of Japan. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 561 Instruction Mode: Lecture Grading Option: Letter

POIR 563 Chinese Foreign Policy

Units: 4 Research problems in political, economic, military, and ideological issues. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 563 Instruction Mode: Lecture Grading Option: Letter

POIR 581 International Relations of the Middle East

Units: 4 Examination of salient issues in regional politics such as colonialism, nationalism, identity, religion, development and war. MA and other students outside of POIR must obtain faculty permission

to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 581 Instruction Mode: Lecture Grading Option: Letter

POIR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

POIR 593 Practicum in Teaching Politics and International Relations

Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within political science and international relations disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students. Grading Option: Graded CR/NC.

POIR 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students in POIR Instruction Mode: Lecture Grading Option: Credit/No Credit

POIR 599 Special Topics

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Subjects in one or more fields in political science.

POIR 600 Political Theory

Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of political theory. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 530.

POIR 610 Research Design

Units: 4 The course will cover the design of experimental and observational research. We will examine both quantitative and qualitative approaches to social science research. Registration Restriction: Open only to doctoral students.

POIR 611 Introduction to Regression Analysis

Units: 4 The course will introduce students to regression analysis and its application to social science research. Registration Restriction: Open only to doctoral students.

POIR 612 Qualitative Research Design

Units: 4 Terms Offered: Fa, Sp Design multiple research approaches using qualitative evidence to evaluate the observable implications of theory. Learn deductive, construct, internal, external, and conclusion validity. *Recommended Preparation:* POIR 610 and POIR 611 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

POIR 613 Topics in Quantitative Analysis

Units: 4 Introduces statistical models beyond the standard linear regression model. Topics

include maximum likelihood estimation, generalized linear models, and advanced methods. Registration Restriction: Open only to doctoral students.

POIR 614 Experimental Political Science

Units: 4 Terms Offered: FaSpSm Introduction to experimental techniques and applications of experiments in political science. Addresses both the advantages and disadvantages of experiments in political science research. Registration Restriction: Open only to doctoral students.

POIR 615 Formal Models of Politics

Units: 4 Terms Offered: FaSp Introduces basics of game theory and surveys foundational models of American, comparative, and international politics. *Recommended Preparation:* POIR 610 and POIR 611 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

POIR 616 Advanced Quantitative Methods

Units: 4 Terms Offered: FaSp Bayesian inference in the social sciences and causal inference literature, including experiments, matching, difference-in-difference and regression discontinuity. *Prerequisite:* POIR 617 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

POIR 617 Maximum Likelihood Estimation

Units: 4 Maximum likelihood estimation of binary choice models, duration models, count models, and other models in political science, international relations, and social sciences. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 600 Instruction Mode: Lecture Grading Option: Letter

POIR 618 Problems of American Politics

Units: 4 Theoretical and methodological problems in American politics with emphasis on emerging research paradigms. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 618 Instruction Mode: Lecture Grading Option: Letter

POIR 619 Supreme Court Politics

Units: 4 Role of the Supreme Court in American political institutions. Influences on judicial decision making; appointment and decision making processes; scope of judicial power. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 619 Instruction Mode: Lecture Grading Option: Letter

POIR 620 American Politics and Policy Processes

Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of American politics and policy processes. Registration Restriction: Open only to

doctoral students. Duplicates Credit in former POSC 510.

POIR 621 American Politics Field Seminar Part II

Units: 4 Terms Offered: FaSp A theoretical and empirical overview of the American politics field. Theoretical topics include behavioralism, rational choice, political psychology; empirical topics include causality. Registration Restriction: Open only to doctoral students.

POIR 622 Political Attitudes and Behavior

Units: 4 Determinants, nature, and consequences of political attitudes and behavior exploring psychological-sociological models, political socialization and learning, and factors affecting trends in attitudes and behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 622 Instruction Mode: Lecture Grading Option: Letter

POIR 623 Public Law

Units: 4 Problems and research in American constitutional and administrative law and in modern jurisprudence. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 621 Instruction Mode: Lecture Grading Option: Letter

POIR 624 American Constitutional Law and Theory

Units: 4 Contemporary debates and research on the nature of constitutional interpretation, separation of powers, federalism, civil and political rights and liberties. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 624 Instruction Mode: Lecture Grading Option: Letter

POIR 625 Political Parties

Units: 4 Parties and organizations in the political system; formal and informal organization and roles; party systems; partisanship; and electoral rules. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 610 Instruction Mode: Lecture Grading Option: Letter

POIR 626 Executive and Legislative Institutions

Units: 4 Theory and empirical analysis as it relates to the study of political institutions. Legislative politics, executive branch politics, and legislative-executive relations and bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 611 Instruction Mode: Lecture Grading Option: Letter

POIR 627 Urban Politics

Units: 4 Problems of government and politics in urban, county, and metropolitan areas. Local and community politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 612 Instruction Mode: Lecture Grading Option: Letter

POIR 630 European Politics

Units: 4 Selected research topics in comparative European politics; political behavior, parties, legislative and executive institutions and processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 630 Instruction Mode: Lecture Grading Option: Letter

POIR 632 Latin American Politics

Units: 4 Comparative analysis of the political structure and institutions of Latin America; participation and alienation; democracies and dictatorships; political science and comparative politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 632 Instruction Mode: Lecture Grading Option: Letter

POIR 633 East Asian Politics

Units: 4 Comparative politics of East Asia; modernization; the roots of political thought and behavior; peripheral area relationships; modern political processes and institutions. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 633 Instruction Mode: Lecture Grading Option: Letter

POIR 636 Seminar in African Politics

Units: 4 Comparative and international politics of Africa. Analysis of ideologies, political behavior, and institutions in African nations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 636 Instruction Mode: Lecture Grading Option: Letter

POIR 637 Chinese Politics

Units: 4 Governmental process in the People's Republic of China including leadership, ideology, political institutions, behavior, and participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 637 Instruction Mode: Lecture Grading Option: Letter

POIR 640 Comparative Politics

Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of comparative politics. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 520.

POIR 641 Comparative Judicial Policies, Processes, and Behavior

Units: 4 Cross-national and intranational comparative analysis of judicial policies, institutions, and processes; legal and judicial elites. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 641 Instruction Mode: Lecture Grading Option: Letter

POIR 642 Institutions in Comparative and International Politics

Units: 4 Terms Offered: Fa Explores major strands of institutional theory and assesses scholars' views on design of institutions, institutional change, and effects of institutions on behavior and outcomes. Registration Restriction: Open only to doctoral students in POIR.

POIR 648 International Human Rights Law and Policy

Units: 4 Historical and contemporary consideration of human rights issues in world politics. Examination of philosophical foundations of human rights and institutions that enforce international standards. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 648 Instruction Mode: Lecture Grading Option: Letter

POIR 649 International Law

Units: 4 Topics and cases illustrating general principles and problems in international law. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 670 Instruction Mode: Lecture Grading Option: Letter

POIR 650 Comparative Politics of East and Southeast Asia

Units: 4 Terms Offered: FaSp Comparison of significant political phenomena between the countries in the East and Southeast Asia region and the long-term consequences of such comparisons. Registration Restriction: Open only to doctoral students.

POIR 660 Introduction to International Relations Theory

Units: 4 The primary objective of this course is to introduce PhD students to theoretical and empirical issues related to the study of international relations. Registration Restriction: Open only to doctoral students.

POIR 661 International Relations Theory: Advanced

Units: 4 Examines the specialized nomenclature of international relations and the varied interpretations of basic concepts of international theory; conceptual analysis and criticism. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IR 501.

POIR 662 Governance in International Relations

Units: 4 Rules and rule structures in international relations; major theoretical perspectives and empirical research.

Registration Restriction: Open only to doctoral students.

POIR 670 International Political Economy

Units: 4 Survey of approaches to international political economy. Intellectual roots; the management of collective goods; North-South relations are examined. Registration Restriction: Open only to doctoral students.

POIR 671 Political Psychology

Units: 4 Terms Offered: FaSp Integrates findings of psychology into the study of international relations and political science. Covers foreign policy decision-making, public opinion, ideology, emotion and common heuristics and biases among other topics. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

POIR 680 International Security and Foreign Policy

Units: 4 Examination of the interconnected fields of international security and foreign policy, including decision making and patterns of interaction regarding international conflict. Registration Restriction: Open only to doctoral students.

POIR 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

POIR 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

Portuguese**PORT 120 Portuguese I**

Units: 4 Terms Offered: FaSp For students with no proficiency in Portuguese. Practice in listening comprehension, oral communication, elementary reading and writing. Instruction Mode: Lecture Grading Option: Letter

PORT 150 Portuguese II

Units: 4 Terms Offered: FaSp For students with some language proficiency in Portuguese; increased emphasis on listening, comprehension, oral communication, reading, and writing. Students will be required to take a Portuguese placement exam in the Spanish and Portuguese Department. *Prerequisite:* PORT 120. Instruction Mode: Lecture Grading Option: Letter

PORT 175 Accelerated Portuguese I

Units: 4 Terms Offered: FaSp Encourages

rapid acquisition through intensive exposure to Portuguese while following a proficiency-oriented approach. Recommended for students with a background in Spanish or another Romance language. *Recommended Preparation:* at least two years or equivalent of formal study of either Spanish or another Romance language, and/or fluent or native speakers of Spanish or a Romance language, including heritage speakers of Portuguese. Instruction Mode: Lecture Grading Option: Letter

PORT 220 Portuguese III

Units: 4 Terms Offered: FaSp Intensive work in listening comprehension, oral communication, reading and writing, with emphasis on free expression; readings related to Portuguese culture and civilization. *Prerequisite:* PORT 150. Instruction Mode: Lecture Grading Option: Letter

PORT 225 Accelerated Portuguese II

Units: 4 Terms Offered: FaSp Continuation of rapid acquisition of Portuguese language. Course follows a proficiency-oriented approach. Recommended for students with a background in Spanish or another Romance language. *Recommended Preparation:* PORT 175 or equivalent. Recommended for students with at least two years or equivalent of formal study of either Spanish or another Romance language. Recommended for fluent or native speakers of Spanish or a Romance language, including heritage speakers of Portuguese. Instruction Mode: Lecture Grading Option: Letter

PORT 240 Portuguese IV

Units: 4 Four-skills course with review of grammar. Writing and reading intensive. Authentic materials related to Lusobrazilian culture and civilization. *Prerequisite:* PORT 220. Instruction Mode: Lecture Grading Option: Letter

PORT 250g Cultures of Brazil and Lusophone Africa

Units: 4 Terms Offered: FaSp Comparative study of Brazil in the context of the Lusophone (Portuguese-speaking) world, especially Portugal's former colonies in Africa. Materials drawn from literature, visual culture, music and cultural theory. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

PORT 300 Introduction to Social and Literary Studies

Units: 4 Terms Offered: FaSp A third year Portuguese course aimed at advanced-level students in Portuguese. Examines and reviews the more complex Portuguese grammatical points, usage, and provide the students further opportunity to perfect their reading, writing and speaking abilities. *Prerequisite:* PORT 120 and PORT 150 and PORT 220 and PORT 240 Instruction Mode: Lecture Grading Option: Letter

PORT 302 Introduction to Brazilian Literature

Units: 4 Terms Offered: FaSp An introduction to Brazilian literature and culture exploring how Brazil has been understood and represented through spatial categories that have become, as it were,

"common places" in Brazilian literary studies: the rural Brazil of the backlands, the tropical Brazil of the Amazon, the urban and cosmopolitan Brazil of the large cities, and how they relate to questions of identity and difference in the context of Brazilian society. *Prerequisite:* PORT 120 and PORT 150 and PORT 220 and PORT 240 *Recommended Preparation:* PORT 300 Instruction Mode: Lecture Grading Option: Letter

PORT 316 Portuguese for Business and the Professions

Units: 4 Terms Offered: FaSp Aimed at advanced-level students in Portuguese who wish to develop a working knowledge of Portuguese for business and/or for the professions. *Prerequisite:* PORT 240 *Recommended Preparation:* PORT 300 Instruction Mode: Lecture Grading Option: Letter

PORT 342 Brazilian Cinema

Units: 4 Terms Offered: FaSp Survey of Brazilian cinema, designed to introduce students to major themes and issues within Brazilian studies through the examination of important Brazilian films within their historical, social and political contexts. *Prerequisite:* **PORT 120 and PORT 150 and PORT 220 and PORT 240** *Recommended Preparation:* PORT 300 Instruction Mode: Lecture Grading Option: Letter

PORT 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PORT 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Political Science

POSC 100g Theory and Practice of American Democracy

Units: 4 Terms Offered: FaSpSm Theoretical, institutional, and functional aspects of American national, state, and local government and politics; contemporary issues. Recommended for freshmen and sophomores. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 110g Ideology and Political Conflict

Units: 4 Modern political ideologies; their assumptions, perceptions, and prescriptions regarding political stability and social injustice: anarchism, communism, socialism, liberalism, conservatism, and fascism. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 120 Comparative Politics

Units: 4 Gateway to the major in political science. Comparative analysis of political institutions and processes in selected industrial, developing and socialist countries,

in terms of contrasting ideologies, parties, elites, and economies. Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 130g Law, Politics and Public Policy

Units: 4 Interaction between law and politics; overview of the American legal system; value conflicts and public policy questions which arise within it. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 165g Modern Times

Units: 4 Explores the current major social and political issues that confront scholars, leaders, and citizens in today's modern world. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 190a Politics and Society

Units: 4 Honors seminar for freshmen and sophomores. Instruction Mode: Lecture Grading Option: Letter

POSC 190b Politics and Society

Units: 4 Continuation of work begun in first semester. Instruction Mode: Lecture Grading Option: Letter

POSC 201x Law and Politics

Units: 4 (Enroll in LAW 201)

POSC 210gmw Social Analysis of Gender

Units: 4 Terms Offered: FaSp (Enroll in SWMS 210) Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World

POSC 220g Critical Issues in American Politics: Presidential Election in Real Time

Units: 4 Terms Offered: FaSpSm Examination of enduring political issues, as well as the political processes and institutions. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 248gw Human Rights

Units: 4 Terms Offered: FaSpSm Overview of human rights controversies across the globe. Introduction to techniques of analysis for social issues, interdisciplinary research methods, and interpretation of complex political problems. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 250 Critical Issues in Comparative Politics

Units: 4 Critical analysis of major issues in comparative politics such as dependency, crises in political legitimacy, political violence and terrorism, political corruption, genocide, and comparative revolutions. Instruction Mode: Lecture Grading Option: Letter

POSC 255g Cultures, Civilizations and Ethnicities in World Politics

Units: 4 Theories and case studies of conflict and coexistence between cultures, civilizations and ethnic groups in the context of the countervailing force of Western socio-economic globalization. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

POSC 260 Global Ethnic Politics

Units: 4 A comparative analysis of multi-ethnic societies through case studies of inter-ethnic conflict and coexistence, conflict resolution, prevention of genocide and defense of human rights. Instruction Mode: Lecture Grading Option: Letter

POSC 265gw Environmental Challenges

Units: 4 Terms Offered: Fa Examination of the challenges of environmental problem-solving at the personal, local, national and global scales, focused on the issue of climate change. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 270 Introduction to Environmental Law and Politics

Units: 4 Terms Offered: Sp Overview of environmental policy, law and politics at the international, domestic and local levels. Social science gateway to the environmental studies major. *Prerequisite:* ENST 100. Duplicates Credit in POSC 347. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-270

POSC 300 Principles, Institutions, and Great Issues of American Democracy

Units: 4 Underlying principles of American democracy; major issues of contemporary public policy in national and state institutions. Instruction Mode: Lecture Grading Option: Letter

POSC 311 Political Analysis

Units: 4 Methodological and theoretical problems of micro-analytic studies in political science. Techniques of data collection and assimilation. Instruction Mode: Lecture Grading Option: Letter

POSC 315 Regulation of Elections and Political Finance

Units: 4 The role money plays in elections and public decisions: disclosure requirements, limits on campaign contributions and expenditures, regulation of radio/television time, tax incentives, public funding. Instruction Mode: Lecture Grading Option: Letter

POSC 320 Urban Politics

Units: 4 Evolution of contemporary institutions; differing views of community power; major policies; state and federal relations to local governments; metropolitan community problems. Instruction Mode: Lecture Grading Option: Letter

POSC 321 Urban Political Problems

Units: 4 Social problems and governmental policy in the urban environment,

emphasizing such problem areas as education, environment, race, police and the system of criminal justice, and poverty. Instruction Mode: Lecture Grading Option: Letter

POSC 322 Social Construction of Race and Citizenship

Units: 4 Terms Offered: FaSp (Enroll in AMST 320)

POSC 323 Applied Politics

Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Provides students with the knowledge and skills necessary to become active in politics based on understanding the history, theory, and practices of public participation. Instruction Mode: Lecture Grading Option: Letter

POSC 325 State Politics

Units: 4 American state politics from a comparative perspective. Examines political processes, differing policy outcomes and the impact of social change on system performance. Instruction Mode: Lecture Grading Option: Letter

POSC 326 Case Studies in Modern Leadership

Units: 4 Terms Offered: FaSp (Enroll in MDA 325)

POSC 328 Asian American Politics

Units: 4 Terms Offered: FaSp Examines political attitudes, behavior and participation of Asian Americans in diverse U.S. society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-328

POSC 333 Stigma and Society: Physical Disability in America

Units: 4 Political activity involving disabled persons; development of public policy regarding disabled citizens. Duplicates Credit in former POSC 233. Instruction Mode: Lecture Grading Option: Letter

POSC 334 Interest Groups and Elite Behavior

Units: 4 Introduction to interest group and elite views of the American system, including recent interest group theory and findings and the general critiques of power distribution in American society. Instruction Mode: Lecture Grading Option: Letter

POSC 335 Political Parties, Campaigns, and Elections

Units: 4 Organization and function of political parties, nominations and elections, strategy and tactics of campaigning, professional candidate management finance, political machines, voting behavior. Instruction Mode: Lecture Grading Option: Letter

POSC 340 Constitutional Law

Units: 4 Development of constitutional law by the courts; leading cases bearing on major constitutional issues; the federal system; powers of government; civil liberties. Instruction Mode: Lecture, Discussion Grading Option: Letter

POSC 345 International Law

Units: 4 Nature, origin, and development of international law; basic principles analyzed and illustrated with cases. Instruction Mode: Lecture Grading Option: Letter

POSC 347 Environmental Law

Units: 4 Introduces students to central concepts and theories in environmental law and regulation; analyzes present environmental laws and regulations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-347

POSC 349 Women and the Law

Units: 4 Terms Offered: Fa (Enroll in SWMS 349)

POSC 350 Politics of Latin America

Units: 4 Theories of development and nation-building; revolutionary and evolutionary modernization; role of history, culture, socioeconomic conditions in affecting political structures and functions. Instruction Mode: Lecture Grading Option: Letter

POSC 351 Middle East Politics

Units: 4 Political development in the Middle East, emphasizing historical, cultural, and socioeconomic conditions affecting political structures and functions; modernization and countervailing social, economic, and religious forces. Instruction Mode: Lecture Grading Option: Letter

POSC 352 Politics of Southeast Asia

Units: 4 Theories of development and nation-building; revolutionary and evolutionary modernization; role of history, culture, socioeconomic conditions in affecting political structures and functions. Instruction Mode: Lecture Grading Option: Letter

POSC 354 Japanese Politics

Units: 4 Contemporary Japanese politics, political economy, and political processes. How political systems are organized; roles of bureaucrats, politicians, interest groups, and social activists in policymaking. *Recommended Preparation:* POSC 120. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Terms Offered: Fa Basic concepts of urban and regional economics; how planners intervene in the urban market; housing, transportation, public goods; land use politics; fiscal issues; cost-benefit analysis. Duplicates Credit in former PLDV 402. Instruction Mode: Lecture Grading Option: Letter

PPD 360 Urban Transportation Planning and Policy

Units: 4 Terms Offered: Sp Current transportation planning and policy critiques. Transportation planning; the relationship to urban structure; conventional and para-transit modes; analysis of local plans. Duplicates Credit in former PLDV 480. Instruction Mode: Lecture Grading Option: Letter

PPD 361 Sustainable Communities, Policy and Planning

Units: 4 Terms Offered: FaSp Policy and planning as shaped by sustainability theories; sustainability indicators; topics include water resources, air quality, land use regulations, environmental design, carrying capacity, ecological footprint analysis. Duplicates Credit in former PPD 461 Instruction Mode: Lecture Grading Option: Letter

PPD 364 Technology and the City

Units: 4 Terms Offered: Sp Smart cities; connectivity and technological innovation; effects of technology on infrastructure management and efficiency; how public policy has responded to technological change and identify best practices; case studies on the impact of technology on cities. Instruction Mode: Lecture Grading Option: Letter

PPD 371 The Nonprofit Sector and the Public Interest

Units: 4 Terms Offered: Fa Theories of the voluntary nonprofit sector in society and its relationship to government and business; public policies toward the sector. Duplicates Credit in former PPMT 371. Instruction Mode: Lecture Grading Option: Letter

PPD 372m Public Service in an Urban Setting

Units: 4 Terms Offered: Sp Voluntary service in an urban, multicultural context: diverse meanings and practices, history, motivations, relationship to charity and change, dilemmas, public policies; service learning project required. Duplicates Credit in former PPMT 372. Instruction Mode: Lecture Grading Option: Letter

PPD 373 Public Policy and Planning Analysis

Units: 4 Terms Offered: FaSp Applied analytic modeling and data manipulation; visual presentation; interpretation of data; needs assessment and market failure analysis; indexing; extrapolation and simple

forecasting; simple risk analysis; benefit-cost analysis. *Prerequisite:* ECON 203, PPD 225, PPD 303. Duplicates Credit in the former PPD 473. Instruction Mode: Lecture Grading Option: Letter

PPD 380a International Perspectives on Urban Problem Solving

Units: 4 Terms Offered: Irregular Research on comparative urban public policy and administration utilizing case study approach; field research includes study in various foreign cities. Duplicates Credit in former PPMT 412ab. Instruction Mode: Lecture Grading Option: Letter

PPD 380b International Perspectives on Urban Problem Solving

Units: 4 Terms Offered: Irregular Research on comparative urban public policy and administration utilizing case study approach; field research includes study in various foreign cities. Duplicates Credit in former PPMT 412ab. Instruction Mode: Lecture Grading Option: Letter

PPD 382 International Development

Units: 4 Terms Offered: FaSp Definitions and measurements of development; impact of globalization; concept and practice of international and development administration and planning at local, national, and global governance levels. Duplicates Credit in former PLDV 405. Instruction Mode: Lecture Grading Option: Letter

PPD 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former PLDV 390 and PPMT 390. Instruction Mode: Lecture Grading Option: Letter

PPD 400 Topics in Public Policy and Urban Studies

Units: 4 Terms Offered: FaSp Seminar in cross cutting topics in public policy and urban studies that engages students with faculty and scholars in interdisciplinary research and analysis of key problems and issues in the fields Registration Restriction: Open only to BS, Public Policy and BS, Urban Studies and Planning majors Instruction Mode: Lecture Grading Option: Letter

PPD 402 Management of Public and Nonprofit Organizations

Units: 4 Terms Offered: Fa Contemporary management theory; the nature of complex organizations; organizational and intergovernmental arrangements; roles and responsibilities of managers; managerial and organizational effectiveness; organizational structure and dynamics. Instruction Mode: Lecture Grading Option: Letter

PPD 403 Management Analysis I

Units: 4 Terms Offered: Sp Introduction to organizational and systems analysis; historical perspective; systems theory; information systems, procedure analysis; management planning; introduction to models. Duplicates Credit in former PPMT 403. Instruction Mode: Lecture Grading Option: Letter

PPD 404 Empirical Methods for Public Policy

Units: 4 Terms Offered: FaSp Introduction to multivariate regression analysis for policy analysis; course begins with Ordinary Least Squares (OLS) estimation and covers some advanced topics such as panel data and experimental methods; application of these tools in a variety of policy contexts such as education, labor, and health. *Prerequisite:* PPD 303 Instruction Mode: Lecture Grading Option: Letter

PPD 405 Fundraising for Policy and Planning

Units: 2 Terms Offered: Sp Fundraising in the nonprofit sector; role and structure of philanthropy; strategic issues in the solicitation of private funds for the public good; effect of fundraising on behavior of institutions. Instruction Mode: Lecture Grading Option: Letter

PPD 407 Financial Management of Public and Nonprofit Organizations

Units: 4 Terms Offered: Sp Time value of money, risk, government bonds and tax-exempt financing, cost of capital, budgeting, financial statement analysis, and working capital management. Instruction Mode: Lecture Grading Option: Letter

PPD 410 Comparative Urban Development

Units: 4 Terms Offered: Sp Urbanization and urban development and growth through an international scope; globalizing cities. Instruction Mode: Lecture Grading Option: Letter

PPD 411a Sacramento Semester

Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411b Sacramento Semester

Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411c Sacramento Semester

Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411d Sacramento Semester

Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 412L GeoDesign Practicum

Units: 4 Terms Offered: FaSp (Enroll in SSCI 412)

PPD 413 Administration of Health Care Organizations

Units: 4 Terms Offered: Sp Theory and practice; role of governing bodies, medical staffs and quality review committees; current trends; community responsibility; regulatory and oversight agencies. Duplicates Credit in former PPMT 439. Instruction Mode: Lecture Grading Option: Letter

PPD 414 Community Health Policy and Planning

Units: 4 Terms Offered: Sp Historical perspectives on and the contemporary practice of community health planning; impact of culture, socioeconomics, and environment; policy dimensions; urban planning's role in enhancing and sustaining health. Instruction Mode: Lecture Grading Option: Letter

PPD 415 Health Policy

Units: 4 Terms Offered: Sp Health policy analysis and challenges; price of health; structure of major sectors in health care; role of insurance in policy debates; trade-offs with policy decisions. *Prerequisite:* PPD 325. Instruction Mode: Lecture Grading Option: Letter

PPD 416 Food Policy and Planning

Units: 2 Terms Offered: Sp Key issues related to the practice of food system planning; practice of creating and implementing food policies; understanding of food systems; issues around community food governance. Instruction Mode: Lecture Grading Option: Letter

PPD 420 Environmental Impact Assessment

Units: 4 Terms Offered: Sp Exploration of the role of the National Environmental Policy Act and the California Environmental Policy Act; study of environmental impact assessments including the regulatory aspects, stakeholder and participatory processes, and legal framework. Instruction Mode: Lecture Grading Option: Letter

PPD 421 Land Use, Environment, and Housing in Developing Countries

Units: 4 Comparative analysis of issues in the built environment in the US and abroad; development, land use, and the supply of housing; housing affordability; land tenure. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Introduction of the role that technology will play in facilitating shared mobility, disrupting transportation markets, and reshaping multi-modal urban transportation systems; analyses of governance issues; the interaction between private markets and regulators; changes in the nature of infrastructure and urban planning that will be required to accommodate the wired future of transportation. Instruction Mode: Lecture Grading Option: Letter

PPD 427L Geographic Information Systems and Planning Applications

Units: 4 Terms Offered: Fa Basic GIS concepts, ArcView and other GIS software, planning applications and databases, basic cartography; students select, research and prepare a planning GIS analysis project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 429 Urban Design Practicum

Units: 4 Terms Offered: Irregular Application of design concepts and graphic skills to a local design problem sponsored by a local public or private client in a studio setting; site visits, community contact, presentations. *Prerequisite:* PPD 306, PPD 425. Duplicates Credit in former PLDV 414. Instruction Mode: Lecture Grading Option: Letter

PPD 431 Undergraduate Policy, Planning, and Development Studio

Units: 4 Terms Offered: FaSp Application of methods in the exploration of a specific project, policy, or organization from the multiple perspectives of the five tracks in the undergraduate program. Registration Restriction: Open only to Price School of Public Policy juniors and seniors Instruction Mode: Lecture Grading Option: Letter

PPD 438 Local Economic Development

Units: 4 Terms Offered: Fa Economic development in a capitalist system, historic review, sectoral review, funding, strategizing, partnerships, evaluation; class project. Duplicates Credit in former PLDV 447. Instruction Mode: Lecture Grading Option: Letter

PPD 439 Housing and Community Development

Units: 4 Terms Offered: Fa Evolution of government housing and community development programs; present practices, e.g., housing elements, economic development, neighborhood rehabilitation; housing needs and market analysis; housing and health. Duplicates Credit in former PLDV 440. Instruction Mode: Lecture Grading Option: Letter

PPD 466 Urban Government and Management

Units: 4 Terms Offered: Irregular Preparation and discussion of cases dealing with selected policy areas including transportation, housing, poverty, and environmental quality. Duplicates Credit in former PPMT 427. Instruction Mode: Lecture Grading Option: Letter

PPD 468 Cross-Cultural Negotiations: Communication and Strategy

Units: 4 (Enroll in COMM 468)

PPD 475 The Future of California

Units: 4 (Enroll in MDA 475)

PPD 476 Politics and Administration

Units: 4 Terms Offered: Sp Administrative relationships to the policy processes; influence of political and economic pressures on administrative policy determination; political behavior by administrators; case analysis. Duplicates Credit in former PPMT 486. Instruction Mode: Lecture Grading Option: Letter

PPD 478 Social Innovation

Units: 4 Terms Offered: Fa Strategies and processes of social innovation and change; examination of social change in the market, government, and within the nonprofit sector; dynamics; civic action and activism. Instruction Mode: Lecture Grading Option: Letter

PPD 482 Comparative Public Administration

Units: 4 Terms Offered: Sp Methodology, theories, and models of comparison; functional processes of administration in developing and developed nations compared; role of bureaucracy in development and nation-building; ecology of administration. Duplicates Credit in former PPMT 482. Instruction Mode: Lecture Grading Option: Letter

PPD 485m U.S. Immigration Policy

Units: 4 Terms Offered: Fa Examination of the historical and contemporary components of U.S. immigration policy with emphasis on policies addressing legal permanent immigrants, refugees, asylees, the undocumented. Instruction Mode: Lecture Grading Option: Letter

PPD 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former PLDV 490x and PPMT 490x. Instruction Mode: Lecture Grading Option: Letter

PPD 497a Senior Thesis

Units: 2 Terms Offered: FaSp Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 497b Senior Thesis

Units: 2 Terms Offered: FaSp Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 498 Senior Honors Seminar

Units: 4 Terms Offered: FaSpSm Concepts, theories, and methods of analysis of a selected topic within the fields of public policy, management and planning. Students must have a 3.5 GPA in PPD courses; 3.0 GPA overall. Instruction Mode: Lecture Grading Option: Letter

PPD 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Policy, Management and Planning. Duplicates Credit in former PLDV 499 and PPMT 499. Instruction Mode: Lecture Grading Option: Letter

PPD 500 Intersectoral Leadership

Units: 2 Roles of public, private, nonprofit, and civil society sectors in policy, planning, and development. Leadership skills in negotiation, conflict resolution, institutional design, problem solving. Instruction Mode: Lecture Grading Option: Letter

PPD 501a Economics for Policy, Planning and Development

Units: 2 Microeconomic theory as applied to policy, planning, and development; concepts

of efficiency; macroeconomic issues.

Instruction Mode: Lecture Grading Option: Letter

PPD 501b Economics for Policy, Planning and Development

Units: 2 Microeconomic analysis and modeling to incorporate Market failure and issues of uncertainty and information failure; organization models; policy instruments; policy and planning applications. Instruction Mode: Lecture Grading Option: Letter

PPD 502x Statistical Foundations for Public Management and Policy

Units: 2 Terms Offered: FaSp Statistical analysis concepts and reasoning; sampling and data sources; focus on basic statistical applications in public management and policy analysis. Credit Restriction: Not for graduate credit for MHA, MPA, MPP and affiliated degrees. Instruction Mode: Lecture Grading Option: Letter

PPD 503 Economics for Public Policy

Units: 4 Terms Offered: FaSpSm Economic theory as applied to public policy. Concepts of efficiency and equity, analysis of market failure and policy interventions. Duplicates Credit in PPD 501a, PPD 501b Instruction Mode: Lecture Grading Option: Letter

PPD 504 Essential Statistics for Public Management

Units: 2 Terms Offered: FaSpSm Essential statistics for public managers and administrators; application of statistical methods in addressing public policy and management questions. Instruction Mode: Lecture Grading Option: Letter

PPD 507 Six-Sigma Methods and Applications

Units: 3 Terms Offered: FaSpSm (Enroll in ISE 507)

PPD 508 Health Care Operations Improvement

Units: 3 Terms Offered: Sp (Enroll in ISE 508)

PPD 509 Problems and Issues in the Health Field

Units: 4 Terms Offered: FaSp Principles of epidemiology; disease trends, treatment efficacy, influences on utilization; health promotion, disease prevention and health protection; intergovernmental relationships; management of public health programs. Duplicates Credit in former PUAD 530. Instruction Mode: Lecture Grading Option: Letter

PPD 510a Financial Management of Health Services

Units: 4 Terms Offered: FaSp Accounting principles, financial reports, managerial finance, financial planning, capital investments, working capital analysis; elements of budgeting and reimbursement; performance standards; reporting; developing a management system. *Prerequisite:* PPD 516; *Recommended Preparation:* PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter

PPD 510b Financial Management of Health Services

Units: 2 Terms Offered: FaSp Changing practices, emerging issues, strategies

and innovations in financial planning, management, and regulation; federal and state policies and requirements. *Prerequisite:* PPD 516; *Recommended Preparation:* PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter

PPD 511 Health Information Systems

Units: 2 Terms Offered: FaSm Conceptual framework for data base development; relational data management; use of health statistics; health indicators; confidentiality, security, privacy. *Recommended Preparation:* PPD 502 or competence in statistics and PPD 516 or competence in accounting. Instruction Mode: Lecture Grading Option: Letter

PPD 512 Health Administration Residency Seminar

Units: 2 Supervised study of health care administration, governance, professional staff relations, internal operations and controls, legal and regulatory requirements, management policy and strategy. *Prerequisite:* PPD 509 Instruction Mode: Lecture Grading Option: Letter

PPD 513 Legal Issues in Health Care Delivery

Units: 2 Terms Offered: FaSp Rights of consumers; health-related powers of governments; rights and responsibilities of health care providers; interrelationships of rights, powers, and responsibilities. *Recommended Preparation:* PPD 509 or substantial prior work experience in health care organizations. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 514 Economic Concepts Applied to Health

Units: 4 Terms Offered: FaSpSm Relationships between economic characteristics and health status; impact of economy on health services industry; demand and resources for health services; utilization, prices, costs, health insurance. *Prerequisite:* PPD 501a. Duplicates Credit in former PUAD 537. Instruction Mode: Lecture Grading Option: Letter

PPD 515 Strategic Management of Health Organizations

Units: 4 Terms Offered: FaSpSm Application of principles of health administration in several practice settings. Decision-making; strategic management; organizational performance; communication; provider comparisons. *Prerequisite:* PPD 501a or HMG 565, PPD 545 or HMG 520; *Recommended Preparation:* PPD 509, PPD 511, PPD 513, PPD 514, PPD 557. Instruction Mode: Lecture Grading Option: Letter

PPD 516 Financial Accounting for Health Care Organizations

Units: 4 Accounting as a management tool; accounting systems; basic accounting concepts and procedures; budgets; financial statements. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 517 Concepts and Practices in Managing Health Care Organizations

Units: 2 Terms Offered: FaSm Application of principles of health administration. Role of

managers; managing people and programs; human resource management concepts and applications; working with professionals; governance; public relations. Instruction Mode: Lecture Grading Option: Letter

PPD 518 Quality of Care Concepts

Units: 2 Terms Offered: Sp Quality issues and complexities affecting health care; fundamentals of quality improvement programs; examination of quality issues and improvement programs in various health care venues; strategies. Instruction Mode: Lecture Grading Option: Letter

PPD 519 Methods and Applications of Health Services Research

Units: 2 Terms Offered: Fa Examination of policy and management issues for empirical research; indicators and measurement of outcomes; impact on policy and management decisions; methodology; analysis of quantitative and qualitative data. *Prerequisite:* PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 520 Economic Approaches to Health Policy Analysis

Units: 2 Terms Offered: Sp Evaluation of current major health policy challenges and issues; economic analysis of behavioral responses to change in health care policy; new legislation; policy trade-offs. *Prerequisite:* PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 521a Information Technology Management Systems in Health Care

Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. *Prerequisite:* PPD 511. Instruction Mode: Lecture Grading Option: Letter

PPD 521b Information Technology Management Systems in Health Care

Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. Analytic methods used to develop data-driven solutions; specific problems in health care organizations; integrating data; communicating data; interpretation; exploration of new approaches for improvement. *Prerequisite:* PPD 511. Instruction Mode: Lecture Grading Option: Letter

PPD 522 Planning Theory and History for a Just Society

Units: 4 Terms Offered: Fa Explores the history and theories underlying professional planning practice; evolving theoretical frameworks that will shape the planning field. Focuses on theoretical/historical perspectives on social justice, inclusion, and diversity. Instruction Mode: Lecture Grading Option: Letter

PPD 523 Urban and International Development

Units: 4 Terms Offered: Fa Fundamentals of urban development including role of land

markets, externalities, economic analysis of market failures; regulations and stakeholders. Applications to U.S. and international contexts. Instruction Mode: Lecture Grading Option: Letter

PPD 524 Planning Theory

Units: 2 Terms Offered: Fa Development of a critical perspective by becoming more aware of the intellectual roots of the planning profession, with a focus on practical outcomes of actions. Duplicates Credit in former PLUS 501. Instruction Mode: Lecture Grading Option: Letter

PPD 525 Statistics and Arguing from Data

Units: 2 Terms Offered: FaSp Fundamentals of probability and statistics, planning analysis techniques, computing standards, and understanding of the rhetoric related to statistical analysis. Duplicates Credit in former PLUS 502. Instruction Mode: Lecture Grading Option: Letter

PPD 526 Comparative International Development

Units: 2 Terms Offered: Fa Introduction to comparative international development with a focus on regional growth and urban development. Duplicates Credit in former PLUS 505. Instruction Mode: Lecture Grading Option: Letter

PPD 527 The Social Context of Planning

Units: 2 Terms Offered: Sp Examination of the formation of the modern urban environment with its consumer culture, social classes, and racial and ethnic diversity. Duplicates Credit in former PLUS 506. Instruction Mode: Lecture Grading Option: Letter

PPD 528 Physical Planning: Urban and Community Design

Units: 2 Terms Offered: Sp Exploration of the theories and concepts of livable communities and good city form. Introductory basics of design and city form. Case studies of historical and current best practices. Instruction Mode: Lecture Grading Option: Letter

PPD 529 Planning Law and Legal Frameworks of Planning

Units: 2 Terms Offered: Sp Understanding of the legal system and its processes and laws applicable to land use and development and the legal nature of powers of public and private entities. Instruction Mode: Lecture Grading Option: Letter

PPD 530 Historical Analysis of Urban Form and Planning Practice

Units: 2 Terms Offered: Sp Awareness, analysis, understanding, and influencing the city building process locally and regionally; isolate and exercise tools and methods of visual literacy. Duplicates Credit in former PLUS 510. Instruction Mode: Lecture Grading Option: Letter

PPD 531L Planning Studio

Units: 4, 8, 12 Max Units: 12.0 Terms Offered: FaSp Application of methods in planning, programming, research, and evaluation in a professional context; data collection and analysis; case studies; practical applications. Duplicates Credit in former PLUS 576L and PLUS 676L.

Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 532L International Planning and Development Laboratory Workshop

Units: 4, 5, 6, 7, 8 Terms Offered: Sm Application of planning principles and methods to specific urban planning problems abroad; involves preparation in the spring semester and an overseas field visit and a collaborative practicum. Duplicates Credit in former PLUS 575L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 533 Planning History and Urban Form

Units: 2 History of urban planning with an emphasis on the evolution of how planning shaped the physical environment in response to political, economic, and social issues. Instruction Mode: Lecture Grading Option: Letter

PPD 534 Data, Evidence, and Communication of the Public Good

Units: 4 Terms Offered: Sp Introduction to data analysis for planning practice. Includes quantitative and qualitative methods. Traditional methods such as regression and emerging methods including social media, visual/spatial analysis, programming. Instruction Mode: Lecture Grading Option: Letter

PPD 540 Fundamentals of Public Administration

Units: 4 Terms Offered: FaSpSm Administrative concepts, institutions, legal systems, and practices; values; facilitation of responsibilities and rights; professional applications for personal, private sector and public achievement. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 500 Instruction Mode: Lecture Grading Option: Letter

PPD 541 Public Financial Management and Budgeting

Units: 4 Terms Offered: Fa Financial management applied to public and nonprofit organizations; financial valuation, financial markets, budgeting, tax administration, debt financing, cost-benefit analysis and financial analysis. Duplicates Credit in PPDE 645. Instruction Mode: Lecture Grading Option: Letter

PPD 542 Policy and Program Evaluation

Units: 4 Terms Offered: Sp Methods and models for policy and program evaluation; methods of collecting and analyzing evaluation data; processes for linking evaluation to policy formulation and program management. *Prerequisite:* PPD 502. Duplicates Credit in former PUAD 525 and former PUAD 529. Instruction Mode: Lecture Grading Option: Letter

PPD 543 Internship Seminar

Units: 1 Terms Offered: FaSp Supervised study of management, analytical, or other professional activities in government; integration of theory, practice and relevant literature. Duplicates Credit in former PUAD 544. Instruction Mode: Lecture Grading Option: Letter

PPD 545 Public and Nonprofit Organizational Behavior

Units: 4 Terms Offered: FaSpSm Behavior in organizations; focus on personal, interpersonal, and group level factors that influence such behavior. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 585 Instruction Mode: Lecture Grading Option: Letter

PPD 546 Capstone in Public Administration

Units: 4 Constitutionally accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; citizenship and public service. *Prerequisite:* PPD 540 and PPD 545 and PPD 542 or PPD 557. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

PPD 552 Managing and Financing Public Engineering Works

Units: 3 Terms Offered: FaSpSm (Enroll in CE 552)

PPD 554 Foundations of Policy Analysis

Units: 4 Terms Offered: Fa Introduction to public policy analysis; issue diagnosis and policy design; analytic reasoning and argumentation; the role of the public policy professional; ethical issues in policy analysis. Instruction Mode: Lecture Grading Option: Letter

PPD 555 Public Policy Formulation and Implementation

Units: 4 Terms Offered: FaSpSm Political and organizational perspectives on policy making process; agenda setting, policy design, adoption, implementation, evaluation, modification or termination. Policy leadership skills: negotiation and strategic mapping. *Prerequisite:* PPD 554 Instruction Mode: Lecture Grading Option: Letter

PPD 557 Modeling and Operations Research

Units: 4 Terms Offered: FaSpSm Management science methods that support decision making in policy, management, and planning settings. Includes linear programming, queuing theory, decision analysis, and forecasting. *Prerequisite:* PPD 502 or PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 558 Multivariate Statistical Analysis

Units: 4 Terms Offered: FaSp Applied multivariate statistics in support of policy, management, and planning problem solving. Includes regression analysis, logit models, and an introduction to time-series models and multi-equation estimation. *Prerequisite:* PPD 502 or PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 559 Policy Implementation and Evaluation

Units: 4 Terms Offered: FaSp Theoretical approaches, critical issues, and research methods in public policy implementation. Field-based research project. Duplicates Credit in former PUAD 570. Instruction Mode: Lecture Grading Option: Letter

PPD 560 Methods for Policy Analysis

Units: 4 Terms Offered: Sp Examination of methods used in the analysis of policy methods, including cost benefit analysis, decision and risk analysis, and applied social science methods. *Prerequisite:* PPD 502 and PPD 554 and PPD 501b. Duplicates Credit in former PUAD 572. Instruction Mode: Lecture Grading Option: Letter

PPD 561a Policy Analysis Practicum

Units: 1 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. *Prerequisite:* PPD 503 and PPD 554 and PPD 555 and PPD 560 and PPD 558 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PPD 561b Policy Analysis Practicum

Units: 3 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. Duplicates Credit in former PUAD 589. Instruction Mode: Lecture Grading Option: Letter

PPD 568 Environmental Governance and Sustainability

Units: 2 Terms Offered: Fa Introduction to leading issues of environmental governance and policy in looking toward a more sustainable future; normatively important concerns and the social, cultural, and political dimensions; thematic look from values to action. Instruction Mode: Lecture Grading Option: Letter

PPD 569 Applied International Policy Analysis and Management Project

Units: 4 Terms Offered: Sp Enables students to integrate theory, research and practice into an applied project of their own choosing. The output of this course is a professional report in a selected public policy or management area. Duplicates Credit in former PUAD 507. Instruction Mode: Lecture Grading Option: Letter

PPD 570 Applied Statistics for Planning, Policy and Management

Units: 4 Terms Offered: Sm Use of statistical reasoning to answer questions related to public policy and management. Students will review and understand selected statistical techniques for analyzing data and for addressing public policy and management questions of interest using applied data analysis. Duplicates Credit in former PUAD 523. Instruction Mode: Lecture Grading Option: Letter

PPD 571 International Public Policy and Management Seminar

Units: 4 Terms Offered: Fa An introduction to the concepts and methods of public policy analysis and management. Highlights some of the constraints of the policy process. Includes examples from the United States but also presents comparative views of the contours of public policy in both developed and developing nations. The course applies public policy and management frameworks to selected areas of social policy. Duplicates

Credit in former PUAD 524. Instruction Mode: Lecture Grading Option: Letter

PPD 572 Special Issues in International Public Policy

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Current international public policy on issues such as governmental reform, regulation, social welfare, poverty alleviation and international aid. Policy framework and in-depth analysis of specific topics of relevance to governmental agencies and international organizations. Instruction Mode: Lecture Grading Option: Letter

PPD 582 Transportation System Security and Emergency Management

Units: 4 Terms Offered: FaSp (Enroll in CE 582)

PPD 587 Risk Analysis

Units: 4 Concepts of risk analysis, risk in engineered systems, environmental risk, security risks; fault trees, event trees, risk simulations; risks and decision-making. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 587

PPD 588 Introduction to Transportation Planning Law

Units: 2 Terms Offered: FaSm (Enroll in CE 579)

PPD 589 Port Engineering: Planning and Operational Analysis

Units: 4 Terms Offered: SpSm (Enroll in CE 589)

PPD 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 594a Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594b Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594z Master's Thesis

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students in the Sol Price School of Public Policy Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in public policy, management and planning. Instruction Mode: Lecture Grading Option: Letter

PPD 600 Management of Managed Care Organizations

Units: 2 Terms Offered: FaSpSm Managed care arrangements, interorganizational relations, management practices and controls, medical staff relations, strategic planning, marketing, utilization review, quality assurance, outcomes measures. *Prerequisite:* PPD 545 or HMGT 520; *Recommended Preparation:* PPD 516, PPD 510a or HMGT 565. Instruction Mode: Lecture Grading Option: Letter

PPD 601 Management of Long-Term Care Organizations

Units: 4 Terms Offered: Fa History, development, trends; major policy issues; organization of systems; principles and techniques of administration; management of institutional and community based programs. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 602 Strategic and Operational Planning for Health Services

Units: 4, 2 years Terms Offered: Fa Strategic, institutional, and program planning theory and methods; governmental and legal requirements, certificate of need processes, reimbursement controls; financing and marketing considerations, practices, and methods. Duplicates Credit in former PUAD 535. Instruction Mode: Lecture Grading Option: Letter

PPD 603 Marketing of Health Services

Units: 4 Terms Offered: Sm Assessing community needs and organizational service capabilities; evaluating competition; qualitative and quantitative market research methods; market communications and advertising; developing marketing plans. *Recommended Preparation:* PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter

PPD 604 Seminar in Hospital Administration

Units: 4 Terms Offered: Sm Hospital systems and functions; managerial processes, theory, and practice; governance structures; legal, regulatory, administrative, and professional requirements; medical and professional staff; multi-institutional arrangements; controls. *Prerequisite:* PPD 545 or HMGT 520; *Recommended Preparation:* PPD 516. Instruction Mode: Lecture Grading Option: Letter

PPD 605 Frontline Issues in Health Services Administration and Policy

Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Emphasis on current or emergent issues in the health care industry. Focus on impact of recent health legislation and/or health care system responsiveness. Instruction Mode: Lecture Grading Option: Letter

PPD 606 Urban Health Policy

Units: 4 Terms Offered: Fa Addresses current U.S. health policy issues and the

critical processes that shape them, with an emphasis on urban populations; institutional, economic, social, ethical, and political factors. Instruction Mode: Lecture Grading Option: Letter

PPD 607 Introduction to Public Health Policy

Units: 4 Terms Offered: Sp Public health policy and analysis methods; evaluation of the public health system and safety net programs. Instruction Mode: Lecture Grading Option: Letter

PPD 608 Leadership Symposium in Health Management and Policy

Units: 1 Max Units: 3.0 Terms Offered: FaSpSm A forum for leading executives and policymakers to address ways they or their organizations improve healthcare financing, delivery and management, in the U.S. and internationally. Instruction Mode: Lecture Grading Option: Letter

PPD 609 Physician Practice Management

Units: 2 Terms Offered: Sp Overview of medical practice management issues, structures, systems and strategies for effective clinical and financial performance of physician organizations. *Recommended Preparation:* PPD 509. Instruction Mode: Lecture Grading Option: Letter

PPD 610 Managed Care Contracting

Units: 2 Terms Offered: Fa Provides practical and strategic decision-making skills in managed care contracting, including contract types, terms and conditions; financial assessment; proposal development and analysis; and negotiation. *Prerequisite:* PPD 600; *Recommended Preparation:* PPD 510a or HMG 565, PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 611 Policy Issues in Planning and Development

Units: 4 Terms Offered: Fa Overview of policy issues in planning and development professions in the U.S. and abroad. Special attention to collective decision making, role of institutions, and ethics. Duplicates Credit in former PLUS 503. Instruction Mode: Lecture Grading Option: Letter

PPD 612 Research and Analytical Techniques

Units: 4 Terms Offered: Sp Professional practice-oriented analytic skill; fundamentals of data manipulation; spreadsheet applications and forecasting; and communication of results. Duplicates Credit in former PLUS 504. Instruction Mode: Lecture Grading Option: Letter

PPD 613a Policy, Planning, and Development International Laboratory

Units: 1 Max Units: 0.0 Terms Offered: SpSm Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 613b Policy, Planning, and Development International Laboratory

Units: 3 Max Units: 6.0 Terms Offered: SpSm Research methods for intensive

practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 614 Management in Planning Practice

Units: 2 or 4, 2 years Terms Offered: Sp Administrative, management, political, and other problems faced by the practicing professional planner. Duplicates Credit in former PLUS 521. Instruction Mode: Lecture Grading Option: Letter

PPD 615 Comparative Urbanization, Development, and Inequality

Units: 4 Terms Offered: Irregular Theories of inequality, dependency and dualism in relation to urbanization, growth, and poverty in developing countries; development and underdevelopment; core-periphery linkages. Duplicates Credit in former PLUS 534. Instruction Mode: Lecture Grading Option: Letter

PPD 616 Participatory Methods in Planning and Policy

Units: 4 Approaches to community participation, introducing students to the theories behind participatory methods as well as to the skills to implement them. Instruction Mode: Lecture Grading Option: Letter

PPD 617 Urban Demography and Growth

Units: 4 Terms Offered: Fa Theory and policy regarding population change in urban areas; housing; cohort analysis; immigration; ethnicity; employment; education. Methods of graphic representation; census data manipulation, interpretation, forecasting. Duplicates Credit in former PLUS 539. Instruction Mode: Lecture Grading Option: Letter

PPD 618 Housing Facilities and Community Development

Units: 4 Terms Offered: Irregular Structure of the building industry and technology. Housing markets and programs; environmental standards. Community development and redevelopment. Planning, program development, finance, and coordination of public facilities and services. Duplicates Credit in former PLUS 540. Instruction Mode: Lecture Grading Option: Letter

PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions

Units: 4 Terms Offered: Irregular Determinants and analytical models of land use; interaction of land uses with environmental quality and natural resources, land use policy instruments; regulation, taxation, public services. Duplicates Credit in former PLUS 562. Instruction Mode: Lecture Grading Option: Letter

PPD 620 General Plans

Units: 4 Terms Offered: Fa Assessment of a recently adopted general plan, analysis of the general plan process, and detailed review of each major element and issue. Duplicates Credit in former PLUS 563. Instruction Mode: Lecture Grading Option: Letter

PPD 621 Environmental Impacts

Units: 4 Terms Offered: Sp Legal, political/institutional, and technical aspects of environmental impact reports for urban planning. Duplicates Credit in former PLUS 561. Instruction Mode: Lecture Grading Option: Letter

PPD 622 Seminar in Urban Development

Units: 4 Terms Offered: Irregular Central city housing and renewal problems and policies. Site selection, organization; land valuation, acquisition, disposition; relocation and management; reuse; site planning and development; politics; financing. Duplicates Credit in former PLUS 541. Instruction Mode: Lecture Grading Option: Letter

PPD 623 Community Development and Site Planning

Units: 4 Terms Offered: Sp Urban form and emerging community design practices; design project development; evaluation and assessment of site planning in cities and local communities. Instruction Mode: Lecture Grading Option: Letter

PPD 624 Local Economic Development: Theory and Finance

Units: 4 Terms Offered: Sp Socioeconomic change, economic development theory, assessment techniques, and economic indicators in the context of planning and development policies and programs. Duplicates Credit in former PLUS 547. Instruction Mode: Lecture Grading Option: Letter

PPD 625 Planning and Economic Development Finance

Units: 4 Terms Offered: Fa Fundamentals for economic development professionals and policy makers including feasibility analysis and the financing of facilities, social services, and community-based enterprises. Duplicates Credit in former PLUS 546. Instruction Mode: Lecture Grading Option: Letter

PPD 626 Public/Private and Mixed Enterprises Planning

Units: 2, 4 Terms Offered: SpFa Case studies of planning and public/private and mixed enterprises; public production of private goods; privatization of public services; public/private partnerships; mixed enterprises. Instruction Mode: Lecture Grading Option: Letter

PPD 627 Design Skills for Urban Planners

Units: 4 Terms Offered: Fa Develop observation, description, analysis, and conceptualization skills related to urban spatial conditions; advance professional communication proficiencies. Duplicates Credit in former PLUS 573. Instruction Mode: Lecture Grading Option: Letter

PPD 628 Urban Planning and Social Policy

Units: 4 Terms Offered: Irregular Urban planning and social work: theory, values, techniques of inquiry, and problem-solving methods appropriate to urban planning and social work. Duplicates Credit in former PLUS 552. Instruction Mode: Lecture Grading Option: Letter

PPD 629 Capstone in Urban Planning

Units: 4 Terms Offered: Sp Successful

completion of a comprehensive written and oral project-oriented assessment; analysis, interpretation, and solution of a real-world planning problem. Instruction Mode: Lecture Grading Option: Letter

PPD 630 Urban Economic Analysis

Units: 4 Terms Offered: Sp Economic models of cities and city development and structure; housing and land markets; transportation systems; problems of congestion and pollution; evaluation of urban policies. Duplicates Credit in former PLUS 566. Instruction Mode: Lecture Grading Option: Letter

PPD 631 Geographic Information Systems for Policy, Planning, and Development

Units: 2 Introduction to GIS systems and usage in the public sector; spatial data; understanding software and the application of technology; analysis of data using GIS. Instruction Mode: Lecture Grading Option: Letter

PPD 632 Planning Analysis and Evaluation

Units: 4 Terms Offered: Sp Methods of policy, program, and plan evaluation: economic principles and theoretical concepts introduced, followed by case studies. Duplicates Credit in former PLUS 574. Instruction Mode: Lecture Grading Option: Letter

PPD 633 Methods and Modeling Tools for Transportation Planning

Units: 4 Terms Offered: Fa Background applications of established urban travel forecasting procedures; land use; trip-generation, trip-distribution, modal-choice, trip-assignment; evaluation; criticisms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 633

PPD 634 Institutional and Policy Issues in Transportation

Units: 4 Terms Offered: Sp Analysis of policies relating to transportation alternatives; institutional environment and background; federal, state, regional, and local agency responsibilities and interactions. Duplicates Credit in former PLUS 581. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-634

PPD 635 Principles of Transportation Systems Analysis

Units: 4 Terms Offered: Fa Planning, design, modeling, and operation of inter- and intra-urban transportation networks. Analysis of contemporary engineering-economic issues relevant to transport, especially questions pertaining to infrastructure. Duplicates Credit in former PLUS 582. Instruction Mode: Lecture Grading Option: Letter

PPD 636 Infrastructure and Modern Society

Units: 2 Terms Offered: Sp Survey of infrastructure issues that relates principles from multiple disciplines to the provision of vital services and encourages critical thinking within a systems context. Instruction Mode: Lecture Grading Option: Letter

PPD 637 Forecasting and Urban Planning: A Survey of Theory and Methods

Units: 4 Terms Offered: Sp Overview of

forecasting methods and applications in urban planning processes used to determine urban futures; includes theoretical and institutional factors as well as quantitative methods. Instruction Mode: Lecture Grading Option: Letter

PPD 638 Integrative Seminar

Units: 4 Terms Offered: FaSpSm Individual research and preparation of an integrated comprehensive study coordinated with a sponsor such as a government agency or development firm. *Prerequisite:* PPD 611, PPD 612. Duplicates Credit in former PLUS 591. Instruction Mode: Lecture Grading Option: Letter

PPD 639 Introduction to Community and Economic Development

Units: 4 Terms Offered: FaSp Theories of community and economic development and a contextual understanding of the forces that change the development and community life of urban areas. Instruction Mode: Lecture Grading Option: Letter

PPD 640 Leadership Foundations: Competencies and Core Values

Units: 4 Terms Offered: Sm An intensive introduction to leading through core values. Focuses on developing leadership skills at the personal level to build a foundation for leadership at all levels. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 641 Leading Individuals, Groups and Teams

Units: 4 Terms Offered: Fa Leadership styles in various settings; team demographics, and dynamics; problem-solving; decision-making; diversity and critical thinking skills; effect of culture on small group communication; managing conflict. *Prerequisite:* PPD 640. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 642 Strategic Leadership of Organizations

Units: 4 Terms Offered: Sp Strategic analysis; strategic planning; leadership; performance measurement and management; control systems; organizational structure and networks; organizational culture; organizational learning and change. *Prerequisite:* PPD 641. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 643 Leading Transformations Across Sectors: Integrative Seminar

Units: 4 Terms Offered: Sm Application and practice of leadership skills working across the public, private and nonprofit sectors. Skills include negotiation, collaboration, communication, political management and ethical responsibilities. *Prerequisite:* PPD 642. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 644 Shaping the Built Environment

Units: 4 Introduction to the theories and concepts and good city form. Explores the

options for designing more livable and sustainable urban communities. Instruction Mode: Lecture Grading Option: Letter

PPD 645 Professional Development

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in the practical application of administrative concepts. Duplicates Credit in former PUAD 502. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 646 Fieldwork

Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Supervised study of management activities in governmental agencies. Duplicates Credit in former PUAD 503. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 647 Finance of the Public Sector

Units: 4 Terms Offered: Sp Sources of government revenue, intergovernmental financial relations, budgeting, public goods theory. Theoretical and applied skills in analysis of equity and efficiency issues. *Prerequisite:* PPD 501b. Duplicates Credit in former PUAD 513. Instruction Mode: Lecture Grading Option: Letter

PPD 648 Concepts and Practices of Public Budgeting

Units: 4 Terms Offered: Irregular Budget planning, budget formulation, tools for budget analysis and budget implementation. Duplicates Credit in former PUAD 515. Instruction Mode: Lecture Grading Option: Letter

PPD 649 Concepts and Practices in Public Personnel Administration

Units: 4 Terms Offered: FaSm Concepts of man and of work; workforce; government personnel systems, including merit concepts, classification, and compensation; collective bargaining; organizational justice; training and development. Duplicates Credit in former PUAD 516. Instruction Mode: Lecture Grading Option: Letter

PPD 650 Organization Development in Public Administration

Units: 4 Terms Offered: FaSp Overview of concepts and methodologies of organization development; diagnosing organizational needs; developing change strategies; selecting appropriate interventions. Duplicates Credit in former PUAD 517. Instruction Mode: Lecture Grading Option: Letter

PPD 651 Seminar in the Administration of Local Government

Units: 4 Terms Offered: Irregular Intensive consideration of the functions of the municipal executive and his environment. Research preparation and discussion of cases. Duplicates Credit in former PUAD 520. Instruction Mode: Lecture Grading Option: Letter

PPD 652 Financial Administration in Local Government

Units: 4 Terms Offered: Irregular Revenue sources, fees and charges, benefit assessments; financing economic development and redevelopment, issuing and managing debt, current asset management, and state-local relations. Duplicates Credit

in former PUAD 521. Instruction Mode: Lecture Grading Option: Letter

PPD 653 Training in the Public Sector

Units: 4 Terms Offered: Fa Emergence of public service training; learning theories; program development process — assessing needs, design, delivery, and evaluation; role of media; individual, group, organization development; managing training. Duplicates Credit in former PUAD 522. Instruction Mode: Lecture Grading Option: Letter

PPD 654 Information Technology Management in the Public Sector

Units: 4 Terms Offered: FaSpSm Application of computer and information technology in government; e-government; information technology architecture; systems project management. Duplicates Credit in former PPD 518. Instruction Mode: Lecture Grading Option: Letter

PPD 655 Administrative Law and Public Management

Units: 4 Terms Offered: FaSpSm Administrative perspectives on legal principles of agency rule-making and adjudication; distinctions between the two; informal administrative actions; decision-making; judicial review; public control of administrative decisions. Instruction Mode: Lecture Grading Option: Letter

PPD 656 Political Management: Theory and Applied Techniques

Units: 4 Terms Offered: Sm Political management theories; strategy formation; research and data collection approaches; computer applications; electronic databases; issue management; problem-solving techniques; ethical considerations. Duplicates Credit in former PUAD 545. Instruction Mode: Lecture Grading Option: Letter

PPD 657 Political Leadership in Public Organizations

Units: 4 Terms Offered: Sp Concepts and skills for public executives and senior managers; understanding the dynamics of governmental institutions and policy processes; organizational and personal assessment skills. Duplicates Credit in former PUAD 546. Instruction Mode: Lecture Grading Option: Letter

PPD 658 Advocacy in Public Administration

Units: 4 Terms Offered: Fa Perspectives on advocacy in the policy process; practice of advocacy; accessing the policy process; simulation of the advocacy process; ethical considerations. Duplicates Credit in former PUAD 547. Instruction Mode: Lecture Grading Option: Letter

PPD 659 National Security Administration and the Domestic and International Environment

Units: 4 Terms Offered: Irregular Interplay of domestic and international environments; resultant constraints upon national security program administration; administrative and organizational implications for future scenarios. Duplicates Credit in former PUAD 549. Instruction Mode: Lecture Grading Option: Letter

PPD 660 Local Agency Debt and Cash Administration

Units: 4 Terms Offered: Irregular Overview of methods of debt and cash administration including official statement analysis; mechanics of different types of issues; and cash management principles. Duplicates Credit in former PUAD 550. Instruction Mode: Lecture Grading Option: Letter

PPD 661 Intergovernmental Management: Local Perspective

Units: 4 Terms Offered: Fa Role of city, special district, and metropolitan governments in intergovernmental relations; intergovernmental impacts on local policy process and service delivery; management problems and alternatives. Duplicates Credit in former PUAD 552. Instruction Mode: Lecture Grading Option: Letter

PPD 662 Intergovernmental Management: State Perspective

Units: 4 Terms Offered: FaSp Role of state government in intergovernmental relations, emphasis on California experience; financial aspects of intergovernmental system. Duplicates Credit in former PUAD 553. Instruction Mode: Lecture Grading Option: Letter

PPD 663 Intergovernmental Management: Federal Perspective

Units: 4 Terms Offered: Irregular Role of national government in intergovernmental process; impact of federal legislative, executive, and judicial actions on state and local government; intergovernmental policy-making process. Duplicates Credit in former PUAD 554. Instruction Mode: Lecture Grading Option: Letter

PPD 664 Contract Management

Units: 2 Terms Offered: Sp Contract management techniques in the public and private sectors; micro and macro management; compliance and negotiation; conflicts of interest and ethical issues. Instruction Mode: Lecture Grading Option: Letter

PPD 665 Contemporary Issues in Philanthropy

Units: 4 Motivations and strategies of philanthropists; philanthropic foundations and emerging institutions for philanthropy; issues of philanthropic stewardship, public policy and public accountability. Instruction Mode: Lecture Grading Option: Letter

PPD 666 Administrative Research and Analysis

Units: 4 Terms Offered: Irregular Theory and methods for study of administrative effectiveness: problem solving, performance measurement, administrative and organizational research, quality improvement, and change implementation. *Prerequisite:* PPD 502. Duplicates Credit in former PUAD 506. Instruction Mode: Lecture Grading Option: Letter

PPD 667 Public Ethics

Units: 4 Terms Offered: Sp Following an introduction to the study of ethics, relationships among administrative, political and policy ethics are examined, emphasizing the ethics of the administrative role. Duplicates Credit in former PUAD 560.

Instruction Mode: Lecture Grading Option: Letter

PPD 668 Entrepreneurship in the Public Sector

Units: 4 Terms Offered: Irregular Providing public services through the private and nonprofit sectors; public-private partnerships; political and organizational skills required for public entrepreneurship. Duplicates Credit in former PUAD 561. Instruction Mode: Lecture Grading Option: Letter

PPD 669 Federal Management Systems

Units: 4 Terms Offered: FaSp Principal institutions and processes in federal government for overhead leadership and control; examines Office of Management and Budget, Office of Personnel Management, Merit Systems Protection Board, General Services Administration, and General Accounting Office. Duplicates Credit in former PUAD 564. Instruction Mode: Lecture Grading Option: Letter

PPD 670 Management of Intergovernmental Programs

Units: 4 Terms Offered: Sp Analysis of relationships among governmental units in delivery of governmental programs; historical development of intergovernmental relations; present status and future implications. Duplicates Credit in former PUAD 566. Instruction Mode: Lecture Grading Option: Letter

PPD 671 Decision-Making in Regulatory Agencies

Units: 4 Terms Offered: Irregular Risk assessment, management, and communication concepts and practices; comparisons of regulatory decision making in regulatory agencies; emerging benefit assessment, cost-effectiveness, and communication issues. Duplicates Credit in former PUAD 567. Instruction Mode: Lecture Grading Option: Letter

PPD 672 Collaborative Governance

Units: 4 Terms Offered: SpSm Theory and practice of collaborative policy and planning processes involving stakeholders from public, private, and nonprofit sectors. Leadership skills in the design and facilitation of multi-party negotiations and consensus-building. Instruction Mode: Lecture Grading Option: Letter

PPD 673 Strategic Planning in the Public Sector

Units: 4 Terms Offered: Sp Analysis/field application of action research models for strategic planning in public agencies; design of effective public systems; citizens/administrators' roles in strategic decision-making. Duplicates Credit in former PUAD 574. Instruction Mode: Lecture Grading Option: Letter

PPD 674 Science, Technology, and Government

Units: 4 Terms Offered: Irregular Impact of science/technology on governmental policy, processes, institutions; critical policy areas in science/technology; machinery for formulating science policy; governmental impact on science/technology. Duplicates Credit in former PUAD 575. Instruction Mode: Lecture Grading Option: Letter

PPD 675 Nonprofit Management and Leadership

Units: 4 Terms Offered: FaSpSm Issues in nonprofit management and leadership including: the role of boards; strategic planning; marketing and fund-raising; financial management; and volunteer and human resource management. *Recommended Preparation:* PPD 689. Instruction Mode: Lecture Grading Option: Letter

PPD 676 Comparative Public Administration

Units: 4 Terms Offered: Irregular Methodologies, theories and models of comparison; administrative systems; role and functions of the public sector; administrative cultures. Duplicates Credit in former PUAD 579. Instruction Mode: Lecture Grading Option: Letter

PPD 677 International Development Administration

Units: 4 Terms Offered: Sp Development of theories; role of international institutions in resource exchanges; foreign investment and trade policies; national planning and allocation systems; development and modernization strategies and implementation. Duplicates Credit in former PUAD 581. Instruction Mode: Lecture Grading Option: Letter

PPD 678 Processes of Change in Developing Societies

Units: 4 Terms Offered: Irregular Nature of traditional and transitional societies; theories and practice of developmental change; role of bureaucracy in development; institution building; public enterprise; technology assessment and transfer. Duplicates Credit in former PUAD 582. Instruction Mode: Lecture Grading Option: Letter

PPD 679 Financial Administration in Developing Countries

Units: 4 Terms Offered: Sm Public sector finance; tax policy and administration; budgeting and auditing; debt management; public enterprise and development banks; planning; techniques; project assessment. Duplicates Credit in former PUAD 583. Instruction Mode: Lecture Grading Option: Letter

PPD 680 Development of Effective Groups and Organizations

Units: 4 Terms Offered: Fa Theories and techniques of assessing and improving interpersonal relationships and group dynamics in an organizational context; action research-based approaches to implementing organizational change. Duplicates Credit in former PUAD 586. Instruction Mode: Lecture Grading Option: Letter

PPD 681 Public Organization and Management Theory

Units: 4 Terms Offered: FaSp Nature and management of public organizations; examination of organizational characteristics, forms, and processes, including the relationship with the broader environment. Duplicates Credit in former PUAD 595. Instruction Mode: Lecture Grading Option: Letter

PPD 682 Justice Administration: A Management Perspective

Units: 4, 2 years Terms Offered: Fa Justice administration as an interactive system: law, etiology of crime, police, the judiciary and corrections. Interface of offenders with community and political force fields. Duplicates Credit in former PUAD 540. Instruction Mode: Lecture Grading Option: Letter

PPD 683 Homeland Security and Public Policy

Units: 4 Terms Offered: FaSp Definition and history of terrorism, counterterrorism, domestic policy and public sector management; intelligence/information sharing and analysis; emergency preparedness planning, response and recovery. Instruction Mode: Lecture Grading Option: Letter

PPD 684 Leadership Development in the Public and Nonprofit Sectors

Units: 2 Terms Offered: Fa An overview of leadership concepts, frameworks and skills; application of leadership in complex or inter-sectoral settings. Instruction Mode: Lecture Grading Option: Letter

PPD 685 Human Resources Management in Public and Non-Profit Sectors

Units: 2 Terms Offered: Fa Merit principles, position classification, recruitment and selection, compensation, organizational development, labor relations; challenges and strategies for managing a diverse workforce. Instruction Mode: Lecture Grading Option: Letter

PPD 686 U.S. Immigration Policy

Units: 4 Terms Offered: Sp Overall understanding of contemporary U.S. immigration policy. Instruction Mode: Lecture Grading Option: Letter

PPD 687 Strategic Management in the Nonprofit Sector

Units: 4 Terms Offered: Sp Strategic management of nonprofit organizations, social entrepreneurship, and management practice. *Prerequisite:* PPD 675 and PPD 689. Instruction Mode: Lecture Grading Option: Letter

PPD 688 Business and Public Policy

Units: 4 Terms Offered: Irregular The business-government relationship; effects of selected public policies (antitrust, economic, and social regulation, industrial policies, legal policy) on firm and industry behavior. *Prerequisite:* PPD 501b. Duplicates Credit in former PUAD 557. Instruction Mode: Lecture Grading Option: Letter

PPD 689 The Nonprofit Sector and Philanthropy

Units: 4 Terms Offered: FaSp Nonprofit organizations and their relation to government and business; the role of philanthropy, social enterprise and public support; and implications for policy, strategy and management. Instruction Mode: Lecture Grading Option: Letter

PPD 690 Alternative Dispute Resolution

Units: 4 Terms Offered: Fa Theory and methods of conflict analysis, negotiation, facilitation and mediation in the public

sector. Duplicates Credit in former PUAD 519. Instruction Mode: Lecture Grading Option: Letter

PPD 692 Transportation and the Environment

Units: 4 Terms Offered: Sp Analysis of the benefits and costs of urban transportation; concepts of social costs; benefits and externalities; environmental costs; social justice issues; policy and planning alternatives for sustainable transportation. Duplicates Credit in former PPD 584. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 692

PPD 693 Communicating Public Policy

Units: 4 Exploring the complex relationships that exist among policies, policymakers, and the media; analyzing the role of journalists and policy analysts in the public policy process. Instruction Mode: Lecture Grading Option: Letter

PPD 694 Coastal Policy and Planning

Units: 4 Terms Offered: Sp Coastal management issues in the context of public and private users competing for land resources, the costs and benefits of seaports, compare coastal development models. Instruction Mode: Lecture Grading Option: Letter

PPD 695 Clinical Issues for Managers

Units: 1 Terms Offered: Fa Introduces key information and concepts for managers of clinical services. Examines problems and issues facing health care managers and clinician relations. Instruction Mode: Lecture Grading Option: Letter

PPD 696 Health Care Venture Development

Units: 2 Terms Offered: SpSm Focuses on developing the resourcefulness, know-how and decision support skills needed to identify, assess and develop new health ventures. Includes business planning, financing, strategy, entrepreneurship. *Recommended Preparation:* PPD 510a or HMG 565. Instruction Mode: Lecture Grading Option: Letter

PPD 697 Cultural Proficiency in Health Management and Policy

Units: 2 Terms Offered: Sp Provides an understanding of what social factors contribute to racial/ethnic, socioeconomic, and gender disparities in health and the culturally proficient provision of health care. Instruction Mode: Lecture Grading Option: Letter

PPD 698 Strategic Management and Change

Units: 4 Theory and applied skills in management of social sector organizations with applications in international settings. Strategic management and planning; communication strategies, marketing and promotion; leadership skills; organizational development and change. Instruction Mode: Lecture Grading Option: Letter

PPD 699 Special Topics

Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics in public policy, management and planning. Registration Restriction: Open only to doctoral students

Instruction Mode: Lecture Grading Option: Letter

PPD 700 Teaching Seminar

Units: 2 Pedagogy: learning objectives, curriculum design, teaching methods, evaluation. Duplicates Credit in former PPD 700ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 706 Paradigms of Research and the Design of Inquiry

Units: 4 Terms Offered: FaSp Philosophy of social science; applied social research; research design; sampling and validity; overview of qualitative and quantitative methods. Instruction Mode: Lecture Grading Option: Letter

PPD 707 Survey Research Methods

Units: 4 Terms Offered: Sp Collection and use of survey data: basic orientation, mechanics of using SAS, and interpretation of survey tabulations. *Prerequisite:* PPD 525. Duplicates Credit in former PLUS 608. Instruction Mode: Lecture Grading Option: Letter

PPD 708 Qualitative Methods

Units: 4 Terms Offered: Sp Reflective and critical approach that questions data collection techniques, positions relative to those being studied, and explanatory methods. *Recommended Preparation:* PPD 525 or PPD 612. Duplicates Credit in former PLUS 609. Instruction Mode: Lecture Grading Option: Letter

PPD 709 Applications in the Advanced Quantitative Methods

Units: 4 Terms Offered: Sp Statistical and econometric modeling in real estate finance, urban economics, public policy, and planning research. Building, estimating and adjusting models for real-world. *Prerequisite:* PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 710a Research Seminar

Units: 2 Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. *Prerequisite:* PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 710b Research Seminar

Units: 2 Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. *Prerequisite:* PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 711 Theoretical Foundation of Public Management

Units: 4 Terms Offered: Fa Theories of the role, structure, and growth of the public sector; political economy of public bureaucracies; the voluntary nonprofit sector. *Prerequisite:* PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PPD 712 Seminar in Public Policy

Units: 4 Terms Offered: Fa Critical analysis of the policy field; theoretical foundations; integration of quantitative, organizational, and political considerations; policy research. *Prerequisite:* PPD 501b, PPD 554. Duplicates Credit in former PUAD 626. Instruction Mode: Lecture Grading Option: Letter

PPD 713 Advanced Planning Theory

Units: 4 Terms Offered: Fa Positive and normative attitudes of public plans, policies, programs, organizational and institutional settings; policy analysis; modeling of social choices; evaluation; applied welfare analysis; performance assessment. Duplicates Credit in former PLUS 605. Instruction Mode: Lecture Grading Option: Letter

PPD 714 Advanced Urban Development

Units: 4 Terms Offered: Fa Urbanization, urban economics, land use, the politics of growth, governance, regulation, and the state, immigration, and place promotion. Instruction Mode: Lecture Grading Option: Letter

PPD 715 Political Economy and Institutional Analysis

Units: 4 Institutional dimension of political economy; analytic approaches in institutional analysis and their relevance for understanding the interactions between political and economic factors in public-sector issues. Instruction Mode: Lecture Grading Option: Letter

PPD 716 Econometrics for Policy, Planning and Management I

Units: 4 Implementation of microeconomic techniques and assessment of studies; empirical strategies for research questions and data preparation and analytic tasks in Stata. *Prerequisite:* PPDE 668 Instruction Mode: Lecture Grading Option: Letter

PPD 717 Econometrics for Policy, Planning and Management II

Units: 4 Identification of a significant and innovative empirical research question; production of a dissertation chapter or draft manuscript for publication in policy, planning or management. *Prerequisite:* PPD 716 Instruction Mode: Lecture Grading Option: Letter

PPD 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 18.0 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PLUS 790 and PUAD 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture

Grading Option: In-progress to Credit/No Credit

PPD 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 795 Law of the Political Process

Units: 2, 3, 4 Max Units: max 8 (Enroll in LAW 795)

PPD 797 Public Policy in Law: Analysis and Advocacy

Units: 1, 2, 3, 4 (Enroll in LAW 797)

Policy, Planning, and Development — Expanded

PPDE 505 Professional Workshop in Public Administration

Units: 2 Evidence-based argumentation, written reporting and communication in public administration; research skills for effective stakeholder engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 506 Professional Residency in Public Administration

Units: 1 Skills in written reporting, professional briefings and social media for public administrators; effective engagement for stakeholders and constituencies; research, analysis and reporting on current policy or management cases Instruction Mode: Lecture Grading Option: Letter

PPDE 507 Capstone Residency in Public Administration

Units: 1 Development of enhanced skills in issue framing and options analysis in public administration for internal and external audiences. Instruction Mode: Lecture Grading Option: Letter

PPDE 580 Social Innovation

Units: 4 Strategies and processes of social innovation in the context of economics, institutional, and innovation theory. How social innovation materializes across all sectors, including the government, nonprofit, and for-profit spheres. Critical thinking and practical application development to solve social problems. Instruction Mode: Lecture Grading Option: Letter

PPDE 589 Public Policy and Administration in the European Union, Germany, and the United States

Units: 6 Terms Offered: Sm Governance issues from a comparative perspective with a special focus on the US, Germany and the European Union. Instruction Mode: Lecture Grading Option: Letter

PPDE 610 Population Health Management

Units: 2 Terms Offered: Sm Principles and concepts of population health management; application of key principles that drive health and well being of populations; development

and evaluation of strategies in management of disease and prevention of illness. Instruction Mode: Lecture Grading Option: Letter

PPDE 611 Digital Health

Units: 2 Terms Offered: Fa Origins and impact of Digital health on the healthcare industry; acquire knowledge on how to identify and implement strategies on incorporating digital health in the workplace. Instruction Mode: Lecture Grading Option: Letter

PPDE 612 Consulting in Healthcare Organizations

Units: 2 The application of decision analysis principles necessary for determining priorities for uses of strategic human, facility and financial resources in healthcare organizations; analytic and consulting skills; case studies. Instruction Mode: Lecture Grading Option: Letter

PPDE 628 Introduction to Lean Health Care

Units: 2 Performance improvement methods and principles in health care; how Lean, Six-Sigma, and Human Centered Design (HCD) methodologies are applied to health care organizations to improve quality and efficiency. Instruction Mode: Lecture Grading Option: Letter

PPDE 629 Transitional Care and Hospital Readmission Prevention

Units: 2 Alternatives within the healthcare delivery system beyond the acute hospital; how social, medical and financial determinants provide alternatives to acute care and impact a patient's disposition; Hospital Readmission Penalty Program; effect of the Affordable Care Act of 2010 on patient care. Instruction Mode: Lecture Grading Option: Letter

PPDE 630 Community Health Planning

Units: 4 Terms Offered: Sp The role of planning in sustaining community health; examines relationship between health and environment; historical development, conceptualization and practice of community health planning. Instruction Mode: Lecture Grading Option: Letter

PPDE 631 Public Space: Theory, Policy, and Design

Units: 4 Examination of contemporary issues and practices in the design, production, and uses of public space in a comparative perspective; implications for future design and public policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 632 Sustainable Cities

Units: 4 Terms Offered: FaSp Exploration of environmental problems linked to urbanization, drawing on historical analysis, social theory, scientific research, and city planning/design practice. Alternative policy options for urban sustainability. Duplicates Credit in the former GEOG 601. Instruction Mode: Lecture Grading Option: Letter

PPDE 633 Communicating City Design: Positions and Representations

Units: 2 Communicating the processes, products, and concepts of city design; merging theoretical and skill-based

exercises for effective communication; verbal and graphic communication; physical components of urban landscape and dimensional attributes. Instruction Mode: Lecture Grading Option: Letter

PPDE 634 Methodology, Methods and Tools for Urban Sustainability

Units: 2, 3, 4 Terms Offered: FaSp Methodology, assessment and planning methods for urban sustainability and land use planning; how the choice and use of theory and methods impact the planning process; systems and spatial analysis. Instruction Mode: Lecture Grading Option: Letter

PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions

Units: 4 Terms Offered: Fa Interdisciplinary approach to conceptualize urban land and property rights; property rights strategies; design and policy interventions; the struggle for rights to space in the city. Instruction Mode: Lecture Grading Option: Letter

PPDE 636 Urban Spatial Ethnography and Critical Cartography

Units: 4 Theories and methods of how to develop original data about, analyze, and produce visualizations of urban space; conventional conceptualization and representations of cities and urban spatial data. *Recommended Preparation:* PPD 631 or other GIS course work Instruction Mode: Lecture Grading Option: Letter

PPDE 637 Urban Mass Transit

Units: 4 Terms Offered: Fa Fundamentals of urban mass transit planning. Topics include the fiscal context of mass transit planning, fares and farebox recovery, ridership forecasts, land development near transit, and transit operations, scheduling, and network design. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 637

PPDE 638 Race, Arts, and Placemaking

Units: 4 Exploration of the inter-relationships between race, arts, and urban space through an inter-disciplinary inquiry of art practice, history, and policy, and urban economic and community development, and cultural geography fields. Instruction Mode: Lecture Grading Option: Letter

PPDE 639 Housing Dynamics for Policy and Planning

Units: 4 Comprehensive introduction to the dynamics of the housing sector, problems, programs, and policies. Attention to both publically assisted and market rate housing, recent trends and current debates. Instruction Mode: Lecture Grading Option: Letter

PPDE 640 Environmental Planning and Analysis

Units: 4 Fundamentals of environmental planning and policy from an urban planning perspective; role of markets and market failures; environmental risks; policy approaches; modeling tools for environmental impact assessment and forecasts. Instruction Mode: Lecture Grading Option: Letter

PPDE 641 Art and the City

Units: 4 Role of art in modern society with a particular emphasis on the urban context including public spaces, the process of

gentrification, and redevelopment; theoretical and research approaches. Duplicates Credit in former PPD 424 Instruction Mode: Lecture Grading Option: Letter

PPDE 644 Land Use and Transportation Planning

Units: 4 Key theories of land use — transportation interactions; understanding of land markets and derived-demand approach; use of evidence for information; travel data collection methods; application of land use. Instruction Mode: Lecture Grading Option: Letter

PPDE 645 Financial Management of Nonprofit Organizations

Units: 4 Accounting and financial management principles and practices in nonprofit organizations: budgeting financial analysis, internal controls, financial policies, grant making and financial reporting. Duplicates Credit in PPD 541. Instruction Mode: Lecture Grading Option: Letter

PPDE 646 Grant Writing Practicum

Units: 2 Grant making process and proposal development; philanthropic foundations; strategies for funding; budgeting, logic models, and evaluation; peer review. Instruction Mode: Lecture Grading Option: Letter

PPDE 647 Civic Engagement in Governance

Units: 4 Terms Offered: Sp Roles of citizens, civic associations, nonprofit organizations, government and business in democratic governance; civil society as the interface among these entities; techniques, purposes and contexts of civic engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 648 Performance Management

Units: 4 Concept and practice of performance management; examination of performance measurement; analysis and reporting practices for organizational accountability and improvements; performance design, indicators, utilization of information. Instruction Mode: Lecture Grading Option: Letter

PPDE 649 International Development NGOs: Theory, Policy and Management Issues

Units: 4 Critical issues involved in International Development NGO management; theoretical work and analytical framework to understand organizational features; NGO management, issues and challenges. Instruction Mode: Lecture Grading Option: Letter

PPDE 650 Social and Nonprofit Marketing

Units: 4 Terms Offered: Sm Marketing techniques in nonprofits and philanthropies, government agencies, health systems, application of marketing for social purposes; outreach strategies and efforts in nonprofits. Instruction Mode: Lecture Grading Option: Letter

PPDE 660 Environmental Policy Design and Analysis

Units: 4 Terms Offered: Sp Analytical foundation for design of institutions and policies; environmental policy; welfare economics and market failure; policy

evaluation; economic policy instruments; climate change policy issues; other policy issues. *Prerequisite:* PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 661 Methods for Equity Analysis
Units: 4 Techniques to measure inequality and segregation. Policy evaluation using techniques for causal inference. *Prerequisite:* PPD 558. Instruction Mode: Lecture Grading Option: Letter

PPDE 662 China from a US Policy Perspective
Units: 4 Examination of China through the lens of the US federal government; trade issues; economic coordination and stability; environment and sustainability; defense and security; human development. Instruction Mode: Lecture Grading Option: Letter

PPDE 663 Media for Policy Change
Units: 4 Terms Offered: Sp The use of media as an implement of social policy and change at the state and federal level; analysis of social problems and the effect policy practitioners influence on change. Instruction Mode: Lecture Grading Option: Letter

PPDE 664 Seminar in Social Justice and Public Policy
Units: 4 Major theories of social justice in the US and globally; how theories of social justice influence policy, urban planning, and public administration; how to bridge theories about justice for professional practice. Instruction Mode: Lecture Grading Option: Letter

PPDE 665 Economic Impact Analysis: Methods and Applications
Units: 2 Terms Offered: Sp Economic models for understanding and measuring impacts of man-made and natural disasters; analysis of public policy initiatives to mitigate environmental threats; model construction and software. *Prerequisite:* PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 668 Applied Econometrics for Program Evaluation
Units: 4 Terms Offered: FaSp Application of econometric methods for causal inference. Production and evaluation of empirical estimates of causal relationships to inform evidence-based policy decisions. *Prerequisite:* PPD 558 Instruction Mode: Lecture Grading Option: Letter

PPDE 669 U.S. Education Policy
Units: 4 The role of public policy in education; application of theoretical frameworks to analyze policy design, implementation and impact; key concepts of policy analysis and key issues in education policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 680 Board Governance and Leadership
Units: 2 Governance of nonprofit organizations; responsibilities and expectations of boards; board effectiveness; and changes in governance as a result of recent federal and state legislation. Instruction Mode: Lecture Grading Option: Letter

PPDE 681 Fund Development for Nonprofit Organizations
Units: 4 Key aspects of the fundraising process for nonprofit organizations; theoretical foundations and general fundraising principles; techniques sources of donations; key aspects of managing the process. Instruction Mode: Lecture Grading Option: Letter

PPDE 682 Capstone in Nonprofit Leadership and Management
Units: 4 Mission-mandated accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; strategic leadership and management of public value production. *Prerequisite:* PPD 542 and PPD 675 and PPD 689 Instruction Mode: Lecture Grading Option: Letter

PPDE 683 Social Finance and Development
Units: 4 Critical analysis on the innovations, merits and challenges of wealth creation and poverty reduction based on the microfinance model. Instruction Mode: Lecture Grading Option: Letter

Public Relations

PR 209 Effective Writing for Strategic Public Relations
Units: 4 Terms Offered: FaSp Focus on the unique writing requirements of social, online, broadcast, print and other media in public relations/strategic communication; emphasis on judgment, context and audience understanding. Duplicates Credit in the former JOUR 209 Instruction Mode: Lecture Grading Option: Letter

PR 250 Strategic Public Relations: An Introduction
Units: 4 Terms Offered: FaSp Strategies and practices in the growing field of public relations/strategic communication, including landmark cases; special emphasis on historical roots, evolution, current and future practice. Duplicates Credit in former JOUR 250 and former JOUR 350 Instruction Mode: Lecture Grading Option: Letter

PR 340 Introduction to Advertising
Units: 4 Terms Offered: FaSp History and development of advertising; basic advertising campaigns showing relationships of marketing, creative, print and electronic media. Duplicates Credit in former JOUR 340 Instruction Mode: Lecture Grading Option: Letter

PR 341 Advertising Copywriting
Units: 4 Terms Offered: Fa Writing and editing for advertising and commercial copy for all media. *Prerequisite:* PR 340 Duplicates Credit in former JOUR 341 Instruction Mode: Lecture Grading Option: Letter

PR 342 Advertising Media and Analysis
Units: 4 Terms Offered: Fa Selling, planning, buying for the media; advertising's relationship to society and business; media choice. *Prerequisite:* PR 340 Duplicates Credit in former JOUR 342 Instruction Mode: Lecture Grading Option: Letter

PR 343 Advertising Design and Production
Units: 4 Terms Offered: Sp Production of advertising materials; emphasis on the creation and design of advertising elements. *Prerequisite:* PR 340 Duplicates Credit in former JOUR 343 Instruction Mode: Lecture Grading Option: Letter

PR 351a Strategic Public Relations Media and Content
Units: 4 Terms Offered: FaSp Introduction to media relations, social media and influencer engagement; intensive writing and creating multimedia content for traditional, emerging and social media. *Prerequisite:* PR 209 and PR 250 Duplicates Credit in former JOUR 351a Instruction Mode: Lecture Grading Option: Letter

PR 351b Strategic Public Relations Media and Content
Units: 4 Terms Offered: FaSp Advanced course in writing, digital content and multimedia creation; production of communications collateral for social and owned media channels targeting an array of audiences. *Prerequisite:* PR 351a Duplicates Credit in former JOUR 351b Instruction Mode: Lecture Grading Option: Letter

PR 352 Public Relations Media and Content for Non-Majors
Units: 4 Learn advanced public relations writing and editing, basic design skills and sophisticated video planning, shooting, editing and production skills. *Prerequisite:* PR 209 Registration Restriction: Not open to Public Relations majors Instruction Mode: Lecture Grading Option: Letter

PR 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former JOUR 390 Instruction Mode: Lecture Grading Option: Letter

PR 391 Made in Italy: The Marketing of an Ideal
Units: 4 Terms Offered: FaSp (Enroll in COMM 391)

PR 392 Media and Migration in Times of European Crisis
Units: 4 Terms Offered: FaSp (Enroll in COMM 392)

PR 410 London Calling: Public Relations in the UK Hub
Units: 4 Examines how politics affects and influences public relations campaigns in the UK and Europe. Registration Restriction: Open only to Annenberg majors Instruction Mode: Lecture Grading Option: Letter

PR 428 Social, Legal and Ethical Foundations of Public Relations
Units: 4 Terms Offered: FaSp Covers the complex intersection of legal standards and regulations, ethical practices and decision making, and social responsibilities for public relations/strategic communication practitioners. *Prerequisite:* PR 250 Duplicates Credit in former JOUR 428 Instruction Mode: Lecture Grading Option: Letter

PR 429 Business and Economic Foundations of Public Relations

Units: 4 Terms Offered: FaSp Relationship communication and other organizational disciplines; understanding business goals and objectives; economic literacy; financial/investor relations; how PR/communication agencies are built and managed. *Prerequisite:* PR 351a Duplicates Credit in former JOUR 429 Instruction Mode: Lecture Grading Option: Letter

PR 444 Lifestyle Public Relations

Units: 4 An extensive overview of the Lifestyle Public Relations category with special emphasis on social media, non-traditional influencers and audience segmentation. Instruction Mode: Lecture Grading Option: Letter

PR 450 Advanced Strategic Public Relations

Units: 4 Terms Offered: FaSp In-depth study of methods for planning, managing and evaluating strategic communication campaigns; critical analysis of contemporary cases; development of campaigns for real world clients. *Prerequisite:* PR 351b and PR 463 Duplicates Credit in former JOUR 450 Instruction Mode: Lecture Grading Option: Letter

PR 451 Promotional Public Relations

Units: 4 Principles and practices of public relations as a basic component in the promotion and marketing of goods and services; regulatory considerations; consumerism. Duplicates Credit in former JOUR 451 Instruction Mode: Lecture Grading Option: Letter

PR 452 Public Relations in Entertainment

Units: 4 Public relations in the design, promotion, and presentation of popular entertainment, including films, broadcasting, music, expositions, amusement parks, resorts and arenas. Duplicates Credit in former JOUR 452 Instruction Mode: Lecture Grading Option: Letter

PR 453 Public Relations Strategies for Working with Athletes

Units: 4 Sports Public Relations isn't only getting press for a team or player; it's managing communications among influencers. Complements overview course giving students advanced look at practitioners' role with professional athletes. Instruction Mode: Lecture Grading Option: Letter

PR 454 Sports Public Relations

Units: 2 Introduction to the field of sports information and promotion, including lectures, media assignments, role-playing, and presentations by sports professionals. Duplicates Credit in former JOUR 454 Instruction Mode: Lecture Grading Option: Letter

PR 455 Public Relations for Non-Profit Organizations

Units: 4 Introduction to the specialized field of public relations for non-profit and non-governmental organizations; emphasis on case studies, strategic and critical thinking, and campaign development. Duplicates

Credit in former JOUR 455 Instruction Mode: Lecture Grading Option: Letter

PR 456 Public Relations for Diverse Audiences

Units: 4 Researching, planning, executing and evaluating communications campaigns aimed at audiences segmented by culture, lifestyle and other factors. *Prerequisite:* PR 250 Duplicates Credit in former JOUR 456 Instruction Mode: Lecture Grading Option: Letter

PR 457 The Role of Celebrity in Public Relations

Units: 4 Understanding of the history and application of celebrity in public relations, focusing on the entertainment industry and the notoriety attached to politics and the media. Duplicates Credit in former JOUR 457 Instruction Mode: Lecture Grading Option: Letter

PR 458 Public Relations in Politics and Political Campaigns

Units: 4 Application of public relations principles to the context of political campaigns; emphasis on message development and delivery; relationship between candidate, news media, and electorate. Duplicates Credit in former JOUR 458 Instruction Mode: Lecture Grading Option: Letter

PR 463 Strategic Public Relations Research, Analysis and Insights

Units: 4 Terms Offered: FaSp Identification of key strategic insights that drive successful communication campaigns, based on research techniques including surveys, content evaluation and social media monitoring. *Prerequisite:* PR 351a or JOUR 351a [Inactive] Duplicates Credit in former JOUR 463 Instruction Mode: Lecture Grading Option: Letter

PR 473 Emerging Media Strategies for Communication and Public Relations

Units: 4 In-depth, hands-on study of emerging digital, social and owned media channels; Emphasis on the evaluation of such media as effective tools for audience engagement. Registration Restriction: Open only to juniors and seniors Duplicates Credit in former JOUR 473 Instruction Mode: Lecture Grading Option: Letter

PR 477 Strategic Netnography for Digital Communication Insights

Units: 4 Provides deep understanding and hands-on experience in the strategic application of netnography, or digital anthropology, to contemporary public relations and communication fields. Instruction Mode: Lecture Grading Option: Letter

PR 478 Social Media Analytics: Data and Content Creation for Real-time Public Relations

Units: 4 Application of monitoring tools to become social media analysts and real-time content creators; interpretation of large data sets drawn from the social web; understanding of how to present data visually for optimal impact. Duplicates Credit in former JOUR 478 Instruction Mode: Lecture Grading Option: Letter

PR 481 Careers and Strategies in Health Communication

Units: 4 Understanding of the dynamic, changing world of U.S. healthcare; knowledge of healthcare audiences and how to reach them; creating effective strategic communications initiatives. Duplicates Credit in former JOUR 481 Instruction Mode: Lecture Grading Option: Letter

PR 482 Comparative Media in Europe

Units: 4 Terms Offered: Sm (Enroll in JOUR 482)

PR 485 Multimedia PR Content: Digital/Social Media Lab

Units: 2 Hands-on lab; Web and new social distribution platforms; development and management of online content and personal brands; social media trends and applications. Duplicates Credit in former JOUR 485 Instruction Mode: Lecture Grading Option: Letter

PR 486 Multimedia PR Content: Introduction to Digital Design Tools

Units: 2 Hands-on lab; producing multimedia content; basic principles of design; tools and techniques to create digital images and layouts. Duplicates Credit in former JOUR 486 Instruction Mode: Lecture Grading Option: Letter

PR 487 Multimedia PR Content: Introduction to Audio/Video Tools

Units: 2 Hands-on lab; audio/video tools for conceiving, shooting, editing, delivering and archiving compelling stories for online audiences; personal brand building; digital storytelling trends and applications. Duplicates Credit in former JOUR 487 Instruction Mode: Lecture Grading Option: Letter

PR 488 Multimedia PR Content: Visual Communication of Information

Units: 2 Overview of tools and techniques available to convey messages and experiences; exploration into graphic design, visual branding, design methods and processes. Duplicates Credit in former JOUR 488 Instruction Mode: Lecture Grading Option: Letter

PR 490 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

PR 491 Transmedia, New Media and Strategic Public Relations

Units: 4 Study of the new rules of message development and dissemination in strategic communication and marketing: Participatory Culture, Transmedia Branding, Spreadable Media, and Crowdsourcing. Open only to seniors and master students in public relations and strategic public relations. Registration Restriction: Open only to juniors, seniors and graduate students Duplicates Credit in former JOUR 491 Instruction Mode: Lecture Grading Option: Letter

PR 492 Personal Branding

Units: 4 Learn to build, promote and manage a personal brand through critical analysis, case study, interactive interpretation and

creative problem solving. Duplicates Credit in former JOUR 492 Instruction Mode: Lecture Grading Option: Letter

PR 498 Public Relations Honors Seminar

Units: 2 Terms Offered: Sp Leadership workshop inspires students to be braver and more creative; encourages them to discover their leadership potential/explore new challenges inside and outside of classroom. Registration Restriction: Admission to Honors Program Instruction Mode: Lecture Grading Option: Letter

PR 499 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Terms Offered: FaSpSm Selected topics in public relations. Instruction Mode: Lecture Grading Option: Letter

PR 501 Advocacy Communications

Units: 4 Study and evaluation of communications campaigns by civil society actors to influence public policy with a focus on messaging and efforts to shape news coverage. Duplicates Credit in former JOUR 501 Instruction Mode: Lecture Grading Option: Letter

PR 504 Strategic Public Relations Research, Evaluation and Insights

Units: 3 Terms Offered: Fa Covers use of primary and secondary research methods, analysis, web monitoring and analytics, pre- and post-campaign testing, and other techniques in program planning and evaluation. *Prerequisite:* PR 508 Duplicates Credit in former JOUR 504 Instruction Mode: Lecture Grading Option: Letter

PR 508 Introduction to Strategic Public Relations

Units: 3 Terms Offered: Fa A survey of the profession, focusing on the key role of strategic public relations in today's information-based society; provides a social, economic and political context for the program. Duplicates Credit in former JOUR 508 Instruction Mode: Lecture Grading Option: Letter

PR 510 Legal, Ethical and Social Foundations of Strategic Public Relations

Units: 3 Terms Offered: Sp Explores the origins, effects of, and processes for adhering to the complex network of legal, ethical and social responsibilities of the contemporary PR practitioner. Duplicates Credit in former JOUR 510 Instruction Mode: Lecture Grading Option: Letter

PR 527 Multimedia Content Creation for Strategic Public Relations

Units: 3 Terms Offered: Sp Covers the conceptualization and creation of strategy-based, engaging, primarily web-based multimedia content for use by organizations of all types. *Prerequisite:* PR 508 and PR 535 Duplicates Credit in former JOUR 527 Instruction Mode: Lecture Grading Option: Letter

PR 529 Business and Economic Foundations for Public Relations

Units: 3 Terms Offered: Sp Speaking the language of the board room; understanding business goals and objectives; economic literacy; financial/investor relations; understanding organizational disciplines and

how they relate to corporate communication; PR/communication business processes and managed. Instruction Mode: Lecture Grading Option: Letter

PR 530 Strategic Public Relations Management

Units: 3 An analytical, case study-based approach to strategic campaign planning, management and execution, with heavy emphasis on problem solving and the role of research. Duplicates Credit in former JOUR 530 Instruction Mode: Lecture Grading Option: Letter

PR 532 International Public Relations

Units: 3 Public information policies and practices of national and supranational government units and national and multinational corporations involved in international relations. Duplicates Credit in former JOUR 532 Instruction Mode: Lecture Grading Option: Letter

PR 534 Case Studies in Public Relations

Units: 3 Analysis of landmark and contemporary public relations cases; evaluation of current literature, programs, and professional personnel; identification of emerging issues. Duplicates Credit in former JOUR 534 Instruction Mode: Lecture Grading Option: Letter

PR 535 Writing for Strategic Public Relations

Units: 3 Terms Offered: Fa Intensive focus on the specialized writing requirements of online, broadcast, print and other public relations media; includes content analysis of strategic public relations materials. Duplicates Credit in former JOUR 535 Instruction Mode: Lecture Grading Option: Letter

PR 536 Digital, Social and Mass Media Public Relations Strategies

Units: 3 Analysis of shifting media environment; development and execution of multi-platform campaigns based on organizational goals and audience characteristics. Duplicates Credit in former JOUR 536 Instruction Mode: Lecture Grading Option: Letter

PR 537 Public Relations and Branding

Units: 3 Concept of branding, including brand definition, brand engagement, brand management and the role of public relations in creating brand value. Duplicates Credit in former JOUR 537 Instruction Mode: Lecture Grading Option: Letter

PR 538 Image Management in Entertainment

Units: 3 In-depth study of the creation and protection of reputations for entertainment properties of all types and the characteristics that distinguish it from other disciplines. Duplicates Credit in former JOUR 538 Instruction Mode: Lecture Grading Option: Letter

PR 540 International Journalism Seminar I

Units: 3 (Enroll in JOUR 540)

PR 561 Principles of Public Relations

Units: 4 Terms Offered: Other Practical and theoretical survey of the public relations profession as it is currently practiced,

providing a social/contextual backdrop for further study of the field. Duplicates Credit in former JOUR 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 561

PR 562 Foundations of Effective PR Writing

Units: 4 Terms Offered: Other Specialized writing for persuasive and strategic communication contexts. Intensive focus on public relations writing for print, online, broadcast, and social media. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 562

PR 563 Promotional and Product Public Relations

Units: 3 Planning, managing and evaluating integrated communications campaigns utilizing public relations strategies in concert with advertising and other marketing disciplines; emphasis on research, case studies and campaign development. Duplicates Credit in former JOUR 563 Instruction Mode: Lecture Grading Option: Letter

PR 565 Corporate Public Relations and Reputation

Units: 3 Learn all aspects of corporate communications and reputation management through real-time news analysis, cases and senior guest speakers from the world's largest, most admired companies. Duplicates Credit in former JOUR 565 Instruction Mode: Lecture Grading Option: Letter

PR 566 Public Relations for Multicultural and Niche Audiences

Units: 2 Developing, managing and evaluating campaigns designed to reach audiences segmented by culture, lifestyle and other factors. Duplicates Credit in former JOUR 566 Instruction Mode: Lecture Grading Option: Letter

PR 568 Crisis Management in Strategic Public Relations

Units: 3 Focuses on theories, concepts and practices in risk assessment, issues monitoring, and crisis anticipation/management in a wide variety of organizational contexts, and from multiple perspectives. Duplicates Credit in former JOUR 568 Instruction Mode: Lecture Grading Option: Letter

PR 569 Ethics in Public Relations

Units: 3 Application of public relations principles to ethical conduct in a business, government agency, non-profit organization or consulting entity; emphasis on applicable cases and dialogue. Duplicates Credit in former JOUR 569 Instruction Mode: Lecture Grading Option: Letter

PR 583 Managing Communication in the Entertainment Industry

Units: 4 (Enroll in CMGT 543)

PR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

PR 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PR 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 597 Financial and Investor Communications

Units: 3 Provides a practical, working understanding of financial communications, concerned primarily with articulating a company's value. This applies to matters of corporate image and financial/investment environment. *Prerequisite:* PR 508 Registration Restriction: Open only to Public Relations and Strategic Public Relations majors Duplicates Credit in former JOUR 597 Instruction Mode: Lecture Grading Option: Letter

PR 598 Graduate Honors Seminar: Improvisational Leadership

Units: 3 Leadership workshop inspires stepping outside of comfort zones to be braver and more creative. Encourages discovery of leadership potential by exploring new ideas and challenges. Registration Restriction: Open only to Strategic Public Relations majors Instruction Mode: Lecture Grading Option: Letter

PR 599 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Terms Offered: FaSpSm Seminar in selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical Sciences**PSCI 501 Drugs: Principles of ADME and Bioavailability**

Units: 4 Terms Offered: Fa Principles of drug formulation, delivery, metabolism and transport; influence of physicochemical properties, physiology, and pharmacogenetics on these properties; drug-drug interactions; and pharmacokinetics. Instruction Mode: Lecture Grading Option: Letter

PSCI 502 Principles of Therapeutic Mechanisms

Units: 4 Terms Offered: Fa Principles of mechanisms of actions of common drug classes, medicinal chemistry, pharmacology, drug interactions with protein targets, biologics, drug targeting and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

PSCI 511 Drugs: Solubility, Dissolution and Absorption

Units: 2 Terms Offered: Fa Drug formulation based on physicochemical properties, ionization, solubility, rate of solution, partitioning; methods to improve these properties to enhance absorption. Instruction Mode: Lecture Grading Option: Letter

PSCI 512 Drugs: Metabolism and Transporters

Units: 2 Terms Offered: Sp Drug metabolism and transport, mechanism of CYP P450 enzymes, chemistry of metabolic pathways, prediction of metabolism, mechanism of drug uptake and efflux, drug-drug interactions. Instruction Mode: Lecture Grading Option: Letter

PSCI 513 Drugs: Biologics and Specialty Pharmaceuticals

Units: 2 Terms Offered: Sp Formulation and delivery of biologics, mechanism of action and use of biologics in major disease states, and value of specialty pharmaceuticals. Instruction Mode: Lecture Grading Option: Letter

PSCI 515 Drugs: Genetics and Pharmacogenetics

Units: 2 Terms Offered: Sp Drug-related genetics principles; pharmacogenetics influencing drug action, including individual responses to drugs based on SNPs; and genetic engineering and gene therapy. Instruction Mode: Lecture Grading Option: Letter

PSCI 516 Free Radical Biology in Health and Disease

Units: 2 Terms Offered: Fa Principles of free radical biochemistry and its effects on pathophysiology; redox regulation of cell signaling and transcriptional pathways. *Recommended Preparation:* Undergraduate course in Biochemistry or Molecular Biology or Cell Biology Instruction Mode: Lecture Grading Option: Letter

PSCI 531 Cell Biology

Units: 4 (Enroll in INTD 531)

PSCI 556 Principal Research Approaches and Scientific Writing

Units: 4 Terms Offered: Fa Familiarizes new graduate students with basic approaches used in biomedical research, with a focus on approaches in pharmaceutical, pharmacological and translational sciences. Provides an understanding of what to expect in the coming years as a graduate student doing biomedical research and in scientific writing. Instruction Mode: Lecture Grading Option: Letter

PSCI 557 Introduction to Tools and Techniques for Chemical Biology

Units: 2 Terms Offered: Sp Multidisciplinary science where the knowledge of chemistry is utilized to solve problems in biology, and biological systems are evolved to gain new functions. This course aims to establish a great opportunity for graduate students at the interface of biology and chemistry. *Recommended Preparation:* formal course work in chemistry and biochemistry. Instruction Mode: Lecture, Discussion Grading Option: Letter

PSCI 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PSCI 571 Biochemistry

Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PSCI 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 594a Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 594b Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 594z Master's Thesis

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 596 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Topics in advanced pharmaceutical sciences. Instruction Mode: Lecture Grading Option: Letter

PSCI 633 Free Radical Chemistry, Biology, and Medicine

Units: 4 Terms Offered: Fa (Enroll in GERO 666)

PSCI 655 Immunopharmaceutics

Units: 2, 2 years Terms Offered: Fa Lectures and discussion sessions on pharmaceutics-related immunology, including drugs affecting the immune system, antibodies and cytokines as drugs, and new developments in immunobiotechnology. Instruction Mode: Lecture Grading Option: Letter

PSCI 662 Advanced Pharmacokinetics/ Pharmacodynamics

Units: 2 Max Units: 4.0 Terms Offered: FaSp Principles of advanced pharmacokinetics/ pharmacodynamics. Mathematical description of drug disposition processes. Design and evaluation of pharmacokinetic/ pharmacodynamic studies. Advanced approaches to parameter estimates. Instruction Mode: Lecture Grading Option: Letter

PSCI 664 Drug Discovery and Design

Units: 4 Terms Offered: FaSpSm
Principles of drug discovery, design and characterization. Mechanisms of action of major classes of drugs. *Recommended Preparation:* college level chemistry and biology. Instruction Mode: Lecture Grading Option: Letter

PSCI 665 Drug Transport and Delivery

Units: 4 Terms Offered: Fa Principles of cellular drug transport, in vivo drug transport, and modern drug delivery, including drug targeting. *Recommended Preparation:* college level chemistry and biology. Instruction Mode: Lecture Grading Option: Letter

PSCI 667 Intracellular Drug Delivery and Targeting

Units: 2, 2 years Terms Offered: Sp
Mechanisms of membrane trafficking and intracellular transport and the utilization of these mechanisms in drug delivery and targeting. *Recommended Preparation:* college level chemistry and biology, INTD 531. Instruction Mode: Lecture Grading Option: Letter

PSCI 756a Seminar in Pharmaceutical Sciences

Units: 1 Terms Offered: FaSpSm Review of current pharmaceutical and related research topics. Instruction Mode: Lecture Grading Option: Letter

PSCI 756b Seminar in Pharmaceutical Sciences

Units: 1 Terms Offered: FaSpSm Review of current pharmaceutical and related research topics. Instruction Mode: Lecture Grading Option: Letter

PSCI 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 791L Research

Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max
Units: no max Directed research for the MS thesis or PhD dissertation.

PSCI 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Psychology**PSYC 100Lg Introduction to Psychology**

Units: 4 Terms Offered: FaSpSm
Introduction to psychological science, including historical and contemporary approaches. Behavior examined from biological, cognitive, social, developmental, and personality perspectives. Disorders and treatments. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 165Lg Drugs, Behavior and Society

Units: 4 Terms Offered: Irregular An integrative systems perspective of drugs; including their historical, economic, and cultural importance, psychopharmacology, addiction, relationship to crime, and therapeutic use in treating psychological disorders. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 201Lg The Science of Happiness

Units: 4 Evaluates scientific research on human happiness. Integrates research from psychology, economics, and neuroscience in the evaluation of personal and public policy choices. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 210gmw Social Analysis of Gender

Units: 4 Terms Offered: FaSp (Enroll in SWMS 210) Satisfies Global Perspective in Category G: Citizenship in a Diverse World

PSYC 240gx Scientific Inquiry and Reasoning in Health Care

Units: 4 Critical analysis and reasoning skills required to solve scientific problems in human behavior, including presentation of data, logic of research design, statistics, and research ethics. Satisfies New General Education in Category F: Quantitative Reasoning Credit Restriction: Not for major credit for Psychology majors Instruction Mode: Lecture Grading Option: Letter

PSYC 274Lg Statistics

Units: 4 Terms Offered: FaSpSm
Introduction to the use of statistics in psychology: basic ideas in measurement; frequency distributions; descriptive statistics; concepts and procedures in statistical inference. *Recommended Preparation:* PSYC 100. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 275Lg Language and Mind

Units: 4 Terms Offered: FaSp (Enroll in LING 275)

PSYC 290x Supervised Research in Psychology

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms

Offered: FaSpSm Supervised Research with department faculty. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 301L Cognitive Processes

Units: 4 Terms Offered: Irregular
Experimental and theoretical aspects of human memory, perception, thinking, and language. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 304L Sensation and Perception

Units: 4 Terms Offered: Irregular Receptor processes and stimulus organization; traditional topics in the perception of objects, space, time. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 305 Learning and Memory

Units: 4 Terms Offered: Irregular
Principles involved in classical and operant conditioning. Concentration on basic causes of behavior; consideration of the relevance of simple behavioral laws to complicated human behavior. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 314L Experimental Research Methods

Units: 4 Terms Offered: FaSpSm
Experimental research methods in psychology; nature and concepts of scientific method. *Prerequisite:* PSYC 100 and PSYC 274. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 316L Non-Experimental Research Methods

Units: 4 Terms Offered: FaSpSm Non-experimental research methods in psychology. Observational, survey and data analysis exercises. *Prerequisite:* PSYC 100 and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 320 Principles of Psychobiology

Units: 4 Terms Offered: Irregular The integrative study of bio-behavioral systems. Evolutionary, developmental, ecological, social, ethological, and physiological factors mediating representative behavioral and psychological phenomenon are examined in detail. *Prerequisite:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 326 Behavioral Neuroscience

Units: 4 Terms Offered: FaSp Neural bases of behavior. Concentration on sensory and motor processes and the interaction of neural, chemical, and hormonal systems. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 336L Developmental Psychology

Units: 4 Terms Offered: FaSp Child and adolescent behavior and associated theories; exploration of the continuity between child and adult behavior. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 337L Adult Development and Aging

Units: 4 Genetic, physical, and social influences during adult years on perception, learning and memory, intelligence, personality, social roles, and normal and

deviant behavioral patterns. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 339Lg Origins of the Mind

Units: 4 Terms Offered: Sp Exploration of ancient philosophical questions concerning the origins of human knowledge through empirical studies of infants, animals, and adults from diverse cultures. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 353g Close Relationships

Units: 4 Terms Offered: FaSp Scientific perspective of close relationships: intimate relationships, friendships and others, evolutionary and biological bases of attraction and love, historical, social, cultural influences. *Prerequisite:* PSYC 100. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PSYC 355 Social Psychology

Units: 4 Terms Offered: FaSp Theoretical and experimental analysis of human behavior. Social processes involved in attitudes, conformity, compliance, interpersonal perception, liking, affiliation, aggression, altruism, and group dynamics. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 360 Abnormal Psychology

Units: 4 Terms Offered: FaSp The commonly diagnosed behavior pathologies; biological, social, cultural, and developmental antecedents of abnormal behavior; principles of learning, perception, and motivation, as they relate to psychopathology. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 361 Introduction to Clinical Psychology

Units: 4 Terms Offered: Irregular Introduction to the scientist-practitioner model of clinical psychology, including research methods, psychological assessment and diagnosis, psychotherapeutic interventions, and treatment of special populations. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 363 Criminal Behavior

Units: 4 Genetic, biological, psychological, and sociological characteristics of those who evidence criminal behavior; theoretical formulations to be reviewed and appraised. *Prerequisite:* PSYC 100. Duplicates Credit in the former PSYC 463. Instruction Mode: Lecture Grading Option: Letter

PSYC 365 Introduction to Forensic Psychology

Units: 4 Terms Offered: FaSpSm Survey of current topics, technologies and techniques. Students acquire a basic understanding of how forensic psychologists contribute their unique expertise to the American legal system. *Prerequisite:* PSYC 100. Duplicates Credit in the former PSYC 465. Instruction Mode: Lecture Grading Option: Letter

PSYC 367g Stress, Health, and the Mind-Body Connection

Units: 4 Terms Offered: Fa Introduction to psychological, biological, and behavioral processes affecting physical health, including stress, coping with disease, health behaviors, and socioeconomic and cultural influences on health. *Prerequisite:* PSYC 100 Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PSYC 372 Human Sexuality

Units: 4 Psychological and physiological base of sexuality; gender identity, childbearing, birth control, venereal diseases; dysfunctions and treatments. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-372

PSYC 380 Junior Honors Seminar

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Advanced study of scientific inquiry in psychology with in-depth analysis of current research by faculty in the Psychology Department. Preparation for senior honors thesis research. *Corequisite:* PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PSYC 391 Directed Field Experience in Psychology

Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Individual field experience and independent study supervised by an on-site professional and USC faculty sponsor. *Prerequisite:* PSYC 100; *Recommended Preparation:* minimum of three courses completed in psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 404L Psychophysiology of Emotion

Units: 4 Terms Offered: Irregular Introduction to the scientific study of emotional behavior. Emphasizes research into relations between physiological and psychological variables underlying emotional experience. *Prerequisite:* PSYC 100, PSYC 274, and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 405 Child Language Acquisition

Units: 4 (Enroll in LING 405)

PSYC 406 Psycholinguistics

Units: 4 (Enroll in LING 406)

PSYC 407 Atypical Language

Units: 4 (Enroll in LING 407)

PSYC 412 Current Topics In Social Psychology

Units: 4 Terms Offered: Sp Extensive examination of select current research in social psychology, based on original research papers. Specific topics change by semester. *Prerequisite:* PSYC 274Lg and PSYC 314L Instruction Mode: Lecture Grading Option: Letter

PSYC 415L Psychological Measurement

Units: 4 Classical and modern approaches

to psychological measurement; scaling; test construction; true score reliability model; generalizability theory; validity; decision theoretic selection; item analysis; item response theory. *Prerequisite:* PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 418 Experimental Exploration into the Origins of Cognition

Units: 4 Exploration of the origins of cognition via the basics of experimental design, 3D computer modeling, data analysis, and scientific presentation. *Recommended Preparation:* PSYC 314 or background in experimental research. Instruction Mode: Lecture Grading Option: Letter

PSYC 420 Animal Behavior

Units: 4 Exploration of human nature through studies of nonhuman animals, including topics of navigation, culture, object representation, social cognition, music, and morality. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 421L Data Analysis for Psychological Research

Units: 4 Multivariate analysis emphasizing model estimation and testing; topics vary, e.g., multiple regression, logistic regression, factor analysis, multilevel linear modeling, structural equation modeling, multiway frequency analysis. *Prerequisite:* PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 422 Human Judgment and Decision Making

Units: 4 Descriptive and normative models of decision making; topics include probability judgments, inference, correlation, emotion, mental accounting, decision analysis, lens model, equity, social dilemmas, time, risk. *Prerequisite:* PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 423 User Experience

Units: 4 Terms Offered: FaSp (Enroll in MDA 423)

PSYC 424 Neuropsychology

Units: 4 Terms Offered: Irregular Effects of brain damage on human behavior and abilities, particularly language, memory, and emotion. *Prerequisite:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 422

PSYC 425 Functional Imaging of the Human Brain

Units: 4 Terms Offered: Irregular Introduction to the physical and physiological bases of Magnetic Resonance Imaging (MRI), and principles of functional MRI, safety, design and analysis of experiments, and operation. *Prerequisite:* PSYC 100Lg and PSYC 274Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 426 Motivated Behaviors and Addiction

Units: 4 Terms Offered: Other Social, environmental, and physiological influences on behaviors associated with aggression, eating, reproduction, and sleep. Will focus on behavioral disorders such as addiction. *Prerequisite:* PSYC 100 *Recommended*

Preparation: Junior or Senior Standing
Instruction Mode: Lecture Grading Option: Letter

PSYC 428 Advanced Psychobiology Seminar

Units: 4 Terms Offered: FaSp Topics in psychobiology, including brain mechanisms that provide for perception, motivation, and memory. Student led mini-lectures and discussion in seminar format. *Prerequisite:* PSYC 304L or PSYC 326 Instruction Mode: Lecture Grading Option: Letter

PSYC 430 Social Development of Infants, Children and Adolescents

Units: 4 An analysis of selected topics and issues in child social development. *Prerequisite:* PSYC 100; *Recommended Preparation:* PSYC 274, PSYC 314, PSYC 336. Instruction Mode: Lecture Grading Option: Letter

PSYC 433 Children's Learning and Cognitive Development

Units: 4 Principles of cognitive development, learning, and motivation applied to the development of literacy; includes tutoring a child two hours per week. *Prerequisite:* PSYC 336. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-433

PSYC 434 Intelligence, Problem Solving and Creativity

Units: 4 Psychometric and experimental approaches to the study of intelligence, problem solving, reasoning and creativity, including analysis of mental test construction and validity. *Prerequisite:* PSYC 100 and PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 437 Adolescent Development

Units: 4 Terms Offered: FaSp The adolescent years from both an applied and a research-oriented perspective. Topics include physical, cognitive, and moral development; socialization; and sexual and sex-role development. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 438 Behavioral Genetics

Units: 4 Terms Offered: Irregular Inheritance and evolution of behavioral characteristics in man and other species. *Prerequisite:* PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 440 Introduction to Cognitive Neuroscience

Units: 4 Terms Offered: Sp Introduction to the major components of cognition (perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-440

PSYC 450 Neural Network Models of Social and Cognitive Processes

Units: 4 Terms Offered: Irregular Introduction to using neural network or connectionist models to simulate cognitive, social, emotional and motivational processes; basic concepts and tools in computational neuroscience. *Prerequisite:* PSYC 100Lg *Recommended Preparation:* Basic

knowledge of programming is helpful, but not required Instruction Mode: Lecture Grading Option: Letter

PSYC 451 Formation and Change of Attitudes

Units: 4 Terms Offered: Irregular Effects of socialization, personal influence, propaganda and social structure on private attitudes and public opinion. *Prerequisite:* PSYC 100 and PSYC 355. Instruction Mode: Lecture Grading Option: Letter

PSYC 453 Intergroup Relations

Units: 4 Examination of the nature of relations between human groups and the psychological mechanisms relating to intergroup conflict, war, genocide, stereotyping, prejudice, and discrimination. *Prerequisite:* PSYC 355. Instruction Mode: Lecture Grading Option: Letter

PSYC 454 Social Cognition

Units: 4 Terms Offered: Irregular Theory and research on cognitive processes in social behavior, to include social inference, cognition and emotion, the Self, social categorization, person memory, and attribution processes. *Prerequisite:* PSYC 100; PSYC 355 recommended. Instruction Mode: Lecture Grading Option: Letter

PSYC 456 Conservation Psychology

Units: 4 Terms Offered: Fa Examination of theories, research, interventions regarding psychology of environmental sustainability including cognition, emotion, behavior, attitudes, persuasion, values, social identity, consumerism, and science of happiness. *Recommended Preparation:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 459 Industrial/Organizational Psychology

Units: 4 I/O Psychologists develop and apply scientifically supported solutions to the workplace. "Industrial" deals with human resource functions, and "Organizational" with psychological aspects of the organization. *Prerequisite:* PSYC 100 *Recommended Preparation:* PSYC 316 Instruction Mode: Lecture Grading Option: Letter

PSYC 462m Culture and Mental Health

Units: 4 Terms Offered: Irregular The influence of culture, ethnicity, race and gender on human behavior. Mental health issues relevant to ethnic minorities in the U.S. *Recommended Preparation:* sophomore standing or higher; PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 464 Psychology of Marriage and the Family

Units: 4 Theories and research on family relationships across the life span, including research methods, cultural and developmental perspectives, communication, conflict, attachment, individual psychopathology and family violence. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 469 Schizophrenia Research

Units: 4 Terms Offered: Irregular Current research on possible causes of schizophrenia. Topics: history, diagnosis, genetics, neural

development, obstetrics, psychosocial factors, brain imaging, psychopharmacology, premorbid signs and aging. *Prerequisite:* PSYC 100; *Recommended Preparation:* read current professional journals related to schizophrenia. Instruction Mode: Lecture Grading Option: Letter

PSYC 480x Senior Honors Seminar

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Advanced study of empirical approaches in psychology. Progress presentations and evaluations of Senior Honors Thesis research. In-depth exploration of issues in science. *Prerequisite:* senior standing in Psychology Undergraduates Honors Program. Instruction Mode: Lecture Grading Option: Letter

PSYC 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PSYC 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Selected topics in the various specialty areas within psychology. Topic will vary from semester to semester. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 500L An Overview of Quantitative Methods in Psychology

Units: 4 Team taught introduction to analysis of variance, regression analysis, multivariate measurement, and significance testing. Computer laboratory linked to class material using SAS, SPSS, and R. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 501L Classic and Modern Statistical Methods I

Units: 4 Terms Offered: Fa An introduction to classic statistical techniques as well as modern robust methods for dealing violations of standard assumptions. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 502 Classic and Modern Statistical Methods II

Units: 4 Terms Offered: Sp Classic and modern ANOVA, ANCOVA methods, multiple comparison procedures, basic multivariate methods, robust regression methods and basic methods for analyzing categorical data. *Prerequisite:* PSYC 501L Instruction Mode: Lecture, Lab Grading Option: Letter

PSYC 503L Regression and the General Linear Model

Units: 4 Terms Offered: Fa Multiple regression as a tool in experimental and non-experimental data; analysis of variance and covariance as regression on coded variables. Computer applications Laboratory exercises. *Prerequisite:* PSYC 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 504 Research Design

Units: 4 Terms Offered: Sp Intensive review of research methods in the behavioral sciences. Problem analysis, formulation of research propositions, and procedures

for research inference. Instruction Mode: Lecture Grading Option: Letter

PSYC 505 Research Methods in Applied Social Psychology

Units: 4 Terms Offered: FaSpSm Various research techniques that are useful in a variety of different real world settings, such as business, governmental agencies and charities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 506 Learning and Cognition

Units: 4 Terms Offered: Irregular Survey of learning theory and research, including conditioning and information-processing approaches with human and animal subjects. Instruction Mode: Lecture Grading Option: Letter

PSYC 508 Historical Foundations of Psychology

Units: 4 Terms Offered: Irregular History of psychology: clinical, cognitive, developmental, experimental, quantitative, and social; epistemology and philosophy of science as applied to psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 512 Seminar in Social Psychology

Units: 4 Terms Offered: Fa Problems and theories of the person in the social context. Person perception, interpersonal relations, attitude dynamics, social systems. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-601

PSYC 513 Attitudes and Social Influence

Units: 4 Terms Offered: FaSpSm Current theories of attitudes and behavior, measurement, attitudes as predictors of behaviors, effects on changing attitudes and behavior. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 514 Psychopathology

Units: 4 Terms Offered: Fa Study of psychopathology: in-depth survey of theory and research concerning psychological disorders; introduction of diagnosis. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 515 Clinical Assessment

Units: 4 Terms Offered: Fa Study of clinical assessment: test construction, measurement and prediction of behavior, major cognitive and personality assessment instruments. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 517 Group Dynamics and Leadership

Units: 4 Terms Offered: FaSpSm Theory and research on effective teams and characteristics of strong leaders. Negotiation, morale-building, managing expectancies, utilization of cultural diversity as a strength. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 520 Fundamentals of Psychological Measurement

Units: 4 Factor analysis; latent variable; scaling; test construction; classical true score reliability model; generalizability theory; validity; decision theoretic approaches to selection; item analysis; item response theory. Instruction Mode: Lecture Grading Option: Letter

PSYC 521 Cross Cultural Psychology in Applied Settings

Units: 4 Terms Offered: FaSpSm Examination of major theoretical frameworks mapping worldwide cultures and values with a focus on applying that knowledge in organizations. Registration Restriction: Open only to students in Applied Psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 523 User Experience (UX) Research

Units: 4 Terms Offered: FaSpSm Provides a broad introduction to the social science methods UX researchers most commonly use, including qualitative approaches, and quantitative approaches. Registration Restriction: Open only to master students. Instruction Mode: Lecture Grading Option: Letter

PSYC 524 Research Design in Developmental Psychology

Units: 4 Terms Offered: Irregular Review and practice in the analysis and design of experimental and quasiexperimental paradigms for research on ontogenetic age changes and generational differences in behavior. Instruction Mode: Lecture Grading Option: Letter

PSYC 530 Concepts and Principles of Behavior Analysis

Units: 3 Terms Offered: Fa Provides intensive training in behavioral principles and laws of learning and motivation. Focuses on broad application of principles, from basic research with nonhumans, to application across human clinical populations. Instruction Mode: Lecture Grading Option: Letter

PSYC 531 Behavioral Assessment

Units: 3 Terms Offered: Fa Studies theory and application of behavioral methods for skill assessment, functional assessment of destructive behavior, and learner motivation. Discusses relative strengths and limitations of direct versus indirect methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 532 Ethics for Behavior Analysts

Units: 3 Terms Offered: Fa Provides training in legal and ethical issues as they pertain to the professional practice of behavior analysis. Reviews the Guidelines for Responsible Conduct for Behavior Analysts, as well as the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Instruction Mode: Lecture Grading Option: Letter

PSYC 533 Cognitive Development in Children

Units: 4 Terms Offered: Sp Review of theories of cognitive development. Analysis of research on brain functioning, perception, memory, language, reasoning and academic

skills from birth to adolescence. Instruction Mode: Lecture Grading Option: Letter

PSYC 534 Social and Emotional Development in Children

Units: 4 Terms Offered: Fa Theories of social and emotional development, including sociocultural perspectives. Analysis of research on temperament, social relationships, individuation and moral development from birth to adolescence. Instruction Mode: Lecture Grading Option: Letter

PSYC 535 Research Methods in Behavior Analysis

Units: 3 Terms Offered: Sp Survey of methods for measuring behavior. Examines theoretical background for single subject research methods, practical application of research methods to treatment evaluation, and analyzes strengths and limitations of single subject research methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 536 Behavioral Interventions

Units: 3 Terms Offered: Sp Examines empirically supported behavioral interventions across a range of socially relevant behavioral excesses, skill deficits, disorders, and age ranges. Focuses on least-intrusive, person-centered approaches. Instruction Mode: Lecture Grading Option: Letter

PSYC 537 Behavioral Supervision

Units: 2 Terms Offered: Fa Analyzes evidence-based approaches to designing behavior change systems at the individual, family, group, and organizational levels. Examines family and systems variables that affect the likelihood of initial and continued success of interventions. *Prerequisite:* PSYC 530 and PSYC 536 Instruction Mode: Lecture Grading Option: Letter

PSYC 538 Origins of Human Nature

Units: 4 Exploration of the evolutionary and developmental origins of human nature. Topics include navigation, object and number cognition, culture, sexual behavior, cooperation, language, and morality. Instruction Mode: Lecture Grading Option: Letter

PSYC 539 Behavioral Approaches to Skill Acquisition

Units: 2 Terms Offered: Fa Examines contemporary research on behavioral procedures for teaching complex skills to individuals of a variety ages and populations, including language, social, cognitive, vocational, and independent living skills. Instruction Mode: Lecture Grading Option: Letter

PSYC 540 Cognitive Neuroscience

Units: 4 Terms Offered: Sp An examination of the major components of cognition (e.g., perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NSCI 533

PSYC 544 Psychophysiology

Units: 4 Max Units: 8.0 Terms Offered: Irregular Recent research on relations between basic psychological states

(e.g., cognition, learning, emotion) and physiological response processes (e.g., autonomic responses, covert muscle activity). Instruction Mode: Lecture Grading Option: Letter

PSYC 545 Neuropsychology

Units: 4 Terms Offered: Irregular Brain mechanisms underlying perceptual and cognitive functioning: brain damage, loss of function, and clinical assessment. Instruction Mode: Lecture Grading Option: Letter

PSYC 547 Functional Neuroanatomy

Units: 4 Terms Offered: Irregular Regional organization and systems of the mammalian nervous system and their functions. Instruction Mode: Lecture Grading Option: Letter

PSYC 550a Proseminar in Human Behavior

Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 550b Proseminar in Human Behavior

Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 551 Decision Neuroscience

Units: 4 Neuroscientific studies attempting to understand the neural basis of judgment and decision-making, social behavior, and market economies. *Recommended Preparation:* PSYC 547. Instruction Mode: Lecture Grading Option: Letter

PSYC 552 Principles of Consumer Psychology

Units: 4 Examination of the attitudes and decisions of consumers, and how to effectively reach consumers by using persuasion and proper positioning in the marketplace. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 555 Introduction to Functional Magnetic Resonance Imaging

Units: 4 Terms Offered: FaSp The physical and physiological bases of MRI and fMRI. Design and analysis of fMRI experiments. Operation of a magnetic resonance imaging system. Instruction Mode: Lecture Grading Option: Letter

PSYC 556 Psychology of Interactive Media

Units: 4 Examination of the diverse methods of communicating with a target audience with a special emphasis on the newest computer-based tools for providing information and influence. Registration

Restriction: Open only to Applied Psychology (MS) students Instruction Mode: Lecture Grading Option: Letter

PSYC 565x Organizational Psychology

Units: 4 Terms Offered: FaSpSm Examination of the psychological factors that impact employee motivation, job satisfaction, teamwork, leadership, and organizational development. Registration Restriction: Open only to Master of Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 566 The Psychology of Employee Selection and Assessment

Units: 4 Terms Offered: FaSpSm Develop an understanding of recruitment and selection practices, processes, and approaches into the strategic role that recruitment and selection plays in organizational success. *Prerequisite:* PSYC 565x Registration Restriction: Open only to graduate Applied Psychology students Instruction Mode: Lecture Grading Option: Letter

PSYC 575L Multivariate Analysis of Behavioral Data

Units: 4 Terms Offered: Irregular Multivariate statistical models and contemporary computer methods in multiple regression, multivariate analysis of variance, factor analysis, canonical correlation, repeated measures analysis, and structural equation modeling. *Prerequisite:* PSYC 500. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 576 Psycholinguistics

Units: 3 Terms Offered: Fa (Enroll in LING 576)

PSYC 577 Analysis of Covariance Structures

Units: 4 Terms Offered: Irregular Multivariate analysis of non-experimental data, including structural equation modeling, path analysis, and confirmatory factor analysis. Computer applications using variety of optimization routines and purpose-written software. *Prerequisite:* PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 578 Workshop in Quantitative Methods

Units: 4 Max Units: 8.0 Practical, hands-on experience in the application of selected quantitative methods to empirical data. Includes training in use of relevant computer software. *Prerequisite:* PSYC 501 and either PSYC 502 or PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 586 Advanced Psycholinguistics

Units: 3 Max Units: max 9 (Enroll in LING 586)

PSYC 587 Practicum in Applied Behavior Analysis

Units: 2 Max Units: 10 Terms Offered: FaSpSm Provides supervised practical experience in implementing behavior analytic assessment and treatment services. Meets supervision requirements for the Board Certified Behavior Analyst exam. Students meet with course instructor to present and discuss cases for two hours per week every semester, including one summer

session. Practicum hours in the field vary from 18-20 hours per week during the academic year to 30 hours per week during the summer. Instruction Mode: Lecture Grading Option: Letter

PSYC 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 591 Applied Psychology Internship

Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Internship in a non-university setting, such as business, governmental agency, or NGO. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 592 Applied Psychology Treatise

Units: 2 Terms Offered: FaSpSm Requires a research paper of substantial length and high quality that integrates the Internship experience with concepts and principles of human behavior. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: FaSp (Enroll in MDA 593) Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 594a Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594b Master's Thesis

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594z Master's Thesis

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 595 Practicum in Clinical Psychology

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Supervised experience in interviewing skills and assessment, including psychological test administration and the preparation of reports. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 596 Advanced Behavioral Theory

Units: 3 Terms Offered: Sp Examines advanced topics in behavioral theory and philosophy, including a comprehensive behavioral approach to language and cognition. Discusses the nature of productive relations between behavior analysis and other psychological theories. *Prerequisite:* PSYC 530 Instruction Mode: Lecture Grading Option: Letter

PSYC 597 Internship for Curricular Practical Training

Units: 1, 2, 3 Max Units: 03 Terms Offered:

FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least two semesters of enrollment in the graduate program. Registration Restriction: Open only to Psychology graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 597a Capstone Project in Behavior Analysis

Units: 2 Terms Offered: FaSp Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 597b Capstone Project in Behavior Analysis

Units: 2 Terms Offered: FaSp Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics in the various speciality areas within psychology at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

PSYC 602 Self-concept and Motivation

Units: 4 Graduate-level depth-and-breadth course using a social psychological perspective on self-concept. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-602

PSYC 612 Seminar in Advanced Social Psychology

Units: 4 Terms Offered: Irregular An intensive consideration of selected concepts, theories, and research problems in social psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 616 Research Techniques for Non-Experimental Social Science

Units: 4 Terms Offered: Irregular Quasiexperimental designs; causal inference from correlational research, techniques for evaluating measures of attitude, personality, and social motives: observational methods; content analysis; sampling and survey techniques. Instruction Mode: Lecture Grading Option: Letter

PSYC 619 Psychological Intervention

Units: 4 Terms Offered: Sp Study of clinical psychological treatment: research and theory about major psychological approaches to intervention. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 621 Seminar in Quantitative Psychology

Units: 4 Max Units: 12.0 Terms Offered: Irregular Selected topics in mathematical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 622 Decision Analysis and Behavioral Decision Theory

Units: 4 Terms Offered: Irregular Normative

and descriptive theories and research on human decision-making, with special emphasis on applications to real social decision problems. Instruction Mode: Lecture Grading Option: Letter

PSYC 625 Advanced Big Data Methods

Units: 4 Machine learning techniques, including Bayesian and Neural Networks, for analyzing different types of human-generated data. *Recommended Preparation:* PSYC 501. Instruction Mode: Lecture Grading Option: Letter

PSYC 626 Computational Social Sciences

Units: 4 Discussion of advances in computational social sciences, including automated text and network analysis. *Recommended Preparation:* PSYC 625. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-626

PSYC 660 Seminar in Clinical Psychology

Units: 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in clinical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 663 Computational and Cognitive Neuroscience

Units: 4 (Enroll in CSCI 663)

PSYC 676 Seminar in Psycholinguistics

Units: 3 Max Units: max 12 (Enroll in LING 676)

PSYC 691a Internship in Clinical Psychology

Units: 0 Terms Offered: FaSp Supervised clinical work in an approved mental health setting. *Prerequisite:* good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 691b Internship in Clinical Psychology

Units: 0 Terms Offered: FaSp Supervised clinical work in an approved mental health setting. *Prerequisite:* good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 695 Advanced Practicum in Clinical Psychology

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Didactic practicum combining theory and research on psychological intervention with clinical practice in assessment and treatment, focused on particular client groups or disorders. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on

acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Physical Therapy

PT 509 Cellular and Systems Physiology

Units: 3 Terms Offered: Fa Selected subjects in cellular and systems physiology. Emphasis on molecular and cellular aspects of neuromuscular function; also renal and endocrine physiology. Instruction Mode: Lecture Grading Option: Letter

PT 514L Musculoskeletal Anatomy

Units: 4 Terms Offered: Fa Musculoskeletal anatomy, innervation, blood supply, and function: intensive study of the head, neck, trunk, and limbs. Lecture, dissection laboratory. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 516 Principles of Disease

Units: 1 Terms Offered: Sm Principles and mechanisms of genetics, immunology, infection, wound healing, and oncology. Instruction Mode: Lecture Grading Option: Letter

PT 521L Basics of Patient Management

Units: 4 Terms Offered: Fa Development of basic decision-making skills, professional behaviors and impairment assessment in patients with musculoskeletal neurologic and/or cardiopulmonary dysfunction. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 529 Life Span Motor Control

Units: 2 Terms Offered: Sm Introduction to sensorimotor systems, overview of current perspectives in motor control from fetus through late adulthood, and clinical tests of motor proficiency. Instruction Mode: Lecture Grading Option: Letter

PT 530a Therapeutic Exercise

Units: 2 Terms Offered: Sp Theoretical and practical principles for evaluation of exercise need and prescription of exercise programs. Emphasis on approaches for patients with musculoskeletal deficits. Duplicates Credit in former PT 530. Instruction Mode: Lecture Grading Option: Letter

PT 530b Therapeutic Exercise

Units: 2 Terms Offered: Sm Examination of needs analysis and prescription of exercise programs for special patient populations and assessment of current community trends in exercise and wellness. Duplicates Credit in former PT 530. Instruction Mode: Lecture Grading Option: Letter

PT 534L Neuroanatomy

Units: 3 Terms Offered: Fa Organized approach to structures in the brain, spinal cord and peripheral nervous systems that subserve motor, sensory, and integrative functions, memory, cognitive and special senses. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 536 Pathology of Cardiopulmonary Disease and General Medical Conditions

Units: 3 Terms Offered: Fa Pathology and pathophysiological mechanisms in disease of the cardiac, pulmonary and circulatory systems; examination of diabetes, burns, and other disabling medical disorders. *Prerequisite:* PT 509, PT 514, PT 516, PT 621, PT 529. Instruction Mode: Lecture Grading Option: Letter

PT 539 Clinical Pharmacology

Units: 1 Terms Offered: Fa Effects of commonly used drugs in patients with physical disability; side effects that alter physical performance or responses to exercise. Instruction Mode: Lecture Grading Option: Letter

PT 546 Neuropathology

Units: 3 Terms Offered: Sp Pathology in the central and peripheral nervous systems that alter motor and sensory performance. Emphasis on loss of motion, excessive and involuntary movement disorders. *Prerequisite:* PT 516, PT 534. Instruction Mode: Lecture Grading Option: Letter

PT 549L Clinical Exercise Physiology

Units: 4 Terms Offered: Fa Adaptation of the human body to exercise and the use of exercise to modify human function. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 551L Therapeutic Application of Physical Agents

Units: 3 Terms Offered: Sm Physiologic responses to the application of thermal, mechanical, electromagnetic and hydrodynamic therapeutic procedures. Evaluation procedures and intervention planning. *Prerequisite:* PT 521L Instruction Mode: Lecture, Lab Grading Option: Letter

PT 554L Analytical Anatomy

Units: 3 Terms Offered: Sp Detailed kinesiological analysis of axial, spine, head, neck, face and bulbar muscles. *Prerequisite:* PT 514. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 561a Evidence for Physical Therapist Practice

Units: 2 Introduction to a patient-centered Evidence Based Practice model with emphasis on professional communication skills, ethics, professional guidelines, laws and regulations. Instruction Mode: Lecture Grading Option: Letter

PT 561b Evidence for Physical Therapist Practice

Units: 2 Introduction to acquiring, appraising and integrating research evidence. Instruction Mode: Lecture Grading Option: Letter

PT 561c Evidence for Physical Therapist Practice

Units: 2 Advanced critical analysis and application of research of evidence.

Instruction Mode: Lecture Grading Option: Letter

PT 561d Evidence for Physical Therapist Practice

Units: 2 Advanced integration of patient values as influenced by culture, ethnicity, lifestyles, gender, and age into patient-centered clinical decision making. Instruction Mode: Lecture Grading Option: Letter

PT 561e Evidence for Physical Therapist Practice

Units: 2 Analysis of the integration of physical therapist practice into the national health care system; administration, budgeting and reimbursement for physical therapist services. Instruction Mode: Lecture Grading Option: Letter

PT 566 Disorders of the Musculoskeletal System

Units: 3 Terms Offered: Sp Regional description of pathology and pathophysiological mechanisms of disorders of bone, connective tissue, and joints. Lecture, demonstration. Instruction Mode: Lecture Grading Option: Letter

PT 569 Fundamentals of Neuroscience

Units: 4 Terms Offered: Sp Detailed analysis of neurophysiologic mechanisms underlying normal and abnormal motor and sensory function. *Prerequisite:* PT 509, PT 516, PT 529, PT 534. Instruction Mode: Lecture Grading Option: Letter

PT 571L Clinical Management of Cardiopulmonary Dysfunction

Units: 4 Terms Offered: Fa Physical therapy evaluation and intervention in the care of patients with circulatory, cardiac, or pulmonary dysfunction. Lecture, case presentations, laboratory. *Prerequisite:* PT 521. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 574 Clinical Biomechanics

Units: 3 Terms Offered: Sp Introduction to the principles of biomechanics (statics, dynamics) as they apply to physical therapy practice. Emphasis on tissue mechanics, joint function and gait. *Prerequisite:* PT 554. Instruction Mode: Lecture Grading Option: Letter

PT 581L Clinical Management of the Patient with Neurological Dysfunction

Units: 5 Terms Offered: Sp Physical therapy theory and methods for intervention in neurological dysfunction. *Prerequisite:* PT 509, PT 516, PT 521, PT 529, PT 534. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 582 Mechanics of Human Gait

Units: 2 Terms Offered: Fa Introduction to both normal and pathological gait. Emphasis on the basic components of abnormal ambulation including temporal-spatial factors, joint motion, kinetics, kinematics, and muscle activity. Instruction Mode: Lecture Grading Option: Letter

PT 583L Clinical Electrophysiology

Units: 1 Terms Offered: Sp Use of electrical currents to evaluate and treat musculoskeletal, neurological and wound disorders. Theory and practice. *Prerequisite:* PT 514L and PT 554L Instruction Mode:

Lecture, Lab Required Grading Option: Letter

PT 599 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Selected topics in Physical Therapy. Instruction Mode: Lecture Grading Option: Letter

PT 600a Clinical Experience

Units: 1 Terms Offered: FaSpSm Practical experience in two- or six-week physical therapy manual skills, decision making and professional behaviors. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600b Clinical Experience

Units: 3 Terms Offered: FaSpSm Practical experience in six-week physical therapy manual skills, decision making, and professional behaviors. *Prerequisite:* PT 600a Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600c Clinical Experience

Units: 1 Terms Offered: FaSpSm Practical experience in two-week physical therapy psychomotor skills, decision making and professional behaviors. *Prerequisite:* PT 600b Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600d Clinical Clerkship

Units: 4 Terms Offered: FaSpSm Practical experience in eight week physical therapy psychomotor skills, decision making and professional behaviors. *Prerequisite:* PT 600c Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600z Clinical Clerkship

Units: 0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 606 Clinical Imaging

Units: 2 Terms Offered: Sp Elements of reading roentgenographs, CAT and MRI scans for the physical therapist. Lecture, demonstration, practical experience. Instruction Mode: Lecture Grading Option: Letter

PT 621L Clinical Management of the Patient with Musculoskeletal Dysfunction

Units: 5 Terms Offered: Sp Physical therapy theory and methods of evaluation and treatment of orthopedic dysfunction. *Prerequisite:* PT 514, PT 521. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 625 Emerging Topics in Physical Therapy

Units: 3 Terms Offered: FaSpSm Familiarize the developing PT with emerging research, technology and skills that show promise in preparation for advances in patient management. *Corequisite:* PT 561e and PT 650 Instruction Mode: Lecture Grading Option: Letter

PT 630 Integrated Patient Management Clinical Skills

Units: 6 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists. *Corequisite:* PT 632 Duplicates Credit in former PT 631 Instruction Mode: Lecture Grading Option: Letter

PT 632 Integrated Patient Management Seminar

Units: 5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal, cardiopulmonary and/or neurologic disorders. *Prerequisite:* PT 571, PT 581, PT 621. Instruction Mode: Lecture Grading Option: Letter

PT 650 Differential Diagnosis in Physical Therapy

Units: 2 Terms Offered: Sm Consideration of principle of differential diagnosis with emphasis on mastering this skill. *Recommended Preparation:* completion of years 1 and 2. Instruction Mode: Lecture Grading Option: Letter

PT 660 Advanced Clinical Experience with Academic Integration

Units: 5 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 24 hours per week in a part-time setting. Emphasis on the care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 665 Advanced Clinical Experience

Units: 8 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 36 hours per week in a full-time setting. Emphasis on care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

Petroleum Engineering**PTE 202x Energy and Society**

Units: 4 Terms Offered: Irregular Study of the impact of the development, production, and global distribution of energy on societal, political, and economic behavior. Not available for major credit to engineering majors. *Prerequisite:* pass Math Skill Level. Instruction Mode: Lecture Grading Option: Letter

PTE 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PTE 411 Introduction to Transport Processes in Porous Media

Units: 3 Terms Offered: Fa Properties of porous rocks; capillarity effect, single-phase and multiphase fluid flow through porous media; diffusion and dispersion, miscible displacement heat transfer. Lecture, 3 hours. Not available for credit to Petroleum Engineering majors. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg) and (CE 309 and MATH 245 and PHYS 151Lg) Instruction Mode: Lecture Grading Option: Letter

PTE 412x Petroleum Reservoir Engineering

Units: 3 Terms Offered: Fa Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. Instruction Mode: Lecture Grading Option: Letter

PTE 461 Formation Data Sensing with Well Logs

Units: 4 Terms Offered: Fa Measurement theory and petroleum/geothermal applications of electrical, radioactive, acoustic, and production logging tools. Estimation of rock porosity, water saturation, permeability, shale content, gas flow rate. *Recommended Preparation:* Mechanics of materials, fundamentals of physics on the level of PHYS 152L and PHYS 408b Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 461, AME 461

PTE 462 Economic, Risk and Formation Productivity Analysis

Units: 4 Terms Offered: Sp Principle of economic evaluation, risk analysis, reserves estimation, decline curves, energy prices, and well transients for flow prediction. *Prerequisite:* PTE 461. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-462, ME-462, AME-462

PTE 463L Introduction to Transport Processes in Porous Media

Units: 4 Terms Offered: Fa Fundamentals of flow and transport in porous materials including: Properties of porous rocks, capillarity effect, single- and multiphase flow, diffusion and dispersion in miscible displacements. *Prerequisite:* MATH 245 and PHYS 151Lg and (CHEM 105aLg or CHEM 115aLg) Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 463, AME 463

PTE 464L Petroleum Reservoir Engineering

Units: 3 Terms Offered: Sp Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. *Prerequisite:* PTE 463. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE-464, AME-464

PTE 465L Drilling Technology and Subsurface Methods

Units: 3 Terms Offered: Fa Theory and practice in drilling technology; mechanical properties of reservoir rocks; well completion; acidizing and fracturing, oil production technology. *Prerequisite:* PTE 464. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME-465, CHE-465

PTE 466 Petroleum Geology

Units: 3 Terms Offered: Sm Introductory topics of physical and historical geology will be focused on the components that relate to the formation of oil and gas accumulations. Instruction Mode: Lecture Grading Option: Letter

PTE 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

PTE 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in petroleum engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

PTE 500 Computational Reservoir Modeling

Units: 3 Terms Offered: Fa Introduction to mathematical and computational methods in characterizing, modeling, and describing the subsurface flow and transport phenomena. *Recommended Preparation:* Familiarity with basic calculus, differential equation, and MATLAB programming. Registration Restriction: Open only to Engineering students. Instruction Mode: Lecture Grading Option: Letter

PTE 502 Advanced Reservoir Characterization

Units: 3 Terms Offered: Irregular Sources of data for reservoir characterization; cross-disciplinary integration; geologic models; sequence stratigraphic, lithologic, well test and geophysical models; 4-D seismic; compartmentalized and fractured reservoirs; error and risk analysis. *Prerequisite:* PTE 411, PTE 461. Instruction Mode: Lecture Grading Option: Letter

PTE 503 Technology of Unconventional Oil and Gas Resources Development

Units: 3 Terms Offered: Fa Geology of unconventional resources, exploration, development, laboratory testing, drilling, formation evaluation, design and monitoring of hydraulic fracturing, forecasting, technology of oil sand and environmental issues. *Recommended Preparation:* PTE 507, graduate standing in petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 504 Geophysics for Petroleum Engineers

Units: 3 Terms Offered: Sm Geosciences concepts and technologies with applications in petroleum engineering: 2D-3D-4D seismic, borehole geophysics, passive seismic, controlled source electromagnetics, geophysical and geological modeling and inversion. *Recommended Preparation:* familiarity with Matlab. Instruction Mode: Lecture Grading Option: Letter

PTE 505 Inverse Modeling for Dynamic Data Integration

Units: 3 Terms Offered: Sp Introduction to fundamentals of deterministic and stochastic inverse modeling, integration of dynamic data into predictive reservoir models, reservoir parameterization, derivation of adjoint models. *Recommended Preparation:* PTE 508, basic knowledge of calculus, linear algebra and probability/statistics. Instruction Mode: Lecture Grading Option: Letter

PTE 506 Geothermal Reservoirs

Units: 3 Terms Offered: Fa Geothermal reservoirs, heat and mass flow in fracture network, enhanced geothermal systems (EGS), exploration methods, exploitation of hydrothermal and EGS fields, stimulation, forecasting, power generation. *Recommended Preparation:* familiarity with Matlab. Registration Restriction: Open only to Engineering and Geological Sciences students. Instruction Mode: Lecture Grading Option: Letter

PTE 507 Engineering and Economic Evaluation of Subsurface Reservoirs

Units: 3 Terms Offered: Fa Studies, data and

methods for estimating size of underground fluid deposits for predicting physical and economic behavior of designed flow schemes, and for quantifying uncertainty. *Prerequisite:* PTE 464. *Instruction Mode:* Lecture Grading Option: Letter

PTE 508 Numerical Simulation of Subsurface Flow and Transport Processes
Units: 3 Terms Offered: Sp Formulation and solution of the equations describing the underground flow of fluids through porous media. Includes mass (contaminant) transport in single and multiphase flow. *Recommended Preparation:* PTE 507. *Instruction Mode:* Lecture Grading Option: Letter

PTE 511 Advanced Phase Behavior of Petroleum Reservoir Fluids
Units: 3 Terms Offered: Irregular From classical thermodynamics to engineering application; equations of state based calculations; PVT experiments; reservoir fluid characterization; PT-flash calculations and stability analysis; compositional grading; transport properties. *Recommended Preparation:* CHE 330, MATH 226. *Instruction Mode:* Lecture Grading Option: Letter

PTE 512 Gas Injection Processes — Analytical Solutions and Analysis
Units: 3 Terms Offered: Fa Gas injection and enhanced oil/gas recovery; conservation equations; flow and phase behavior; displacement efficiency; dispersion; method of characteristics; development of multicontact miscibility in multicomponent systems. *Recommended Preparation:* CHE 330, MATH 226 and MATH 245 (or similar). *Instruction Mode:* Lecture Grading Option: Letter

PTE 514 Drilling Engineering
Units: 3 Terms Offered: Sp Graduate level course on drilling engineering with an emphasis on field design and applications. Topics covered include well planning; rock mechanics; rotary drilling processes; drilling rig components; drill string and bottom hole assemblies; well hydraulics and drilling muds; casing design and cementing; directional drilling; offshore drilling and drilling economics. *Registration Restriction:* Open only to Engineering graduate students *Instruction Mode:* Lecture Grading Option: Letter

PTE 515 Natural Gas Engineering
Units: 3 Terms Offered: Sp Characterization, development and prediction of natural gas reservoirs, including natural gas surface production equipment and systems, forecasting natural gas well and reservoir performance and current LNG developments *Prerequisite:* PTE 411 and PTE 412x *Recommended Preparation:* Good handle of Excel, running VBA apps, programming macros and Matlab programming; concurrent enrollment in a computer programming class would be helpful *Registration Restriction:* Open only to graduate students *Instruction Mode:* Lecture Grading Option: Letter

PTE 517 Testing of Wells and Aquifers
Units: 3 Terms Offered: Sp Principles of well testing; down hole device; Aquifer tests; slug tests; DST; pressure transient modeling

in homogeneous and heterogeneous systems; parameter estimation; computer aided techniques. *Prerequisite:* PTE 464. *Instruction Mode:* Lecture Grading Option: Letter

PTE 519 Integrated Physical and Cyber Security for Oil and Gas Operations
Units: 3 Terms Offered: Fa Infrastructure Security, Resilience and Management of Digital Oil Fields, Process Control Networks in exploration and production, refining and chemical plants, Asset Integrity principles, case histories. *Registration Restriction:* Open only to graduate students. *Instruction Mode:* Lecture Grading Option: Letter

PTE 520 Mathematical Methods for Deep Learning
Units: 4 Terms Offered: Sp (Enroll in MASC 520)

PTE 531 Enhanced Oil and Gas Recovery
Units: 4 Terms Offered: Sm Enhanced recovery from conventional and unconventional hydrocarbon resources including: Water, surfactant and polymer processes, miscible gas and WAG displacements, and thermal recovery processes. *Prerequisite:* PTE 500 and PTE 582 *Registration Restriction:* Open only to graduate students *Instruction Mode:* Lecture, Discussion Grading Option: Letter

PTE 542 Carbonate Rocks
Units: 3 Terms Offered: Fa Classification; porosity development; source rocks; wettability; capillary pressure curves; compressibility; surface areas; relative permeabilities; various petrophysical properties; formation evaluation; overpressures; thin section analysis. *Recommended Preparation:* Basic familiarity with linear algebra and general reservoir engineering *Registration Restriction:* Open only to graduate Engineering students *Instruction Mode:* Lecture Grading Option: Letter

PTE 545 Corrosion Control in Petroleum Production
Units: 3 Terms Offered: Sp Types of corrosion encountered in petroleum production; methods for practical control including use of inhibitors, coatings, and cathodic protection. *Prerequisite:* CHEM 430 or CHEM 430a *Registration Restriction:* Open only to graduate students in Engineering *Instruction Mode:* Lecture Grading Option: Letter

PTE 555 Well Completion, Stimulation, and Damage Control
Units: 3 Terms Offered: Sm This course reviews current practices related to well completion methods, wellbore stimulation, and damage control. Formation damage prevention and stimulation methods are emphasized. *Prerequisite:* graduate standing. *Instruction Mode:* Lecture Grading Option: Letter

PTE 572L Applied Geostatistical Modeling for Subsurface Characterization
Units: 4 Terms Offered: Sp Introduction to conventional and modern geostatistical estimation and simulation techniques, combining theory with hands-on computer application of geostatistical methods

in modeling the spatial phenomena. *Recommended Preparation:* Basic knowledge and familiarity with general calculus, linear algebra, and probability *Registration Restriction:* Open only to graduate students *Instruction Mode:* Lecture, Lab Required Grading Option: Letter

PTE 574 Optimization Methods for Subsurface Energy Resources Development
Units: 3 Terms Offered: Sp Optimization algorithms for oilfield development, including well control optimization, well placement, open-loop and closed-loop model predictive control, and robust optimization. *Prerequisite:* PTE 500; *Recommended Preparation:* Familiarity with linear algebra, vector calculus, general reservoir engineering and MATLAB programming language. *Registration Restriction:* Open only to Engineering graduate students. *Instruction Mode:* Lecture Grading Option: Letter

PTE 578 Advanced Production Engineering
Units: 3 Terms Offered: Sp Principles of onshore and offshore oil well & gas well production; design of artificial lift systems and surface operations; field problems of enhanced oil recovery operations. *Registration Restriction:* Open only to graduate students in the School of Engineering. *Instruction Mode:* Lecture Grading Option: Letter

PTE 581 Environmental Technology in the Petroleum Industry
Units: 3 Terms Offered: Irregular This course examines engineering and scientific principles necessary for understanding, assessing, and remediating environmental problems in the petroleum industry including drilling, production, transportation and refining operations. Graduate standing. *Instruction Mode:* Lecture Grading Option: Letter

PTE 582 Fluid Flow and Transport Processes in Porous Media
Units: 3, 2 years Terms Offered: Fa Principles of single and multiphase flow through porous media; mechanisms of immiscible and miscible displacement; momentum, heat and mass transport in porous media. *Instruction Mode:* Lecture Grading Option: Letter

PTE 586 Intelligent and Collaborative Oilfield Systems Characterization and Management
Units: 3 Terms Offered: Fa Review of soft computing methods such as neural networks, fuzzy logic, problematic reasoning in reservoir characterization, dynamic reservoir modeling, oilfield data integration and analysis of uncertainty in prediction. Limited to students with graduate standing. *Recommended Preparation:* prerequisites for non-majors. *Instruction Mode:* Lecture Grading Option: Letter

PTE 587 Smart Completions, Oilfield Sensors and Sensor Technology
Units: 3 Terms Offered: Sp Intelligent Wellbore completion, technology of subsurface and surface sensors, deployment and data acquisition, telemonitoring

and feedback, reliability of sensors, data transmission, systems networks. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 588 Smart Oilfield Data Mining
Units: 3 Terms Offered: Fa Methods for oilfield data mining, data preparation mining images, prediction and knowledge discovery, subset selection, pattern recognition. Limited to students with graduate standing. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 589 Advanced Oilfield Operations with Remote Immersive Visualization and Control
Units: 3 Terms Offered: Sp Immersive subsurface and surface environments, web based monitoring and feedback, visualizing risk, unattended operation. Limited to students with graduate standing. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 591 Petroleum Geochemistry
Units: 3 Terms Offered: Fa Application of chemical principles to the study of the origin, migration, accumulation, and alteration of petroleum. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 592 Geomechanics for Energy and Environment
Units: 4 Terms Offered: FaSp Physical, mathematical and simulation aspects of coupled flow and geomechanics in petroleum/geothermal reservoirs. Coupled flow-geomechanics simulator development using finite element and finite volume methods. *Recommended Preparation:* Familiarity with concepts covered in PTE 500, PTE 508, AME 535a, AME 404, AME 507, CE 529a Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 594 Formation Damage in Petroleum Reservoirs
Units: 3 Terms Offered: Fa Overview of background and techniques required for understanding, assessing, and mitigating formation damage in petroleum and subsurface reservoirs. *Recommended Preparation:* Reservoir engineering, thermodynamics, petroleum reservoir fluids, fluid mechanics, Excel worksheets Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 594a Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 594b Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 594z Master's Thesis
Units: 0 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content will be selected each semester to reflect current trends and developments in the field of petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 611 Stochastic Modeling and Simulation
Units: 3 (Enroll in CE 611)

PTE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems for candidates for the degree engineer in petroleum engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Public Administration
Frequency of course offerings varies from campus to campus. Check with individual campuses regarding availability.

PUAD 613 Seminar in Financial Policy
Units: 4 Terms Offered: Irregular Historical development and trends in public revenues and expenditures. Political, economic, and administrative significance of decisions in the field of financial management. *Prerequisite:* PPD 647. Instruction Mode: Lecture Grading Option: Letter

PUAD 617 Seminar on Behavioral Aspects of Training and Development
Units: 4 Terms Offered: Irregular Theoretical concepts governing the administration

of socio-technical systems, organization development, action training and research, and other development and change processes utilized in public service. Instruction Mode: Lecture Grading Option: Letter

PUAD 675 Institutional Context of the Public Sector
Units: 4 Terms Offered: Sp Theories of the role, structure and growth of the public sector; public choice processes; political economy of public bureaucracies; the voluntary nonprofit sector. *Prerequisite:* PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PUAD 685 Seminar on Organizational Behavior in Public Systems
Units: 4 Terms Offered: FaSp Organizing processes; decision-making; communication; leadership; behavioral models; political and social behavior in organizations. *Prerequisite:* PPD 545. Instruction Mode: Lecture Grading Option: Letter

PUAD 692 Multivariate Statistical Analysis
Units: 4 Terms Offered: Fa Multivariate analysis of qualitative and quantitative variables including multiple linear regression, multiple contingency table analysis, log-linear and logit models, and path analysis. *Prerequisite:* PPD 502. Instruction Mode: Lecture Grading Option: Letter

PUAD 695 Seminar in Administrative Theory
Units: 4 Terms Offered: FaSp Assessment of current normative and descriptive theories of public administration; variety of conceptual systems; operationalism; levels of organizational analysis. *Prerequisite:* PPD 540. Instruction Mode: Lecture Grading Option: Letter

PUAD 697 Seminar in Public Management
Units: 4 Terms Offered: Irregular Public management research and theory; differences between private and public organizations; contextual influences on public management; contemporary empirical studies; bibliographic research. *Prerequisite:* admission to the DPA program. Instruction Mode: Lecture Grading Option: Letter

PUAD 791a Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUAD 791b Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Public Diplomacy

PUBD 369w Public Diplomacy and Global Citizenship

Units: 4 Introduces public diplomacy as a central feature of contemporary international relations and challenges students to locate themselves as both its target and practitioners. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 369

PUBD 417 Global Engagement: Designing Public Diplomacy Strategies

Units: 4 Examines issues on the global political agenda and the tools and approaches that the Public Diplomacy practitioner might profitably employ to address them. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 417

PUBD 418 International Exchanges and Public Diplomacy

Units: 4 Examines international exchanges, their role in the foreign policy process, and their challenges in a world marked by rapid change and innovation in communication technologies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 418

PUBD 419 Public Diplomacy in Los Angeles

Units: 4 Examines how the City of Los Angeles and other local actors use public diplomacy tools to strengthen ties between themselves and foreign audiences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 419

PUBD 420 Regional Studies in Public Diplomacy

Units: 4 Max Units: 08 Analyzes the role and effectiveness of public diplomacy in different countries, examining a region's influence on global affairs and the development of diplomatic strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 420

PUBD 500 Introduction to the Advanced Study of Public Diplomacy

Units: 4 Introduction to the advanced academic study of public diplomacy from multidisciplinary perspectives: including media and communication, international relations and history. Instruction Mode: Lecture Grading Option: Letter

PUBD 502 Historical and Comparative Approaches to Public Diplomacy

Units: 4 Examines historical and comparative approaches to public diplomacy. Explores public diplomacy operations in public and private settings, by individuals and institutions. Reviews traditional, critical, war, and peace perspectives. Instruction Mode: Lecture Grading Option: Letter

PUBD 504 Global Issues and Public Diplomacy

Units: 4 Focuses on critical global issues/challenges that require some form of intervention from the international community. Taught with active learning strategies: case studies and "problem-based learning." Instruction Mode: Lecture Grading Option: Letter

PUBD 508 The Rhetoric of War and Peace

Units: 4 Special exercise in "Think Tank" procedure that explores rhetorics of war and peace from a 21st century perspective. Instruction Mode: Lecture Grading Option: Letter

PUBD 509 Advocacy in Public Diplomacy: Argumentation and Debate

Units: 4 Skills and theory based approach to the criticism and development of public diplomacy campaigns. Emphasizes the instruction of advocacy skills to assess the utility of specific campaigns. Instruction Mode: Lecture Grading Option: Letter

PUBD 510 Technologies and Public Diplomacy

Units: 4 Explores relationship between diplomacy and technological change. Emphasis on question of how new media may force us to rethink traditional frameworks of public diplomacy. Instruction Mode: Lecture Grading Option: Letter

PUBD 512 Cultural Diplomacy

Units: 4 Provides overview of formal cultural diplomacy and concentrates on ways in which non-governmental entities communicate across international boundaries and the effects of those interchanges. Instruction Mode: Lecture Grading Option: Letter

PUBD 514 Corporate Diplomacy

Units: 4 Provides basic public diplomacy and public relations tools for global organizations and their foreign publics. Instruction Mode: Lecture Grading Option: Letter

PUBD 515 Transnational Diplomacy and Global Security

Units: 4 Examination of the historical and theoretical basis of diplomatic relationships between states, international organizations, and transnational nonstate actors in developing global peace and security policies. Instruction Mode: Lecture Grading Option: Letter

PUBD 516 International Broadcasting

Units: 4 History, context and practice of global international broadcasting strategies; technological and financial parameters that shape future international broadcasting strategies; use of radio, television, and Internet. Instruction Mode: Lecture Grading Option: Letter

PUBD 518 International Exchanges and Public Diplomacy

Units: 4 Examination of educational and cultural exchanges; variety and experience of participants, flagship exchange programs, economic and social implications of the programs, and measurement of outcomes. Instruction Mode: Lecture Grading Option: Letter

PUBD 519 News Media and the Foreign Policy Process

Units: 4 Analysis of news media's role in contemporary diplomacy; historical context; consideration of the professional practices of journalists and those who devise and implement foreign policy. Instruction Mode: Lecture Grading Option: Letter

PUBD 520 Regional Studies in Public Diplomacy

Units: 4 Max Units: 16.0 In-depth examination of historical, political, economic, cultural factors that influence public diplomacy efforts within specific geographic regions. Instruction Mode: Lecture Grading Option: Letter

PUBD 522 Hard Power, Soft Power and Smart Power

Units: 4 Institutional and cultural perspectives on instruments of state power: military, intelligence, trade, and traditional diplomacy; strategic analyses for determining proper use; desirability of combining resources. Instruction Mode: Lecture Grading Option: Letter

PUBD 524 The Public Diplomacy of Trade

Units: 4 Public diplomacy's role in shaping ideas about trade and development and in creating trade agreements, and the use of trade agreements as public diplomacy. Instruction Mode: Lecture Grading Option: Letter

PUBD 526 Public Diplomacy Evaluation

Units: 4 Critical examination of challenges and benefits of measuring public diplomacy's impact; terminology and mechanics of evaluation, the measurement community, and varying approaches for evaluation. Instruction Mode: Lecture Grading Option: Letter

PUBD 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUBD 596 Practicum in Public Diplomacy Research

Units: 4 Development and production of original research-based project in the area of public diplomacy. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUBD 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Special topics in the area of public diplomacy. Instruction Mode: Lecture Grading Option: Letter

Quantitative Biology

QBIO 105 Introduction to Quantitative Biology Seminar

Units: 2 Terms Offered: FaSp Introduction to quantitative biology including a definition of its role within the Biological Sciences and relationship with Chemistry, Computer Science, Engineering, Mathematics, Medicine and Physics. Registration Restriction: Open to QBIO majors or by permission of the department Instruction Mode: Lecture Grading Option: Letter

QBIO 401 Introduction to Computational Analysis of Biological Data

Units: 4 Terms Offered: FaSp A project-based course integrating biology, computer science, and statistics through the analysis of genomic datasets available publicly or collected and sequenced during the semester. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as BISC 401

QBIO 478 Computational Genome Analysis

Units: 4 Terms Offered: Sp (Enroll in BISC 478)

QBIO 481 Structural Bioinformatics: From Atoms to Cells

Units: 4 Terms Offered: Fa (Enroll in BISC 481)

QBIO 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12
Terms Offered: FaSpSm Individual research and readings. Project approval by QBIO committee or faculty adviser required. Registration Restriction: Open only to QBIO undergraduates Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

QBIO 493 Quantitative Biology Honors Seminar

Units: 2 Max Units: 04 Terms Offered: FaSp Student-led discussions of recent research in quantitative biology and presentation of their own research. *Prerequisite:* QBIO 105 Registration Restriction: Open only to Quantitative Biology undergraduates Instruction Mode: Lecture Grading Option: Letter

QBIO 494x Quantitative Biology Honors Thesis

Units: 2 Terms Offered: FaSp Experience in conducting research and writing a thesis under supervision of a faculty adviser. *Prerequisite:* QBIO 493 Registration Restriction: Open only to Quantitative Biology undergraduates Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

QBIO 499 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Topics in specialized areas of the quantitative biological sciences. Registration Restriction: Registration open to QBIO majors only. Other majors require permission from the instructor. Instruction Mode: Lecture, Discussion Grading Option: Letter

QBIO 502 Molecular Biology for Quantitative Scientists

Units: 4 Terms Offered: FaSp In-depth study of molecular biology techniques and experiments with an emphasis on those that are able to generate "big data." Intended for quantitative science students. Instruction Mode: Lecture Grading Option: Letter

QBIO 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the graduate degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to Quantitative and Computational Biology students Instruction Mode: Lecture Grading Option: Credit/No Credit

Real Estate Development**RED 351 Land Use Regulation**

Units: 4 Terms Offered: Sp Land use planning and zoning; community and government relations; environmental regulation. *Recommended Preparation:*

RED 362 Instruction Mode: Lecture Grading Option: Letter

RED 362 Real Estate Development Fundamentals

Units: 4 Real estate overview; evolution of cities and neighborhoods; product types; introduction to valuation. *Prerequisite:* (PPD 227 or PPD 245) and (MATH 108 or MATH 117 or MATH 118 or MATH 125) Instruction Mode: Lecture Grading Option: Letter

RED 375 Real Estate Development Analysis

Units: 4 Terms Offered: FaSp Real estate development feasibility and analysis; underwriting local fundamentals including neighborhood and city change, real estate capital flows *Prerequisite:* BUAD 215x and ECON 203g and RED 362 Duplicates Credit in the former PPD 375 Instruction Mode: Lecture Grading Option: Letter

RED 398 Shaping Cities Through Real Estate

Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Cities and urban form created through various real estate product types. Case studies and site visits. *Recommended Preparation:* RED 362 Instruction Mode: Lecture Grading Option: Letter

RED 417 History of Planning and Development

Units: 4 Terms Offered: FaSp Historical evolution of planning and development. How changing modes of planning and development have shaped the built landscape throughout the century. *Prerequisite:* PPD 227 or PPD 245g Duplicates Credit in the former PPD 417 Instruction Mode: Lecture Grading Option: Letter

RED 425 Designing Livable Communities

Units: 4 Terms Offered: FaSp Theories and concepts of livable communities and good city form; case studies of historical and current best practices; field visits; collaborative design project. *Prerequisite:* PPD 227 or PPD 245g Duplicates Credit in the former PPD 425. Instruction Mode: Lecture Grading Option: Letter

RED 435 Analyzing Real Estate Markets

Units: 4 Terms Offered: FaSp Macro and micro-analysis of urban property markets; demographics; location choice; regulation *Prerequisite:* PPD 303 and RED 375 Duplicates Credit in the former PPD 435 Instruction Mode: Lecture Grading Option: Letter

RED 437 Advanced Finance and Investment for Real Estate Development

Units: 4 Terms Offered: FaSpSm Advanced real estate principles. Underwriting property valuation and deal structure including risk and return. Debt and equity markets; difference between development and existing assets. *Prerequisite:* RED 435 Duplicates Credit in the former PPD 437 Instruction Mode: Lecture Grading Option: Letter

RED 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

RED 499 Special Topics

Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics in real estate development. Instruction Mode: Lecture Grading Option: Letter

RED 500 Real Estate Development and the Economy

Units: 2 Terms Offered: Sm Linkages between national and regional economies and the performance of the real estate sector. Anticipating development trends. Public policy applications. Instruction Mode: Lecture Grading Option: Letter

RED 509 Market Analysis for Real Estate

Units: 4 Terms Offered: Fa Explores macro and micro aspects of residential, retail, office, and industrial markets and examines methodologies for analyzing such markets for real estate development/investment purposes. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 510 Real Estate Practice and Principles

Units: 4 Terms Offered: FaSp Fundamental principles of real estate analysis; economics; capital markets; development decision-making; relationships between real estate markets and federal, state and local government policies; property value. Instruction Mode: Lecture Grading Option: Letter

RED 511 Foundations of Real Estate Analysis

Units: 4 Terms Offered: FaSp Principles of real estate analysis; capital markets; importance of uncertainty and metrics of risk; investments; valuation techniques; use of debt and equity, leases, taxes. *Prerequisite:* RED 510. Instruction Mode: Lecture Grading Option: Letter

RED 512 Real Estate Project Analysis

Units: 4 Terms Offered: FaSp Fundamental economic theories; analytical techniques; practical applications for market analysis of various forms of real estate. *Prerequisite:* RED 511. Instruction Mode: Lecture Grading Option: Letter

RED 541 Finance Fundamentals for Real Estate Development

Units: 2 Terms Offered: Sm Introduction to the general principles of finance with application to real estate development, including capital markets, financial institutions, valuation and risk management. Instruction Mode: Lecture Grading Option: Letter

RED 542 Finance of Real Estate Development

Units: 3 Terms Offered: FaSm Theory and methods of real estate finance and investment. Real estate investment analysis, real estate entities, taxation; introduction to securization of real estate equities, debt. *Prerequisite:* RED 541. Instruction Mode: Lecture Grading Option: Letter

RED 544 Real Estate Capital Markets

Units: 2 Terms Offered: Fa Explore structure, instruments and institutions of real estate capital markets. Consider linkages between real estate and capital markets. Assess role of Real Estate Investment Trusts. *Prerequisite:*

RED 542 Instruction Mode: Lecture Grading Option: Letter

RED 545 Advanced Real Estate and Financial Modeling

Units: 2 Terms Offered: Sp Quantitative problem solving using computerized modeling. Complex debt financing, including lender participation, subordination, joint venture structuring, systematic treatment of real estate portfolios. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 546 Applications of Real Estate Finance to Problems of Development

Units: 3 Terms Offered: Sp Advanced topics in finance applied to cases and problems of real estate development; emphasis on structuring, finance and evaluation of various types of development projects. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 547 Project Management and Construction

Units: 2 Terms Offered: Sm Managing the building phase of development. Architectural and engineering aspects of construction management for the real estate developer. Instruction Mode: Lecture Grading Option: Letter

RED 551 The Approval Process

Units: 4 Terms Offered: FaSpSm Approval process for real estate development including land use entitlement, site selection, zoning, environmental review, community and government relations, infrastructure financing, ethical issues, negotiation skills. Instruction Mode: Lecture Grading Option: Letter

RED 562 Legal Issues in Real Estate Development

Units: 4 Terms Offered: FaSp Ownership and transfer of real estate; formation and enforcement of contracts; business associations; environmental regulation; taxation of property transfers; acquiring, financing, leasing of commercial property. Duplicates Credit in former RED 662. Instruction Mode: Lecture Grading Option: Letter

RED 563 Introduction to the Asset Management of Real Estate

Units: 2 Terms Offered: Fa Overview of institutional asset management: creating and implementing investment and portfolio strategies through the development, acquisition, underwriting, and operational stages of the investment, asset disposition. Instruction Mode: Lecture Grading Option: Letter

RED 564 Issues in Asset Management of Real Estate

Units: 2 Terms Offered: Sp Advanced issues in institutional asset management. How value is created during investment process with focus on tactical, operational, and strategic goals of asset and owner. *Prerequisite:* RED 563. Instruction Mode: Lecture Grading Option: Letter

RED 571 Introduction to Appraisal Principles, Procedures, and Standards

Units: 4 Terms Offered: Fa Valuation

concepts. Theory and problem solving. Cost, sales comparison, and income approaches. Instruction Mode: Lecture Grading Option: Letter

RED 572 Advanced Appraisal Approaches and Applications

Units: 2 Terms Offered: Sp Highest and best use. Advanced income capitalization. Advanced cost and sales comparison approaches. Advanced applications. *Recommended Preparation:* RED 571. Instruction Mode: Lecture Grading Option: Letter

RED 573 Design History and Criticism

Units: 2 Terms Offered: Sm The concepts, language and metaphors of design-related disciplines are examined in relation to design and construction values and choices in real estate development. Duplicates Credit in former RED 673. Instruction Mode: Lecture Grading Option: Letter

RED 574 Building Typologies

Units: 2 Terms Offered: Fa The exploration of categories of building types, including retail, industrial, residential, office and institutional, using key examples or case studies from each. Duplicates Credit in former RED 674. Instruction Mode: Lecture Grading Option: Letter

RED 575L Community Design and Site Planning

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Physical implementation of development projects. Students will develop concept plan, preliminary design and marketing plan for selected domestic and/or international development sites. Duplicates Credit in former RED 675L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

RED 583 International Development Opportunities

Units: 2 Terms Offered: Sp A survey of various markets prominent in the global real estate community. Protocols for analyzing international development opportunities and cultural, political, and socioeconomic considerations. Instruction Mode: Lecture Grading Option: Letter

RED 585 Comparative International Development Workshop

Units: 2, 3, 4 Terms Offered: Sm Comparative study tour focused on understanding international real estate development practices and markets, site visits and meeting with principals. Instruction Mode: Lecture Grading Option: Letter

RED 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RED 598 Real Estate Product Development

Units: 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm An evaluation of various real estate development types. Case studies

and site visits. Instruction Mode: Lecture Grading Option: Letter

RED 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Current issues, trends, and developments in real estate development. Instruction Mode: Lecture Grading Option: Letter

Religion

REL 111g The World of the Hebrew Bible

Units: 4 The Hebrew Bible in the cultural setting of the Ancient Near East; the formation of theological and ethical concepts which have shaped Western culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 112g Religions of Ancient Egypt and the Near East

Units: 4 Religions, cultures, and values of ancient Egypt and Near East (Iran, Iraq, Israel, Syria, Lebanon, Arabia, Turkey) and their legacies in contemporary society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 114g The Mediterranean: A Religious History

Units: 4 Explores multiple religious traditions of the Mediterranean as networks that emerge within and among the landscapes, cultures, and politics of this highly interconnected geographic space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 115g Jerusalem, City of Three Faiths

Units: 4 History of Jerusalem as a window onto the nature of the three Abrahamic faiths. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 121g The World of the New Testament

Units: 4 Historical investigation of New Testament characters, events, ethics and theology in relation to its social, intellectual, and religious contexts in the Jewish and GrecoRoman world. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 125gp Introduction to Christianity

Units: 4 Survey of the changing beliefs and practices of the Christian religion from obscure origins to globalized present, with special attention to the varieties of Christian literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 132g Origins of Western Religions

Units: 4 Examination of Judaism, Christianity, and Islam in their origins and their development in relation to Western civilization. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 134g Introduction to Buddhism

Units: 4 Focus primarily on works of Buddhist literature written in a variety of genres. Introduction of basic teachings that link Buddhist traditions across time and space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 135g Chinese Religions and Culture

Units: 4 Historical and thematic survey of Chinese religious history from earliest times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 136g Sense and Sensuality in Indian Religions and Culture

Units: 4 Exploration of the senses and the technologies of pleasure in India, relating this material to some fascinating examples of Hindu, Jain, and Buddhist literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 137g Introduction to Islam

Units: 4 Introduction to Islam, emphasizing its historical and cultural development since the seventh century C.E., and the basic teachings of Islam. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

REL 138g Japanese Religions and Culture

Units: 4 Major religious traditions of Japan (such as Buddhism, Shinto, Christianity, Confucianism) and their broader social and cultural contexts. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 141g Global Religions in Los Angeles

Units: 4 Congregational and individual expressions of religion in Los Angeles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 146gp Spirituality in America

Units: 4 Examination of the historical continuities and disjunctions between "spiritual but not religious" Americans; the relationship between spirituality, politics and social change, and the role of media. Satisfies Global Perspective in Category H: Traditions and Historical Foundations

Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 147g Religion, Media and Popular Culture

Units: 4 Exploration of the manner in which the media frame discussions and understandings of ethical issues, moral dilemmas, spirituality and religious imagination. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter, Discussion

REL 301 Introduction to the Study of Religion

Units: 4 Terms Offered: Fa Survey of academic approaches to the study of religion. When possible this course will be taken during the first year of the major or minor. Instruction Mode: Lecture Grading Option: Letter

REL 302 Religions of Ancient Egypt and the Near East

Units: 4 Religious experience and values of ancient Egypt and Near East through material culture, literature, art, and cultic practices; and their legacies in contemporary society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-301

REL 303g Exploring Ancient Ways of Living: Experimental Archaeology

Units: 4 Active learning course enables students to acquire and experience survival skills devised in pre-modern times and to apply this knowledge in an experimental context. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

REL 304 Ethics and Global Heritage

Units: 4 Archaeology and global heritage debates, laws, ethical conundrums, and stakeholder perspectives reveal goals and guiding values of society's exploration of the past. *Recommended Preparation:* REL 301 or ANTH 202g Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ARCG 304, ANTH 318

REL 305L Virtual and Digital Culture, Heritage and Archaeology

Units: 2, 4 Max Units: 04 Terms Offered: FaSpSm (Enroll in ARCG 305L)

REL 310 Anti-Semitism, Racism and Other Hatreds

Units: 4 Terms Offered: FaSp (Enroll in JS 315g)

REL 311g The Bible in Western Literature

Units: 4 Comparative analysis of biblical works and how they were employed by various writers in major works of Western literature. Instruction Mode: Lecture Grading Option: Letter

REL 312 Biblical Wisdom Literature

Units: 4 Survey of and inquiry into the biblical wisdom literature; emphasis on the Book of Job. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 314 Introduction to Shiism

Units: 4 Examination of the major branches

of Shiism, the second largest articulation of Islam, both historically and in the world today. Instruction Mode: Lecture Grading Option: Letter

REL 315 Thought and Life of Islam

Units: 4 History, thought, institutions, and religious practices of Islam. Instruction Mode: Lecture Grading Option: Letter

REL 316 Women and the Islamic Tradition

Units: 4 Terms Offered: Fa Overview of social and legal status of women in Islamic society, past and present. Examination of social roles established both for and by Muslim women. Instruction Mode: Lecture Grading Option: Letter

REL 317g The Bible in Its Ancient Context

Units: 4 A close consideration of ancient Near Eastern myths — especially those from Mesopotamia and Canaan — with special attention to their influence on the Bible. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 319 Religious and Ethical Issues in Death and Dying

Units: 4 Analysis of religious and ethical approaches to death and dying, including refusal of treatment for competent and incompetent patients, voluntary and involuntary euthanasia, and resuscitation. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 323 Aegean Archaeology

Units: 4 (Enroll in CLAS 323) Instruction Mode: Lecture Grading Option: Letter

REL 324g Sex and the Bible: Gender, Sexuality, and Scripture

Units: 4 Role the Bible has played in debates about sex, gender, and sexuality in Western history. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

REL 325g Religious Experience in the Greco-Roman World

Units: 4 Terms Offered: FaSpSm Varieties of religious experience as reflected in the literature, art, and cultic practices of the Hellenistic world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 326gp Historical Jesus

Units: 4 Examination of the question of how ancient and modern Christians and scholars have reconstructed the life of Jesus of Nazareth, founding figure of Christianity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 327g Heretics, Martyrs, and Miracles

Units: 4 Examines Christianity in the second century including theology, ethics and identity. Satisfies New General Education in

Category B: Humanistic Inquiry Instruction
Mode: Lecture Grading Option: Letter

REL 328 Archaeology of Religion in the Greco-Roman World

Units: 4 (Enroll in CLAS 328)

REL 329 Themes in the Religions of China

Units: 4 A study of selected themes in the history of Chinese religions and culture. Compares cases and materials from several historical periods and religious traditions. Instruction Mode: Lecture Grading Option: Letter

REL 330 Introduction to the Religions of India

Units: 4 Terms Offered: FaSpSm History, teaching, and practice of Hinduism, Buddhism, and other religious traditions of India. Instruction Mode: Lecture Grading Option: Letter

REL 331 Religions of East Asia

Units: 4 History, teaching, and practice of the religions of China, Tibet, and Japan. Instruction Mode: Lecture Grading Option: Letter

REL 332 Religions of Japan

Units: 4 The development of religious thought and practice in the Japanese islands, with Buddhism and Shinto being the most prominent. Instruction Mode: Lecture Grading Option: Letter

REL 333 Religion in the Borderlands

Units: 4 Survey of religious history of U.S./Mexico borderlands. Emphasis is given to definitions of place and transformations in culture and forms of belief. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-333

REL 334 Religion and Colonial Encounter

Units: 4 Survey of religious responses to colonial encounter in the Americas. Emphasis given to study of religious innovations of Amerindians, Africans, and Europeans. Instruction Mode: Lecture Grading Option: Letter

REL 335 Gender, Religion, and Sexuality

Units: 4 The construction of gender and sexuality in Western religious traditions; its continued impact on contemporary intellectual, cultural, and social life. Instruction Mode: Lecture Grading Option: Letter

REL 336w Re-Viewing Religion in Asian America

Units: 4 Interdisciplinary analysis of the religions traditions, institutions, and experiences of Asians and Pacific Islanders in the U.S. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 336

REL 337 Islam in Black America: From Slavery to Hip Hop

Units: 4 (Enroll in AMST 337)

REL 338 Mysticism and Religious Desire

Units: 4 How human appetites for sex, food, community or immortality are articulated as mystical desires in different religions, either within institutional structures or working against them. Instruction Mode: Lecture Grading Option: Letter

REL 339 Studies in the History of Christianity

Units: 4 In-depth exploration of one of the pivotal moments in the history of Christianity and Western society. Instruction Mode: Lecture Grading Option: Letter

REL 340 Introduction to Indian Philosophy

Units: 4 An introduction to Indian philosophy, including major schools of thought in Hindu, Buddhist, and Jain philosophies. No previous knowledge of Indian religions or philosophy required. Instruction Mode: Lecture Grading Option: Letter

REL 341 Technology, Culture, and Ethics

Units: 4 Examination of value questions arising from the impact of technology on individuals, social institutions, and culture. Instruction Mode: Lecture Grading Option: Letter

REL 342g Buddhist Modernism

Units: 4 Examines various topics in the process of rapid modernization and globalization in Buddhism including environmentalism, gender, nationalism, social activism, and war and peace. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 344 Islamic Law and American Society

Units: 4 (Enroll in AMST 344)

REL 345p Islamic Mysticism: Sufism

Units: 4 Examination of the origins, development, and basic concepts and practices of Sufism, as well as its relationship to other areas of Islamic life. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

REL 350 Drugs, Alcohol, Visions and Altered States in Religion

Units: 4 Examines the history and meaning of drugs, alcohol and altered states of mind in world religions across history. Instruction Mode: Lecture Grading Option: Letter

REL 359g Culture in Diaspora: The Jews of Spain

Units: 4 Course traces the Jewish diaspora from Spain and Portugal with particular attention to how Sephardic Jews maintained ties of culture, commerce, language, and identity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as HIST-371

REL 360 Ethical Issues in the New Medical Revolution

Units: 4 Multimedia-oriented analysis of issues; definition of life and death; research on human subjects, health care delivery, euthanasia, abortion, genetic counseling, behavior control. Instruction Mode: Lecture Grading Option: Letter

REL 361 Law and Religion

Units: 4 Explores the intersection between law and religion including ways in which religious traditions conceive of, create, order,

and contest law. Instruction Mode: Lecture Grading Option: Letter

REL 364 Religion and Ethics

Units: 4 Traces the development of how religious ideas have informed ethics, or accounts of the good life, including notions of justice, righteousness, virtue, duty, charity and happiness. Instruction Mode: Lecture Grading Option: Letter

REL 365 Global Ethics

Units: 4 Provide an overview of debates concerning moral, cultural ethics in a globalizing world. Encourage critical reflection on global justice, ethical systems, role of religion. Instruction Mode: Lecture Grading Option: Letter

REL 366 Religion and Social Change

Units: 4 Empirical and theoretical analysis of social change and its effect on religious institutions as well as the impact of religious movements on society. Instruction Mode: Lecture Grading Option: Letter

REL 370 Religion and Visuality

Units: 4 Examination of the deep connections between visually and religions, including visions, controversies over religious images, and other connections between religion and visual art. Instruction Mode: Lecture Grading Option: Letter

REL 371 Religion and the Supernatural

Units: 4 Methods of religious studies, history, anthropology, and psychology used to analyze religious beliefs in and responses to the supernatural. Instruction Mode: Lecture Grading Option: Letter

REL 376g Religion and Human Rights

Units: 4 Close examination and discussion of a variety of religious views regarding human rights. Forges useful frameworks for interpreting the complexity of competing ideas. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

REL 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

REL 394 Archaeology of Egypt and the Near East

Units: 4 Study of archaeology and excavated artifacts from Egypt and the Near East. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-304, MDES-394

REL 401 Seminar in Religious Studies

Units: 4 Terms Offered: Sp Survey of methods and selected issues in the field of religious studies; required of all majors during their junior or senior year. *Recommended Preparation:* REL 301. Duplicates Credit in former REL 399. Instruction Mode: Lecture Grading Option: Letter

REL 402 Cultural Heritage, Religion, and Politics in the Middle East

Units: 4 Terms Offered: Fa In-depth exploration of archaeology and heritage issues in the Middle East and their implications for politics and practice in

modern Islam, Judaism and Christianity.
Instruction Mode: Lecture Grading Option:
Letter Crosslisted as HIST-402, IR-405,
MDES-402

REL 414 History of Islamic Law

Units: 4 Terms Offered: Sp Examines legal methods and religious sources used in Islamic law. Emphasis is placed on the way cultural developments affect legal thought and the administration of justice. Instruction Mode: Lecture Grading Option: Letter

REL 415 Seminar in Buddhism

Units: 4 Seminar on selected aspects of the Buddhist tradition. Instruction Mode: Lecture Grading Option: Letter

REL 417 Seminar in South Asian Religions

Units: 4 Exploration of particular themes and/or traditions in South Asian religions. Instruction Mode: Lecture Grading Option: Letter

REL 425 Communicating Religion

Units: 4 (Enroll in COMM 425)

REL 426 Religion, Media and Hollywood: Faith in TV

Units: 4 (Enroll in COMM 426)

REL 431 The Taoist Tradition

Units: 4 (Enroll in EALC 431)

REL 435 Religious Thought After the Enlightenment

Units: 4 Changes in religious thought between the late 18th and early 20th centuries in the wake of the emergence of modernity in the West. Instruction Mode: Lecture Grading Option: Letter

REL 440 Christian Thought in the 20th Century

Units: 4 Examination of dynamic new directions taken by Christian understandings of self, God, and salvation in response to the novel conditions of modern culture, politics and philosophy. Instruction Mode: Lecture Grading Option: Letter

REL 441 Origins of Modern Theology

Units: 4 19th century liberal, rationalist, and historical theology. Instruction Mode: Lecture Grading Option: Letter

REL 442 Religion and Science

Units: 4 Explores whether religion and science offer competing or complementary models for understanding the world and the human place within it. Instruction Mode: Lecture Grading Option: Letter

REL 448m France and Islam

Units: 4 Terms Offered: FaSp (Enroll in FREN 448)

REL 455 Philosophy of Religion: Bases of Belief and Disbelief

Units: 4 Rational and empirical foundations for religious faith and for skepticism. Instruction Mode: Lecture Grading Option: Letter

REL 460 Senior Seminar: Medical Ethics

Units: 4 Analysis of ethical problems related to new developments in medical science. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 462 Religion and Violence

Units: 4 Religious and moral perspectives on war, pacifism, violent and nonviolent protest,

and religion-based terrorism and militia.

Instruction Mode: Lecture Grading Option: Letter

REL 465 Archaeology and Society

Units: 4 Terms Offered: FaSpSm (Enroll in CLAS 465)

REL 468 Sociology of Religion

Units: 4 The role of religion in modern society from the standpoint of sociological theory and research. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-468

REL 469 Black Religion in America

Units: 4 Historical, sociological, and theological analysis of the nature and role of black religion in the American setting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-469

REL 471 Jesus

Units: 4 A study of major interpretations of the figure of Jesus, with focus on the interaction between religious traditions and culture. Instruction Mode: Lecture Grading Option: Letter

REL 473 Advanced Hebrew Bible Studies

Units: 4 Consideration of specific topics in Old Testament studies; particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 474 Advanced New Testament Studies

Units: 4 Consideration of specific topics in New Testament studies. Particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 475 Religion, Material Culture and the Senses

Units: 4 A comparative study of the role of material culture and the senses in religions based on a number of case studies and problem sets. Instruction Mode: Lecture Grading Option: Letter

REL 479 Seminar in Christian Thought

Units: 4 Studies a theme, period, or problem from the history of Christian thought within its intellectual and social context. Instruction Mode: Lecture Grading Option: Letter

REL 481 History of Religion in America

Units: 4 Intellectual, institutional, and social history of religion in America from colonial times to the present. Instruction Mode: Lecture Grading Option: Letter

REL 482 Jesus in American History and Culture

Units: 4 (Enroll in HIST 482)

REL 483 Religion and Popular Culture in the United States

Units: 4 Terms Offered: Sp Critical analysis of the relationship between religion, mass media, and popular cultural forms in the U.S. *Recommended Preparation:* REL 301. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-483

REL 484 American Religion, Foreign Policy and the News Media

Units: 4 (Enroll in JOUR 484)

REL 485 Transnational Religion

Units: 4 Explores the role of transnational religion in relation to both the formation of

new diasporic communities and problems of conflict and peace building. Instruction Mode: Lecture Grading Option: Letter

REL 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

REL 491x Undergraduate Honors Research

Units: 4 Individual research for honors in the major leading to a substantial project. Instruction Mode: Lecture Grading Option: Letter

REL 493 Art and Archaeology of Religion

Units: 4 Terms Offered: FaSp The history of religion through its material expression: art, architecture and artifact. Exploration of different themes and time periods. Instruction Mode: Lecture Grading Option: Letter

REL 494 Lab Methods and Theories in Archaeology

Units: 4 Archaeological research design, data recovery, artifact analysis, interpretation and analogy, publication and ethics. *Recommended Preparation:* ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 494

REL 495 Field Methods and Theories in Archaeology

Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Archaeological field study emphasizing current paradigms of data collection and evaluation; social scientific study of material culture and its relationship to religious expression. Instruction Mode: Lecture Grading Option: Letter

REL 499 Special Topics in Religion

Units: 2, 3, 4 Max Units: 8.0 Selected topics in religious studies. Instruction Mode: Lecture Grading Option: Letter

REL 500 Methods and Theories in the Study of Religion

Units: 4 Introduction to the major topics, trends, and theoretical approaches in the study of religion. Instruction Mode: Lecture Grading Option: Letter

REL 502 Themes in the Study of Religion

Units: 4 Max Units: 8.0 Thematic approaches to the study of religion and religions transcending particular traditions, time periods and geographic regions. Course topic varies by semester according to faculty. Instruction Mode: Lecture Grading Option: Letter

REL 525 Colloquium in Global Islam

Units: 4 Introduces major issues that have defined Islamic Studies in premodern and modern periods. Generally taken in the first year. Instruction Mode: Lecture Grading Option: Letter

REL 535 Colloquium in Christian Studies

Units: 4 Research methods and recent scholarship in Christian Studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

REL 545 Colloquium in Asia Pacific Religions

Units: 4 Research methods, tools and current scholarship in the study of Asian

Pacific Religions. Instruction Mode: Lecture
Grading Option: Letter

REL 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree.
Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 592 Professionalization Proseminar in Religious Studies

Units: 2 Offers students a structured environment in which to consider issues in professional development and to discuss their dissertation proposals. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 593 Practicum in Teaching the Liberal Arts

Units: 2 Practical principles for the long-term development of effective teaching within liberal arts disciplines. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

REL 625 Advanced Graduate Seminar in Global Islam

Units: 4 Exploration of themes and traditions of Islam as they appear globally in a variety of specific country contexts Instruction Mode: Lecture Grading Option: Letter

REL 635 Advanced Graduate Seminar in Christian Studies

Units: 4 Comparative and transhistorical methods for understanding the most prominent developments in premodern or modern globalized Christianity. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

REL 645 Advanced Graduate Seminar in Asia Pacific Religions

Units: 4 Application of comparative and transhistorical methods for understanding the most prominent themes in Asian Pacific Religions. Instruction Mode: Lecture Grading Option: Letter

REL 650 Readings in Islamic Texts

Units: 4 Max Units: 12 Study of Islamic religious texts in multiple genres, primarily in Arabic, though other languages may be offered. *Recommended Preparation:* Advanced Arabic language ability. Instruction Mode: Lecture Grading Option: Letter

REL 651 Readings in Christian Texts

Units: 4 Max Units: 12 Survey of the different genres of texts in the history of Christian spirituality from ancient Christianity to the present. Instruction Mode: Lecture Grading Option: Letter

REL 652 Readings in Buddhist Texts

Units: 4 Max Units: 12 Study of varied Asian Buddhist texts in translation and in original languages. Exploration of the major secondary literature on Buddhist texts. Instruction Mode: Lecture Grading Option: Letter

REL 653 Readings in Indic Religious Texts

Units: 4 Max Units: 12 Study of varied

Hindu, Buddhist, and Jain texts, primarily in Sanskrit. The class covers multiple genres from Puranas to Tantra. *Recommended Preparation:* Two years of previous study of Sanskrit Instruction Mode: Lecture Grading Option: Letter

REL 654 Readings in Chinese Religious Texts

Units: 4 Max Units: 12 Study of Chinese religious texts primarily in literary Chinese. Covers multiple genres of texts from Buddhist sutras to Daoist texts. *Recommended Preparation:* Advanced Chinese language and at least one year of training in classical Chinese. Instruction Mode: Lecture Grading Option: Letter

REL 655 Readings in Japanese Religious Texts

Units: 4 Max Units: 12 Study of Japanese Buddhist texts in classical or modern Japanese and/or kambun. Covers multiple genres from sutras to vernacular text. *Recommended Preparation:* Advanced Japanese language ability; REL 652 Instruction Mode: Lecture Grading Option: Letter

REL 790 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Restorative Dentistry

REST 314 Physiology of Occlusion for Hygienists

Units: 1 Biology and function of the gnathostomatic system. Role of the hygienist in diagnosis and treatment of occlusal dysfunctions. Instruction Mode: Lecture Grading Option: Letter

REST 501 Preclinical Operative and Fixed Prosthodontics (Conjoint)

Units: 2 Fundamental concepts of restoring an individual tooth with a cast restoration; principles of cavity preparation; casting fabrication and cementation. Instruction Mode: Lecture Grading Option: Letter

REST 503a Clinical Restorative Dentistry

Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics, and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 503b Clinical Restorative Dentistry

Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics, and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 504 Diagnosis and Treatment Planning

Units: 1 Utilizing a restorative approach, enhance students' knowledge and ability to choose treatment best suited for existing dental conditions, patients' requests and their financial ability. Instruction Mode: Lecture Grading Option: Letter

REST 521 Preclinical Operative/Fixed Prosthodontics Laboratory

Units: 3 Experience in cavity preparation; casting fabrication and cementation on extracted teeth and plastic dentiforms. Instruction Mode: Lecture Grading Option: Letter

REST 522 Aesthetics in Dentistry

Units: 1 Definition and relationship of elements of aesthetics; application in patient motivation and care. Instruction Mode: Lecture Grading Option: Letter

REST 602a Participation in Advanced Dental Care

Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

REST 602b Participation in Advanced Dental Care

Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: Letter

REST 701 Orientation to Advanced Prosthodontics

Units: 5 Preclinical overview of materials, techniques, instrumentation, and treatment procedures necessary for providing advanced prosthodontic care in the clinical environment. Instruction Mode: Lecture Grading Option: Letter

REST 702a Seminar: Treatment Planning

Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702b Seminar: Treatment Planning

Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702c Seminar: Treatment Planning

Units: 2 each Seminars led by students

with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702d Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702e Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702f Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702h Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702i Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 703a Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703b Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703c Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703d Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703e Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703f Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703h Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704a Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704b Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704c Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704d Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704e Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704f Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704h Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 705 Advanced Fixed Prosthodontics Techniques
Units: 1 Tooth preparation and advanced laboratory techniques necessary to implement full mouth rehabilitation. Instruction Mode: Lecture Grading Option: Letter

REST 706 Advanced Complete Denture Techniques
Units: 1 Advanced laboratory and clinical skills for a specialty prosthodontic practice. Instruction Mode: Lecture Grading Option: Letter

REST 708a Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 708b Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 709a Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronary and intracoronary retainers. Instruction Mode: Lecture Grading Option: Letter

REST 709b Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronary and intracoronary retainers. Instruction Mode: Lecture Grading Option: Letter

REST 710a Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710b Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710c Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710d Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 712 Maxillofacial Prosthodontics
Units: 2 Theory and techniques for fabrication of prostheses to correct maxillofacial deformities including cleft palate. Instruction Mode: Lecture Grading Option: Letter

REST 721a Principles of Occlusion

Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 721b Principles of Occlusion

Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 761a Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761b Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761c Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761d Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761e Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761f Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761h Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each

Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761i Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761j Clinic: Advanced Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 781 Clinic: Maxillofacial Prosthetics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Clinical experience in fabrication of prostheses to correct maxillofacial deformities. Instruction Mode: Lecture Grading Option: Letter

REST 782a Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782b Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782c Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782d Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782e Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 790 Directed Research: Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Opportunities for research in clinical and experimental prosthodontics. Instruction Mode: Lecture Grading Option: Credit/No Credit

Removable Prosthodontics**RPRO 501 Preclinical Removable Complete Prosthodontics**

Units: 1 Fundamental theory for the fabrication of removable complete dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 502 Removable Complete Prosthodontics

Units: 1 Complete denture treatment: phases, clinical procedures, philosophy, concept, rationale, and need. Instruction Mode: Lecture Grading Option: Letter

RPRO 503a Preclinical Removable Prosthodontics and Implants

Units: 2 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

RPRO 503b Preclinical Removable Prosthodontics and Implants

Units: 1 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

RPRO 510 Implant Dentistry

Units: 1 Principles and use of implants in dentistry: includes history, biological basis, types, diagnosis and treatment planning, surgical and restorative procedures, and limitations. Instruction Mode: Lecture Grading Option: Letter

RPRO 511 Preclinical Removable Partial Prosthodontics I

Units: 1 Partial denture diagnosis and treatment planning; basic principles of partial denture design, fabrication, and function. Instruction Mode: Lecture Grading Option: Letter

RPRO 512 Preclinical Removable Partial Prosthodontics II

Units: 1 Partial denture design, fabrication, and function; repair; patient education. Instruction Mode: Lecture Grading Option: Letter

RPRO 513 Removable Partial Prosthodontics

Units: 1 Clinical removable partial prosthodontic treatment including diagnosis, treatment planning and clinical techniques. Instruction Mode: Lecture Grading Option: Letter

RPRO 521 Preclinical Removable Complete Prosthodontics Laboratory

Units: 1 Fundamental theory for the fabrication of removable complete dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 523a Preclinical Removable Prosthodontics and Implants Laboratory

Units: 1 Laboratory experience in the fabrication of removable complete and partial dentures and implants. Instruction Mode: Lecture Grading Option: Letter

RPRO 523b Preclinical Removable Prosthodontics and Implants Laboratory

Units: 1 Laboratory experience in the fabrication of removable complete and partial dentures and implants. Instruction Mode: Lecture Grading Option: Letter

RPRO 532 Preclinical Removable Partial Prosthodontics Laboratory II

Units: 1 Laboratory experience in fabrication of removable partial dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 550 Removable Complete Prosthodontics Clinic I

Units: 1 Clinical demonstration with supervised clinic experience in construction, repair, and evaluation of the removable complete denture. Instruction Mode: Lecture Grading Option: Letter

RPRO 561a Clinic: Removable Complete Prosthodontics I

Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561b Clinic: Removable Complete Prosthodontics I

Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561c Clinic: Removable Complete Prosthodontics I

Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561d Clinic: Removable Complete Prosthodontics I

Units: 2 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 562a Clinic: Removable Complete Prosthodontics II

Units: 0, 1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 562b Clinic: Removable Complete Prosthodontics II

Units: 0, 1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 571a Clinic: Removable Partial Prosthodontics

Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes

seminars related to clinical treatment.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571b Clinic: Removable Partial Prosthodontics

Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571c Clinic: Removable Partial Prosthodontics

Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571d Clinic: Removable Partial Prosthodontics

Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571e Clinic: Removable Partial Prosthodontics

Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571f Clinic: Removable Partial Prosthodontics

Units: 2 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 602 Advanced Removable Prosthodontics

Units: 4 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 604a, RPRO 604b, RPRO 604c. Instruction Mode: Lecture Grading Option: Letter

RPRO 603 The Edentulous Patient — Conventional or Implant Prosthesis

Units: 1 Effective management of the edentulous patient who is unable to adapt to a prosthesis; includes a review of implant dentistry with a hands-on session. Instruction Mode: Lecture Grading Option: Letter

RPRO 604a Advanced Removable Prosthodontics

Units: 0 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction

Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 604b Advanced Removable Prosthodontics

Units: 0 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 604c Advanced Removable Prosthodontics

Units: 4 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction Mode: Lecture Grading Option: Letter

RPRO 605 Prosthodontic Seminar: Removable Partial Prosthodontics

Units: 1 Provides fourth year dental students with an advanced didactic foundation for treating the partially edentulous patient with a removable partial. Instruction Mode: Lecture Grading Option: Letter

Regulatory Science**RSCI 504 Good Laboratory Practices (GLP)**

Units: 2 Introduction to Good Laboratory Practices (GLP), including the design, implementation and monitoring of non-clinical GLP studies, and GLP studies in an academic environment. Instruction Mode: Lecture Grading Option: Letter

RSCI 506 Auditing Principles

Units: 3 Audit requirements mandated by the FDA and other international regulatory agencies including internal, external, regulatory agency, third party, GMP, GLP, ISO 13485/QSR and supplier audits. Instruction Mode: Lecture Grading Option: Letter

RSCI 507 Quality Systems and Statistical Process Control

Units: 2 Fundamentals and applications of Statistical Process Control (SPC) in development and monitoring of manufacturing processes; includes SPC in root cause analysis and CAPA. Instruction Mode: Lecture Grading Option: Letter

RSCI 508 Quality Assurance for Drugs and Biologics

Units: 3 Design and implementation of a quality system to assure quality and safety of pharmaceuticals and biologics, according to relevant FDA and international regulations and guidance documents. Instruction Mode: Lecture Grading Option: Letter

RSCI 509 Quality Assurance, Medical Devices and Combination Products

Units: 3 Design of systems according to FDA and international regulations and guidelines to ensure the quality and safety of medical devices and combination products. Instruction Mode: Lecture Grading Option: Letter

RSCI 520 Introduction to Risk Management for Health Care Products

Units: 2 Historical development, formal

language and theoretical approaches to risk management in health care and medical product environment; policies, regulations, standards; liability prevention and loss control. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Duplicates Credit in former MPTX 520. Instruction Mode: Lecture Grading Option: Letter

RSCI 521 Seminars in Regulatory Science

Units: 1 Max Units: 6.0 Terms Offered: FaSpSm Current problems in regulatory affairs, legal management, preclinical and clinical testing, scientific evaluation and quality assurance. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post secondary training and industry experience; enrollment in MS, Regulatory Science program. Duplicates Credit in former MPTX 521. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 523 Advanced Concepts in Risk Management for Medical Products

Units: 3 Managing risk in demanding health-care and medical-product situations: clinical trials, emerging technologies, counterfeit prevention, hard-to-reach populations. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S. (Regulatory Science), Certificate in Patient and Product Safety, or permission of instructor. Instruction Mode: Lecture Grading Option: Letter

RSCI 525 Introduction to Drug and Food Toxicology

Units: 3 Factors affecting toxic responses to foods and drugs: dose-response relationships, absorption, distribution, biotransformation, elimination of toxicants; target organ toxicity, teratogenesis, mutagenesis, carcinogenesis, food allergies, risk assessment. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 527 Medical Product Safety

Units: 3 Management of medical product safety by manufacturers/suppliers including: safe manufacturing, labeling, packaging; pharmacovigilance, field observations, complaint handling; record-keeping, safety issues documentation; crisis management/recalls. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 529 Application of Risk Management Tools and Techniques

Units: 2 Use of risk management tools in the medical products arena: functional analysis, fault-tree analysis, failure modes and effects analysis, HACCP and six sigma methods.

Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 531 Industrial Approaches to Drug Discovery

Units: 4 Terms Offered: FaSpSm Examines the process of drug discovery from selection of disease and therapeutic target to characterization and validation of lead drug candidates. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

RSCI 532 Early Stage Drug Development

Units: 3 Terms Offered: FaSpSm Explores the activities involved in transforming an early drug or biological candidate to a drug approved for marketing by regulatory authorities. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

RSCI 533 Safety Evaluation during Drug Development

Units: 3 Safety pharmacology/toxicology requirements mandated by FDA and other regulatory agencies to move a new chemical entity from discovery stage to market approval. Instruction Mode: Lecture Grading Option: Letter

RSCI 534 Drug Development in CNS Disorders

Units: 4 Successes and challenges related to central nervous system therapeutics. Major brain disorders, current and future therapeutic targets and clinical trial designs. Instruction Mode: Lecture Grading Option: Letter

RSCI 535 Methods Development and Validation

Units: 3 Foundation in the process of developing and validating analytical methodology for purposes of pharmaceutical, biological and medical device development. Instruction Mode: Lecture Grading Option: Letter

RSCI 540 Analysis of Food and Dietary Supplement Regulations

Units: 3 Changes and interpretation of regulations affecting food supply and dietary supplements impacting global markets. Product development, health-claim positioning, advertising, media messaging, consumer choices, personal health outcomes. Instruction Mode: Lecture Grading Option: Letter

RSCI 541 Drug Development, Reimbursement, and Marketing

Units: 3 Survey of drug development

strategies; health economics and outcomes researches and reimbursements; emphasis on coverage determination process and FDA and CMS parallel review process. Instruction Mode: Lecture Grading Option: Letter

RSCI 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 596 Internship for Curricular Practical Training in Regulatory Science

Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Part-time or full-time practical work experience in Regulatory Science. The internship must be located at an offcampus facility. Students are individually supervised by faculty. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS (Regulatory Science). Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 601 Biomedical Commerce

Units: 4 Introduction to business principles appropriate to medical products, including: supply and demand, product entry-exit strategies, financing, reimbursement, marketing and pricing in global marketplace. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science. Instruction Mode: Lecture Grading Option: Letter

RSCI 603 Managing Complex Projects

Units: 3 Theory and methods to manage complex projects in medical products sectors; timelines, intellectual property, security, contracts, budgets, review activities, reports, electronic tools, cross-cultural communication. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 604 Regulatory Strategy in Asia

Units: 4 Terms Offered: FaSpSm Regulatory policy, standards and practices in different Asian markets: product licensing, import/export management, materials sourcing, quality systems compliance, reimbursement, prescribing practices. Travel may be required. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of postsecondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 605 Managing Organizations and Human Resources

Units: 3 Theory and practice of personnel management, organizational structure

and industrial relations in small, growing enterprises and large global companies typical of pharmaceutical and medical device sectors. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of postsecondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 606 Regulation of Emerging Technologies and Biological Products
Units: 3 Policies, testing and regulatory requirements affecting commercialization of biologics and novel medical technologies. Focus on biologics, blood and tissue products, radiopharmaceuticals and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

RSCI 607 Theory, Methods and Practice of Medical Products Research
Units: 4 Terms Offered: FaSpSm Statistical and research design methods, data analysis, survey and interview techniques laying the foundation for the dissertation. Instruction Mode: Lecture Grading Option: Letter

RSCI 608 Regulatory Strategy in Europe and the Americas

Units: 4 Regulatory strategy in EU, Canada, Mexico and South America; culture, health-care practices, reimbursement, product registration, quality systems, trade restrictions, import/export requirements. Travel may be required. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 790 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Max Units: 12.0 Terms Offered: FaSpSm
Research leading to the doctorate. Maximum units which may be applied towards the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 794a Doctoral Dissertation

Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794b Doctoral Dissertation

Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794c Doctoral Dissertation

Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794d Doctoral Dissertation

Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794z Doctoral Dissertation

Units: 0 Dissertation research required for completion of doctoral degree in regulatory

science. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

RSCI 800 Studies for the Qualifying Exam

Units: 0 Terms Offered: FaSpSm Preparation for the qualifying exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

Russian

RUSS 120 Beginning Russian I

Units: 4 Terms Offered: FaSpSm
Introduction to the Russian language with emphasis on basic conversational skills, major points of grammar and reading. Duplicates Credit in former SLL 120 Instruction Mode: Lecture Grading Option: Letter

RUSS 150 Beginning Russian II

Units: 4 Terms Offered: FaSpSm
Continuation of RUSS 120. *Prerequisite:* RUSS 120 Duplicates Credit in former SLL 150 Instruction Mode: Lecture Grading Option: Letter

RUSS 220 Intermediate Russian I

Units: 4 Terms Offered: FaSpSm
Development of thematic conversational skills with emphasis on extended dialogue. Review of basic morphology with special attention to verbs of motion. Reading of authentic material is emphasized. *Prerequisite:* RUSS 150 Duplicates Credit in former SLL 220 Instruction Mode: Lecture Grading Option: Letter

RUSS 250 Intermediate Russian II

Units: 4 Terms Offered: FaSpSm
Continuation of RUSS 220. Development of proficiency in conversation skills, reading and writing. *Prerequisite:* RUSS 220 Duplicates Credit in former SLL 250 Instruction Mode: Lecture Grading Option: Letter

RUSS 260x The Trans-Siberian Experience

Units: 2 Max Units: 04 Terms Offered: Sp
Introduction to Russian language and culture by means of a study-tour on the Trans-Siberian Railway. Credit Restriction: Not available for major credit for students in Russian and Central European Studies majors Duplicates Credit in former SLL 260 Instruction Mode: Lecture Grading Option: Letter

RUSS 310 Advanced Russian in Popular Culture

Units: 4 Terms Offered: FaSpSm
Advanced conversation, reading, grammar and topical analysis of Russian press, films and other popular sources. Conducted in Russian. *Prerequisite:* RUSS 250 Duplicates Credit in former SLL 310 Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical and Regulatory Science

RXRS 201p The History and Geography of Drugs

Units: 4 Global perspectives; discovery and use of drugs (legal/illegal); poisons. How they helped shape, modify or change history as described in classical literature through present day. Satisfies Global Perspective in Category H: Traditions and Historical

Foundations Instruction Mode: Lecture Grading Option: Letter

RXRS 302 Pharmacology and Drug Development

Units: 4 Introduction to drug development. Drug/Receptor interactions, pharmacodynamics, pharmacokinetics, toxicology, therapeutic interventions, biotransformation, pharmacogenomics, FDA, regulatory requirements and challenges, intellectual property, global challenges of drug development. Instruction Mode: Lecture Grading Option: Letter

RXRS 304 Mysterious Deaths: Toxicology, Poisons, Literature, History

Units: 4 Poisons in classical literature helped shape, modify or change history. Presented in the context of pharmacological/toxicological principles of drug action. Instruction Mode: Lecture Grading Option: Letter

RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society

Units: 4 Principles of human pharmacology/toxicology related to prescription, over the counter medications; nutraceuticals; drug-drug interactions; polypharmacy; hot topics related to recently approved drugs. *Recommended Preparation:* Students should have at completed at least one year of undergraduate biology and/or chemistry Instruction Mode: Lecture Grading Option: Letter

RXRS 403 Neuropharmacology in Health and Disease

Units: 4 Neuropharmacological treatments of brain disorders including neurodegenerative disorders, injury, and disease; influence of environment and experiences on neuroplasticity and brain development; drug discovery. *Prerequisite:* BISC 220Lg Instruction Mode: Lecture Grading Option: Letter

RXRS 404 Neuroimmunity in Health and Disease

Units: 2 Social, psychological, economical, biological reasons associated with drug use/abuse; prevention strategies; Pharmacology and Pharmacotherapy successes/ challenges; current trends; case studies; roles of health care professionals. *Recommended Preparation:* background in or completion of a year of biological science course work Instruction Mode: Lecture Grading Option: Letter

RXRS 405 Pharmacology and Sociology of Drug Abuse

Units: 4 Social, psychological, economical, biological reasons associated with drug use/abuse; prevention strategies; pharmacology and pharmacotherapy successes/ challenges; current trends; case studies; roles of health care professionals. Instruction Mode: Lecture Grading Option: Letter

RXRS 406 Clinical Pharmacology and Medication Management

Units: 4 Comprehensive Medication Management Applications in Pharmacotherapy; evidence-based, pharmacist driven medication selection; improved and/or optimized medication therapy; patient compliance; better and safer health outcomes. *Recommended Preparation:*

clinical pharmacology course Instruction Mode: Lecture Grading Option: Letter

RXRS 407 The Discovery, Development and Marketing of Medicines

Units: 4 Principles, concepts, challenges and short comings of modern day drug discovery and development of medicines. Inter-relationships with regulatory, ethical and societal sectors presented. Instruction Mode: Lecture Grading Option: Letter

RXRS 408 Immunology and Immunotherapeutics

Units: 4 Principles of human immunological responses to maintain wellness and perturbation in disease. Focus on discovery, development and use of pharmacological therapeutic strategies targeting immune mechanisms. *Recommended Preparation:* One year of biology and chemistry Instruction Mode: Lecture Grading Option: Letter

RXRS 409 Neuroimmunology: Focus on Disease and Therapy

Units: 4 Newly evolving science focusing on the role of neuroimmune communication in the pathophysiology of the central nervous system (CNS) disorders. Neuroinflammation as a target for novel therapeutic approaches. Instruction Mode: Lecture Grading Option: Letter

RXRS 410 Cancer Biology and Pharmacotherapy

Units: 4 Cancer and the complex molecular basis leading to tumor oncogenesis, invasion and metastasis; current therapeutic strategies and strategies on the horizon. *Prerequisite:* BISC 120Lg and BISC 220Lg) or (CHEM 105aLg and CHEM 105bL) Instruction Mode: Lecture Grading Option: Letter

RXRS 411 Innovations in Medical Product Development

Units: 4 Developing new medical technologies; political, regulatory, financing and reimbursement issues that may be associated; case studies looking at the newest medical technologies. Instruction Mode: Lecture Grading Option: Letter

RXRS 412 Twenty-First Century Medical Issues and the Law

Units: 4 Difficult issues in the law are examined regarding medical and healthcare controversies such as euthanasia, abortion, embryonic stem cells, human experimentation, and the death penalty. Instruction Mode: Lecture Grading Option: Letter

RXRS 413w Globalization of the Biomedical Industry

Units: 4 Globalization; pharmaceuticals, biologics, medical devices, and combination products in advanced, emerging, and developing markets; regional and national regulations, global and regional harmonization efforts, ethical considerations. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

RXRS 414 Buzzed: Modern Substances of Abuse and Addiction

Units: 4 Modern perspectives; discovery and use of legal and illicit drugs including

alcohol and opioids. How drugs have helped, shaped, modified or changed individuals and society. Instruction Mode: Lecture Grading Option: Letter

RXRS 416 Medical Products: From Idea to Market

Units: 4 Progress of medical product development through intellectual property, animal and clinical trials and commercialization. Emphasis on safety, quality systems and efficacy. Instruction Mode: Lecture Grading Option: Letter

RXRS 417 Food Safety: The Good, The Bad and The Deadly

Units: 4 Critical thinking, science translation, effective communications, personal health, and public policy development are at the interface of food safety, nutrition intervention and health controversies. Instruction Mode: Lecture Grading Option: Letter

RXRS 418 Plant Medicines in Modern Medicine

Units: 4 Plant medicines; how discovered; activity; pharmacology, toxicity and human benefit; emphasis on the US, Europe and China. Instruction Mode: Lecture Grading Option: Letter

RXRS 420 Organ Physiology, Drug Delivery, and Drug Action

Units: 4 Principles of cellular and organ physiology. Interplay between the physiology of these organ systems, drug delivery, and drug action. Instruction Mode: Lecture Grading Option: Letter

RXRS 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research, reading, writing and project development. Instruction Mode: Lecture Grading Option: Letter

Systems Architecting and Engineering

SAE 496 Systems Engineering Through Motorsports

Units: 3 Terms Offered: Irregular Applied systems architecting, engineering and management to motorsports from design to validation and verification; venues include drag racing, grand prix Formula SAE racing, DARPA Challenges. Instruction Mode: Lecture Grading Option: Letter

SAE 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content to be selected each semester from recent developments in Systems Architecting and Engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

SAE 515 Sustainable Infrastructure Systems

Units: 3 Terms Offered: Fa Explores broad issues and mitigation measures involved in the analysis and design of complex, uncertain, interacting infrastructure systems needing to be resilient and sustainable. Instruction Mode: Lecture Grading Option: Letter

SAE 541 Systems Engineering Theory and Practice

Units: 3 Terms Offered: FaSpSm Integration of engineering problem solving

methodologies based on systems concepts. Application to complex, large scale technical systems and problems faced by engineering managers. Case studies. Duplicates Credit in former ISE 541. Instruction Mode: Lecture Grading Option: Letter

SAE 542 Advanced Topics in Systems Engineering

Units: 3 Terms Offered: FaSpSm Probability theory in systems engineering: test design and performance, reliability and maintainability, quantitative decision models. Constraint theory to manage and de-conflict complex requirements. Complexity theory. *Prerequisite:* SAE 541 *Recommended Preparation:* Calculus, linear algebra and multivariate probability Duplicates Credit in former ISE 542 Instruction Mode: Lecture Grading Option: Letter

SAE 543 Case Studies in Systems Engineering and Management

Units: 3 Terms Offered: FaSp Real-world case studies in DoD, NASA, and commercial arenas, employing new methodologies to cover the fundamental positive and negative development learning principles of systems engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 546 Engineered Resilient Systems and System-of-Systems

Units: 3 Terms Offered: Sp Formal methods for the design and analysis of resilient systems and system-of-systems (SoS); Disruption risks as a function of system scale and complexity, management, and architectures. *Recommended Preparation:* SAE 549 Instruction Mode: Lecture Grading Option: Letter

SAE 547 Model-Based Systems Architecting and Engineering

Units: 3 Approaches for modeling systems using software such as SysML; modeling system, requirements, structure, behavior, and parametrics; mapping to hardware description language and behavioral code generation. *Recommended Preparation:* Modeling and simulation courses. Instruction Mode: Lecture Grading Option: Letter

SAE 548 Systems/System-of-Systems Integration and Communication

Units: 3 Terms Offered: FaSp Essentials of systems and system-of-systems integration from the perspectives of business, programs, and technology. Process, legacy, and systems-of-systems integration. Verification and validation methods. Case studies. *Recommended Preparation:* bachelor's degree in engineering or physical sciences. Instruction Mode: Lecture Grading Option: Letter

SAE 549 Systems Architecting

Units: 3 Terms Offered: FaSp Introduction to systems architecture in aerospace, electrical, computer, and manufacturing systems emphasizing the conceptual and acceptance phases and using heuristics. *Prerequisite:* BS degree in a related field of engineering. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-549

SAE 550 Systems Architecting and the Political Process

Units: 3 Analysis of risks inherent in

managing hightech/ high-cost government-funded engineering programs; tools and techniques for coping with the impacts of politically-driven budgets on the engineering design process. *Recommended Preparation:* two years of work experience. Duplicates Credit in former ISE 550. Instruction Mode: Lecture Grading Option: Letter

SAE 551 Lean Operations
Units: 3 Terms Offered: FaSp (Enroll in ISE 506)

SAE 560 Economic Considerations for Systems Engineering
Units: 3 Terms Offered: Sp Impact of economic factors for systems architects and engineers, tools for understanding these factors, fundamental quantitative analysis of cash flow, life-cost estimating for systems and software engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 574 Net-Centric Systems Architecting and Engineering
Units: 3 Terms Offered: FaSp In-depth examination of the technical design approaches, tools, and processes to enable the benefits of net-centric operations in a networked systems-of-systems. Instruction Mode: Lecture Grading Option: Letter

SAE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SAE 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester to reflect current trends and developments in the field of systems architecting and engineering. Instruction Mode: Lecture Grading Option: Letter

Screen Scoring

SCOR 403 Introduction to Scoring Movies and Television
Units: 2 Practical composition course covering the unique art, craft, and technology involved in writing and integrating music for animated and live-action visual media. *Prerequisite:* MUCO 133b *Recommended Preparation:* Composition background, MTEC 443 or MTEC 445 Instruction Mode: Lecture Grading Option: Letter

SCOR 405 Introduction to Scoring Video Games
Units: 2 Practical composition course covering the unique art, craft, and technology involved in composing and integrating video-game music. *Prerequisite:* MUCO 133b *Recommended Preparation:* Composition background, MTEC 443 or MTEC 445 Duplicates Credit in former MUCO 445 Instruction Mode: Lecture Grading Option: Letter

SCOR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 12 Individual research and readings. Not available for graduate credit. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

SCOR 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCOR 501 Individual Instruction
Units: 1, 2 Max Units: 08 Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

SCOR 502 Individual Instruction in Advanced Screen Scoring
Units: 1, 2 Max Units: 4 Individual instruction and review of students' work. Selected composers, orchestrators, filmmakers, and other important industry collaborators offer their insights on scoring and career building. Duplicates Credit in former MUCO 520 and MUCO 545 Instruction Mode: Lecture, Lab Grading Option: Letter

SCOR 503a Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries, animated, and live-action projects. Will also include composing for live recording sessions. Duplicates Credit in former MUCO 440a Instruction Mode: Lecture Grading Option: Letter

SCOR 503b Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries, animated, and live-action projects. Will also include composing for live recording sessions. *Prerequisite:* SCOR 503a Duplicates Credit in former MUCO 440b Instruction Mode: Lecture Grading Option: Letter

SCOR 504a Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments; provides instruction on implementation of those instruments in scoring and orchestrating for the screen. Duplicates Credit in former MUCO 443a Instruction Mode: Lecture Grading Option: Letter

SCOR 504b Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments;

provides instruction on implementation of those instruments in scoring and orchestrating for the screen. *Prerequisite:* SCOR 504a Duplicates Credit in former MUCO 443b Instruction Mode: Lecture Grading Option: Letter

SCOR 505a Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. Duplicates Credit in former MUCO 540a Instruction Mode: Lecture Grading Option: Letter

SCOR 505b Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. *Prerequisite:* SCOR 505a Duplicates Credit in former MUCO 540b Instruction Mode: Lecture Grading Option: Letter

SCOR 506 Applied Techniques in Contemporary Scoring
Units: 2 Explores the most recent artistic and technological innovations in film/television scoring, and includes creating cues from adapted themes. Duplicates Credit in former MUCO 522b Instruction Mode: Lecture Grading Option: Letter

SCOR 511a History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. Duplicates Credit in former MUCO 442a Instruction Mode: Lecture Grading Option: Letter

SCOR 511b History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. *Prerequisite:* SCOR 511a Duplicates Credit in former MUCO 442b Instruction Mode: Lecture Grading Option: Letter

SCOR 512 Entrepreneurialism for the Screen Composer
Units: 2 Addresses challenges facing emerging screen composers, including negotiating deals; establishing a studio, production budgets, and a publishing business; tracking royalties; licensing music; and engaging representation. Instruction Mode: Lecture Grading Option: Letter

SCOR 521a Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. Duplicates Credit in former MUCO 560a Instruction Mode: Lecture Grading Option: Letter

SCOR 521b Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. *Prerequisite:* SCOR 521a Duplicates Credit in former MUCO 560b

Instruction Mode: Lecture Grading Option: Letter

SCOR 523a Advanced Screen Scoring Technology

Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. Duplicates Credit in former MUCO 523a Instruction Mode: Lecture Grading Option: Letter

SCOR 523b Advanced Screen Scoring Technology

Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. *Prerequisite:* SCOR 523a Duplicates Credit in former MUCO 523b Instruction Mode: Lecture Grading Option: Letter

SCOR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the Master's Degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

SCOR 599 Special Topics

Units: 2, 3, 4 Max Units: max 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCOR 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Stem Cell Biology and Regenerative Medicine

SCRM 511 Developmental Biology and Human Embryology

Units: 4 Terms Offered: Fa Survey of anatomical, cellular and molecular processes that underlie human development and congenital malformations, with discussion of other species for comparison. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 513 Stem Cells and Regenerative Medicine

Units: 4 Terms Offered: Fa A comprehensive investigation of embryonic, fetal and adult stem cells and the application of stem cell biology to treat disease. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 515 Bringing Stem Cells to the Clinic

Units: 4 Terms Offered: Sp Lectures addressing the business, legal, ethical, manufacturing and regulatory aspects involved in moving stem cells or related product into clinical practice. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors.

Instruction Mode: Lecture Grading Option: Letter

SCRM 517 Historical and Contemporary Stem Cell Research

Units: 2 Terms Offered: Sp Historical and contemporary stem cell research using hematopoietic stem cells as a model system. *Prerequisite:* SCRM 513 Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Letter

SCRM 519 Historical and Contemporary Research: Neural Stem Cells

Units: 2 Terms Offered: Sp Focuses on historic achievements in stem cell research and how contemporarily, research and its related technological advances have fostered breakthroughs the understanding of NSCs. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

SCRM 521 Historical and Contemporary Research: Tissue Development Engineering

Units: 2 Terms Offered: Sp Focuses on the components of cell, molecular biology, and basic tissue development to comprehend its uses within the realm of synthetic biology and cellular/tissue engineering. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

SCRM 522L Biological Imaging in Stem Cell Research

Units: 2 Terms Offered: Sp Theory and practice of using microscopy and flow cytometry in stem cell biology, including sample preparation, digital processing and data analysis. *Concurrent Enrollment:* SCRM 524L Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 524L Culture and Differentiation of Human Pluripotent Stem Cells

Units: 2 Terms Offered: Sp Classroom and laboratory experience in the techniques for deriving, culturing and differentiating human pluripotent stem cells (hPSCs) and related cell types. *Concurrent Enrollment:* SCRM 522 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 525 Tools and Techniques in Stem Cell Biology

Units: 1 Terms Offered: Fa Introduces students to classical and cutting-edge techniques used to assess stem cells and regenerating systems. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine master students Instruction Mode: Lecture Grading Option: Letter

SCRM 555 Writing About Stem Cell Biology and Regenerative Medicine

Units: 1 Terms Offered: Fa Instruction in writing for various audiences on topics related to stem cell biology and regenerative medicine. Registration Restriction: Open

only to Stem Cell Biology and Regenerative Medicine majors Instruction Mode: Lecture Grading Option: Letter

SCRM 574 Stem Cell and Developmental Biology Seminar Series

Units: 1 Terms Offered: FaSp (Enroll in DSR 574)

SCRM 580 SCRM External Speaker Seminar Series

Units: 2 Max Units: 8.0 Terms Offered: FaSp Reading and discussion of recent papers by the SCRM speaker of the week, and attendance at the speaker's seminar. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

SCRM 590 Independent Research

Units: 1, 2, 3, 4 Max Units: 16.0 Independent research conducted under the guidance of faculty in the Department of Stem Cell Biology and Regenerative Medicine. *Prerequisite:* SCRM 511, SCRM 513, SCRM 515, SCRM 522, SCRM 524, SCRM 555, SCRM 580. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

SCRM 610 Current Topics in Regenerative Medicine

Units: 1 Terms Offered: Sp (Enroll in DSR 610)

SCRM 620 Current Topics in Stem Cell Biology and Organogenesis

Units: 1 Terms Offered: Fa (Enroll in DSR 620)

Slavic Languages and Literatures

SLL 020 Course in Reading Russian

Units: 2 For graduate students wishing to use Russian as a scholarly tool. Emphasis on basic grammar and reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 025 Course in Reading Russian

Units: 2 Continuation of SLL 020. Reading of authentic materials from Russian press and students' areas of interest. *Prerequisite:* SLL 020. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 110g Russia in the Modern Era

Units: 4 Terms Offered: FaSp Key moments in the development of Russian culture since its westernization in the early eighteenth century to the present day. Focus on works of literature, art and other products of the culture that have significantly influenced Russian self-understanding as well as the ways in which Russians perceive the rest of the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

SLL 122 Elementary Polish I

Units: 4 Structure of the language, pronunciation, basic communication, and reading in modern Polish. Instruction Mode: Lecture Grading Option: Letter

SLL 130a Elementary Czech

Units: 4 Structure of the language, basic grammar, pronunciation, and oral

communication. Readings in Czech; discussion of Czech history and culture. Instruction Mode: Lecture Grading Option: Letter

SLL 130b Elementary Czech

Units: 4 Continuation of SLL 130a.

Prerequisite: SLL 130a. Instruction Mode: Lecture Grading Option: Letter

SLL 152 Elementary Polish II

Units: 4 Continuation of SLL 122.

Prerequisite: SLL 122. Instruction Mode: Lecture Grading Option: Letter

SLL 199 Chess and Critical Thinking

Units: 2 Analysis of significant chess games, reflecting societal attitudes toward science, competition, art, gender, psychology, politics, and technology. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 210 Masterpieces of the Russian Short Story

Units: 4 Critical reading of selected masterpieces of the Russian short story; works by Gogol, Turgenev, Dostoevsky, Tolstoy, Babel, Pasternak, Solzhenitsyn, and others. In English. Instruction Mode: Lecture Grading Option: Letter

SLL 222 Readings in Polish Literature I

Units: 4 Continuation of elementary Polish and introduction to outstanding works in Polish literature. *Prerequisite:* SLL 122 and SLL 152. Instruction Mode: Lecture Grading Option: Letter

SLL 252 Readings in Polish Literature II

Units: 4 Continuation of SLL 222.

Prerequisite: SLL 222. Instruction Mode: Lecture Grading Option: Letter

SLL 255 Business Russian

Units: 4 Language and culture course for intermediate Russian level students interested in business. Prepares students to communicate in Russian-speaking business settings in a linguistically sensitive manner. *Prerequisite:* SLL 220. Instruction Mode: Lecture Grading Option: Letter

SLL 270a Russian for Native Speakers

Units: 4 For native Russian speakers who cannot read or write Russian. Emphasis on essentials of grammar, vocabulary, and orthography, and the reading and writing of simple texts in Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 270b Russian for Native Speakers

Units: 4 Continuation of SLL 270a. Instruction Mode: Lecture Grading Option: Letter

SLL 299 Chess — Advanced Thinking Techniques

Units: 2 Development of advanced understanding of the game of chess. Critical analysis of games and of the problem-solving techniques applicable in various game situations. *Prerequisite:* SLL 199. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 300 The Russian Novel

Units: 4 The rise of the novel as the dominant form in Russian literature of the 19th century. Major works by Gogol, Turgenev, Dostoevsky, Tolstoy, and others. In

English. Instruction Mode: Lecture Grading Option: Letter

SLL 301 Russian Literary Avant-Garde

Units: 4 Russian modernism and the avant-garde: development of modern sensibility in literature and the arts from 1880 to 1930. Readings in Chekhov, Sologub, Bely, Mayakovsky, and others. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

SLL 302g Modern Russian Literature

Units: 4 Survey of the major developments in Russian literature during the 20th century, from modernism to the post-Soviet era. Readings in English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SLL 303 Contemporary Russian Literature

Units: 4 Developments in Russian Literature from the 1960s to the present. Literature of moral resistance directed against official cultural models. In English. Instruction Mode: Lecture Grading Option: Letter

SLL 321 Russian Culture

Units: 4 Survey of Russian civilization from the beginnings to the Soviet period focusing on major cultural and artistic trends. *Prerequisite:* four semesters of Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 330gp Russian Thought and Civilization

Units: 4 Russian cultural identity from its beginnings until today. The Eastern Orthodox tradition, its traumatic confrontation with Western culture, and their continuous interaction. *Concurrent Enrollment:* MDA 140. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter, Discussion

SLL 340 Intercultural Communication in Russian

Units: 4 Advanced language training focusing on specific issues of communication with Russians. Analysis and translation of literary texts. Advanced syntax. Conducted in Russian. *Prerequisite:* SLL 250 ; *Recommended Preparation:* SLL 120 , SLL 150 , SLL 220 . Instruction Mode: Lecture Grading Option: Letter

SLL 344g Tolstoy: Writer and Moralist

Units: 4 Tolstoy's major works in the context of his ethical views. Readings and lectures in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

Units: 3 A survey of major Russian fiction in the context of Western European literary movements from the late 18th through late 19th centuries. The course presumes the students' basic acquaintance with the major monuments. Instruction Mode: Lecture Grading Option: Letter

SLL 585 20th Century Russian Literary Criticism
Units: 3 Relationship between practical and theoretical literary criticism: Formalism and Structuralism, Sociological school, and Bakhtin; theoretical approaches applied to specific literary texts. Instruction Mode: Lecture Grading Option: Letter

SLL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

SLL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

SLL 650 Seminar in Russian Literature
Units: 3 Max Units: 9.0 Detailed study of single literary period, movement or genre; two or more selected authors; specific school of literary criticism. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite*: three years of college Russian; *Recommended Preparation*: one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 660 Seminar on a Single Author or Work
Units: 3 Max Units: 9.0 Theme varies from year to year. An author or major work will be selected for intensive study; research paper required. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite*: three years of college Russian; *Recommended Preparation*: one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 665 Seminar in Russian Culture and the Arts
Units: 3 Max Units: 9.0 Subject varies from year to year. A trend or major figure will be studied in its cultural and artistic contexts. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite*: three years of college Russian; *Recommended Preparation*: one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 670 Seminar in Eastern European Cinema
Units: 3 Max Units: 09 Terms Offered: FaSp Topics in Eastern European cinema selected for intensive study. May be repeated with varying content. *Recommended Preparation*: two years of graduate study Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SLL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

SLL 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option:
In-progress to Credit/No Credit

Sociology**SOCI 100gm Los Angeles and the American Dream**

Units: 4 Los Angeles as a metaphor for the American Dream, exploring the city's history and potential futures, including economic opportunity, social justice, spatial organization, and environmental sustainability. Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in the former AMST 100gm and GEOG 100gm. Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 142gm Diversity and Racial Conflict

Units: 4 Terms Offered: FaSp Introduction to the causes and effects of contemporary race relations in a diverse U.S. society. Exploration of racial conflict at the personal and institutional levels. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 150gm Social Problems

Units: 4 Terms Offered: Fa Analysis of factors in current American social problems: crime, delinquency, prostitution, family disorganization, race relations, mental illness. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 155gm Immigrant America

Units: 4 Terms Offered: FaSp Examination of the immigrant experience in the United States. Comparative analysis of social context of migration, formation of immigrant communities, and social integration of immigrants. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 169gm Changing Family Forms

Units: 4 Terms Offered: FaSp The peculiarity of the "modern" Western family system in historical and cross cultural perspective; focus on the "postmodern" family crisis in the United States. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 200gm Introduction to Sociology

Units: 4 Basic concepts of sociology with special reference to group life, social institutions, and social processes. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 210g Science, Technology, and Social Conflict

Units: 4 Science and technology change society and how we understand ourselves. In turn, social struggles influence science. We will explore the interplay between these forces. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 215g Sociology of Wall Street

Units: 4 Terms Offered: FaSp Examines Wall Street as a: market for allocating investment; arbiter of prices; place to work; and a powerful force directing the activities of corporations everywhere. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 220gm Questions of Intimacy

Units: 4 Terms Offered: FaSp Analysis of conditions of intimacy and intimate personal relationships as lenses for understanding social inequalities of race, social class, gender, sexuality, and nation. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 225gw Sociology of Health and the Body

Units: 4 Terms Offered: FaSp Investigation of health as a social category and the varied ways that social and cultural factors shape bodies and health. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 242g Sociology, Demography, and Health

Units: 4 Terms Offered: FaSpSm Sociological and demographic concepts focusing on the causes of disease, health and wellness. Empirical analysis of population composition and its connection to health. *Prerequisite:* BISC 120Lg or BISC 220Lg *Recommended Preparation:* Prepares pre-health students for sociology portion of the MCAT. Registration priority given to pre-health students. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 250gmw Grassroots Participation in Global Perspective

Units: 4 Theory and history behind the ideal of "the local, grassroots volunteer": a direct link between theory and research using Los Angeles as a case study. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 255g Sociology of Globalization

Units: 4 Terms Offered: FaSp This course

examines globalization through social and economic processes and its consequences for social conflict, economic development, human rights, social movements, and national identity. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 270g Sociological Theory

Units: 4 Terms Offered: FaSp Historical and contemporary approaches to sociological theory; analysis of conceptual frameworks applied to the study of society and social interaction. *Prerequisite:* SOCI 200gm Satisfies New General Education in Category C: Social Analysis Duplicates Credit in former SOCI 370 Instruction Mode: Lecture Grading Option: Letter

SOCI 275 Sociology of Everyday Life

Units: 4 The social philosophy of understanding everyday life; describing and analyzing forms of interaction, emotions, knowledge, and the social self.

SOCI 305m Sociology of Childhood

Units: 4 Terms Offered: FaSp Social construction of childhoods; children's social relations and cultures; issues of childcare, poverty, violence, and children's rights; effects of children on adults. *Prerequisite:* SOCI 200gm *Recommended Preparation:* SOCI 270 or SOCI 370 Instruction Mode: Lecture Grading Option: Letter

SOCI 310 Gender and Social Justice

Units: 4 Terms Offered: FaSp (Enroll in SWMS 310)

SOCI 313L Sociological Research Methods

Units: 4 Terms Offered: FaSp Logic of theory construction, research design, elementary data collection and analysis. *Prerequisite:* SOCI 200gm Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 314Lg Analyzing Social Statistics

Units: 4 Terms Offered: FaSpSm Sociological measurement, univariate description, elementary correlation, introduction to statistical inference. *Prerequisite:* SOCI 200gm Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 325 Applied Social Research Methods

Units: 4 Terms Offered: FaSp Use quantitative or qualitative analysis skills to study major social issues using large existing survey data sets or qualitative methods. Become conversant in describing data to a variety of audiences. *Prerequisite:* SOCI 200gm and SOCI 270 and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 335 Society and Population

Units: 4 World population trends and their consequences: determinants of fertility, mortality, and migration; development of elementary models of population change. Instruction Mode: Lecture Grading Option: Letter

SOCI 336 Health, Gender and Ethnicity
Units: 4 Terms Offered: Sp (Enroll in SWMS 336)

SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy
Units: 4 Importance of organizations in social life; techniques for using and changing organizations; examination of strategies for building and sustaining nonbureaucratic organizations. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Cultural and interactional aspects of social institutions as complex social systems; religious, political, industrial, and familial institutions.

SOCI 350 Social Exclusion, Social Power, and Deviance
Units: 4 Terms Offered: FaSp Current theories of origin, distribution, and control of deviant behavior; examination of processes involved in the career deviance of drug addicts, alcoholics, sexual deviants, gamblers, and mentally disordered. *Prerequisite:* SOCI 200gm Instruction Mode: Lecture Grading Option: Letter

SOCI 351 Public Policy and Juvenile Justice
Units: 4 Terms Offered: FaSp Past and current theories of youth crime; gangs and other forms of youth deviance; the changing response of the police, courts, and public to these behaviors. *Prerequisite:* SOCI 200gm *Recommended Preparation:* SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 353 Public Policy and Criminal Justice
Units: 4 Terms Offered: FaSp Nature and trends in crime, policing, courts, and correctional agencies in relation to past, current, and prospective changes in society. *Prerequisite:* SOCI 200gm *Recommended Preparation:* SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 355m Immigrants in the United States
Units: 4 Social construction of historical and contemporary immigration to the United States, including causes of migration, immigration policies, and the socioeconomic integration of immigrants. *Prerequisite:* SOCI 200gm Instruction Mode: Lecture Grading Option: Letter

SOCI 356m Mexican Immigrants in Sociological Perspective
Units: 4 Effects of class, global inequality, legal status, gender, racial/ethnic, and language differences in distinguishing Mexican immigrant populations from the U.S.-born population; differentiation among

Mexican immigrants. Instruction Mode: Lecture Grading Option: Letter

SOCI 357m Latino Politics
Units: 4 (Enroll in AMST 357)

SOCI 360m Social Inequality: Class, Status, and Power
Units: 4 Terms Offered: FaSp Inequalities in wealth, prestige, and power in the United States; the American class structure and the extent of upward mobility in that structure. *Prerequisite:* SOCI 200gm *Recommended Preparation:* SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 362 Global and Transnational Sociology
Units: 4 Terms Offered: FaSp Examines key issues in global and transnational sociology. Globalization is the empirical phenomenon where social, economic, and political interconnectedness across countries impacts the world. Instruction Mode: Lecture Grading Option: Letter

SOCI 364m Racial and Ethnic Women in America
Units: 4 Terms Offered: FaSp (Enroll in SWMS 364m)

SOCI 369 The Family in a Changing Society
Units: 4 Changing family patterns; personality development; family unity, predicting success in marriage; the family in transition; crises such as economic changes, death, divorce; family reorganization. *Prerequisite:* SOCI 200gm Instruction Mode: Lecture Grading Option: Letter

SOCI 376m Contemporary Issues in Asian American Communities
Units: 4 Survey of current social and political issues facing Asian American communities with emphasis on Los Angeles region; design and implementation of community-based research projects. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-376

SOCI 379gm Mixing and Matching: Intermarriage in 21st Century
Units: 4 Terms Offered: Sp (Enroll in JS 379)

SOCI 382 Judaism as an American Religion
Units: 4 (Enroll in JS 382)

SOCI 386m Men and Masculinity
Units: 4 (Enroll in SWMS 385)

SOCI 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SOCI 402 Human Trafficking
Units: 4 Terms Offered: FaSp Interrogates the social construction of the legal category "human trafficking," examining the ideological foundations, the social contentions, and political issues surrounding the issue. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 402

SOCI 408 Volunteers, Non-Governmental Organizations, and Everyday Politics
Units: 4 Terms Offered: FaSpSm Theory, practice, and history of civic life. Examines communication, personal obligation, collective imagination, and political representation, in grassroots, state-sponsored, and non-governmental organization-sponsored civic associations around the world. Instruction Mode: Lecture Grading Option: Letter

SOCI 410 The Sociology of Popular Culture
Units: 4 From the entertainment capital of the world, course surveys sociological research on artistic producers and critical theories of the connections between popular culture and society. Instruction Mode: Lecture Grading Option: Letter

SOCI 425 Social Movements: Power, Resistance, and Political Dynamics
Units: 4 Terms Offered: FaSp When do groups mobilize to defend or resist power? Explores collective mobilization including student protest, minority rights and labor movements, the alt-right, and revolutions. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg and SSCI 301L *Recommended Preparation:* SOCI 325 and SSCI 301L may be taken concurrently Instruction Mode: Lecture Grading Option: Letter

SOCI 429 Immigration, Work and Labor
Units: 4 Terms Offered: FaSp Examination of the experiences of racial minorities in the labor market, niche concentration, the effects of globalization on labor migration, entrepreneurship, discrimination, and minorities in white-collar occupations. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

Units: 4 Contrasting views of work in contemporary societies; technological change in the workplace; opportunity, inequality, conflict, and alienation in different occupations. Instruction Mode: Lecture Grading Option: Letter

SOCI 431 Cities
Units: 4 Terms Offered: FaSp Organization of urban society, including such topics as segregation, urban decay, local politics, residential change, and community conflict. *Prerequisite:* SOCI 200gm and SOCI 270 and SOCI 313L and SOCI 314Lg Duplicates Credit in former SOCI 331 Instruction Mode: Lecture Grading Option: Letter

SOCI 432m Racial and Ethnic Relations in a Global Society
Units: 4 Terms Offered: FaSp Examines race/ethnic relations with U.S. and selected countries from a global perspective, causes/social effects of globalization on people's lives, U.S. attitudes, and political policies. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 432

SOCI 435m Women in Society
Units: 4 Terms Offered: FaSp Women today in the labor force, in politics, and in the

family. Past and contemporary attempts to expand the position of women in society. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 435

SOCI 445 Political and Social Theory
Units: 4 Max Units: 08 Terms Offered: FaSp
Classical and contemporary theories of power, inequality, sociability, symbols and language in market, state, political, and civic organizations. Instruction Mode: Lecture Grading Option: Letter

SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum

Units: 4 Terms Offered: FaSp Internship in a Non-Governmental Organization (NGO). Students will conduct sociological research on issues surrounding NGOs and the work they do. *Prerequisite:* SOCI 250gmw and (SOCI 313L or SOCI 314Lg) Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

SOCI 460 Key Issues in Contemporary International Migration

Units: 4 Terms Offered: FaSp Overview of contemporary patterns of international migration and its implications for receiving and sending countries, with a special emphasis on immigration to the United States. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 464 Sociology of Gender and Work
Units: 4 Terms Offered: FaSp Examination of gender inequality in the U.S. labor market; work-family conflict; employer remedies; comparative social policy. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 465 Visual Sociology of the City and Its Residents

Units: 4 Terms Offered: FaSpSm Students examine images of urban America and use the camera to produce visual representation in their analysis of social relations. *Prerequisite:* SOCI 200gm and SOCI 270 and SOCI 313L and SOCI 314Lg Duplicates Credit in former SOCI 365 Instruction Mode: Lecture Grading Option: Letter

SOCI 468 Sociology of Religion
Units: 4 (Enroll in REL 468)

SOCI 470 Social Change in Low-Income Countries

Units: 4 Theories and case studies on social, economic, political, and cultural development and change in the Third World: Latin America, Asia, or Africa. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 472 Health, Disease, Language and Culture: Guatemala

Units: 3 Terms Offered: Sm Studies health, illness, disease, culture, language and social-economic burdens that affect Guatemala. Students will be immersed into day-to-day life, studying from practitioners in the field.

Instruction Mode: Lecture Grading Option: Letter

SOCI 475 Medical Sociology

Units: 4 Social and cultural factors in causation of disease, health care utilization and health care delivery. Instruction Mode: Lecture Grading Option: Letter

SOCI 480 The Sociology of Risk and Disaster

Units: 4 Terms Offered: FaSp Is there such a thing as a "natural" disaster? Examination of both natural and technological disasters, and exploration of the centrality of risk in industrialized societies. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

SOCI 494 Sociology Honors Seminar I

Units: 4 Terms Offered: Fa Advanced seminar involving extensive reading, research and discussions. Selected subjects; offered in fall only and restricted to honors students. Acceptance into the Honors Program. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 495 Sociology Honors Seminar II

Units: 4 Terms Offered: Sp Seminar in workshop form to accompany completion of Senior Honors Thesis under faculty guidance. Acceptance into Honors Program. *Prerequisite:* SOCI 313, SOCI 494. Instruction Mode: Lecture Grading Option: Letter

SOCI 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 An interdisciplinary examination of selected emerging issues. Instruction Mode: Lecture Grading Option: Letter

SOCI 500 Sociology Professional Seminar

Units: 2 Terms Offered: FaSp Introduces students to the theoretical questions and methodological approaches that comprise the discipline of sociology. Experts in each subfield share their latest research with students. Registration Restriction: Open only to doctoral Sociology majors Instruction Mode: Lecture Grading Option: Letter

SOCI 510 Sociological Theory I

Units: 4 Terms Offered: Fa Developments in sociological theory from the discipline's 19th century origins to World War II. Instruction Mode: Lecture Grading Option: Letter

SOCI 511 Sociological Theory II

Units: 4 Developments in sociological theory from World War II to the present. Duplicates Credit in former SOCI 610. Instruction Mode: Lecture Grading Option: Letter

SOCI 520 Qualitative Research Methods

Units: 4 Terms Offered: Fa Seminar in epistemologies, ethics, and techniques of qualitative research. Critical reading and practice in social observation, interviewing, fieldwork, and research design. Preparation

of IRB proposal. Instruction Mode: Lecture Grading Option: Letter

SOCI 521 Quantitative Methods and Statistics

Units: 4 Terms Offered: Fa Introduction to the logic and methods of quantitative analysis in sociology; covers the basic elements of designing and research, summarizing and exploring patterns in data, and making generalizations about populations based on characteristics of samples. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 525 Sociology Proseminar: Approaches to Sociological Research

Units: 4 Terms Offered: FaSp Graduate students begin their customized literature reviews and develop a paper that will frame the research they pursue in the empirical paper requirement. Instruction Mode: Lecture Grading Option: Letter

SOCI 554 Women in Global Perspective
Units: 4 (Enroll in SWMS 554)

SOCI 560 Feminist Theory

Units: 4 (Enroll in SWMS 560)

SOCI 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 593 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in sociology. Instruction Mode: Lecture Grading Option: Letter

SOCI 620 Advanced Methods – Qualitative Research

Units: 4 Terms Offered: FaSp Seminar and practicum in conducting and interpreting original qualitative research. *Prerequisite:* SOCI 520. Duplicates Credit in former SOCI 524. Instruction Mode: Lecture Grading Option: Letter

SOCI 621L Quantitative Methods and Statistics II

Units: 4 Terms Offered: Sp Casual modeling and the inter-relationships among social phenomena: covers the basic elements of casual inference and generalizability, linear regressions analysis, and categorical data analysis. *Prerequisite:* SOCI 521 Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 622L Advanced Methods – Quantitative Research

Units: 4 Terms Offered: FaSp Advanced research methodology in survey technique, evaluation research, instrument construction, and demographic analysis. Duplicates Credit in former SOCI 523 Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 625 Demographic Methods

Units: 4 Terms Offered: FaSp Procedures and techniques for the collection, evaluation, and analysis of demographic data; census and vital registration systems; basic measures of demographic components, and the construction of life tables and population projections. *Prerequisite:* SOCI 521. Duplicates Credit in former SOCI 540. Instruction Mode: Lecture Grading Option: Letter

SOCI 628 Theories of Aging

Units: 4 (Enroll in GERO 628)

SOCI 640 Sociology of Gender and Sexuality

Units: 4 Terms Offered: FaSp Approaches to gender and sexuality within sociology and social theory, highlighting contemporary empirical research on sexualities. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former SOCI 530. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-640

SOCI 642 Sex and Gender in Society

Units: 4 Terms Offered: FaSpSm The social organization of gender in the contexts of work, families, intimacy, sexuality, reproduction, violence. Variations by race, ethnicity, social class. Processes of social change. Duplicates Credit in former SOCI 552. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-642

SOCI 643 Sociology of Labor

Units: 4 Terms Offered: FaSp Viewing labor and labor movements from a macro/meso/micro perspective. Examination in the formation of labor markets, global economy, organization of work, conditions of work, movements. Instruction Mode: Lecture Grading Option: Letter

SOCI 644 Population Trends: Public and Private Policies

Units: 4 Terms Offered: FaSp World and national population trends; causes and implications for economic, health, and social policies. Duplicates Credit in former SOCI 544. Instruction Mode: Lecture Grading Option: Letter

SOCI 645 Seminar in World Population Problems

Units: 4 Terms Offered: FaSp Demographic

characteristics of the major regions of the world; social, economic, and political implications of population trends and methods of demographic analysis. *Prerequisite:* 335g. Duplicates Credit in former SOCI 545. Instruction Mode: Lecture Grading Option: Letter

SOCI 646 Economic Sociology

Units: 4 Terms Offered: FaSp Classical/neoclassical economic models of human action, sociological alternatives, the history of the large corporation, sociological models of production/labor/financial markets... and the role of economic institutions in the larger society. Instruction Mode: Lecture Grading Option: Letter

SOCI 647 Political Sociology: Politics, Symbols and Everyday Life

Units: 4 Terms Offered: FaSp Political power, conflict and apathy; public symbols, debate and discourse; nationalism; relations between politics, provision of social services and economics in comparative and historical perspective. Duplicates Credit in former SOCI 537. Instruction Mode: Lecture Grading Option: Letter

SOCI 648 Fertility Control Policies

Units: 4 Terms Offered: FaSp Fertility control policies, and their consequences, including family planning and other pronatalist and antinatalist programs. Duplicates Credit in former SOCI 548. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-648

SOCI 649 Migration Policies

Units: 4 Terms Offered: FaSp Analysis of migration and population redistribution; policies affecting such migration and redistribution. Duplicates Credit in former SOCI 549. Instruction Mode: Lecture Grading Option: Letter

SOCI 651 Seminar in Social Stratification

Units: 4 Terms Offered: FaSp Critique of research literature and research methods in the area of social class and social stratification; major theories and theoretical implications of current research. Duplicates Credit in former SOCI 551. Instruction Mode: Lecture Grading Option: Letter

SOCI 653 Seminar in Science and Technology Studies

Units: 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key concepts and theories in the interdisciplinary field of Science and Technology Studies. Duplicates Credit in former SOCI 532. Instruction Mode: Lecture Grading Option: Letter

SOCI 654 Social Movements

Units: 4 Terms Offered: FaSp Theories explaining collective action and the outcomes of those struggles. Instruction Mode: Lecture Grading Option: Letter

SOCI 655 Seminar in Race Relations

Units: 4 Terms Offered: FaSp Current racial problems in the United States and other countries; critiques of literature on race relations. Duplicates Credit in former SOCI 555. Instruction Mode: Lecture Grading Option: Letter

SOCI 656 Social Demography

Units: 4 Terms Offered: FaSp Theoretical

perspectives of population, historical and contemporary accounts of population trends and statistics, and the latest research on the causes and consequences of demographic processes. *Recommended Preparation:* enrollment in a PhD program. Instruction Mode: Lecture Grading Option: Letter

SOCI 657 Sociology of Culture

Units: 4 Terms Offered: FaSpSm Cultural theories and forms of cultural analysis appropriate for sociological research; critical examination of theory and research on how culture relates to social structure, social inequality, politics, institutions, and everyday interaction. *Recommended Preparation:* SOCI 510 or prior undergraduate or graduate coursework in social science or communication studies. Duplicates Credit in former SOCI 535. Instruction Mode: Lecture Grading Option: Letter

SOCI 658 Sociology of Health and Medicine

Units: 4 Terms Offered: FaSp Analyze social causes of sickness, study medical power, the social constructions of health/illness, examine medicine as a site of sociological action and struggle. Instruction Mode: Lecture Grading Option: Letter

SOCI 667 Seminar in Social Deviance

Units: 4 Terms Offered: FaSp Deviance and social rules in groups and communities; contemporary social policies involving ethnic, cultural, and social factors. Duplicates Credit in former SOCI 566. Instruction Mode: Lecture Grading Option: Letter

SOCI 669 Seminar in Family Sociology

Units: 4 Terms Offered: FaSp Origins and consequences of historical change and variation between groups in family structures and processes, relationships, well-being and connections with other social institutions. Instruction Mode: Lecture Grading Option: Letter

SOCI 670 Seminar in Organizational Analysis

Units: 4 Terms Offered: FaSp Literature evaluation, theory building, and research in the area of large-scale organizations and other types of institutionalized groups. Duplicates Credit in former SOCI 550. Instruction Mode: Lecture Grading Option: Letter

SOCI 671 Urban Sociology

Units: 4 Terms Offered: FaSp Examination of theories and research on cities in the United States, examining issues such as politics, race, development, and inequality. Registration Restriction: Open only to graduate students. Duplicates Credit in former SOCI 571. Instruction Mode: Lecture Grading Option: Letter

SOCI 675 Seminar in Immigration

Units: 4 Terms Offered: FaSpSm Survey of key theoretical approaches and relevant issues in immigration studies. Themes include: transnationalism, globalization, gendered migration, segmented assimilation, immigrant labor markets, social incorporation and citizenship. Duplicates Credit in former SOCI 575. Instruction Mode: Lecture Grading Option: Letter

SOCI 680 Writing for Publication in Sociology

Units: 4 Terms Offered: Sp Prepares graduate students to publish in peer reviewed journals. *Prerequisite:* SOCI 620 or SOCI 622L. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 685 Seminar in Aging

Units: 4 Terms Offered: FaSp Research seminar to review identification of problems, issues of theory, and methodology and implications for research designs. Duplicates Credit in former SOCI 580. Instruction Mode: Lecture Grading Option: Letter

SOCI 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Social Work**SOWK 200xm Institutional Inequality in American Political and Social Policy**

Units: 4 Historic and philosophical roots of inequality for minority groups in the United States and implications for public policy. Instruction Mode: Lecture Grading Option: Letter

SOWK 304 Children and Families in Urban America

Units: 4 Gateway to the minor in Children and Families in Urban America. Provides foundation for principles on the conditions of children, families and communities, partnerships between families and human service professionals, and interprofessional practice in urban American communities. Instruction Mode: Lecture Grading Option: Letter

SOWK 305L Children and Families in Urban America Integrative Seminar

Units: 2 Introduction to human service professionals, agencies and institutions in the greater Los Angeles area which serve

children and families who reside there.

Instruction Mode: Lecture, Lab Required
Grading Option: Letter

SOWK 350 Adolescent Gang Intervention

Units: 4 The incidence of gangs (particularly in the Los Angeles area), gang interventions, and policies developed to address the growing gang situation. Instruction Mode: Lecture Grading Option: Letter

SOWK 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SOWK 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within social work. Instruction Mode: Lecture Grading Option: Letter

SOWK 506 Human Behavior and the Social Environment

Units: 3 The person-in-environment, bio-psycho-social perspective is the lens through which theories of personality, family, group, organization, community, culture and their interactions are explored. Duplicates Credit in the former SOWK 503 and SOWK 505. Instruction Mode: Lecture Grading Option: Letter

SOWK 535 Social Welfare

Units: 3 Structure and operation of current American social welfare programs (social policy analysis). *Prerequisite:* the former SOWK 534. Instruction Mode: Lecture Grading Option: Letter

SOWK 536 Policy and Advocacy in Professional Social Work

Units: 3 A study of the complex and interconnecting systems of policy, programs and communities that directly and indirectly impact Social Workers' clients' lives. Duplicates Credit in the former SOWK 534. Instruction Mode: Lecture Grading Option: Letter

SOWK 544 Social Work Practice With Individuals, Families, and Groups

Units: 3 Principles underlying generic social work practice with emphasis on working with individuals, families, and groups. Duplicates Credit in SOWK 543 and SOWK 545. Instruction Mode: Lecture Grading Option: Letter

SOWK 546 Science of Social Work

Units: 3 Introduction to the role of scientific inquiry in advancing social work goals. Inspires students to include science in their social work identity and professional decision-making. Duplicates Credit in SOWK 562. Instruction Mode: Lecture Grading Option: Letter

SOWK 588 Integrative Learning for Social Work Practice

Units: 2 Integrative learning organized as a small group educational environment that incorporates field experiences, case vignettes, and dialogical inquiry through a Problem Based Learning framework. Duplicates Credit in former SOWK 587a and SOWK 587b. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 589a Applied Learning in Field Education

Units: 3 Supervised field education where students learn and apply evidence-based interventions and clinical skills in practice labs and social work settings. *Concurrent Enrollment:* SOWK 544. Duplicates Credit in SOWK 586a. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 589b Applied Learning in Field Education

Units: 3 Supervised field education where students learn to apply coursework concepts while practicing in a field setting that aligns with students' academic department. *Prerequisite:* SOWK 589a. *Concurrent Enrollment:* SOWK 588. Duplicates Credit in SOWK 586b. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 599 Special Topics

Units: 1, 2, 3, 4 Max Units: 13.0 Instruction Mode: Lecture Grading Option: Letter

SOWK 601 Advanced Theories and Interventions with Children and Adolescents

Units: 3 Advances students' knowledge and clinical skills working with children and adolescents. Emphasis on problems affecting children, including developmental derailments and disruptions. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 602 Advanced Theories and Clinical Interventions with Families

Units: 3 Advances students' knowledge and clinical skills working with diverse urban families experiencing various stressors. Exploration and application of a range of family therapy models. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master's Social Work students Instruction Mode: Lecture Grading Option: Letter

SOWK 605 Human Development and Mental Health

Units: 3 Understanding problem-producing behaviors and their ramifications on individuals, families and groups that comprise the clientele in mental health settings. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 607 Feminist Theory, Social Action, and Social Work: Philippines

Units: 4 Terms Offered: Sm Understanding and awareness of the political, economic, social, and cultural contexts through a

feminist perspective, using the Philippines as a case study. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 608 Research and Critical Analysis for Social Work with Children and Families

Units: 3 Critical analysis and application of various data, information, and evidence to understand client problems and service needs, identify appropriate interventions, and evaluate practice decisions. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 603 . Instruction Mode: Lecture Grading Option: Letter

SOWK 609 Introduction to Social Work Practice with Children, Youth and Families

Units: 3 Understanding development of children and families from birth to adolescence and the developmental difficulties from an ecological perspective. Assessment/engagement of families and Interventions are introduced. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 610 Social Work Practice with Children and Families Across Settings

Units: 3 Terms Offered: Other Theory and principles underlying social work in host settings and non-specialty sector settings with a primary emphasis on working with Children, Youth, and Families. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 611 Leadership and Management in Social Work

Units: 3 Methods and principles of leadership and management applied to social work practice, understood as policy, management and clinical practice in the non-profit sector, health and human service organizations, and non-traditional social work settings. Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 612 Assessment and Diagnosis of Mental Disorder

Units: 3 Assessment of mental disorders, and the rationale and organization of the system for diagnosis. Emphasis is on developing differential diagnostic skills. Instruction Mode: Lecture Grading Option: Letter

SOWK 613 Social Work Practice with Children and Families in Early and Middle Childhood

Units: 3 Provides understanding of the development of problems in early childhood, and skills for engagement, assessment, intervention, and evaluation of effectiveness for treatment of these problems. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 614 Social Work Practice in School Settings

Units: 3 Based on ecosystems perspectives, this course examines policies, theories and principles of social work practice in school

settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 615 Brief Therapy and Crisis Intervention

Units: 3 Theory and multimodal approaches for brief therapy and crisis intervention with diverse clientele in a range of mental health and health settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 616 Clinical Practice with Older Adults

Units: 3 Developmental tasks of adulthood and later life, as well as assessment and intervention for problems and disorders associated with aging. Instruction Mode: Lecture Grading Option: Letter

SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery

Units: 3 Causal exploration of substance related and behavioral addictive disorders. Evidence-based and practice informed treatment models for vulnerable individuals, groups and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 618 Systems of Recovery from Mental Illness in Adults

Units: 3 Terms Offered: FaSpSm Focus on the multi-level impact of mental illness on adults and families. Evidence-based interventions promoting increased quality of life and stability are emphasized. Instruction Mode: Lecture Grading Option: Letter

SOWK 619 Social Work in Public Child Welfare Settings

Units: 3 This advanced seminar will provide tools to enhance the practitioner's response to the special challenges (substance abuse, HIV/AIDS, domestic violence) in public child welfare. Instruction Mode: Lecture Grading Option: Letter

SOWK 620 Social Work Practice With Transitional Youth

Units: 3 Terms Offered: FaSpSm Students will be introduced to policies affecting transitional youth and use a biopsychosocial perspective to work with them on macro, meso, and micro levels. Duplicates Credit in former SOWK 525. Instruction Mode: Lecture Grading Option: Letter

SOWK 621 Social Work Practice with Adolescents, Young Adults and their Families

Units: 3 Intervention with adolescents, young adults and addressing their developmental problems, challenges and solutions. Engagement and evidence based intervention in working with youth will be covered. *Prerequisite:* SOWK 506 and SOWK 544 and SOWK 608 and SOWK 609 and SOWK 610 Registration Restriction: Open only to Masters students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 623 Social Work in Early Care and Education Settings

Units: 3 Provides tools to enhance social work practice skills supporting young children and their families, and preparation for leadership in early care and education settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 624 Social Work in Juvenile Justice Settings

Units: 3 Provides orientation to the context and operations of juvenile justice systems, and advanced skills for social work practitioners working with youth, families and communities. Instruction Mode: Lecture Grading Option: Letter

SOWK 625 Evaluation of Research: Mental Health

Units: 3 Range of research conducted in mental health; evaluation of selected research reports and their application to social work practice. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 626 Social Conflict, Empowerment and Creative Practice in Israel

Units: 4 Terms Offered: Sm The summer global immersion program in Israel focuses on understanding social problems and alleviating them through empowerment approaches and the utilization of expressive practices. Instruction Mode: Lecture Grading Option: Letter

SOWK 627 Policy and Macro Practice in Child, Youth and Family Services

Units: 3 Provides context and preparation for social work practitioners holding policy, management and macro practice roles in communities and organizations serving children, youth and families. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 629 Research and Evaluation for Community, Organization and Business Environments

Units: 3 Research/evaluation skills and critical analysis of data information systems to inform decision making to improve effectiveness of social work practice in community, organizations and business. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice

Units: 3 Introduction to diversity and social justice in the context of social work practice. Enhance cultural competence by raising awareness of one's own values/assumptions/biases. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 631 Advanced Theories and Clinical Interventions in Health Care

Units: 3 Evaluation of theory, best practices, emerging issues, and skill development in health settings; interaction among cultural, socioeconomic, and organizational factors. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master students in

the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 633 Life in the US Military: Foundations of Practice in Military Social Work

Units: 3 Examines the experience of military service, including challenges and theoretical and empirical foundations of military social work clinical practice. *Prerequisite:* SOWK 506 and SOWK 536 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 634 Violence Against Women: A Transnational Perspective

Units: 3 Broad understanding of violence against women within a global context, moving beyond the examination of violence as a phenomenon in order to effect social change. *Prerequisite:* SOWK 506 and SOWK 544 and SOWK 546 and SOWK 536 and SOWK 589a Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Duplicates Credit in former SOWK 522 Instruction Mode: Lecture Grading Option: Letter

SOWK 635 Research and Evaluation for Social Work with Adults and Older Adults

Units: 3 Critical analysis and application of health and mental health research evidence to inform, enhance and strengthen social work practice with adults and aging populations with a focus on evaluating published research, identifying and interpreting available sources of data, appraising practical measures/ assessments and selecting appropriate evidence-based interventions. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to masters students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 637 Assessing Wellness to Improve Recovery in Integrated Care

Units: 3 Assessing and promoting wellness and recovery, interacting systems of mind, brain, and body. Evidence-based integrated care interventions in a new era of health care reform. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 638 Policy in Integrated Care

Units: 3 Analysis of policies and health care delivery with focus on implications for social workers and their clients in settings with adults, families, and older adults. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 636. Instruction Mode: Lecture Grading Option: Letter

SOWK 639 Policy Advocacy and Social Change

Units: 3 Analysis of efforts to improve local human services organizations and agencies with consideration of political, social, demographic and organization contexts.

Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 640 Clinical Practice with the Military Family

Units: 3 Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 641 Clinical Practice with Service Members and Veterans

Units: 3 Needs of service members/ veterans within the context of their families/ communities. Approaches to treatments with goal of advancing knowledge of best practices and current evidence-based models. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 643 Social Work Practice in Integrated Care Settings

Units: 3 Social work processes and skills required for the implementation of short-term interventions in medical, behavioral health and integrated care settings with individuals, families and groups. *Prerequisite:* SOWK 544 and SOWK 637 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 644 Explanatory Theories of Health and Mental Health

Units: 3 Behavioral health theory course that integrates theories of health and mental health and builds on the content from the Human Behavior and Social Environment course. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 645 Clinical Interventions: Evidence Based Practice in Health and Mental Health Settings

Units: 3 Social work processes from intake to termination; emphasis on clinical skills required for social work practice in a broad spectrum of health and mental health settings. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 647 Advanced Practice with Complex Social Work Cases

Units: 3 Introduction to advanced practice concepts essential to understanding engagement, assessment and diagnosis with complex social work cases from a meta-framework perspective. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 635 and SOWK 637 and SOWK 638 and SOWK 643 and SOWK 644 Registration Restriction: Open only to master students

in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 648 Management and Organizational Development for Social Workers

Units: 3 Methods and principles of management focusing on health and human service organizations, including strategic management, financial analysis, and innovative project development in social work. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 650 Military and Veteran Policy and Program Management

Units: 3 Understanding the development and implementation of military and veteran policy and programs including family advocacy, prevention of sexual assault, suicide, alcohol/substance use and homelessness. *Prerequisite:* SOWK 534 or SOWK 536 Registration Restriction: Open only to Masters students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 651 Clinical Psychopharmacology for Social Workers

Units: 3 Understanding major psychoactive drugs used in treatment of psychological and behavioral disorders in behavioral and primary care medical settings. Theoretical/ practical approaches to treatment are examined. *Prerequisite:* SOWK 546 or SOWK 562 Instruction Mode: Lecture Grading Option: Letter

SOWK 652 Social Work Practice in Workplace Settings

Units: 3 Social Work services designed to improve and/or maintain the productivity and healthy functioning of individuals in the workplace. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Masters Students in Social Work Duplicates Credit in SOWK 671 Instruction Mode: Lecture Grading Option: Letter

SOWK 653 Social Work with Older Adults

Units: 3 Terms Offered: FaSpSm Integrates foundation and advanced knowledge and skill for practice with and in behalf of older adults. Instruction Mode: Lecture Grading Option: Letter

SOWK 654 National Immersion in Washington, DC: Child Development and Social Policy

Units: 3 Terms Offered: Sp A short study in Los Angeles and Washington, DC, addressing the development and change of Federal social policy concerning child development, especially as it pertains to local programs and services for children and their families. Priority enrollment given to currently enrolled MSW students. Instruction Mode: Lecture Grading Option: Letter

SOWK 655 Global Immersion in Military Culture: U.S. Forces Abroad

Units: 4 Terms Offered: Sm This course will enhance students' understanding of the delivery of human services on overseas

military installations. Instruction Mode: Lecture Grading Option: Letter

SOWK 656 National Military Immersion in Washington, DC: Military and Veterans Policy and Practice

Units: 3 Terms Offered: Sp A short study at the campus, online, and in Washington, DC addressing policies and programs for military members, veterans, and their families. Priority enrollment given to currently enrolled MSW students. *Prerequisite:* SOWK 536 and SOWK 544 Instruction Mode: Lecture Grading Option: Letter

SOWK 657 Social Work Practice with Native American Children, Families and Communities: National Immersion

Units: 3 Terms Offered: Sp Understanding and applying social work practice with Native American children, families and communities through a community immersion experience on Indian Reservation. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 658 Organizational Practice and Development in Business Environments

Units: 3 Prepares students for organizational practice and program development in business environments, emphasizing organizational change initiatives, employee program development and corporate social responsibility initiatives. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 673 . Instruction Mode: Lecture Grading Option: Letter

SOWK 659 Pathways to Immigration: Global Immersion to Mexico

Units: 3 Terms Offered: Sp Understanding of immigration issues in Southern California via an immersion experience to expose students to the realities that immigrants from Mexico and Central America face. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 660 Health Care Delivery Systems: Planning for Health and Social Services

Units: 3 Evaluating health care delivery systems in the U.S. and internationally including community social capital, health disparities, access to care, and policy implications for diverse populations. Instruction Mode: Lecture Grading Option: Letter

SOWK 663 Clinical Practice with Couples

Units: 3 Examination of major models and diverse intervention strategies to ameliorate common presenting problems of couples. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 664 Consultation, Coaching and Social Entrepreneurship

Units: 3 Expanding roles that social workers play within both non-profit and for profit

corporations. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 and SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 665 Grant Writing and Program Development for Social Workers

Units: 3 Grant writing and program development that are generalized to any settings and relevant to direct and macro social work practice expertise. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 666 Domestic and Intimate Partner Abuse

Units: 3 Recognition of domestic and intimate partner abuse and examination of effective intervention measures and preventive methods. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 668 Social Work and Law

Units: 3 Examination of roles, opportunities, and concerns for the practice of social work in the structures and procedures of the law. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 669 Managing Change and Organization Development

Units: 3 Conceptual framework and practical skills needed to design, implement and evaluate effective change and organization development programs. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 670 Global Dimensions in Social Policy and Social Work Practice

Units: 3 Exploration and critique of how political, economic, cultural, religious and environmental factors impact social welfare policies, social work practice, and social development globally. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 672 Social Work and Business Settings

Units: 3 Terms Offered: FaSpSm Examining the roles social workers play in business, how their skills integrate and support business practice, and how the profession can impact internal/external business

environments. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 674 Human Sexuality in Clinical Social Work Practice

Units: 3 Explores physiological, psychological, and sociocultural variables associated with sexual identity, sexual orientation, and sexual behavior to increase student understanding and appreciation for human sexual behavior. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 675 Play Therapy in Social Work with Children and Adolescents

Units: 3 Advances student theoretical knowledge and clinical practice skills in working with children, adolescents, and their families and explores the process of child psychotherapy. *Prerequisite:* (SOWK 503 and SOWK 543 and SOWK 545) or (SOWK 506 and SOWK 544) Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 676 Psychopharmacology for Therapists and Counselors

Units: 1 Terms Offered: FaSpSm Overview of various classes of basic psychotherapeutic medications. Useful to social workers, counselors, therapists, and other individuals who counsel and treat mentally ill patients. Instruction Mode: Lecture Grading Option: Letter

SOWK 677 Mental Health Practice with Children and Adolescents

Units: 3 The assessment and treatment of children with serious emotional disturbance, including the service delivery models and policies that influence service delivery. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 678 Child Abuse and Neglect: Intervention and Treatment

Units: 3 Advanced practice course focusing on interventions with and treatment of complex family systems where the effects of child maltreatment are the presenting problems. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 679 Organizational Group Behaviors and Interventions

Units: 3 Emphasizing group and organizational dynamics, this course provides an understanding of human behavior in work-related environments, and prepares students for mezzo practice in these settings. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 . Instruction Mode: Lecture Grading Option: Letter

SOWK 680 Social Work Spanish for Culturally Competent Services

Units: 3 Integration of cross-cultural practice skills with Spanish language development through the class instruction and practice

development. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 681 Managing Diversity in a Global Context

Units: 3 Interdisciplinary approach to innovative practices that make the workplace more inclusive and productive. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 682 Spirituality, Religion, and Faith in Clinical Practice

Units: 3 Examination of diverse spiritual and religious traditions. Spiritually-sensitive treatment approaches applied to psychological and spiritual clinical problems of individuals, couples, and families. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 683 Hypnosis Social Work Practice

Units: 3 Examination of major theoretical and practice applications of hypnosis in social work practice and development of a beginning level of competency. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 684 Community Practice for Social Innovation

Units: 3 Working effectively within marginalized, underserved populations and diverse community settings on their wicked, consistent, and complex issues by providing innovative and sustainable solutions. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 685 Working with Adolescents: Practice, Systems and Advocacy

Units: 3 Enhance knowledge and skill in working with adolescents involved in the child welfare, juvenile justice and other systems. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 687 Media in Social Work

Units: 3 Creation of short documentaries for social change. Techniques in media production, strategies for media outreach, and development of media literacy skills to deconstruct media messages. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction:

Open only to MSW students Instruction Mode: Lecture Grading Option: Letter

SOWK 688 School Violence

Units: 3 Examines theoretical, empirical and practice-based literature on school violence including how students' physical well-being, academic functioning, social relations, and emotional and cognitive development are affected. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 690a Research

Units: 1, 2, 3, 4 Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 690b Research

Units: 1, 2, 3, 4 Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 692 Loss, Grief and Bereavement

Units: 3 Focus on the experiences of loss, death and bereavement as it is viewed by individuals, families and loved ones. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 694 Group Psychotherapy in Mental Health Settings

Units: 3 Focus on group therapy for clinical social workers as practiced in various mental health settings. The entire process of group development is examined. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 696 LGBT Psycho/Social/Political Issues

Units: 3 Overview of clinical, social and political issues with which social workers should be familiar when working with lesbian, gay, bisexual and transgender clients. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 698a Integrative Learning for Advanced Social Work Practice

Units: 1 Advanced integrative learning that incorporates field experiences, evidenced-based interventions, case vignettes and dialogical inquiry through a Problem Based Learning framework. *Prerequisite:* SOWK 588 and SOWK 589b *Concurrent Enrollment:* SOWK 699a Registration Restriction: Open only to Master students in Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 698b Integrative Learning for Advanced Social Work Practice

Units: 1 Advanced integrative learning builds on 698a by incorporating field experiences, case/best practices consultations, and

dialogical inquiry on micro, mezzo, and macro practice levels. *Concurrent Enrollment:* SOWK 699b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 699a Advanced Applied Learning in Field Education

Units: 4 Advanced supervised field education where students practice social work skills and apply evidence-based interventions, including some that are specific to their academic department. *Prerequisite:* SOWK 588 and SOWK 589a and SOWK 589b. *Concurrent Enrollment:* SOWK 698a. Duplicates Credit in SOWK 686a . Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 699b Advanced Applied Learning in Field Education

Units: 4 Advanced supervised field education where students practice social work skills and apply evidence-based interventions, including some that are specific to their academic department. *Prerequisite:* SOWK 699a. *Concurrent Enrollment:* SOWK 698b. Duplicates Credit in SOWK 686b . Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 702 Theories of Human Behavior in the Contexts of Social Environments

Units: 3 A focus on human behavior in interaction with the social environment; major paradigms including general systems theory, ego psychology, and role theories are examined. Instruction Mode: Lecture Grading Option: Letter

SOWK 703 Explanatory Theories for Larger Social Systems

Units: 3 Theories of organizational and community behavior are examined in relation to their influence on the development of social services. Instruction Mode: Lecture Grading Option: Letter

SOWK 704 Strategic Innovations for the Grand Challenges

Units: 3 Grand Challenge initiatives and interventions from diverse perspectives are explored. Multidisciplinary strategies of innovation are analyzed to effect broad-based opportunities and barriers to change. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 705 Leading Public Discourse

Units: 3 Leading public discourse for the purposes of increasing civic engagement and public participation, building broad based public support and enabling competencies. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 706 Leading and Managing Large Complex Systems

Units: 3 Examining large scale national, state and local social intervention programs as well as implications for fiscal and outcome accountability. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 707 Financial Management for Social Change

Units: 3 Effective financial management in human service organizations emphasizing designing fiscal approaches that maximize revenue, improve decision making, and support disruptive social change. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 710 Preparatory Scholarship for Capstone

Units: 3 Design and develop an innovative, feasible, logical, and defensible Grand Challenge Capstone Project; consider contextual issues, and enhance innovation and communication skills *Prerequisite:* SOWK 704 and SOWK 711 and SOWK 723 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 711 Design Laboratory for Social Innovation I

Units: 3 Integrates design thinking with innovation dynamics as a practice methodology for social innovation with application towards the development of an innovation corresponding to capstone project. *Corequisite:* SOWK 704 Registration Restriction: Open only to doctoral students in USC School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 712 Residency I

Units: 3 Terms Offered: Sm Five-day campus based residency in the third semester of the DSW program designed to bring students together for a series of presentations and workshops by 'thought leaders' of the Grand Challenges of Social Work. *Prerequisite:* SOWK 704 and SOWK 711 and SOWK 723 *Corequisite:* SOWK 705 and SOWK 710 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 713 The Application of Implementation Science

Units: 3 Introduction to doctoral level research and evaluation, introducing concepts of effectively using literature, formulating a problem for research, and effectively identifying a research or evaluative approach. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 714 Leaders as Maestros: Designing Change in the Grand Challenges

Units: 3 The Leader/Maestro Concept enlarges the student from a virtuoso perspective -- individual performance -- to include an organizational performance in creating and measuring change. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 720 Communication and Influence for Social Good

Units: 3 Explores how communication and new information technology influence decision-makers and the general public to address the Grand Challenges in the interest of the public good. *Prerequisite:* SOWK 704

and SOWK 705 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 721 Data Driven Decision Making in Social Services

Units: 3 Practical introduction to using quantitative administrative data to identify trends, track performance, evaluate programs, and drive decision making. *Prerequisite:* SOWK 713 *Corequisite:* SOWK 714 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 722 Implementing Your Capstone and Re-envisioning Your Career

Units: 3 Culminates in the completion of a fully implementable Grand Challenge capstone project and a plan that re-envision career pathways conducive to launching the project. *Prerequisite:* SOWK 705 and SOWK 710 and SOWK 711 and SOWK 723 *Corequisite:* SOWK 724 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 723 Design Laboratory for Social Innovation II

Units: 3 The Design Laboratory provides a space for DSW students to test theoretical frameworks and models for their Grand Challenge Capstone Project. *Prerequisite:* SOWK 711 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 724 Residency II

Units: 3 Terms Offered: Sm Campus-based residency in the final semester of the DSW program bringing students together to present their Capstone Projects to different professional audiences. *Prerequisite:* SOWK 704 and SOWK 705 and SOWK 706 and SOWK 707 and SOWK 710 and SOWK 711 and SOWK 712 and SOWK 713 and SOWK 714 and SOWK 721 and SOWK 723 *Corequisite:* SOWK 720 and SOWK 722 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context

Units: 3 Examination of the evolution of American and other welfare states in selected nations. Analysis of global welfare institutions. Engaging in policy analysis in a comparative context. Instruction Mode: Lecture Grading Option: Letter

SOWK 743 Theories for Practice with Small Systems

Units: 3 Early practice theories and their historical roots are examined. Implications for evolving current practice theories with individuals, families, and groups are discussed. Instruction Mode: Lecture Grading Option: Letter

SOWK 744 Theories for Practice with Large Systems

Units: 3 Examination of the development and utility of theories, models and approaches to social work community and administrative

practice. Instruction Mode: Lecture Grading Option: Letter

SOWK 760L Introduction to Social Work Statistics

Units: 3 Foundation course covering univariate and bivariate descriptive and inferential statistics. Required lab covering basic computer skills and utilization of statistical software. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOWK 761L Multiple Regression for Social Work Research

Units: 3 Multivariate statistical methods including descriptive and inferential statistics, parametric and non-parametric tests of hypotheses; correlation, analysis of variance, multiple regression, and factor analysis; utilization of computer programs for statistical analysis. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOWK 762 Social Work Research Methods I

Units: 3 Models of research, the nature of inquiry, and the research process including problem formulation, measurement, designs, sampling and data sources. *Prerequisite:* doctoral standing. Instruction Mode: Lecture Grading Option: Letter

SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice

Units: 3 Research methods to provide students with advanced methodological knowledge in two areas related to social work practice: psychotherapy outcome research and program research. *Prerequisite:* SOWK 762. Instruction Mode: Lecture Grading Option: Letter

SOWK 764 Advanced Multivariate Statistics

Units: 3 Introduction to single equation statistical modeling using limited dependent variables (categorical and ordered categorical). Methods are drawn from statistics and econometrics. Instruction Mode: Lecture Grading Option: Letter

SOWK 765 Writing Successful Dissertation Research Grants

Units: 3 Terms Offered: FaSp Prepares doctoral students to write and submit applications to obtain extramural funding to support their dissertation research. Students will learn about opportunities and eligibility requirements for federal and foundation supported dissertation research grants, how grants are reviewed and scored once submitted, and how to write successful proposals. Recommended preparation: Completion of a qualitative or mixed methods course is preferred. *Prerequisite:* SOWK 702 and SOWK 703 and SOWK 761 and SOWK 762 and SOWK 763 and SOWK 764 *Recommended Preparation:* Completion of a qualitative or mixed methods course is preferred Instruction Mode: Lecture Grading Option: Letter

SOWK 770 Introduction to Qualitative and Mixed Research Methods

Units: 3 Overview of the use of qualitative and mixed methods in social, clinical and

health services research. Instruction Mode: Lecture Grading Option: Letter

SOWK 781 Guided Teaching Experience

Units: 2 Mentorship with a member of the teaching faculty; discussions of curriculum design; observation; preparation and delivery of selected course sessions. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 785 Guided Research Internship

Units: 2 Research practicum designed to provide students with hands-on practical experience with an ongoing faculty research project. *Prerequisite:* SOWK 763. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spanish

SPAN 020x Spanish for Reading Knowledge

Units: 0 Preparation for the ETS standardized examination, with readings related to the student's major area. Offered upon sufficient demand. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 120 Spanish I

Units: 4 For students with limited proficiency in Spanish. Practice in listening comprehension, oral communication, elementary reading and writing. *Prerequisite:* Spanish placement exam. Instruction Mode: Lecture Grading Option: Letter

SPAN 150 Spanish II

Units: 4 Continuation of SPAN 120; increased emphasis on listening comprehension, oral communication, reading, and writing. *Prerequisite:* SPAN 120. Instruction Mode: Lecture Grading Option: Letter

SPAN 220 Spanish III

Units: 4 Continuation of SPAN 150; intensive work in listening comprehension, oral communication, reading and writing,

with emphasis on free expression; readings related to Hispanic culture and civilization. *Prerequisite:* SPAN 150. Instruction Mode: Lecture Grading Option: Letter

SPAN 231x Business Spanish: Job Search

Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students create culturally appropriate professional dossiers, execute job searches in Spain/Latin America; engage in face-to-face and phone interviews in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 232x Business Spanish: Business Culture

Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students engage in research about the culture of business practices in Spain/Latin America; write/present company profiles, including NGOs, in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 233x Business Spanish: Case Studies

Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students read/analyze Spanish-language case studies and present their own case studies orally and in writing in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 240 Spanish IV

Units: 4 Terms Offered: FaSp Intensive review of Spanish grammar with emphasis on four skills. Audiovisual materials and readings related to Hispanic culture and civilization. *Prerequisite:* SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 245 Spanish Through Social Issues in Costa Rica

Units: 4 Terms Offered: Sm (Costa Rica Summer Program only). Intensive review of Spanish grammar with emphasis on four skills. Audiovisual materials, guest speakers, and readings related to the history and culture of Costa Rica. *Concurrent Enrollment:* SPAN 220 Instruction Mode: Lecture Grading Option: Letter

SPAN 250x Spanish for Business Communication

Units: 4 Four-skills language and culture course for intermediate-high Spanish students interested in Business/Communications. Prepares students to communicate in the Spanish-speaking commercial market in a linguistically sensitive manner. *Prerequisite:* SPAN 240. Instruction Mode: Lecture Grading Option: Letter

SPAN 260 Advanced Spanish: Arts and Sciences

Units: 4 Terms Offered: FaSpSm Development of students' oral and writing

skills using literary and scientific materials; grammar review. *Prerequisite:* SPAN 220. Duplicates Credit in the former SPAN 266. Instruction Mode: Lecture Grading Option: Letter

SPAN 261 Advanced Spanish: Society and the Media

Units: 4 Terms Offered: FaSpSm Analysis of cultural issues in the Spanish-speaking world. Discussions, presentations, writing assignments, and grammar instruction designed to improve students' proficiency in Spanish. *Prerequisite:* SPAN 220. Duplicates Credit in the former SPAN 265. Instruction Mode: Lecture Grading Option: Letter

SPAN 270 Spanish for Heritage Speakers

Units: 4 Terms Offered: FaSp Culture-based course designed for Spanish speakers not formally trained in the language. Review language and grammar and hone presentational skills. *Prerequisite:* SPAN 220 *Recommended Preparation:* Heritage profile Duplicates Credit in SPAN 260 Instruction Mode: Lecture Grading Option: Letter

SPAN 280x Conversational Spanish

Units: 2 Max Units: 4.0 Terms Offered: FaSp Discussions of short films, cultural and literary texts and other activities designed to improve conversational skills. *Prerequisite:* SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 290gp Introduction to Latin American and Iberian Studies

Units: 4 Introduction to the cultural history of Spain, Portugal and Latin America with a focus on literature and visual works from the early-modern period to the twenty-first century. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SPAN 301 Introduction to Literature and Film

Units: 4 Terms Offered: FaSpSm Introduction to critical reading and interpretation of poetry, narrative fiction, drama, and film from Spain and Latin America. *Prerequisite:* SPAN 260 and SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 302 Screen Cultures: From Film to the Internet

Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American cinema from the silent film era to the present, acquainting students with various critical and theoretical approaches to cinema studies. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 *Recommended Preparation:* SPAN 301 Instruction Mode: Lecture Grading Option: Letter

SPAN 304 The Art of Fiction

Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American fiction from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to narrative. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 306 Performance from Street to Stage

Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American plays from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to drama. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Duplicates Credit in former SPAN 305 Instruction Mode: Lecture Grading Option: Letter

SPAN 308 The Art of Poetry

Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American poetry from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to verse. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 310 Structure of Spanish

Units: 4 Terms Offered: FaSp A systematic study of the structure of Spanish. Topics include fundamental aspects of the sound system; word classes; sentences and their meaning; linguistic change and variation; standard and colloquial usage. *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 311 Advanced Spanish Through Contemporary Issues: Oral Emphasis

Units: 4 Terms Offered: Sm (Summer sessions abroad.) Advanced Spanish with emphasis on grammar and oral communication. *Recommended Preparation:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 315 Advanced Grammar and Translation

Units: 4 Terms Offered: FaSp Contrastive study of Spanish and English structures designed to explore the similarities and differences between the two languages and to familiarize students with translation techniques. Emphasis on a variety of text types with the aim of increasing linguistic and cultural appreciation of the Spanish language. *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 316x Spanish for the Professions

Units: 4 Terms Offered: FaSp The language and culture of a particular area of study or profession, such as medicine and healthcare, political and social sciences, business and the law. Limited to 4 units for major or minor credit. *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 318x Creative Writing in Spanish

Units: 4 Terms Offered: FaSp An introduction to the art and craft of creative writing in Spanish with a focus on narrative fiction; writing workshop, literary readings. *Prerequisite:* SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 320 Politics, Thought, Society

Units: 4 Terms Offered: FaSp Introduction to the study of Iberian and Latin American cultural patterns through readings on such topics as history, gender, ethnicity, and

politics. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Duplicates Credit in former SPAN 360 and former SPAN 370 Instruction Mode: Lecture Grading Option: Letter

SPAN 321 Sounds, Images, Objects

Units: 4 Terms Offered: FaSp Introduction to the study of Iberian and Latin American cultural forms through readings on the visual arts, cinema, architecture, and music. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Duplicates Credit in former SPAN 360 and former SPAN 370 Instruction Mode: Lecture Grading Option: Letter

SPAN 341 Advanced Conversation and Culture

Units: 4 Conversation based on study of Spanish art and architecture. Field trips. Instruction Mode: Lecture Grading Option: Letter

SPAN 350 Cultural Cross-Currents of the Iberian Middle Ages

Units: 4 Terms Offered: FaSp Selected readings from 1040 to 1499 examining the rich cultural diversity of the Iberian Middle Ages in the symbiosis of Christian, Moslem and Jewish traditions. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Duplicates Credit in former SPAN 377 and former SPAN 450. Instruction Mode: Lecture Grading Option: Letter

SPAN 352 The Transatlantic Golden Age: New Worlds Real and Imagined

Units: 4 Terms Offered: FaSp Selected readings from 1500 to 1700 exploring Renaissance and baroque visions of the classical and new worlds. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 372 Modern and Contemporary Latin American Fiction

Units: 4 Terms Offered: FaSp Study of major trends in Latin American fiction from the 1930s to the present with a focus on narrative experimentation. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 373 Modern and Postmodern Spanish Fiction

Units: 4 Terms Offered: FaSp An exploration of the literary and filmic narratives of contemporary Spain focusing on the major historical and cultural movements of the 20th century. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Duplicates Credit in former SPAN 378. Instruction Mode: Lecture Grading Option: Letter

SPAN 375 Latin American Cultural and Literary Theory

Units: 4 (Enroll in COLT 375) Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SPAN 380g Literature of Mexico

Units: 4 Principal writers and their works from Colonial times to the present. Non-majors may write assignments in English. *Recommended Preparation:* advanced

comprehension of oral and written Spanish. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SPAN 381 Narco-World

Units: 4 Sp *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 382 The Aesthetics of Violence in Latin America

Units: 4 Terms Offered: Fa An exploration of representations of violence and violent representations in Latin American narrative, poetry, music, and film. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 383 Mexican Noir

Units: 4 Terms Offered: FaSp Comparative study of the noir form in Mexico through readings in literature and cinema, with attention on questions of modernity, technology, politics and gender. Taught in Spanish. *Prerequisite:* (SPAN 260 and SPAN 261) or (SPAN 265 and SPAN 266) Instruction Mode: Lecture Grading Option: Letter

SPAN 385 The Culture of Food in Hispanic Los Angeles

Units: 4 Terms Offered: FaSp Experiential learning and project-based course designed to familiarize students with the food culture of Hispanic Los Angeles. Students create Spanish language blogs about their experiences. *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SPAN 391 Introduction to Contemporary Spanish Literature (USC Madrid Center)

Units: 4 Readings in contemporary Spanish literature. Includes lectures by recognized Spanish writers and scholars. Instruction Mode: Lecture Grading Option: Letter

SPAN 395 Visualizing Cuba: Arts, Politics and Society in Today's Cuba

Units: 4 Terms Offered: Sp Examines Cuban contemporary culture and society through the analysis of visual arts, literature, music and dance. Instruction Mode: Lecture Grading Option: Letter

SPAN 396 Oaxaca and Oaxacalifornia: Food, Culture, Art and Migration

Units: 4 Terms Offered: Sp Explore Oaxaca's mountains, beaches, villages and capital city; first hand experience in culture, traditional food, street artists and agricultural systems. Instruction Mode: Lecture Grading Option: Letter

SPAN 405 History of the Spanish and Portuguese Languages

Units: 4 Development of sounds, forms, words, meanings and structures from their origins to modern Spanish and Portuguese. *Prerequisite:* SPAN 310 or SPAN 315.

Instruction Mode: Lecture Grading Option: Letter

SPAN 412 Spanish Rhetoric and Style

Units: 4 Terms Offered: FaSp Close grammatical and rhetorical analysis of a variety of text types (general, literary, technical, journalistic) as the basis for practice in advanced written and oral expression as well as translation. *Prerequisite:* SPAN 310 or SPAN 315. Instruction Mode: Lecture Grading Option: Letter

SPAN 413m Social and Geographic Varieties of Spanish

Units: 4 Terms Offered: Fa Historical, social, and cultural elements represented in the dialectal diversity of the Spanish language; fieldwork in bilingual communities in the United States. Majors prepare assignments in Spanish, non-majors in English. Conducted in Spanish and English. *Prerequisite:* reading knowledge of Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 420 Spanish Language Acquisition

Units: 4 Terms Offered: FaSp A study of the bilingual acquisition of Spanish and English by children, and of Spanish as a second language by adults; focus on linguistic, psychological and social factors. *Prerequisite:* SPAN 310 or SPAN 315. Instruction Mode: Lecture Grading Option: Letter

SPAN 455 Picaresque Itineraries: Empire and Its Discontents

Units: 4 Terms Offered: FaSp A study of the rise of the picaresque novel in Spain and Latin America as a medium for social, political, and cultural criticism. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 460 Don Quijote: Text and Film

Units: 4 Terms Offered: FaSpSm A close reading of Cervantes' masterpiece and analysis of film adaptations of the novel. *Prerequisite:* SPAN 301. Instruction Mode: Lecture Grading Option: Letter

SPAN 462 Literary Cartographies of Latin America and Spain, 1810–1898

Units: 4 Terms Offered: FaSp Comparative analysis of Spanish and Latin American literatures with a focus on trans-Atlantic relations and the rise of such movements as romanticism, realism, and modernismo. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 464 Introduction to Contemporary Spanish Theatre

Units: 4 (Madrid Center only) Historical evolution of the contemporary Spanish theatre; readings of dramatic texts supported by attendance at live stage performances. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 465 Cultural Perspectives of the Iberian Peninsula

Units: 4 Terms Offered: Sm (Madrid Summer Program) Study of cultural plurality in the Iberian Peninsula. *Recommended*

Preparation: SPAN 260 or SPAN 261.

Instruction Mode: Lecture Grading Option: Letter

SPAN 466 Argentina, Society and the Arts

Units: 4 Terms Offered: Sm Study of the arts in the cultural landscape of Argentina and in the context of developments in Europe, Latin America and the United States. *Recommended Preparation:* SPAN 260 or SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 469 Immigration in Spain

Units: 4 Terms Offered: Sm Sociopolitical issues of immigration in Spain, including economic impact, legal evolution, history, geographic location, and culture. *Prerequisite:* SPAN 220; *Recommended Preparation:* SPAN 260 or SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 470 Literature and Media in Latin America

Units: 4 (Enroll in COLT 470)

SPAN 471 Postdictatorship Spanish and Latin American Cinema

Units: 4 Terms Offered: Fa A study of the historical, cultural and political context of post-dictatorship Spanish and Latin American cinema by focusing on debates on memory and trauma. Taught in Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 472 The Sixties in Latin America

Units: 4 Terms Offered: Fa Study of the explosive Latin American cultural formations of the sixties (literary boom, third cinema, protest song, theories of armed struggle). *Prerequisite:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 481 Literature and Popular Culture

Units: 4 Terms Offered: FaSp An examination of popular culture and literary genres with an emphasis on the evolving canons and identities of Latin America and Spain. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 482 Literature and the City

Units: 4 Terms Offered: FaSp An examination of the literary representations of urban spaces and cultures within the context of Iberian, Latin American, and U.S. Latino societies. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 483 Gender and Sexuality

Units: 4 Terms Offered: FaSp An examination of gender, sexuality, and power in Iberian and Latin American literatures and cultures. Conducted in Spanish. *Recommended Preparation:* SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 484 Studies in Visual and Material Culture

Units: 4 Terms Offered: FaSp An examination of the role of visual and material culture in cultural and social context in the Hispanic world, focusing on a selected time period and geographical region.

Recommended Preparation: SPAN 260 and SPAN 261 if taken for Spanish major credit. Instruction Mode: Lecture Grading Option: Letter

SPAN 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

SPAN 495 Seminar for Majors and Minors

Units: 4 Two options: (1) Study of a major work or writer, a principal literary theme or movement; or (2) a selected topic in Spanish language and linguistics. *Recommended Preparation:* two courses in the upper division in the same area as the seminar topic (i.e., language or literature). Instruction Mode: Lecture Grading Option: Letter

SPAN 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

SPAN 501 Cultural Narratives of Spain and Latin America

Units: 4 Theoretical and methodological approaches to cultural narratives in Spanish and Latin American literary and cultural studies. Instruction Mode: Lecture Grading Option: Letter

SPAN 511 Techniques and Procedures of Teaching Spanish as a Second Language

Units: 3 Practical classroom application of language teaching methods; evaluation of available textbooks; critique of master classes. Instruction Mode: Lecture Grading Option: Letter

SPAN 513 Spanish Morphology and Phonology

Units: 3 Terms Offered: FaSp A survey of research on the interaction between Spanish morphology and phonology in light of critical readings and discussion of selected studies as contributions to the general theory of grammar. Duplicates Credit in former SPAN 512. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-513

SPAN 514 Spanish Syntax

Units: 3 Terms Offered: FaSp A survey of Spanish syntax in the light of critical readings and discussion of selected studies and their comparative contribution to grammatical theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-514

SPAN 515 Spanish Grammar in Discourse

Units: 3 Terms Offered: FaSp Semantic and pragmatic approaches to the analysis of the structure of Spanish sentences and discourse. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-515

SPAN 516 Historical Aspects of Spanish and Portuguese

Units: 3 Terms Offered: FaSp Processes of language change in the development of the Spanish and Portuguese languages from their origin in spoken Latin to their modern stage. Instruction Mode: Lecture Grading Option: Letter

SPAN 517 Spanish Applied Linguistics

Units: 3 Terms Offered: FaSp Modern theories of first and second language

acquisition and their application to Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 518 Spanish Sociolinguistics

Units: 3 Terms Offered: FaSp Principles of sociolinguistics and dialectology: sociolinguistic patterns in the Hispanic languages. Instruction Mode: Lecture Grading Option: Letter

SPAN 525 Medieval and Early Modern Spanish World

Units: 4 Max Units: 8.0 Study of literature and other cultural artifacts pertaining to the Middle Ages in Spain and the early modern world in both Spain and the Americas. Instruction Mode: Lecture Grading Option: Letter

SPAN 529 The Transatlantic 19th Century

Units: 4 Max Units: 8.0 Study of authors, texts and literary and cultural currents in Spain and Latin America in the 19th century. Instruction Mode: Lecture Grading Option: Letter

SPAN 539 20th and 21st Century Spanish Literature and Culture

Units: 4 Max Units: 8.0 Study of cultural currents, authors, literary texts, films and other media in Spain in the 20th and 21st centuries. Instruction Mode: Lecture Grading Option: Letter

SPAN 545 20th and 21st Century Latin American Literature and Culture

Units: 4 Max Units: 8.0 Study of cultural currents, authors, literary texts, films and other media in Latin America in the 20th and 21st centuries. Instruction Mode: Lecture Grading Option: Letter

SPAN 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 592 Practicum in Teaching Spanish

Units: 2 Approaches and techniques in the teaching of Spanish and/or Portuguese as a second language. Registration Restriction: Open only to Master and Doctoral students in Comparative Literature, Comparative Culture in Literature and Studies (Spanish and Latin American Studies), Linguistics (Hispanic Linguistics) and Spanish. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 594a Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594b Master's Thesis

Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594z Master's Thesis

Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 596 Research Methods in Spanish Linguistics

Units: 3 Examination of various research methods as applied to the study of the

Spanish language; mechanics of organizing, conducting and presenting research in Spanish linguistics. Instruction Mode: Lecture Grading Option: Letter

SPAN 602 Seminar in Spanish and Latin American Critical Theory

Units: 4 Max Units: 8.0 Major developments in literary criticism in Spain and Latin America from the early modern period to the present. Instruction Mode: Lecture Grading Option: Letter

SPAN 603 Seminar in the Cultural History of Spain and Latin America

Units: 4 Max Units: 8.0 Literary and cultural currents in Spain and Latin America, with varying focus on genres, periods, movements and problems. Instruction Mode: Lecture Grading Option: Letter

SPAN 604 Seminar in Gender and Sexuality in Spain and Latin America

Units: 4 Max Units: 8.0 Construction and representation of gender and sexuality in Spanish and Latin American literature and culture. Instruction Mode: Lecture Grading Option: Letter

SPAN 606 Seminar in Visual Culture in Spain and Latin America

Units: 4 Max Units: 8.0 Major currents in film and other media in Spain and Latin America. Instruction Mode: Lecture Grading Option: Letter

SPAN 650 Topics in Spanish and Latin American Literature and Culture

Units: 4 Max Units: 8.0 Study of topics in Spanish and Latin American literature and culture across periods, genres and nations. Instruction Mode: Lecture Grading Option: Letter

SPAN 652 Seminar on a Major Topic in Hispanic Linguistics

Units: 3 Max Units: 9.0 Terms Offered: FaSp Analysis of selected topics of current interest as reflected primarily in the most recent literature. Instruction Mode: Lecture Grading Option: Letter

SPAN 672 Seminar in Spanish Morphophonology

Units: 3 Max Units: 9.0 Terms Offered: FaSp Selected topics in Spanish morphology and phonology. Instruction Mode: Lecture Grading Option: Letter

SPAN 674 Seminar on Spanish Syntax and Semantics

Units: 3 Max Units: 9.0 Terms Offered: FaSp Detailed analysis of topics in modern Spanish syntax and semantics. Instruction Mode: Lecture Grading Option: Letter

SPAN 676 Seminar in Diachronic Aspects of the Hispanic Languages

Units: 3 Max Units: 9.0 Terms Offered: FaSp In-depth analysis of a particular topic in the historical development of the Hispanic languages. Instruction Mode: Lecture Grading Option: Letter

SPAN 677 Seminar in Spanish Applied Linguistics

Units: 3 Terms Offered: FaSp Critical study and analysis of major issues related to the teaching and learning of Spanish as a first

or a second language. Instruction Mode: Lecture Grading Option: Letter

SPAN 678 Seminar in Hispanic Sociolinguistics

Units: 3 Max Units: 9.0 Terms Offered: FaSp Selected topics in Hispanic sociolinguistics: social and geographic language varieties, language contact, discourse analysis, synchronic variation and processes of change in Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 700 Colloquium in Hispanic Literature and Linguistics

Units: 1 Max Units: 3.0 Discussion and presentation of papers on a variety of topics in the areas of Hispanic language and literature. *Prerequisite:* any 600 level Spanish seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 790 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 794a Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794b Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794c Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794d Doctoral Dissertation

Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794z Doctoral Dissertation

Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spatial Sciences Institute

SSCI 135g Maps in the Digital World

Units: 4 Terms Offered: FaSp The role of formal reasoning, abstract representation and empirical analysis in building maps for sharing knowledge across the physical, life and social sciences and humanities. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

SSCI 165Lgw Sustainability Science in the City

Units: 4 Terms Offered: FaSp The influence of sustainability science on public policy and vice versa in the context of social/ethical theories, analytical methods and solutions. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 201 Principles of GeoDesign

Units: 4 Terms Offered: FaSp Foundations of geodesign combining place-making, design, collective action, and the science of location-based information to improve human interaction with the functioning of the Earth. Instruction Mode: Lecture Grading Option: Letter

SSCI 214g Human Populations and Natural Hazards

Units: 4 Terms Offered: FaSp Introduction to the complex relationship between human development and natural hazards, which are increasingly causing damage and displacement to human populations throughout the world. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SSCI 220L Spatial Data Collection Using Drones

Units: 4 Terms Offered: FaSp Develop the requisite knowledge and practical skills to source, analyze, and produce GIS and simulation-based projects with unmanned aerial systems-derived data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 265Lg The Water Planet

Units: 4 Terms Offered: FaSpSm An exploration of earth's water, ranging from water properties, chemistry, and pollution, to groundwater dynamics, watershed processes, and oceanic-atmospheric circulation. Implications for past and future societies. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 301L Maps and Spatial Reasoning

Units: 4 Terms Offered: Fa Role of maps and spatial reasoning in the production and use of geographic information for representing and analyzing human and environmental activities and events. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 311 International Geodesign Studio - Europe

Units: 12 Terms Offered: Sm Critical and spatial thinking while engaged in classroom and field settings to propose geodesign strategies that address a societal challenge in an Amsterdam neighborhood. *Prerequisite:* SSCI 201 and SSCI 301L and SSCI 382L Instruction Mode: Lecture Grading Option: Letter

SSCI 312 International Geodesign Studio - Asia

Units: 12 Terms Offered: Sm Examine geodesign applications in locations throughout Asia and utilize these experiences to interrogate applications of geodesign and how they might be applied in the U.S. *Prerequisite:* ARCH 203 and ARCH 303 and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SSCI 340 Community Health Scan

Units: 4 Terms Offered: FaSpSm The social context of health and its determinants; the uses of data analysis; community capacity

building, and the impact of policy on community health improvement. Duplicates Credit in former MDA 350 Instruction Mode: Lecture Grading Option: Letter

SSCI 350 International GeoDesign

Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive living-learning research and field experience in Los Angeles and abroad; application of GeoDesign strategies to local societal challenges. Instruction Mode: Lecture Grading Option: Letter

SSCI 381 Statistics for the Spatial Sciences

Units: 4 Terms Offered: FaSp Conceptual foundations and techniques of statistics and how they can be used with geographic data to produce actionable information across spatial science domains. Instruction Mode: Lecture Grading Option: Letter

SSCI 382L Principles of Geographic Information Science

Units: 4 Terms Offered: Sp The various ways in which geography can be used to acquire, represent, organize, analyze, model and visualize information. Laboratories are organized around ArcGIS software suite. *Prerequisite:* SSCI 301L Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 383L Geospatial Modeling and Customization

Units: 4 Terms Offered: Sp Fundamentals of spatial modeling and remote sensing and how to use GIS customization and programming to streamline complex spatial analysis and modeling workflows. *Prerequisite:* SSCI 301 and SSCI 382 Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 397 Spatial Sciences Internship

Units: 2, 3, 4 Terms Offered: FaSpSm Intensive experience in local public agency, private firm, or nonprofit agency engaged in applied geospatial analysis, modeling and mapping work. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 401L Geospatial Intelligence

Units: 4 Terms Offered: Fa Introduction to basic geospatial intelligence knowledge and related practical applications that assist in informing decision-making in a variety of human security settings. *Recommended Preparation:* IR 381 and SSCI 301L Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 402 Geospatial Technology Management for Sustainability Science

Units: 4 Terms Offered: FaSp Principles and techniques for leveraging geospatial technologies and information in support of sustainability, with emphasis on coupling human and natural systems for global sustainable development. *Prerequisite:* (SSCI 165Lgw or SSCI 265Lg) and (SSCI 301L and SSCI 382L and SSCI 383L) Instruction Mode: Lecture Grading Option: Letter

SSCI 412L GeoDesign Practicum

Units: 4 Terms Offered: FaSp Application of design concepts, planning protocols and spatial analysis skills to a complex planning or design problem sponsored by a local public, private or not-for-profit client in a studio setting. *Prerequisite:* ARCH 403,

PPD 425, SOCI 314, SSCI 483 . Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCH-412, PPD-412

SSCI 420 Human Security and Geospatial Intelligence Practicum

Units: 4 Terms Offered: FaSp Create conceptual solutions for a real-world human security and geospatial intelligence issue by developing a problem set and recommended solution to the same. *Prerequisite:* SSCI 401L *Recommended Preparation:* SSCI 301L Instruction Mode: Lecture Grading Option: Letter

SSCI 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

SSCI 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected topics or regions. Instruction Mode: Lecture Grading Option: Letter

SSCI 576 Remote Sensing Applications and Emerging Technologies

Units: 4 Terms Offered: FaSpSm Explore ways remote sensing systems provide geospatial information that is relevant, accurate, timely, accessible, appropriately formatted and cost-effective. *Recommended Preparation:* SSCI 581 Instruction Mode: Lecture Grading Option: Letter

SSCI 577 Human Security and Disaster Management

Units: 4 Terms Offered: FaSpSm The relationship between human security (population growth, urbanization, conflict) and disasters, both man-made and natural, where complex emergencies are impactful to human populations. Instruction Mode: Lecture Grading Option: Letter

SSCI 578 The Practice of Geospatial Leadership

Units: 4 Terms Offered: Sm The geospatial value proposition and the qualities and skills leaders will need to help their geospatial information management groups and organizations achieve success. *Recommended Preparation:* SSCI 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 579 Geospatial Intelligence Tradecraft

Units: 4 Terms Offered: FaSpSm Typical geospatial intelligence tasks and their use in military operations, national and homeland security, international relief work and disaster management. *Recommended Preparation:* SSCI 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 580 Spatial Computing

Units: 4 Terms Offered: FaSp Theoretical foundations, methods, techniques, and software systems for spatial computing, including geospatial semantic web and linked data, spatial data mining, geocoding, and document linking. *Recommended Preparation:* SSCI 581 or INF 510. Instruction Mode: Lecture Grading Option: Letter

SSCI 581 Concepts for Spatial Thinking

Units: 4 Terms Offered: FaSpSm The unique characteristics and importance of spatial information as they relate to the evolving science, technology, and applications of Geographic Information Systems. Duplicates Credit in the former GEOG 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 582 Spatial Databases

Units: 4 Terms Offered: FaSpSm Design, implementation, and interrogation of relational, object-oriented and other types of geospatial databases. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 582. Instruction Mode: Lecture Grading Option: Letter

SSCI 583 Spatial Analysis

Units: 4 Terms Offered: FaSpSm Provides the knowledge and skills necessary to investigate the spatial patterns which result from social and physical processes operating at or near the Earth's surface. *Recommended Preparation:* SSCI 581. Duplicates Credit in former GEOG 583. Instruction Mode: Lecture Grading Option: Letter

SSCI 584 Spatial Modeling

Units: 4 Terms Offered: FaSp The use of spatial models to describe social and environmental processes, patterns and systems at multiple spatial and temporal scales. *Recommended Preparation:* SSCI 583. Instruction Mode: Lecture Grading Option: Letter

SSCI 585 Geospatial Technology Project Management

Units: 4 Terms Offered: FaSm Concepts, principles, and use of project management tools and the people issues encountered running GIS projects. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 585. Instruction Mode: Lecture Grading Option: Letter

SSCI 586 GIS Programming and Customization

Units: 4 Terms Offered: FaSp Design, coding, and implementation of GIS-based software and models using the Python programming language. *Recommended Preparation:* SSCI 582. Duplicates Credit in former GEOG 586. Instruction Mode: Lecture Grading Option: Letter

SSCI 587 Spatial Data Acquisition

Units: 4 Terms Offered: FaSpSm Role of global positioning systems, maps, geocoding, and other kinds of sensors as geospatial data sources. Includes field data acquisition excursion on Catalina Island. *Recommended Preparation:* SSCI 581. Duplicates Credit in former GEOG 587. Instruction Mode: Lecture Grading Option: Letter

SSCI 588 Remote Sensing for GIS

Units: 4 Terms Offered: SpSm Principles of remote sensing, satellite systems, and role of remote sensing data in GIS applications. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 588. Instruction Mode: Lecture Grading Option: Letter

SSCI 589 Cartography and Visualization

Units: 4 Terms Offered: SpSm Principles of visual perception, spatial cognition and

cartographic design and their contributions to the maps, animations, virtual reality and multimedia displays produced with modern GIS. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 589. Instruction Mode: Lecture Grading Option: Letter

SSCI 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 591 Web GIS

Units: 4 Terms Offered: FaSm Design and implementation of locally served and cloud-based geospatial web applications. Construction of web maps, mashups, and Volunteered Geographic Information interfaces. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 591. Instruction Mode: Lecture Grading Option: Letter

SSCI 592 Mobile GIS

Units: 4 Terms Offered: SpSm Design, coding, and implementation of mobile GIS applications using the Java and Javascript object-oriented programming languages. *Recommended Preparation:* SSCI 591. Instruction Mode: Lecture Grading Option: Letter

SSCI 593 Geospatial Data Integration

Units: 4 Terms Offered: FaSm Role of crowdsourcing, volunteered geographic information, spatial data infrastructures, and web portals in helping with the collection, storage, curation, and distribution of geospatial data assets. *Recommended Preparation:* SSCI 587. Instruction Mode: Lecture Grading Option: Letter

SSCI 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SSCI 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SSCI 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SSCI 595 Applied Geospatial Intelligence Problem Solving

Units: 2 Terms Offered: FaSpSm Provides hands-on problem solving opportunity that requires knowledge and GEOINT skills to provide an informed recommendation involving a variety of human security settings. *Prerequisite:* SSCI 577 and SSCI 588 and SSCI 579 and SSCI 581 *Corequisite:* SSCI 585 Instruction Mode: Lecture Grading Option: Letter

SSCI 596 Internship in Spatial Sciences

Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Part-time or full-time practical

work experience in the student's field of study at an off-campus facility under faculty direction. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in the spatial sciences. Instruction Mode: Lecture Grading Option: Letter

SSCI 600 The Geography of Life and Death

Units: 4 Terms Offered: Fa Meaning and significance of place and role of social, natural, and built environments in disease occurrence in different places and populations. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

SSCI 601a Population, Health and Place Research Practicum

Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. *Prerequisite:* SSCI 600 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SSCI 601b Population, Health and Place Research Practicum

Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. *Prerequisite:* SSCI 601a Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SSCI 680 Advanced Spatial Computing

Units: 4 Terms Offered: FaSpSm The role of spatial computing in understanding the world, in knowing and communicating our relationships to specific places, and for navigating through those places. Instruction Mode: Lecture Grading Option: Letter

SSCI 683 Principles of Spatial Data Analysis

Units: 4 Terms Offered: Sp The theoretical foundations and techniques of spatial analysis and the ways in which they have been used to identify spatial processes and patterns. *Recommended Preparation:* Enrollment in a USC PhD Program. Instruction Mode: Lecture Grading Option: Letter

SSCI 684 Spatial Modeling with GIS

Units: 4 Terms Offered: Sp An introduction to spatial models identifying the key issues influencing the success of these models in simulating key social and environmental processes and health exposures. Instruction Mode: Lecture Grading Option: Letter

SSCI 693 Practicum in Teaching the Liberal Arts

Units: 2 Terms Offered: Fa Principles of pedagogy for teaching the liberal arts, focusing on issues and technologies for spatial thinking. Required for first-semester teaching assistants in spatial sciences. Registration Restriction: Open only to

doctoral students Instruction Mode: Lecture
Grading Option: Credit/No Credit

SSCI 790 Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Max Units: 12 Terms Offered: FaSpSm
Research leading to the doctoral degree.
Maximum units which may be applied to the degree to be determined by the department.
Registration Restriction: Open only to doctoral students
Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 794a Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.
Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794b Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.
Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794c Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.
Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794d Doctoral Dissertation

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.
Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794z Doctoral Dissertation

Units: 0 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.
Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Sophomore Seminars

SSEM 200 Sophomore Seminar

Units: 1, 2 Terms Offered: FaSp and Special Sessions Special seminar courses for sophomores; limited to 18 students; topics will vary; Instruction Mode: Lecture Grading Option: Credit/No Credit

Oral Surgery

SURG 501 Oral Surgery

Units: 2 Introduction to surgical dentistry, armamentarium and procedures; exodontics; infection; post operative care; repair of bone and soft tissue; acute injury; cysts, sinuses, nerve injury, biopsy. Instruction Mode: Lecture Grading Option: Letter

SURG 562a Clinic: Oral Surgery I

Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 562b Clinic: Oral Surgery I

Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 562c Clinic: Oral Surgery I

Units: 1 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: Letter

SURG 563a Clinic: Oral Surgery II

Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 563b Clinic: Oral Surgery II

Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 563c Clinic: Oral Surgery II

Units: 1 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: Letter

SURG 564a Clinic: Hospital Oral Surgery

Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564b Clinic: Hospital Oral Surgery

Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564c Clinic: Hospital Oral Surgery

Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564d Clinic: Hospital Oral Surgery

Units: 1 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: Letter

SURG 611a Oral and Maxillofacial Surgery

Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical

experience. Instruction Mode: Lecture
Grading Option: In-progress to Letter Grade

SURG 611b Oral and Maxillofacial Surgery

Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 611c Oral and Maxillofacial Surgery

Units: 4 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Letter

SURG 701a Seminar: Advanced Oral Surgery

Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases. Instruction Mode: Lecture Grading Option: Letter

SURG 701b Seminar: Advanced Oral Surgery

Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases. Instruction Mode: Lecture Grading Option: Letter

SURG 702a Seminar: Review of the Oral Surgery Literature

Units: 2 Critical analysis of recent oral surgery and other related literature. Instruction Mode: Lecture Grading Option: Letter

SURG 702b Seminar: Review of the Oral Surgery Literature

Units: 2 Critical analysis of recent oral surgery and other related literature. Instruction Mode: Lecture Grading Option: Letter

SURG 708a Orthognathic Surgery

Units: 2 Terms Offered: Fa Surgical planning and treatment of patients with skeletal deformities. Instruction Mode: Lecture Grading Option: Letter

SURG 708b Orthognathic Surgery

Units: 2 Terms Offered: Sp Surgical planning and treatment of patients with skeletal deformities. Instruction Mode: Lecture Grading Option: Letter

SURG 721 Surgical Anatomy

Units: 2 Intensive review of anatomy relevant to the practice of oral surgery. Includes dissections and animal surgery. Instruction Mode: Lecture Grading Option: Letter

SURG 761a Clinic: Advanced Oral Surgery

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761b Clinic: Advanced Oral Surgery

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each

Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761c Clinic: Advanced Oral Surgery

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761d Clinic: Advanced Oral Surgery

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 763a Clinic: Advanced Hospital Oral Surgery and Anesthesia

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763b Clinic: Advanced Hospital Oral Surgery and Anesthesia

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763c Clinic: Advanced Hospital Oral Surgery and Anesthesia

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763d Clinic: Advanced Hospital Oral Surgery and Anesthesia

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

Gender and Sexuality Studies

SWMS 210gmw Social Analysis of Gender

Units: 4 Terms Offered: FaSp
Multidisciplinary survey of gender assumptions in relation to sexuality, mental health, social and political relations, and artistic expression. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as POSC 210, PSYC 210

SWMS 212gp Introduction to Gender and Sexuality: American Perspectives

Units: 4 Terms Offered: Sp
Examination of how gender and sexuality have been constructed, experienced and legislated. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 215gp Gender Conflict across Cultural Contexts

Units: 4 Terms Offered: Fa
Identification and examination of social and cultural conflicts through the lens of gender, and comparison of such conflicts across cultures, regions, and historical periods. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 219gp Introduction to Feminist Theory

Units: 4 Terms Offered: Fa
Emergence of feminist thought from the Enlightenment to the present; historical development of female subjectivity; advancement of women's rights; feminisms from alternative ideological perspectives. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former SWMS 301 Instruction Mode: Lecture Grading Option: Letter

SWMS 221g Introduction to Queer Theory

Units: 4 Terms Offered: Sp
Genealogies of queer theory, from psychoanalytic theories to feminism and post-structuralism; evolving concepts of gender; relation to social justice, resistance and power. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 225 Gender, Sex, and Science: A Gender Studies Approach

Units: 4 Terms Offered: FaSp
Study of sex, gender in relation to science and social sciences; survey of scientific methods, approaches, current research; investigation of gender influences on scientific research. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH-225

SWMS 227gp Death and Gender in Urban Contexts

Units: 4 Terms Offered: Sp
Experiential course examining how beliefs about mortality are produced by history, gender, culture, and context; how the handling of death shapes urban society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

SWMS 300 Women in Antiquity

Units: 4 (Enroll in CLAS 300)

SWMS 305 Childhood, Birth and Reproduction

Units: 4 (Enroll in ANTH 305)

SWMS 306 Contemporary Issues in LGBTQ Studies

Units: 4 Terms Offered: FaSp
Interdisciplinary analysis of LGBTQ issues; examination of the intersections of gender and sexuality with social class, race, religion and nationality. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp

or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 308 Advanced Gender Theory

Units: 4 Terms Offered: FaSp
Contemporary debates and research in three areas: health bodies, science technologies; feminist/queer analytics in media and representation; critical approaches to race, culture and power. *Prerequisite:* (SWMS 210gmw or SWMS 212gp or SWMS 215gp) and (SWMS 219gp or SWMS 221g) Instruction Mode: Lecture Grading Option: Letter

SWMS 310 Gender and Social Justice

Units: 4 Terms Offered: FaSp
Exploration of the ways in which developments and policies, including neoliberalism, the carceral state, and economic precarity, are connected and gendered. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI 310

SWMS 311 Gender and Sexuality Studies: Internship

Units: 2, 4, 8 Max Units: 08 Terms Offered: FaSpSm
Intensive experience with gender-focused community organizations; analysis of relationships between organizations and feminist and queer theory. Registration Restriction: Open only to Dornsife College students Instruction Mode: Lecture Grading Option: Letter

SWMS 316 Gender and Global Issues

Units: 4 (Enroll in IR 316)

SWMS 321 Gender and Judaism

Units: 4 (Enroll in JS 321)

SWMS 324 Women in Medieval and Renaissance Europe

Units: 4 (Enroll in COLT 324)

SWMS 330m Culture, Gender and Politics in South Asia

Units: 4 (Enroll in ANTH 330)

SWMS 335 Gender, Religion, and Sexuality

Units: 4 (Enroll in REL 335)

SWMS 336 Health, Gender and Ethnicity

Units: 4 Terms Offered: Sp
Cross-cultural notions of the body, health, and healing; historic and cultural variability of ideas of reproduction, birth, sexuality, mental illness and disability. *Prerequisite:* SWMS 210gmw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 336, SOCI 336

SWMS 337 The LGBTQ Revolution and the Media

Units: 4 Terms Offered: Irregular (Enroll in COMM 337)

SWMS 344m Sexual/Textual Diversity

Units: 4 Terms Offered: FaSp (Enroll in ENGL 344m)

SWMS 349 Women and the Law

Units: 4 Terms Offered: Fa
Discussion of the relationship between women and the law in light of feminist jurisprudence, U.S. Supreme Court decisions and cross-cultural perspectives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 219gp or SWMS 221g Instruction Mode:

Lecture Grading Option: Letter Crosslisted as POSC 349

SWMS 355 Transgender Studies

Units: 4 Terms Offered: Sp Analysis of transgender behaviors, from androgyny and transvestism to transexuality. Discussion of changing laws, representations, medical standards, and social attitudes towards transgender and intersex people. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 358 U.S. Gay and Lesbian History

Units: 4 Terms Offered: Sp Exploration of shifting social organization and cultural meanings of same-sex desire and cross-gender behaviors in the U.S., primarily during the 20th century. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 358

SWMS 367 Gender and Creative Labor

Units: 4 Terms Offered: Fa Exploration of contemporary labor issues from feminist and gender studies perspectives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 370 Sex, Love, and Marriage: An Introduction to Kinship

Units: 4 Terms Offered: Sp (Enroll in ANTH 370)

SWMS 372 Human Sexuality

Units: 4 (Enroll in PSYC 372)

SWMS 374gm Women Writers in Europe and America

Units: 4 (Enroll in COLT 374)

SWMS 375 Women and Gender in China: Past and Present

Units: 4 (Enroll in EALC 375)

SWMS 378 Literature, Theory, Gender

Units: 4 (Enroll in COLT 377)

SWMS 380 Sex and Gender in Anthropological Perspective

Units: 4 (Enroll in ANTH 380)

SWMS 381 Sex, Power, and Politics

Units: 4 (Enroll in POSC 381)

SWMS 383 French Women Writers

Units: 4 Terms Offered: FaSp (Enroll in FREN 383)

SWMS 385m Men and Masculinity

Units: 4 Interdisciplinary examination of social, personal meanings of masculinity; variety of male experience by social class, race, sexuality and age; emerging masculinities of the future. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 385, SOCI 386

SWMS 389 Gender, Sexuality and Food Cultures in the U.S.

Units: 4 Terms Offered: Sp Exploration of food, eating, production, sustainability, access, and culture from a multidisciplinary perspective. Instruction Mode: Lecture Grading Option: Letter

SWMS 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SWMS 392 Junior Seminar in Gender and Sexuality Studies

Units: 4 Terms Offered: Sp Research methods in gender and sexuality studies scholarship; study of feminist, queer and post-colonial epistemologies. *Prerequisite:* SWMS 308 Instruction Mode: Lecture Grading Option: Letter

SWMS 395m Gender, Media and Communication

Units: 4 (Enroll in COMM 395)

SWMS 402 Human Trafficking

Units: 4 Terms Offered: FaSp (Enroll in SOCI 402)

SWMS 410 Senior Seminar in Gender and Sexuality Studies

Units: 4 Terms Offered: Fa Study of a selected problem, period, or theme in the study of women and men in society by integrating perspectives from cross-cultural and interdisciplinary studies. *Prerequisite:* SWMS 392 Instruction Mode: Lecture Grading Option: Letter

SWMS 412 Gender, Sexuality and Media

Units: 4 Max Units: max 8 (Enroll in CTCS 412)

SWMS 425 Queer Los Angeles

Units: 4 Terms Offered: Sp Interdisciplinary study of queer Los Angeles through examination of histories, memoirs, essays, fiction, poetry, documentaries, narrative films and local archives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 430 Gender and Sexuality in Korean Literature and Culture

Units: 4 (Enroll in EALC 430)

SWMS 434m Women and Aging: Psychological, Social and Political Implications

Units: 4 Terms Offered: FaSpSm (Enroll in GERO 435)

SWMS 435m Women in Society

Units: 4 (Enroll in SOCI 435)

SWMS 442m Women's Spaces in History: "Hussies," "Harems," and "Housewives"

Units: 4 (Enroll in ARCH 442)

SWMS 445 Studies in Gender and Feminism

Units: 4 (Enroll in FREN 445)

SWMS 456 Women in International Development

Units: 4 (Enroll in POSC 456)

SWMS 467 Gender and the News Media

Units: 4 (Enroll in JOUR 467)

SWMS 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Independent research and readings. Instruction Mode: Lecture Grading Option: Letter

SWMS 492 Gender and Sexuality Studies: Honors Thesis

Units: 4 Terms Offered: Sp Writing of the honors thesis; for students in the Gender and Sexuality Studies Honors Program. *Recommended Preparation:* SWMS 410 Registration Restriction: Open only to Gender and Sexuality Studies majors Instruction Mode: Lecture Grading Option: Letter

SWMS 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Study of a selected problem, period, or theme through interdisciplinary approaches. Instruction Mode: Lecture Grading Option: Letter

SWMS 504 Theories of Race, Class, and Gender

Units: 4 (Enroll in ENGL 504)

SWMS 505 Seminar in Feminist Theory and Art History

Units: 4 Max Units: max 8 (Enroll in AHIS 505)

SWMS 507 Gender and International Relations

Units: 4 Terms Offered: Irregular (Enroll in POIR 507)

SWMS 508 Ethics of Liberation Theology

Units: 4 (Enroll in REL 508)

SWMS 509 Culture, Gender, and Global Society

Units: 4 (Enroll in IR 509)

SWMS 516 Seminar: Feminist Theory and Communication

Units: 4, 2 years Terms Offered: Sp (Enroll in COMM 516)

SWMS 544 Feminist Theory for Historians

Units: 4 Terms Offered: Fa (Enroll in HIST 544)

SWMS 546 Comparative History of Women and Gender in the West to 1800

Units: 4 Terms Offered: Fa (Enroll in HIST 546)

SWMS 550 Gender and Education in the Third World

Units: 3 (Enroll in EDPA 550)

SWMS 551 Studies in the History of Women, Gender and Sexuality

Units: 4 Max Units: max 8 (Enroll in HIST 550)

SWMS 553 Race, Gender and Sexuality

Units: 4 (Enroll in AMST 553)

SWMS 554 Women in Global Perspective

Units: 4 Women and immigration, employment, and household and family relations in the context of the global economy; women's social and political movements in diverse cultural contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 554, POIR 554, SOCI 554

SWMS 556 Seminar on Women and the Family in China

Units: 4 (Enroll in EALC 556)

SWMS 560 Feminist Theory

Units: 4 Terms Offered: FaSpSm History of feminist theory and major perspectives of current feminist theory: liberal feminism,

socialist/Marxist feminism, radical feminism, psychological feminism, spiritual feminism, and ecological feminism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDHP 560, POIR 560, SOCI 560

SWMS 567 Body, Power and Politics
Units: 4 Terms Offered: FaSp (Enroll in AMST 567)

SWMS 577 Therapy, Gender, and Ethnicity
Units: 3 (Enroll in SOCI 577)

SWMS 588 Seminar in Gay, Lesbian, Bisexual and Transgender Studies
Units: 4 Interdisciplinary crosscultural, historical, psychological, sociological, and contemporary political perspectives on female and male homosexual eroticism, and the emergence of gay, lesbian, bisexual, and transgender identities. Instruction Mode: Lecture Grading Option: Letter

SWMS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SWMS 593 Practicum in Teaching Gender Studies
Units: 2 Terms Offered: Fa Basic principles of gender studies pedagogy, emphasizing practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in gender studies. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

SWMS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics relating to gender and feminism. Instruction Mode: Lecture Grading Option: Letter

SWMS 621 Gender Discrimination
Units: 1, 2, 3, 4 Terms Offered: FaSp (Enroll in LAW 621)

SWMS 623 Family Law
Units: 3 or 4 (Enroll in LAW 623)

SWMS 630 Studies in Gender
Units: 4 Max Units: max 12 (Enroll in ENGL 630)

SWMS 640 Sociology of Gender and Sexuality
Units: 4 Terms Offered: FaSp (Enroll in SOCI 640)

SWMS 642 Sex and Gender in Society
Units: 4 (Enroll in SOCI 642)

SWMS 648 Fertility Control Policies
Units: 4 (Enroll in SOCI 648)

SWMS 650 Seminar on Women's and Family History
Units: 4 Max Units: max 8 Terms Offered: Sp (Enroll in HIST 650)

Dramatic Arts

THTR 101 Introduction to Acting
Units: 4 Terms Offered: FaSp Study of genres, terminology, and disciplines of acting; fundamental techniques necessary for

performance; scene study from contemporary plays. Instruction Mode: Lecture Grading Option: Letter

THTR 105 Introduction to Screen Acting
Units: 2 Terms Offered: FaSp Introduction to the theoretical and foundational practices, techniques and strategies specific to screen acting in relation to the basic dynamics of acting for the stage. *Prerequisite:* THTR 252a or THTR 120aL Instruction Mode: Lecture Grading Option: Letter

THTR 115a Movement I
Units: 2 Terms Offered: Fa Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. *Corequisite:* THTR 120a and THTR 140a Registration Restriction: Open only to Theatre (Acting) majors Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 115b Movement I
Units: 2 Terms Offered: Sp Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. *Prerequisite:* THTR 115a *Concurrent Enrollment:* THTR 120b and THTR 140b Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 120aL Acting I
Units: 2 Terms Offered: Fa Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. *Corequisite:* THTR 115a and THTR 140a Registration Restriction: Open only to Theatre (Acting) majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 120b Acting I
Units: 2 Terms Offered: Sp Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. *Corequisite:* THTR 140b. Instruction Mode: Lecture Grading Option: Letter

THTR 121ax Fundamentals of Acting
Units: 2 Terms Offered: FaSp The elements of the actor's imaginative skills. Instruction Mode: Lecture Grading Option: Letter

THTR 121bx Fundamentals of Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 121a. Instruction Mode: Lecture Grading Option: Letter

THTR 122 Improvisation and Theatre Games
Units: 2 Max Units: 4.0 Terms Offered: FaSp Individual and group exercise to free the actor physically and emotionally and to stimulate creativity, imagination, and self-expression. Instruction Mode: Lecture Grading Option: Letter

THTR 124ax Character Acting
Units: 2 Terms Offered: FaSp Concentration of imaginative processes which develop the individual characteristics of a dramatic role. Instruction Mode: Lecture Grading Option: Letter

THTR 124bx Character Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 124a. Instruction Mode: Lecture Grading Option: Letter

THTR 125 Text Studies for Production
Units: 4 Terms Offered: Fa Focuses on the questions, artistic choices, methodologies, and approaches of an actor/director/designer in the preparation of a production score prior to rehearsal. Instruction Mode: Lecture Grading Option: Letter

THTR 130 Introduction to Theatrical Production
Units: 2 Terms Offered: FaSp Introduction to the nonperformance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131a Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131b Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. *Prerequisite:* THTR 131a Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 132a Art of Theatrical Design
Units: 2 Terms Offered: FaSp A guided student exploration of the fundamentals of applied design elements and their use as creative tools in the design process. Instruction Mode: Lecture Grading Option: Letter

THTR 132b Art of Theatrical Design
Units: 2 Terms Offered: FaSp Development of the artistic process and theatrical design vocabulary of the individual within the environment of collaborative storytelling. Instruction Mode: Lecture Grading Option: Letter

THTR 140a Voice I
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. *Corequisite:* THTR 115a and THTR 120a Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 140b Voice I
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. *Corequisite:* THTR 120b. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 152 Introduction to Scene Study
Units: 2 Terms Offered: FaSp Application and consolidation of the skills, knowledge and techniques acquired in the study of

fundamentals of acting encountered in THTR 101. *Prerequisite:* THTR 101. Instruction Mode: Lecture Grading Option: Letter

THTR 195g Theatre on Film

Units: 4 Terms Offered: FaSp Introduction to the theatre and its relationship to society through major plays in film versions. Separate screenings to be arranged. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 196g Shakespeare on Film

Units: 4 Introduction to the formalized plays of William Shakespeare as texts for performance through reading, viewing and analysis of selected plays in textual and film versions. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 197g Comedy and Performance

Units: 4 Comedy and Performance traces the history of comedy in performance from its earliest incarnations to the present day. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 202 The Fundamentals of Comedy

Units: 2 Terms Offered: FaSp Introduction to the fundamental elements of comedy and how to apply those elements to create short, original pieces of comedy in performance and writing. Instruction Mode: Lecture Grading Option: Letter

THTR 213 Corset Construction

Units: 3 Terms Offered: FaSp Design and construct period corsets, along with the materials and terminology needed to sew (machine and hand) corsets. Instruction Mode: Lecture Grading Option: Letter

THTR 215a Movement II

Units: 2 Terms Offered: Fa Training of the actor's body with focus on development of precision and strength. *Prerequisite:* THTR 115 ; *Corequisite:* THTR 220a, THTR 240a. Instruction Mode: Lecture Grading Option: Letter

THTR 215b Movement II

Units: 2 Terms Offered: Sp Training of the actor's body with focus on mask work for the development of precision, strength and expressiveness. *Prerequisite:* THTR 215a; *Corequisite:* THTR 220b, THTR 240b. Instruction Mode: Lecture Grading Option: Letter

THTR 216 Movement for Actors

Units: 2 Terms Offered: FaSp Training and practice in the coordination of the physical apparatus of the actor utilizing various movement techniques through improvisation. Instruction Mode: Lecture Grading Option: Letter

THTR 220a Intermediate Acting I

Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. *Prerequisite:* THTR 120b. Instruction Mode: Lecture Grading Option: Letter

THTR 220b Intermediate Acting I

Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. *Prerequisite:* THTR 120b. Instruction Mode: Lecture Grading Option: Letter

THTR 222 Stage Make-up

Units: 2 Terms Offered: FaSp Principles of stage make-up materials and skills allowing the actors to enhance their features and techniques for moderate and extreme aging, injuries, and character roles. Instruction Mode: Lecture Grading Option: Letter

THTR 225g Theatre Across History and Cultures

Units: 4 Terms Offered: FaSp The analysis of a range of plays from different times and cultures with a consideration of the roles of actor, director, dramaturg and designer. *Recommended Preparation:* THTR 125 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 230 Communicating Theatrical Design Concepts

Units: 3 Terms Offered: FaSp The visualization and communication of design ideas through free-hand and mechanical drawing, including orthographics, isometrics, perspective, shades and shadows, plans, sections and elevations. Instruction Mode: Lecture Grading Option: Letter

THTR 231 Costume Construction

Units: 3 Terms Offered: FaSp Historical survey, theory and practice in construction of costume. *Prerequisite:* THTR 125 Duplicates Credit in former THTR 231ab Instruction Mode: Lecture Grading Option: Letter

THTR 232 Stage Lighting

Units: 3 Terms Offered: FaSp Theory and practice of theatrical lighting design including electricity, radiant energy, refraction, reflection, absorption, chromatic variation and electronic controls. *Prerequisite:* THTR 130 or (THTR 131a and THTR 131b) Instruction Mode: Lecture Grading Option: Letter

THTR 233 Historic Costumes for the Theatre

Units: 3 Terms Offered: FaSp Historical survey, theory and practice of the use of costume in theatrical production; emphasis on period and style. Instruction Mode: Lecture Grading Option: Letter

THTR 236 Stage Sound

Units: 2 Terms Offered: FaSp Basic audio engineering science, how sound is measured, basic transducers and signal flow. Operation of recording and playback equipment used in theatrical sound design/mixing. Instruction Mode: Lecture Grading Option: Letter

THTR 240a Voice II

Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. *Prerequisite:* THTR 140b; *Corequisite:* THTR 215a, THTR 220a. Instruction Mode: Lecture Grading Option: Letter

THTR 240b Voice II

Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. *Prerequisite:* THTR 140b; *Corequisite:* THTR 215b, THTR 220b. Instruction Mode: Lecture Grading Option: Letter

THTR 241 Methods and Materials

Units: 2 Terms Offered: FaSp Cutting-edge and traditional methods and materials that enhance both the planning stages and realization of the theatrical design. Instruction Mode: Lecture Grading Option: Letter

THTR 250 Camera and Improvisation

Units: 2 Terms Offered: FaSp Understanding on-camera acting and improvisation by creating original material both in front and behind the camera. *Prerequisite:* THTR 220a or THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 252a Intermediate Acting I

Units: 2 Terms Offered: FaSp Polishing the actor's skills through analysis and class performance of scenes from plays. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 252b Intermediate Acting I

Units: 2 Terms Offered: FaSp Polishing the actor's skills through analysis and class performance of scenes from plays. Continuation of THTR 252a. *Prerequisite:* THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 290 Introduction to Medical Clowning

Units: 2 Terms Offered: FaSp Explores the art of clowning in hospitals for the purpose of improving the well-being of those in need. Instruction Mode: Lecture Grading Option: Letter

THTR 295 Theatre in Los Angeles

Units: 2 Terms Offered: FaSp Current state of American theatre, through a study of acting, playwriting, criticism, stage design, lighting, and dramatic styles. Instruction Mode: Lecture Grading Option: Letter

THTR 301 Greek and Roman Theatre

Units: 4 Terms Offered: Fa Examines the function of theatre, production and acting conventions, and the drama of classical Greece and Rome. *Recommended Preparation:* THTR 125, THTR 201 . Duplicates Credit in former THTR 213. Instruction Mode: Lecture Grading Option: Letter

THTR 302 Shakespeare in His World

Units: 4 Terms Offered: Sp The plays and theatre of Shakespeare, the influences on his work and his contemporary world. *Recommended Preparation:* THTR 201 , THTR 210 , THTR 211 . Duplicates Credit in former THTR 214. Instruction Mode: Lecture Grading Option: Letter

THTR 303 Projection Design I

Units: 3 Terms Offered: FaSp Investigation of the projection design process, equipment, multi-media, digital technology concepts, and related documentation. *Prerequisite:* THTR 131b and THTR 132a and THTR

132b Instruction Mode: Lecture, Lab
Grading Option: Letter

THTR 304 Advanced Medical Clowning

Units: 2 Terms Offered: FaSp Explores the practice of bringing clowns into places of healing (hospitals, trauma sites, etc.) for the purpose of improving the physical and mental well-being of those in need. *Prerequisite:* THTR 290 Instruction Mode: Lecture Grading Option: Letter

THTR 305a Directing

Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. *Recommended Preparation:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 305b Directing

Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. *Prerequisite:* THTR 305a before b. Instruction Mode: Lecture Grading Option: Letter

THTR 307 Comedy in LA

Units: 2 Terms Offered: FaSp Experiential and discussion-based; examines Los Angeles-based live comedy as it continues to evolve, both through text and performance. *Prerequisite:* THTR 202 Instruction Mode: Lecture Grading Option: Letter

THTR 310 Comedy and Diversity

Units: 4 Terms Offered: FaSp Issues of diversity are central to the societal function of comedy. Students will explore the techniques, structures and performance of sitcoms, sketch comedy and stand-up. *Recommended Preparation:* THTR 125 and THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 312 LGBTQ Theatre

Units: 4 Terms Offered: FaSp Explores the range and genealogy of LGBTQ theatre and performance across political, historical, and theatrical contexts. *Prerequisite:* THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 313 Comedy of Manners

Units: 4 Terms Offered: FaSp Study of the development of Comedy of Manners, with primary focus on Restoration Comedy of Manners. *Prerequisite:* THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 314 Advanced Topics in Modern Drama

Units: 4 Terms Offered: FaSp 20th century realism and the avant-garde. *Prerequisite:* THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 315a Physical Theatre I

Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 315b Physical Theatre I

Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 316 Advanced Movement for Actors

Units: 2 Terms Offered: FaSp Advanced physical training for the B.A. actor utilizing various movement techniques through improvisation. *Prerequisite:* THTR 216. Instruction Mode: Lecture Grading Option: Letter

THTR 317 Theatre Clown

Units: 2 Terms Offered: FaSp Introduction to techniques of clown performance and key techniques including complicité, play, looks and drops. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 318 Creating the Hit Podcast

Units: 2 Terms Offered: FaSpSm Develops the ability to create a podcast. Focuses on skills to produce, perform, market and monetize a podcast across a variety of genres. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 320a Intermediate Acting II

Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. *Corequisite:* THTR 315a, THTR 340a. Instruction Mode: Lecture Grading Option: Letter

THTR 320b Intermediate Acting II

Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. *Corequisite:* THTR 315b, THTR 340b. Instruction Mode: Lecture Grading Option: Letter

THTR 322 Improv 2: Advanced Improv

Units: 2 Terms Offered: FaSp An in depth study of improvised comedy scene work. An exploration of the primary tools and structure for creating improvised scenes and developing characters for stage and screen. *Prerequisite:* THTR 101 or THTR 122 Instruction Mode: Lecture Grading Option: Letter

THTR 330 Scene Design I

Units: 4 Terms Offered: Fa Historical styles, methods, and dramatic analysis for scene design as applied in contemporary practice. *Recommended Preparation:* THTR 130. Instruction Mode: Lecture Grading Option: Letter

THTR 331 Costume Design I

Units: 4 Terms Offered: Sp Historical styles, methods, and dramatic analysis in costume design as applied in contemporary practice. Execution of costume designs for assigned works. *Recommended Preparation:* THTR 231a, THTR 231b. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 332 Lighting Design I

Units: 4 Terms Offered: FaSp Historical styles, methods, and dramatic analysis in lighting design as applied in contemporary

practice. Instruction Mode: Lecture Grading Option: Letter

THTR 333 Stage Management I

Units: 3 Terms Offered: Fa Basic skills, including assembly of prompt book, blocking notation, and organizational and communication procedures applied in theatre production. Instruction Mode: Lecture Grading Option: Letter

THTR 335 Scenic Construction

Units: 3 Terms Offered: FaSp Technology, organization, and operation of the theatrical scene shop centered around the proper and safe use of tools, the choosing of materials, and methods of construction. Duplicates Credit in former THTR 131. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 336 Introduction to Sound Design

Units: 3 Terms Offered: FaSp The art and techniques of theatrical sound design. The use of music and ambient sound in theatrical presentations. Design elements as metaphor. Instruction Mode: Lecture Grading Option: Letter

THTR 340a Intermediate Voice

Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. *Concurrent Enrollment:* THTR 315a, THTR 315b, THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 340b Intermediate Voice

Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. *Concurrent Enrollment:* THTR 315a, THTR 315b, THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 341x Voice for the Non-Theatre Major

Units: 2 Terms Offered: Fa Designed for the non-theatre major focusing on the range, color, texture, and projection of the human voice in a variety of situations. Instruction Mode: Lecture Grading Option: Letter

THTR 342a Basic Voice

Units: 2 Terms Offered: FaSp Examination of the individual voice centering on resonance, tone, flexibility, and support through dramatic selections for transmitting meaning and emotion of character. Instruction Mode: Lecture Grading Option: Letter

THTR 342b Basic Voice

Units: 2 Terms Offered: FaSp Continuation of THTR 342a. Instruction Mode: Lecture Grading Option: Letter

THTR 343 Musical Theatre Audition

Units: 3 Terms Offered: FaSpSm Designed to give students confidence and integrity for auditions in musical theatre. Choosing appropriate material and preparation for the audition and performance. Audition required. Instruction Mode: Lecture Grading Option: Letter

THTR 352a Intermediate Acting II

Units: 2 Terms Offered: FaSp Building and

sustaining character in drama. *Prerequisite:* THTR 252b. Instruction Mode: Lecture Grading Option: Letter

THTR 352b Intermediate Acting II

Units: 2 Terms Offered: FaSp Continuation of world drama. Class performance and critique. *Prerequisite:* THTR 352a Instruction Mode: Lecture Grading Option: Letter

THTR 354 Acting Shakespeare

Units: 2 Terms Offered: FaSp Basic approach to the acting and analysis of the highly formalized texts of William Shakespeare. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 355 Acting for Sitcoms

Units: 2 Terms Offered: FaSp Provide an understanding as to how to work in half-hour television and streaming media. *Prerequisite:* THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 365 Playwriting I

Units: 4 Terms Offered: FaSp Essential elements of playwriting through weekly assignments, students' initiative, occasional productions of scenes, and extensive classroom analysis. Instruction Mode: Lecture Grading Option: Letter

THTR 366 Playwriting II

Units: 4 Terms Offered: FaSp Continuation of the work begun in THTR 365. *Prerequisite:* THTR 365. Instruction Mode: Lecture Grading Option: Letter

THTR 380 Immersive Theatre

Units: 2 Terms Offered: FaSp History, principles and practice of Immersive Theatre, one of the most important contemporary movements in the field. *Prerequisite:* THTR 225g and THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 390 Special Problems

Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

THTR 395m Drama as Human Relations

Units: 4 A focus on American ethnic and multicultural diversity from the perspectives of gender, race, and myth as revealed in plays, film, and other performance media. Instruction Mode: Lecture Grading Option: Letter

THTR 396 God, Drama and Entertainment

Units: 4 Terms Offered: FaSp An exploration of money, power, sex and love in relation to secular and spiritual values represented by contemporary theatre media. Instruction Mode: Lecture Grading Option: Letter

THTR 397 Theatre Practicum

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Substantive participation in productions sponsored by the school and supervised by the faculty. Instruction Mode: Lecture Grading Option: Letter

THTR 400 Eco-Theatre: Art and Science in Contemporary Plays

Units: 4 Terms Offered: FaSp Explores theatre artists' responses to the growing

environmental crisis and provides a model for the intersection of theatre and other disciplines. *Prerequisite:* THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 401 Contemporary Theatre in a Changing World

Units: 4 Terms Offered: FaSp Explores the bold approaches that characterize the best of contemporary theatre, as well as the artists who are groundbreakers in a changing world. *Prerequisite:* THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 402 Projection Design II

Units: 3 Terms Offered: FaSp Projection design process, software, equipment, multi-media and digital technology concepts, and related documentation. *Prerequisite:* THTR 131b and THTR 132a and THTR 132b Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 403 The Performing Arts

Units: 4 Terms Offered: FaSp An interdisciplinary inquiry into the aesthetics of the performing arts. Examines a dramatic classic and its adaptation into musical theatre, opera, ballet, and film. Duplicates Credit in the former THTR 303. Instruction Mode: Lecture Grading Option: Letter

THTR 404 Acting Theory

Units: 4 Terms Offered: FaSp Examination of the theoretical foundations of acting as an art form through the reading of primary historical texts. *Prerequisite:* THTR 101 and THTR 125 Instruction Mode: Lecture Grading Option: Letter

THTR 405m Performing Identities

Units: 4 Terms Offered: FaSp This course explores the live performance medium as a creative means of social redress and personal expression. Duplicates Credit in the former THTR 393m. Instruction Mode: Lecture Grading Option: Letter

THTR 406 Theatre on the Edge

Units: 4 Terms Offered: FaSp An exploration of the art of theatre at the edge of possibilities. Instruction Mode: Lecture Grading Option: Letter

THTR 407a Drawing and Rendering for the Theatre

Units: 2 Terms Offered: FaSp Drawing and rendering techniques appropriate for theatre designers. Drawing and drawing theory. Duplicates Credit in former FA 407ab. Instruction Mode: Lecture Grading Option: Letter

THTR 407b Drawing and Rendering for the Theatre

Units: 2 Terms Offered: FaSp Drawing and rendering techniques appropriate for theatre designers. Drawing and rendering. Duplicates Credit in former FA 407ab. Instruction Mode: Lecture Grading Option: Letter

THTR 408a Dialects

Units: 2 Terms Offered: FaSpSm The study of standard American stage dialect using the international phonetic alphabet. Instruction Mode: Lecture Grading Option: Letter

THTR 408b Dialects

Units: 2 Terms Offered: FaSpSm The study of accents and regional dialects. *Prerequisite:* THTR 408a. Instruction Mode: Lecture Grading Option: Letter

THTR 409 Advanced Drafting: Vectorworks

Units: 3 Terms Offered: FaSp An exploration of computer aided drafting (CAD) software, including drafting standards as achieved with Vectorworks and related software. *Prerequisite:* THTR 130 and THTR 132a and THTR 132b *Recommended Preparation:* LRI Designs Vectorworks Tutorials Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 410 The Digital Actor

Units: 2 Terms Offered: FaSp Empowers the student to forge a career in acting by managing and utilizing the many facets of social and digital media. *Prerequisite:* THTR 252a and THTR 252b Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 411 The Business of Acting

Units: 2 Terms Offered: FaSp Develops the student's ability to connect and combine managerial, economic and business-related skills with the craft and career of acting. *Prerequisite:* THTR 252a and THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 413 Writing Your Own Material

Units: 2 Terms Offered: Sp Develop and write one of a range of comic forms learning the discipline, structure necessary in a longer narrative piece. *Prerequisite:* THTR 470 or THTR 474 or THTR 479 or THTR 482 or THTR 483 Instruction Mode: Lecture Grading Option: Letter

THTR 415 Physical Theatre II

Units: 2 Terms Offered: FaSp Advanced Physical Acting focusing on principles of verbal/non-verbal improvisation and communication. Elements of textual analysis, including development of character mask and of the ensemble. *Prerequisite:* THTR 315b Duplicates Credit in former THTR 415ab Instruction Mode: Lecture Grading Option: Letter

THTR 417 Stage Combat

Units: 2 Terms Offered: FaSp Introduction to safe and effective portrayals of violence for the stage. Training and practice of unarmed stage combat skills. *Recommended Preparation:* THTR 216. Instruction Mode: Lecture Grading Option: Letter

THTR 419 Alexander Technique for Performers

Units: 2 Terms Offered: FaSp Training and practice in the work of F.M. Alexander. A clear and systematic look into the underlying principles that govern human movement. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 420a Senior Project

Units: 2 Terms Offered: Fa Contemporary material from plays and screenplays with an emphasis on individual challenges and problems. *Prerequisite:* THTR 320b Registration Restriction: Open only to BFA acting majors Instruction Mode: Lecture Grading Option: Letter

THTR 420b Senior Project

Units: 2 Terms Offered: FaSp Contemporary material from plays and screenplays with an emphasis on individual challenges and problems. *Prerequisite:* THTR 320b
Registration Restriction: Open only to BFA acting majors
Instruction Mode: Lecture
Grading Option: Letter

THTR 421 Public Speaking as**Performance: A Course for Non-Actors**

Units: 2 Terms Offered: FaSpSm Public speaking approached as performance, using acting techniques to communicate with confidence, clarity and charisma. Instruction Mode: Lecture
Grading Option: Letter

THTR 422 Improv 3: Long Form Improvisation

Units: 2 Terms Offered: FaSp Emphasis on Full Length Improvised Performances including the styles of various playwrights, genres of films, "the Harold," improvised plays and musicals. Building on the groundwork of THTR 122 Improvisation and Theatre Games and THTR 322 Improv 2, students apply the techniques to long form unscripted performances. *Prerequisite:* THTR 122 and THTR 322
Recommended Preparation: THTR 101 and THTR 483 and THTR 470
Instruction Mode: Lecture
Grading Option: Letter

THTR 423 Magic

Units: 2 Terms Offered: FaSp The dramatic art of making an audience believe something is impossible. The history and performance of magic including illusion, mentalism, vanishing, coin and card tricks. Instruction Mode: Lecture
Grading Option: Letter

THTR 424 The Stage Artist as Entrepreneur

Units: 2 Terms Offered: FaSp Explores all the tools required to forge a career as a stage artist, with an emphasis on producing new work. *Prerequisite:* THTR 101 and THTR 305a
Instruction Mode: Lecture
Grading Option: Letter

THTR 425 Dynamics of Technical Theatre

Units: 3 Terms Offered: FaSp Advanced technical direction topics involving the technical analysis and design of moving scenery and theatrical systems. *Recommended Preparation:* THTR 438
Instruction Mode: Lecture
Grading Option: Letter

THTR 426 Being on Screen: A Class for Presenters, Hosts, and Others

Units: 2 Terms Offered: FaSp Exploration of on-camera skills required for presenters, hosts, athletes, public speakers, and others whose careers will include on-screen appearances. Registration Restriction: Not open to Theatre majors
Instruction Mode: Lecture
Grading Option: Letter

THTR 427 Audition Technique for Film, Television and New Media

Units: 2 Terms Offered: FaSp Develop on-camera auditioning skills for actors at a professional level in a variety of film, television, and new media venues. *Prerequisite:* THTR 101 and THTR 252b
Instruction Mode: Lecture
Grading Option: Letter

THTR 430 Stage Management II

Units: 3 Terms Offered: Sp Application of stage management procedures required in the professional theatre. *Prerequisite:* THTR 333.
Instruction Mode: Lecture
Grading Option: Letter

THTR 431 Seminar in Theatre Design

Units: 2 Terms Offered: FaSp Research into the application of contemporary topics relevant to theatrical design within the diverse cultural environment of the greater Los Angeles area. Instruction Mode: Lecture
Grading Option: Letter

THTR 432a Scene Design II

Units: 3 Terms Offered: FaSp Continuation of THTR 330. Evolution of scene design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 330.
Instruction Mode: Lecture
Grading Option: Letter

THTR 432b Scene Design II

Units: 3 Terms Offered: FaSp Continuation of THTR 330. Evolution of scene design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 330.
Instruction Mode: Lecture
Grading Option: Letter

THTR 433a Costume Design II

Units: 3 Terms Offered: FaSp Evolution of costume design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 331.
Instruction Mode: Lecture
Grading Option: Letter

THTR 433b Costume Design II

Units: 3 Terms Offered: FaSp Evolution of costume design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 331.
Instruction Mode: Lecture
Grading Option: Letter

THTR 434a Lighting Design II

Units: 3 Terms Offered: FaSp Continuation of THTR 332. Evolution of lighting design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 332.
Instruction Mode: Lecture
Grading Option: Letter

THTR 434b Lighting Design II

Units: 3 Terms Offered: FaSp Continuation of THTR 332. Evolution of lighting design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 332.
Instruction Mode: Lecture
Grading Option: Letter

THTR 435 Advanced Theatrical Drafting

Units: 3 Drafting style and complex graphic communication. Emphasis on creating professional plates, developing an individual style and graphic problem solving. Instruction Mode: Lecture
Grading Option: Letter

THTR 436 Sound for Theatre

Units: 3 Terms Offered: Fa Introduction to electronic sound and sound reinforcement, including basic equipment, recording, editing, and show operation
Prerequisite: THTR 236 or THTR 336
Instruction Mode: Lecture
Grading Option: Letter

THTR 437 Scene Painting

Units: 3 Terms Offered: Sp Techniques, materials, and equipment of the scenic

artist, including both historic and modern methods. *Recommended Preparation:* paint and drawing experience. Instruction Mode: Lecture
Grading Option: Letter

THTR 438 Technical Theatre

Units: 3 Terms Offered: Sp Theory and practice of technical theatre. Emphasis is on technical problem solving and graphic solutions to technical theatre. *Prerequisite:* THTR 230.
Instruction Mode: Lecture
Grading Option: Letter

THTR 439 Stage Properties

Units: 3 Terms Offered: Sp Organization, management, and construction of properties for the theatre. Instruction Mode: Lecture
Grading Option: Letter

THTR 440 Advanced Voice

Units: 2 Terms Offered: Fa Continuation of exercises related to the individual student for the stage. *Prerequisite:* THTR 340b
Duplicates Credit in former THTR 440a
Instruction Mode: Lecture
Grading Option: Letter

THTR 441 Advanced Sound Design

Units: 3 Terms Offered: Sp Advanced exploration of theatrical sound design theory and related technology; creative uses of music, sound effects, and audio equipment in modern theatres. *Prerequisite:* THTR 436.
Instruction Mode: Lecture
Grading Option: Letter

THTR 442 Voice-over Acting

Units: 2 Terms Offered: FaSp Acting techniques, recording studio technology and editing for the field of voice acting and voice-overs. *Prerequisite:* THTR 252a
Instruction Mode: Lecture
Grading Option: Letter

THTR 443 Production Management

Units: 4 The context and scope of work done by a Theatrical Production Manager. Students will learn about different types of theatrical organizations and how they are structured. *Prerequisite:* THTR 333; *Recommended Preparation:* two units of THTR 397.
Instruction Mode: Lecture
Grading Option: Letter

THTR 444 Applied Voice: Speech and Text

Units: 3 Terms Offered: Fa Intensive study of speech and voice regarding text, context, environment, dynamics, range, and accent. *Recommended Preparation:* THTR 342a, THTR 342b.
Instruction Mode: Lecture
Grading Option: Letter

THTR 445 Developing Your Speaking Voice

Units: 2 Terms Offered: FaSpSm Designed to expand the uniqueness of one's own voice in the areas of pitch, power, clarity, and warmth. Instruction Mode: Lecture
Grading Option: Letter

THTR 450 Acting on Camera for Network and Cable TV

Units: 4 Terms Offered: Sp Practical application of acting before a camera working on television scenes, both network and cable, directed by School of Cinematic Arts BFA student directors, supervised by both Cinematic Arts and Dramatic Arts Faculty. *Prerequisite:* THTR 320b or THTR 352a
Registration Restriction: Open only to

seniors Instruction Mode: Lecture Grading Option: Letter

THTR 452a Advanced Acting

Units: 4 Terms Offered: FaSp Intensive investigation and performance of audition techniques. Scene study skills developed, including cold readings, first readings, rehearsal procedure, performance process, camera/taping. *Prerequisite:* THTR 352a or THTR 352b Instruction Mode: Lecture Grading Option: Letter

THTR 452b Advanced Acting

Units: 4 Terms Offered: FaSp Intensive investigation and performance of audition techniques. Scene study skills developed, including cold readings, first readings, rehearsal procedure, performance process, camera/taping. *Prerequisite:* THTR 352b. Instruction Mode: Lecture Grading Option: Letter

THTR 453 Taking it on the Road and Beyond

Units: 4 Terms Offered: Sp Specific instruction to prepare Stage Managers for the rigors and processes of Touring and Opera productions as well as other non-theatrical team-based collaborations in entertainment. *Prerequisite:* THTR 333 and THTR 430; *Recommended Preparation:* 2 units of THTR 397. Instruction Mode: Lecture Grading Option: Letter

THTR 454 Acting Shakespeare II

Units: 2 Terms Offered: FaSp A continuation and deeper investigation of the analysis and performance of the highly formalized texts of William Shakespeare. *Prerequisite:* THTR 354. Instruction Mode: Lecture Grading Option: Letter

THTR 456 Latinx Theatre

Units: 4 Terms Offered: FaSp Explores the range and genealogy of Latinx theatre and performance from its origins in the last fifty years to the present. *Prerequisite:* THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 458 Visiting Artist Workshop

Units: 2 Max Units: 4.0 Terms Offered: FaSp A workshop course taught by the visiting artist holding the George Burns chair. Course topics will be determined by the instructor. Instruction Mode: Lecture Grading Option: Letter

THTR 459 Songwriting for the Musical Theatre

Units: 2 Terms Offered: FaSp Structure, character and intention in songwriting for the musical theatre. Writing for the voice and examination of how form follows content. Portfolio submission required. Instruction Mode: Lecture Grading Option: Letter

THTR 460 Asian and Asian American Theatre: Identity and Aesthetics

Units: 4 Terms Offered: FaSp Explores Asian and Asian American theatre, from the historical to the contemporary, with an aim toward understanding issues of aesthetics, acculturation, and identity. *Prerequisite:* THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 464 An Actor's Reel

Units: 2 Terms Offered: FaSp Using original

and existing scripted material for film, television and new media students will act, film and edit scenes to form a professional performance reel. *Prerequisite:* THTR 352a or THTR 320a Instruction Mode: Lecture Grading Option: Letter

THTR 465 Playwriting III

Units: 4 Analysis of a full-length play or its equivalent with continued production opportunity. *Prerequisite:* THTR 366. Instruction Mode: Lecture Grading Option: Letter

THTR 466 Playwriting IV

Units: 4 Continuation of the work begun in THTR 465. *Prerequisite:* THTR 465. Instruction Mode: Lecture Grading Option: Letter

THTR 467 Going Viral: Performance for New Media

Units: 2 Terms Offered: FaSp A writing and performance course (partially online) for new media. Students will learn to create original short form and web series content for new media including YouTube, Funny or Die, Periscope and other Internet platforms. Instruction Mode: Lecture Grading Option: Letter

THTR 468 Theatre in Education

Units: 4 Terms Offered: Sp Exploration of the theory and practice of theatre arts in the learning environment. Design and implement projects to support elementary and secondary education. *Recommended Preparation:* THTR 201, EDUC 200. Instruction Mode: Lecture Grading Option: Letter

THTR 469 Satire and Parody in Performance

Units: 2 Terms Offered: FaSp A survey of the history and implementation of American satire and parody in performance from Mark Twain to Jon Stewart and beyond. Building on the past, students will learn the structures and techniques for parodying and satirizing the contemporary world through writing and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 470 Sketch Comedy for Theatre

Units: 2 A writing-performance workshop in which the students create, rehearse, and perform original sketch comedy material. Instruction Mode: Lecture Grading Option: Letter

THTR 471 Senior Showcase

Units: 2 Designed to provide the graduating students with an opportunity to select, prepare and perform for agents, directors and producers in film, television and theatre. Audition required. Instruction Mode: Lecture Grading Option: Letter

THTR 472 Professional Preparation for Actors

Units: 2 Terms Offered: FaSp Introduction to the skills, knowledge, and promotional materials that will enable the student to manage an independent career in the performing arts. *Prerequisite:* THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 473 Sketch Comedy in Performance

Units: 2 Terms Offered: Sp A workshop

in the techniques of performing humorous sketches, in collaboration with writers, directors, and technicians in the production of a live sketch comedy show. *Recommended Preparation:* THTR 101, THTR 122, THTR 470. Instruction Mode: Lecture Grading Option: Letter

THTR 474 Introduction to Stand Up Comedy

Units: 2 An introduction to the discipline of conceiving, writing, and creating original Stand Up Comedy routines. Instruction Mode: Lecture Grading Option: Letter

THTR 475 Acting on Camera: The Collaborative Process

Units: 4 Max Units: 08 Terms Offered: FaSp Acting students will learn to develop on-camera acting skills and to collaborate with student directors and cinematographers from the School of Cinematic Arts. *Prerequisite:* THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 476mw African American Theatre, Dance, and Performance

Units: 4 A survey of African American theatre and cultural performance traditions as a reflection of both African American culture and American history. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

THTR 477 Theatre and Therapy

Units: 4 Terms Offered: Fa Explores theatre as a healing art form. Techniques include games, improv, playback theatre, Boal's and Moreno's drama therapy, and Jungian dream theatre to name a few. Work with incarcerated youth, gay/lesbian/bi teens, elderly, disabled and other populations. Instruction Mode: Lecture Grading Option: Letter

THTR 478a Theatre for Youth

Units: 2 Theory and practice of youth theatre, including development and rehearsal of mainstage productions. Emphasis on multicultural and bilingual pieces. Enroll by audition or interview only. Instruction Mode: Lecture Grading Option: Letter

THTR 478b Theatre for Youth

Units: 2 Continuation of a, bringing developed pieces into production for regional K-12. Instruction Mode: Lecture Grading Option: Letter

THTR 479 Solo Performance

Units: 4 Terms Offered: Fa A writing-performance workshop in which students write, develop, and rehearse original, autobiographical and character monologues and perform them at the end of the semester. Instruction Mode: Lecture Grading Option: Letter

THTR 480a Performance for Camera

Units: 2 Terms Offered: FaSpSm Structured to address the dynamics of acting in relation to film/television. Refining the students' understanding of the similarities/differences between acting on stage/film. *Prerequisite:* THTR 252a or THTR 105 Duplicates Credit in former THTR 480 Instruction Mode: Lecture Grading Option: Letter

THTR 480b Performance for Camera

Units: 2 Terms Offered: FaSpSm Continued exploration of acting for film/television. Furthering the student's understanding of the similarities/differences between acting on stage/film. *Prerequisite:* THTR 480a Instruction Mode: Lecture Grading Option: Letter

THTR 481 From The Border to Broadway

Units: 4 Terms Offered: Fa An investigation of the role that Latina/o plays and performances have played in creating and documenting a contemporary American experience of the theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 482 Stand Up 2

Units: 2 Terms Offered: FaSp Enhancement and extension of the student's comedic set using new forms and structures to develop the student's comedic sensibility and content. *Prerequisite:* THTR 474 Instruction Mode: Lecture Grading Option: Letter

THTR 483 Characters of Comedy

Units: 2 Terms Offered: FaSp An in depth study of the performance of archetypal characters of comedy focused on the lineage from commedia to sit-com. Students will create original characters from archetypal forms and explore their relationships in classis and contemporary comedic performance. Instruction Mode: Lecture Grading Option: Letter

THTR 484 Acting in Television Commercials

Units: 2 Terms Offered: FaSm An on-camera, workshop-style introduction to techniques, perspectives and theories unique to performing in television commercials. *Recommended Preparation:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 485 Advanced Solo Performance

Units: 4 Terms Offered: Sp An advanced writing and performance workshop. Students will write and rehearse an extended personal monologue to be presented at the end of the semester. *Prerequisite:* THTR 479. Instruction Mode: Lecture Grading Option: Letter

THTR 486 Creating Characters

Units: 4 A writing workshop devoted to the creation of living, breathing characters, exploring a range of techniques designed to develop authenticity. Instruction Mode: Lecture Grading Option: Letter

THTR 487 Promotion for the Performing Arts

Units: 4 Terms Offered: Fa Introduction and overview of all aspects of marketing the arts including both non-profit and commercial organizations. Instruction Mode: Lecture Grading Option: Letter

THTR 488mw Theatre in the Community

Units: 4 Terms Offered: Fa Research and actively develop the theory of theatre as a moving political, social, economic and spiritual force of change within the local community. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

THTR 489 Theatre Internship

Units: 2, 3, 4, 5, 6 Terms Offered: FaSpSm Practical experience in the entertainment industry. Instruction Mode: Lecture Grading Option: Letter

THTR 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

THTR 491 Theatre Organization and Administration

Units: 4 Terms Offered: Fa Budgets, contracts, box-office procedures, public relations; personnel and executive policies of the school, community, and professional theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 493a Periods and Styles

Units: 2 Terms Offered: FaSp A survey of the influence of historical and cultural events on the evaluation of theatrical styles. Classical to Jacobean. Instruction Mode: Lecture Grading Option: Letter

THTR 493b Periods and Styles

Units: 2 Terms Offered: FaSp A survey of the influence of historical and cultural events on the evaluation of theatrical styles. Restoration to 20th century. Instruction Mode: Lecture Grading Option: Letter

THTR 494 Raising Money for the Arts

Units: 4 Terms Offered: Sp Overview of fundraising techniques for non-profit theatre including grantsmanship, board development, direct mail soliciting, and money raising activities and events. Instruction Mode: Lecture Grading Option: Letter

THTR 495 Experimental Theatre Workshop I

Units: 4 Max Units: 08 Terms Offered: FaSp Guidance and direction in the production of new and experimental plays for a public audience. By audition. Instruction Mode: Lecture Grading Option: Letter

THTR 496 Experimental Theatre Workshop II

Units: 4 Max Units: 8.0 Terms Offered: FaSp Continuation of THTR 495. Enrollment by audition only. Instruction Mode: Lab Grading Option: Letter

THTR 497 Advanced Theatre Practicum

Units: 2 Max Units: 4.0 Terms Offered: FaSp Intensive participation in a production sponsored by the school and supervised by the faculty, to increase and develop artistic growth. *Prerequisite:* THTR 397. Instruction Mode: Lecture Grading Option: Letter

THTR 498 Production Analysis and Performance

Units: 4 Terms Offered: FaSp Investigation and analysis of the work of a major dramatist and his milieu; production of one of his plays. By audition. Instruction Mode: Lecture Grading Option: Letter

THTR 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Studies in selected areas of theatre art. Intensive practice in role and script interpretation and its psychological

relationship to the audience. Instruction Mode: Lecture Grading Option: Letter

THTR 500 Dramaturgical Perspectives and Approaches

Units: 2 Max Units: 10.0 Investigates art and craft of dramatic writing initiated/completed in other MFA in Dramatic Writing courses or that was submitted as a sample for program entry. Instruction Mode: Lecture Grading Option: Letter

THTR 501 Poetry and Prose into Drama

Units: 4 Max Units: 12 Terms Offered: Sp Plays for the stage shall be written using public-domain poetry and prose as inspiration and source material, complemented with exploring poetry, prose, and varied dramas as context for the student writer. Students should be well-versed in literature, and have written in one or more genres. *Recommended Preparation:* reading poetry and novels Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL 563

THTR 504 The Art of Collaboration and Ensemble

Units: 2 Terms Offered: FaSp An investigation of the role that collaboration plays in making ensemble work. MFA Actors will collaborate with MFA Dramatic Writers in creating an ensemble company. Instruction Mode: Lecture Grading Option: Letter

THTR 505 Staging Community-based Theatre

Units: 3 Terms Offered: Sp Explores the theory and practice of staging community-based popular theatre, including Theatre of the Oppressed, street theatre, witness theatre, agit-prop and festival theatre events. Instruction Mode: Lecture Grading Option: Letter

THTR 506 Advanced Creating Characters

Units: 2 An advanced writing workshop that focuses on continuing development of the crafting of character, centering on depth, breadth, dimensionality, and authenticity. Instruction Mode: Lecture Grading Option: Letter

THTR 510 Writing the Short Drama

Units: 2 Terms Offered: FaSp The art and craft of dramatic writing. In particular exploring its dimensions with regard to character and story development in the ten minute play. Instruction Mode: Lecture Grading Option: Letter

THTR 512 Studies in Dramatic Analysis

Units: 2 Terms Offered: FaSp A skill-based workshop that uses a historical survey of theatre texts to develop critical reading skills along two different tracks: Acting and Dramatic Writing. Instruction Mode: Lecture Grading Option: Letter

THTR 513 Seminar in History of the Theatre

Units: 4 Bibliography, historical evolution, patterns, and techniques of the theatre from primitive to modern times. Instruction Mode: Lecture Grading Option: Letter

THTR 515a Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the

body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515b Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515c Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515d Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515e Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. *Corequisite:* THTR 480, THTR 540e, THTR 555, THTR 575. Instruction Mode: Lecture Grading Option: Letter

THTR 515f Advanced Movement

Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. *Corequisite:* THTR 520e, THTR 540f, THTR 597. Instruction Mode: Lecture Grading Option: Letter

THTR 520a Advanced Acting

Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture Grading Option: Letter

THTR 520b Advanced Acting

Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520c Advanced Acting

Units: 2 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture Grading Option: Letter

THTR 520d Advanced Acting

Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520e Advanced Acting

Units: 2 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. *Corequisite:* THTR 515f, THTR 540f, THTR 571, THTR 597. Instruction Mode: Lecture Grading Option: Letter

THTR 521 Engaging Community Narratives

Units: 3 Terms Offered: Fa Provides training for actor/artists who partner with non-actors in community-based theatre projects. Instruction Mode: Lecture Grading Option: Letter

THTR 525 Seminar in Contemporary Theatre

Units: 4 Terms Offered: SpSm Analysis of trends, problems, and the work of

major figures in the contemporary theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 526 Seminar in Dramatic Literature

Units: 4 Study and analysis of world drama best representing changes in philosophies, aesthetics, and tastes of audiences. Instruction Mode: Lecture Grading Option: Letter

THTR 527 Writing the Pacific Rim: Global and Western Dramatic Writing

Units: 4 Writing dramatically, utilizing the Pacific Rim and the Western United States as cultural sites of knowledge and as inspirations. Instruction Mode: Lecture Grading Option: Letter

THTR 528 Seminar in Dramatic Analysis

Units: 4 Terms Offered: Fa Drama as a living art; reading, analysis, and discussion of plays which best illustrate principles of effective playwriting. Instruction Mode: Lecture Grading Option: Letter

THTR 529a Textual Studies for Performance

Units: 4 Terms Offered: Fa Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 529b Textual Studies for Performance

Units: 4 Terms Offered: Sp Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 530 Seminar in Dramatic Criticism

Units: 4 Dramatic criticism from the classical Greek period to the modern. Instruction Mode: Lecture Grading Option: Letter

THTR 533 Seminar in the American Theatre

Units: 4, 2 years Terms Offered: SpSm History and literature of the American theatre from its beginning to the present day. Instruction Mode: Lecture Grading Option: Letter

THTR 535 Seminar in Aesthetics of the Theatre

Units: 4 Aesthetic theories which apply to the art of the theatre; emphasis upon acting and play direction. Instruction Mode: Lecture Grading Option: Letter

THTR 540a Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540b Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540c Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance

circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540d Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540e Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. *Corequisite:* THTR 515e, THTR 575, THTR 480, THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 540f Advanced Voice Diction

Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. *Corequisite:* THTR 515f, THTR 520e, THTR 571, THTR 597. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 541 Diction and Dialects

Units: 2 Terms Offered: Fa Fundamentals of speech, diction, dialects and accents, including work in the International Phonetic Alphabet. Instruction Mode: Lecture Grading Option: Letter

THTR 542 Singing for Actors

Units: 2 An introduction to the various facets of singing in theatrical performance. Instruction Mode: Lecture Grading Option: Letter

THTR 544 Embodied Poetics

Units: 2 Terms Offered: Fa Explores the relationship between vocal and physical expression and the spontaneity of human impulse within the community-based context. Instruction Mode: Lecture Grading Option: Letter

THTR 545 Visiting Artists Master Seminar

Units: 4 Terms Offered: Sp A workshop taught by a master visiting artist, concentrating on his/her specific expertise in relation to dramatic writing. Course topics determined by the instructor. *Recommended Preparation:* reading or viewing the work of the visiting master artist. Instruction Mode: Lecture Grading Option: Letter

THTR 550a Seminar in Scene Design

Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 550b Seminar in Scene Design

Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552a Seminar in Costume Design

Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552b Seminar in Costume Design

Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553a Seminar in Lighting Design

Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553b Seminar in Lighting Design

Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 554 Visual and Spatial Relationship

Units: 2 Terms Offered: FaSp The illustration and understanding of how space can be used to add emotional undertone, contextual information and strong staging ideas to a production. Instruction Mode: Lecture Grading Option: Letter

THTR 555 Directing Fundamentals

Units: 2 To provide the basic foundations for the conceptualization and execution of works for the stage. Instruction Mode: Lecture Grading Option: Letter

THTR 556a Directing

Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. *Prerequisite:* THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 556b Directing

Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. *Prerequisite:* THTR 556a. Instruction Mode: Lecture Grading Option: Letter

THTR 558a Design for Directors

Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. *Prerequisite:* THTR 555.

THTR 558b Design for Directors

Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. *Prerequisite:* THTR 558a.

THTR 566 Dramatic Writing Studio

Units: 4 Max Units: 24 Terms Offered: FaSp Investigates gestalt of the student dramatic writer's professional development from the empty page and writing fundamentals to the first-draft script, business affairs, and dramaturgical advancement. Instruction Mode: Lecture Grading Option: Letter

THTR 567a Studies in Playwriting

Units: 4 Extensive examination of playwriting, dramaturgical development process, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 567b Studies in Playwriting

Units: 4 Continued extensive examination of playwriting, dramaturgy, development, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 568 Popular Theatre for Education and Development

Units: 3 Terms Offered: Sp Theory and practice of Theatre in Education and Theatre for Development as resources for conscientization and liberation of communities at the margins of power. Instruction Mode: Lecture Grading Option: Letter

THTR 570 Acting on Camera: The Collaborative Process

Units: 2 Study of acting methods and techniques for the camera, focusing on collaboration with directors in the realization of screenplays. Instruction Mode: Lecture Grading Option: Letter

THTR 571 Professional Seminar

Units: 2 Terms Offered: Sp Introduction to the world of the professional actor. Instruction Mode: Lecture Grading Option: Letter

THTR 572 Global Dramatic Writing

Units: 4 Terms Offered: FaSp "Tour" of non-European and non-European American cultures with regard to their dramatic subject matter and traditions. Instruction Mode: Lecture Grading Option: Letter

THTR 574a Dramatic Writing Across Media for Playwrights

Units: 2 Terms Offered: Fa Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. Duplicates Credit in former THTR 574 Instruction Mode: Lecture Grading Option: Letter

THTR 574b Dramatic Writing Across Media for Playwrights

Units: 2 Terms Offered: Sp Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. *Prerequisite:* THTR 574a Duplicates Credit in former THTR 574 Instruction Mode: Lecture Grading Option: Letter

THTR 575 Creative Production Projects

Units: 6 Advanced creative projects for production with emphasis on theatre as a synthesis of the performing arts. Instruction Mode: Lecture Grading Option: Letter

THTR 576 Creative Process for Dramatic Writers

Units: 4 Terms Offered: Sp An advanced writing workshop that focuses on critical and deep development of plays that are the centerpieces of student's thesis portfolios. Instruction Mode: Lecture Grading Option: Letter

THTR 577 Theatre and Therapy for Cultural Fieldwork

Units: 3 Terms Offered: Sp Explores the theory and practice of theatre and therapy in the cultural fieldwork and community development settings. *Recommended Preparation:* THTR 587. Instruction Mode: Lecture Grading Option: Letter

THTR 578 Theatre of the Oppressed: Theory, Games, and Techniques

Units: 4 Terms Offered: FaSpSm Basic theoretical foundations of game playing for populations at the margins of power. *Recommended Preparation:* THTR 521, THTR 544. Instruction Mode: Lecture Grading Option: Letter

THTR 579 Writing Culture

Units: 3 Terms Offered: FaSpSm Borrows from anthropology, popular/community-based theatre, cultural studies, and literature to provide an array of methodologies and approaches to artistic collaboration across cultures and difference. Instruction Mode: Lecture Grading Option: Letter

THTR 586a Applied Theatre Arts: Los Angeles Residency

Units: 2 Terms Offered: FaSp Academic and group process context for students' work in their chosen local internships to help students engage with communities as cultural fieldworkers. Instruction Mode: Lecture Grading Option: Letter

THTR 586b Applied Theatre Arts: Los Angeles Residency

Units: 2 Terms Offered: FaSp Supervisory, logistical, and theoretical container for THTR 586a. Engages students in their curricular experiences in the cultural field in partnership with their community-based organizations. Instruction Mode: Lecture Grading Option: Letter

THTR 587 Liberation Arts and Community Engagement — Theory

Units: 4 Terms Offered: Fa Historical foundations of liberatory movements using expressive arts towards community-based goals of reciprocal and collaborative empowerment, civil rights, psychological or political freedom and justice. Instruction Mode: Lecture Grading Option: Letter

THTR 588 Liberation Arts and Community Engagement — Praxis

Units: 3 Terms Offered: Sp Theory and practice of developing liberatory and Theatre of the Oppressed events, from first community contact to staged public event. *Prerequisite:* THTR 587. Instruction Mode: Lecture Grading Option: Letter

THTR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

THTR 591 Seminar in Producing Theatre

Units: 4 A seminar in the theories and processes of producing theatre (commercial and non-profit).

THTR 592a Participatory Action Research for Community-based Theatre

Units: 2 Terms Offered: FaSp Examination of theories and practices of Participatory Action Research (PAR) to better understand its various forms in community-based contexts using theatre as the research mode. Instruction Mode: Lecture Grading Option: Letter

THTR 592b Participatory Action

Research for Community-based Theatre
Units: 2 Terms Offered: Sm Implements the theories and practices of THTR 592a towards the creation of a summative research paper on the local and international applied theatre arts experience. Instruction Mode: Lecture Grading Option: Letter

THTR 593 MFA Project

Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Credit awarded upon completion of project. Instruction Mode: Lecture Grading Option: Credit/No Credit

THTR 594a Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 594b Master's Thesis

Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 594z Master's Thesis

Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 595a Graduate Playwrights' Workshop

Units: 4 Development of thesis plays utilizing faculty dramaturgical support and involvement of student actors/directors. Includes readings with/without audiences. Simulates professional development process. Instruction Mode: Lecture Grading Option: Letter

THTR 595b Graduate Playwrights' Workshop

Units: 4 Continued development of thesis plays in a simulated professional development workshop process utilizing dramaturgy and involvement of student actors/directors. Culminates in staged readings. Instruction Mode: Lecture Grading Option: Letter

THTR 596 Thesis Development and Attainment

Units: 2 Max Units: 10.0 Designed to guide the MFADW student toward refinement of thesis including vision, development, and execution. Instruction Mode: Lecture Grading Option: Letter

THTR 597 Theatre Practicum

Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Preparation, rehearsal, and performance of dramatic works in main stage repertory. Instruction Mode: Lecture Grading Option: Letter

THTR 598 Applied Theatre Arts: International Externship

Units: 2 Supervisory, logistical and theoretical container for students exploring cultural fieldwork in international settings. *Prerequisite:* THTR 588. Instruction Mode: Lecture Grading Option: Letter

THTR 599 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Studies in selected areas of theatre art. Instruction Mode: Lecture Grading Option: Letter

Dramatic Arts Expanded**THTE 201aL Acting for Musical Theatre**

Units: 2 Terms Offered: Fa Analysis and investigation of role interpretation and character development by working on two or more scenes from the same play. Introduction of techniques to unlock objectives based on the text. *Prerequisite:* THTR 120b and THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 201b Acting for Musical Theatre

Units: 2 Terms Offered: Sp Continuation of analysis and investigation of role interpretation and character development by working on two or more scenes from the same play. Introduction of techniques to unlock objectives for character creation. *Prerequisite:* THTE 201aL Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 203 Speech

Units: 2 Terms Offered: Sp A guided study of dialect acquisition. Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 300L Script and Score

Units: 2 Terms Offered: Fa Introduction and development of techniques needed to transition from the script to score. Beginning with an exploration of Broadway's "Golden Age" and the examination of Sondheim and his contemporaries. *Prerequisite:* THTR 120aL and THTR 120b and THTR 125 Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 301L Script, Score and Choreography

Units: 2 Terms Offered: Sp Study of the musical comedy and the connection between script, score and choreography. *Prerequisite:* THTR 120aL and THTR 120b and THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 403L Contemporary Scene Into Song

Units: 2 Terms Offered: Fa Exploration of popular music styles and their direct application to professional musical theatre. Registration Restriction: Open only to Musical Theatre juniors and seniors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 406 New Musical Theatre Workshop

Units: 2 Terms Offered: Fa Exploration of the process of collaboration for musical theatre through a series of structured writing exercises to create new works. *Prerequisite:* THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Grading Option: Letter

THTE 407 Building Your Cabaret

Units: 2 Terms Offered: Sp Development of skills needed to create a solo musical cabaret performance. Registration Restriction: Open

only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 408L Movie Musical Development

Units: 2 Terms Offered: Sp Survey and analysis of musical films from the 1960s to the present towards the creation of an original musical project. *Prerequisite:* THTR 480a Registration Restriction: Open only to Musical Theatre seniors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 414 Secrets of Storytelling

Units: 2 Terms Offered: FaSp Development of a thorough understanding of story - medium and genre - through script analysis, as they pertain to the practical demands of a working entertainment professional. Instruction Mode: Lecture Grading Option: Letter

Translational Genomics**TRGN 510 Basic Foundations in****Translational Biomedical Informatics**

Units: 4 Terms Offered: FaSp Translational biomedical informatics analysis of next-generation sequencing genomic data, fundamentals, foundations, and concepts for applied analysis, human ontology, application molecular tools, basic computing. Instruction Mode: Lecture Grading Option: Letter

TRGN 514 Introduction to Human Genomic Analysis Methods

Units: 4 Terms Offered: FaSp Translational next generation sequencing genomics microarrays, RNA-seq, exome sequencing, annotation, transcriptome, ontology, pipelines, variants, expression, methylation. Instruction Mode: Lecture Grading Option: Letter

TRGN 515 Advanced Human Genomic Analysis Methods

Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microarrays, analytical validation, pipelines, molecular analysis. *Prerequisite:* TRGN 510 and TRGN 514 Instruction Mode: Lecture Grading Option: Letter

TRGN 516 Translational Genomics, Applied Databases and Datastructures

Units: 4 Terms Offered: FaSp Genomics, bioinformatics resources, NCBI, portals, databases, datastructures, NoSQL, SQL, big data. *Prerequisite:* TRGN 510 and TRGN 514 Instruction Mode: Lecture Grading Option: Letter

TRGN 520 Translational Biomedical Informatics Capstone Portfolio

Units: 2, 3, 4 Max Units: 04 Terms Offered: FaSpSm Portfolio, translational biomedical informatics, bioinformatics, genomics, application development, web-based application. Registration Restriction: Open only to master students in Translational Biomedical Informatics Program Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 524 Applications of Genomic Technology in Biomedical Research I

Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microarrays, commercialization, microarray analysis, expression, proteomics. Instruction Mode: Lecture Grading Option: Letter

TRGN 525 Applications of Genomic Technology in Biomedical Research II

Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microarrays, analytical validation, pipelines, molecular analysis, cloning, stem cells. *Prerequisite:* TRGN 524 Instruction Mode: Lecture Grading Option: Letter

TRGN 526 Clinical Bioinformatics in Genomic Testing

Units: 2 Terms Offered: FaSp Covers basic understandings of clinical bioinformatics methodologies and practices, along with the genomic technologies used for clinical diagnostic purposes. *Recommended Preparation:* Bachelor's degree in biology, healthcare, biochemistry, or related biomedical field Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

TRGN 527 Applied Data Science and Bioinformatics

Units: 4 Terms Offered: FaSp Data science and bioinformatics tools in the study of human health and disease using R and Bioconductor for students from non-quantitative backgrounds. Registration Restriction: Open only to graduate and doctoral students Instruction Mode: Lecture Grading Option: Letter

TRGN 536 Biotechnology Primer

Units: 4 Terms Offered: FaSp Examination of classical and novel techniques used to explore and manipulate gene function and implications for the use of biotechnology in areas of global need. *Recommended preparation:* two semesters of introductory biology; two semesters of molecular biology and genetics. *Recommended Preparation:* Two semesters of introductory biology; two semesters of molecular biology and genetics Duplicates Credit in former MEDS 536 Instruction Mode: Lecture Grading Option: Letter

TRGN 537 Pathway and Target Discovery

Units: 4 Terms Offered: FaSp Exploration of the process of discovering and developing novel therapeutic treatments. *Recommended Preparation:* Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell Bio Duplicates Credit in former MEDS 537 Instruction Mode: Lecture Grading Option: Letter

TRGN 538 Seminar in Translational Biotechnology

Units: 2 Terms Offered: FaSp Series of seminars that provide updated views on various sub-specialties in biotechnology. *Recommended Preparation:* Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell

Bio Duplicates Credit in former MEDS 538 Instruction Mode: Lecture Grading Option: Letter

TRGN 539 Translational Biotechnology Practicum

Units: 2, 3, 4 Max Units: 04 Terms Offered: FaSpSm Experiential training based on a project in a biomedical, biotechnology or pharmaceutical setting. *Recommended Preparation:* Students must have completed one core and one elective course of the program prior to enrollment Duplicates Credit in former MEDS 539 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 540 Translational Biotechnology Capstone Preparation

Units: 1 Terms Offered: FaSpSm Preparation for capstone defense course. Duplicates Credit in former MEDS 540 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 541 Translational Biotechnology Capstone Defense

Units: 2 Terms Offered: FaSpSm Finalization and defense of capstone project. *Prerequisite:* TRGN 539 and TRGN 540 Duplicates Credit in former MEDS 541 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 542 Biotechnology-based Therapeutics

Units: 2 Terms Offered: FaSp Covers advanced biotechnology principles and applications. Duplicates Credit in former MEDS 542 Instruction Mode: Lecture Grading Option: Letter

TRGN 543 Biotechnology Entrepreneurship and Commercialization I

Units: 2 Terms Offered: FaSp Global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. Instruction Mode: Lecture Grading Option: Letter

TRGN 544 Biotechnology Entrepreneurship and Commercialization II

Units: 2 Terms Offered: FaSp Advanced discussion: global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. *Prerequisite:* TRGN 543 Instruction Mode: Lecture Grading Option: Letter

TRGN 545 Exploring Chemical and Biological Therapeutic Modalities

Units: 2 Terms Offered: FaSp Turning molecules into drugs and cells into therapeutics. Emphasizing selection, development and optimization of appropriate modalities to target specific key defects in diseases. Instruction Mode: Lecture Grading Option: Letter

TRGN 546 Biotechnology Intellectual Property, Regulatory, and Corporate Law

Units: 2 Terms Offered: FaSp Core concepts in intellectual property law, regulatory law, healthcare law, corporate law, and M&A law to the biopharmaceutical and diagnostic device sectors. Open to students who are pursuing or have already attained graduate degrees (MS, PhD or PharmD) in the bioscience disciplines, or students from professional schools who have college-level bioscience background. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 548 Seminar in Translation and Entrepreneurship in Biomedical Sciences

Units: 1 Max Units: 02 Terms Offered: FaSp Series of seminars that provide updated views on various sub-specialties in translation and entrepreneurship in biomedical sciences. Instruction Mode: Lecture Grading Option: Letter

TRGN 549 Translation and Entrepreneurship in Biomedical Science Capstone Project

Units: 2 Terms Offered: FaSpSm Experiential training based on a project in translation and entrepreneurship in biomedical sciences. Registration Restriction: Open only to TEBS majors Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 550 Communicating Science: Writing

Units: 1 Terms Offered: FaSp Written communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 551 Communicating Science: Speaking

Units: 1 Terms Offered: FaSp Verbal communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in MS, Translational Biotechnology Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 599 Special Topics

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Translational Genomics. Instruction Mode: Lecture Grading Option: Letter

University of Southern California

USC 101 Honors Research Apprenticeship

Units: 1 Max Units: 2.0 Students work directly with faculty on faculty research projects, gain experience in the process of research and thereby contribute to new scholarship. Instruction Mode: Lecture Grading Option: Credit/No Credit

USC 250 The Academic Culture

Units: 2 Terms Offered: FaSp Study the meaning of culture in society, experience the culture of learning on campus, and examine the relationship between the two. Topics will vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

Visual Studies

VISS 501 Introduction to Visual Studies: Methods and Debates

Units: 4 Terms Offered: Fa A critical introduction to the field of visual studies focusing on interdisciplinary approaches to images, objects, and visual technologies as well as key texts and interpretive debates. Registration Restriction: Open only to doctoral students Duplicates Credit in MDA 501 Instruction Mode: Lecture Grading Option: Letter

VISS 599 Special Topics

Units: 2, 3, 4 Max Units: 8 Terms Offered: Sp Focuses on a comparative investigation of ways in which people in the past used images to make history by recording current events and subsequently use them to create narratives about the past. Instruction Mode: Lecture Grading Option: Letter

Writing Program

WRIT 095x Writing Tutorial

Units: 1 Terms Offered: FaSpSm Individualized instruction in writing to support instruction in WRIT 130 or WRIT 150. *Concurrent Enrollment:* WRIT 130 or WRIT 150. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 120 Introduction to College Writing

Units: 4 Terms Offered: FaSpSm Intensive instruction and practice in the writing process. Focuses upon the formal conventions and conceptual expectations of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 121 Introduction to College Writing in a Second Language

Units: 4 Terms Offered: FaSp Intensive instruction and practice in the writing process for non-native speakers of English. Focuses on the formal and conceptual conventions

of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 130 Analytical Writing

Units: 4 Terms Offered: Sp Focuses on analytical and argumentative writing skills requisite to academic and professional writing. Emphasizes logical analysis of texts and other data, effective use of evidence, ethical argumentation, and stylistic and grammatical fluency. Enrollment limited to specified groups of students. Students must achieve a satisfactory score on the verbal portion of the SAT, the USC Writing Examination, or credit for WRIT 120 or WRIT 121 before enrolling in WRIT 130. Instruction Mode: Lecture Grading Option: Letter

WRIT 133 College Writing for International Students

Units: 4 College writing for International Students, emphasizing the expectations of academic discourse in U.S. higher education while drawing upon a context informed by cross-cultural perspectives. *Recommended Preparation:* International Academy course work. Instruction Mode: Lecture Grading Option: Letter

WRIT 150 Writing and Critical Reasoning—Thematic Approaches

Units: 4 Terms Offered: FaSpSm Academic writing, emphasizing analysis and argumentation, rhetorical judgment, critical reasoning, creative insight, the careful use of evidence, ethical perspectives, logical organization, stylistic and grammatical fluency. Duplicates Credit in WRIT 130 and former WRIT 140. Instruction Mode: Lecture Grading Option: Letter

WRIT 320 Inside-Out Writing Workshop

Units: 2 Terms Offered: FaSpSm A writing workshop that allows students to deepen their writing skills while working collaboratively with diverse groups, programs, or populations outside of USC. *Prerequisite:* WRIT 150 Instruction Mode: Lecture Grading Option: Letter

WRIT 340 Advanced Writing

Units: 3, 4 Terms Offered: FaSpSm Instruction in writing for various audiences on topics related to a student's professional or disciplinary interests, with some emphasis on issues of broad public concern. *Prerequisite:* WRIT 130 or WRIT 150. Instruction Mode: Lecture Grading Option: Letter

WRIT 380 Writing in Global Contexts

Units: 2 Terms Offered: FaSpSm Integrates global travel with experiential learning as a means of helping students to sharpen their writing and critical reasoning skills. *Prerequisite:* WRIT 150 *Recommended Preparation:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

WRIT 385 Writing Fellows Practicum

Units: 2 Terms Offered: FaSpSm WRIT 340 Practical, hands-on instruction in the teaching of writing in different contexts. *Prerequisite:* WRIT 150 *Recommended Preparation:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

WRIT 440 Writing in Practical Contexts

Units: 4 Terms Offered: FaSpSm Advanced training in analytical and argumentative writing for particular purposes, in professional and practical contexts. *Prerequisite:* CORE 112 or WRIT 340. Instruction Mode: Lecture Grading Option: Letter

WRIT 450 Advanced Research Writing

Units: 4 Terms Offered: FaSpSm Instruction in writing and research techniques in support of a capstone undergraduate research thesis in the humanities, social sciences, or sciences *Prerequisite:* WRIT 150 and WRIT 340 Registration Restriction: Not open to freshman and sophomore students Instruction Mode: Lecture Grading Option: Letter

WRIT 499 Special Topics

Units: 1, 2, 4 Max Units: 08 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

WRIT 501a Theory and Practice in Teaching Expository Writing

Units: 1 Terms Offered: Fa Pedagogical application of rhetorical and linguistic theory to teaching university-level expository writing. Accompanies supervised teaching. Limited to assistant lecturers and teaching assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 501b Theory and Practice in Teaching Expository Writing

Units: 1 Terms Offered: Fa Pedagogical application of rhetorical and linguistic theory to teaching university-level expository writing. Accompanies supervised teaching. Limited to assistant lecturers and teaching assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 540 Writing for Master's Students

Units: 4 Terms Offered: FaSpSm Instruction to prepare Master's students for writing in academic and professional contexts. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

About the Catalogue

The *USC Catalogue* is the document of authority for all students. The program requirements listed in the *USC Catalogue* supersede any information that may be contained in any bulletin of any school or department. The university reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings and any other contents of this catalogue at any time.

University Park Campus
Los Angeles, California 90089

Contact Us

The USC Catalogue is published online annually in June. There is no longer a print version though a print-friendly capability is offered. Once the Catalogue is published, changes can only be made to correct inaccuracies. From October to May, the Catalogue Office is in production on the next year's Catalogue, known as the "Production" Catalogue. The Catalogue Office works in conjunction with the Curriculum Coordination Office to update curricular information in the upcoming Catalogue during the production months. For information, contact the Catalogue Office at regpub@usc.edu.

Credits

The *USC Catalogue* is published by the Office of the Registrar, Catalogue Office, (213) 740-1207. The catalogue publishes online in June 2019 as the document of authority for the following academic year.
